"The supervisor of home economics education shall cooperate with the state institutions approved for preparing teachers of vocational home economics through curriculum development, research, special demonstration, and experimental programs, development of instructional materials, and provision of equipment."

§24:10:21:01 -- 07

"Applications for federally supported cooperative vocational education programs shall be made to the board for consideration under the special provisions of this chapter.

"Applications for federal funds for cooperative vocational education programs will be considered for the following purposes only to:

"(1) Provide financial assistance for personnel to coordinate such programs;

"(2) Provide instruction related to the work experience;

"(3) Reimburse employers when necessary for certain added costs incurred in providing on the job training through work experience;

"(4) Pay costs for certain services, such as transportation of students or other unusual costs that the individual students may not reasonably be expected to assume while pursuing a cooperative work-study program;

"(5) Conduct pre-service or in-service training for personnel to conduct such programs;

"(6) Pay costs of planning and organization of such programs.

"Applications for cooperative vocational education programs shall include information on the nature, the duration, the purpose and plan of the project, the value to vocational education, the qualifications of the staff, the financial arrangements and the participation of public and private employers, number of private nonprofit school students to participate, and the degree and manner of expected participation of such students.

"The director, in establishing priorities for local applications, will consider the impact on needs of disadvantaged youth, impact on reducing youth unemployment, promotion of cooperation between public education and public and private employers, relevance to annual and long range plans, adequacy and competency of staff, adequacy of facilities, reasonableness of cost estimates, expected outcomes, and such other factors as may be deemed pertinent.

"After review by the director, the applicant will be notified, in writing, about the disposition of the proposal. This action shall normally take no more than thirty days. It may be approved in whole or in part, approved conditionally, or disapproved or action may be deferred for stated reasons.

"Cooperative vocational education programs will provide on the job training which:

"(1) Is related to existing career opportunities susceptible to promotion and advancement;

"(2) Does not displace other workers who perform such work;

"(3) Employs student learners in conformity with federal, state and local laws and regulations and in a manner not resulting in exploitation of the student learner for private gain; and

"(4) Is conducted in accordance with a written agreement.

"Cooperative vocational education programs will be approved only if the state board determines, on the basis of information in local applications, that necessary procedures have been established for cooperation with employment agencies, labor groups, employers, and other community agencies in identifying suitable jobs for persons who enroll in cooperative vocational education programs."

AUTHORITY: SDCL 13-39-37; 13-39-64

§24:10:21:10

"The local education agency must make a preliminary and follow up study of the students involved in the cooperative education program, and give an evaluation report of the program. The local educational agency will provide continuous supervision through the coordinator to provide evaluation of the on the job training program. The local coordinator will develop a follow up program on each student for a period of three years."

AUTHORITY: SDCL 13-39-37; 13-39-64

§24:10:23:01 -- 04

"Applications by a center for new programs shall be made to the state director. Such applications shall be made prior to January 15 of the year in which the program is sought to be instituted. The board may prescribe forms for such application.

"An application for a new program shall state the nature and objectives of the program, the personnel needs, the projected cost thereof, and such other information as the state board may request. The board may prescribe application forms to be used.

"Among the criteria to be used in determining the appropriateness of individual courses are the state's manpower needs and job opportunities and the existence of adequate enrollment and adequate facilities.

"Written notice of the board's decision shall be timely given to the center board."

AUTHORITY: SDCL 13-39-64

§24:10:24:01 -- 02; 04 -- 10

"Each multidistrict secondary vocational education center, hereinafter referred to as "MDSOVEC", shall be organized and administered by a center board.

"Each center's board shall employ administrative personnel for effective operation of the center according to rules, policy or procedure developed by the center board and approved by and filed with the state board.

APPOINTMENT

"A director shall be appointed by the center board and said director shall have the necessary authority to effectuate the purpose of the MDSOVEC. The director shall have such qualifications as the state board, in its discretion, may provide.

"To become a MDSOVEC and to quality for accreditation, a MDSOVEC shall enroll a sufficient number of students, the number to be determined by the state board. A participating district of the MDSOVEC may include grades nine through twelve, but should emphasize vocational instruction for grades eleven and twelve.

"A MDSOVEC is considered to be an extension of the home school and students must be, and must remain, full-time enrollees.

"A participating school district shall report to the center board students to be counted as full-time enrollees of the local school for the purpose of

reporting to the state division of elementary and secondary education.

"A MDSOVEC shall keep records and reports relative to student personnel, staff, instructional supplies, curriculum, student activities, instructional media, guidance, school plant, administrative operation and job placement and follow up studies of graduates. Records shall be housed safely from fire and theft. Forms for such reports may be prescribed by the state board.

"A participating school shall organize its schedule of classes in a pattern most appropriate to achieve objectives of the program and may provide varying time periods as needs arise. The sharing of the students' time between the participating school and the MDSOVEC shall be a minimum of one hundred twenty minutes per day, excluding travel time."

AUTHORITY: SDCL 13-39-64

§24:10:25:01 -- 05; 07 -- 09

"Applications for federally supported work study programs for vocational education students shall be made to the board for consideration under the special provisions of this chapter. It is the policy of the board to approve applications submitted by the local education agencies, giving preference to applications submitted by communities with high concentrations of youth unemployment and school dropouts, insofar as financial resources are available for the undertaking of such programs.

"An application for a work study program shall be prepared in consultation with assigned professional staff of the board on forms developed and provided by the board. Such form shall include information on the nature, duration, and purpose of the program, qualifications of staff, and financial arrangements for payment of students.

"Applications will be reviewed and weight assigned to important factors, including assigning priorities to local educational agencies with high concentrations of youth unemployment and school drop-outs and applying other criteria such as relevance to annual and long range plans, adequacy and competence of staff, reasonableness of cost estimates and expected outcomes. Action on applications will be made by a committee of three or more supervisors from the state staff to evaluate such application and determine that all provisions are met as provided in the state plan. The director will review the committee's recommendation and will approve or disapprove the application.

"The work study program will be administered by the local educational agency and made reasonably available to the extent of available funds to all qualified youth in the area served by such agency.

"Employment under the work study program will be furnished only to a student who:

"(1) Has been accepted for enrollment, or, if she/he is already enrolled, is in good standing and in full time attendance as a full time student in a program which meets the standards prescribed by the state board and the local education agency for vocational education programs;

"(2) Is in need of the earnings from such employment to commence or continue her/his vocational education program; and

"(3) Is at least fifteen years of age and less than twenty-one years of age at the date of the commencement of employment and is capable in the opinion of the appropriate school authorities of maintaining good standing in her/his school program while employed under the work study program.

"No student will be employed during an academic year or its equivalent for more than fifteen hours in

any week during which classes in which he is enrolled are in session."

AUTHORITY: SDCL 13-39-37; 13-39-64

§24:10:27:04 -- 06

"Applications for grants or contracts will describe the nature, duration, purpose, and plan of a proposal project for research and training, the use to be made of the results of regular programs of vocational education, the qualifications of the personnel staff who will be responsible for the program or project, a justification of the amount of grant or contract funds requested, the proportion of the cost to be funded by the applicant and such other pertinent information as the state may require.

"In reviewing proposals the board will consider their educational significance, including the expected potential impact on the operating program and their relevance to current statewide priorities, effectiveness and efficiency of plan, adequacy and competence of personnel, adequacy of facilities, and economic efficiency.

"The educational significance and efficiency of the plan of development and demonstration project proposals will, in addition, be judged on their potential impact upon disadvantaged youth, youth unemployment, the development of cooperative arrangements with other agencies and institutions, and the provision for meaningful inclusion of students in private nonprofit schools, where relevant. A recommendation in regard to the application will be made by the state advisory council. Following review of the proposal as hereinbefore provided, the applicant will be notified, in writing, of the disposition of the proposal. This action shall normally take no more than thirty days. It may be approved in whole

or in part, approved conditionally, disapproved or action may be deferred for stated reasons.

AUTHORITY: SDCL 19-39-37; 13-39-64

§24:10:28:01 -- 06

"The [state] board shall coordinate its staff preparation and development activities with the pertinent programs provided for by the Educational Professional Development Act. The board may, through contractual agreements, find designated institutions to achieve the objectives of personnel development. The advisory committee may so recommend.

EVALUATION

"The staff of the board shall make periodic evaluations of the total program. Such evaluation shall include consultation with local administration, classroom visitation, interviews with teachers, counselors and administrators, and such other actions as may be deemed necessary. There shall be at least one visit per year to each teacher and to each consumer institution for purposes of evaluation.

SCHOOL VISITS

"The board will review project, programs or contractual agreements to determine if the project is designed to meet the needs for trained professional personnel for the state vocational education program, especially for the disadvantaged and handicapped programs; to determine if the project provides an in-service program for those presently teaching in vocational education programs; to determine if the program is realistic and relevant to current vocational education needs and is consistent with and an improvement in the state's vocational education professional personnel development program; to determine if the applicant has done adequate planning, reflecting on involvement of teachers and other personnel; to determine if there is sufficient data or funding and resources to enable the applicant to reach its objectives; to determine if sufficient data is

provided to evaluate its effectiveness; and to determine if the proposal addresses itself to the priority areas of the state's needs.

"The board through the director, with the assistance of its staff and fiscal officer, will participate in periodic consultations with the United States commissioner of education and his staff and will make such reports to the commissioner as she/he may consider reasonably necessary to carry out his responsibilities and keep such records, afford such access thereto, and comply with such other provisions as the commissioner may find necessary to assure [herself] himself that such reports are correct and verifiable. Such reports shall include the annual estimate of projected program needs and the annual report.

"An advisory committee is hereby created consisting of the director of vocational education, a designee of the board of regents, and the academic deans and head teacher trainers from northern state college, university of South Dakota at Springfield and South Dakota state university. Membership will be reviewed annually with replacements made on a need basis. The committee will evaluate the effectiveness of programs for teacher training and recommend changes to the state board of education and the board of regents.

EVALUATION

AUTHORITY: SDCL 13-39-37

§24:10:29:01 -- 03

"The general types of programs to be conducted include agricultural education, distributive education, consumer and homemaker education, occupational home economics, trade and industrial education, health education and technical education. Other programs or offerings may be considered by the board in its discretion. Proposals for vocational education programs may be made by the board, director, staff or

by an applicant. Special programs may be approved for the disadvantaged and the handicapped. Cooperative and exemplary programs may also be approved and the board may in its discretion consider and approve other special programs.

"Vocational education programs may be offered at the secondary school or post secondary school level or as adult programs."

AUTHORITY: SDCL 13-39-37; 13-39-64

IV.A.; Statute §13-24-18.2

STATUTES

§2601 — 2602

An area vocational school shall be defined as "a training program or school organized to provide training in vocational education to pupils in an area consisting of more than one county."

§2603 — 2604

Local boards of education connected with area vocational schools are authorized to contract for the "establishment, operation and maintenance of such schools." The terms of the contract made between the respective boards shall determine the basis for the admission of pupils, but in no event shall tuition be charged.

TUITION

These local boards of education are authorized to use public school funds for the operation of such school. Existing school plants may be used or new ones acquired or constructed.

§2605

Contracts made between the local school districts who maintain area vocational schools shall provide the method of administering such schools. Such administration may be placed under the county or city board of education, or under a board of control consisting of representatives from each of the participating school districts. The board of control shall elect its own officers, and shall have all the authority with respect to area vocational schools that county boards of education are authorized to exercise.

ADMINISTRATION

§2606

"Contractual arrangements entered into in establishing an area vocational school shall be for a period not less than five years nor more than ten years . . . and shall first be approved by the quarterly county court or city governing body of each county and city participating in the establishment, operation and maintenance of [such] school."

§2607; 2608

The purpose of an area vocational school shall be to give necessary instructions for the training of craftsmen in manipulative skills and business practices, the curriculum of which shall not duplicate that of the public schools except where necessary. "Pupils admitted. . . shall be of sufficient age and maturity to be able to perform the vocation or craft selected . . ." Admission shall not be based on "academic credits or college entrance requirements."

ADMISSION

"Transportation . . . may be provided . . .from local school funds in the same manner as provided for students attending other public schools."

§2609

"It is . . . the intent of the general assembly of the State of Tennessee to establish a statewide system of area vocational-technical schools, and regional technical schools, to meet more adequately the occupational and technical training needs of citizens and residents of this state . . . ."

§2610

The state board for vocational education is authorized to develop comprehensive plans to carry out the intent of the general assembly and "to locate, to establish, to construct and to operate a system of area vocational-technical schools and regional technical schools . . . ."

A regional technical school shall be established by the board in such location(s) as is deemed necessary to provide technical training, such school functioning as a two-year terminal training center for industry-bound engineering technicians and for preparing students to earn a living as technicians or technical workers in the field of production, distribution or service.

§2611

The state board for vocational education is authorized to appoint an advisory committee or consultants to advise the board with respect to the location, establishment and construction of the schools.

§2612

The state board for vocational education may contract with the local board(s) of education, counties or municipalities, public or private bodies, foundations or agencies or other groups to carry out the operation of area vocational-technical schools and of regional technical schools.

§2615

The state board for vocational education may accept any area vocational-technical school, or regional technical school already established, and use such school as one of the vocational-technical schools or regional technical schools.

§2701

The state board of education is designated the state board for vocational education and is authorized to accept on behalf of the state "all acts of congress pertaining to vocational education.. . ." It is the sole agency of the state for administering vocational education programs.

"Also, the state board for vocational education is authorized to make agreements with the federal and local government units "to participate in federal vocational education programs."

§2703

The state board of education shall prepare plans showing the kinds of vocational education that the appropriations shall be used for, the kind of equipment, courses of study, methods of instruction, and the qualifications of teachers. Plans shall also include qualifications of supervisors and plans for teacher training.

§2704 — 2706

After receiving the approval of the state commissioner of education, the state supervisor of vocational agriculture is authorized to use funds to promote vocational agriculture.

The money shall be used to offer scholarships to vocational agriculture students and to maintain state summer training camps for vocational agriculture students.

§2709

The intent of the general assembly is to have comprehensive vocational and technical education made available in grades nine through twelve. Counties shall be surveyed to determine the needed expansion of vocational and technical education programs for high school students. After this survey is taken, facilities shall be planned for comprehensive vocational training for high school students by the board of vocational education, in accordance with any of several alternatives, including comprehensive high schools, area vocational-technical schools, vocational training centers, and joint facilities serving two or more counties and/or school systems.

"The board of vocational education shall . . . adopt the plan of vocational and technical education program for each county."

§2710

All vocational courses, "supported in whole or in part by state funds . . . shall be offered and made available on an equal basis to any student, without regard to race, creed, sex or national origin of such student."

EQUAL OPPORTUNITY

REGULATIONS
p. 49

"Where two or more county, city, or special school district boards of education pool their resources in the establishment, operation, maintenance, and transportation of pupils of an area vocational school, such school shall meet the standards established by the State Board of Education for an approved school unless otherwise provided by law.

The State Commissioner of Education is authorized to grant waivers of any of these rules and regulations."

III.C.Student; Regulation pp.81-89

3. Vocational Education

Statutes

§11.34; 41; 42

"The State Board of Education is also the State Board for Vocational Education. As such it shall have the powers and . . . duties . . .[of]. . . the State Board of Vocational Education . . . . The state commissioner of education shall be the executive officer through whom the state board for vocational education shall carry out its policies and enforce its rules and regulations . . . .

Other functions and duties now or hereafter assigned to the supervision of the State Board for Vocational Education shall be carried out by appropriate divisions in the State Department of Education."

§16.103

School districts having a four-year accredited high school "shall be eligible . . . for two vocational teacher units to teach one or more vocational programs" if they are needed and have been approved by the commissioner.

"Additional vocational teacher units . . . may be allotted" according to community needs and approval by the commissioner.

A district qualifying "for less than one vocational teacher unit" may be allotted a fractional unit in order that it may employ a part-time vocational teacher.

School districts with accredited four year high schools may be eligible for "specialized vocational supervision units and vocational counselor units as there is need and in the number determined by application of formulas adopted by the State Board . . . and subject to approval by the commissioner. . ."

Vocational professional unit allotments shall be in addition to other professional unit allotments, in the amount of $400 for each unit.

School districts unable to offer appropriate vocational education programs "may enter into contracts with post secondary public institutions" to provide such

instruction, provided, however, that the instructors, materials and equipment utilized meet secondary program requirements. Any contract entered into "shall not exceed the cost that would result if the programs were operated by the . . . school districts" themselves.

In the event the cost of providing this program shall exceed the limits appropriated by the legislature, the commissioner, with the approval of the Board shall make whatever adjustments necessary to reduce the cost to the level of appropriation.

§21.107

COURSE OF STUDY

"All public free high schools located outside of incorporated cities or towns shall be required ... to offer instruction in agriculture, industrial arts, home economics, and other vocational studies."

§21.111-113

"The board of trustees of any public free school district of this state ... is ... authorized ... to conduct and supervise vocational classes and other educational programs for students of all ages; and ... to expend local maintenance funds for the cost...." The board is also authorized to purchase, acquire or lease real or personal property and to enter into contracts "pertaining to the [operation] of such programs by the district."

CONTRACT

"The board ... may contract with another school district... to provide vocational classes for students in the district." Any student benefiting from such an arrangement shall be computed in the attendance statistics of his her district of regular enrollment, and the cost is not to exceed that of regular enrollment fees. Materials and instructions must meet with the approval of the Central Education Agency and the "instructors teaching in private schools, which are contracting with public schools for

instruction of public school students, shall be eligible for the same in-service teacher education opportunities provided by the state for public school teachers."

"(E)very independent school district in a county having a population of 200,000 or more, ... may offer... (to) senior students a one-semester course in police administration and a one-semester course in fire protection administration...."

POLICE ADMINISTRATION

FIRE PROTECTION ADMINISTRATION

§27.01--.02

"A district to be known as the'_____ County Industrial Training School District' may be established and located in any county ... to provide vocational training for residents and nonresidents of such county."

Upon the receipt of a proper petition the commissioner's court will call for an election of three members of the board of trustees for the industrial training school district. These three persons shall then appoint four persons, one each from the city council of any incorporated city within the county, a member of the governing body of any other school district in the county, a juvenile judge for that county, and the county judge or a member of the commissioner's court. These persons shall be full voting members of the board of trustees, all members of which shall be residents of the county where the school district is established.

Vacancies will be filled by the elected trustees.

§27.03--.06

"The board ... shall select a chair[person] of the board and define his[her] duties, and shall have the power to remove him[her] when in its judgment the interest of the district shall require it," and shall have similar powers over other officers of the district. The board shall enact by-laws and arrange for and operate whatever facilities necessary for the district, and shall determine what departments of instruction shall be maintained.

In addition to these powers the board will:

1) make proper arrangements by contract with other educational institutions for the use of facilities and for the services of qualified personnel;

2) determine the qualifications for admission of students to any school established by the district;

3) determine the tuition and/or fees, if any, charged students attending any vocational training school established in the district;

4) grant diplomas for successful completion of any type of vocational training sought.

DIPLOMA

The board of trustees shall serve without compensation.

§27.07

"No industrial training school district may be established within any county, if any school district in that county has established or is in the process of establishing a vocational or technical high school."

Such a district may be abolished, by election of the voters.

§31.02--31.15

The purpose of the Technical Vocational Education Act of 1969 is to "provide the necessary legal basis to establish a state educational system which will develop trained personnel in the area of technical and vocational skills .... (and) to establish as a part of the total educational system of the (state) ... one council responsible for the development of a program to train manpower, through education, to further industrial and economic development in the (state)."

The advisory council, as created by the act, shall consist of 24 members appointed by the State Board of Education and will consist of:

APPOINTMENT

1) one member familiar with vocational needs and the problems of management;

2) one member familiar with vocational needs and the problems of labor in the state;

3) two members representing state industrial and economic development agencies;

4) one member actively engaged in the administration of community or junior college vocational-technical education;

5) one member actively engaged in technical training institutes;

6) one member familiar with the administration of state and local technical-vocational education programs;

7) one member having special knowledge with respect to the administration of state and local technical-vocational education programs but not involved directly in the administration of such programs;

8) one member who represents technical-vocational education at the secondary school level;

9) one member, representative of local education agencies and school boards;

10) one member who is familiar with programs of teachers' training for technical-vocational teachers in the post-secondary institutions;

11) one member who is familiar with post secondary baccalaureate technological degree programs;

12) one member representative of the manpower services councils of the state;

13) one member representative of those school systems with large concentrations of academically, socially, economically, or culturally disadvantaged students;

14) one member qualified in respect to the special educational needs of the physically or mentally handicapped persons;

15) one member qualified with respect to the locally administered manpower programs sponsored by organizations having voting representatives of the socio-economically disadvantaged in their policy-making bodies;

16) four members representing a cross section of industrial, business, professional, agricultural, and health service occupations;

17) one member representing the general public;

18) one member representing proprietary vocational-technical schools of the state;

19) one member who is a present or a recent vocational education student who is not otherwise qualified for membership; and

20) one member representing the State Employment Service qualified with respect to career development, placement, development or adjustment.

[M]embers of the council hold office for staggered terms of six years. A chairperson of the council shall be selected annually from the council.

A majority of council members represents a quorum at a meeting, meetings will be held quarterly or on request of the chairperson. The public is to be informed of the items finalized at such meetings.

§31.17--.19

APPOINTMENT

The chairperson of the Advisory Council for Technical Vocational Education may appoint such committees of the council or such advisory committees as the council shall deem necessary.

"The council shall adopt and publish rules of procedure for the orderly transaction of its business", and shall "grant any educational institution within its purview a hearing upon request."

The council will appoint those employees necessary to perform its duties.

§31.31--.37

The principal function and purpose of the Advisory Council for Technical-Vocational Education is "to cause to be established a climate conducive to the development of technical , vocational, and manpower training in educational institutions in the (state) ..." as well as planning, recommending and evaluating educational plans in these areas.

It will also be the duty of the council to "recommend the coordination and implementation of programs of training consistent with the purpose" of the forementioned areas.

Additional functions are to:

1) recommend and evaluate the role and scope of educational institutions in the state in a comprehensive plan for developing manpower education;

2) recommend the appropriate subjects to be taught at each level of training;

3) recommend a state plan designating the method and criteria to be utilized in establishing all technical schools, in development of a comprehensive manpower program and a means of coordinating manpower training;

4) recommend and evaluate a list of courses offered by institutions and pilot projects, and present these recommendations to the governor and legislature, along with methods of funding existing programs and propose new methods;

5) recommend the establishment of the responsibility of educational institutions handling the program and encourage and evaluate cooperative programs between these institutions and industry;

6) provide up-to-date information on employment opportunities in the state economy to persons trained in these institutions;

7) recommend necessary research projects and a program of teacher certification as well as recommend and evaluate a statewide plan for the development of a comprehensive program of apprenticeship training;

8) support actions and activities to encourage and strengthen local and regional vocational advisory councils in carrying out their responsibilities; and

9) recommend methods through which increasing numbers of handicapped individuals may benefit from such programs and recommend and evaluate innovative programs for these individuals.

It will be the duty of the council to report on related programs; on its own activities; and the number of handicapped individuals deriving benefits from such programs to the governor and to the legislature, the last two of which should be presented annually.

The council shall encourage cooperation between public and private institutions; all state boards and agencies are directed to cooperate with the council and supply information and material to it. The council may contract with anyone in a way that reduces duplication and achieves better utilization of personnel and facilities.

§31.39

The State Board for Vocational Education may accept or reject any recommendations made by the Advisory Council for Technical-Vocational Education; those rejected must be returned immediately to the council.

REGULATIONS

§3231

APPOINTMENT

"The State Board of Education appoints members of the Advisory Council for Vocational-Technical Education . . . from a list of persons recommended by the Governor . . . ." Included within this series is a list of seventeen job qualifications that may apply to members of the Council, all of which have to do with familiarity and expertise related to vocational education and its needs.

"The Texas Education Agency provides offices and other supportive services . . . for the . . . Council . . . ." The Agency also "gives due consideration to all recommendations made by the council regarding the planning . . . in public schools . . . to meet the needs of industrial and economic development in the State.

"The Council concurs in any amendment made to the State Plan for Vocational Education before it is placed before the State Board of Education."

§3231.1

"The State Board of Education also serves as the State Board for Vocational Education . . . and is the sole agency to enter into agreements with the federal government pertaining to the expenditure of funds for vocational and technical education. The Commissioner

. . . shall allocate vocational teacher units and other professional personnel to public school districts . . . , provide certain ancillary or supportive services . . . , and govern the allocation and financing of vocational education programs, services and activities conducted in accordance with . . . provisions . . . ."

§3231.2

APPOINTMENT

"A 21-member representative Advisory Council for Technical-Vocational Education in Texas is appointed by the State Board . . . after recommendation by the Governor and subject to confirmation by the Senate."

"The Council shall make independent studies of manpower needs and job opportunities within the state, provide information and planning, and be responsible for data needed for evaluating, planning, and making recommendations regarding the coordination and implementation of technical-vocational education at all levels to the Board . . . ."

§3231.3

APPOINTMENT

"The State Board for Vocational Education provides three members, appointed by the chairman of the Board, to serve with the like membership from both the State Advisory Council and the Coordinating Board, Texas College and University System, on a joint Committee which . . .(is) to advise in the coordination of criteria for approval and funding vocational-technical occupational programs and in the approval criteria and financing of teacher-education programs offered . . . in the colleges and universities of the State."

§3233-3235

There will be two types of vocational teacher units: a full vocational teacher unit which represents "one vocational teacher receiving a full-time annual salary" and a fractional unit which "shall be a lesser portion of a full unit . . . ."

"Each school district having a four-year accredited high school shall be eligible . . . for two vocational teacher units . . . provided there is need thereof, and provided the program(s) (involved) are on the current list of courses certified . . . .

A district having an accredited high school which qualifies . . . for less than one vocational teacher unit may be allotted a fractional part of a unit . . . ." These policies also pertain to budget balance districts.

"Allocation of a one-half vocational unit to each of two schools wishing to share a single teacher unit may be made, provided that the minimum eligible student memberships required for a one-half unit is assured by each school.

Special consideration shall be given to approving . . . units . . . when unusual circumstances prevent a public school from conforming to all the requirements for the approval of a unit.

"Vocational teacher units shall be located in accordance with the allocation of professional units to the Department of Corrections" provided certain criteria are met.

"Reallocation of existing units is contingent upon the district's adherence to state plan requirements." Evaluations are to be made by the school districts as to the effectiveness of vocational education in terms of how realistic it is in light of "anticipated opportunities for gainful employment in the area served by the school; how well suited to the need of the student that education is; and how effective in terms of placement the programs are.

"The average membership of eligible students officially enrolled in approved vocational programs during the current school year shall be the basis for the reallocation of such units for the succeeding year."

"An additional teacher unit (is). . . a duplicate unit . . . . A school district shall be eligible (for

such a unit). . . if reallocation of the existing unit is justified . . . . a district desiring to expand its vocational program in the same subject or course, shall submit an application" for such with the Texas Education Agency.

". . .(P)riority shall be given to districts requesting new vocational teacher units in one or more vocational programs before consideration is given to schools requesting additional units in the same vocational fields.

Formulas and procedures shall be established . . . to determine the maximum number of vocational education units . . . ."

Exceptions may be made in the matter of additional units "if a school district can show that . . . (it) will result in benefits to the instructional programs.

"School districts which have been allocated funds for vocational programs . . . shall have the responsibility of providing data and information requested.

Vocational supervisor units and . . . counselor units may be authorized as provided in the Foundation School Program and as defined by the Commissioner of Education.

Vocational supervisor units and . . . counselor units are allocated in accordance with need to school districts having four-year accredited high schools" as well as to the Department of Corrections in accordance with the allocation of professional units.

"A student eligible to be counted in the minimum membership required for allocation or reallocation of vocational teacher units . . . shall be:

ELIGIBILITY

1) a regular student of the district;

2) under 21 years of age as of September 1;

3) legally enrolled; and

4) in regular attendance.

Any student in both special education programs and occupational education programs" may be counted for reallocation in both programs if both of the programs

are approved. A student may not be counted as an eligible student in a program for longer than that program is conducted in the school which he/she attends.

"A handicapped student . . . may be counted as an eligible student in a regular vocational program if it is designed and approved to meet his/her special needs . . . ."

A student should be given specific instruction required in his/her intended occupation.

Exceptions may be made by the agency to let some otherwise ineligible students into vocational education programs.

§3234; 3235

"Vocational supervisory units are allocated for the purpose of providing administrative and supervisory services to the various vocational educationprogams, services, and activities . . . .

Vocational counselor units are allocated to . . . assist persons in making informed and meaningful occupational-career choices . . .

Applications by school districts for (such units) are made to the Department of Occupational Education and Technology." Upon a review of such applications the Department bases its approval on a list of requirements based on minimum full time teacher unit requirements in different areas, and also based on the local plan for utilizing the services of these special units.

For vocational counselor units a school district "is eligible to apply for the allocation of a . . . unit on the basis of one counselor for the first 300 vocational students enrolled and one additional counselor for every additional 500 vocational students enrolled in approved vocational courses.

Students expected to be enrolled in a vocational program other than consumer and homemaking education must have the interest, aptitude, and ability to benefit from the program and have as their objective entrance into full time employment in the occupation for which they would be trained upon completion of the program. These

programs are designed to (1) assist students in making informed and meaningful occupational choices; (2) prepare students for gainful employment, or provide preparation for enrollment in an occupational program at a higher secondary or post-secondary level."

These students are counted as eligible students in only one unit. "Students simultaneously enrolled in other programs allocated in addition to classroom units may be counted as eligible students if the programs are specifically designed to meet the special learning needs of the students enrolled . . . ."

There is provided, within this series, a table representing specific program requirements for eligible students in vocational education along with appropriate footnotes.

"To provide for individual differences in the vocational needs of students, it is frequently advisable to provide a certain amount of instruction . . . through an interrelationship between two or more vocational education programs in which each program contributes to the preparation of students for employment." Such an approach may exist where a "cooperative effort of teachers in two or more vocational education programs" is in existence.

"Providing certain students can prove that they have the interest, aptitude and ability to benefit from a vocational education program and that their teacher has sufficient time to carry out the full scope of the course for which a unit was allocated, otherwise ineligible students may participate in vocational education programs, as long as not more than 10 percent of any class section is made up of the non-eligible students.

Vocation personnel travel is to be determined by the school districts.

"An area vocational school provides a program of vocational education in a minimum of five different occupational fields to meet the varying training needs of students in preparing for gainful employment; makes available, as needed, special programs of occupational training for potential school dropouts and other persons having academic or other handicaps preventing them from succeeding in regular programs of vocational education; and provides programs for adults as needed to prepare them for employment or provide them training or retraining to increase their knowledge and skills in present employment.

"An area vocational school may be (1) a specialized high school used exclusively or principally to prepare students for entering the labor market; (2) a department of a high school used exclusively or principally to prepare students to enter the labor market; (3) a technical or vocational school used exclusively or principally to prepare persons who have completed or left high school to enter the labor market; or (4) a department or a division of a post-secondary institution which provides vocational-technical education leading to immediate employment but not necessarily leading to a baccalaureate degree."

This series also includes the designation of county-wide vocational school districts as area vocational schools, as created by the Texas Legislature. "Provision is made . . . for vocational education for designation by the . . . Agency of one or more school districts in a county as an area vocational school. School districts will be eligible . . . when applicant districts have met conditions established . . . and when it is demonstrated that adequate provision is made for students who have need for programs of vocational education in the area vocational school who are residents of the applicant district and for students from neighboring districts within the county, or where appropriate from adjoining counties, and that the area vocational school can be operated economically on a continuing and educationally feasible basis."

Upon application by a district for designation as an area vocational school, the Texas Education agency shall determine if criteria is met. If the State Board designates a district as an area vocational school that district may apply for financial assistance.

Additional criteria for designation of area vocational schools includes:

1) "the geographic area to be served, its population density, and proximity to other designated area vocational schools;

2) the number of public school districts in the county . . . with which written agreements for providing vocational education have been executed between the districts and the applicant district as required;

3) the present and future number of available eligible students who desire, need, and are able to benefit from the vocational education programs planned;

4) the assurance of the establishment and maintenance of a program of student counseling, guidance, and selection to assist students in making sound decisions regarding enrollment in vocational education programs;

5) the present and future number of students eligible for enrollment in occupational training programs for potential school dropouts having special educational needs;

6) the present and future number of eligible adults needing and desiring training or retraining to prepare them for gainful employment or increase their knowledge in their present employment;

7) the number of employment opportunities available in wage-earning or income-producing occupations in the geographical area to be served by the area vocational school;

8) the appointment and use of representative advisory committees to provide the local board of trustees with advice and counsel related to need for programs in occupations existing in the area to be served; and

9) adequacy of the physical plant and facilities . . . and the availability of funds for initial and continuing operation of the area schools."

"A cooperative agreement between the applicant school district and each cooperating school district is provided the associate commissioner for occupational education and technology before final designation of the applicant school is made." Some of the points of understanding within the agreement include:

1) "any resident of the county-wide vocational school district who has attained the age of 14 years prior to September 1 shall be considered eligible to attend a school district in his[her] county designated as operating a vocational school program, providing he[she] is accepted by the district as qualifying under its entrance requirements.

TUITION

2) no tuition shall be charged any eligible resident of the county enrolled in said area vocational school program, if the county has voted and collects said county-wide tax in support thereof.

3) any pupil under 21 years of age on September 1 and who has not completed the twelfth grade shall be eligible to be counted in average daily attendance (ADA) for Foundation School Program purposes by the approved area vocational school provided he[she] does not attend school on a part-time basis in his[her] home district.

Where an eligible non-resident pupil attends an area vocational school on a part-time basis and spends the balance of the school day in school in his[her] home district, provided . . . his attendance in the area vocational school shall be considered eligible for the allotment of vocational units to the area vocational school.

4) Any eligible student resident in a school district which is under this agreement with a neighboring school district . . . shall . . . be received by the designated area district free of tuition . . . .

5) Any eligible student residing in a school district which is not listed under any agreement . . . may . . . be received by a designated area district in his [her] county or in an adjoining county if there is none in his[her] county, on terms as the receiving district may deem just and proper . . . .

6) Upon certification of the acceptance and vocational program enrollment of students from one district to another . . . the Texas Education Agency shall adjust its records to pay directly the state per capita apportionment to the respective district in which the students are received and educated.

An approved area vocational school that includes two or more public school districts, on a county-wide basis, or in an area encompassing more than one county, shall have a minimum of one trustee of each public school district in the designated area appointed by the board of trustees of the school district administering the area school in the designated area of the county to serve as an administrative advisory committee."

§3237.2

". . . [P]ublic educational institutions which have been designated by the State Board of Education as area vocational schools are eligible for reimbursement on the construction of facilities subject to the following terms and conditions.

(1) "The facility will be functional and will meet the needs of those persons and communities to be served.

(2) "The project will be undertaken in an economic manner and will not be elaborate or extravagent in design or materials.

(3) "Sufficient funds will be available to meet the local share of the cost of construction or renovating the facility.

(4) "When . . . completed, sufficient local funds will be available for effective use of the facility for the purpose for which it is being constructed or renovated on a continuing basis.

(5) "The interest of the State Board of Education or the local educational agency in the facility or in the land on which the facility is located will be sufficient to assure undisturbed use and possession for the purpose of construction or renovation and operation of the school

facility covered in the project during the expected usable life of such facility.

(6) Representatives of the U.S. Office of Education, and such other persons as the U.S. Commissioner of Education may designate, will have access at all reasonable times to the project wherever it is in preparation or progress, and the contractor will provide proper facilities for such access and inspection.

(7) All laborers and mechanics employed by contractors and subcontractors on all construction projects assisted under the 1963 Act will be paid in accordance with federal requirements existing at the time the contractual agreement between the State Board of Education and applicant school district is negotiated.

(8) The governing board of the applying school district certifies that the facility is to be built for the purpose of conducting vocational-technical education programs in accordance with policies of the State Board of Education.

(9) The applying school district agrees that whenever the facilities, in which the Texas Education Agency has an interest, are sold or no longer used for aporoved purposes, the Texas Education Agency will be credited with its proportionate share of the value of the facilities, the value being determined on the basis of the sale price in the case of a bonafide sale, or the fair market value in the case of discontinuance of use for a vocational-tehcnical education purpose or other diversion.

(10) The applying school district agrees that regular locally accepted school practices for contracting for new construction, expansion, or renovation will be used in awarding contracts for this project, and that all construction shall be done in accordance with local building codes and practices and is consistent with applicable state and federal laws.

(11) The applying school district certifies that the plans and specifications for construction are functional,

economical, reasonably accessible to the physically handicapped, and appropriate for the type of programs of instruction to be offered.

(12) The associate commissioner for occupational education and technology will be consulted by the school district for approval of any major revision of the plans and specifications that may be contemplated subsequent to this approval, and representatives of the Texas Education Agency will be permitted access at all reasonable times to the project wherever it is in preparation or progress.

(13) A copy of the contractual agreement between the general contractor and the participating school official shall be filed with the Texas Education Agency as soon as the contract is awarded.

(14) The applying school district will provide the following information or data (to be attached to the application):

(14-1) copy of the deed to the property on which the facility is to be constructed, or a copy of the purchase agreement for the property setting forth the terms of transfer over the signature of the present owner, or a copy of a long-term lease agreement;

(14-2) detailed architectural drawings and specifications of the facilities to be constructed or renovated, including fixtures; and

(1403) description and details of conventional furnishings of the classrooms, shops, laboratories, and offices.

(15) The applying school district agrees that it will incorporate or cause to be incorporated into any contract for renovation, modification, or construction of facilities reimbursed under this agreement, an equal opportunity clause."

§3238

"The Commissioner of Education shall enter into agreements with . . . local education agencies, and other public or private agencies and institutions for the purpose of allocating funds for conducting vocational

education research, developmental projects, demonstration programs, or exemplary projects in accordance with procedural steps established by the . . . Agency. Local education agencies and other public or non-profit private agencies and institutions apply to the State Board of Education for grants . . . to support the costs of programs and projects for (1) research and training programs, (2) experimental, developmental, or pilot programs developed by the institutions and agencies and designed to meet the special vocational needs of youths, particularly youths in economically depressed communities who have academic, socio-economic, or other handicaps that prevent them from succeeding in the regular vocational education programs, and (3) the dissemination of information derived from the foregoing programs or from research and demonstrations in the field of vocational education, which programs and projects have been recommended by the Division of Occupational Research and Development or by the State Advisory Council for Technical-Vocational Education in Texas.

A grant or contract for the expenditure of funds in support of research or developmental projects of the type described in the preceding paragraph may be awarded to applicants who submit acceptable proposals for such projects to the Division of Occupational Research and Development."

§3238

"The procedural steps for approval of vocational research, demonstration, and exemplary programs and projects are. . .:

(a) Application procedures --

The proposal document describes the nature, duration, purpose and plan of the project, the use to be made of the results in regular programs of vocational education, the qualifications of the personnel responsible for the program or project, a justification of the amount of grant or contract funds requested, the portion of the costs to be borne by the applicant, and other

detailed documentation as set forth in the guidelines for proposal preparation and submission.

(c) Review of Applications (Proposals) -- Proposals are reviewed by a review panel of at least five qualified persons. Review panel participants are selected on an ad hoc basis and may include representatives from (1) the membership and staff of the State Advisory Council for Technical-Vocational Education in Texas, (2) the membership and staff of the Coordinating Board, Texas College and University System, (3) the professional staff of colleges, universities and secondary schools, (4) the professional staff of the various departments of the Texas Education Agency, and (5) other public and private organizations.

Each proposal evaluated by the review panel is carefully reviewed in terms of the following pertinent factors: (1) relevance to priority areas in vocational education as specified in the long-range program plan and to vocational education programs, services, and activities specified in the annual plan; (2) adequacy and competence of personnel designated to carry out the program or project; (3) adequacy of facilities; (4) reasonableness of cost estimates; (5) expected potential of the proposed program or project being made a part of the regular vocational education program; and (6) the expected potential for utilizing the results of the proposed programs or porjects in exemplary or regular vocational education programs.

(d) Action on Applications (Proposals) -- Action is taken on each proposal as soon as practicable after receipt by the Division of Occupational Research and Development. The review panel assembled by the Division of Occupational Research and Development will present a written recommendation within ten days after review to the associate commissioner for occupational education and technology who will, as authorized by the State Board of Education, either (1) approve the proposal in whole or in part, (2) disapprove the

proposal, or (3) defer action on the proposal for such reasons as lack of funds or need for further evaluation. Each applicant is notified in writing of the action on the proposal and is advised that any deferral or disapproval action will not preclude resubmission of the proposal for reconsideration at a later date. In the case of approved proposals, notification to applicants includes the grant or contract award conditions which the applicant accepts in accordance with state law.

§3239.1

"To conduct work-study programs . . . public schools . . . make formal applications to, and obtain prior approval from the Department of Occupational Education and Technology. Applicant schools make the following assurances that each program will be conducted in accordance with the following standards and regulations:

(a) Administration -- The work-study program is administered and supervised by the local education institution and made available, to the extent of available funds, to qualified youth in the area served by the school.

(b) Eligible Students -- Employment is furnished only to a student who ELIGIBILITY

(1) is enrolled, or pre-enrolled, full time in an approved program of vocational or technical education, and is in good standing, and in regular attendance at the institution conducting the work-study program;

(2) is in actual need of his[her] earnings from such employment in order to enter or continue in a program of vocational or technical education;

(3) is at least 15 and less than 21 years of age; and

(4) is, in the opinion of appropriate school officials, capable and willing to maintain good standing in his[her] school program.

(c) Hours and Compensation -- Students can be employed in accordance with law during the academic year for not more than 15 hours per week when classes are in

session. Compensation is limited to $45 per month or $350 per academic year.

There are no limitations on hours worked or compensation earned during summer months if students are not enrolled in classes.

(d) Employment in Public Agencies -- Under a work-study program, a student must be employed by a local educational agency or by some other municipal, county, state or federal agency, in accordance with a written agreement or arrangement between the public school and the employing governmental agency.

If a student is employed by a federal agency, the written agreement is to state that the student is not to be considered a regular federal employee for any reason.

(e) Maintenance of Effort -- Compensation of students employed in work-study programs cannot exceed the average amount of funds paid students for similar type employment during the three preceding years."

§3239.1-.2

". . . [T]he Commissioner of Education shall enter into agreements with public schools . . . applying for approval to conduct work-study programs which provide part-time employment for youths who need their earnings to enter or continue in vocational education."

Eligible schools are reimbursed at a specified rate by federal regulations.

§3240

"Standards, rules, regulations, and procedures for conducting regular vocational education programs for out-of-school youth and adults in public schools . . . are given in the . . . Agency publication entitled "Planning Programs for Out-of-School Youth and Adults."

§3241.2

"School districts which are financially unable to provide facilities and equipment for a program of occupational education or which have fewer than the required number of students to maintain the vocational unit will be eligible to enter into contracts with eligible educational institutions for the instruction needed."

"Any public school district, public or private post-secondary institution, or trade or technical school, which is approved or accredited . . . which has adequate physical facilities and qualified instructional personnel, and is able to provide instruction at the secondary level during the regular public school day, will be eligible to enter into contracts with public school districts for vocational instruction."

§4103.3

"The Commissioner . . . shall make necessary adjustments to assure that foundation program costs for vocational education will not exceed the amount of such funds provided by the Legislature . . . ."

3. Vocational Education

Statutes

§53-15-1

The state board of education shall supervise the "supervisors of agricultural and industrial and home economics education." The supervisors shall "systematize the teaching" of these subjects, "suggest courses" to be taught, make an annual visit to each school district, and "make suggestions" and "recommendations" for the improvement of teaching of "agricultural and industrial and home-economics" courses in the schools. The supervisors shall submit an annual report "to the state board of education."

§53-16-5 - 53-16-6

The state board for vocational education shall have authority to "administer federal funds" and programs "for the promotion . . . of vocational education in agricultural subjects, home economics subjects, and education in health, civic and patriotic service." The state board has authority to "appoint" and "fix the compensation" of assistants to administer the vocational program. The "area technical centers" shall be managed by the state board. "The board shall have authority to prescribe courses," to "award post-secondary education credit," to "maintain a record of training for each student, and to verify the training to other educational institutions and prospective employers." The board shall meet at least four times per year.

§53-16-7

"The board of education of any school district may establish and maintain all-day vocational schools or classes, giving instruction in agricultural subjects, trade or industrial subjects, business or distributive subjects, or home economics subjects." The board may also establish "evening schools" and "part-time schools."

The state board for vocational education shall "report biennially to the legislature" on the "condition of vocational education in the state."

§53-16-17

Each vocational school shall have an advisory board consisting of a member of the district board of education and other members appointed by the state board. The advisory board "shall make recommendations" on curriculum and on "major changes in school policy" in order to advise the state board "as to how the school may best serve the educational and industrial needs of the state" and how the school's curriculum "may best be coordinated with the instructional programs of school districts in the state."

Policy Guides

VOCATIONAL EDUCATION PROGRAM STANDARDS FOR QUALITY

Utah State Board of Education 7 pages, 1977

This policy guide, published by the Utah State Board of Education in February 1977, sets forth policies and standards for vocational education. The underlying philosophy for vocational education in Utah is based on the following principles:

(1) equality of educational opportunity regardless of sex, creed, religion or race; (2) shared responsibility for vocational education among the nation, state and local community; (3) a need for competent staff; (4) utilization of advisory committee skills and expertise; (5) emphasis on the importance of individual and her/his contribution; (6) preparing people for employment, based on realistic considerations of job needs; (7) developing positive attitudes, good skills and usable knowledge; (8) evaluation of student competency; (9) providing options and opportunities to people for fulfilling vocational goals.

The Utah State Board for Vocational Education has the sole

authority to administer the vocational education program, make policy and set standards.

The vocational education programs shall: (1) be provided to all individuals leaving secondary or post-secondary schools and who desire training; (2) provide placement services for students; (3) serve the educational needs of all students, including those who have socioeconomic, cultural-physical or other handicaps; (4) be realistic in terms of actual occupational requirements, and (5) provide for planning and evaluation of programs.

Evaluation shall be an integral part of the vocational education system. Goals and objectives developed in the planning process shall be reviewed and evaluated by teachers, students and parents, as well as program administrators. The assessments and evaluation will provide a basis for planning future programs and services.

I.State Board of Education; Statutes §§53-16-2 -- 53-16-3

IV.A; Statute §53-1-20

STATUTES

§171

(a) The board may reimburse part of the salary for "tryout classes" not eligible for federal aid, which are given to provide a "better determination of objectives to students" before taking vocational courses in high school.

(b) The Department of Labor and Industry is designated as the approving agency for business engaged in apprentice training.

APPRENTICE TRAINING

§833

(a) Vocation Education courses. "Instruction in subjects meeting standards approved by the state board for federal aid under any effective act of Congress relating to vocational education." Vocational tuition means the sums authorized to be charged under this section.

(b) A school district not offering vocational courses desired by a pupil "shall pay the vocational tuition charged by other high schools which provide such courses." "It shall pay full tuition charged a pupil who elects to receive his entire high school education in another school district if the school district does not provide or offer to provide daily transportation to and from a school where vocational courses of the students' choice are offered."

A receiving district may establish a vocational tuition charge not in excess of the net cost per pupil for each semester of attendance.

If the state board determines a vocational student paying tuition has aptitude, interest and ability, it shall pay: (1) one half his vocational tuition to the receiving school district if the student receives his high school education elsewhere; (2) one half the maximum tuition to the receiving district if the student resides elsewhere but receives his entire education at

the receiving school because of lack of transportation. The state board shall reimburse the sending district for transportation it provides to a school offering vocational courses. But if such transportation is offered, the student may not receive his entire education at a school offering vocational courses at public expense.

If a student is not a Vermont resident, the tuition charged shall be the same as for residents, but shall be "paid according to the policy established by the state of residence."

§1027

High schools shall, under the "direction and regulations" of the state board, include within their curriculum prevocational or vocational courses in one or more of the following areas: "agriculture, industrial arts, trade and industry, business or homemaking, appropriate to the needs" of the particular area in which the school is located.

REGULATIONS

R.M. Ch. II.M; pp. 63 -- 75

In applying for financial assistance under Title II of P.O. 94-482, the Vermont State Board for Vocational-Technical Education assures the U.S. Commission of Education that it will comply with Section 106 or Title II of P.L. 94-482 in the following ways:

It will provide for proper administration of the Act and cooperate with the agencies, councils and individuals specified in the Act.

It will distribute funds on the basis of an annual application, developed in consultation with area representatives of education and training resources and the local advisory council on vocational education. The application will describe: area vocational education needs and the program proposed to meet them; the relationship of this program to area manpower programs established under the Comprehensive Employment and Training Act of 1973; and the relationship between this program and other

vocational education programs supported by state or local funds.

It shall, in approving applications, give priority to programs proposed in economically depressed areas, unable to provide vocational education without federal assistance and to programs proposed in new areas to meet new and emerging manpower needs.

It will use federal funds only to supplement and never to supplant state and local funds.

It will not use funds under this Act for any vocational education program which cannot be demonstrated to prepare students for employment or assist students to make a meaningful occupational choice.

Vocational education must serve a variety of individuals.

Vocational education, in addition to teaching manipulative skills, must also help students to:

- understand theory and apply it to practice
- develop proper work attitudes
- read and comprehend the written word
- develop interpersonal skills
- communicate
- adopt and adapt to change
- properly use math

Also, occupational skill must be developed in concert with social and cultural skills.

In order to provide adequate and realistic learning opportunities, instruction must be directly related to present and future job markets. The curriculum must be taught in facilities similar to those of business and/or industry. There also must be opportunity for instruction in the employer's facilities.

To remain up-to-date, vocational education must be continually evaluated.

High quality vocational education must be provided within reasonable access of every secondary school pupil. For such a program the State Board for Vocational

Education proposes these policies:

1. The offering of educational opportunities through vocational education is better accomplished through facilities tied to selected comprehensive high schools than through separately established, specialized vocational schools. This arrangement minimizes segregating young people according to the school they attend, gives vocational students a chance to take academic courses at a high school level as they are capable and cuts costs.

2. A reasonably wide choice of vocational education should be within access (i.e. a maximum commuting distance of one hour) of pupils living in any part of the state. Specifically, each area vocational center will offer no fewer than five programs of sequential instruction representing, as the demand warrants, four of the standard vocational fields: agriculture, distributive education, health, occupational home economics, office occupations and trade and industry.

3. No pupil shall be denied the opportunity to enroll in vocational education programs because of sex, race, religion, or national origin.

4. The State Board of Vocational Education will designate certain high schools as area vocational centers.

a. In making such a designation, the state board will consider such factors as the school's acceptance of responsibility, current and projected enrollment in the area, and existing and potential facilities.

b. The designated area vocational center shall provide land on which vocational facilities may be constructed, in the same building or part of a functional campus type facility.

c. During initial construction, the area vocational center will maintain evidence of "local effort" by contributing all facilities and equipment supporting current vocational programs or, if no programs are offered, by providing facilities and initial equipment for at least one new vocational program.

d. The school board of the district in which an area vocational center is located will have ultimate authority over its operation.

e. The area vocational center will employ a full-time local director of vocational education and a full-time area guidance coordinator.

5. Programs of sequential vocational education will cover grades eleven and twelve. Programs to meet individualized needs especially of the handicapped or disadvantaged, will be developed and open to students in grades 9 and 10 who meet these criteria. Programs at the several area vocational centers need not be identical, and should vary according to local needs and resources. Programs should include courses in communications and math suiting various student abilities. Programs, known as Second Site(s) may be operated at a sending high school by area vocational centers where dense student populations, overenrollments or other special situations exist.

Programs at the area vocational centers and sending schools must be covered by a local plan. The plan for the center will be developed in consultation with the administrative advisory committee and local advisory council (per P.L. 94-482); the plan for sending schools will be developed in consultation with the community advisory council (per P.L. 94-482).

6. The costs of operating an area vocational center will be shared by districts being served and the state and federal governments. Pupils from districts without a high school will have tutors paid by their home district. Pupils from districts with a high school will have tuition paid half by the home district and half by the State under the vocational tuition law.

TUTORS

Existing programs (including those at sending high schools) reimbursed from federal and state matching funds will continue to be reimbursed so long as: Department standards are maintained; enrollment justifies the program's continuation; the program is relevant to the employment market; a local plan is submitted and approved.

7. The board of an area vocational center shall establish a system of advisory committees that will be headed by one major committee, an area administrative advisory committee. Each non-center high school receiving funds for vocational programs shall also establish a system of advisory committees.

There will be a local advisory council (as required by P.L. 94-482.) The council may be separate from program advisory committees or they may be combined.

The local school board and the Division of Vocational Technical Education of the Department will decide the committee composition structure in the local plan.

a. The area administrative advisory committee will evaluate programs at the area vocational center and attempt to solve problems and concerns regarding the program's operation and its improvement. The committee shall meet at least twice per school year. After each meeting, each superintendant shall report to his/her local board. Should the committee be unable to resolve conflicts, it will make recommendations to the school board which operates the center. The board will take action on the recommendations and report back to the administrative advisory committee. Dissatisfied school districts will have normal opportunities for appeal.

b. The local advisory council for vocational education shall report to the administrative advisory committee or the school board on current job needs and program relevance. It shall consist of representatives of the general public, business, industry, labor and agencies and institutions with an interest in vocational education.

c. A program advisory committee, consisting of persons from the region who are employed in occupations that are related to the program, should be formed for each vocational program. The committee shall review the program, curriculum content, equipment, and facili-

ties and make recommendations to the teacher, administration and school board.

8. In cases where a high school is too far from an area vocational center, the Department may provide special assistance for the operation of vocational programs.

9. Each secondary school sending students to an area vocational center should provide orientation to the world of work to students in grades 7-10.

10. Every school district will develop and institute safety program for every program.

The board of school directors of the designated area vocational center shall: accept the terms of the State Board for Vocational Education for designation; appoint an area administrative advisory committee and solicit and give due regard to its recommendations; contract with the Department to finance construction of the approved building project and contract and supervise construction of the approved facilities in compliance with prescribed conditions; and staff and administer the program.

The board of school directors of the cooperating high schools shall: select representatives to the area administrative advisory committee; offer students counseling services, orientation to the world of work, and courses in communications and math; and arrange tuition and transportation for students attending area vocational center.

R.M. Ch. II; p. 91

The State Board recommends that each school offering vocational education establish vocational youth groups as an integral part of vocational education, with an active involvement in curriculum planning, especially career education, leadership and citizenship development, and preparation for the World of Work.

Long Range Goals for Vocational Education in Vermont

(A pamphlet related to Chapter II.M. in Reference Manual of the State Board of Education)

The State Board of Vocational-Technical Education views FY 1985 as the next milestone in the development of vocational-educational education in Vermont. The following goals are broad and long range. They are consistent with the Department's goals but are especially relevant to Goal VI, to enable students to have, at the end of his/her formal education, knowledge of the "world of work" and acquisition of a salable skill.

A. By the end of FY 1985 all area vocational centers will be utilized 12 months per year, 5 days per week, 14 hours per day at 75% efficiency, so as:
"to provide program capabilities for the occupational training needs of 65% of 11th and 12th grade youth in in-school and community based vocational educational training, of which 20% will be from the disadvantaged and handicapped population;

to develop and implement by FY 1980 a formal system of program evaluation and curriculum review and development;

to cooperate in the development of the State Plan for Career Education."

B. By the end of FY 1985 an authorization plan will be in effect for providing state funds on a continuing basis for replacement of obsolete or worn out equipment at the area vocational center.

C. By the end of FY 1985 each local high school and area vocational center, supported by federal/state funds will have a plan for professional development of staff. The Division of Vocational-Technical Education will also have such a plan.

D. A public information/dissemination program will be initiated in FY 1977 and sequentially developed into a comprehensive system by the end of FY 1985.

VERMONT VOCATIONAL EDUCATION MINI-PLAN 1976-77

This mini-plan for vocational education was developed jointly by the Vermont Department of Education and the Vermont Advisory Council for Vocational-Technical Education. It is an abbreviated version of the state plan. This mini-plan for the school year 1976-77 sets forth five goals: to provide students with career and self awareness activities; to work to achieve quality vocational-technical education programs for secondary students which are commensurate with individual interests, abilities and aptitudes; to make available programs through cooperation with those institutions of higher education that offer post-secondary vocational education; to make available quality vocational education in all parts of the state for out of school youth to adults; to determine and provide leadership needed for state and local staffs to achieve goals and objectives of vocational-technical education involving federal state and local laws, policies regulations and guidelines.

Each goal is followed by a list of objectives, specific activities to be provided, and budget figures, state and local, for implementing these goals.

In short, the mini-plan provides a capsulized view of the state of vocational education in Vermont for 1976-77. Copies of the plan may be obtained from the Vermont state board of education.

VERMONT VOCATIONAL EDUCATION PROPOSED ANNUAL AND FIVE-YEAR MINI-PLAN 1978-82

State Department of Education, Division of Vocational-Technical Education 5 pages 1977

This mini-plan developed jointly by the Vermont Department of Education and the Vermont Advisory Council for Vocational Technical Education, is an abbreviated version of the State Plan for Vocational Education and is intended to give an over

view and summary of that report. The mini-plan sets out four goals: Goal I: to provide students in grades K-6 with career and self-awareness activities; Goal II: work to achieve quality vocational-technical education programs for secondary students which are commensurate with individual interest, abilities, and aptitudes, and meet manpower needs. Goal III: in cooperation with other institutions, state and local agencies and divisions with the Department of Education work to achieve needed vocational-technical education programs and services at the "adult public/post secondary education level." Goal IV: To have the State Board for Vocational Education provide the leadership that will assure achievement of the goals and objectives of the five-year and annual plans for vocational-technical education in accordance with federal, state and local laws, policies, rules and regulations.

The goals are supplemented with specific objectives, activities and budget figures for implementing the goals. The projected five-year plan provides for evaluation of each program and designing an evaluation system for the state which would include self-evaluation, advisory committee evaluation and follow-up of graduates.

CROSS REFERENCE

IV.G.; Statute §824

3. Vocational Education

Statutes

§22-239

The school board may establish all day, part-time, or continuation, or evening classes in industrial, agricultural, household arts, or commercial education in the same manner that the regular schools are provided for. The classes shall be less than college grade and shall "meet the vocational needs of persons over fourteen years of age who are able to profit by such instruction."

§22-318 -- 22-330

The State Board shall act as the State Board of Vocational Education to carry out the provisions of the federal act to provide for the promotion of vocational education; for cooperation with the States for the promotion of such education in agriculture and in the trades and industries; for cooperation with the states in the preparation of teachers of vocational subjects; to appropriate money; and to cooperate with the federal board for vocational education.

The State Board may establish, supervise, and inspect industrial, agricultural, household arts and commercial schools, and aid local school boards to establish such schools. The State Board may establish a State department of vocational education to study the problems of vocational education and to promote and supervise the teaching of the subject.

Any money appropriated by the General Assembly for vocational education shall be used exclusively for it and shall be used only in accordance with State Board regulations.

Any governing body in any school division may appropriate funds for vocational education.

§22-330.36 - 22.330.40

A school board may establish a special vocational educational project to supplement the regular vocational education program in the secondary schools. The school board may use its own facilities or contract with a non-

profit corporation established to promote vocational education. Any non-profit corporation establishing a project shall submit its articles of incorporation and bylaws to the State Board for approval.

Whenever a project is submitted for approval to the State Board, the State Board shall review the project to see that it meets the requirements of this chapter; it meets all other legal requirements; and that it affords proper methods for protecting public funds. If the State Board does not act on a submission within sixty days, the project shall be deemed to be approved.

§22-330.44 -- 22-330.46

FACILITIES

The school board may buy a site for the construction of a special vocational educational project. If the project is not built on public property, the project shall be sold within a reasonable time. The power of eminent domain shall not be used to acquire a site for a project.

§22-330.45

The school board may transport students to the sites of special vocational educational projects.

The school board or vocational educational corporation may provide insurance to their students or agents to protect them from loss from their work on the project.

Neither the school board members nor the officers or directors of a vocational educational corporation shall be personally liable for any negligence arising out of any act of any student or agent in connection with the project.

§22-330.47

ACADEMIC CREDIT

The State Board may regulate the awarding of academic credit for participation in a special vocational educational project.

3. Vocational Education

Statutes

§28A.09.070

The state of Washington accepts federal Vocational Education Acts of 1917, 1936, and 1946 and supplemental vocational and education acts.

§28A.09.090-.100

"Vocational schools or classes may be established" as all day, part-time, or evening schools. The state board may authorize school districts to include vocational education in their high school curriculum.

Regulations

§180-58-015

"General statement of purpose. The basic purpose of... [the statues]...authorizing the state board...to offer vocational education programs in the elementary and secondary schools... is to unify the vocational education delivery system in this state in order to provide the optimum educational opportunities to children and adults, to eliminate duplication of effort and expenditures, and to serve the population and the economy of the state most effectively."

§180-58-020

"Definitions.

(1) 'Vocational education' shall mean a planned series of learning experiences, ...which...prepare persons to enter, continue in or upgrade themselves in gainful employment in recognized occupations and homemaking, which are not designated as professional or requiring a baccalaureate or higher degree.

(2) 'Occupational exploration' shall include prevocational education [and] shall mean a series of educational experiences designed to (a) assist individuals in developing their understanding of, appreciation for, aptitudes for and abilities in recognized occupations; (b) develop an attitude of respect toward work and pride in workmanship; and (c) provide knowledge and experience to assist in the choice of an occupational program.

"(3) 'Job market area' shall mean the geographic area for recruitment and placement of job entrants,..."

§180-58-030

"Appropriate advisory committee--Definition. 'Appropriate advisory committee' shall mean a local committee made up equally of employers...engaged in the trades, crafts or vocations involved in that program for which a school district is seeking authorization: Provided, That where such a committee is not appropriate to a specific program a citizens' advisory committee, made up of other representatives of the community to be served, may be deemed sufficient."

§180-58-045

"Occupational exploration programs--Operational requisites.

(1) Facilities and equipment. Facilities and equipment [shall be] for the satisfactory maintenance of acceptable educational standards...[and] shall meet the necessary safety codes...

(2) Programs. Occupational exploration programs shall:

(a) Assist individuals to achieve self-fulfillment and self-support, with self-respect.

(b) Assist individuals in developing their understanding of and appreciation for the production and distribution of goods and services and for the role of the family in our society.

(c) Develop an attitude of respect toward work, pride in workmanship and respect for the inherent dignity of the worker.

(d) Emphasize the importance of striving for excellence in all of life's work.

(e) Provide knowledge and practical experience through active student participation to assist in the choice of an occupation.

(3) Guidance and counseling. Effective vocational guidance...shall include...occupational information and counseling.

(4) Administration and instruction. There shall be satisfactory evidence that the school district will provide adequate administration and supervision as well as competent instructional and counseling personnel...

(5) Conformity with state plan for vocational education. Vocational education and occupational exploration programs shall, as a minimum, be consistent with the Washington state plan for vocational education...."

§180-58-055

"Vocational education programs, secondary schools. Programs will operate in compliance with the criteria for vocational education...The criteria will include...the following: (1) Establishment of need. Each school district making application for authorization of a program...shall submit an endorsement from the appropriate advisory committee...that there is evidence of available employment...in the industry for those with requisite vocational skills.

(2) Facilities and equipment. The operating school district shall provide such facilities and equipment adequate for the satisfactory maintenance of acceptable educational standards...[which] shall meet the necessary safety codes...

(3) Programs. Vocational education programs shall: (a) Provide for the vocational interest of students and the needs of industry...by seeking out a balance of realistic student interest...with identified industry need...

(b) Be determined by needs, aptitudes, interests and abilities of individual students.

(c) Be designed to develop skills, understanding and attitudes needed by a worker in his occupation.

(4) Administration and instruction. (a) The school district will provide adequate administration and supervision as well as competent instructional and counseling personnel...

(b) Instructors shall be occupationally competent and vocationally certified in the area in which they are to teach...

(5) Guidance and counseling. Effective vocational guidance...shall include...occupational information and counseling.

(6) Class size. The maximum number of students per class shall be determined by the number of training stations, safety factors and individual instructional requirements of the specific occupation or trade being taught.

CLASS SIZ

(7) Conformity with state plan for vocational education. Vocational education and occupational exploration programs shall,... be consistent with the Washington state plan for vocational education...."

§1[illegible]-065

Vocational-technical institute programs-Operational requisites. (1) Establishment of need. Each school district making application for authorization of a program...shall submit an endorsement from the appropriate advisory committee that the program...is or will be needed by the industry... [and]...that there is evidence of available employment...in the industry for those with requisite vocational skills.

(2) Facilities and equipment. The operating school district shall provide...a facility and equipment comparable to those used in the occupation...[which]...shall meet the necessary safety codes...

(3) Programs. Vocational-technical school programs shall:

(a) Provide for the vocational interest of the students and the need of industry for a skilled work force.

(b) Be directly related to employment opportunities to provide flexibility that will adapt to time, location, demand and condition.

(c) Be determined by needs, aptitudes, interests and abilities of individual students.

(d) Be designed to develop skills, understanding and attitudes needed by a worker in his occupation.

(e) Provide opportunities for persons desiring to prepare for employment and for the upgrading and updating of skills and knowledge of employed workers.

(f) Designed for continuous enrollment where applicable.

(4) Guidance and counseling. Provisions shall be made for effective vocational guidance for youth and adults which shall include...occupational information, counseling, placement and follow-up.

(5) Administration and instruction. a)The vocational-technical school will provide adequate administration and super-

vision to insure the maintenance of acceptable educational standards.

(b) Instructors shall be occupationally competent and vocationally certified in the area in which they are to teach.

(6) Class Size. The maximum number of students per class shall be determined by the number of training stations, safety factors and individual instructional requirements of the specific occupation or trade being taught.

(7) Conformity with state plan for vocational education. Vocational education programs shall be,...consistent with the Washington state plan for vocational education...."

§180-58-085

"Establishment of program, application for processing. (1) The board of directors...desiring to establish and operate a vocational education program...shall submit an application... to the superintendent...[which]...shall state such information as may be necessary to a determination of eligibility for approval....

(2) All applications...shall be evaluated...for compliance with the pertinent policies, rules and regulations...,as well as the provisions of the Washington state plan for vocational education. Findings of such evaluations shall be submitted to the superintendent for consideration and recommendation to the state board...."

§180-58-090

"Approval of programs-Conditions. (1) Initial and continued approval. The initial approval shall be effective for a stated period of time with the proviso that approval thereafter shall be continuous upon evidence of compliance... [with the regulations]."

3. Vocational Education

Statutes

§18-2B-1-8

"The aims and purposes of the area vocational educational program shall be to provide vocational training or retraining . . . designed to prepare individuals for useful employment in recognized occupations. The program shall be made available to residents . . . in . . . areas designated and approved by the . . . board of vocational education.

The state board of education is designated as the state board of vocational education . . . and is . . . authorized and empowered to establish, operate and maintain area vocational educational programs including the acquisition of necessary lands and the construction of necessary buildings for the purpose of operating and conducting educational training centers. The administration and supervision of the area vocational educational programs shall be . . .[handled]. . . by the director of the division of vocational education.

The state board of vocational education is . . . authorized to pay transportation costs for unemployed persons participating in any area vocational educational program . . . .

The director of vocational education may appoint a consulting committee for each area designated, composed of members representing business, labor, management, school administrators and lay groups. [They] shall advise the head of the local area or training center on such matters pertaining to shop equipment, curriculum, labor-management coordination or selection of personnel. A statewide consulting committee may be appointed by the director . . . to serve in the same capacity and for the same purposes."

APPOINTMENT

"A job-preparation program for school dropouts . . . financed by the State, in cooperation with the counties" is established. The program is "to be based on the following described needs and purposes:"

(1) To decrease the number of dropouts between 15 and 17;

(2) "To provide a planned program of practical job preparation on the basis of interest, aptitude and ability for those who drop out before completing high school;

(3) To make participation in such a program compulsory for all male youth sixteen and seventeen years of age with the view to later extending it to include female dropouts falling in the same age bracket;

The administration and supervision of said youth job-preparation program shall be under the state department of education and in cooperation with school officials and boards of education of the respective counties. There shall be selected, by the state superintendent, a supervisor of the program who shall be under the direction of the division of vocational education . . . . Said supervisor shall be authorized to draw upon the aid and services of such other divisions of the department of education as guidance, counseling and testing; driver education and school transportation; instruction and curriculum; as well as other professional agencies and organizations in or outside of government that may be able to lend help on a voluntary basis.

The state department of education, by and with the help of the respective counties, shall develop a practical job-preparation program for all male youth as hereinafter designated. The program shall provide job training, based on interest, aptitude and ability of said youth . . . .

The instructional program shall be under the supervision of the county, or area administration . . .

subject to the guidance and direction of the state supervisor, county or area directors of the program, and teachers of any academic aspects of the program shall be duly certified teachers. For instruction in the common jobs and occupations, persons of practical experience in such may be employed and they shall be classified as job trainers. Nothing shall prevent the use of approved volunteers in this program.

In initiating this . . . program, any existing [or future] public school buildings and facilities . . . which may be adapted to or useful in such a job preparation program, shall be made available during the summer months for the . . . program."

REGULATIONS

§3232

Each county board of education wishing to participate in a multi-county vocational center shall adopt a resolution and agree to operate under the policies set forth by the administrative council. The council for each center shall make all decisions regarding policy personnel and programs. The council shall be composed of representatives of each county, the superintendent of each county and the assistant state superintendent for vocational education. The council members shall serve a three year term.

REGULATIONS

4AAC 60.140

INSPECTION

"(a) Each preelementary school shall request an inspection by public safety and health agencies and shall conform to standards established by such agencies.

(b) Copies of satisfactory compliance to such standards shall be filed with the Department of Education prior to the issuance of a Certificate of approval."

4AAC 60.150

"Major changes in written policies, plans, programs and other information included in the initial application for certification of pre-elementary school shall be transmitted to the department within 30 days."

4AAC 60.160

EQUAL OPPORTUNITY

"No preelementary school will be approved unless it adopts a policy of non-discrimination in respect to race, sex, creed, color or religion with the following exceptions:

(1) a preelementary school established for an identified group (i.e., physical-mental handicaps) may serve this group only but otherwise may not discriminate;

(2) a religious group may elect to serve children of a particular faith, but otherwise may not discriminate."

4AAC 60.170

"(a) The pre-elementary school shall provide the following information to the department: the philosophy of education; the goals and objectives of the school; the program model and teaching techniques used in achieving the stated goals and objectives; daily educational activities schedule including provision for individual activities, small group activities and large group activities, the

number and ages of the children to be served along with the number of staff members working with the children; provisions for parental involvement; a copy of public advertisements regarding the school; a copy of the personnel and administrative rules of the school; and a copy of all administrative forms used by the school.

(b) A pre-elementary school must have sufficient staff to provide for each child's physical care and to offer individual attention to children as it may be needed as well as time to interact with children for the benefit of their conceptual and language growth. The number of staff and their utilization should reflect programmatic requirements, differences in the needs of the children served and should permit flexible groupings.

MINIMUM STAFF

(c) There must be at least two staff members, one of whom may be a teacher-aide, present in each building. They must be stationed in sufficient proximity to be of aid in emergency situations.

(d) The operator shall provide a written training plan for each staff member who serves in the capacity of teacher, teacher-aide or assistant teacher. The plan must include provisions for preservice and inservice training and must indicate frequency as well as content. All such training is subject to approval by the department.

(e) The department shall investigate to determine whether the programmatic objectives of the school are being met."

4. EARLY CHILDHOOD EDUCATION

REGULATIONS

R7-2-301

ARS § 15-488 C

Each district having kindergarten must teach three of the required subjects including reading.

SBE Approv. 11/26/73 AG 1/22/74

CROSS REFERENCE

I.District Board of Trustees; Statute §15-448

4. Early Childhood Education

Statutes

§80-1646

A kindergarten Education program may be incorporated into elementary and secondary education programs.

Students enrolled in such a program must be at least five years old by October 1 of the year they are admitted. A birth certificate and health records are required for admission. Kindergarten teachers shall be certified by the Department of Education.

The State Board of Education, which shall approve all kindergarten programs shall make rules which will allow poorer counties to share, proportionately, the funds available for this program. The Department of Education shall report to the Governor and General Assembly, annually, on such programs' location, funding and enrollment.

§80-1647 -- 1649

The State Board and/or State Board for Vocational Education has the authority to receive and administer funds for Early Childhood Education and/or Adult Education except where the U.S. Congress delegates such authority to a state agency, institution, or other state official.

The Board is prohibited from charging fees or tuition for Early Childhood Education. TUITION

§80-1651

The General Assembly may establish centers for research and demonstration in the area of Early Childhood Education. Such contracts shall be subject to "cooperative agreements between the Department of Education and the sponsoring teacher-training institution or institutions and/or local school districts."

§80-1652; 1653

The State Board of Education shall set minimum standards for public and private kindergarten programs and early education programs with regard to facilities,

staffing and finance. The Board shall set certification standards for teachers of these programs.

§80-1658

If it is unfeasible to operate a kindergarten program during the normal school year, a school district may establish a summer program for five year olds. The State Board of Education shall approve such programs, which shall be at least ten weeks in duration. A school district shall be reimbursed by the Department of Education for the cost of operating a summer kindergarten program.

CROSS REFERENCE

IV.G.; Statute, Acts 1975, No. 195

4. Early Childhood Education

FAMILY CARE

Statutes

§8390 -- 8397

Agreements may be entered upon for the establishment and management of programs for the care and development of infants, and the training of students in their roles as parents, as part of the high school program.

Infant care and development services include the following: (a) supervision and group care; (b) educational stimulation; and (c) health screening and treatment.

Services available to all students include: (a) providing supervised infant care; (b) teaching of parenthood education; (c) teaching of family planning; and (d) the development in student parents of reasonable expectations regarding infant behavior.

If there is more than one high school in a district the location of the infant care and development center will be determined based on the opinions of student parents.

Parents who are high school students may enroll their children in infant care centers.

§37040 -- 37046

"The governing board of any school district that maintains one or more elementary schools shall establish and maintain such number of kindergartens as are necessary for children living in the district who are eligible for admission. . . .

The kindergarten and the first grade may be combined in one class if the total class enrollment does not exceed the enrollment fixed by Section 41376 as permissible for grade 1 without reduction of average daily attendance. The attendance of the children enrolled in the kindergarten in such a class shall be counted as attendance upon a kindergarten.

A preschool educational program established by a

school district or by a county superintendent of schools pursuant to Section 8320 may be combined in one class with a kindergarten in a school maintained by such district or within the jurisdiction of such county superintendent of schools, in any situation in which Section 37044 is applicable with respect to the duty to establish a kindergarten. The attendance of only those children enrolled in the kindergarten in such a class shall be counted as attendance upon a kindergarten.

The reports for the kindergarten classes shall be kept and made separate from other school reports.

Notwithstanding any other provisions of law to the contrary, the governing board of any school district that maintains one or more elementary schools may elect not to establish and maintain a kindergarten at any elementary school in which there are nine or less applicants for kindergarten attendance in the attendance area of that elementary school, subject to approval of State Board of Education.

The governing board may conduct the kindergarten in the same room with and by the same teacher conducting one or more elementary grades maintained by the district. The minimum schoolday for pupils of a kindergarten which is so conducted is 180 minutes, inclusive of recesses, and the attendance of the children enrolled in the kindergarten shall be counted as attendance upon a kindergarten.

SCHOOL DAY

The principal in each of the public schools maintaining a kindergarten shall keep a register, open to the inspection of the public, of all children in kindergarten."

§52000 -- 52029

The Legislature declares that a comprehensive program of early childhood education is needed to restructure public education in California. The state board shall develop a comprehensive program for children ages 3 years and 9 months to the completion of grade 3, or its equivalent to assure that each child will have an individualized program to permit development of the

child's maximum potential and that all pupils who have completed the third grade will have achieved competence in basic skills sufficient to continued success. The system will be based on local school-by-school master plans for early childhood education, developed by local school districts, which shall include a phase-in program based on an increase in the number of schools participating until maximum participation is reached.

Parent participation shall be included in the program in a manner which involves parents in their children's formal education in the classroom and through decisionmaking, maximizes opportunities for parent-teacher cooperation, and recognizes the continuity between early childhood education and the home.

Each school district maintaining kindergarten and grades 1 to 3, inclusive, or any one or more such class or grade, may develop and submit to the Department of Education for approval a master plan for early childhood education. In developing the plan, the governing board shall seek direct community, parent, and teacher involvement, without which no plan shall be approved. Governing boards may submit joint master plans.'

A master plan shall include a comprehensive statement setting forth the district's educational program for early childhood education on a school-by-school basis.

The state board shall establish standards for the evaluation of master plans including, but not limited to, provision for: assessment of educational needs, a program of restructuring kindergarten through third grade; opportunities for educational programs for pupils 3 years and 9 months of age (including children's center, day care, preschool, and child care services), defined and measurable program objectives; a program to phase into the program all district schools in no more than five years; individualized diagnostic approach to instruction; parental involvement in the program and its evaluation and a program of parent education, staff development and inservice training, pupil transportation; and evaluation of the program.

No district shall initiate classes for pupils of age 3 years and 9 months or over under the master plan until the district's program for restructuring the early grades is completed and successful.

School districts with approved early childhood education master plans shall be eligible for state allowances, apportioned to the extent that funds are available on a priority basis according to a schedule established by the state board. The Department shall give highest priority to those districts with the largest number of pupils determined to have educational need (according to state board criteria) and those districts with the lowest measure of assessed valuation per pupil and making the most significant property tax effort.

Districts receiving allowances shall provide that a minimum of 50 percent of the amount allowed to the district in any one year shall be designated for schools with the largest number of pupils with educational need until allowances are authorized for all schools.

The state board shall review annually the success of each local district in meeting objectives of its plan and may provide that, if a district has not met its objectives, allowances shall not be increased according to the phase-in schedule. The board shall adopt rules governing the termination of allowances to districts which are unsuccessful in meeting the objectives of their plan.

RULEMAKING

The state board shall adopt pupil performance objectives in reading and mathematics for early childhood education programs and take actions necessary to develop and implement such objectives.

Each district receiving allowances or implementing a master plan for early childhood education shall submit to the Department of Education a report of its early childhood education program, at least annually, in a form and manner prescribed by the state board. It shall include, but not be limited to, factors relating to (a) fiscal

expenditures, (b) degree and success of program implementation, and (c) quantitative estimate of pupil progress.

The Department of Education shall derive a composite score for each school obtained from these three factors. In determining the score, the Department shall weight the factors as follows:

	Factor (a)	Factor (b)	Factor (c)
1st year	20	70	10
2nd year	10	50	40
3rd year and subsequent years	0	50	50

The Department shall compute an index of student attainment for each school, using factors shown to be predictive of school success. The obtained score for each school shall be weighted by the degree this score meets or exceeds the predicted school achievement level. Scores falling below the predicted level of achievement shall be treated as zero scores. The Department shall inform districts of their schools' performance. Such data shall regularly be analyzed, evaluated, and submitted to the Legislature in the form of an annual report.

The state board shall adopt regulations necessary to the administration of early childhood education programs, including, but not limited to, those specifically required under §52000 et seq. RULEMAKING

A governing board, in its application for master plan approval, may request waiver of any provisions of the code if such waiver is necessary to operate an early childhood education program. The state superintendent, with approval of the state board, may grant, in whole or in part, any such request when failure to grant the request would hinder the implementation and maintenance of the district's program. WAIVER

In its application for master plan approval, a district may include how child development services are to be

coordinated with the program.

A governing board with an approved early childhood education master plan shall establish and maintain such number of classes for pupils who have attained the age of 3 years and 9 months as are necessary to implement the plan for children of the district eligible for admission as below but are not eligible under §48000 and whose parents or guardians present them for admission.

A child may be admitted to early childhood education during the first school month of the term if the child is of the prescribed age. For good cause, the governing board may permit a child of the proper age to be admitted after the first school month. The child shall be 3 years and 9 months on or before September 1 of the current school year.

As an alternative, school districts may authorize the admission of all children on an individual basis at the time each child reaches four years of age.

The state board shall adopt rules for the approval of state aid based on late enrollment in any school year that is, enrollment after the first month of the school year. RULEMAKING

The state board shall establish minimum standards authorizing service of instructional personnel in classes in early childhood education.

The minimum schoolday for early childhood education classes is 180 minutes including recesses. SCHOOL DAY

The computation of average daily attendance in such classes for determinig state allowances shall be as under §§46117 and 46320. §46000 et seq. and §46100 et seq. shall apply.

So much of the moneys appropriated for state allowances as is needed shall be for the purpose of providing state funds to be matched with federal funds. Federal reimbursement shall be obtained by the Department of Benefit Payments for services to children of those families, designated by the Department of Education, eligible for federal financial participation. The two departments shall enter into a contract wherein the Department of Education agrees to provide educational services for

such pupils and wherein the Department of Benefit Payments agrees to pay to the Department of Education all costs of services to participants.

Nothing in §52000 et seq. shall be construed to sanction, perpetuate, or promote the racial and ethnic segregation of pupils in public schools.

REGULATIONS

§4100

APPROVAL

The Superintendent may decline to approve an Early Childhood Education Program (ECE) if it fails to meet its plan objectives and has low levels of effectiveness as determined by program quality and pupil progress.

If the Superintendent intends to disapprove a school's ECE program he/she must give a preliminary notice by February 15 to the school stating its intention to disapprove the program and the level to which it is below the acceptable standards. A final notice of disapproval shall be issued on November 1 and termination of funding shall be effective as of that date.

APPEAL

A district may appeal the final determination if characteristics of the school's population have changed. It may also ask for a continuance of one year from the Superintendent of Public Instruction.

§ 12025

This article applies to every preschool program conducted according to Chapter 2.5 of Part 4 of Division 9 of the Welfare and Institutions Code or in conjunction with a program described in Education Code Sections 16613, 16643 and 16644. Only children between age three and six may be admitted to such a program.

§ 12033

The program shall be designed to create an atmosphere which encourages continuous educational experiences, to motivate the child and to provide each child with opportunities to learn:

1) Language development;

2) Perceptual training and cognitive learning;

3) Creative exploration and enrichment activities;

4) Social and physical development;

5) Individual activities balanced with group interaction, as well as planned experiences and spontaneous self-directed play.

"The program shall take into account the stages of child development" and the ways in which young children learn.

§ 12034

DISCHARGE

A child may be discharged from a program when evaluations made by a teacher in consultation with a social worker reach the conclusion that the child can no longer profit from the program.

§ 12035

The physical facilities of the program shall meet all of the following requirements:

a) They shall be in compliance with all applicable state and local laws, regulations and ordinances.

b) They shall be adapted to the needs of preschool children.

c) A minimum of 35 square feet of space shall be provided for each child indoors, and 75 square feet of space per child outside.

d) There shall be facilities for emergency isolation.

§ 17901

The chief administrative officer of each school district shall be administrative head of all children's centers and shall appoint a qualified person as supervisor of such programs of three or more units.

A person holding a valid regular permit for the supervision and instruction of children may be employed as substitute supervisor for not more than five months during a fiscal year.

§ 17907

CHILDREN'S CENTER

Children's center hours shall be determined by the governing board of the school district to meet local conditions. Mothers should be employed during the day-time only and every effort should be made to see that each child spends time each day with its parents.

§ 17908

ADMISSION

In order to be eligible for admission to a children's center a child's parents shall supply the information necessary to complete the form of "Application for Child Development Services" and the signatures to the parental agreement included in that form.

Verification of continued eligibility shall be made of parents who receive salary from an employer, once every six months. Whereas parents who operate their own businesses shall be reviewed at least quarterly.

§ 17909

RULEMAKING

The governing board shall fix the rules for admission and exclusion of children to children's centers.

The principal administrative officer of the district, or his/her representative, shall determine which children qualify under such rules.

MEDICAL EXAMINATION

(b) Each child under four years and nine months of age shall have a complete medical examination prior to or immediately following admission. Only children who have been immunized, or whose parents agree to have them immunized against diphtheria, whooping cough, poliomyelitis, tetanus, and measles shall be admitted, with exemption only as stated in Education Code Section 16624.

IMMUNIZATION

§ 17910-17911

FIRE DRILL

The chief administrative officer of the school district shall require children's centers to conduct fire drills at least once each calendar month.

A civil defense plan shall be adopted which provides for civil defense drills on any day that the

center is in operation.

§ 17915

The locations of the children's centers shall be determined by the governing board of the school district and it shall also decide the physical facilities to be provided, taking into account the necessity for safety of children from fire and health hazards.

§ 17916

The day program in the children's centers shall take into account the stages of child development, the ways in which children learn and ages of the children enrolled. The program shall include a planned social, educational and physical environment which allows children to grow to their fullest potential.

§ 18141 -- 18160; 18166 -- 18174

The school district or county superintendent of schools shall provide the following services for school age parents and for non-parent students:

(A) Provide supervised infant care during school hours so that the parent may continue with his/her secondary education;

(B) Provide for school-age parents' and other participating students' representation on the Infant Center Advisory Council;

(C) Provide instruction in parenthood education, both theory classes and practical observations and experiences in the infant center;

(D) Provide instruction and practical experiences in child growth and development so that the parents and nonparents have reasonable expectations regarding infant behavior in order to minimize parental frustration and consequent child abuse, and maximize optimal development of the child;

(E) Provide ongoing instruction and discussion in family planning and human sexuality;

(F) Provide instruction and experience in career development opportunities in order to enhance the parents' employability upon completion of their high school education; and

(G) Provide instruction to complete their regular high school education resulting in a diploma

(2) For infants and toddlers:

(A) Provide supervision and care in a comfortable, clean facility which meets standards prescribed in these regulations;

(B) Provide for their physical and emotional needs in a manner which conveys love and concern and develops trust;

(C) Provide educational stimulation beginning at their earliest stages of development;

(D) Provide health screening, referral and follow-through review;

(E) Provide proper nutrition planned under the supervision of a nutritionist;

(F) Provide ongoing social services to children and

(G) Provide the children with the opportunity to interact with their parents at the center.

4. Early Childhood Education

Statutes

§229.061

A school district may organize nursery schools for children at least three years and nine months old. Such a school shall be funded by tuition and district taxes.

School districts may also establish other types of classes and instruction including adult education, child rehabilitation, vocational, and applied arts and sciences.

§230.2311

BASIC SKILLS

The first priority of public schools shall be to assure that students master the basic skills of reading, writing, and arithmetic. Each school district shall develop a program for early childhood and basic skills development which shall be based on the guidelines prepared by the Department of Education. The program shall include: (a) an increase in the number of adult classroom assistants in kindergarten and grades 1-3; (b) emphasis on the basic skills development with attention to the emotional and social development of each child; (c) the assessment of educational needs; (d) data about preschool and childcare programs which may be integrated into the district program; (e) staff development and inservice training in the use of teaching aides, language arts, and computational needs; (f) evaluation of the programs by the school officials and parents; (g) the use of parents in the classroom.

§232.04-05

ADMISSION

Children at least five years old by January 1 of a school year or four years and eleven months by the start of a mid-year program are eligible for admission to kindergarten, as prescribed by the school board. Children at least four years old by January 1 of a school year or three years and eleven months by the start of a mid-year program shall be eligible for admission to

public nursery school, as prescribed by the school board.

REGULATIONS

6A-1.9521

A district may provide half-day kindergarten programs of not less than two and one-half hours of instruction per day.

4. Early Childhood Education

Statutes

§17:22.1

The superintendent "shall establish and maintain within the State Department of Education a separate Bureau of Childhood Development. Its director shall be appointed by the superintendent and shall be responsible for the affairs of the bureau.

APPOINTMENT

The bureau shall "survey, inventory, coordinate and evaluate all programs of childhood development and family assistance" in the state, provide leadership for these programs, and coordinate and monitor the delivery of services to them, provided that it does not "administer direct services programs."

The bureau shall "make recommendations . . . for statutory reforms in child development and family assistance programs"; for "criteria and minimum standards for approval of local public and private programs"; and for parental training and involvement in these programs. It shall "aid and oversee the establishment of children's councils at the local and/or regional level."

The bureau shall have the authority to develop a system of early diagnosis of children and serve as the advocate and promoter of programs to effectively meet the needs of all children and their families . . .[and] recommend a system of parental training and parental involvement in childhood development and family assistance programs.

All state agencies shall provide information required by the superintendent as recommended by the bureau in the performance of the duties of the bureau.

§17:22.2

"The State Advisory Council to the Bureau of Childhood Development is created for the purpose of providing recommendations for the planning of a comprehensive childhood development program by emphasizing preventive measures designed to develop the maximum level of physical, mental, and social potentials which the children possess, and to

strengthen the role of the family as the first and most fundamental influence on child development." It shall be composed of members "who are providers, supporters, and consumers of childhood development and family assistance programs, as well as designated permanent members."

The state advisory council shall "advise the director (of the bureau) on policy planning" and it will "annually review the planning process of the Bureau of Childhood Development."

REGULATIONS

BULLETIN 741

KINDERGARTEN

"Louisiana legislation concerning kindergartens allows school boards to establish kindergartens for children between 4 years and 8 months and 6.0 years of age. Public school kindergartens receive funds from the state on a per pupil basis in the same manner as grades 1-12.

Any kindergarten, public or private, seeking approval by the State Board of Elementary and Secondary Education, must: (1) meet basic standards, (2) fill out a report, and send it to the State Department of Education, and (3) request a visit by properly authorized members of the Department. The kindergarten program is informal in nature and planned to meet the developmental needs of young children with structured and unstructured learning activities."

BULLETIN 741

ENROLLMENT

"Kindergarten age shall be defined as beginning at four years, eight months with a birth certificate required upon enrollment. The maximum enrollment for kindergarten should not exceed the pupil/teacher ratio of 27 to 1 or the funding level, whichever is lower. The maximum enrollment allowed in any class or section shall not exceed 35 students except in certain activity type classes such as physical education, music, art, etc. Any

PUPIL/TEACHER RATIO

kindergarten center established for kindergarten only must have an enrollment of 50 students to be classified as a bona fide school. Although kindergarten is not mandatory and enrollment is left to the discretion of the parent, public schools shall accept all children who seek admission to the kindergarten program."

BULLETIN 741

MATERIALS AND EQUIPMENT

"Classrooms should provide an atmosphere of freedom to inquire, to discover and to learn through incidental as well as through planned experiences. Their physical setting should reflect thought for the child's developmental progress in all areas: physical, cognitive, social and emotional. Therefore, it is necessary that the kindergarten be provided with materials and equipment which can arouse the child's innate curiosity and stimulate sequential development in self-awareness, motor skills, communication, cognitive ability and social skills. . . ."

BULLETIN 741

PARENTAL INVOLVEMENT

"The most effective kindergarten programs are those in which parents and school personnel cooperatively seek ways to enhance the child's social, emotional, intellectual, and physical development. Kindergarten programs must assume the responsibility of sharing with parents an awareness of the needs and developmental patterns of the young child by: Providing information to parents on how they can help their child to learn. Strengthening parents' confidence in their ability to teach their children. Supporting parents in this role by supplying ideas and materials to be used in the home."

#321.1, p. 00054 - 55

READING

The "right to read" is considered a top priority by the State Board of Education. In order to carry out this objective, some specific recommendations have been made: (1) It is recommended that elementary schools include kindergartens. (2) School library facilities should include approximately twenty volumes per student. (3) Reading should be taught as an integral part of each subject and not as an isolated skill. (4) Teachers should have reading course work.

4. Early Childhood Education

Statutes

§77-11-2

"In accordance with state board regulations, every local school board shall establish and conduct early childhood education programs, and may provide transportation for students attending these programs. The state board regulations shall provide for minimum standards for the programs and qualifications for teachers in the programs."

§77-11-2.1

The department of education shall conduct an annual evaluation of early childhood education programs. The evaluation shall include an analysis of student progress, administrative and teaching effectiveness and school-student-parent relationships related to these development areas; social, intellectual, emotional and psycho-motor.

The department shall prepare a report of its evaluation, recommending any necessary changes.

Regulations

Reg. No. 74-11

Early Childhood Education programs are pre-elementary programs established by a local school board for the development of children who have not attained the age at which they are subject to the Compulsory School Attendance Law.

Early Childhood Education programs are required to be available to students in all districts by 1977-1978.

Students qualified to attend school by the Compulsory School Attendance Law shall be at least six years of age prior to 12:01 a.m. on September 1 for the school year beginning that September.

Students qualified to attend Early Childhood Education programs shall be five years of age prior to 12:01 am on September 1 for the school year beginning that September. Local education agencies may allow younger persons to enroll

in Early Childhood Education programs if circumstances allow, but in reporting "Early Childhood Education ADM" as that term is used in the Public School Finance Act, only persons admitted in accordance with dates set out above may be counted.

Local education agencies shall: give priority to serving age-eligible children who exhibit needs that, if unmet, will be detrimental to later success; establish a system of parent involvement in program services; make efforts to articulate Early Childhood Education programs with the primary educational program (K-3); secure the services of teachers competent in Early Childhood Education; evaluate such programs at the direction of the State Department.

4. Early Childhood Education

Statutes

§1712

The board of education of each school district may maintain free kindergartens and nursery schools for resident children, subject to age limitations.

Boards of education shall maintain night schools in each district "where 20 or more persons from 17-21 . . . are required to attend" or "where 20 or more persons over the age of 16 make applications for instruction." In night schools, "the common branches" and other "additional subjects will be taught on at least two nights each week, for two hours each night . . . ."

§2514

The board of education of a city school district may maintain free kindergartens for resident children between four and six. The board may also maintain free nursery schools. The board may establish night schools, free to all residents, offering courses "at least two nights each week, for two hours each night."

§2555

The city board of education may maintain free kindergartens for children four to six and may also maintain free nursery schools. The board may also maintain free night schools open to all residents.

4. Early Childhood Education

Statutes

§115-205.11 - 115-205.13

"Provided that funds are available," local boards of education "shall provide . . . kindergartens" for children within their administrative units. The kindergarten programs "shall be subject to the supervision of the State Department of Public Instruction" and "operated in accordance with standards adopted by the State Board of Education." By the school year 1978-79, any child reaching the age of five on or before October 15 of that year, shall be eligible for enrollment in kindergarten. A local board of education "may elect not to establish and maintain a kindergarten program."

Regulations

§2E.0801-0802

The director of the division of kindergarten-early childhood education is responsible for the overall coordination and direction of the division. ADMINISTRATION

The state office is responsible for developing operating, and administering programs for public kindergarten, first, second and third grades.

The regional offices are responsible for assisting with an orientation and inservice program for personnel responsible for public kindergarten and the first, second, and third grades.

The division of kindergarten-early childhood education is responsible for: developing and maintaining standards, policies and regulations regarding the operating and administering of an educational program having kindergarten as the integral part of the first, second, and third grades; developing and implementing a 12-month orientation and inservice program for personnel responsible for the public education for young children enrolled in kindergarten and the first, second, and third grades.

§2E.0803

The following standards, policies, and regulations shall govern the operation and administration of the kindergarten program.

ELIGIBILITY

An eligible child is one who has passed the fifth anniversary of his/her birth on or before October 15 for enrollment in kindergarten. Exceptions are children who come to North Carolina from another state and have been enrolled in a public kindergarten program. The length of day for five-year-olds shall be comparable to the length of day for six, seven, and eight-year olds. Any exception to this should be requested in writing to the state superintendent for approval of the State Board of Education. The compulsory attendance law does not apply to five-year-olds.

Research, Evaluation and Staff Development

EVALUATION

The state agency will establish an ad hoc advisory committee to assist in determining types of research and evaluation; the state agency shall coordinate, in cooperation with local administrative units, appropriate research and development aspects to continue the improvement of programs; other research efforts should be coordinated by the state department of public instruction. Local unit administrators should make provisions for staff members to participate in staff development activities conducted under the direction of the Department of Public Instruction. All research and evaluation conducted by the State Department of Public Instruction will be coordinated by the division of research in cooperation with the division of early childhood education.

Support Services

Comprehensive support services requiring the participation of available health, social services and psychological service agencies should be a part of every kindergarten program.

Administrative and Consultant Services

The implementation of these standards, policies, and regulations is under the direction of the State Board of Education through the Department of Public Instruction and its division of kindergarten-early childhood education.

The State Board of Education authorizes a maximum of 28 pupils per kindergarten class.

CROSS REFERENCE

III.C.School System; Statute §115-1.1

4. Early Childhood Education

Statutes

§15-45-01

"The school board of any school district may, upon its own motion, establish free public kindergartens."

§15-45-02

"The school board shall establish a curriculum for kindergarten and such other rules and regulations governing the kindergartens as it may deem best . . . . All kindergartens shall provide at least one hundred eighty half days of classroom instruction or ninety full days of classroom instruction each year. The school board shall determine whether kindergarten shall be provided on a half-day or full day basis."

SCHOOL TERM

§15-45-04

"Kindergartens may be discontinued by resolution of the school board."

Regulations

Chapter V: II.O.

Entrance into kindergarten is most commonly determined by age; residence and maturity are also considered. Promotion policies vary; the chief determinant is chronological age.

ADMISSION

The major objectives of early childhood education programs are: to develop language skills, verbal ability, other learning skills and the beginnings of the various subject areas; to become socially adjusted to a non-home environment; to acquire motivation and postive attitudes to work; to develop a positive concept of self, to develop physically and to develop basic habits of health and body care and an appreciation of the natural and the man-made world.

OBJECTIVES

4. Early Childhood Education

Statutes

§70-18-108

It is the intention of the Legislature to provide free public kindergarten for every five-year-old child in the state. It shall be the duty of every school district to provide and offer kindergarten free of tuition for every child who attains the age of five by November 2.

Regulations

Elementary School Regulations; p. 32
XII. Kindergarten

Reg. a. All school districts must provide tuition free kindergartens for children five years of age.

b. Kindergarten classes should be conducted separately from other classes.

c. A certified teacher should be employed for each half-day kindergarten session.

d. The teacher-pupil ratio for each half-day session should be no more than 1 to 26.

e. The kindergarten school day should be at least 2 1/2 hours.

f. The "school year shall consist of 180 days . . . up to 5 may be used for professional meetings."

g.-j. Classrooms should have two exits, appropriately sized movable furniture, and should be equipped with adequate materials and restroom facilities.

III.A.2; Statute §70-1-111

IV.G; Statute §70-1-114

4. Early Childhood Education

Statutes

§336.095

Free kindergarten facilities may be provided by the district school board of any common school district.

These kindergartens are to be funded in the same manner as other schools of the district.

Kindergartens are part of the state public school system.

§336.115

Nursery schools may be sponsored, maintained, operated or supervised by any district school board, for children between the ages of two and six years, if rules, standards and teacher certification requirements of the state board of education are complied with.

§343.125

Elementary schools may hire child development specialists.

The specialist's job is to assist elementary students in "developing positive attitudes toward themselves and others in relation to life career roles;" to assist the professional staff "in early identification of pupils . . . with learning or developmental problems;" to assist parents of elementary school children "in understanding their children's unique aptitudes and needs and to aid in relating home, school and neighborhood experiences;" "to refer pupils . . . to appropriate state or local agencies for additional assistance;" "to coordinate resources available through the community and the school." Services under this section may be provided "by contract with qualified state or local programs."

§343.145

Guidelines for the implementation of a child development program shall be established by the state board of education, "including but not limited to qualifications for child development specialists and procedures for community coordination of efforts." Such guidelines need "not be limited to traditional treatment oriented disciplines or . . . disciplines requiring certification."

Exceptions to the qualifications are possible after a determination has been made "that an individual is capable of performing the required functions."

§343.425

Operating guidelines consistent with state board of education requirements for grades kindergarten through three shall be prepared by the department of education for early childhood education programs.

The department of education reviews applications for early childhood education programs and may approve applications after considering: (a) "the educational adequacy and type of program;" (b) the number of children who will be served by the program;" (c) "the availability of trained personnel and facilities;" and (d) the need for the program in the applying district."

§343.435

Any school district "in which there are children who are three years of age or older, but who have not attained compulsory attendance age" and are not enrolled in kindergarten, may: (a) "provide early childhood education for such children" or (b) contract with another district operating an approved program where economically feasible and in the interest of education.

4. Early Childhood Education

Statutes

§5-503

The board of school directors may establish and maintain kindergartens for children between the ages of four and six. The number of kindergartens shall be fixed by the board. If the average attendance in any one kindergarten is ten or less, the directors shall discontinue the same at the close of the school year. The board of school directors shall appoint and assign a sufficient number of teachers who shall be certified in accordance with the rules and regulations prescribed by the Council of Basic Education. RULEMAKING

§590

"The board of public education in every district of the first class is authorized to furnish free milk to all pupils attending kindergarten and first grade."

Regulations

§ 5.41

Kindergarten curricula shall meet standards established by the Department of Education.

4. Early Childhood Education

Statutes

§59-3-80

The state department of education shall cooperate with the federal government in administering an educational program for the care of pre-school children and shall expend all funds given for this program by the federal government.

§59-35-10-- 59-35-30

Any county board of education may establish and provide for kindergartens for children who are at least four years old. If established, the kindergartens shall be part of the "free common school system" and shall receive a proportionate share of all funds available for education.

CROSS REFERENCE

III.B.Teachers; Regulation §24:02:03:06:01

4. Early Childhood Education

Statutes

§2301 — 2302

Any board of education may establish schools for children under six years of age. The state board of education may promulgate rules and regulations concerning such schools.

RULEMAKING

Such school boards are authorized to receive and accept federal or state funds specifically appropriated for pre-school purposes, provided that no state or local funds appropriated for grades one through twelve shall be used for pre-school purposes.

§2303

The state board of education shall exercise general control over all pre-schools or early childhood classes, including the employment of teachers, attendants, and any other employee, and shall also have complete control over the expenditure of funds. This does not apply to pre-schools already controlled by any incorporated city for the benefit of working mothers' children.

§2304 -- 2305

MINIMUM STANDARDS

The following are minimum standards for kindergarten: (a) a five-day week, coinciding with the school term of the local school system (kindergarten classes shall be operated for at least 20 hours a week);

(b) the length of the kindergarten day shall be at least four hours;

(c) children entering kindergarten shall be five years of age on or before October 31 of the current term;

(d) teachers shall be certified;

(e) adult aides shall be hired at the discretion of the local board of education and shall be paid from local school system funds.

§2306

Compulsory attendance is not required in any kindergarten in the state.

§5101 — 5102

"The purpose of this chapter is to provide for the coordination of all state services in a comprehensive child development program for children under six years of age by emphasizing preventive measures designed to provide the services which will enable children to develop . . . the physical, mental and social potentials they possess; to maximize the role of the family as . . . the most fundamental influence on child development; . . . and to develop a process for the coordination of services for children age six to eighteen."

§5104 — 5105

The office of child development is created within the office of the governor whose powers and duties are "to design, develop, and review annually a comprehensive, statewide, community-based program to meet early childhood needs . . .; to . . . review the budget . . .; to . . . encourage the use of all available funds for children's services; . . . to assist . . . parents or guardians [and their children] in obtaining [these] services . . .;" and to do everything within reason to foster community-based early childhood development programs.

§5106

A state child development coordinating council shall meet "to establish policy to insure coordination of child development and related family service activities . . . ." Statewide plans shall be approved by a majority vote before being implemented.

"Within two years following the creation of the office of child development, the office . . . shall develop and implement a detailed process for the coordination of services and programs for children ages six to eighteen . . . ."

§5107

A regional child development coordinator shall be employed by the director of each development district to (1) "organize local child development councils in each of the counties or multi-county groupings . . .;

(2) to establish a regional child development council;

(3) to identify available resources . . . ; (4) to serve as liaison between the regional council and the office of child development."

§5108

The regional coordinator shall appoint members to the initial local child development councils from among the population of his/her district and, with the recommendation of the local child development councils, to an initial regional child development council.

"Each regional council shall serve as a vehicle for transmitting program and project comments to the state child development coordinating council and the office of child development . . . and recommend priorities for child development and family assistance services . . . ."

Each council shall also "advise the state child development coordinating council of the child development needs of the districts and recommend . . . priorities . . . ; serve as advisory bodies to the regional health planning council and screen all child development projects which originate in their district to insure comprehensiveness . . . ; make recommendations to the state child development coordinating council on all child development projects originating within the districts . . . ."

§5109

A child development advisory committee shall be established "to make recommendations to the office concerning the statewide program and its implementation."

§5110 — 5111

Any "school board, college, junior college, vocational-technical school or group whose program of early childhood development has been reviewed by the office of child development may submit a proposal to the department of education for a program for the training of personnel in early childhood development . . . . Upon the request of any school or group, the department

of education may provide technical advice to enable the school or group to develop a suitable proposal."

The department of education may work with the office of child development "to develop or obtain training materials, curriculum, and teaching formats for training persons . . . ." These courses may be used by professionals and para-professionals as well as by volunteer members of the community. However, "all personnel employed . . . shall meet the same requirements as established by the state board of education for certification in the public school systems."

REGULATIONS
pp. 76-80

COURSE OF STUDY

"Kindergarten classes . . . shall be under the control and management of the board of education . . . . The . . . curriculum shall be developed around the needs of the young child taking into consideration how he[she] learns . . . . [I]t shall draw from all instructional areas and present these as integrated learning experiences that teach concepts, foster skills, and serve as foundations for learning tasks rather than as isolated subjects."

There are nine goals for children to be reached through the curriculum.

The daily kindergarten program shall include such features as social interaction and development of vocabulary and listening skills.

Curriculum materials and equipment, "appropriate to the needs and scaled to the different abilities within the group shall be provided" for classes of 25 five-year-old children.

"Compulsory attendance shall not be required at any kindergarten in the State."

The kindergarten day shall be at least four hours long.

Teacher-pupil ratios in kindergarten classes shall range between 13 pupils and 25 pupils per class.

Kindergarten teachers "shall hold a Tennessee certificate valid for K-3 or Elementary (grades 1-9) with a K-3 endorsement."

CROSS REFERENCE

IV.G.; Statute §1746

4. Early Childhood Education

Statutes

§11.17

"a) The Advisory Council on Early Childhood Education . . . shall assist the State Board . . . in formulating minimum standards for quality educational experiences in all public programs at the kindergarten grade level."

b) The Council is composed of 24 members appointed by the governor and shall include specialists from educational associations who deal with early childhood development. The specific representatives are set forth in the statute, as are the provisions governing terms of office, meetings, etc. APPOINTMENT

"The Central Education Agency, with the advice of the council, shall:

1) develop minimum standards for kindergarten education;

2) formulate minimum standards for the certification of teachers . . . including:

A) issuance of a kindergarten teaching certificate upon the completion of the bachelor's degree in child development . . . or early childhood education . . . from an accredited college or university which requires a multidisciplinary preparation and includes student teaching or one year of teaching experience;

B) issuance of a preliminary teaching certificate upon the completion of the associate of arts degree in child development from an . . . institution authorized to issue such degree;

C) issuance of an emergency teaching certificate for those who do not qualify . . .[with above]. . . but present evidence of commitment to a definite approved plan of study which upon completion would result in regular certification;

D) issuance of a paraprofessional teaching

certificate for those who have completed training through . . . programs approved by the State Board . . .;

E) develop the curriculum and course of studies for the kindergarten grade level, to be revised each year as deemed necessary."

f) The . . . Agency, with the advice of the council, shall develop standards for the certification of . . . personnel and for the accreditation of public kindergartens.

g) Not less than six months prior to each regular session of the legislature the Commissioner . . . shall recommend to the Governor desirable programs for public kindergartens and the administrative and legislative changes necessary to accomplish them."

§21.131--.135

Under this statute any school district may establish "one or more kindergartens for the training of children ... who are under the scholastic age and ... at least five years of age." It shall be part of the public school system and be governed by its officers. If the proposition to establish a kindergarten is defeated by the voters, it may not be voted on again for at least one more year. The kindergarten(s) may be operated on a half-day or full-day basis.

REGULATIONS

§3339

Series 3339 concerns textbooks for children enrolled in kindergarten classes, with a detailed process for fund allotment in lieu of textbooks for new classroom units and includes:

(1) the determination of new classroom units; the "number of new kindergarten classrooms for any given year is to be determined by subtracting the number of kindergarten teaching units earned during the prior school year from the number to be earned during the current year as

based on the school district's kindergarten average daily attendance for the first 15 days of the instructional year.

Where a school district elects to operate all or part of its state-supported kindergarten classrooms on a half-day basis, as authorized by Section 21.135, Texas Education Code, 1971, a child shall earn one half-day of attendance for each half-day session he[she] is present."

(2) the allocation of funds;

(3) the use of funds;

(4) instructional materials:

which "may be purchased by state funds alloted for this program are books and any apparatus, including three-dimensional manipulative materials, which convey information to the child or otherwise contribute to the learning process.

"'Instructional materials' for this program are used synonymously with 'textbooks'.

Items which may not be purchased with state funds allotted for this program are:

(1) room furnishings including desks, tables, chairs, filing cabinets, rugs, or any other item which is usually attributed to capital outlay; and

(2) consumable or expendable materials including food, paints, clay, paper, ditto masters, or any other item which is consumed in use."

(5) guidelines for the selection of instructional materials:

"(1) A plan should be developed which would consider all available federal, stae, and local funding sources for initiating and maintaining kindergarten classrooms.

(2) Kindergarten classrooms should be organized around permanent learning centers to provide children with opprotunities to explore individual interests, exercise initiative, and develop resourcefulness.

(3) Varied instructional materials should be organized so that different centers of learning are distinct, and a balance of materials is maintained among the centers. (Bulletin 696, A Guide for the Education of Five-Year-Old Children in Texas)

"(4) Instructional materials should be appropriate for five- year- old children.

(5) Preference should be given to materials which are multi-purpose and those which can be used in more than one learning center.

(6) Instructional materials should reflect the varieties of language and culture of Texas school pupils.

(7) Instructional materials should be of high quality with a life expectancy of more than one year.

Within the above guidelines additional instructional materials in the form of teacher guides for instruction, commercially prepared charts, flash cards, books for reading aloud to children, and other appropriate materials should be available to the teacher."

§3521; 3522

"The providing of an early childhood education program to the individual student is considered a responsibility of the school district. The Texas Education Agency supports the school districts by (1) administering state programs described in Policy 3522, (2) providing leadership through staff development, and (3) providing program guidelines.

With assistance from the Texas Education Agency, local education agencies implement and coordinate early childhood education programs which are as follows:

(1) bilingual education

(2) basic Foundation School Program

(3) migrant education

(4) preschool programs for non-English speaking children

(5) programs for educationally deprived children

(6) special education

(7) child development laboratories."

§3521.1; 3522

"Early childhood education programs shall be considered an integral part of the educational program for children in the public schools of Texas."

"The Commissioner of Education shall establish administrative procedures, develop operational plans, and execute agreements with local education agencies in the implementation of early childhood education programs . . . (and) enter into agreements with federal, state, and other agencies for the state's participation (in such) . . . programs."

UTAH CONSTITUTION, ARTICLE X, §2

"The public schools shall include kindergarten schools; common schools, consisting of primary and grammar grades; high schools, an agricultural college; a university . . . ." "The common schools shall be free."

Statutes

§53-19-1

"Local boards of education may establish . . . full or short term kindergartens" for resident children who are five years old. Kindergarten teachers must either be certified or pass "a special examination" given by the state board of education.

4. EARLY CHILDHOOD EDUCATION

STATUTES

§2852

(b)(c)4. A day care facility operated by a nursery school or other preschool establishment attended by children of less than compulsory school age is subject to regulation by the department of education to insure that children are provided with wholesome growth and educational experiences and not subject to neglect.

4. Early Childhood Education

CROSS REFERENCE

IV.G.: Statute §22-1.1

4. Early Childhood Education

Statutes

§28A.34.010

"The board of directors of any school district shall have the power to establish and maintain nursery schools and to provide before-and-after-school and vacation care in connection with the common schools . . ." The board shall do so at locations convenient for the public and shall offer "courses, activities, rules and regulations" as meet minimal standards set by Health, Education and Welfare. The board may charge a reasonable fee for attendance which may be supplemented by federal, state or local district funds.

§28A.34.050

The board of directors has the discretion to establish and maintain nursery schools or day care centers for working parents.

§28A.35.010 — .030

The board of directors may "establish and maintain free kindergartens . . . for the instruction of children between the ages of four and six." Kindergartens so established shall be part of the "common school system" and open to all children resident of the school district of proper age. Attendance shall be reported by teachers and administrators "as other school attendance is reported."

REGULATIONS

§180-16-160

"The State Board of Education recommends to boards of directors of school districts ... [that] all-day nursery school service for working mothers ... be continued" if possible, and that "nursery schools providing group activities for a limited part of the day and ... instruction in child care for parents should be established on an experimental basis."

§180-16-167

A proposal to generate "a kindergarten program as a ninety full-day school year basis in lieu of a one hundred eighty half-day basis" must demonstrate "evidence of need ... on the basis of" transportation, physical or limatic limitations or establish that the 90 day program would better meet the children's educational needs.

"The ninety full-day kindergarten program may be scheduled for consecutive or nonconsecutive school days." The proposal for the program must have compliance with minimum approval requirements. The proposal must be submitted by the school districts' board of directors to the state superintendent of public instruction, who will reivew the proposal and submit it with his or her recommendations to the state board for approval.

CROSS REFERENCES

III.B.Teachers; Statute §28A.35.070

4. Early Childhood Education

Statutes

§18-5-18

"County boards of education shall provide . . . early childhood education programs for all children who shall have attained the age of five prior to November first of the school year in which the pupil enters such . . . program and may establish . . .[such] . . . programs . . . for children below the age of five.

Persons employed as early childhood education teachers, as distinguished from paraprofessional personnel, shall be required to hold a certificate valid for teaching at the assigned level as prescribed by regulations established by the state board of education. The . . . board . . . shall establish and prescribe guidelines and criteria setting forth the minimum requirements for all paraprofessional personnel employed in early childhood education programs . . . and no such paraprofessional personnel shall be employed . . . unless he meets such minimum requirements.

The state board of education with the advice of the state superintendent . . . shall establish and prescribe guidelines and criteria relating to the establishment and operation of early childhood education programs . . . . Guidelines and criteria so established and prescribed are also intended to serve for the establishment and operation of nonpublic early education programs and shall be used for the evaluation and approval of such programs, provided application for such evaluation and approval is made in writing to the state board by proper authorities in control of such programs. The state superintendent . . . at intervals not to exceed two years shall publish a list of nonpublic early childhood education programs that have been approved in accordance with the provisions of this section."

Only "pursuant to such guidelines and criteria . . . [may] . . . the county boards . . . establish programs taking early childhood education to the homes of the children involved, using educational television, paraprofesssional personnel, . . . mobile or permanent classrooms and other means developed to best carry early childhood education to the child in its home and enlist the aid or involvement of its parent or parents in presenting the program to the child; or may develop programs of a more formal kindergarten type, in existing school buildings, or both, as such county board may determine, taking into consideration the cost, the existing available facilities, the distances each child may be required to travel, and such other factors as each county board may find pertinent."

At the outset "funds shall be allocated to . . . regions for establishing and operating regional demonstration centers . . . to provide exemplary and innovative early childhood education programs, to provide laboratory experiences for preservice and in-service education for professional personnel and staff development programs for training paraprofessional personnel, . . . and to promote cooperation between counties in providing high cost supervisory, developmental, research and evaluative services not currently available to individual counties."

REGULATIONS

§2310

Counties may establish kindergartens for children aged four through six. Teachers must hold an elementary school teaching certificate and may be required to take specialized training. Standards applicable to public kindergartens shall also be used as guideline for nonpublic kindergartens and shall be used for the evaluation and approval of such schools.

PUPIL/TEACHER RATIO

A kindergarten program shall have a pupil-teacher ratio no greater than 20:1. The program shall continue 2 1/2 hours daily for 36 weeks. It shall attempt to develop the child's physical, emotional, social and mental powers. It shall provide the child with many opportunities to express himself/herself through play language and art, to explore his/her environment, himself/herself and his/her relations with others. No reading shall be taught.

The facilities shall be well lit, ventilated and spacious and meet the health and safety requirements provided in this section.

MEDICAL EXAMINATION

All children must be given a medical exam prior to admission to certify that the child is free from communicable disease. Teachers shall maintain records of the name and phone number of a physician to call in case of emergency.

§2412

The county superintendent shall appoint an early childhood advisory committee to assist in planning an approved program in early childhood education (ECE). The proposal shall be approved by the county board of education and the county superintendent.

Goals of the program should include: developing the child's "positive self-concept," his/her ability to deal with people and his/her emotions, his/her capacity for critical thinking and creative expression, and his/her physical coordination.

Activities of an ECE program should provide: instructional situations where the child can use language and a variety of forms of oral expression; opportunities for the child to interact with others in group activities and to understand social rules; games and activities to develop the child's coordination imagination and ability to follow instructions.

Health and nutrition services shall be provided to children in the ECE program. Health services which shall be provided include: finding and remedying existing health

defects and providing preventive services. The county may provide medical exams, vision, hearing and speech tests, dental exams, immunization programs, screening process to identify intellectual, social and developmental weaknesses, individual office care and follow up treatment.

When limited space or personnel is available selection of five year olds to participate may be based upon age; first come first served basis; lottery; or other "fair and equitable procedures," or the county may provide a modified program consisting of two half-day sessions; 12-15 week sessions; or other staggered or rotating attendance systems to accommodate all five year olds.

PUPIL/TEACHER RATIO

Class size for children below six years of age shall not exceed 20 children for each teacher.

Transportation shall be available for children to and from school and adult supervision shall be provided when children under six are not accompanied by older children.

Parents should be encouraged to participate in the program planning and as volunteers. The ECE program should be coordinated with programs for children up to 8 years of age so that each plan "flows" into the next. Inservice training is required to improve the overall quality of the ECE program. ECE Programs shall be evaluated throughout the duration of the program to determine whether it is meeting its goals and objectives. The evaluation design should delineate the process by which findings are implemented.

4. EARLY CHILDHOOD EDUCATION

CROSS REFERENCES

III.A.2.; Regulation PI 8.01

III.B.Teachers; Regulation PI 3.03

CROSS REFERENCE

IV.G; Statute §21.1-58

5. BILINGUAL/BILCULTURAL EDUCATION

5. Bilingual/Bicultural Education

Statutes

§14.30.400; 14.30.410

School boards "shall provide a bilingual-bicultural education program for each school . . . which is attended by at least eight pupils of limited English-speaking ability and whose primary language is other than English." Such a program may be provided in schools with less than eight pupils of limited English-speaking ability. A special fund shall be established to institute this program.

Regulations

4AAC 34.010-020

The department of education shall provide grants of state funds "to encourage and assist school districts, in cooperation with local communities, to meet the special needs of children of limited English-speaking ability." This shall be acomplished through the "establishment of bilingual/bicultural education programs."

5. Bilingual/Bicultural Education

Statutes

§15-202

"All schools shall be conducted in English, except . . . where there are pupils who have difficulty writing, speaking or understanding English because they are from an environment where another language is spoken primarily or exclusively, the district may provide special programs of bilingual instruction."

§15-1097 --1099

A school district may provide bilingual instruction in the common schools for a period of four years per pupil. A district may also provide special courses for children who are unable to speak English. The district may hire special teachers for this purpose and may cooperate with other school districts or agencies in carrying out this program.

The state board of education shall establish standards for students and teachers in bilingual programs. Districts meeting these requirements will be eligible for state aid, as set forth herein and must report annually to the state superintendent.

ELIGIBILITY

SUGGESTIONS FOR COMPLIANCE WITH TITLE VI OF THE CIVIL RIGHTS ACT OF 1964 AS IT PERTAINS TO STUDENTS WITH A PRIMARY LANGUAGE OTHER THAN ENGLISH

Recommendations by the Arizona State Superintendent's Task Force 17 pages 1976

The report describes the legal requirements for complying with the Title VI requirements and suggests a plan for school districts to follow to insure their compliance with the law. The provisions of the plan include: formulating a policy commitment toward providing equal education opportunity; identifying, assessing and diagnosing language proficiency; and placing students whose primary language is other than English in programs designed to meet their needs.

5. Bilingual/Bicultural Education

Statutes

§10100 -- 10107

This section deals with providing for a local, state and federally funded bilingual-cross-cultural teacher preparation programs. It shall be the duty of The Commission for Teacher Preparation and Licensing to monitor the functions of said program, and shall in turn design a career ladder program which will allow bilingual teacher aides to become fully certificated bilingual teachers. The Commission will be responsible for designing a comprehensive language and culture curriculum for teachers who are already certificated.

The Bilingual Teacher Development Grant Program is herein established to evaluate candidates for grants in bilingual education.

It shall be the duty of the Department of Education to serve as a clearing house for bilingual-bicultural teaching personnel, and shall prepare projections on the needs for such personnel.

§45400 -- 45403

This article seeks to remove some of the barriers that face pupils who speak a single primary language other than English, and to provide them with the most beneficial education possible from the public elementary schools, junior high schools, and high schools of the state.

When at least 15 percent of the pupils enrolled in a public school speak a single primary language other than English, the governing board shall hire a bilingual person for the administrative office of each such school.

§52100 -- 52114

Finding that large numbers of children in the state come from families where the primary language is not English and that the inability to speak, read, and comprehend

English presents a formidable obstacle to classroom learning which can be removed only by instruction in the pupils' dominant language, the Legislature supports the development of bilingual programs.

Public schools shall be allowed to choose to participate in the establishment of bilingual programs, the goals of which shall be to develop competence in two languages for all participating pupils, to provide positive reinforcement of the self-image of participating pupils, and to develop intercultural awareness among pupils, parents, and staff in participating districts. Pupil participation is voluntary on the part of the parent.

RULEMAKING

The state board shall adopt regulations for the administration of bilingual education.

Each school district shall annually ascertain, under state board regulations, the number of children of limited English-speaking ability and the number of children who are non-English-speaking and classify them according to their primary language. Results shall be reported to the Department of Education by the first day of April of each year.

Each non-English-speaking child shall receive special assistance from the district, in any manner approved by the Local Board, regardless of participation in the bilingual program.

Each school district wishing to participate in the bilingual program shall determine what educational achievement levels and what needs for bilingual education exist in the district. This need assessment shall be verified by a school district advisory committee composed of parents of potential participants in the bilingual program.

The district shall write a project description with the following components: goals for bilingual education; measurable objectives for the attainment of goals; a description of how the student is to demonstrate the knowledge to be achieved; acceptable levels of performance; a plan of program manangement; teacher and aide preservice and inservice

training; a parent-teacher communication plan; and a plan for the gradual assumption of costs by the district.

Each participating district shall have an articulated sequential program of instruction, designed to develop competence in English and in the primary language of the participants, including criteria, developed with Department of Education assistance, for the placement and removal of pupils in a bilingual program.

At the beginning of each year, the district shall evaluate each child to be placed in a bilingual program with respect to strengths and weaknesses in both English and the primary language.

At least annually an evaluation of the children's linguistic progress, in a form prescribed by the Department of Education, shall be submitted to the Department.

In bilingual classes, there shall be an approximate balance between children whose primary language is other than English and children proficient in English. Not more than two-thirds of the children shall be limited-English-speaking children.

Instruction shall be conducted in both English and the primary language of the limited-English-speaking children.

All teachers in these classes shall be bilingual teachers. Given the shortage of qualified bilingual teachers, a district may, after a search assisted by the Department of Education, request from the state superintendent waiver of certification requirements of such teachers or authorization to use for two years only a monolingual teacher and a bilingual aide.

All bilingual-bicultural programs which involve special state funding or which are financed by a combination of state funds and federal funds (under Title VII of the Elementary and Secondary Education Act of 1965, as amended) shall be approved by the state board. Selection shall be made on a priority basis. Application shall be made on forms provided by the state superintendent and may be made jointly by two or more governing boards.

Funds allocated to districts for bilingual purposes

may be used only for: employment of bilingual aides; purchase and development of special bilingual teaching materials and equipment; special in-service training and staff development, and reasonable expenses of parent advisory groups on bilingual education.

Each district receiving state or federal funds for bilingual education shall establish a districtwide advisory committee in which parents (not employed by the district) of participating students shall constitute more than a simple majority. At each school with a bilingual program, a parent advisory group in which parents of participating students shall constitute a simple majority shall also be established.

The responsibilities of the Department of Education in administering the bilingual education program shall include, but are not limited to, the following: to review proposals from school districts and recommend projects for board approval, to encourage experimentation in bilingual education; to foster parent involvement; to make recommendations to districts in the areas of in-service training, cirriculum, testing, and the development of materials; to develop and recommend to the Commission for Teacher Preparation and Licensing standards for the certification of bilingual personnel, and to develop an annual evaluation of bilingual programs for submission to the Legislature and the Governor.

§52150--52152

In light of the need for adequately prepared personnel to help limited- and non-English-speaking children, the state superintendent shall establish a Bilingual Teacher Corps Program for the development of a corps of bilingual teachers. The program shall provide a stipend of $1500 per year, plus necessary expenses, to individuals serving as teaching aides providing direct instructional services while such individuals are pursuing an approved educational program directed toward a teaching credential in a cooperating institution of higher education. Such

stipends shall supplement, not supplant, other state and federal student financial aid programs. The superintendent may enter into contracts with local educational agencies, the California State University and Colleges, and the University of California for the training of these candidates.

The superintendent shall report to the Legislature annually for the duration of the program.

REGULATIONS

§3947

EVALUATION

Eligible students not enrolled in a program of partial bilingual, full bilingual or bilingual-bicultural education shall be individually evaluated and receive individual instruction.

Whenever an elementary school has 10 or more non-English speaking students or 15 limited English speaking students with the same primary language the school district shall offer a full bilingual education or bilingual-bicultural education for such pupils. If the school has 10 or more limited English speaking students, it shall offer partial or full bilingual education instruction.

§4301

This section applies to application for funds for bilingual programs. It is the intent of the Bilingual Education Program to ensure equal education opportunity; encourage establishment of bilingual education practices where appropriate; and enable children of limited English speaking ability to achieve competence in the English language.

§4304

The program shall include the development of reading, writing and speaking skills in English and the primary language and shall integrate history and culture of the non English speaking groups. All teachers shall be bilingual. Parents shall be notified that they may withdraw their child from the program.

§4309

Funds under this program shall be expended only for bilingual teacher aides, special bilingual equipment, inservice training and expenses of parent advisory groups.

§4310-15

This article applies to all California public schools. It is the purpose of this chapter to require school districts to offer bilingual learning opportunities to each limited English speaking pupil. Such a program shall utilize the pupil's primary language and teach the pupil English. At a minimum the program shall provide for an individual learning program for these children.

INDIVIDUAL PROGRAM

Teachers in this program must meet the criteria of the Education Code §5672(h) or (i). School districts may request a one year waiver of these requirements for teachers employed after January 1, 1977 if the teacher is currently enrolled in a program or the Board finds that the district made a "good faith effort" to recruit and hire bilingual, cross cultural teachers.

§4316

The program shall be assessed annually by each school district and information required by the Superintendent shall be submitted in an annual evaluation report. A census of all non or limited-English speaking students shall also be conducted annually.

EVALUATION

§4318

Advisory Committees shall be established in each school district to advise the governing board on development of goals and objectives for the program and to establish a timetable and plan to ensure compliance with the provisions of the Education Code Section 5767.16.

§4319

Instructional services shall begin in the language

the student understands and comprehends best. Fluent English speaking students shall be offered instruction in the primary language of their limited English-speaking counterparts.

§4320

. Parents of eligible children shall be notified of the fact that their child will have an opportunity to enroll in a program of bilingual education and the opportunity not to enroll. Parents have the right to visit these classes and to participate in the school district advisory committee or both. The notice shall be written in the primary language of the pupil.

§ 11372-11373

In addition to meeting eligibility requirements outlined in Education Code Section 6063, an English program shall:

a) provide at least one-half hour of daily instruction in spoken English. Such instruction shall include work in articulation, pronunication, correct usage, and vocabulary.

b) The instructing teacher shall hold a regular teaching credential and have special training in the teaching of English as a second language.

c) An appropriate classroom shall be provided by the district.

d) Records shall be kept of each participating pupil.

e) The determination of the success of the program shall be provided to the district board and the State Department of Education.

To qualify for an allowance for instructors teaching English as a second language, the district shall submit evidence that such teachers will be given the opportunity to participate in in-service education programs designed to improve their competence.

§ 11375

A school district conducting such an English program shall submit reports described in Education Code Section 5063 as the Superintendent of Public Instruction shall require.

§ 11401-11402

ENGLISH LANGUAGE CENTERS

English Language Centers shall be maintained and operate in accordance with the regulations in Article 66 of Chapter 6 of Division 6 of the Education Code.

The instructional program shall conform to the following:

a) The preschool instructional program shall encourage the development of self-expression and communication in English.

b) The elementary or high school program shall reinforce the course of study of the students in the Center. The program shall be planned in cooperation with teachers and administrators.

c) Programs for adults shall help adults cope with the challenges of "an ordinary education program and/or to obtain or retain employment."

§ 11405-11407

Techniques, materials and equipment shall be appropriate to the age of the student and the level of her/his ability in English. Facilities shall be adequate for the number of persons served at each level. "The program shall not duplicate unnecessarily, but shall be coordinated with, any existing programs."

§ 11408-11410

A person shall be judged eligible for such programs under Education Code Section 6074 upon receipt by the center of a letter or other evidence stating the persons inability to understand, read, write or speak English. Such letters may be received from, but are not limited to the following:

a) The person's employer.

b) A principal of the public or private school in

which a minor is enrolled.

c) The director or supervisor of a child's center or preschool program.

d) The State Department of Employment.

There shall be periodical determination by teachers and administrators of the center of the students' progress. Whenever it is determined that the student can no longer profit from further participation in the program, her/his eligibility in the program shall be terminated.

Class scheduled for a time shorter than the entire school term may be indicated on the application. In which case the administrators of the center shall give reasons why they consider the period adequate to reach the goals of the class.

§ 11411

The program shall provide a means of ascertaining:

a) The extent of impairment of the ability of a student to cope with an ordinary education program.

b) The actual ability necessary for a student of employable age to obtain or retain employment.

c) Progress made by a student in the development of her/his facility in English so that she/he can cope with an ordinary education program and/or obtain or retain employment.

§ 11600

The purpose of the Bilingual Teacher Corps program is to recruit and insure the training of bilingual teachers and administrators. The Superintendent of Public Instruction shall provide stipends to individuals qualified to pursue such a program.

5. Bilingual/Bilcultural Education

Statutes

§22-24-102

The general assembly recognizes the need to "provide programs to perfect the English language skills and cultural development" of non-English-speaking students, which is best accomplished through "bilingual and bicultural programs in grades kindergarten through third grade." Programs shall be directed toward the achievement of the following objectives: (a) Improved performance in comprehending, reading, writing, and speaking the English language; (b) "Improved school attendance and reduced dropout rate; (c) Development of a positive self-concept and attitude; and (d) Greater parental involvement in the school programs."

The policy of this state is to insure equal educational opportunity for every student and to recognize the educational needs of students with linguistically different skills.

EQUAL OPPORTUNITY

§22-24-105

A state steering committee on bilingual and bicultural education shall be formed by the Governor, composed of nineteen members, all of whom shall be legal residents of this state.

The state committee shall adopt guidelines for the submission of plans for bilingual and bicultural education programs by districts.

§22-24-106

"The state board . . . has the power to: (a) Select the director of the unit of bilingual and bicultural education; (b) Adopt all [necessary] rules, regulations, and procedures . . . for the implementation of this article. (c) Adopt appropriate timetables for the submission of bilingual and bicultural plans by districts . . . and adopt standards, criteria, or other measures which the unit shall apply in evaluating plans submitted by such districts; (d) Review any appeals

RULEMAKING

by districts . . .(e) Report its evaluations or analyses of all bilingual and bicultural plans funded or rejected.

The state board of education shall: (a) Approve all tests, criteria, identification instruments, and procedures used by districts; (b) Insure that said tests, criteria, identification instruments, procedures are normed for relevant geographical areas and are valid for the purpose of identifying students with linguistically different skills.

§22-24-107

(1) "The department has the duty to: (a) Establish a unit of bilingual and bicultural education . . .; (b) Study, review, evaluate, and disseminate all available resources and programs," all information on student dropout, retention and achievement performance; "all successful and innovative preservice and inservice programs for staffs of bilingual and bicultural programs" and assist districts in selecting and contracting said services; and "Compile a data bank on bilingual and multilingual teachers and potential graduates . . . for the purpose of assisting districts in their independent efforts to seek bilingual teachers."

§22-24-108

"Each district . . . shall annually conduct a census . . . to ascertain and identify the number of school-age children in grades kindergarten through third grade with linguistically different skills residing within its boundaries." Parents of students identified in the census shall be notified of their right to enroll their child in the bilingual program, and given a "non-technical description of the purposes, methodology and content of the program."

IDENTIFICATION

Any school with fifty or more students in kindergarten through third grade with "linguistically different skills," shall develop a program. Special provisions concerning inter district cooperation, etc., are set up for those districts with less than fifty children.

§22-24-109

"A district is required to develop an acceptable plan for a bilingual and bicultural education program . . . and to amend such plan if it is unacceptable to the department." It is the duty of the school board to carry out such a plan.

§22-24-110

No later than thirty days after the approval and funding of a blingual education plan, "the district shall notify the parents or legal guardian of each student to be included in the program."

Preference shall be given to students with linguistically different skills, but the program shall be open to all other students.

An orientation session shall be held "with the student's parents or legal guardian at the beginning of classes for the purpose of fully explaining the program in a manner and language understood by said parents or legal guardian." Parents may subsequently withdraw a child from the program by submitting a written notice to the district. District officials shall consult with the parents and explain to them the type of program in which the child will be placed.

PARENTAL CONSENT

§22-24-112

"A bilingual and bicultural program shall be a full time program of instruction" in both English and the student's native language. The "skills of comprehension, speaking, reading, and writing" shall be taught in both languages, and the historical and cultural contributions associated with the student's language shall be presented in that language.

"The program shall be located in the regular program of the public schools and not in a separate program, and districts shall assign students to schools in such a way that will promote, encourage, or have the effect of integrating students regardless of national origin or linguistic ability." Students in

the bilingual program shall participate equally with other students in extracurricular activities.."

"No district may transfer a student of linguistically different skills out of a bilingual and bicultural program unless the parents or legal guardian of the student approves the transfer in writing."

Students who do not have "linguistically different skills" shall be encouraged to enroll in bilingual and bicultural programs.

§22-24-113--22-24-114

In selecting teachers for a bilingual and bicultural program, a school board "shall make an affirmative effort to seek, recruit, and employ persons who are bilingual."

Inservice training shall include, but is not limited to:

STAFF

(I) Development of instructional skills in reading, writing, and speaking;

(II) Development of bilingual and bicultural teaching skills;" and a demonstration of such teaching skills.

"Districts may employ curriculum specialists for the effective development and implementation of the program," and school boards shall seek to employ persons who are bilingual.

"The school board shall make an affirmative effort to seek, recruit, and employ teachers' aides who are bilingual. The school board shall provide procedures for the involvement of the community committee in the screening of applicants."

"In-service training of teachers' aides shall include development of personal skills in reading, writing, and speaking; and opportunities to develop general teaching skills."

Districts with more than fifty students conducting bilingual programs, shall employ at least one "community coordinator." He/she "shall promote commun-

ication, understanding, and cooperation" between the schools and community.

§22-24-115

A district with one hundred or more pupils enrolled in a bilingual or bicultural program" shall appoint a . . . district director of bilingual and bicultural education. [He/she] shall be qualified . . . as a bilingual teacher and shall direct the operation of the district's . . . program. An affirmative effort shall be made . . . to employ a district director who is bilingual."

Districts with less than one hundred students enrolled in the program shall appoint a supervisor of bilingual and bicultural education. He/she "shall be qualified . . . as a bilingual teacher and shall supervise the operations of the program."

"An affirmative effort shall be made by the school board to employ supervisors who are bilingual."

§22-24-116

"Districts should provide for the maximum involvement of parents of students enrolled in the programs."

A "community bilingual and bicultural committee shall be established within each district offering a . . . program. The parents of students enrolled in each respective program of each school shall elect at least seventy-five percent of the regular community committee."

COMMUNITY COMMITTEE

In addition to the parent members of each community committee, a representative of the bilingual teachers . . . teachers' aides, the community coordinator, and the district director or supervisor of bilingual and bicultural education shall be members of each respective community committee.

The school board shall provide "assistance in program

development" and other areas to the committee to aid them in their work. The committee shall review the district's plans for bilingual programs, the needs of children residing in the district, and evaluations of prior programs. The committee shall vote upon and review all district plans for bilingual programs. Amendment of any program requires the approval of the state board of education.

"The department shall not approve any plan unless it is accompanied by the written comments of the community committee . . . and unless said plan has been voted on by the community committee.".

REGULATIONS

2224-R-2.0

THE BILINGUAL AND BICULTURAL EDUCATION ACT

The State Steering Committee and the State Board of Education shall cooperate to implement this Act.

Adoption of rules, bylaws and election of officers shall be accomplished at the initial committee meeting.

The committee and the State Board shall hold at least two joint meetings a year.

2224-R-3.0

A community committee shall be established and shall consist of eight members: six of which are to be parents of children enrolled in the program with one member being a staff member of the district program and another a district administrator.

The six parents shall be elected by the parents of children enrolled in the program at a district school board election conducted in compliance with steering committee guidelines.

The school district shall determine how the committee staff members are to be elected.

The initial committee's term of office shall be established by the local board of education for the academic year.

Each board of cooperative service (BOSC) operating bilingual and bicultural education programs under this Act shall assure:

That there is a community committee in each school district operating such a program;

That a BOSC committee is established having one parent of a child enrolled in the program from each school district participating in a program operated by the board of cooperative services.

The BOCS shall meet and serve as a liaison between the local community committees and the BOSC administration on matters pertinent to the operation of the programs.

2224-R-4.0

Districts must develop measures for conducting an annual census in their districts. The measures shall be consistent with those recognized by the Department.

CENSUS

Census Team(s) shall utilize all available data to determine the numbers of students with linguistically different skills in a school. Those students identified will be used to determine which district schools shall be selected for a program plan.

2224-R-5.0

The district director or supervisor of the Bilingual Program must be Colorado certified as a teacher or administrator.

2224-R-6.0

PUPIL-TEACHER RATIO

Class size for bilingual program instruction shall not exceed 28 for grades one through three if no bilingual aide is available.

A certified bilingual teacher may supervise, when assisted by one bilingual education paraprofessional, a class of no more than 38.

Adult-child ratio for bilingual kindergarten classes shall not exceed 25:1. Introduction of a para-

professional, with proper Department notification, may allow the ratio to increase, 20:2. The notification must explain why the modification would aid school development.

2224-R-7.0

Districts seeking financial assistance for their programs shall submit a comprehensive plan, including:

findings of the census study, listings of eligible schools, grades, and classes to be included and total number of students to be enrolled;

description of goals and objectives as they relate to students by grade level and a recital of how these goals and objectives are to be achieved;

DISTRICT PLAN

management plan showing the line of authority and how the program will be staffed, organized, coordinated and monitored;

a proposed budget, including projected expenses with an evaluation plan;

notification of those concerned of program needs and progress;

upward mobility and inservice plans to meet local staff needs, and a budget breakdown on proposed expenses for these programs permitted under this Act;

use of teachers who are bilingual;

a written reaction to the plan by the community and the community committee's vote on it shall be included in the plan.

School districts wishing to participate in the bilingual program, receiving state funds, may submit requests after the annual census no later than December 1 of each succeeding school year;

The community committee shall be established 45 days before the program plan for bilingual program is adopted by the local board of education.

Department recommendation to State Steering Committee for approval plan will be made no later than March 15 of each year.

Submission of a final evaluation report of the previous year's program to the Department shall be made

no later than August 1 of each year.

The program funded pursuant to the Act shall be implemented at the beginning of the school year for which funds have been requested.

2224-R-8.0

This section shall apply to programs offered under provisions of CRS 1973 22-24-119.

Students reported are those who speak only a language other than English. A "non-English Speaking Census" shall be conducted on or before October 5 of each year.

Students enrolling after the "non-English Speaking Census" shall be assessed and the results reported to the Department on or before November 15.

Tutorial Grant application must include a comprehensive plan to be submitted to the Department on or before November 1 and shall include:

identification of children in "non-English Speaking Census" not enrolled in state bilingual programs servicing kindergarten through grade three;

language spoken by those identified;

specified program approach to be utilized by the district;

procedure for defining measurable objectives and a means for evaluating progress towards these objectives;

a proposed budget necessary for conducting the program such budget to include numbers of staff and positions for each.

2224-R-9.0

Districts receiving tutorial grants are to submit final reports by August 1 following the school year in which the program was offered. The report shall include: number of children served, teachers or aides employed; results of the evaluation of progress towards achieving defined objectives; costs expended for staff, teacher aide training and instructional materials.

A school district has 20 working days, from the date of receipt, to respond to a CRS 1973, 22-24-108(11) complaint. Five days after it receives the school district's response the department shall review and determine whether the statute has been complied with or whether a plan of compliance has been submitted. If the district's response is rejected it shall receive detailed grounds of non-compliance, an order instructing it to comply, and notice of a right to hearing. The Steering Committee and State Board shall receive copies of the notice and other relevant correspondence.

If the district fails to request a hearing, the department shall, in cooperation with the Attorney General's office, move to enforce the Act and rules specified in the department's order.

HEARING

The State Board shall cause all requested hearings to be heard by a hearing officer within 20 days of receipt of the request. The hearing shall be conducted within the provisions of CRS 1973, 24-9-105, as amended.

The hearing officer's decision is appealable to the State Board, and the decision of either, if an appeal is taken, shall be deemed the final agency action. The decision shall be enforced by the department, in cooperation with the Attorney General's office.

APPEAL

5. Bilingual/Bicultural Education

Statutes

§10-17

Local boards shall determine when instruction shall be given bilingually and biculturally and shall design the procedures and acquire the training materials necessary to meet the special needs of children of limited English-speaking ability.

The programs shall be designed "to provide bilingual instruction . . .; to impart a knowledge of the history and culture associated with the student's language; to establish closer cooperation between the school and the home; to provide bilingual and bicultural early childhood educational programs . . .; to provide bilingual and bicultural adult education programs; and to provide such programs in trade, vocational or technical schools and for dropouts and potential dropouts.

§10-17a

"A bilingual and bicultural program of study may be established by any board of education" provided the purpose of such program shall be to enable children to become proficient in English. A private school may, with the approval of the state board of education, establish such a program of bilingual education."

§10-17c

In areas with large concentrations of non-English speaking persons the state board shall assist the board of the school district in implementing bilingual programs.

The state board shall annually evaluate the bilingual and bicultural programs conducted and report to the general assembly.

5. Bilingual/Bicultural Education

CROSS REFERENCE

II.A.3; Regulation 30-2310; 30-2320

5. Bilingual/Bicultural Education

Statutes

§10-22.38a

Boards may provide bilingual programs for students whose first language is one other than English.

§14C-1 - 14C-12

The State Board shall prescribe regulations for a bilingual education program for "children of limited English-speaking ability." Each school district shall ascertain annually the number of such children within the district. Where more than 20 of these children live in a district, "the school district shall establish for each [language group], a program in transitional bilingual education . . . ." Where the number is less than 20, the district may establish a bilingual program.

"[W]henever possible [children] shall be placed in classes with children of approximately the same age and level of educational attainment." Classes shall be given in the native language of the children, as well as in English.

The parents of the children must be notified of enrollment in the program in the native language and in English, within 10 days of the enrollment. A parent "shall have the absolute right . . . to withdraw her/his child from such program by providing written notice of such desire. . . ." In the event that the parent consents to the enrollment, the child shall continue in the program for three years or until he or she achieves the skills necessary to "perform successfully" in classes given only in English. This three year period may be extended "in the discretion of the school district and subject to the approval" of the parent.

Teachers in bilingual programs must meet statutory requirements in addition to having valid teaching certifications. "School districts shall give preference . . . to those . . . who have the relevant foreign cultural background . . . ."

With respect to costs, "[e]ach school district shall be reimbursed for the amount by which . . . costs exceed the average per pupil expenditure . . . ."

§34-18.2

The board of education may provide programs in a language other than English for those children whose first language is other than English.

CROSS REFERENCES

II.A.8.; Statute §201-1 -- 203-3

III.B.Teachers; Regulation, State Certification Requirements XIII

STATUTES

§20-10.1-5.5-2

"The superintendent of public instruction shall carry out a bilingual-bicultural program for the improvement of educational opportunities for non-English dominant children" by: assisting in the establishment of services and programs and in-service training for bilingual teachers.

§20-10.1-5.5-3

English speaking students may participate in the bilingual program as long as their presence does not hinder the progress of the non-English dominant children. When possible, students shall be grouped according to age and academic level. "The ultimate objective shall be to place the bilingual-bicultural student in the regular course of study."

§20-10.1-5.5-4

Before a student is placed in a bilingual-bicultural program, the school board must notify the child's parents. The notice must be in English and in the appropriate non-English language, and must inform the parents of their right to visit the program and to refuse placement or withdraw the child from the program.

§20-10.1-5.5-5

Each year, the principal of a school which operates a bilingual-bicultural program shall appoint a local advisory committee composed of bilingual teachers, counselors, community members and parents of students enrolled in the program. A majority of the committee

shall be parents of students enrolled in the program. Each year the governing body of each school corporation operating a bilingual program shall select one representative from each local advisory committee to serve on a "corporation advisory committee." Both committees shall participate in planning, implementing and evaluating the bilingual programs. "All bilingual-bicultural programs must be approved by the appropriate local advisory committee before implementation."

§20-10.1-5.5-6

"School corporations may establish full or part-time summer or preschool bilingual-bicultural courses, but they are not substitutes for bilingual-bicultural programs required during the normal school year."

§20-10.1-5.5-7

The division of migrant bilingual-bicultural education of the department of public instruction shall assist school corporations in developing bilingual - bicultural programs by evaluating instructional materials; providing technical assistance; developing in-service training programs for personnel; monitoring and evaluating programs; establishing resource centers; and promulgating regulations to implement this chapter.

REGULATIONS

§ II, Ch. 1, Policy 72-06

Ethnic Studies

"The Commission on General Education...resolves that present programs of studies...and programs of studies hereafter submitted for approval should provide for the following considerations:

a. Content and materials should accurately depict

our multi-ethnic society. . . .

b. Contributions and cultural aspects of all ethnic groups should reflect an integrated approach to the study of humanistic and social subjects.

Multi-ethnic courses may be offered on an elective basis with the approval of the Department of Public Instruction.

Regular history courses...and...regular social studies courses, of American history, should include scholarly attention to the heritage of Americans of all ethnic origins."

II.A.1.; Statute §72-1101

II.A.3.; Regulation §91-27-2; 91-27-4

5. Bilingual/Bicultural Education

Statutes

69 §35

"There shall be . . . within the department, . . . a bureau of transitional bilingual education . . . The project director shall be appointed by the board of education upon the recommendation of the commissioner, and . . . shall have the minimum qualifications of a bachelor's degree in either business administration, liberal arts, or science, and shall have at least two years of documented administrative or teaching experience. The . . . director shall file a quarterly report with the board of education, the clerk of the house of representatives and the . . . senate.

The bureau . . . shall . . .(1) assist the department in the administration and enforcement of the provisions of chapter seventy-one A . . .; (2) . . . study, review, and evaluate all available resources and programs that, . . . are or could be directed toward meeting the language capability needs of children and adults of limited English-speaking ability . . .; (3) . . . compile information about the theory and practice of transitional bilingual education . . ., encourage experimentation and innovation . . . and . . . make an annual report to the general court and the governor; (4). . . provide for the maximum . . . involvement of parents . . . in . . . planning, development, and evaluation . . . and . . . provide for the maximum . . . involvement of parents, . . . teachers and teachers' aides, . . . community coordinators, representatives of community groups, educators and laymen knowledgeable in the field . . . in the formulation of policy and procedures relating to the administration of chapter 71A . . .;" 5) consult with other departments and agencies to and in the administration of said chapter; and 6) make recommendations as to pre-service and inservice training for teachers, "curriculum development, testing and testing mechanisms, and the development of materials . . ."

71A §2

Each school committee shall determine by March first the number of children "of limited English-speaking ability" within their school system, and shall classify them according to their primary language. When there are twenty or more children of limited English-speaking ability in any classification, the school committee must establish a program in transitional bilingual education. Every child shall participate in the program for a period of at least three years or "until [she]he achieves a level of English language skills which will enable him[her] to perform successfully in classes . . ."

EXAMINATION

An examination in the oral comprehension, speaking, reading and writing of English shall be administered annually to all children participating in a program in transitional bilingual education.

71A §3

NOTICE

No later than ten days after the enrollment of any child in a program in transitional bilingual education the school committee shall notify his/her parents, of such enrollment, in writing in English and in the language of the parents. "The notice shall contain a simple, non-technical description of the purposes, method and content of the program in which the child is enrolled and shall inform the parents that they have the right to visit transitional bilingual education classes in which their child is enrolled and to come to the school for a conference to explain the nature of transitional bilingual education." The notice shall further inform the parents that they have the "absolute right" to withdraw their child from the program.

71A §4

"A school committee may allow a non-resident child of limited English-speaking ability to attend its program in transitional bilingual education, and the tuition for such a child shall be paid by the city, town, or the district in which she/he resides." Towns may join together to provide programs. The commonwealth shall reimburse the cost of providing transportation.

71A §5

"Instruction in courses of subjects included in a program of transitional bilingual education which are not mandatory may be given in a language other than English." In those subjects in which "verbalization is not essential to an understanding of the subject matter, including art, music and physical education," children of limited English-speaking ability shall participate fully with their English-speaking contemporaries" in regular classes. Children enrolled in a program shall be able to participate in extra-curricular activities. Whenever feasible, such programs shall be located in the regular public schools, and children shall be placed with their peers, with the maximum student-teacher ratio, set by the department, which shall reflect the special educational needs of children enrolled.

71A §7

"A school committee may establish on a full or part-time basis pre-school or summer school programs in transitional bilingual education for children of limited English-speaking ability." These programs shall not substitute for programs required to be provided during the regular school year.

71A §8

The costs to the School Committees of the programs in transitional bilingual education shall be reimbursed by the commonwealth for the amount by which such costs exceed the average per pupil expenditure of the area for the education of children of comparable age.

71A §9

". . . the department shall exercise its authority and promulgate rules and regulations to achieve the full implementation [of any transitional bilingual education program]."

REGULATIONS

REG. #23

3. Annually each school committee shall conduct

a census of the "number of children of limited English-speaking ability resident in the district" both in and out of school.

5. All personnel conducting the census "shall be able to communicate in the home language of the children being counted.

6. Children of limited English-speaking ability shall mean those children who meet the statutory requirements of native tongue and parentage and who have difficulty performing ordinary classwork in English due to problems handling the English language."

7. Districts shall classify such children by the child's primary language. Such classification shall compare to "living foreign languages."

8. The local director of the program "shall annually evaluate every child "considered for placement in it, in order to dermine the child's continued eligibility. The Bureau of Transitional Bilingual Education shall establish guidelines for such determinations.

9. When it is determined that within any city, town, or school district (not including children in private schools), there are "twenty or more children of limited English-speaking ability in any such language classification, the school committee shall establish, for each classification, a program for Transitional Bilingual Education." School districts may establish programs when there are less than twenty children in a given classification.

Reimbursement

11. "The costs of instruction, training and support . . . of [the] Transitional Bilingual Education [program]. . . shall, for the amount by which such costs exceed the average per pupil expenditure of the school district for the education of children of comparable age, be reimbursed by the Commonwealth.

Educational Quality

20. Programs in Transitional Bilingual Education

shall mean a full-time program of instruction.

1. in all those courses . . . which a child is required by law to receive and which are required by the child's school district in the native language of the children . . . enrolled in the program and in English.

2. in the reading and writing of the native language of the children . . . and in the aural comprehension, speaking, reading and writing of English, and

3. in the history and culture of the country, territory or geographic area which is the native land of the parents of [such] children . . . and in the history and culture of the United States."

21. Non-mandatory course instruction may be given in a language other than English. "In those courses or subjects in which verbalization is not essential to an understanding of the subject matter. . .[e.g., Art, Music, Physical Education]. . ." such children shall attend classes with their English speaking contemporaries. The same shall be true with respect to extracurricular activities. "Programs in Transitional Bilingual Education shall be located in regular public schools rather than special facilities" unless it is determined not to be feasible and is approved by the Bureau.

ENROLLMENT

22. Enrollment in the program shall be for a period of three years or until the child "achieves a level of English language skills which will enable him/her to perform successfully in classes in which instruction is given only in English, whichever shall occur first." Such three-year period may be extended at the discretion of the school committee and with the approval of the child's parents.

23. "Programs shall be designed and conducted . . . [to] . . . achieve skills in aural comprehension, speaking, reading and writing of English sufficient to perform ordinary classwork in English within the three-year transitional period.

PUPIL-TEACHER RATIO

24. The maximum student-teacher ratio shall be 15:1" except it may be 20:1 when a teacher's aide is assigned to the class.

25. "It is highly recommended that native speaking teacher's aides be utilized" and that whenever possible, they be paid out of Title I funds of the federal Elementary and Secondary Education Act.

26. "The age spread in any . . . class shall be no more than three years . . . except that the . . . kindergarten class shall be no more than one year.

27. The regulations shall be interpreted as encouraging experimentation and innovation in teaching . . . classes, including the use of . . . open classrooms, team teaching, etc."

28. Children in the program "shall be taught the history and culture of their own background and the history and culture of the United States to draw upon and balance both." Such courses "will encourage a student to keep and report his[her] own heritage and draw upon and understand the American way of life."

29. Children in the program "shall receive full regular program credit for all years completed and courses taken." Such program credit shall be transferable between different schools and school districts.

30. "It is highly recommended that school districts utilize . . . native speaking community coordinators who shall act as liaison between the school district and the [children's] parents . . . and visit the homes of the children in order to exchange information about the . . . program.

31. It is highly recommended that school districts utilize . . . native speaking guidance counselors or pupil adjustment counselors . . . ."

32. School districts shall take measures to see that the program is adequately administered. If 200 or more children are in the program, it "shall appoint a local project director, supervisor, or teacher in charge . . . ."

33. Participating school districts "shall designate

a committee of three or more members, including . . . representatives . . . from the school administration, . . . [the] program, and [the] Parent Advisory Committee." Such committee "shall be responsible for conducting an annual review of the district's . . . programs and reporting its conclusions to the Bureau . . . and the school committee.

34. School districts shall send program reports to parents of children enrolled in . . .[the] . . . programs in the same manner and frequency as progress reports sent to parents of other children enrolled in the school district. Such . . . reports shall be written in English and the native language of the parents."

35. Children enrolled in the programs "shall have full access to special and other educational services available to other children in local school districts."

Preschool and Summer Program

36. Any preschool or summer programs offered "shall comply with the statutory definition of Transitional Bilingual Education, except that such . . . programs may be full or part time."

37. Kindergarten programs may be provided, the costs of which may be reimbursed.

Parent Participation

PARENTAL INVOLVEMENT

38. Each participating school district "shall establish a Parent Advisory Committee (PAC) on Transitional Bilingual Education," which shall be composed of parents of children enrolled in the program. The committee "shall have at least five members including . . . representatives from every language group in which" programs are conducted in the district. Members "shall be selected in a manner which fairly represents the views of [the] parents."

39. The PAC "shall meet regularly with school officials, and at least once annually with the school committee, to participate in the planning, development and evaluation of the district's . . . program. Members . . . shall have access to . . .[the] program['s] records."

40. The PAC "may appoint sub-committees for different language groups and/or schools."

41. "No plan shall be approved under this Act which has not been submitted in advance to the . . . Parent Advisory Committee."

42. Parents of children enrolled in the program "who are members of Title I parent advisory committees shall be eligible to participate on Parent Advisory Committees established under the Act and regulations.

English Speaking Children

43. Transitional Bilingual Education programs may include children of English-speaking ability subject to the notification and withdrawal provisions of Section 3.

Joint Programs

44. School districts establishing joint programs . . . may establish such financial arrangements as they see fit . . . and shall work out equitable reimbursement arrangements with the Bureau . . . and the Department . . ."

Notice and Withdrawal

45. Within ten days after the enrollment of any child in the program, the local school committee shall notify by mail the parent or guardian of the child of the fact their child's enrollment in the program. Such notice "shall contain a simple, non-technical description of the purposes, method and content of the program . . . and shall inform the parents that they have the right to visit . . . classes in which their child is enrolled, and to come to the school for a conference to explain the nature of . . . [the program]". The notice shall further inform the parents of their "absolute right" to withdraw their child from the program. "The notice shall be in writing in English and in the language of which the child of the parents so notified possesses a primary speaking ability.

NOTICE

WITHDRAWAL

47. Parents shall have an absolute right to withdraw their children . . . at any time up to one month from the date they receive notice of enrollment. Thereafter, they may exercise their right to withdrawal only at the end or beginning of a semester, or with permission of a teacher"

in the program.

48. Parents of children enrolled in the program "shall have access to their children's individual school records and shall have the right to visit . . . classes in which their children are enrolled. Parents shall also have the right to request and receive a conference with a . . . [program] teacher . . . relating to the nature and purposes of the . . . programs, and their children's program in school."

Plans

50. Annually "school districts shall submit letters of intent for programs in Transitional Bilingual Education to the Bureau . . . by December 1st of the school year preceding the implementation of a program . . . . Such letter of intent shall contain a short narrative description of the proposed . . . program." The Bureau should respond to the school district by the following February 1st.

51. "School districts shall submit plans for programs in Transitional Bilingual Education to the Bureau . . . by March 31st of the school year preceding the implementation of a program . . . . Such plans shall comply with the Act and the regulations and shall contain information required by the Bureau to determine whether the school district is in compliance . . . Plans shall be submitted in accordance with guidelines and forms prepared by the Bureau.

52. Plans shall set forth steps taken towards a census of children of limited English-speaking ability resident in the school district.

53. Plans shall describe the ways and means by which a . . . program will teach the history and culture of the [children's] native land.

55. No program . . . shall be eligible for reimbursement which has not submitted a plan approved by the Bureau . . . . The Bureau shall process and approve such plans or recommend changes in such plans by May 15th of the school year preceding the implementation of a program . . .

56. Plans submitted for approval . . . shall contain . . . program projections for the following two school years.

Such projections shall be regularly updated for submission with plans for following school years.

Board of Education

57. "The Board . . . may upon petition of a school committee waive any of the provisions of these regulations as to any particular district for such time as may . . . seem reasonable to avoid undue hardship to such district."

III.B.Teachers; Statute 71A §6

III.B.Teachers; Regulation #21

STATUTES

§380.1153

The board of a school district having an enrollment of 20 or more children of limited English-speaking ability in grades K-12 shall establish a bilingual instruction program. The board of a district with fewer than 20 children of limited English-speaking ability may establish such a program.

If children of different age groups or grade levels are combined, the board shall insure that the instruction given each child is appropriate to the child's level of educational attainment.

A child residing in a district which lacks a bilingual program may enroll in a program in another school district. Tuition and transportation shall be provided by the district in which the child resides. TUITION

An intermediate board shall determine whether the number of children of limited English-speaking ability residing in its constituent districts, which do not operate bilingual programs warrants the establishment of an intermediate bilingual instruction support program. An intermediate district operating a bilingual program may carry children in membership in the same manner as a local school district and shall be entitled to its proportionate share of state funds available for the program.

§380.1154

The bilingual program operated by a district shall provide full-time instruction in courses and subjects required by this act and by the board for completion of the grade level in which the child is enrolled.

§380.1155

Prior to placement of a child in a bilingual program, the board shall notify the child's parents or legal guardian. PLACEMENT The notice written in English and in the native language of the child, shall contain a simple, non-technical description NOTICE

of the purposes, methods and content of the program. The notice shall inform the parents or guardian that they have the absolute right to refuse the placement or to withdraw their child from the program by giving written notice to the board.

A child shall be enrolled in a bilingual program for three years or until the child achieves a level of proficiency in English, sufficient to receive an equal educational opportunity in the regular school program, whichever comes first. A child shall not be transferred out of a program prior to a child's third year of enrollment unless the parents or guardian approve the transfer in writing or unless the child successfully completes an examination which reflects a level of proficiency in English appropriate to the child's grade level.

§380.1156

A board operating a bilingual program shall establish an advisory committee, comprised of representatives of parents of children enrolled in the program, bilingual instruction teachers and counselors, and members of the community, to assist the board in evaluating and planning the program. A majority of its members shall be parents of enrolled children.

§380.1158

Relative to bilingual instructions, the state board shall advise and assist school districts in complying with §380.1152 through 380.1158, shall evaluate all instructional materials, compile data, encourage experimentation, and make an annual report to the legislature and the governor.

II.A.1; Statute §380.1151

III.E.Bilingual Education Program; Statute §380.1157

5. Bilingual/Bicultural Education

Statutes

§126.07

Book used and instruction given in the public schools shall be in English, but any other language may be used by teachers in explaining to pupils who understand such language the meaning of English words. In a program for children of limited English speaking ability, instruction and books may be in the primary language of the children. In secondary and elementary schools other languages may be taught, when made a part of a regular or optional course of study.

§126.32 -- 126.34

In order to provide equal educational opportunity to every individual, the bilingual education act provides for the establishment of at least three pilot transitional bilingual educational programs.

EQUAL OPPORTUNITY

Under the provisions of the act, "children of limited English speaking ability" are children whose primary language is other than English and who have trouble reading, writing, speaking, and understanding ordinary classroom instruction and performing classroom work in English.

§126.35

The program of instruction in bilingual education classes shall consist of instruction in both the primary language and in English in all subjects taught. Concern for the students' cultural heritage should be demonstrated, as well as instruction given in the childrens' history and culture and U.S. history and culture. Inservice training shall be developed for the staff, consisting of improving bilingual skills and providing opportunities to develop better teaching techniques.

As far as is possible, children with different non-English primary languages should not be placed in the same bilingual program. Additionally, if graded classes

are used, children should be placed in classes with others of approximately the same age and level of educational attainment.

When a pilot program is established, every school age child of limited English speaking ability shall be eligible to enroll and participate in the program for a period of three years or until she/he achieves a successful level of English language skill. Within ten days of enrollment the child's parents shall be informed, in writing, in both English and their primary language, of the program's purposes, their right to visit the program, and their right to withdraw their child from the program. However, no withdrawal shall be allowed until the parents meet with school district officials.

ENROLLMENT

NOTICE

WITHDRAWAL

If it is economically feasible, children whose primary language is English may enroll in the program.

§126.38

In order to ensure the maximum involvement of parents of children enrolled in bilingual programs, school districts shall establish a parent advisory committee. The committee shall be composed solely of parents of children in the program, eligible or enrolled secondary students, bilingual education teachers and representatives of community groups.

PARENTAL INVOLVEMENT

§126.39

The state board of education shall conduct a statewide assessment of the need for bilingual education, shall study and review all available resources and programs, and shall design program models appropriate for meeting the need for bilingual education. The state board shall provide for comprehensive evaluation of pilot programs. The maximum involvement of the state advisory task force, parents of enrolled children, and teachers of bilingual education shall be encouraged.

EVALUATION

Before September 1, 1979, the state board of education shall report to the legislature on the pilot programs and include recommendations for legislation. The state board may promulgate rules providing for standards and procedures for implementing the bilingual education act.

§126.40

The state board of education shall appoint an advisory task force on bilingual education programs. Members shall include: members of community groups, parents of children enrolled in bilingual programs, and bilingual education teachers. The task force shall: make recommendations to the state board on proposals for programs and advise the board in the administration of its duties.

§126.41

During 1978-79, at least three pilot programs shall be funded, one of which must be in a rural area. School districts applying for grants must submit a plan outlining their needs, goals and objectives, and specifics as to how the proposed program will be conducted. Each school district receiving a grant shall take a census of all children of limited English speaking ability, shall assess the language proficiencies of the children, and test them for achievement. All testing and evaluation procedures shall be selected so as not to be racially or culturally discriminatory. Participating school districts shall keep records on bilingual education programs.

CROSS REFERENCE

III.B.Teachers; Statute §126.36 -- 126.37

5. Bilingual/Bicultural Education

Statutes

§189:19

The "English language shall be used exclusively" for instruction in the public schools. However, "experimental educational programs in . . . bilingual education shall be permitted . . . with the approval of the state board of education."

§193:9 --193:10

All persons "between sixteen and eighteen" who cannot "read and speak English" must "attend an evening or special day school" until they have completed the "minimum course of studies prescribed by the state board." However, this requirement does not apply to "persons over sixteen years . . . employed in cutting, harvesting or driving pulp-wood and timber, nor to persons temporarily employed in any sort of construction or agricultural work."

CROSS REFERENCES

I.State Board of Education; Statute §186:5 -- 186:6a

5. Bilingual/Bicultural Education

Statutes

§18A:35-15

In order to "insure equal educational opportunity to every child, in recognition of the educational needs of children of limited English speaking ability," a bilingual education program in the public schools is established.

§18A:35-17--19

Each district shall identify the children who have limited English speaking ability and shall classify them according to their primary language ability.

When there are 20 or more children "with limited English speaking ability in any one language classification" a bilingual program shall be established for all pupils therein. The board may also establish a program for a classification with less than 20 pupils. Each pupil may participate in such program for three years.

§18A:35-20

"Programs in bilingual education shall be located in the regular public schools." The pupils in these programs shall participate fully with English speaking students in courses in which verbalization is not essential to the subject matter."

§18A:35-21

A school district may join with any other school district or districts to provide bilingual programs.

§18A:35-22

Parents of children enrolled in bilingual programs shall be notified of such enrollment in writing. They shall be as involved as possible in the development and review of the program.

§18A:35-23--26

The commissioner of education and the Chancellor of Higher Education shall "promulgate rules, establish procedures [and] employ personnel" in order to implement this program. A "State Advisory Committee on Bilingual Education" shall be established to assist in the "formulation of policies and procedures" relating to bilingual education. It shall include representatives of the "language communities served," teachers and layment knowledgeable in the field of bilingual education. The State Board and State Board of Higher Education shall "develop resources, programs, curriculum and instructional materials" and undertake other activities to provide bilingual programs.

REGULATIONS

§6:31-1.3

When, at the beginning of any school year, there are within the schools of the district, 20 or more pupils of limited English speaking ability in any one language classification, the board of education shall establish, for each such classification, a program in bilingual education for all the pupils therein. A board of education may establish a program in bilingual education for any language classification with less than 20 children therein.

Children enrolled in a program of bilingual education whenever possible shall be placed in classes with children of approximately the same age and level of education attainment.

A program of bilingual education may make provision for the voluntary enrollment on a regular basis, of a limited number of children whose dominant language is English, in order that they may acquire an understanding of the cultural-heritage of the children of limited English speaking ability for whom the partitular program of bilingual education is designed.

Residents between the ages of five and 18 not enrolled in any school shall be offered an opportunity to enroll in any bilingual program so established.

§6:31-1.7--.8

The bilingual curriculum is not to vary from that offered to all pupils within the school district. In subjects where limited English speaking ability is not essential, pupils, regardless of their English speaking ability, may be taught together.

In such situations the number of pupils who are proficient in English shall not be less than ten within a classroom. The backgrounds of both groups of pupils shall be incorporated into the class curriculum.

All bilingual programs shall be conducted within the school buildings of the district.

§6:31-1.9

Every school age child of limited English speaking ability not enrolled in existing private school systems shall be enrolled and participate in the bilingual education program established for the classification to which he belongs by the school district in which he resides for a period of three years.

ORAL EXAMINATION

An examination in the oral comprehension speaking, reading and writing of English, as prescribed by the State Department of Education, shall be administered annually to all children of limited English speaking ability enrolled and participating in a bilingual education program.

No school district shall transfer a child of limited English speaking ability out of a bilingual program prior to his three years of enrollment unless the pupil has received a score on said examination, determined by the State Department of Education, in consultation with the local school district, which reflects a level of English language skills appropriate to the pupil's grade level.

A child of limited English speaking ability enrolled in a bilingual education program, who does not reflect a level of English language skills which will enable him to perform successfully in classes in which instruction is given only in English, may at the discretion

of the school district continue in that program for a period longer than three years.

IIA5-NJ
NEW JERSEY

A child of limited English speaking ability enrolled in a bilingual education program, who reflects a level of English language skills appropriate to his or her grade level, may at the discretion of the school district continue in that program for a period longer than three years.

At the discretion of the districts, bilingual education programs may include children of English speaking ability, provided that no bilingual class contains a majority of students whose native language is English.

§6:31-1.10

Any two or more districts may combine to provide bilingual education programs, facilities, or transportation.

§6:31-1.11

Within ten days after a pupil has been placed in a bilingual program the district is to notify his/her parents of such placement.

PLACEMENT NOTICE

Progress reports on those pupils placed in the bilingual programs are to be regularly forwarded to parents of enrolled pupils.

§6:31-1.12

In each district where bilingual education is offered, interested parents of enrolled children are to be invited to sit on the advisory committee. This committee, being composed of parents, teacher, community leaders, shall aid in the development and review of program objectives and dissemination of information to those concerned.

§6:8-3.8

The district board of education, after consultation with the chief school administrator and teaching

staff members, shall establish reasonable pupil minimum proficiency levels in the basic communication and computational skills.

Each pupil shall be assessed, upon entrance into the educational system and annually thereafter, to identify pupils not meeting minimum proficiency levels.

Preventive and remedial programs, supplemental to the regular program, shall be established. These programs shall include:

Programs to assist those pupils (defined as a "State compensatory education pupil") performing below the established minimum levels of pupil proficiency in the basic areas of communication and computational skills;

Procedures for the screening of currently and newly enrolled pupils in order to determine whether or not they should be enrolled in preventive and remedial programs should include those diagnostic measures which could be used to predict the relevant learning difficulties and needs;

Instruction and services to meet pupil needs;

Ongoing communication between teaching staff members and parents or guardians of compensatory pupils participating in preventive and remedial educational programs;

Evaluation procedures which measure compensatory pupil achievement related to preventive and remedial educational program objectives and standards;

Evaluation of the effectiveness of preventive and remedial educational programs.

As part of the annual district and school classification procedure, the State Department of Education shall monitor the district board of education's pupil minimum proficiency levels and the rate of pupil growth in achievement with particular attention to services and preventive and remedial educational programs for the basic communication and computational skills.

TITLE-NJ 5
NEW JERSEY

ASSESSMENT

PREVENTIVE PROGRAMS

REMEDIAL PROGRAMS

EVALUATION

The Department of Education shall conduct studies and evaluate findings biennially after the effective date of this Chapter in order to report the status of progress toward the attainment of pupil minimum proficiency levels established by the district board of education.

CROSS REFERENCES

I.Advisory Committee of Bilingual Education; Regulation §6:31-1.14

I.Bureau of Bilingual Education; Regulation §6:31-1.13

III.B.Teacher; Regulation §6:11-8.8; §6:11-8.9; §6:31-1.5

5. Bilingual/Bicultural Education

Constitution

New Mexico Constitution Article XII, Section 8

The legislature shall provide for the training of teachers in the normal schools or otherwise so that they become proficient in the English and Spanish languages to qualify them to teach Spanish-speaking pupils in the public schools . . . and shall provide means and methods to facilitate the teaching of the English language and other branches of learning to such pupils and students."

Statutes

§77-23-3

There is a Bilingual Multi-Cultural Education Act whose purpose is "to ensure equal educational opportunities for students in New Mexico." Cognitive and affective development of students is encouraged by: (1) utilizing the students' cultural and linguistic backgrounds in the program; (2) using a positive approach in teaching, (3) teaching students to appreciate the value and beauty of different languages and cultures.

§77-23-4

"The state board shall issue guidelines for the development and implementation of programs" under the Bilingual Multi-Cultural Education Act. The state department of education shall administer and enforce the Act and assist local boards in developing and evaluating programs.

§77-23-5

A. "The (local school board may prepare and submit to the department (of education), the state superintendent of public instruction . . . and the chief (of public school finance) a program plan in accordance with guidelines issued by the state board."

B. "At regular intervals, the (local) school

board, the department (of education) and a parent advisory committee from the district shall review the goals and priorities of the plan and make . . . recommendations to the state board."

C. "Programs shall be located in the regular public schools of the district. Involvement of students in any programs shall not have the effect of segregating students by ethnic group, color or national origin."

§77-23-6

"To be eligible for state financial support each program must:"

(1) provide for the educational needs of linguistically and culturally different students in grades K-6 who want to participate;

(2) fund programs for these students "where there is an identifiable need to improve (their) language capabilities;"

(3) use 2 languages for instruction within the program and teachers with bilingual education training;

(4) "emphasize the history and cultures associated with the students' mother tongue;"

(5) be approved by the department of education, the state superintendent for public instruction and the chief of public school finance.

REGULATIONS

Reg. No. 73-21

At their discretion, local education agencies may submit to the State Department proposals for bilingual-multicultural education programs.

Priority will be given to programs designed to improve the language capabilities of culturally and linguistically different students in grades K-3. The need for such a program may be demonstrated through parents' surveys, on-going recores of students, existing or specially implemented test data, and other appropriate methods.

Programs should include: the use of cultural background of students, the inclusion of components to insure "affective (self image) development" of students, and specific instruction to improve bilingual proficiency among students.

A parent advisory committee, the local board, and a representative of the State Department shall review the program. No less than two reviews of the program shall be made yearly.

III.B.Teachers; Regulation, Reg. No. 74-1; 76-26

5. Bilingual/Bicultural Education

Regulations

§ 154.1 — 154.2

The purpose of these regulations is to implement the legislative intent to provide special State aid for local programs for pupils of limited English speaking ability, and to establish standards for the best use of these funds. Students of "limited English speaking ability" are those who have special educational needs because the dominant language is not English.

§ 154.3

School districts filing applications for these grants must set forth the goals of the program, the number of pupils, qualifications of the staff, provisions made for the continuing evaluation of the program, and the measures taken to ensure maximum community participation and involvement.

§ 154.4

The board of education of a school district shall provide for the establishment of a bilingual education advisory committee made up of community persons with particular knowledge or experience relating to this problem. The advisory board shall advise the board of education of a school district at all stages and with respect to all major policies and decisions concerning the operation and evaluation of these programs.

§ 154.5

In approving applications for funds for bilingual programs, the commissioner may consider all aspects of the district's plan such as the educational benefits, the curriculum and staff provisions, and whether or not adequate means exist for evaluation of the program.

§ 154.8

All bilingual education projects for which funds are approved shall be subject to the general supervision of the commissioner and the Education Department. Records shall be maintained for all pupils participating in the program and records shall also be kept on the operation of each program.

CROSS REFERENCE

II.A.1.: Statute 43204

5. Bilingual/Bicultural Education

Statutes

§70-24-119

The State Board of Education shall adopt necessary rules and regulations providing coverage of "outstanding events involving and surrounding the history of the [Black] race and other minority races and the development of their cultures."

5. Bilingual/Bicultural Education

Statutes

§11-1107

The board of school directors may employ such special teachers, including special teachers who speak the idiomatic or colloquial language of immigrants residing in the school district for the purpose of easing the transition period of such immigrants, qualified as provided, as they may deem necessary for any of the public schools or departments in the district.

Regulations

§ 5.24

"Each child whose dominant language is not English shall be provided with either a bilingual/bicultural program or English as a Second Language Program..."

Students whose dominant language is English are to become acquainted with the language, history, and culture of their non-English speaking peers.

CROSS REFERENCE

II.A.1.; Statute §15-1511

5. Bilingual/Bicultural Education

Statutes

§11.11

The Central Education Agency shall develop a special program for non-English speaking children, the purpose of which shall be to prepare such children for entry in the first grade by providing them with a command of essential English words...The program shall not exceed a period of four and one-half months. Any non-English speaking child who is at least five and who will be entering the first grade may be enrolled. This program shall not be set up in any school district, or combination of districts, unless at least 15 children qualify. The Agency shall establish the academic requirements for teachers who teach in this program.

§11.17

The Central Education Agency shall establish bilingual education training institutes and "shall make rules and regulations governing the conduct of and participation in the institutes." All school personnel participating therein shall be reimbursed for their expenses.

RULEMAKING

§12.04

"The State Board . . . shall acquire . . . with bids . . . free textbooks and supporting media for use in bilingual education programs conducted in the public school systems . . . ."

§21.451

This statute is to "provide for the establishment of bilingual education programs in the public schools and to provide supplemental financial assistance to help local school districts meet the extra costs of the programs."

A bilingual program will be established if a district has 20 or more children "of limited English-speaking ability in any language classification in the same grade level during the preceding scholastic year. . . ." Limited English-speaking ability meaning those children whose native tongue is not English.

This program shall be a "full-time program of instruction" and will include comprehension, speaking, reading and writing as well as history and culture associated with the native language of the children and the English language. In nonverbal subjects all children shall participate equally.

All limited English-speaking children shall be enrolled in the program for either three years or until he/she "achieves a level of English language proficiency...." Approval must be granted from the school district and the child's parents for a child to be in the program for longer than three years. Until proficiency is proven no child may be transferred out of the program.

No later than 10 days after he/she begins the program the child's parents must be notified of his/her enrollment.

"Programs in bilingual education ... shall be located in the regular public schools of the district rather than in separate facilities." The school district is to insure "that the instruction given each child is appropriate to his or her level of educational attainment...." The maximum student/teacher ratio shall be set by the Central Education Agency.

Districts may combine to provide bilingual programs, and a child from out of the district shall participate in the program, with his/her district of residence paying the tuition. These programs may be offered as preschool and summer programs.

TUITION

Rules and regulations regarding bilingual teachers shall come from the State Board of Education, and the salary is the same as for classroom teachers with equivalent degrees.

RULEMAKING

The approval of allotments for operational expenses and transportation for bilingual programs shall come from the Central Education Agency.

REGULATIONS

§3251; 3252.1-.4; 3253

"As an integral part of the instructional program,

multi-cultural education shall be readily apparent in such components as bilingual education, second language learning, and social studies.

"The basis for bilingual education shall be founded on the belief that a program of bilingual education will meet the needs of children of limited English-speaking ability and facilitate their integration tinto the regular school curriculum.

"Bilingual Education . . . constitutes an authorized instructional program encompassing the total education process in which two languages . . . shall be used for a portion of the curriculum . . . (it) shall be provided in kindergarten, first grade and second grade in 1975-76 and also in the third grade by 1976-77. . . (and) may be offered in the fourth and fifth grades for students who have not progressed sufficiently in the use of the English language to participate in the regular school curriculum. Any bilingual program beyond the fifth grade shall be at the expense of the respective local school district.

"The amount of time and the treatment accorded to each of the languages in both content area and language instruction shall be commensurate with the individual needs of pupils. Inherent in the program of bilingual instruction shall be the teaching of the cultural heritage of the people whose languages are used and the contributions made to the community, the state and the country. For pupils whose first language is other than English, the teaching of concepts, content information, and attitudes and relationships may be undertaken entirely in the first language until sufficient facility is achieved in the use of both languages, recognizing English as the predominant curriculum language.

"A school district must provide a program of bilingual instruction to facilitate the state policy. . .

if the school has an enrollment of 20 or more children of limited English-speaking ability in any language classification in the same grade level during the preceding scholastic year.

"A state-supported required bilingual education program in grades K-3 shall be implemented in accordance with law . . . .

"Optional bilingual education for grades four and five will be implemented by the Commissioner of Education utilizing appropriate measurement instruments and procedures required to assure sufficient facility in the use of the English language by those students who have not by the end of grade three progressed sufficiently in the use of the English language to participate in the regular school program. The State Board of Education may authorize establishment of a program with respect to a language classification with less than 20 children where sufficient need is demonstrated.

"Permissive bilingual education may be offered beyond grade five when such instruction is necessary to insure a pupil's reasonable efficiency in the English language. In addition, bilingual education may be provided for all students in all grades if in the judgment of the board of trustees the program contributes to meeting the needs of all students. Such . . . programs shall be at the expense of the respective school districts.

"The Texas Education agency shall provide for Bilingual Education Training Institutes. The Commissioner of Education shall establish procedures governing the content, conduct of, participation in, and reimbursement of participants in the institutes."

§3252

"The Division of Bilingual Education has primary responsibility for the administration of bilingual education programs. The Division assists school districts in establishing, operating, and developing comprehensive bilingual education programs.

Bilingual education is a full-time program of instruction developed to meet the individual needs of each child in order that the pupil can participate in the regular school program as rapidly as possible. It is characterized by the following instructional components.

(1) The basic concepts initiating the child into the school environment are taught in the language he[she] brings from home.

(2) Language development is provided in the child's dominant language.

(3) Language development is provided in the child's second language.

(4) Subject matter and concepts are taught in the child's dominant language.

(5) Subject matter and concepts are taught in the second language of the child.

(6) Specific attention is given to develop in the child a positive identity with his[her] cultural heritage, self-assurance, and confidence.

(a) Responsibility for Implementation

All public school efforts to assist children of limited English-speaking ability shall be directed primarily toward meeting the educational needs of these children in accordance with State Board of Education policies and Administrative Procedures. To meet those needs in a responsible and sensitive manner, it is necessary to undertake intensive local planning processes, to maximize the innovative use of bilingual methodology and instructional resources, to emphasize the positive values of cultural and linguistic diversity, and to disseminate the results of program evaluation. Because the numbers of children of limited English-speaking ability and resources available to meet their needs do not occur uniformly throughout the State, school districts shall explore every available avenue to provide these children with a full-time instructional program of bilingual education....

Children of limited English-speaking ability means children whose primary language is one other than English and who have difficulty performing ordinary classwork in English."

§3252.2

"State-Supported Required Bilingual Education

(a) Establishment of State-Supported Required Bilingual Education Programs.

Bilingual education shall be provided in kindergarten, first and second grades in 1975-76, and in kindergarten, first, second, and third grades by the 1976-77 school year.

The means by which school districts shall operate a bilingual education program with children of limited English-speaking ability under the Foundation School Program are:

(a-a) Establishing Requirements for School Districts

The Commissioner of Education shall receive from each school district, not later than March 1 of each year, a written report of the number of school-age children of limited English-speaking ability within each grade level in the district and a classification according to the language in which they possess a primary speaking ability.

In determining the criteria for identifying children of limited English-speaking ability, the school district should make use of both objective and subjective measures of English proficiency. Objective measures must be suitable for the age of the child and must compare his[her] language skills with those of the typical native English-speaking child of the same age. Measures of a more subjective nature, such as teacher opinion as well as peer interaction and/or parent information concerning the child's language, should be used to supplement conclusions reached from objective measures. For children in the early elementary grades (K-2) assessment of language

IDENTIFICATION

proficiency should be on the basis of oral language production and comprehension. For others, assessment should include the reading and writing skills also, since these are a part of language proficiency. In any case, a judgment must be based on the child's real language and not just an artificial, incidental, or nonessential aspect of it.

(a-b) Operational Expenses Allocation

A special allowance per pupil of limited English-speaking ability enrolled in an approved state-supported required bilingual education program is to be made for pupil evaluation and special instructional materials.

The special allowance is allocated to a school district at the beginning of the school year as soon as the 'application for Operational Expenses Allocation' is submitted to and certified by the Division of Bilingual Education to the Finance Division.

The procedures which apply to the use of the operational expenses allocation to each approved bilingual education program are:

(1) the allocation will be used to improve the quality of instruction in bilingual education classes. The allocation shall be utilized for pupil evaluation services and materials (the cost of purchasing and scoring of evaluation instruments), books, instructional media, and other instructional materials appropriate for instruction with children of limited English-speaking ability;

(2) instructional materials which may be purchased by state funds allotted for this program are books and any apparatus, including three-dimensional manipulative materials, which convey information to the child or otherwise contribute to the learning process;

(3) items which may not be purchased with state funds allotted for this program are:

(3-1) room furnishings including desks, tables, chairs, filing cabinets, rugs, or any other item which

is usually attributed to capital outlay; and

(3-2) consumable or expendable materials including food, paints, clay, paper, ditto masters, or any other item which is consumed in use.

(4) the special allowance used for the operation of an approved program must supplement, not replace local funds normally budgeted for the total instructional program;

(5) since unused funds shall be applied against the Operational Expenses Allocation for the ensuing school year, the school district must maintain records that specifically identify or otherwise account for itemized expenditures from the Operational Expenses Allocation and must retain documents as necessary to audit in accordance with State Board of Education Policy 4201, Budgeting, Accounting, Financial Reporting and Auditing for School Districts and Education Service Centers; and

(6) Priority for Operational Expenses Allocations will be given to those districts implementing required (grades K-3) and optional (grades 4 and 5) bilingual education programs. Second priority will be given to those districts implementing optional bilingual education programs with less than 20 children of limited English-speaking ability where sufficient need is demonstrated.

(a-c) Application for Operational Expenses Allocation

Allocations for state-supported required bilingual education programs for children of limited English-speaking ability will be made on the basis of an approved application submitted to the Texas Education Agency in September of each scholastic year.

Each application shall include a program description which indicates the following:

(1) the number of children of limited English-speaking ability in the program and their primary language classification.

(2) The number of native English-speaking children, if any, participating in the bilingual education program

(3) The number of teachers and paraprofessionals assigned to the program.

(4) Location of program (specify campus or campuses).

(5) Brief description of instructional programs.

(6) Record of on-going and proposed inservice education geared to the requirements of the bilingual program and the needs of the professional and paraprofessional staff.

(7) Where programs are being operated jointly, a description of the contracting arrangements.

(8) A description of parental-involvement activities.

(9) An evaluation design.

A 'Supplemental Application for Operational Expenses Allocations for State Bilingual Education Programs' will be distributed by the Division of Bilingual Education in January of each scholastic year, in order that school districts will be able to report and receive an operational expenses allocation for children of limited English-speaking ability who were identified and enrolled in the program since submission of the preliminary 'Application for Operational Expenses Allocation.'

(a-d) Evaluation of Programs

School districts operating programs of bilingual education should develop an evaluation design in accordance with the objectives derived from the six instructional components (see Administrative Procedures 3252.1) for use in making local programmatic decisions, as well as to provide for the collection of information required for statewide evaluation purposes.

An evaluation plan would embrace the following elements:

"* Instructional (Product/Process)

* Management

* Parental/Community Involvement

* Staff Development

* Materials Development/Acquisition/Use

In devising an evaluation plan the Texas Education Agency Bulletin entitled "Evaluation Plan Model" (May, 1974) is suggested as a reference.

Guidelines for submission and information requirements for statewide evaluation of bilingual education programs will be disseminated by the Texas Education Agency along with instructions for the completion of the 'Application for Operational Expenses.'

(b) Program Content: Method of Instruction

The state-supported required bilingual education program implemented by a school district shall be a full-time program of instruction as described in Policy and Administrative Procedure 3252.

(c) Enrollment of Children in Program

Every school-age child of limited English-speaking ability residing within a school district required to provide a bilingual program for his[her] language classification shall be enrolled in the program for a period of three years or until he[she] achieves a level of English language proficiency which will enable him[her] to perform successfully in classes in which instruction is given only in English, whichever first occurs.

Children enrolled in the program, whenever possible, shall be placed in classes with other children of approximately the same age and level of educational attainment. If children of different age groups or educational levels are combined, the school district shall insure that the instruction given each child is appropriate to his or her level of educational attainment, and the district shall keep adequate records of the educational level and progress of each child enrolled in the program.

No school district may transfer a child of limited English-speaking ability out of a state-supported required bilingual education program prior to his[her] third year of enrollment in the program, unless:

* the parents of the child approved the transfer in writing; and

* the child has received a score on an examination which in the determination of the Texas Education Agency, reflects a level of English language skills appropriate to his or her grade level.

** a list of approved tests and their appropriate grade levels are disseminated annually to school districts.

If later evidence suggests that a child who has been transferred is still handicapped by an inadequate command of English, he[she] may be re-enrolled in the program for a length of time equal to that which remained at the time he[she] was transferred.

Assignment to a bilingual education program may continue beyond three years with the approval of the school district and the child's parents or legal guardian.

Native English-speaking children may be voluntarily enrolled in the program although no funding from the Operational Expenses Allocation is provided for them. Both groups of children may be served in the same classroom, provided there is grouping within the classroom to meet the special needs of both groups.

(d) School District Policy for Parent or Guardian Notification

Each school district operating a state-supported required bilingual education program for children of limited English-speaking ability will have a board policy requiring that:

(1) the child's parent or guardian be notified of the child's enrollment in a bilingual education program no later than 10 days after the enrollment of the child; and

(2) such written notification shall be in English and in the language in which the parents or guardian of the child possess a primary speaking ability.

(e) Joint Bilingual Education Programs and the Transfer of Students

A school district may join with any other district or districts to provide bilingual education programs. The availability of the programs shall be publicized throughout the affected districts.

The tuition of a child of limited English-speaking ability who transfers from one district to another is:

TUITION

(1) the responsibility of the home district if bilingual education is not provided in the home district; or

(2) the responsibility of the parent, if bilingual education is provided in the home district.

(f) Preschool and Summer School Programs

(g) A bilingual education teacher is a teacher employed by a school district in a position requiring state certification and having bilingual education endorsement or a special assignment permit for bilingual education.

Bilingual education endorsements shall be issued as specified in Policy 6203, Specific Requirements for Teacher Certification by Class and by Level including Areas of Specialization and Endorsements.

(h) Curriculum and Staff Development

A special Curriculum and Staff Development Allocation is made annually to school districts on the basis of pupils of limited English-speaking ability enrolled in an approved state-supported required bilingual education program.

Allocations are made on the basis of an approved application submitted to the Texas Education Agency. Each application includes a program plan focusing on bilingual education for each participant (staff member) for the period requested.

Funds allocated to this program are for payment of services for staff participation in the following activities:

(1) staff development to familiarize teachers with materials and/or bilingual education methodology and philosophy; this development may be planned and sponsored by the school district, by the regional service center, by the Texas Education Agency, or by teacher training institutions offering bilingual teacher education programs approved by the Texas Education Agency;

(2) development and/or revision of curricular and instructional materials for bilingual education classes;

(3) teaching in bilingual education summer programs designed for children of limited English-speaking

ability needing specialized or intensive individualized instruction at the grade level(s) at which the school is required to implement the program;

(4) advanced language training for bilingual teachers and language training for monolingual teachers working under special assignment permits; and

(5) the line item amount of the appropriations for this purpose will not be exceeded in allocating funds to local school districts."

§3252.3

"State-Supported Optional Bilingual Education

The requirements established in Administrative Procedure 3252.2, State-Supported Required Bilingual Education Programs, apply in the implementation of state-supported optional bilingual education programs in grades K-3 (grades K-2 for the 1975 - 76 school year).

In addition, a district has the option to implement a state-supported optional bilingual education program in Grade 4 or 5 (Grade 3, 4, or 5 for the 1975 - 76 school year), for students who do not meet the exit requirements of the state-supported required bilingual education program as specified in Administrative Procedure 3252.2(c)."

§3252.4

"Bilingual Education Permitted

If a district elects to implement a bilingual education program which is not state-supported, Policy and Administrative Procedure 3252.1, Bilingual Education Program Description, is to be followed as a guideline for the implementation of the program."

§3253

"Bilingual Education Training Institutes

The Texas Education Agency contracts with school districts, colleges, universities, education service centers, and/or individuals to conduct bilingual education training institutes throughout the State of Texas.

Professional and paraprofessional personnel employed by public schools eligible to participate in the institutes are reimbursed for expenses incurred as a result of their participation. The institutes are conducted in accordance with the training models approved by the Commissioner of Education."

§3340

Series 3340 concerns textbooks for children enrolled in bilingual education classes.

IV.D.; Regulation §4107.1--4107.3.7

5. Bilingual/Bicultural Education

Statutes

§28A.05.015

All students shall be taught in English but may be taught in another language when it will aid "the educational advancement of the student."

5. Bilingual/Bicultural Education

Statutes

§115.95

It is the policy of the legislature to provide adequate instruction for children whose English language abilities are limited or nonexistent.

§115.96

The school board shall conduct a count of the limited-English speaking pupils in the public schools of the district, assess the language proficiency and classify pupils by language group, grade level, age and English proficiency.

The parent or guardian of the child shall be notified of the bilingual-bicultural programs and registering procedures, and must give written consent to such child's placement.

The school board shall place each limited-English speaking pupil in the appropriate bilingual-bicultural education program, and a parent or guardian may appeal the school board's failure to place the pupil in the bilingual-bicultural education program.

§115.966

The state superintendent shall report to the legislature on the status of bilingual-bicultural education programs and shall include the number of pupils served in the basic and optional expanded program for each language group in each school district. The department shall provide the number of pupils who as a result of the program improved their English language ability so that the program is no longer necessary for such pupils.

§115.97

The school board may adopt either a basic or expanded bilingual-bicultural education program. A pupil shall be eligible for the program until

he or she is able to perform ordinary classwork in English, and the program shall be designed to provide instruction to meet this objective. Pupils who are not limited-English speaking pupils may participate in the educational program, but preference shall be given to limited-English speaking pupils in admitting pupils into the program.

Such programs shall be taught by a bilingual teacher.

§115.977

"A school district may establish bilingual-bicultural education programs by contracting with other school districts or with a cooperative educational service agency."

§115.98

A bilingual-bicultural advisory committee shall be appointed by the school board, which is composed of parents of limited-English speaking pupils enrolled in such programs, other teachers, bilingual teacher's aides, bilingual and other counselors and bilingual counselor's aides in the district, at least one community representative and school district administration representatives. The committee shall advise the school board of its views to ensure the program is planned, operated, and evaluated with their involvement and consultation.

§115.99 — .991

"A school board may establish a full-time or part-time preschool or summer bilingual-bicultural education program according to rules established by the state superintendent. The school board may institute preservice or inservice programs designed to improve the skills of bilingual teachers, bilingual teacher's aides, bilingual counselors, bilingual counselor's aides or other personnel participating in, or preparing to participate in, a bilingual-bicultural education program."

§115.993

The school board of a district operating a bilingual-bicultural education program shall report to the state superintendent the number of pupils, including both limited-English speaking pupils and other pupils, instructed the previous school year in bilingual-bicultural education programs.

6. Compensatory Education

Statutes

§1700; 1703; 1704

The county school service fund is provided in order to aid the county superintendent of schools in providing the coordination of the educational program among school districts in his/her jurisdiction and to provide professional and financial assistance to school districts which otherwise would not be able to furnish a satisfactory program of education for their children. Some of the services rendered under this program are to: a) prepare courses of study; b) supervise instructional practices; c) provide direct guidance services; d) provide for the purchase and distribution of school supplies; and e) to provide educational opportunity to normal and special pupils who would otherwise be denied it.

Under this program the county superintendent may employ qualified personnel to provide for the coordination of courses of study, guidance services, to be performed by persons who hold a valid credential, or a life diploma based thereon.

§45360 -- 45367

This article provides procedures for the implementation and conduct of teacher aid projects. Programs on projects conducted pursuant to this article shall be deemed a program of compensatory education.

§54000--54004; 54007

Recognizing that because of differences in family income, differing language barriers, and pupil transiency, differing levels of financial aid are necessary to provide quality education for all students, the Legislature appropriates funds for programs for educationally disadvantaged youth.

The state superintendent shall administer provisions

concerned with such programs and make apportionments to school districts to meet the total approved expense of such programs. Districts which receive such apportionments shall not reduce existing resources which have been used to meet the needs of low-income pupils. Nothing shall preclude the use of federal funds for educationally disadvantaged youth.

Apportionments allowable to districts shall be calculated on the basis of a determination of the bilingual-bicultural character of the district, the level of family poverty, and the degree of pupil transiency.

The state superintendent shall apportion funds in accord with procedures specified in statute and with policies adopted by the state board. Funds shall be allocated based upon a plan, submitted by the district to the state superintendent and approved by the state board, including a statement of what the district seeks to accomplish, a description of the program designed to achieve these purposes, and a planned program of annual evaluation.

In approving programs, the state board shall give consideration to the effectiveness of the program and shall not continue in operation any program that has been shown to be of low effectiveness and has only limited possibility of improved effectiveness. Districts which demonstrate low levels of program effectiveness may continue to receive their entitlements, but the state superintendent shall reduce the entitlements if the programs have limited possibilities of improved achievements.

The state superintendent, with the concurrence of the Director of Finance, may, upon the district's request, designate a portion of the district's entitlement for noninstructional costs such as costs for vandalism, security, and insurance.

§54005--54006

RULEMAKING

The state board shall adopt regulations setting forth standards to be used in the administration and evaluation of programs for educationally disadvantaged youth. An amount not to exceed 1 percent of total appropriations

for such programs shall be retained by the Department of Education for administrative purposes. Funds appropriated for such programs not allocated as under §54002 shall be allocated by the state board to provide programs to as many eligible pupils as possible and to stimulate the development of innovative programs.

The state superintendent shall submit annually to the Governor and to each house of the Legislature a report evaluating the programs and recommendations concerning whether they should be continued in operation.

§54401 -- 54407

The Legislature declares that, because of linguistic, cultural, and economic disadvantages, the latent talents of many minors remain undiscovered and are not adequately developed by the general educational programs and so encourages the establishment, in a comprehensive, communitywide and statewide effort, of programs directed to identifying those disadvantaged pupils who are potentially capable of completing regular courses of instruction and stimulating their interest in educational attainment.

Participation in a program of compensatory education shall not preclude an individual's participation in any other potentially beneficial program offered in the public schools. Nothing here shall be construed to sanction, perpetuate, or promote racial or ethnic segregation in public schools.

Each county superintendent is authorized, on request, to provide consultative and coordination services for districts under its jurisdiction which have established programs of compensatory education. Such activity shall be financed through the county school service fund.

The state board may establish programs of the following types: modification of curricula in connection with the training of prospective teachers to incorporate methods and techniques to teach disadvantaged children; research and consultative projects to assist local and

state agencies in the education of disadvantaged pupils; and research and development undertakings directed to overcoming disadvantage, with related activities involving evaluation, demonstration and dissemination of findings.

The Legislature intends that the University of California and the California State University and Colleges participate with local agencies and the state board in endeavors related to compensatory education, including special teacher training for the education of the disadvantaged and provision of technical and personnel services to local agencies.

The state board shall establish standards, under which all compensatory preschool programs shall operate regardless of source of funds.

WAIVER

A governing board in its application may request waiver of provisions of the school code for any compensatory education program if such waiver is necessary to operate a program for low-income children.

§54420 -- 54424

Each application of a local district for federal funds under the Elementary and Secondary Education Act of 1965 as accepted in this code or any state funds for purposes of compensatory education shall include a comprehensive compensatory education plan. The plan should: demonstrate that the district has fully utilized and coordinated all other sources of funds and the assistance of all volunteer aid offered; emphasize a preventive program, aimed at the child between the ages of three and eight, with goals of teaching the child to read, awakening the child's interest in learning, and preventing the child's alienation from school. It shall also include remedial programs for older children; direct expenditures to schools with large concentrations of educationally disadvantaged children; and, if disadvantaged children who speak English as a second language are involved, include early English language instruction and the use of personnel proficient in the children's primary language.

PUPIL/TEACHER RATIO

The state board, on recommendation of the Advisory Compensatory Education Commission, shall establish a priority listing of the following program elements to be used in the approval of school district plans: reduction of ratios of pupils to teachers; special efforts in the area of reading instruction, including the employment of additional and/or special personnel, preschool programs, in-service professional study; school home cooperation; cultural enrichment; after school tutoring programs; remedial and corrective programs directed to enhancing the pupil's interest and competence in the English language; and evaluation, testing, and consultation.

In addition, the district may propose other programs, subject to the approval of the Director of Compensatory Education, to include: the employment of competent school community coordinators; curriculum revision and the development and use of new instructional equipment and facilities, and effective use of auxiliary personnel.

A district may establish nursery schools and admit children who are at least three years of age. Nursery schools shall be maintained pursuant to standards set by the state board.

§54425

A governing board maintaining a compensatory education program shall, at times and in the manner prescribed by the Director of Compensatory Education but not less than once in each school year, submit information evaluating the program in all respects including, but not limited to, the following: the existence of residential areas within the district likely to produce substantial numbers of disadvantaged children; the general adequacy of the program in terms of the degree to which all resources have been mobilized, precision in the definition of objectives and particular methods to be used, the projected term of the undertaking, and measures provided to enable periodic evaluations of accomplishments; the operational promise of the program in terms of the adequacy of the

district's facilities to execute it; the economic efficiency of the program; the extent to which the program will facilitate the development of data and information which will serve to increase the general effectiveness of programs for the disadvantaged, and the results of comprehensive achievement tests administered to all students enrolled in compensatory education programs, together with test scores of appropriate control groups of students.

§ 54440 -- 54445

MIGRANT CHILDREN

In light of the handicaps that inhibit the educational progress of children of migratory agricultural workers and migratory fishermen and the inability of local agencies to reduce these handicaps, it is necessary for the state to aid local districts through regional coordinating offices and the provision of special programs for migrant children.

A migrant child is a child who has moved with a parent or guardian from one school district to another within the 12-month period preceding the identification of the child as such in order that a parent or guardian might secure temporary or seasonal employment in an agricultural or fishing-related activity.

IDENTIFICATION

With the concurrence of the child's parents, a child identified as a migrant child may be deemed to continue as such a child for a period, not in excess of five years, during which he/she resides in an area where programs are provided for migrant children. Priority shall be given, however, to programs for migrant children and in no case shall migrant programs be provided solely for children who have ceased to migrate.

The state board shall adopt a state master plan for services to migrant children, including provisions for:

instructional activities on a regular and extended year basis designed to identify and treat academic deficiencies of migrant children, with special emphasis

on oral and written communications, reading and mathematics. Small group or individual instruction and tutorial services will be provided, and all services will supplement regular programs of instruction;

health and welfare services designed to identify and treat conditions of a physical, including dental, emotional or environmental, nature which interfere with the learning process of migrant children;

preservice and inservice education of personnel;

supportive services including transportation, family liaison, and other services;

Child development activities such as social sensorimotor, conceptual, and language development and perceptual discrimination activities for pre-kindergarten aged children; and

the active involvement of parents, teachers, and community representatives in the local implementation of migrant education programs.

Services to migrant children, provided by the state plan, will not reduce or replace services provided by local districts or other governmental or private agencies and shall be coordinated with all existing resources available to migrant families.

In implementing the plan, the state superintendent is authorized to contract with county superintendents or local educational agencies or enter into agreements with other states, state agencies, or the federal government.

The state board shall adopt regulations necessary to implement programs for migrant children.

§ 54460 -- 54487

APPOINTMEN

A Director of Compensatory Education shall be appointed by the state board, upon the superintendent's nomination, subject to the state civil service. In performing appointed duties, the Director shall act as representative of the Department of Education. The Director shall be provided with facilities and staffing necessary to the execution of his/her duties.

The Director of Compensatory Education shall: have overall supervision of programs of compensatory education, take necessary actions to coordinate such programs; receive and recommend approval or disapproval of program applications; provide technical and consultative assistance to school districts; conduct continuing research to improve administration of programs of compensatory education; and serve as a clearinghouse for information on problems of educating the disadvantaged and on sources of funds, public and private, for such purposes.

The state board, on the Director's recommendation, shall determine the eligibility of applicant districts for grants and have the power to approve, withhold approval, or disapprove of any program. The Director may assign priorities to programs of compensatory education maintained by different school districts on the basis of numbers or concentration of disadvantaged pupils in particular areas.

RULEMAKING

The state board shall adopt rules including those which prescribe the procedure by which a district shall identify disadvantaged minors, establish minimum standards for programs, and require the annual submission of such reports by districts as will permit the evaluation of programs of compensatory education and the accumulation of data which will be useful in improving such programs.

No program shall be approved unless the teacher and other certificated personnel in the program hold regular credentials.

WAIVER

The Director of Compensatory Education may waive this requirement where the Director is satisfied that provisionally credentialed teachers have been provided through a career opportunities program, a teacher corps program or a district career development plan to provide employment and concurrent training for capable persons of low-income background.

Grants shall be made to school districts for the employment and in-service education of teachers in kindergarten and grades 1 to 6, with special emphasis on kindergarten and the primary grades, and any needed teacher

materials and supplies so that the ratio of pupils in these grades to each full-time equivalent classroom teacher will be reduced to a ratio of 25 to 1.

A full-time equivalent classroom teacher is a person employed in a position requiring certification qualifications and whose duties require him/her to teach pupils in regular day classes for the full time for which he/she is employed during the regular school day. In computing the total number of full-time equivalent classroom teachers, the full-time equivalent of all fractional time for which employees in positions requiring certification qualifications are required to devote to teaching pupils shall be included.

In the event a district is unable to employ the numbe. of teachers necessary to achieve the required ratio, the Director of Compensatory Education is authorized to approve projects that provide for the employment of non-certificated teachers' aides so that a ratio of pupils to both teachers and aides shall not exceed 20 to 1. All aides shall be trained in a specially designed in-service education program. Not more than 25% of the total allocated to a district shall be devoted to the employment of teachers' aides. The Director of Compensatory Education shall approve the use of any portion of a district's allocation for the employment of such aides only upon the district's certification that teachers are unavoidable for employment.

Noncertificated teachers' aides shall be under the immediate supervision of certificated teachers and shall not be used to carry out administrative duties other those which may be assigned by the .eacher.

A district may employ as a teachers' aid any person determined to be qualified, including pupils in grades 11 and 12 and in institutions of higher learning. Employment may be on a full- or part-time basis. Employment of pupils in grades 11 through 14 shall be arranged so that no reduction in attendance credit and State School Fund apportionments results. Aides shall be paid

at least the federal minimum hourly wage. The employment of college and university students as aides may, where appropriate, be undertaken for student teaching credit purposes.

The Director of Compensatory Education shall require that the class size reduction project be an integral part of the district's overall compensatory education plan and and that a significant portion of funds received for compensatory education be devoted to it.

The Director of Compensatory Education, upon the advice of the Directors of the Departments of Finance, Social Welfare, Human Resources Development, and Industrial Relations, shall designate the most concentrated areas of poverty and social tension in the state. The Director of Compensatory Education shall allocate funds for programs under §54480 proportionately by public school population among the areas designated and then approve projects proposed by school districts within such areas at particular schools with the highest concentrations of low-income children and with the lowest records of academic achievement.

Apportionments for purposes of §54480 et seq. shall be made on the state superintendent's order. Moneys shall be expended precisely as directed by the Director of Compensatory Education, with not more than 5% expended for in-service education. Apportionments shall be in the form of grants, no part of which shall be required to be matched as a condition to receiving state aid. In making allocations, the Director shall use an allocation factor equivalent to average state-wide teacher salary per full-time equivalent teacher.

§54520 -- 54529

To ensure that the instructional program in the early elementary grades will complement preschool programs, preschool followthrough programs shall comprise an essential component of compensatory education, coordinated with other components of compensatory education.

From funds which may be appropriated by the Legislature or from federal funds which may be made available, grants may be made to applicant districts which have established preschool followthrough programs. No matching-fund requirements shall be imposed, unless otherwise required for purposes of eligibility for federal funds. Eligibility standards shall be prescribed by the state board.

In accepting federal funds, the people of California agree to accept all conditions and requirements which may be prescribed in connection with them. The state board is designated as the state educational agency to carry out the provisions of federal statutes.

Evaluations shall be made of the instructional programs in grades kindergarten, 1, 2, and 3 in selected elementary schools in which are enrolled substantial numbers of pupils who have participated in preschool programs. Evaluations shall be directed to determine the extent to which the instructional programs complement the preschool training and effect continuity in efforts to raise the level of educational attainment and potential of children and to determine the particular components of the educational programs which should be emphasized or might be incorporated.

The state board shall provide for the establishment of pilot preschool programs in schools maintaining grades kindergarten, 1, 2, and 3 to serve disadvantaged minors who have participated in preschool programs. The programs shall include any one or more of the following components, in addition to others which may be determined essential under §54523:

(a) Reduction of pupil-teacher ratios to at least 20 to 1 at the kindergarten level and to at least 25 to 1 in the primary grades.

PUPIL/TEACHER RATIO

(b) Establishment of single session kindergarten programs, with the individual teacher responsible for one rather than two kindergarten classes.

(c) Utilization of teacher aides and other supporting

staff personnel.

(d) In-service professional study to develop understanding and teaching techniques to meet needs of disadvantaged minors.

(e) Development of curricula and educational aides to meet the educational needs of disadvantaged children.

(f) Providing comprehensive health services.

(g) Experimentation in grouping of children to realize the maximum benefit for children.

Pilot preschool programs shall be established on the basis of a geographical dispersion most appropriate for the programs' purposes. The programs shall serve as demonstration models for other districts.

Each district maintaining a preschool follow-through program shall at times and in the form prescribed by the state superintendent, but at least annually, submit reports about the program.

APPOINTMENT

The Director of Compensatory Education may appoint a professional task force to serve as Department of Education employees to help evaluate instructional programs in primary grades and formulate pilot preschool followthrough programs.

Federal funds provided for purposes of §54520 et seq. shall bear all costs of administration by the state board and superintendent of these programs and related purposes.

Funds provided by §54600 et seq. and by Titles I and II of the Elementary and Secondary Education Act of 1965, the Miller-Unruh Basic Reading Act of 1965 (§54100 et seq.), and Chapter 106 of the Statutes of 1966, First Extraordinary Session, shall be expended in the most effective way possible. Cost effectiveness measures shall be employed in the approval and evaluation of all projects for educational improvement. No project shall be continued in operation that has been shown to be of low effectiveness or to have limited possibility of improved effectiveness.

Program effectiveness should be measured in terms of program objectives, related primarily to the pupils'

improvement in ability to read, to use and understand the English language, and to use and understand concepts of mathematics.

Each program should be evaluated annually by the Department of Education. The evaluation shall be assisted by an advisory committee competent to assess the effectiveness of the program's results and make recommendations to the Department.

The state superintendent shall compute an educational improvement allowance for each school district which, during the preceding fiscal year, had an average daily attendance, exclusive of the average daily attendance of adults, of 500 or more and for which the entitlement for funds under Title I of the Elementary and Secondary Education Act of 1965 for the preceding fiscal year for each unit of average daily attendance exceeds 150% of the statewide average entitlement.

The governing board of any district for which an allowance has been computed may apply to the state superintendent for an apportionment of part or all of the allowance. The application shall contain a detailed plan for use of the allowance and shall be submitted in accordance with §54420 et seq. It is the intent of the Legislature that amounts allowed for educational improvement be expended only for such programs. Applications shall be subject to the state board's approval.

Under the state superintendent's direction, these programs shall be administered by the Office of Compensatory Education.

§58600 -- 58608

It is the intent of the Legislature that demonstration programs be established for intensive instruction in reading and mathematics to serve pupils in grades 7, 8, or 9 who attend schools in designated areas of disadvantage.

These programs shall be operated by school districts directly or by school districts through contract for partial or complete operation with a public or private agency.

The state superintendent shall have the authority to permit the waiver of any provision of the education code if such is necessary for the development of the demonstration programs.

Provisions related to such programs shall have no force or effect after September 1, 1978.

From funds appropriated therefor by the Legislature to the Department of Education, the state superintendent, with the state board's approval, shall administer provisions relating to demonstration programs in intensive instruction and make apportionments to districts to meet the expense of them.

Any governing board maintaining grades 7, 8, or 9, on account of any school located in any area designated by the state superintendent under §54483, may apply in a manner prescribed by the state superintendent to establish a demonstration program in intensive education.

The state board shall adopt standards to be used in the evaluation of applications, which shall include a statement of specific goals to be sought in the program, both in terms of pupil achievement and for the purpose of establishing a model program, and the requirements for evaluation of the program.

Projects shall be approved only if it can be shown that, if successful, the cost effectiveness of the project (a) will be adaptable within the budgets of other similar school districts, or (b) can be replicated using other existing compensatory education funds in grades 7, 8, and 9, or (c) can be replicated if additional compensatory education funds become available.

Projects shall be continually reviewed regarding their effectiveness in improving pupil achievement levels. Those least cost effective shall be terminated and replaced with ones of proven effectiveness or by new projects of promise.

Upon approval by the state board of an application, the state superintendent shall certify the amount to be apportioned to the applicant district.

Annually, the state superintendent, with state board approval, shall submit a report to the Legislature on the

implementation and evaluation of demonstration programs. The report shall discuss: pupil achievement; dissemination and replication activities; funding sources; cost analysis of the demonstration projects, recommendations concerning improvement and extension of the program; and the waivers of code provisions authorized by the state superintendent under §58602.

REGULATIONS

§ 12037; 12051

The preschool compensatory educational programs are conducted under Education Code Secion 9458(c) or 6460. Each program shall meet the requirements of Article 2 and be designed to benefit disadvantaged preschool children "whose economic, social and environmental disadvantages constitute a barrier to their future success in the educational programs of the school."

The "most concentrated areas of poverty and social tension: or a "designated area of disadvantage" as used in Article 5 of Chapter 6.5 of Division 6 of the Education Code shall be either of the following:

a) The area served by elementary schools identified by the elementary schools serving those concentrated areas of poverty and social tension as defined in Section 12050(a) in accordance with a severity score based upon the sum of the following:

(1) The percentage of the pupils enrolled in the school who took the October 1968 sixth grade state reading achievement test whose score was at or below the first quartile;

(2) The percentage of families (at least 20%) in the census tract or tracts served by the school whose 1959 income reported to the census was under $3,000 and;

(3) Twice the percentage of unemployment reported by the 1960 decennial census for the census tracts served in whole or in party by the school; or

b) The Director may designate as "a most concentrated area of poverty and social tension" the attendance area of an elementary school that has been identified and approved

as a target area school for purposes of Title I, ESEA program services in a school district in which there are schools declared eligible in accord with the scores computed under sub-Paragraphs (1), (2), and (3) of subsection (a). The selection of such school attendance areas shall be based primarily on the criteria of high concentration of children from low income and AFDC families.

§ 12091

"An applicant for funds to conduct programs under this chapter shall:

a) Be identified as a most concentrated area of poverty and social tension described in Section 12051 or a designated area of disadvantage described in Education Code Section 6490 and,

b) Meet the requirements of subsections (a) through (e) of Sections 12060 and 12061."

§ 12092-12093

An application by the governing board of a school district to establish a program under Article 5 of Chapter 6.5 of Division 6 of the Education Code shall contain a detailed description and analysis of the program. When such a program is to be conducted through a private agency the district shall submit with its application a statement containing evidence that that agency is competent to conduct the program.

§ 12094-12095

A demonstration program shall be designed to insure educational success in reading and math. Such a program shall include the following goals:

a) Development of creative programs;

b) Experimentation with new curricula and methodology;

c) Analysis and assessment of the abilities and needs of "low achieving pupils."

d) Individualized instruction.

e) Corrective programs for pupils performing one year or more below grade expectations level.

In demonstration programs conducted through private agencies

the competency of such agencies to conduct the program shall be evaluated by an evaluation committee.

§ 13005

"...[C]oordination with the school district staff who work in the area of compensatory education is required."

6. Compensatory Education

Statutes

§10-266a — 10-266e

A town or regional school district may receive grants to provide supplementary educational programs for children whose educational achievement has been or is "restricted by economic, social, linguistic or environmental disadvantages." At least 75% of the children served by this type of program must be "educationally deprived" children as defined by low-income criteria established by the state board of education. School districts receiving grants must show that the funds are used to establish special supplementary programs such as "pre-kindergarten programs, remedial programs, bilingual programs", or experimental programs approved by the state board of education.

Applications for grants shall be made to the state board of education and applicant districts must certify that they will use the requested funds to establish special programs. Periodically, the state board of education will review the grants made to ensure that funds are being used for the specified purposes.

The state board of education shall give assistance to the towns in planning and developing special programs.

§10-266i

The state board shall annually review the disbursement of funds for special projects and the evaluation of programs dealing with the education of disadvantaged children and youth.

§10-266j

A town or regional board of education may make an agreement with another school board or group of boards to implement programs for disadvantaged children. The agreement shall provide for tuition payments, allocation of grant monies, and transportation arrangements.

TUITION

6. Compensatory Education

CROSS REFERENCE

III.B.Reading Personnel; Regulation; Chap. XVII, §9, License XV

6. Compensatory Education

Statutes

§233.055

The state shall have a remedial reading program including "pre-testing and post-testing of reading level and ability" and "control groups at each level to enable a measurement of the [program's] effectiveness." The commissioner of education shall submit an evaluation of the program, including an "evaluation of current reading ability," at the end of each year. This section shall be entitled "The Florida Remedial Reading Education Act of 1971".

III.C.Pupils; Statute §232.245

RULEMAKING

6. Compensatory Education

Statutes

§32-604

"The State Board of Education shall promulgate rules, regulations and standards and establish the terms and conditions necessary to implement programs of compensatory education. Compensatory education shall include, but shall not be limited to programs of remedial reading, mathematics, and such other programs as are needed."

§32-618a

The State Board of Education may establish "minimum requirements and standards" for the "distribution, use, and expenditure of funds" allotted for compensatory education.

Regulations

30-2610 -- 2620

In order to provide "adequate educational opportunity for disadvantaged children," the State Superintendent of Schools is authorized to operate "programs of compensatory education . . . to provide supplemental, especially designed instructional activities for individuals who need such activities . . . to achieve at a comparable level to other individuals who do not exhibit such needs.

Participants in compensatory education programs shall include children . . . identified . . . as low achievers . . . due to inadequate skills development, lack of maturity, substandard home environment, lack of motivation or insufficient previous educational opportunities."

Local boards may use state funds for compensatory education to employ "professionals and auxiliary personnel to assist teachers . . . in grades one through four." Federal funds are available for compensatory education programs "in the basic skills and preschool areas . . . for the benefit of educationally deprived children who are specifically identified as such . . . . Funds are

provided to maximize the educational opportunity for the following groups . . . : children in the regular public school population . . . (and) preschool children who meet the identification criteria; . . . institutionalized neglected or delinquent children; . . . children of migrant agricultural workers and . . . fishermen."

Federal funds "for programs of vocational education for disadvantaged youth may be used . . . to provide special vocational education programs and services in comprehensive high schools. . . . These . . . may take the form of modifications of regular programs, special educational services . . . supplementary to regular programs, or special . . . programs designed only for disadvantaged youth." The Office of Instruction shall "develop and implement" regulations for compensatory education programs.

6. COMPENSATORY EDUCATION

RULEMAKING

STATUTES

§14B-1 - 14B-8

The State Board of Education with the advice of an Advisory Council, shall promulgate regulations whereby school districts may submit proposals for compensatory programs for children between the ages of three and eighteen "subject to . . . language, cultural, economic and like disadvantages . . . [and] unlikely . . . [to] graduate from high school unless special educational programs . . . are made available to them."

Proposals may include a broad range of services supplemental to, or independent from, the regular school programs, as long as they comply with "standards . . . set forth in Title I of the Federal Elementary and Education Act of 1965, . . . directed to the stimulating of the educational and cultural capabilities of . . . children . . . ."

The Advisory Council shall evaluate proposals in light of factors set forth in Title I, including the nature of the applicant district, the quality of existing resources, and the adequacy of the proposal in redressing deficiencies in resources.

The Advisory Council submits the proposal to the State Board along with a recommendation. If the State Board approves the program, "the applicant is entitled to reimbursement . . . for the costs of instruction and other services . . . as . . . specified in Title . . . ."

6. Compensatory Education

CROSS REFERENCE

II.A.3.; Regulation §91-27-2; 91-27-4

6. Compensatory Education

Statutes

Art. 77 §106A-C

A disadvantaged child is one who is not achieving his/her scholastic potential because of environmental deprivations.

The state board may establish compensatory education programs to: (1) modify teacher training curricula to enable teachers to more effectively teach disadvantaged children; (2) research projects to assist state board in carrying out its responsibilities; (3) evaluate and disseminate findings relating to compensatory education programs. The state board may also establish criteria to guide local school systems in applying for state funds specifically provided for this purpose and for federal funds under the Elementary and Secondary Education Act. Each application for state funds shall emphasize a preventive program and shall attempt to awaken the child's interest in learning, give the child a sense of achievement and thus prevent his/her possible early departure from school.

The state superintendent "shall have overall supervision and control" of compensatory education programs.

STATUTES

§388.1083

Based on information from the assessment program, the department shall provide remedial assistance programs to raise competencies in basic skills of students identified as in extraordinary need of assistance. A program shall include but not be limited to: individual diagnosis and the development of an individual instructional program; provision for instructional systems that take account of individual student needs; provision for program evaluation.

The department shall establish guidelines for programs, provide technical assistance to districts implementing guidelines, and conduct evaluations necessary for the setting of guidelines.

The department shall provide for preservice and in-service training of staff involved in school programs and establish demonstration projects with selected schools.

A remedial assistance program shall be audited by an agency independent of the state department of education.

§388.1133

The number of pupils in grades K-6 construed to be in need of substantial improvement in basic cognitive skills in 1975 - 1976; 1976 - 1977; and 1977-1978 shall be calculated for each district as follows:

(a) Using the reading and mathematics scores of the statewide assessment battery given in the fall of the two prior years, the percentages of the pupils in grade 4 who attained 40% or fewer of the reading objectives and who attained 40% or fewer of the mathematics objectives shall be averaged. The aggregate enrollment in grades K-4 shall be multiplied by this average percentage to determine the estimated number of pupils in grades K-4.

ASSESSMENT

(b) The calculation shall be repeated using the test scores of pupils in grade 7 and the aggregate enrollment in grades 5-6.

The number of pupils determined in (a) shall be added to the number determined in (b) and this sum shall be construed as the desired number.

§388.1136

A district receiving funds under §388.1131 may use these funds in any manner which contributes toward substantial improvements in the basic cognitive skills of pupils, including, but not limited to: employment of additional personnel; purchase of instructional materials; leasing of portable classrooms; contracting with outside groups; providing in-service training; and providing adequate nutrition and health care to students.

A district shall use state funds to supplement and not supplant the use of federal money.

§388.1137

An assessment of the program of each pupil in need of special assistance shall be made with the use of pretests and posttests. These shall be administered or approved by the department and shall measure progress toward performance objectives specified in the district's approved application (under §388.1135).

REGULATIONS

R 388.223--388.225; 388.231; 388.425

"Rule 3. A district shall include in its application the following components:

(a) A statement of the performance objectives of its compensatory education program to be conducted under chapter 3 of the act.

(b) A commitment that its minimum performance objective shall be an increase in achievement equivalent to 1 year's growth as specified in the performance objectives for this program as measured by approved assessment and evaluation procedures.

(c) A description of the educational program to be used to attain the objectives, including a time line of major tasks to be accomplished, a description of the budget, and the organizational and instructional components.

(d) An assurance that the number of pupils identified for chapter 3 services in each of grades K-6 shall be determined in the manner prescribed by section 35(c) of the act.

(e) The approximate number of pupils to be served in each elementary school which may house a program.

(f) A description of the method of involvement of parents, teachers, and administrators. This group shall be used also in the planning and evaluation of the project."

"Rule 4. (1) A pre-test shall be administered in each area of basic cognitive skills in which a pupil participates. The pre-test scores shall not be used to determine eligibility to participate. The date of the pre-test shall be included in the application and approved by the department of education.

TESTING

(2) A post-test shall be administered to each pupil participating in the program. The post-test shall be either identical to, or a parallel form of, the pre-test. The date of the post-test shall be included in the application and approved by the department of educaiton.

(3) A district using a department of education approved objective referenced instrument shall have the option of administering the various parts of the tests as a diagnostic-prescriptive instrument throughout the school year. The scores obtained on a pre-prescriptive and post-prescriptive basis shall be aggregated at the end of the school year and 1 total pre-test score and 1 total post-test score shall then be submitted to the department for each of the pupils.

(4) Evaluation results shall be reported by school districts to the department of education by July 15 of each year.

(5) Instruments used for evaluation shall be selected from a list of standardized achievement tests covering communication and computational skills approved by the department

of education. Substitute instruments, including objective referenced tests, may be used if:

(a) They are described in the program application.

(b) They are reviewed and approved by the department of education.

(6) Expenses incurred by testing, reporting test results, and other local evaluation activities shall be the financial obligation of the district and may be deemed a chapter 3 program expense."

"Rule 5. For purposes of evaluation, the beginning date of a project shall be designated in the approved evaluation plan as stated in a district's application. The program duration shall be not less than 150 days."

"Rule 11. A school district accepting chapter 3 of the act funds shall file with the department of education an annual evaluation, a chapter 3 expenditure report, and other reports in the form prescribed by the department."

"Rule 4. (1) An annual report shall be provided to the department of education. The report shall include, when appropriate, a summary by grade of pupil scores of pre-test and post-test. Additionally, the report shall state the results of an external evaluation and audit based upon the performance objectives submitted in the application.

(2) The evaluation audit shall be conducted by an approved group or individual other than the applicant agency or employee of that agency. The cost of this audit and evaluation shall be borne by the applicant agency. The auditor shall certify that:

(a) The delivery system was based upon objectives stated in the application.

(b) Final evaluation was based upon the stated objectives.

(c) Evaluation results submitted are accurate."

"Rule 8. To meet the "comparability" requirement of section 35(b) of the act, a school district shall establish comparability, or submit an approvable plan for achieving comparability, as required for purposes of title I of the elementary and secondary education act, Public Law 89-10, as amended, in accordance with the federal rules in force as of the effective date of this rule which are available at no cost from the Michigan department of education, Lansing, Michigan or from the division of compensatory education, department of health, education and welfare, United States office of education, Washington, D.C., and in accordance with the following criteria:

(a) A school district shall report its per pupil instruction costs on a school building basis in order to be able to provide assurance of meeting the comparable expenditure criteria.

(b) A school district shall allocate at least the same number of dollars for per pupil instruction for each building in which a title I project is approved as is spent for the average non-title I building.

(c) A school district shall report its instructional staff-pupil ratio on a school building basis in order to be able to provide assurance of meeting the comparable instructional staff-pupil ratio criteria.

(d) A school district shall have instructional staff-pupil ratios in title I schools the same as or lower than the average instructional staff-pupil ratio for non-title I schools.

(e) A school district shall have fully qualified teachers certified with appropriate majors or minors for the grade levels or subjects which they are teaching in all title I schools equal to or greater than the ratio for the other schools in the district.

(f) A school district shall submit data on services to be provided with title I funds. A service shall be provided on a comparable basis with local and state funds before title I money may be used to fund the same service."

R 388.424

"Rule 4. (1) A reading support services teacher who functions as a consultant on reading support services to teachers, as a facilitator of inservice training in the area of reading support services or as a coordinator and trainer of para-professional and voluntary personnel in the area of reading support services shall not be restricted as to student load.

(2) The student load of a reading support services teacher providing fulltime direct supplementary remedial reading instruction shall be not more than 50 pupils. If a teacher is employed less than fulltime in this instruction, the student load shall be reduced proportionately.

(3) The student load of a reading support services teacher providing instruction with emphasis on developmental reading shall be commensurate with the performance objectives of the program.

(4) Not less than 1 day a week, or its equivalent in time, shall be used by a reading support services teacher for consultation with school staff members and parents and for inservice training.

(5) A school district which has entered into a guaranteed reading performance contract with an outside agency may be approved for reimbursement for participating reading support services teachers meeting the standards prescribed in rules 2 or 3 even though the functions of the teachers deviate from those prescribed in rule 1 and subrules (1),(2) and (3), if the performance contract is approved by the department of education based upon its finding that the reading support services program is innovative, holds promise of success and is in the best interests of the children of the school district."

R 388.601, R 388.602, R 388.603, R 388.604

"A neighborhood education center, whether operated by the authority or by a sponsor under a contract, shall develop an educational, cultural and social program designed to achieve increased student performance in terms of high school equivalency, and to develop skills necessary for achieving successful educational experiences beyond the high school level."

A neighborhood education center means a facility operated to provide high school students and drop-outs with supplementary services to the regular high school course of instruction.

The neighborhood education authority may operate a center or contract with a nonprofit corporation to operate a center.

A center shall not promote or assist a political party or associated organization or engage in activity is derogatory to a racial, religious or ethnic group, "whether directly or by an undue degree of emphasis on the standards, values and achievements of such groups."

A center shall evaluate its program to see if it "reduces the rate of dropouts and attains notable educational achievement."

REGULATIONS

5 CSR 50-820.010--.120
COMPENSATORY EDUCATION

WAIVER

Any rule in this section may be waived by the assistant commissioner if its operation would work an extreme hardship upon the affected party or to the program beneficiaries.

Educational deprivation shall be determined by standardized testing. Children must be two months behind grade level in grade one, 4 months behind in grade two and multiples of two thereafter. Teacher observation shall be used only in subjects not covered by the tests.

At least $250 shall be spent per pupil for the regular year programs. Title I instruction must be designed to reinforce regular school programs, but instruction is to be based on the need of the students on a priority basis. Teacher pupil ratios shall not exceed 10:1. In classes where the teacher is assisted by a teacher aide, however, the ratio may be 14:1. The remedial instruction offered must be "substantially different in quality and content" from services offered children in regular classrooms. Consultants and supervisors may be provided to strengthen the instructional program if the class has ten students who need the specific service the person provides. A consultant or supervisor may be provided on a minimum ratio of one for every ten teachers.

Title I programs may be approved for pre-kindergarten or early childhood education children but not for regular kindergarten programs. Concentrated instructional kindergarten programs with supplemental or supportive services for Title I children may be approved, however.

Three types of Title I summer school programs may be approved.

Type I - not eligible for state funds and was not eligible in the preceding year. Title I funds may be used: if the program is available exclusively for educationally deprived children, instruction in the school is available for 30 days, at least three hours are taught on a priority basis determined by educational

need, and class size does not exceed ten students per teacher.

Type II - operates or did operate a program in the preceding year where state funds were approved. To continue receiving state and Title I funds the school must conform to state requirements.

Type III - operates or did operate in the preceding year an approved program for Title I and non-Title I children. The program must conform to state requirements.

Health, food service and transportation services may be provided for children in Title I programs. These services must supplement those provided by the school district to receive reimbursement.

Handicapped children are eligible for Title I programs but all other available funds must first be exhausted before Title I funds are used.

Teacher assistants must have a minimum of two years of appropriate college credit and may be assigned for each Title I teacher. They may not engage in activities for non-Title I classes. A teacher clerk may be assigned for every four teachers and must possess a high school diploma.

All Title I teachers must have a BA and Missouri State Teacher's Certificate. Special teachers must have additional requirements established for them. Supervisors of Title I programs must have a master's degree and be certified as a school administrator. Remedial reading teachers must have a certificate. Consultants and supervisors must have a master's degree with a major in the subject area and a teacher's certificate.

Title I funds are to be used solely to supplement and not to supplant state or local funds.

5 CSR 50-823.010

ANNUAL PROGRAM PLAN FOR MIGRANT CHILDREN

The Department of Education is eligible to receive federal funds under Title I for special educational programs for educationally deprived children of migrant agriculture workers.

5 CSR 70-742.130

State aid may be provided for approved classes in remedial reading. Thirty-five to fifty students may be enrolled in a class. Appropriate professional personnel shall determine the eligibility of each student referred.

6. Compensatory Education

Regulations

3-(7)

A "culturally and educationally deprived child" is one whose family environment materially affects her/his ability to achieve at the class level, or one who comes from a broken home, and/or whose background is of such a nature as to restrict normal school progress.

The identification of culturally and educationally deprived children is the responsibility of the superintendent. The State Department of Education shall determine eligiblity procedures for the program. For children in grades one through twelve, eligibility will be determined by standardized test scores. IDENTIFICATION

The program provided must include at least 140 instructional hours in the special program for each child and must include an annual evaluation.

Staff personnel will be selected on the basis of their interest, ability, and special training in the area.

6. COMPENSATORY EDUCATION

REGULATIONS

§6:42-1.3

The State policy is to include disadvantaged students, insofar as possible, in regular programs; provided, however, it may be necessary to design programs for selected students prior to including them in regular programs. It may also be desirable that special services be provided for selected students enrolled in regular programs to assure maximum opportunity for success.

CROSS REFERENCE

II.A.9.; Regulation §6:26-3.3; §6:27-3.3

6. Compensatory Education

Regulations

Part 151 (Statutory authority §207)

§ 151.1 — 151.3

These regulations implement the procedures for establishing prekindergarten programs for pupils "with special educational needs associated with poverty."

School districts applying for aid to establish such a program must state the number of pupils to be included in the program (at least 70% of whom must be disadvantaged); the program's goals; staff qualifications; and plans for continuing program evaluation.

In approving a program, the commissioner shall consider such factors as the educational benefits to be derived from the program; and whether or not the program is educationally sound in terms of staff qualifications, and whether or not it is economically sound.

§ 151.6

All programs shall be under the commissioner's supervision. Individual student records shall be maintained on attendance and evaluation, and school districts shall submit reports to the commissioner as may be required.

Part 164 (Statutory authority §207)

§ 164.1

These regulations provide guidelines for the use of funds for basic education and literacy programs for welfare recipients who are at least 16, not enrolled in a regular school program, and who have "special educational needs associated with poverty."

§ 164.2 — 164.4

Districts that apply for funds to operate these programs must enumerate the people who would benefit by the program and describe the proposed program.

CLASS SIZE

In order to be approved, a program must provide for a minimum of 200 hours of classroom instruction, offered at least six hours per week; class size of at least 10 but not more than 20 students; and a standardized reading test for all English speaking students and an oral test for non-English speaking students.

School districts may use funds alloted to operate their own program or to enter into an agreement with other districts to provide a program.

§ 164.6

The commissioner shall supervise all programs. Districts must keep individual records for each adult participant, so that the program can be evaluated.

6. Compensatory Education

Statutes

§115-352 — 115-357

The State Board of Education shall operate the "North Carolina Advancement School" which shall provide a place for "experimentation and research into the causes of and remedies for underachievement in the public schools." The school will be administered by a "governing board" appointed by the State Board and a director, also appointed by the Board. The director shall be responsible for the "development and implementation" of curriculum, "developing procedures" for "evaluation of all aspects of the school and its progress," and for coordinating the school's program with that of the public schools.

Regulations

§2E.0301

The division of compensatory education is responsible for the following: administering compensatory education programs for disadvantaged, migrant, handicapped, delinquent and neglected children and youth as authorized by Title I of the Elementary and Secondary Education Act of 1965, Special Education Programs and Projects for Educationally Deprived Children; providing to local districts and agencies technical assistance in program development, program implementation and program evaluation of ESEA Title I and such programs as follows through, educational services for Indochinese refugee children, and Indian education; coordinating the delivery of consulting services from other divisions of the Department of Public Instruction to compensatory education projects operated by local school districts and agencies; promoting through demonstration of professional competence emphasis upon compensatory education programs in school districts and agencies.

§2E.0302

The division of compensatory education is organized to carry out its responsibilities through the following operational sections: the administrative operations section is responsible for administering compensatory education programs for disadvantaged, handicapped, delinquent and neglected children and youth.

The programs operations section and the migrant operations section will work in conjunction with the administrative operations section in implementing its responsibilities.

6. Compensatory Education

Regulations

Chapter III: IV.F.

Title I of the 1965 Elementary and Secondary Education Act provides funds to reinforce local educational programs on the basis of children from economically and educationally deprived backgrounds. Title II provides funds for library and instructional materials. Title III provides funds to encourage imaginative solutions to educational problems. The Resource Information Center (RIC) is a program of the North Dakota Department of Public Instruction supported by Title III funds and concerned with the resource and information needs of North Dakota's educators. Twelve centers throughout the state are equipped with microfiche readers and microfiche materials for their use. Title IV, Section 402, provides funds for the planning and evaluation of educational programs administered by the Commissioner of Education. Title V provides funding to strenghten State Departments of Education. Title VI-B of Public Law 91-230 is a federal program to initiate and expand special educational and related services for handicapped children.

6. Compensatory Education

Regulations

§3301-71-01 -- 3301-71-06

School buildings "which qualify for participation in Title I of the Elementary and Secondary Education Act" in school districts having "fifty residents between 5 and 17 years of age whose parents are receiving aid to dependent children" or having "a number of such residents equal to 5% of the average daily membership of the school district" may receive state funds "for the design and operation of special programs to improve the educational and cultural status of disadvantaged pupils."

"Participating districts shall plan and propose suitable programs. . .and submit such reports as the Department of Education may require.

"The State Department of Education shall review and recommend program proposals. . .provide appropriate consultative services. . .keep adequate fiscal and program records and reports and establish evaluative criteria for effective program appraisal."

"District applications shall describe the target group, their educational and cultural characteristics and the means used to identify them, the specific problems which need to be resolved and cannot or are not being met with existing programs, procedures to meet the problems, staff services and materials for the program and "evaluative procedures that will be used to determine the success of the program in meeting its objectives."

Program goals may include but need not be limited to academic achievement, adaptation of curriculum, cultural enrichment, drop-out prevention, home school and adult education, health and related services, library services, motivational development, safety and building security.

"The procedure to be used in achieving the program objectives shall be appropriate, adequate and efficient. Adequate evidence shall be submitted that the proposed program will supplement regular school program."

Expenditures shall not be approved for capital outlay purposes or equipment costing in excess of 10% of the total amount of the program.

6. Compensatory Education

Statutes

§343.650

Disadvantaged children are those who are socially or culturally deprived to such a degree that supplemental facilities and services are necessary for them to profit in the regular school program.

§343.660

A district school board "may provide facilities and services for [disadvantaged children] during and outside of regular school hours and regular school days."

§343.830

"School districts may establish summer programs for migrant children [who will attend regular school sessions in the coming school year] to supplement the regular school program and provide instruction in those educational areas in which the migrant child needs special help."

6. Compensatory Education

CROSS REFERENCE

III.B.Teachers: Regulation §24:02:03:06:02

6. Compensatory Education

Statutes

§16.176

"Educationally disadvantaged pupils" are those eligible to receive federal compensatory aid under Title I of the Federal Elementary and Secondary Education Act. "The commissioner . . . with the approval of the State Board . . . shall review the standards established for educationally disadvantaged pupils and adjust the standards if they perpetuate inequities or become obsolete."

Regulations

§3551

"Statewide migrant education is maintained by the Texas Education Agency through programs for the education of migrant children under the 'Peak Load Program' of the Foundation School Program . . . and Title I of the Elementary and Secondary Education Act of 1965 as amended by Public Law 89-750. A description of the Title I program is as follows:

(a) Funding Authorization

Funds are made available to school districts under the provisions of Title I of the Elementary and Secondary Education Act of 1965 to finance supplementary education programs which meet the specific needs of migratory children of migratory agricultural workers.

(b) Establishing Eligibility for a Basic Grant

The maximum eligibility or entitlement of each school district for Title I migrant funds is determined by formula on the basis of the number of migratory children who are served in a supplementary educational program. To establish eligibility for a grant, the district is required to:

(1) present auditable data identifying all migrant children to be served in a supplementary education program;

(2) provide the Texas Education Agency with an assurance that the use of Title I Migrant funds in the designated project areas will not result in the reduction of state and local funds used in financing educational programs for migrant children;

(3) identify campuses within the district on which supplementary education programs for migratory children will be conducted;

(4) develop projects designed to meet the specific educational needs of the migrant children;

(5) describe arrangements that have been made to provide a supplementary educational program for migrant children in the school district who are enrolled in non-public elementary and secondary schools;

(6) present plans, procedures, and techniques for evaluating the effectiveness of the program and report the results of the evaluation to the Texas Education Agency; and

(7) agree to establish fiscal procedures and controls in accordance with directions and policies set forth in the Financial Accounting Manual, (Budgeting, Accounting, Financial Reporting, and Auditing for School Districts and Education Service Centers, Policy 4201).

(c) Fiscal Records

The submission of an application and its approval by the Texas Education Agency constitutes acceptance by the school district of its responsibility to maintain such records and make such reports as may be required by the Agency in administering this program.

School districts operating Title I Migrant Programs shall conform to the accounting principles of the Financial Accounting Manual.

Furniture and equipment purchased with funds provided by this program will be separately recorded and adequately controlled. Library books purchased with funds provided through this program will be separately recorded and controlled. Adequate control includes:

(1) development of property inventory records for the items purchased;

(2) periodic physical inventories and the reconciling of these inventories with property records; and

(3) identified marking on all equipment and library and supplementary textbooks purchased with migrant program funds.

(d) Determination of Student Eligibility of the Title I Migrant Program

A student shall be eligible for the Title I migrant program if he[she] is a migratory child of a migratory agricultural worker and if he[she] has moved with his[her] family from one school district to another during the past year in order that a parent or other member of his[her] immediate family might secure employment in agriculture or in related food processing activities."

§3563

"The Texas Education Agency actively provides leadership and administration for various programs directed toward meeting needs of the educationally disadvantaged pupils. . . .

Title I of the Elementary and Secondary Education Act of 1965 supports education programs for the educationally disadvantaged pupils. The Texas Education Agency administers its responsibility in accordance with the following procedures.

The Texas Education Agency has the authority to make payments to the local education agencies for grants for the period beginning July 1, 1965, and enigng June 30, 1973.

The maximum grant for which a local education agency in a state . . . is eligible to recieve under Title I of the Elementary and Secondary Education Act will be determined by:

(1) the number of children aged 5 to 17, inclusive, in families residing in the school district and having an

annual income of less than the low-income factor provided by Congress, reported by the Bureau of Census and agreements between the Texas Education Agency and local education agencies;

(2) the number of children of such ages in families residing in the school district and receiving payments under the program under Title IV of the Social Security Act . . . receiving an annual income in excess of the low-income factor prescribed by Congress;

(3) the number of children of such ages living in the school district in institutions for neglected or delinquent children . . . and

(4) the number of children of such ages living in foster homes in the local district as reported by the State Department of Public Welfare and being supported with public funds.

The Department of Health, Education, and Welfare advises the Texas Education Agency annually of

(1) State Grant Awaru under the Elementary and Secondary Education Act . . . and

(2) County Aggregate Maximum Basic Grant.

Establishing Eligibility for Approval

To establish eligibility for approval by the Texas Education Agency for a grant within the limit of its entitlement, the districts are required to:

(1) provide assurance that the use of Title I funds to finance projects will not result in the reduction of state and local funds used in financing the school district educational programs;

(2) use Title I funds as a supplement to state and local funds; (The Title I program and the regular school program will be planned and budgeted to assure that federal funds will supplement and not supplant State and local funds and that state and local funds will be used to provide services in project areas that are comparable to the services provided in non-project areas); and

(3) provide Assurance of Compliance . . . or court order or desegregation plan as modified by the execution of HEW 441B previously filed with the Office of Civil Rights in accordance with regulations of the Department of Health, Education, and Welfare.

Grants under Title I of the Elementary and Secondary Education Act of 1965 to a local education agency . . . will be made on basis of applications which are submitted to Texas Education Agency and approved by it in an aggregate amount not in excess of the amount of the funds made available for that local educational agency.

Each application shall include a program description which indicates the following.

(1) The Title I program is based on a consideration of the relative needs of children at all ages and grade levels and is designed to meet a limited number of high priority needs which cannot be met through the regular school program or other programs.

(2) The Title I program is based on clearly stated objectives and desired outcomes and . . . will very likely result in reduction of educational deficiency.

(3) Consideration is given to the relationship of the Title I program to the regular school program and to the possibility of modifying that program so as to provide a better base for the addition of supplementary compensatory educational services.

(4) The applicant's Title I program will be conducted in a limited number of eligible attendance areas and will provide relatively higher concentrations of services in areas having the highest incidence of poverty. It shall be the school district's responsibility to establish criteria to determine the educationally disadvantaged that have the greatest need.

(5) Title I activities or services will be offered at locations where the children can best be served.

(6) Title I services will be programmed so that those services will be concentrated on a limited number of children.

(7) The proposed staffing pattern is appropriate for the activities and services to be provided.

(8) In-service training will be geared specifically to the requirements of the Title I program and the needs of the Title I staff.

(9) Specific provision has been made for professional staff members and education aides assigned to assist them to participate together in coordinated training programs.

(10) Due consideration has been given to the provisions of Title I services not only during the regular school year but also during the summer.

(11) Educationally deprived children enrolled in private schools will have genuine opportunities to participate in the Title I program on the basis of need as determined by the comprehensive assessment of the needs of all children in the eligible low-income areas. The high priority needs of private school children residing in those areas will be met with services that are comparable in scope and quality to those provided to meet the high priority needs of public school children.

(12) The Title I program includes appropriate activities or services in which parents will be involved.

(13) Expenditures for equipment will be limited to the minimum required to implement approved Title I activities or services.

(14) Title I funds will be used for construction only when necessary to implement projects designed to meet the highest priority needs of educationally deprived children in the applicant's district.

(15) The Title I program includes provisions for the dissemination of information to teachers and administrators for their use in planning and conducting projects.

(16) A system-wide council composed of parents of children to be served in schools participating in ESEA, Title I Activities has been established, informed.

and involved in the planning, development, and operation of the Title I project.

(17) ESEA, Title I applications and other pertinent documents will be available for public inspection and reproduction upon request and at a reasonable charge."

The agency administers its responsibilities under Texas State Compensatory Assistance in accordance with the following procedures:

"The Texas Education Agency shall make payments to school districts for each appropriation period.

The maximum grant which a school district may receive is not to exceed the amount appropriated by the Legislature divided by the number of children from families having an annual income factor as determined by Congress . . . .

To establish eligibility for approval by the Texas Education Agency for a grant within the limit of its entitlement, the districts are required to:

(1) provide assurance that the use of state compensatory funds to finance projects will not result in the reduction of other state and local funds used in financing the school district educational programs;

(2) use state compensatory funds as a supplement to other state and local funds . . . .

Grants under the Texas compensatory education program are made on the basis of applications which are submitted to the Texas Education Agency and are approved in an amount not to exceed the amount of funds made available for the local educational agency.

It is the school district's responsibility to establish criteria to determine the educationally disadvantaged that have the greatest need. However, the priority focus of the . . . program must be for supplementary instructional programs for educationally disadvantaged pupils in the areas of reading, mathematics, language development, and/or bilingual/multicultural development. Supportive type program activities such

as counseling, health service, and the like may be provided but only if the proposal clearly states how the activity will give assistance or help improve the instructional process for the educationally disadvantaged pupils participating in a compensatory instructional program(s).

Each application includes a program description which indicates the following:

(1) The . . . program is based on a consideration of the needs of children at all ages and grade levels and is designed to meet a limited number of high priority needs which cannot be met through the regular school program or other programs.

(2) The . . . program is based on stated objectives and desired outcomes and, if executed as planned, will very likely result in reduction of educational deficiency.

(3) Consideration is given to the relationship of the program to the regular school program and to the possibility of modifying that program so as to provide a better base for the addition of supplementary compensatory educational services.

(4) Activities or services are offered at locations where the children can best be served.

(5) Services are programmed so that those services are concentrated on a limited number of children.

(6) The proposed staffing pattern is appropriate for the activities and services provided.

(7) In-service training is geared specifically to program requirements and staff needs.

(8) Specific provision is made for professional staff members and their education aides to participate together in co-ordinated training programs.

(9) Consideration is given to the provision of services during the regular school year and also during the summer.

(10) Expenditures for equipment are limited to the minimum required to implement approved activities or services."

The evaluation of education programs for the educationally disadvantaged is carried out in a way in which:

"(1) The application by a school district describes procedures and techniques to be utilized in making at least an annual evaluation of the effectiveness of its Title I program.

(2) The application by a school district must give appropriate objective measurements of educational achievement.

(3) Evaluation results are used in determining future activities or redirecting existing programs."

For evaluation of the Texas State Compensatory Education Assistance program:

"(1) The application by a school district describes the procedures and techniques to be utilized in making at least an annual evaluation of the effectiveness of its state compensatory education program.

"(2) The application by a school district must give appropriate objective measurements of education achievement.

(3) Evaluation results are used in determining future activities or redirecting existing programs."

§3551; 3561; 3562; 3563; 3564; 3571.1

"A statewide educational program for migrant children shall be coordinated by the Texas Education Agency and shall focus on meeting the particular educational needs of children of migratory families.

The broad purposes of the program shall be

1) to provide assistance to local education agencies having a high concentration of migrant children in order that these agencies may operate comprehensive educational programs and provide ancillary services to meet the unique needs of migrant children;

2) to develop and conduct staff development programs for personnel in the Texas Child Migrant Program;

3) to cooperate with other state education agencies in improving educational programs and in developing record transfer systems for migrant children; and

4) to coordinate the activities of cooperating agencies serving migrant children in the State . . . .

The educationally disadvantaged is a special pupil population which has educational deficiencies that limit progress in the traditional education program.

In view of the special needs of disadvantaged children, support shall be given . . . in the implementation and conduct of compensatory education programs. The Texas Education agency shall provide leadership to assist school districts to implement and conduct educational programs for disadvantaged pupils . . . .

Compensatory education is a comprehensive program of education intended to strengthen and enrich the curriculum of . . . children through activities and services specifically designed to accommodate individual differences of students who exhibit special needs caused by educational deprivation, especially that generated by racial or ethnic isolation."

Educational programs for such pupils "shall be evaluated using objective measures to the extent possible." The evaluation will consider the quality of the educational process and the extent of change evidenced by the pupils.

The intent for a statewide special education program is ". . . to guarantee to each child of school age in Texas the availability of a Foundation School Program . . ." to ". . . provide for a comprehensive special education program for exceptional children in Texas . . ." and "to provide for full implementation of all legislation relevant to the education of exceptional children . . ." while furnishing leadership and guidance to local school districts in the field of exceptional children.

6. Compensatory Education

CROSS REFERENCE

III.D.Educational Programs: Policy Guide, Report of Nine Special Programs in Education (1976).

6. Compensatory Education

Regulations

R.M. Ch. II.N; p. 76 - 79

The Elementary and Secondary Education Act of 1965, Title I, provides funds to local education agencies:

- serving a large number of children from low-income families to expand and improve educational programs to meet the special educational needs of educationally deprived children and to provide specific projects that are innovative or show special promise in meeting special educational needs of educationally deprived children.
- serving handicapped children formerly enrolled in State-supported or operated schools to supplement the special educational program to provide an appropriately designed education program.

It also provides funds to State educational agencies:

- to initiate, expand, and improve special educational services for handicapped children in State-supported or operated schools;
- to establish or improve under agreement with local educational agencies educational and related services to meet the particular needs of children of migratory agricultural workers or of migratory fishermen;
- to meet the special educational needs of children in institutions for neglected and delinquent children.

Applications must meet criteria specified in Federal legislation. Funds must be used to supplement and not supplant local funds.

Follow Through Assistance provides grants to State Department and local school personnel to enable them to assist local Follow Through Programs and to provide technical assistance to communities and local agencies interested in activities related to Follow Through Funds shall go for travel, conferences, and dissemination relating to Follow Through; joint meetings of parents, staff and administrators of Vermont's two Follow Through projects; develop-

ment of fuller use of teacher aides in Follow Through programs; and encouragement of institutions of higher learning to improve programs in early childhood education and development.

R.M. Ch. II.0; pp. 80 -- 82

The Youth Work Experience Program (State statute: Title 16 V.S.A. Ch. 125, 3541; Federal statute: P.L. 93-203, 93rd Congress, S. 1559, Dec. 28, 1973, 87 Stat. 839) is designed to encourage young people to stay in school by offering jobs and earnings for disadvantaged youth.

Youth enrolled in this program must be regularly enrolled in school, be between 14 and 22 years of age and come from low income families. Priority is given to youth with social or emotional adjustment problems, poor academic achievement, poor attitudes, cultural deprivation and physical or mental handicaps. Selection of enrollees is the function of the local school system and is based on relative need of each applicant.

Funds may be spent for payment of enrollee wages and for part of the administrative of such. Employment is provided for youth to work 10 hours per week at $2.30 per hour; during summer, youth may work up to 30 hours per week at $2.30 per hour.

Detailed monthly reports are required; evaluation reports are required at irregular intervals.

The Right to Read provides grants to State Educational Agencies (Grant Number OE6-0-72-1574).

The goals of the Vermont Right to Read plan are to:

- staff and maintain a State Right to Read office in the Division of Elementary and Secondary Education;
- provide technical assistance to local school districts;
- train local school district persons to serve as leaders in developing and implementing good comprehensive reading programs;
- establish five regional staff development centers.

Local school districts have moved local Right to Read leaders and applied to the State Department to have the local leader participate in leadership training ses-

sions at regional centers.

Funds, granted to the State Department, are in turn given to regional centers and local school districts to support: leadership training seminars; expenses of local leaders to attend seminars; salary and travel of Right to Read administrator; follow-up services and technical assistance to local Right to Read leaders and local school districts; and materials for Right to Read programs.

Applicants for assistance must be an employee of State Department with responsibilities related to Right to Read or a local school district that appointed a local Right to Read leader.

The Vermont Legal Education Project (Project Number VA7510) is intended to encourage, initiate and support efforts at law-related education in Vermont secondary schools and to train Vermont educators in the techniques and materials of law-related education.

The Governor's Commission on the Administration of Justice made the grant to the State Department, which in turn has granted funds to five secondary schools which are serving as Legal Education Centers. Training is available through the project to interested Vermont teachers.

The project has made available to local schools funds for teacher release time and partial salary payment, for learning and curriculum materials, and other expenses. Subsidized teacher training institutes have also been offered.

6. Compensatory Education

Statutes

§28A.41.250

The superintendent of public instruction shall submit budget requests for education programs for the urban, rural, and racially disadvantaged (URRD). He/she shall also appoint a 21-member advisory committee and shall adopt rules and regulations to involve representative citizens in program decisions affecting any of the target groups.

STATUTES

§48600--48602

24-hour elementary schools shall be operated for minors between the ages of 8 and 16 years and the attendance, care, guidance, observation and education of minors attending the school provided for.

The county superintendent shall have primary authority over the 24-hour schools and shall, with the county probation officer, have authority to do what is necessary to promote the prosperity of the school or the well-being and education of the minors in it. The county superintendent or the governing board of the district shall have, in reference to 24-hour schools, the same powers assigned for the management of other schools.

A 24-hour school shall be one of the public elementary schools of the district.

§48605--48609

The principal of any school in the county or district shall report to the county or district superintendent, after conference held with the parent or guardian, any pupil who the principal believes may be eligible for a 24-hour school.

A board of admissions shall investigate the case of such a child. Admission and discharge of minors with behavorial disorders shall be made on the basis of an evaluation according to state board standards by the board of admission. The board shall include a teacher, a psychologist, a school nurse or social worker, a principal or supervisor, or attendance supervisor, a licensed physician, and representatives of the probation department and of the social welfare department of the county.

ADMISSION

The county superintendent or district governing board may accept into a 24-hour school any minor between the ages of 8 and 16 years who is a resident of the county or district, whose parent or guardian does not exercise proper supervision, and who is, by reason of insubordinate conduct,

in need of special education training to prevent his/her becoming subject to juvenile court law. The pupil may be assigned to the school by the county or local superintendent, with the consent of the parent or guardian.

If the parent or guardian of the pupil enters into a contract with the county or school district for the support of the child, the child may be maintained for the period assigned by the county or local superintendent.

If the parent or guardian refuses and if the child cannot be located in another school, the county or local superintendent shall file in the superior court of the county a complaint asking for a court order to commit the child to the 24-hour school and fixing the amount the parent or guardian shall pay. If a parent or guardian is unable to pay the amount, the court may provide for the payment by the county of a sum sufficient to maintain the child during the period of commitment.

§48610--48613

A minor placed in a 24-hour school without the consent of parent or guardian shall remain for the duration of the period provided by the court order, or until recommendation that the minor be released is made to the court by the admission and discharge committee.

If a minor has been assigned to a 24-hour school by a county or local superintendent, with parent or guardian consent, the parent or guardian, on application to the county or local superintendent, may secure the release of the minor.

If, in the opinion of the principal of any 24-hour school, the further detention of any minor is detrimental to the minor, the minor may be returned to the county or local superintendent or to the court which committed the minor.

Any pupil who leaves a 24-hour elementary school without the principal's permission shall be deemed an habitual truant within the meaning of §601 of the Welfare and Institutions Code, and dealt with as such. TRUANT

Any person who contributes to such truancy on the minor's part is guilty of a misdemeanor.

§48614--48616

The county superintendent or district governing board shall approve the course of study and methods of enforcing it in a 24-hour school. Vocational and trade training shall be provided and funded under §41703 when maintained by the county superintendent.

Each 24-hour school may conduct clinics for the diagnosis and observation of children and may advise parents and school authorities regarding courses of study or treatment in the interests of the child's normal development.

§48617--48618

The county probation officer having management of a 24-hour school may enter into a contract with any other county or state agency to provide for the supervision of minors placed in the 24-hour school.

The enrollment in each 24-hour school shall be limited to standards under §56615.

§48630 -- 48641

TRUANT

OPPORTUNITY PROGRAMS

Pupils who are, or are in danger of becoming, habitually truant or irregular in attendance or disorderly during attendance shall be provided an opportunity to resolve their problems through opportunity schools, classes, or programs. The assignment of a pupil to an opportunity program shall be conducted with a view to the pupil's improvement and restoration, or soon as practicable, to regular programs. A school governing board may confer a diploma upon any pupil who has completed the prescribed course in an opportunity school.

An opportunity program may be established at any level, elementary or secondary, for the instruction of pupils assigned to it by the appropriate school board or superintendent.

The school governing board may: establish a set aside space for opportunity programs, make special rules and regulations for the operation of opportunity programs, assign (along with the superintendent or other designee of the board) pupils to opportunity programs, and accept and expend federal and other funds for opportunity programs.

If a pupil assigned to an opportunity program is habitually truant, irregular in attendance, or disorderly during attendance at such a program, the supervisor of attendance or other designee of the school governing board shall refer the pupil to the school attendance review board in the county. If the school attendance review board determines that available community services cannot resolve the pupil's problems, it shall direct the county superintendent to request a petition on behalf of the pupil in the juvenile court of the county. If the court finds the allegations sustained, it, in addition to any other judgment it may make regarding the pupil, may order the parent or guardian to deliver the child at the beginning of the schoolday, for the remainder of the school term, to the opportunity program.

Opportunity schools established by the county board of education shall be limited to counties with average daily attendance of less than 8,000. Such a school shall be deemed in lieu of any continuation education program and shall excuse districts in the county from complying with otherwise applicable statutes requiring continuation education programs.

§48650 -- 48676

The governing bodies of counties and cities may establish and maintain adjustment schools for the purpose of furnishing to minors under the age of 18 years care, custody, education, and adjustment to good citizenship, which shall be continuous during the period the minors remain in school.

§48650 et seq. shall be construed in conformity with their intent as well as their expressed provisions. The governing board of any adjustment school may do all lawful acts necessary to promote the school's prosperity or the pupils' welfare.

Article 16 (commencing with §900) of Chapter 2 of Part 1 of Division 2 and §579 of the Welfare and Institutions Code shall, so far as applicable, govern matters related to adjustment schools.

The governing bodies of two or more counties may unite in the establishment and maintenance of adjustment schools, to be located as agreed upon by the counties and entered in the minutes of the respective counties.

If adjustment schools are organized by only one county, their government shall be vested in a governing board which shall be either the school board or the county probation committee of the juvenile court, or a board of trustees composed of seven members from both the board of education and the probation committee as determined by the county governing body.

If adjustment schools are organized by joint action of more than one county, their government shall be entrusted by the county governing bodies to a governing board which shall be: the board of education of the county in which at least one adjustment school is located; the probation committee of the juvenile court of the county in which at least one adjustment school is located; or a board of trustees of seven members who shall represent all of the counties.

If a board of trustees is chosen to govern the adjustment schools, members shall serve six-year terms staggered in three groups.

RULEMAKING

The governing board of an adjustment school shall: make rules and regulations for the government of the school; see that proper care and education are provided for minors in the school to the ends for which such schools are established; make all contracts for the establishment and maintenance of the school (never to exceed the amount appropriated for such purposes by law); shall appoint a superintendent, not of its own number, qualified for the work to be performed at the school, who shall hold office at the pleasure of the governing board, and determine the number, title, duties, terms of office, and salaries of all other officers and employees.

CONFLICT OF INTEREST

No member of the governing board nor officer nor employee of the adjustment school shall be interested, personally, directly, or indirectly, in any contract, purchase, or business carried on in behalf of the school.

The governing board of any adjustment school shall cause the school to be conducted as may seem best calculated to carry out the intentions of §48650 et seq.

OATH

The superintendent of the adjustment school shall file an oath with the governing board that he/she will faithfully and impartially discharge the duties of the office.

The superintendent: shall, subject to the governing board's discretion, be invested with the custody of lands, buildings, and other property of the school; shall account to the governing board for property entrusted to him/her, for money received as superintendent, and for minors entrusted to the school's care; shall, subject to the governing board's direction, appoint officers and employees of the adjustment school; and shall exercise supervisory and executive powers conferred by the governing board.

The superintendent shall reside in one of the adjustment schools under his/her jurisdiction, and shall be furnished with suitable quarters, furniture, food supplies, and laundry.

The adjustment school shall receive into its care all boys and girls under 18 years of age who are committed to it by order of the juvenile court of the county. Any such committed minor shall remain in the school for the duration of the period provided in the order of commitment, or until further order of the juvenile court. The juvenile court shall review the order of commitment at least once each year.

If at any time in the opinion of the superintendent of the adjustment school the further detention of the minor is detrimental to the interests of the school, the minor may immediately be returned to the committing court, and the court may revoke its previous order.

COURSE OF STUDY

An adjustment school shall offer a course of study corresponding as far as practicable with the course of study in the public schools, including vocational and trade training.

Any juvenile court order may provide that the expense of the support of a pupil committed to an adjustment school be paid in whole or in part by the pupil's parent or guardian.

If the adjustment school is organized by only one county, the entire expense shall be borne by the county. If the adjustment school is organized by two or more counties, the initial expense shall be apportioned between each of the counties on a pro rata basis in the ratio that the number of children of school age residing in each county bears to the number of children of school age residing in all of the counties. The annual expense of maintaining the school by two or more counties shall be apportioned in the ratio that the average daily enrollment of minors placed in the school from each county during the preceding year bears to the total average daily enrollment in the school from all of the counties during the year.

REGULATIONS

10581

High school districts maintaining classes for inmates in county jails or road camp must be approved by the Bureau of Adult Education. Recreational classes are not permitted. Classes will be approved in elementary subjects, American or English, Math, Social studies and vocational subjects.

CROSS REFERENCE

II.A.2.; Statute §203

7. Schools for Delinquents

CROSS REFERENCE

II.A.2; Statute §32-609a

STATUTES
§33-3501 - 3508

A school shall be established for the "care and rehabilitation of delinquent, handicapped and emotionally disturbed children and to provide for the care, control and discharge of juvenile offenders." The school shall be under the supervision of the state department of health and welfare which shall: employ instructional and administrative staff, adopt rules and regulations and prescribe the course of study. All teachers must hold valid teaching certificates.

7. Schools for Delinquents

Statutes

§13-10

Boards of education of cities having a population of over 24,000 and less than 500,000 may establish a "parental or truant school."

The county board of education may hire teachers and make and enforce regulations for the county normal schools.

§13-40 - 13-43.19

A Department of Corrections school district is established for the education of inmates and wards, and the district may establish primary, secondary, or vocational schools.

The Board of Education for the school district shall be composed of the director of the Department of Corrections, assistant directors of juvenile and adult divisions, and six appointees.

The Board's duties shall include: to adopt rules and regulations; employ a superintendent of schools and supervisory personnel; provide advanced vocational education; and develop goals and objectives for the programs and a plan to achieve them.

§646 - 674

Counties which send "dependent and neglected" children to industrial schools shall bear the expense, though this amount may be subject to partial reimbursement from the state.

No girls over 18 nor boys over 17 shall be committed to these institutions. The schools are subject to certain state imposed requirements as to visitation, inspection and supervision.

Boys and girls may be restored to their parents if, in the case of males, a "proper showing" is made; if, in the case of females there is made "a showing that the welfare of the girl will be best promoted" thereby.

§10-22.20-10-22.20b

The board shall establish special classes for students 21 or over in adult education and occupational training. The board may enter into agreements with community college or other school districts to provide career education for students in the 11th and higher grades who desire preparation for a trade. The board shall appoint a properly qualified and certified person to serve as director of adult education.

REGULATIONS
Ch. 4-8

The Illinois Office of Education has recognized the school programs as they are conducted by the Department of Corrections. Units of credit earned while institutionalized are considered to be transferable to the public schools.

7. Schools for Delinquents

Statutes

§232.23

At the request of the board of supervisors, the county board of education "shall provide ...teaching staff, books, and other necessary materials..." for the instruction of school age children detained in the juvenile home.

§259A.6

A minor who is in a state training school "or the Iowa juvenile home" may qualify for the high school equivalency program.

§299.8 -- .9

Any child "over seven and under sixteen years of age, in proper physical and mental condition," who fails to attend school regularly, "shall be deemed to be a truant." The board of directors may provide for the confinement and instruction of truants, and may establish truant schools for that purpose.

TRUANT

7. Schools for Delinquents

CROSS REFERENCES

II.B.3.; Statute §72-1623

IV.G.; Statute §72-8223

STATUTES

§159.190 -- 210

"The board of education of any independent school district embracing a city of the first or second class may equip, maintain, conduct and adopt rules concerning parental or truant schools for the purpose of affording a place where children of compulsory school age who come within the provision of this chapter and of statutes concerning neglected, dependent and delinquent children may be enrolled for the purpose of discipline and instruction."

Such a school "shall not be located outside the county in which the city is located or near any penal institution.

"No religious instruction shall be given in [the] . . . school except as is allowed by law to be given in public schools." Students shall be permitted to "receive religious training in accordance with the belief of their parents or guardians . . . ."

§159.220;230

"Any child committed to a parental or truant school upon an order . . . by the county court may be allowed to return home and remain there on probation, subject to the . . . supervision of a probation officer of the county court. If the child . . . violates the terms and conditions of probation, he shall be returned to the school. No child shall be released upon probation in less than four weeks from the time of his commitment, nor shall a child be thereafter released upon probation unless the court is satisfied that the child will attend regularly some public or private school." A child who satisfactorily completes a one year probation period, shall be discharged from the truant school, and shall not be recommitted thereto, except by subsequent proceedings

undertaken for similar violation of this chapter.

"Any child released . . . on probation . . . who violates the conditions of his[her] probation at any time within one year thereafter, shall, upon the order of the county court, be returned to the . . . school and shall not be released upon probation within a period of three months from the date of re-entering. If a child violates the conditions of a second release . . . he shall be recommitted to the school and shall not be released therefrom on probation until he has remained in the school one year.

Each board of education shall maintain a permanent and continuing school census.

The director of pupil personnel of each district working under the direction of the superintendent of schools shall institute and maintain a complete, accurate, permanent, and continuous census of all children between the ages of six and eighteen that reside in the school district . . . . The school census shall specify the name, date of birth and sex of each child; the name, nationality, occupation, and post office address of each parent, guardian or custodian of the child; the school district in which the child resides; and the school to which the child belongs . . .[and] any other data required by the superintendent of public instruction."

Each director shall annually prepare a report "showing the number of children residing in the school district . . . that he[she] serves who will . . . be between the ages of six and eighteen. The report shall list children according to the schools to which they belong . . . and shall contain any other information required by the superintendent of public instruction. It[s validity] shall be sworn to before a notary public . . . ." The local board of education shall keep a duplicate copy and mail the original to the superintendent of public instruction.

"No . . . person shall . . . make a false report of the census to the superintendent of public instruction."

7. Schools For Delinquents

Statutes

§17:235

"It shall be the duty of all state agencies and institutions to cooperate fully with the visiting teachers. . .; and of the principals, superintendents, or heads of the training and correctional schools to notify the visiting teachers when a child is to be released and/or returned to a parish. Visiting teachers shall cooperate fully with the state departments of public welfare, labor, and health, with state and local agencies . . . with juvenile and family court authorities, training and correctional schools, law enforcement officers . . ., including interchange of confidential and privileged information . . . ."

§17:471

Persons employed by the Director of Institutions or the Louisiana Board of Institutions to provide educational instruction to inmates must hold a valid teacher's certificate issued by the department of education.

Teachers so employed shall serve a probationary term of three years and shall automatically become regular and permanent when this term is completed, unless a written recommendation from the Director of Institutions to dismiss/discharge the teacher is filed during or at the completion of the probationary period. Regular and permanent teachers employed by in-state institutions shall be removed from office only when found guilty of willful neglect of duty, incompetence, or dishonesty by a hearing of the Louisiana Board of Institutions. Any charges lodged must be written and signed, and the hearing shall be public or private at the option of the teacher charged. The Board of Institutions shall provide a copy of the charges to the teacher at least 15 days before the hearing. The teacher has full right to legal counsel of choice, to have any and all witnesses heard at the hearing, and to appeal an adverse judgment to the court of appropriate jurisdiction.

Statutes

Art. 77 §28

The state superintendent "shall approve any program of instruction offered by any State institution" under the supervision of the Departments of Juvenile Services, Correctional Services or Mental Hygiene. Upon approval the state superintendent shall issue a certificate of approval, which may be revoked for cause at any time. "Any such institution shall be open for inspection of such program . . . and shall furnish such information and reports" as may be required.

Art. 77 §93

The county board may establish "parental schools" for habitual truants or may agree with another county to jointly establish such a school. The juvenile court may commit habitually truant children to the school, but no person convicted of an offense other than truancy may be committed.

TRUANTS

Art. 77 §218

An Educational Coordinating Council for correctional institutions shall be under the jurisdiction of the Department of Public Safety and Correctional Services but administered and funded by the State Department of Elementary and Secondary Education. The Council shall recommend an educational program for each correctional institution. A director of educational programs within the Department of Public Safety and Correctional Services shall implement and operate the educational program.

Art. 77 §219

An Educational Council for state hospital and juvenile institutions shall be under the State Department of Elementary and Secondary Education. It shall recommend an educational program which shall be coordinated with the function of the facility as a whole and with the public school system. A director of educational programs within the Department of Health and Mental Hygiene shall implement and superintend these programs.

7. Schools for Delinquents

Statutes

127 §48

"The commissioner [of corrections] shall establish and maintain [academic and vocational] education . . . programs for persons committed to the custody of the department."

127 §92 A

"The department of education shall permit an inmate of a [state] correctional institution . . . who is eighteen years of age or over to take the general education development tests" without charge.

7. Schools for Delinquents

Statutes

§380.472

"The first class district . . . board may establish . . . and conduct a school for the purpose of affording a place of confinement, discipline, instruction and maintenance of [school age] children of the city . . . who may be committed to the school by a court of competent jurisdiction, or admitted on the judge's recommendation . . . with the consent of their parents or guardian. A child . . . convicted of an offense punishable by confinement in a penal institution shall not be committed or admitted to the school."

§380.628

The intermediate board may establish a school for school-age persons living "in children's homes operated by the juvenile division of the probate court or [living] at home but are assigned to the school by the juvenile division of the probate court." To operate the school, the intermediate "board may lease or purchase sites; build . . . or rent housing facilities, and employ" needed personnel. The "board may exclude pupils for reason of persistent misbehavior; classify and promote students for instructional purposes; and to all things necessary to . . . conduct . . . the school."

The intermediate board may "build or acquire real or personal property for" the inter-district's use and "may pay for the property out of [district] funds . . . which will or may become lawfully available." The board also may receive "any real or personal property or an interest therein for use in maintaining scholarships or other educational purposes, and . . . may act as trustee or custodian for the property."

The intermediate board may sell or lease unneeded real or personal district property, giving proper instruments passing title; may "dedicate . . . and convey land for highway purposes . . .; and [may] give easement for public utilities."

A school board other than a primary board may establish one or more ungraded schools for the instruction of pupils residing in the district who have been deemed juvenile disorderly persons, including habitual truants, children who, while attending school, are meaningfully turbulent, disobedient, and insubordinate, or who are immoral in conduct, and children who are not attending school and who habitually frequent public places and have no lawful business or employment.

7. Schools for Delinquents

Statutes

§120.15

"Boards may maintain ungraded schools for the instruction of children of the following classes between seven and sixteen years of age: "(1) habitual truants; (2) those incorrigible, vicious, or immoral in conduct; and (3) those who habitually wander about the streets or other public places during school hours without . . . employment. The board may compel their attendance at such school . . . and cause them to be brought before the juvenile court . . . ."

7. Schools For Delinquents

Statutes

TRUANTS

§127.091

The school board may establish special truant or parental schools for habitual truants and others who greatly deviate from the status quo and need special attention and instruction in any district with ten thousand inhabitants or more. Pupils may be assigned and compelled to attend these schools. These schools are to be maintained from public school funds. Ten dollars per month for support maintenance, clothing and other expenses shall be provided for each child from the city or county treasury.

7. Schools for Delinquents

CROSS REFERENCE

IV.G.; Statute §75-6313

7. Schools for Delinquents

Statutes

§79-212

District boards "may, with the approval of the Department of Education, establish . . . special schools for . . . children who cannot profitably or properly be cared for in the usual schools," such as a child "who is habitually truant or incorrigible." A child may be required by the district superintendent to attend such a school upon complaint of the parent or guardian, principal or attendance officer. Special schools must offer the basic instruction required by law, be the equivalent of other district schools in facilities and health conditions, and "be taught by teachers prepared by training and experience" to teach such children.

TRUANT

STATUTES

§388.550

"With the approval of the juvenile court and the board of county commissioners, the board of trustees of a school district may employ necessary legally qualified teachers for the instruction of children detained in" detention homes and juvenile forestry camps maintained by the county, and juvenile training schools established by the state.

§388.560

"Only courses of instruction approved by the state board of education shall be given in . . . detention homes, juvenile training schools or juvenile forestry camps. Necessary textbooks, equipment, and supplies shall be furnished by the school district."

§388.570

"The state board of education shall establish rules and regulations for the computation of average daily attendance of children detained in detention homes and juvenile forestry camps."

7. Schools for Delinquents

Statutes

§ 112

The education department shall establish and enforce standards of instruction, personnel qualifications and other requirements for education services or programs, with respect to children who are in the care of the division for youth, department of mental hygiene and department of social services.

CROSS REFERENCE

II.A.10.Other - Home School Program; Statute §4801 -- 4809, 4815

7. Schools for Delinquents

Statutes

§343.980

Educational programs for children living in or under the care of the children's services division juvenile training schools and camps must be approved by and meet the standards of the state board of education.

§420.011-.031

Admissions to juvenile training schools are limited to persons between the ages of 12 and 18 years who have been placed in the custody of the Children's Services Division. No child admitted to a juvenile training school shall be transferred by the administrative process to any penal or corrective institution. Those who are under 21 and are in the custody of the corrections division may be temporarily assigned to a juvenile training school; but would remain within the legal custody of the corrections division.

Traveling and other expenses shall be borne by the county from which the child was placed in the legal custody of the division.

The granting of legal custody and guardianship does not terminate the juvenile court's wardship over the child. Upon parole, the legal custody of the person is vested in her/his parents or other person to whom she/he is returned.

§420.055

The Children's Services Division may establish a research coeducational program and may use the assistance of professional personnel from other state agencies in establishing eligibility standards. The director of the program is responsible for the care and custody of all children admitted to the program.

§420.060-.074

Upon finding that the education and training of a student of a juvenile training school will be furthered if the student is permitted to work on a temporary basis, the superintendent may enter into an agreement with any suitable person or business establishment for the temporary employment of the student.

The superintendent shall continue to exercise appropriate supervision over the student during the period of his/her temporary employment.

Students temporarily employed are entitled to the protection and benefits to the same extent as other employees of their employees under 21 except that payment of wages shall go directly to the superintendent and compensation that is not expended on medical services shall be placed in a trust account.

§420.120

The MacLaren School for Boys is a training school for males under 21. The administrator shall equip, conduct maintain and supervise the school in the same manner as he/she does other institutions within the Children's Services Division. Other officers or employees shall use their best efforts to the end that the youths are trained and developed into useful members of society. The chief objects of the school are educational and reformatory rather than penal.

The superintendent, subject to the approval of the administrator, may appoint an assistant superintendent.

§420.210-235

The superintendent of the MacLaren School for Boys with the approval of the Administrator of the Children's Services Division may establish one or more temporary work and training camps for any boys committed to the MacLaren School for Boys who are determined by the superintendent to be qualified and amenable as security risks for work and training in such camp.

Camps established on a temporary basis shall be maintained and operated under the supervision of the superintendent and shall be governed by the rules and regulations concerning discipline, care and education of the MacLaren School for Boys.

While at a camp the superintendent is responsible for the care and custody of all boys assigned to the camp. The same educational, training, religious, cultural and medical facilities that are available to the boys at the MacLaren School for Boys shall be provided by the superintendent.

Any boy who violates the rules and regulations relating to discipline of a camp or who appears to the superintendent to be a bad security risk may be returned to the MacLaren School for Boys on order of the superintendent.

§420.320

The Hillcrest School of Oregon is a training school for females under 21. The administrator shall equip, conduct, maintain and supervise the school in the same manner as he/she does other state institutions. The school shall provide an academic and vocational education to its students and promote their mental, physical and moral welfare.

§420.500

No student of a juvenile training school may be transferred to an institution for the mentally ill or deficient for a period of over 14 days unless she/he has been committed to an institution for the mentally ill or mentally deficient.

§420.810-.840

Children in the legal custody of the Children's Services Division, who in their opinion have made sufficient progress in rehabilitation and reform, may be placed in foster homes.

The Administrator of the Children's Services Division or his/her representative may enter into agreements with persons or families found suitable for the placement of children in the legal custody of the Children's Services Division.

The agreement shall provide for the custody, care, education, maintenance and earnings of the child placed for a time fixed in the agreement but not to exceed the time when the child reaches the age of 21 years. The Children's Services Division shall make necessary payments to persons assuming foster care.

The Administrator of the Children's Services Division or representative shall visit foster homes, ascertain whether the children are properly placed and make reports to the Administrator or his/her designated representative concerning the investigations and visits.

The child may be returned to the juvenile training school, or re-placed if, in the opinion of the Administrator or his/her authorized representative, the child would benefit by removal from the foster home.

No parent or other person not a party to the placement agreement shall interfere with or assume any control over the placed child.

The Administrator of the Children's Services Division or his/her authorized representative may cooperate with other child welfare agencies in placement of students of juvenile training school in foster homes.

CROSS REFERENCE

III.B. Teachers; Statute §342.174

7. Schools for Delinquents

Statutes

§13-1375

The State Board of Education shall establish standards for temporary or permanent exclusion from the public school of children who are found to be uneducable and untrainable in the public schools." Any child so reported by a certified public school psychologist may be reported to the Superintendent of Public Instruction and when approved by him/her, shall be certified to the Department of Public Welfare as such a child. When thus certified, "the public schools shall be relieved of the obligation of providing education or training for such child." The Department of Public Welfare shall arrange for the care, training and supervision of such child.

7. Schools for Delinquents

Statutes

§29.01--.02

"The board of corrections may establish and operate schools at the various units of the Department of Corrections. All persons incarcerated at the Department of Corrections who are not high school graduates are eligible to attend such schools."

7. Schools for Delinquents

Statutes

§53-26-2 -- 53-26-7

Local boards of education of any city may establish "special schools and classes." Children between eight and eighteen who are not receiving the "training and education" they need, or who have become or are in danger of becoming "delinquent, dependent or neglected," shall be transferred to such a special school. The cost for keeping the children "shall be wholly paid by their parents." The local boards of education shall appoint a "school attendance officer" and a "clinical psychologist" to carry out these provisions.

7. Schools for Delinquents

Statutes

§16.1-181

Whenever the court commits a child to the State Board of Corrections or to any other institution or agency, the court shall transmit with the order of commitment a summary of its information about the child. The State Board shall be responsible for any child when it receives the order and summary. All local school boards shall furnish the State Board promptly any information on a child requested. The State Board shall furnish local school boards any academic, vocational, and related achievement information requested when the child is returned to the community from the State Board's care. The State Board and other institutions or agencies shall furnish the court any information on a child when requested.

§22-41.1; 22-41.2

The Rehabilitative School Authority shall be composed of all the educational facilities of all institutions operated by the Department of Corrections.

The board shall supervise the School Authority. It shall be composed of seven members appointed by the Governor, subject to confirmation by the General Assembly. No member shall serve more than two consecutive four-year terms. The chairman of the Virginia Parole Board, the head of the Division of Adult Services, the head of the Division of Youth Services and the director of Vocational Education in the Department of Education shall be ex officio members without vote.

§22-41.3 -- 22-41.7

ADMINISTRATION

The School Authority, through the board, shall operate a system of schools including elementary, secondary, post-secondary, vocational, technical, adult and special educational schools for persons committed to the institutions composing the School Authority.

The board shall have the following powers and duties:

To adopt regulations for operation of the schools;

To appoint and set compensation for a superintendent who meets Board of Education minimum standards; to adopt regulations for payment of personnel; to establish schools of the appropriate grades, levels and types; to adopt regulations for admission of pupils; to enter into agreements with private entities or public or private schools; to employ teachers on recommendation of the Authority superintendent; to prepare a budget to submit to the General Assembly; to receive and disburse funds; and to comply with State and federal regulations and statutes.

REGULATIONS

Children in Custody of the State Board of Corrections Served by the Rehabilitative School Authority Education and Training of, §I-II

Children ages 2-21, of Virginia in residence or in custody of a State board, agency or institution are, by definition special individuals with specialized needs, and appropriate eductional programs should be planned and provided to meet the specific education and training needs of all children.

Children in Custody of the State Board of Corrections, Served by the Rehabilitative School Authority, Education and Training of, §III

FIVE YEAR PLAN

The Board of the Rehabilitative School Authority shall submit to the Board of Education by January 15 of each year an acceptable five-year plan for the education or training of all children in residence or on custody.

The board shall maintain an up-to-date policy manual. There shall be an Educational Advisory Committee for the board which includes individuals from the community, public agencies, parents, educators and correctional staff appointed by the board. Advisory Committee responsibilities shall include providing recommendations regarding educational planning, program andphilosophies.

There shall be provided to each school age child at least five hours of education and training per day for the implementation of the educational plan.

There shall be at least one teacher and one teacher

aide for every ten children.

EVALUATION

There shall be at least an annual evaluation of the educational progress of each child to determine the effectiveness of the educational plan and to make recommendation for modification of that educational plan.

II.A.10.Other - Educational Programs for Institutionalized Children; Statute §22-9.1:04

7. Schools For Delinquents

Statutes

§72.05.104

The department of social and health service, "in order to provide educational facilities for persons admitted or committed to any state school or institution, may: (1) "enter into an agreement with the local school district"; or (2) provide a comprehensive school program in connection with any institution as if that institution were itself a local school system.

In the event that either option is exercised, all teachers shall meet all certification requirements and the program shall conform to the usual standards defined by law or state regulation.

8. Adult Education

8. Adult Education

Statutes

§16-34-1 -- 4

It is the responsibility of the state board of education to eradicate illiteracy in Alabama. The board is given authority to conduct research and collect data in this cause. County and city boards of education shall cooperate with the state board of education in carrying out this task. The state board of education is authorized to maintain adult education programs.

CROSS REFERENCE

I.City Board of Education; Statute §16-11-23

3. ADULT EDUCATION

REGULATIONS

4AAC 39.040

"District school boards offering secondary education programs for adults, may issue certificates of completion or diplomas provided the program standards for graduation meet those prescribed by the commissioner."

DIPLOMAS

8. Adult Education

Statutes

§15-328--329

A school district with 15 or more employed children shall establish a part-time school or class. The school shall offer instruction at least five hours per week, and shall be governed by the state board of education.

§15-921

The board of education of a high school or union high school or the board of trustees of a common school may establish an evening school if they deem it necessary. Children between fourteen and twenty-one may be admitted. Persons over twenty-one must pay tuition.

TUITION

§15-1041

A division of adult education is established which shall: (1) prescribe curriculum for adult classes in the public schools; (2) adopt rules and regulations for adult and immigrant education; (4) establish classes for English instruction for foreigners; and (5) make provisions to enable students to pass a high school equivalency test.

§15-1042

In any district with fifteen or more non-English speaking adults, the board of trustees may establish a night school for teaching English.

ENGLISH LANGUAGE INSTRUCTION

§15-1043

State appropriations for adult education may be expended by the Department of Education and by the school district if they apply and meet standards established by the State Board of Education.

§15-1141; 1143; 1145

The state board of education may accept and administer federal funds for the reduction of illiteracy, education of immigrants or other purposes outlined herein. School districts with emergency needs may apply for federal funds. If any school district uses funds for some other purpose than described herein, the State board shall withhold its funds.

CROSS REFERENCE

III.B.Teachers; Statute §15-233;234

8. Adult Education

Statutes

§80-227

The County Board of Education may set up an "Opportunity School Fund" to teach illiterate adults in the district. However, no opportunity school shall be established where the average daily attendance of illiterate adults is less than twelve and the cost of the school exceeds $2 per year per pupil.

§80-1645

"The State and/or local school districts are authorized to spend . . . tax funds for Adult Education of less than college grade."

IV.J.; Statute §80-1656

8. Adult Education

Statutes

§8500; 8530 -- 8537

This section deals with adult education as essential to the needs of society in an era of rapid changes so that all adults are entitled to quality public supported continuing education opportunities.

Adult basic education is the responsibility of high school and unified school districts, as is the high school diploma program. Vocational and occupational training and retraining programs for adults may be available in high school, also.

DIPLOMA

Other types of education available through the high school, related to continuing adult education are parent education, consumer education, civic education, etc.

Agreements may be made and transfers carried out in the pursuit of continuing adult education.

§46190 -- 46192

In classes for adults (including classes maintained in county jails, industrial farms or wood camps), a day of attendance is 180 minutes. No student shall be credited with more than 15 clock hours of attendance during one school week unless enrolled in a class in elementary subjects, a class for which high school credit is given, a class in English for foreigners, a class in citizenship, or a class in a trade or industrial subject.

SCHOOL DAY

Each clock hour of teaching time devoted to the individual instruction of physically handicapped adults in a tuberculosis ward or hospital shall count as one day of attendance,but not more than one day of attendance shall be credited in any calender day.

§48401

Complaints that a district is failing to provide continuation education classes as required shall be presented to the county superintendent. If the county superintendent finds the complaint justified, he/she shall

forward it to the state superintendent who shall take steps to enforce compliance.

§52501 -- 52518

The governing board of any school district maintaining secondary schools shall have power with the approval of the Department of Education to establish classes for adults, except classes in outdoor science education and conservation education.

If such classes result in average daily attendance in any school year of 100 or more, such districts shall establish an adult school.

COURSE OF STUDY

Classes for adults: shall conform to any course of study and graduation requirements otherwise imposed by law, may be convened at such hours and for such length of time, and at such period and for such length of time during the school year as may be determined by the governing authority; may be held on Saturday and Sunday; and may be maintained in conjunction with day or evening high schools, community colleges, adult schools, or regional occupational centers.

High schools maintained in any state institution for adults or in any city or county jail, road camp, or farm shall consist only of classes for adults.

The Department of Education shall establish standards including standards of attendance, curriculum, administration, and guidance and counseling service for adult classes as a basis for state apportionments.

A governing board maintaining an adult school shall have authority, with the Department's approval, to establish a prescribed elementary course appropriate for adults.

DIPLOMA

A governing board maintaining an adult school may establish graduation requirements and grant diplomas or other certificates of achievement to adults upon their satisfactory completion of either an elementary or secondary course of study.

Whenever a governing board maintaining adult classes is unable to maintain them in the district because

of its inability to secure teachers or its lack of facilities, the board may, with the approval of the county superintendent and the state superintendent, maintain the classes elsewhere than within the district or contract for adult instruction with the governing board of another district.

No state funds shall be apportioned to any districts on account of attendance in adult schools unless the courses have been approved by the Department of Education.

No adult classes shall be maintained by any district: if the district receives compensation for such class from any public or private agency, individual or group, except fees authorized by §52612 and state and federal apportionments; if the classes are not open to the public; if the pupils are paid for such attendance; or if the cost of such class is paid entirely from federal funds.

No adult classes in dancing or recreational physical education shall be maintained by any district for which the district receives money from the State School Fund.

§52540--52544

Upon application of at least 20 persons above the age of 18 years residing in a high school district who cannot speak, read, or write English at an eighth grade level, the governing board shall establish classes in English. The board may establish classes without demand and with a lesser number of students, but may discontinue a class if enrollment falls to 10 or less for a one-month period. Application for classes shall be made in time to permit the board to arrange to meet the expenses of the class.

Classes shall be held at least twice a week for a two-hour period.

§52570--52572

The governing board of any school district maintaining secondary schools or a county superintendent shall have the power, with the approval of the Department of Education, to establish special classes for handicapped adults. Attendance in such classes established by the county

superintendent shall be credited for apportionment purposes to the county school service fund.

Special classes for handicapped adults may be conducted in workshop and training facilities provided by nonprofit organizations or in public school facilities.

A governing board or county superintendent may contract for the providing of such classes by any adjacent high school or unified district, subject to the state superintendent's approval. For apportionment purposes, average daily attendance in such contracted classes shall be credited to the district in which the student resides. Any such contract shall be for a term of not to exceed one year but may be renewed or revised annually.

§52612--52615

TUITION

An adult enrolled in adult classes may be required by the governing board to pay a tuition. The total of tuition required and state apportionments shall not exceed the estimated cost of such classes.

No charge shall be made for a class in English and citizenship for foreigners or a class in an elementary subject, and no tuition charge shall be made for a class for which high school credit is granted when the student does not hold a high school diploma.

A governing board may establish a bank account for each school of the district maintaining adult classes into which fees collected from pupils in such classes shall be deposited. Such fees shall be expended only for materials or services for the operation of such classes and activities of particular benefit to pupils in adult classes. The governing board shall designate an employee of the district to have custody of this incidental expense account.

The governing board may provide for the sale of materials purchased from the incidental expense account to pupils in adult classes, for use in such classes. The proceeds shall be deposited in that account.

§10500

All classes for adults shall have an educational purpose. Recreational classes are not permitted. Adult schools and classes must be approved each year by the Bureau of Adult Education. No class will be approved for summer school or during the regular school year which does not comply with the regulations of this article.

§10530

COUNSELING

Counseling and guidance services must be provided for adult schools. Classes shall be conducted for two hours per day, four days per week for not less than 128 days per year. A general or vocational curriculum shall be offered.

§10562

In a school district maintaining an adult student population of 100 or more average daily attendance, a separate adult school may be established. The administrator shall be a properly credentialed person.

§ 11004

Continuation high schools shall be established, by approval of the State Department of Education, as separate administrative units.

A principal shall be appointed who holds the necessary credentials and may serve as the director of continuing education if he/she holds an administrative credential.

The curriculum provided will enable students to meet graduation requirements described in Education Code Section 8574. School shall be conducted at least 175 days each school year.

§ 11010

Application for exemption from maintaining continuation education classes, as permitted by Education Code 5952, shall desicribe the district's plan to provide instruction for such pupils.

8. ADULT EDUCATION

STATUTES

§10-52

A regional district may provide adult education for the towns in the district and shall be eligible for reimbursements from state funds. All students from outside the regional school district shall pay tuition. TUITION

§10-63b

The state board of education shall initiate and encourage adult education programs for persons aged 16 or over whose inability to speak, read or write the English language impairs their ability to obtain employment. The programs shall attempt to eliminate this inability and to raise the general educational level of participants. ENGLISH

"Any town or regional school district . . .shall be eligible to receive grants under this section as specified in the state plan. The state board of education may expend . . . not more than five per cent of any state funds granted to said board for such programs."

§10-68

Any board of education may appoint a director of adult education and shall pay his/her compensation. His/her salary shall be certified by the superintendent. APPOINTMENT

§10-69

Each school district shall establish an adult education program or provide adult education services through cooperative arrangements with another school district. An "adult" is anyone over 16 who is not enrolled in school. Full-time students may not enroll in adult education courses without the permission of their principal. ADULT

The adult education curriculum shall include instruction in "Americanization and United States citizenship and elementary and secondary school completion programs." CITIZENSHIP

In any town where adult classes and activities are established the board of education shall provide rooms and other facilities and employ the necessary personnel. The board shall exercise the same powers and duties with regard to adult education as it performs for public schools.

REGULATIONS

CH. IV, §415

"The Board of Education is the District of Columbia agency responsible for the administration of the General Educational Development (GED) tests. The Board of Education shall approve the issuance of the District of Columbia High School Equivalency Certificate pursuant to statutory requirements, the mandatory requirements of the Commission on Educational Credit of the American Council on Education, and the provisions of this section.

Approval of the issuance of equivalency certificates by the Board of Education shall be based upon certification by the Superintendent of Schools to the Board of Education for approval.

The Board of Education shall also provide GED testing and certification services to persons incarcerated or confined in institutions located in the District of Columbia or operated by the District of Columbia outside the boundaries of the District of Columbia.

The Board of Education shall also provide GED testing services in braille, large print, or on cassette tapes for visually impaired persons. GED tests shall be given in English and Spanish.

The civilian restricted forms of the GED tests shall be administered by the Board of Education only to such students who demonstrate a "serious need" to take the tests as defined by the American Council on Education. Such tests shall not be administered to high school graduates or administered for any purpose prohibited by the American Council on Education.

Applicants for the GED testing and certification program must be residents of the District of Columbia, as defined in section 400 of this Chapter, at the time of application and examination. Upon request, an applicant must present satisfactory evidence of residency

Nonresidents of the District of Columbia who are otherwise qualified may apply and receive GED testing and certification in the District of Columbia if they qualify under any one of the following criteria: (a) The last school attended by the applicant was a public or non-public school located in the District of Columbia AND the applicant submits written certification of such attendance issued by an official of the school attended; or (b) The applicant is currently serving as a member of the Armed Forces of the United States on active duty assignment in the District of Columbia; or (c) The applicant is a trainee in a program sponsored by the government of the District of Columbia; or the Fedeal government which is operated in the District of Columbia.

Applicants for GED testing and certification must be at least eighteen...years of age OR be at least sixteen...years of age and meet any one of the following criteria: (a) The applicant has been out of a formal classroom situation for a period of not less than six...months prior to submitting an application; or (b) The applicant was a member of a high school class which has already graduated; or (c) The applicant has dropped out of a regular school program without re-enrollment for a period of not less than six ... months, during which time the applicant has been enrolled in a GED preparatory class; or (d) The applicant is certified by a training program sponsored by the government of the District of Columbia or the Federal government as being an active applicant for or enrollee in a manpower program AND that training or job placement is imminent AND that the equivalency certificate is necessary in connection with such training or job placement; or (e) The applicant has not regularly attended school and submits a written request by a manpower or employment training service that the applicant be allowed to take the GED test.

The content of the GED tests administered by the D.C. Public Schools shall be determined or supplied by the GED Testing Service of the American Council on Education.

The minimum standards for qualification for issuance of a D.C. High School Equivalency Certificate shall be as follows:

(a) An average standard score of 45 or above on all of the tests in the GED test battery; AND (b) A minimum standard score of 35 or above on each of the tests in the GED test battery.

Applicants who have taken the GED test battery and failed to meet the minimum standards for qualification may apply to re-take the tests after the expiration of the applicable waiting period, as follows: (a) Three . . . months, if the applicant has been enrolled during such time in an organized educational program, acceptable to the administrator of the GED program, which is designed to prepare persons for taking the GED tests; OR (b) Six . . . months. . . ."

8. Adult Education

Regulations

6A-6.10

School boards are authorized to establish schools, classes, or courses, or otherwise provide for the general educational needs of adults, utilizing existing public school facilities and other appropriate faculties available for such purposes locally.

6A-6.12

The organization and administration of the adult education programs shall guarantee that the education and services are identified and provided in an effective and economical manner. One of the following plans shall be submitted to and approved by the director of vocational education: Plan #1 has the program operating under the immediate direction of the superintendent. Principals appointed by the school board shall have administrative responsibilities. General supervision is given to the general supervisor of instruction. Plan #2 operates under a director of adult education. It is administered and supervised at the community level by qualified principals who coordinate their work with the regular day faculties. Plan #3 operates under a director of vocational and adult education who is certified in administration or supervision of secondary education. Where the program is too big, a full- or part-time supervisor will be employed to give supervision to the program. Under Plan #4, the program functions as an arm of a community junior college. The president has the responsibilty of the general care, control and supervision of the program.

6A-6.13 COURSE OF STUDY

The adult education program shall be developed and adjusted on the basis of systematic and continuing study of the community and of its people. Adult education shall consist of elementary education courses such as reading, arithmetic spelling, secondary education courses for adults, community service courses for adults.

6A-6.14

ELIGIBILITY

The following requirements shall apply: Facilities most appropriate for the group concerned and most conducive to the instruction involved shall be utilized. Enrollment shall be limited to individuals who have legally left the elementary or the secondary school. However, students of compulsory school age may be assigned to the program where the child is shown to have such a need that he/she would be better served by the adult education program, both educationally and socially. Fees may be charged where approved by the board to supplement the funds allotted by the board. Adult education classes must be taught by qualified teachers.

6A-6.20

ACADEMIC CREDIT

School boards shall adopt policies setting forth the conditions and establishing the bases for granting high school credits and high school diplomas to adults on the basis of prescribed work completed in the adult education program of the district. Minimum requirements include a minimum of sixteen credits not including physical education. Eight units of these must be from the academic fields of English, math, natural science, and social studies. One credit must come from either American history or government. A minimum of 30 hours of class instruction in Americanism v. Communism is also required.

High school credit may be awarded to adults on the basis of their achievement on standardized tests. The level of subject matter required of the adult shall be at least as high as that customarily required of individuals who have completed the full term of instruction in the high schools of the state.

High school credit may be awarded for educational experiences in the armed forces of the U.S. under the specified conditions.

8. Adult Education

Statutes

§32-417

"The said Board should regulate all operations of gifts and grants that are subject to public scrutiny. The State Board of Education shall receive moneys available from federal grants to provide education of non-college grade for persons above the age of 18 years."

§32-608a

"The State Board of Education shall maintain an adult general education program within the State. This program shall provide instruction in basic skills and subjects to individuals 18 years of age and older who have left school and who have less than an eighth grade education or its equivalent . . . Priority shall be given to elimination of illiteracy in the State and to the attainment of a General Educational Development (GED) equivalency diploma . . . .

To be eligible for state and federal funds, all programs shall be operated in accordance with the State Board of Education policies, regulations, and standards."

ILLITERACY

§32-2401, 2402

"It shall be the duty of the State Board of Education . . . to . . . promote the establishment of schools for adult illiterates . . . [and] . . . aid in the elimination of the adult illiteracy of the state, and do or perform any other act which in their discretion will contribute to the elimination of the state's adult illiteracy by means of education, instruction and enlightenment . . . The State Board of Education shall adopt such rules and regulations as may seem expedient to it for the carrying on of its business in regard to adult illiteracy."

RULEMAKING

§32-2501

"The county commissioners . . . shall have authority in their discretion to provide for the carrying on in their respective counties of schools for instructing adult illiterates in the elementary branches of an English education only."

§32-2503

Where other officials do not act to establish schools for adult illiterates "the county boards of education shall have the power in their discretion to establish and conduct such adult schools and provide for the expenses of maintaining said schools out of any school funds which may be available for that purpose."

REGULATIONS

30-911

"The elimination of adult illiteracy is a primary goal of the . . . State Board of Education . . . (which) has the legal authority . . . to provide for a program of adult education."

The State Board encourages local school systems, junior colleges, vocational-technical schools and other state agencies to cooperate in developing adult education programs. Programs shall be open to all adult residents of the state. "Services shall include adult basic, secondary and general education for individuals 18 years of age and older whose basic educational deficiencies impair their ability to obtain employment. . . . Career education shall be stressed at all levels and vocational education at the entry, re-entry and advancement levels will be provided" as needed.

With State Board approval, a local board of education may individually or cooperatively "operate Adult Basic Education and Adult Secondary Education programs." Local school boards may receive "state and federal funds . . . to support the education of adults

. . . whose inability to speak, read or write the English language" make it difficult for them to obtain employment. Private schools are not eligible for state and federal funds.

State and local advisory committees . . . shall be appointed by the State Superintendent and the administration of the local boards respectively."

The State Superintendent shall annually evaluate and report to the State Board on the "effectiveness and relevance of services."

30-920

"The Office of Adult and Vocational Education shall develop . . . and operate a State Plan for Adult Education . . . to be evaluated at least annually." It shall include procedures and criteria for distributing funds, criteria for local plans, eligibility criteria for adult education enrollees and criteria for selecting personnel, "provisions for pre-service and in-service education for local and state . . . personnel . . . (and) for a reporting mechanism for local school systems, . . . (and) provisions for state consultative assistance to local school systems."

The State Superintendent is authorized to approve "local system plans which meet the requirements contained in the approved State Plan for Adult Education. The local plans shall provide for an assessment of needs, supervision, implementation and evaluation."

CROSS REFERENCE

"To provide increased opportunity for the people of Hawaii, the department of education shall establish and regulate a program of adult education of less than college grade, to be conducted . . . in public school buildings and use public school equipment . . ."

§301-2

"As rapidly as facilities are available and interest is developed, courses shall be initiated in the following fields:"

1) "Basic elementary education;"

2) Advanced elementary education

3) "Secondary education"

4) "Homemaking and parent education' "for all those . . . adults who desire training in family life, including child care, nursing, budgeting . . ."

5) "Civic training" "A program of understanding and enlightenment in civic duties . . ."

6) "Naturalization training" for "those who have filed applications for U.S. citizenship"

7) "Cultural opportunities" to ". . . meet the interests and desires of . . . people."

§301-3

APPOINTMENT

"The department of education shall appoint an advisory council for adult education comprised of fifteen or more representatives of industry, labor civic organizations and education."

§301-4

The programs shall be financed from a combination of student fees and public funds. "Fees shall be set in accordance with the recommendations of the advisory council, . . . provided that":

1) "Registered" unemployed adults "shall be granted free enrollment in such courses as will tend

to assist in securing employment;"

2) "Certified" indigent adults shall be granted free enrollment "in classes that tend to assist such persons in becoming self-sustaining;"

3) Eligible veterans will be permitted to use Veterans Administration funds;

4) Any costs not covered by the fees "shall be paid for out of [state] funds appropriated for this purpose."

§394-2

The department of education shall assist the department of labor and industrial relations in its efforts to establish manpower development and training programs, by providing instruction and training to those unemployed and underemployed individuals eligible to receive it.

REGULATIONS

Rule 43

HIGH SCHOOL CERTIFICATE

A high school certificate may be earned through adult education schools by earning the same number of credits required for graduation from the regular high schools, or by achieving satisfactory scores on a test administered by the adult school and on the General Educational Development Test.

8. Adult Education

Statutes

§33-1607

Local boards are "authorized to provide instruction for Americanization of adult residents of the state, including . . . reading, writing and speaking the English language, . . . the Constitution, American history, and . . . other subjects."

Regulations

Accreditation Standards For Secondary Schools:
ADULT EDUCATION CRITERIA

"(The following criteria are applicable and available to those high schools in which the adult program is an extension of a regularly accredited high school program.)

ENROLLMENT

"1. Adult Students. Enrollments may be extended to persons 17 years of age or older who are not enrolled in a regular day school program. Students under the age of 17 years may be admitted upon approval of their present or previous high school principal or other authorized school official.

COURSE OF STUDY

"2. Curriculum and Schedule. The adult high school curriculum should approximate the local basic distribution of courses required for graduation. However, the program should also encompass characteristics consistent with the more mature needs, interests, opportunities, and responsibilities of adults. Courses of study should reflect in depth and content the intellectual, social, vocational, and emotional experiences of adults.

"For adults, high schools should offer a flexible program of studies based on daily, weekly, and semester schedules which best meet the educational needs of students. Special care should be taken to minimize conflicts with work schedules, family responsibilities, and similar obligations of adults.

"3. Units of Credit. A unit of credit for adults shall be awarded for knowledge, skill, or competency equal to that required to earn credit in an equivalent course in a regular accredited secondary school.

4. Awarding of Credit. In addition to credits previously earned and documented by transcripts at grade nine or higher, the adult courses should gain credit in the same pattern as the secondary unit requirements.

5. Professional Staff. The regulations and requirements for professional staff shall be the same as for the secondary unit except for non-credit courses. The qualifications of teachers shall be subject to the discretion of the local governing board.

6. Counseling and Library Services. Schools with adult programs shall provide adequate counseling services for the effective formulation of realistic individual programs of study. Library facilities and privileges shall be made available to adult students."

CROSS REFERENCE

IV.D; Statute §33-1512

8. Adult Education

Statutes

§13-1 - 13-9

Where more than twenty children between the ages of 16 and 18 in a school district do not attend regular school sessions because they are employed, the school board "may establish and maintain part-time or continuation schools in classes for such children" in accordance with standards established by the State Board of Vocational Education.

It shall be the duty of the child's parent or guardian to "cause the child to attend [the] school or class." In the event of a willful failure to comply the parent or guardian "is guilty of a misdemeanor." Further, the child's employer "shall permit such child to attend such school or class" and, similarly, shall be guilty of a petty offense in the event of willful non compliance.

"[S]chool officials charged with the responsibility of enforcing the compulsory attendance laws shall be responsible for the enforcement of attendance."

§201-1 - 203-3

The State Board of Education may, "[f]or the purpose of promoting and establishing special classes for the instruction" of persons less than 21 not in regular school and of persons over 21, "contract with other state agencies to accept and expend appropriations given . . . for educational purposes in order that the agencies may reimburse school districts, having adult education programs.

The State Board shall also "establish standards for and supervise the development of bilingual, adult vocational and educational programs" in districts where there is a "substantial Spanish-speaking population."

Regulations

<u>The Illinois Program for Evaluation, Supervision, and Recognition of Schools</u>

Ch. 4-7

Local school districts, shall provide for the edu-

cational needs of adults under 21 years of age who wish to re-enter high school to acquire a high school diploma or an equivalency certificate. Local boards of education may permit other adults to re-enter high school under this provision.

Local school districts may establish special classes for the instruction (1) of persons age 21 years or over, and (2) of persons less than age 21 and not otherwise in attendance in public school, for the purpose of providing adults in the community and youths whose schooling has been interrupted with educational programs appropriate to the needs of the individuals.

Local school districts, as provided in a definite policy of the boards of education, may offer credit through proficiency testing, correspondence courses, military experiences, life experiences and other nonformal educational endeavors.

Adult Classes Approved for Reimbursement and/or Awarding High School Credit

Section 1

a. Establishment; Authorization. Before tuition support shall be awarded or high school credit granted for adult education, the local school authority must obtain special authorization from the Indiana State Department of Public Instruction (ISDPI)

b. Inspection. All classes shall be subject to inspection by the ISDPI.

Section 2

School corporations shall be reimbursed for adult classes on the same basis as regular classes. This reimbursement shall not be less than the total cost for instruction nor more than that sum plus the total cost for support services.

Section 3

a. Certified Teachers. All classes shall be conducted by certified teachers

b. Adult Student Services. "Administrative, counselling and guidance and other ancillary services shall be furnished."

Section 4

Local school administration shall determine the amount of time and work necessary for a unit of credit, provided that no class in which credit is awarded shall provide less than 42 clock hours of instruction, with the following exceptions:

a) Approved Examinations. Approved examination may be used to grant credit in lieu of coursework. Such examination should cover the content ordinarily included in a high school course on the subject. Such exams should be approved in advance by ISDPI.

b) Work and/or Non-School Experience. Credit may be granted (up to 2 units) for work and/or non-school experience. A local evaluation course composed of the local superintendent, the principal of the existing school, the local director of adult education and an area teacher of the course for which credit is requested, must pass on such experience.

c) Vocational Subjects. Vocational subjects, unless qualifying under Rule G-1, are excluded from this stipulation. Credit granted under the above sections "must meet the State Plan requirements for Vocational Education. . .if reimbursement from state funds is anticipated."

Section 5

Students over 16 may be authorized by the local superintendent to enroll in adult classes.

Section 6

Annually, on or before July 1, the Department shall provide guidelines for the implementation of this rule.

CROSS REFERENCE

I. State Superintendent; Regulation §I, Ch. 2.c.

II.A.3.; Statute §20-10.1-6-4 -- 20-10.1-6-5

II.A.10 Other - Alternative Programs; Regulation §II, Ch. 1, Rule M-1

§259A.2

All applicants for the high school equivalency diploma must be eighteen years old, and not currently enrolled in any secondary school.

DIPLOMA

§259A.5

"The superintendent of public instruction" shall adopt all rules, regulations, and tests for administering the high school equivalency program.

RULEMAKING

§288.1

The board of directors of any school district may establish "public evening schools" when deemed advisable "for the public convenience and welfare."

§288.2 -- .3

When an evening program is requested, in writing, by ten or more persons over sixteen years of age, "the board shall establish and maintain an evening school ... for not less than two hours each evening" for at least two days each week. Any person, over sixteen, who cannot attend the public day school, shall be admitted.

§289.1

In any city of twelve thousand or more, in which there are more than fifteen children between the ages of fourteen and sixteen who are not in regular attendance in a full-time school, the local board of directors of the school district "shall establish and maintain part-time schools ... for such children."

§289.3

Part-time schools or classes shall be organized according to the standards set for vocational education "and shall provide not less than eight hours of instruction per week" during the regular school term.

§289.5

The state board for vocational education shall "fix standards for ... part-time schools, ... or classes; fix the requirements of teachers, and ... approve courses of study ...".

§289.6 -- .7

When a part-time school has been established, parents of children between 14 and 16, who work, must send their children to same, and any violation will be punished by a fine. Any person unlawfully employing a child eligible for part-time school shall be punished by fine or imprisonment. Enforcement shall rest with the local districts, the state department of public instruction, and the state board for vocational education.

8. Adult Education

Statutes

§72-4518 -- 72-4519

The state board of education is hereby designated as the agency for administration of adult basic education programs, and for supervision of the administration of such programs by boards of education of any school district.

The state board shall allocate funds for adult basic education programs.

§72-4520

Each board, or two or more boards, may administer an adult education program which meets state board standards. In order to receive state and federal funds for the program, it must be approved by the state board.

§72-4525 -- 72-4526

TUITION

Any board establishing an adult supplementary education program may charge tuition or fees to offset expense in part or in total.

Teachers shall have known competence in the subjects taught, and must be certified only where general education subjects are taught for grade school or high school credit.

The board shall issue a certificate of accomplishment to every student completing an adult basic education program, certifying the subjects studied and the accomplishments made.

8. ADULT EDUCATION

CROSS REFERENCE

II.A.4.; Statute §158.090

§17:14

"The board and superintendent shall establish and maintain within the State Department of Education a separate division, . . . designated as the division of adult and community education," adopting the rules and regulations necessary to establish and operate a statewide adult and community education program on the elementary and secondary levels "to eliminate illiteracy" and to provide adults the opportunity to earn elementary certificates and high school equivalency diplomas. The various parish and city school boards shall operate the programs with an allocation of funds from the state education department, subject only to the overall administration and supervision of the division of adult and community education. "The State Board shall approve the plan of operation for developing and implementing all adult and community education programs." The superintendent shall appoint the director of the division of adult and community education.

RULEMAKING

DIPLOMA

§17:291 -- 293

"In order to increase the academic, civic, and vocational intelligence of all employed boys, aged fourteen to sixteen, and of all employed girls, aged fourteen to eighteen, who have not completed the requirements for graduation, . . . the legislative authority of all incorporated cities, towns, and villages . . . may establish and provide, by ordinance, . . . part-time schools and classes and the part-time education, training, and guidance for all such employed children."

The ordinance provides that the school board of a parish "shall have the power of administration, supervision and control over the part-time schools and classes, the type and kinds of training, the methods of instruction, the subjects to be taught, the special training of teachers, the manner and form of the administration, supervision and control, and all other matters . . . .

General supervision of their schools shall be exercised

by the state board of education."

Not less than 144 hours of instruction shall be given each student; all part-time classes shall be held between nine in the morning and five in the afternoon; the children's employers shall set the hours when the children may receive part-time instruction, and shall release them during those hours for the purpose of instruction. Compulsory attendance shall be enforced in the part-time schools or classes.

"Time spent in such instruction shall be reckoned as part of the time or number of hours of work permitted by law."

REGULATIONS

Policy and Procedure Manual of State Board of Elementary and Secondary Education, 3.07.00

The State board of education adopts a comprehensive program to wipe out illiteracy and functional illiteracy. It shall test all functional illiterates to determine actual grade level. Those who meet appropriate requirements will be issued a sixth grade equivalency certificate and removed from the rolls of the functional illiterates. Adults who have completed less than five years of formal schooling will be recruited for participation in the program.

TESTING

CERTIFICATE

Persons who have never graduated from high school but who have satisfactorily completed the college entrance exam, have a B.A. and are enrolled in a graduate or professional school shall be permitted to be issued high school equivalency certificates. To receive a high school diploma or equivalency, a person must be at least nineteen years of age and either: (a) completed sixteen units of prescribed work during a minimum time of three regular nine-month sessions or (b) enroll in adult academic education and achieve a grade placement of 13.0 or higher in basic skills and not below 12.0 in any of the three basic areas of reading, language or arithemetic. The person must also take the GED tests and achieve 35 or above on each of 5 tests or an average of 45 on all tests.

BULLETIN 741

EVENING SCHOOLS [GRADUATION REQUIREMENTS]

"All state-approved high schools may offer courses for adults in the evenings, or at such times as necessary apart from their regular daily schedules. Before these courses may be accredited, a particular high school must submit a report in the form of an amendment to the Annual School Report to the Department of Education. . . .

All other minimum objective standards required of state-approved high schools shall be the same in the adult education program where high school credit is granted. In those cases where credit is allowed for successful completion of adult education courses, such credit may be considered as having been earned in residence."

BULLETIN 741

ADULT EDUCATION PROGRAM [GRADUATION REQUIREMENTS]

GED TEST

"To qualify to be recommended to take the GED test a student must be 18 years or older unless married. After successful completion of the GED test, a student 18 years of age or older, and a married student under 18, may be awarded a high school equivalency diploma. The diploma of a person under 18 years of age may be deferred by the local system until the time when the person could have graduated in the regular program.

DIPLOMA

For a student to be eligible to be recommended to take the GED test, he[she] must enroll in an adult education program and take a standardized achievement test at the high school level. An average score of 13.0, with no one area below 12.0, must be attained by the individual before he[she] can be recommended to take the GED test. Individuals 18 years of age or older will be allowed to qualify to take the GED test without mandatory class attendance."

8. Adult Education

Statutes

§888

An administrative unit may raise money and support day or evening schools, classes and educational activities for people over 16 years who are not attending another public school. The Adult Education Program will be under the direction and supervision of the school committee or directors; pupils will be subject to the same conditions, rules, and regulation as in public schools.

The school committee or directors may pay tuition of residents who attend classes in another administrative unit which aren't offered in the unit of their residence.

The commissioner may grant exceptions in admitting students into adult education programs at the local level.

§2358

"In order to improve the industrial and civic efficiency of persons between the ages of 14 and 18 now engaged in industrial occupations and who have not reached the proficiency in reading, writing, arithmetic, language, geography, history and citizenship required for the completion of the elementary school course as recognized in the schools of the state, the school committee and boards of education of the towns and cities of the state are authorized to establish part-time or part-time continuation schools and classes for the benefit of such persons."

Regulations

STATE PLAN FOR ADULT BASIC EDUCATION

July 1, 1976

Purpose

"offer adult basic education programs within the state... geared for those adults with less than eighth grade level

competencies in reading, writing, and mathematics."

Key Features

"includes individual projects planned, geographic and population areas to be served, evaluation procedures to be utilized..."

IV.D.; Statute §220: 358

8. Adult Education

Statutes

Art. 77 §43

The county board may establish and maintain day and evening schools for adults to provide a general program of continuing education.

Regulations

13.04.03.01

The purpose of the provision is to provide county boards with state reimbursement for offering adult vocational education courses "which are not eligible for reimbursement from Federal Vocational Funds." The State Board will assist the county board of education "in paying the salaries of the teachers of such courses." The purpose of the program is "to increase the cultural, civic, and occupational intelligence of the persons enrolled in the courses." Enrollees must be at least 16 years of age and "not attending a regular day school . . . ."Any regularly employed day-school teacher or qualified substitute for day-school teaching is eligible to teach adult education courses "that deal with the subject regularly taught. Courses not offered in regular day schools shall be taught by "an individual . . . recognized as an authority in the craft, technical field, or occupation in which he[she] is engaged and who has the respect of his or her fellow citizens of the community." Courses may be offered in the following categories: commercial education; shop courses; home economics; agriculture education; distributive education; and general education. No more than 25 individuals may be enrolled in each class. "The State Superintendent of Schools is authorized to withhold State aid in any case where he[she] is convinced that the quality of instruction is not maintained."

The State Board of Education shall determine "the salary to be paid qualified evening school instructors . . . . Before the class is organized, the instructor shall submit to the county superintendent and the State Supervisor an

outline for the course to be taught." Courses shall consist of between 10 and 24 sessions of two hours each. "The county board of education shall furnish a suitable classroom, with light, heat, and janitor services . . . . It is the general practice to have the enrollees pay for the materials used in Adult Education courses." For the county board to be reimbursed for courses, "the request for funds as well as the instructor must be approved, in writing by the State Superintendent of Schools . . . before the class is organized."

CROSS REFERENCE

II.A.1.; Regulation 13.03.02.01

8. Adult Education

Statutes

69 §9

"The department, with . . . any town . . ., may provide for . . . instruction in . . . English for persons eighteen years of age or over unable to speak, read or write . . ., and in the fundamental principles of government and other subjects . . . for American citizenship, as shall jointly be approved by the local school committee and the department . . . . Teachers and supervisors . . . shall be chosen and their compensation fixed by the school committee, subject to the approval of the department."

69 §9 A

ENGLISH LANGUAGE INSTRUCTION

"Upon application of twenty or more residents . . . who are eighteen years of age or over certifying that they desire to attend [an English] class . . ., the school committee . . . shall establish . . . a class . . . for a period of not less than forty sessions; provided that in case the attendance of any . . . class falls below fifteen," the class will terminate.

69 §11

"The division of immigration and Americanization shall employ such methods . . . [as] will . . . bring into sympathetic and mutually helpful relations the commonwealth and its residents of foreign origin, protect immigrants from exploitation and abuse, stimulate their acquisition and mastery of English, develop their understanding of American government, institutions and ideals, and generally promote their assimilation and naturalization . . . ." The division may cooperate with other agencies; investigate abuses; and make reasonable charges for services rendered and materials furnished.

71 §18

Any town may and every town with a sufficient need must "maintain for not less than forty evenings . . . an evening school or schools for the instruction of persons over fourteen years of age in orthography,

reading, writing, the English language and grammar, geography, arithmetic, industrial drawing, both free hand and mechanical, the history of the United States, physiology and hygiene and good behavior. Such other subjects may be taught as the school committee considers expedient."

71 §19

In every city of fifty thousand inhabitants where fifty or more residents, sixteen years or over, petition for an evening high school, such a school shall be annually maintained.

71 §20

The school committee shall, two weeks before the opening of each term of evening school, post in town notice of the location and time of classes as well as the fair education practices of the state. The school committee may require from each student, not bound by law to attend evening school, advance payment not exceeding ten dollars for each course where there is no state reimbursement and five dollars for each course for which there is state reimbursement or where the classes are held in Boston.

71 §21

Each town which has 200 or more minors under 16 who have "home" or "employment" permits, and work at least six hours per day may establish and maintain continuation schools for the instruction of these children.

The schools or courses of instruction shall be in operation between the hours of eight a.m. and five p.m. Monday through Friday for the same number of weeks each year as are the high schools.

71 §22

"Every minor [who is employed at least six hours a day] shall, subject to the laws relating to the public schools, attend said schools or courses in the town of his[her] employment for not less than four hours per week; but the attendance of minors who have been required to attend . . . , and are temporarily out of employment . . . shall be for not less than twenty hours per week, if [possible] . . . . Instruction in the regular schools

may and upon application of the parent or guardian shall be accepted as equivalent to that required by [state law]."

71 §23

"In the establishment and conduct of . . . [continuation schools], a town may take advantage of established educational agencies, and may utilize any suitable quarters approved by the department; but when established, the schools or courses shall be a part of the public school system of the town."

71 §24

Local costs for maintaining approved continuation schools shall be reimbursed by the state. The town of residence of a person who is required to attend a continuation school of another town shall pay a tuition fee to be fixed by the commissioner of education. However, expenses incurred by cities or towns in paying claims for tuition under this section shall be reimbursable under state law.

71 §25

"Any minor under sixteen who has been regularly employed in a town other than that of his[her] residence and who is temporarily unemployed, may be required, under conditions approved by the department, to attend a continuation school or course in the town of his[her] residence."

71 §26

If a town which is required to establish a continuation program fails to appropriate the necessary funds, it shall forfeit to the state twice the amount of the state's contribution to the program. The state will then return three-fifths of the forfeited amount to the town to establish and maintain the continuation program.

71 § 71 B

"A school committee may offer adult physical fitness programs to be held in the gymanisium of any school at any time during which such gymnasium facilities are not being used for school purposes."

RULEMAKING

Statutes

§37-35-1

The state board of education is empowered and directed to promulgate regulations to develop an adult education program. "The aim and purpose of such a program shall be to reduce illiteracy and to provide a general plan of continuing . . . education with priority to be given to academic training through high school and training in technical skills and trades needed by industries . . . ."

§37-35-90

"The state board of education is authorized to . . . establish general educational development preparatory classes in secondary schools and colleges and to provide [state] financial assistance for the specific purpose of preparing adults eighteen years of age and older without the high school diploma" to pass a high school equivalency test.

The state board of education, division of instruction, through the secondary schools and junior colleges shall administer the program.

Adult students may be accepted provided they are state residents.

8. Adult Education

Constitution

MISSOURI CONSTITUTION, ART. 9, §1(b)

"Specific schools for any contiguous territory may be established by law. Adult education may be provided from funds other than ordinary school revenues."

Statutes

§178.290

The school board in any urban district, six-director district or metropolitan district may establish and maintain night school, and fix the tuition for those over 20 who are not entitled to free public school privileges. Public school buildings may be used provided it is kept in good condition.

Regulations

5 CSR 60-100.010--.040
ADULT EDUCATION

Missouri will fund adult education programs designed to provide basic instruction in reading, writing for persons 16 years and over who are no longer in school. The program shall provide persons the opportunity to receive a high school diploma and provide professional development for adult education staff members.

DIPLOMA

To be eligible to take the general educational development tests and earn an equivalency certificate a person must either be 18 years of age; 17 years and out of school for 6 months; 17 or 16 and have permission of school officials; a juvenile with court permission, or a hardship case. A minimum score of 225 is required on all five tests with no score below 35.

Adult education programs must be under the administration of regular administrative school officers and part of the total school program. The program should encompass characteristics consistent with the "more mature interests and responsibilities" of adults and offer a flexible course of studies which fit the

needs of students. Graduation requirements in the adult high school shall be the same as set forth in the regular high school program provided that at least two units must have been earned in residence.

In addition to the requirements discussed, adult education programs must be provided with adequate classrooms and facilities, textbooks and teaching aides, as well as qualified teachers and counselors. Additional training must be available for adult basic education graduates upon completion of the program.

Before a program is implemented, the local public educational agency must initiate a community survey. Based on this determination and an application, the State Department of Education evaluates the program and if approved, funds are made available. Also, local advisory committees composed of community members shall be formed prior to approval of the program and shall be at least three times annually.

Minimum enrollment per class shall be eight students with recommended enrollment of twelve students.

TEACHER QUALIFICATIONS

Requirements for a life certificate in adult basic education include a bachelor's degree from an accredited teacher education institution and 21 semester hours in adult education. For a 5-year certificate one needs a bachelor's degree and eight semester hours and a recommendation by the local superintendent or director of adult education. For a one-year certificate, one needs a bachelor's degree and must attend adult education teacher training workshop and be recommended as above. Teachers may be on a full or part-time basis.

ADULT EDUCATION

Programs of adult education services "to promote integration of Indochinese refugees into American society" shall be established in addition to the existing adult education programs. Funding shall be separate. Records must be kept on the program and submitted to the State Department of Education.

8. Adult Education

Statutes

§75-7207

If the district trustees establish an adult education program, "they shall establish an adult education fund" which is "the depository for all federal, state and district moneys" designated for such program.

§75-7512 -- 75-7514

District trustees may establish an adult education program for the instruction of persons who are at least 16 years old and "not regularly enrolled, full-time pupils." Such programs may be conducted "at any time of the day when facilities and personnel are available . . . [and] may provide both basic and secondary general education, vocational education, American citizenship education," or any other courses approved by the trustees. The trustees are responsible for the "supervision and administration of adult education when a program is established in the district."

§75-7515 -- 75-7516

"A separate adult education fund shall be established when an adult education program is operated by a district." The trustees are authorized "to charge tuition for instruction and . . . fees for the use of equipment and materials." TUITION

8. Adult Education

Statutes

§79-1415 — 79-1417

"There is hereby established in . . . the Department of Education the Adult Immigrant Educational Division for the education of adult aliens and others, under the direction of a state supervisor appointed by the department." School boards are authorized "to expend money for conducting schools and classes in school buildings, industrial establishments, places of employment, and . . . other places . . ., for . . . giving instruction to foreign-born and native adults and minors" over age 16. Courses "shall include English, history, civics, and other subjects tending to promote good citizenship and to increase vocational efficiency." The Commissioner of Education shall select courses, supervise instruction, and approve teacher selection.

8. Adult Education

CROSS REFERENCE

III.C. Recipients of High School Diplomas; Regulations, High School Graduation Requirements Manual

8. Adult Education

Statutes

§186:61

"The state board of education shall establish . . . an educational program for adults to earn a high school diploma or its equivalent." The state board of education shall "adopt rules for the issuance of . . . diplomas . . . and equivalency certificates."

DIPLOMA

§186.62

"The state board of education shall promote and encourage other programs of adult and continuing education" and receive and disburse funds for these programs. The purpose of such programs is to "encourage the development of adult and continuing education programs . . . both within and outside of the public school system," and to "encourage the use of public school facilities by various educational groups . . . within the community."

§188-A:13-a

The state board of education is "authorized and directed" to "establish and implement adult education and work or apprentice related programs" to provide instruction "designed to prepare . . . individuals without regard to race, color, creed or national origin for service to business, trade or industry".

EQUAL OPPORTUNITY

§194:18

A school district "may maintain an evening school as a part of its public school system" and if a district has "fifteen or more persons" from sixteen to eighteen who cannot read and speak English, the district "shall maintain an evening or special day school" to instruct these persons.

Regulations

Guidelines for Preparing Applications for Local Projects in Adult Basic Education
#319.10, pp. 2-9

"The Adult Education Act of 1966 authorizes the State Department of Education to approve projects for adult

basic education under the auspices of local school districts and permits reimbursement from Federal funds to such districts of an amount equal to ninety per cent (90%) of the total verifiable sums expended for the cost of the program. In compliance with the ten percent (10%) matching requirement of the Act, our State Legislature has appropriated approximately $11,000 for each year of the 1970-71 biennium. In the event that additional resources are needed to qualify for our full federal allotments, matching funds (either in cash and/or in-kind contributions) will be solicited at the state level and, if necessary, at the local level.

. . .

In the language of the Act, 'adult basic education' means education for adults whose inability to speak, read or write the English language constitutes a substantial impairment of their ability to get or retain employment commensurate with their real ability, which is designed to help eliminate such inability and raise the level of education of such individuals with a view to making them less likely to become dependent on others, to improving their ability to benefit from occupational training, and otherwise increasing their opportunities for more productive and profitable employment, and to making them better able to meet their adult responsbibilities.

Application Procedures

Local educational agencies, upon approval from the New Hampshire Department of Education, may participate in the Act on the basis of a program of instruction set forth fully on the official application forms. . . ." Applications (forms ABE 1-6) for Adult Basic Education projects that are scheduled to start the beginning of the school year should be submitted to the State Adult Basic Education Office not later than July 31st.

"A public school agency is eligible to proceed with an A.B.E. [Adult Basic Education] project only after its proposal has been approved by the State Department of Education." Upon such approval a Statement of Program Approval (ABE-7) will be sent together with a

countersigned copy of the local A.B.E. application (ABE 1-6) to the sponsoring agency.

"Any person is eligible for education under this Act who is 16 years of age or older and has completed fewer than eight grades of school" or who aspires to learn English as her/his second language. Students cannot be charged fees or tuition and instructional materials must be provided without cost.

TUITION

"The curriculum [of adult education] must be adult oriented, taught in adult language, and illustrated in adult situations. Whenever possible, the basic skills of reading and mathematics should be taught in the context of job, health, consumer, family life, an civil information, as well as other related areas which adults need to know in order to cope more effectively with their daily responsibilities.

The selection and purchase of instructional materials shall be the responsibility of the local director and his [her] A.B.E. staff." To assist them there is an extensive adult curriculum library and advisory bulletins distributed by the State Department of Education.

"The instructional program should be organized in a series of relatively short instructional cycles. . . .

A.B.E. classes must meet at least twice each week and each class must be at least two hours in duration. An instructional cycle must consist of at least 40 classroom hours."

The recommended enrollment for each class is 15 students, however, a class may be approved and funded with a minimum of 10 students enrolled. Any class that has consistently less than 10 students may be merged with an existing class or terminated.

"Because of the great disparity in student educational backgrounds, . . ." individualized instruction which utilizes teacher aides, volunteers and programmed learning materials and other innovative and

INDIVIDUALIZED INSTRUCTION

flexible teaching methodologies is required. Each program shall be accompanied by arrangements for pre-service and in-service training.

"Local directors, supervisors, head teachers, guidance counselors, and all other professional personnel shall be certified for participation in the A.B.E. program in accordance with certification requirements established for adult education by the State Department of Education.

Sub-professional -- teacher aides, volunteers, etc. -- assisting the local program will be certified as qualified for their assigned duties by the local superintendent of schools."

In order to meet the needs of the adult students a counseling program must be provided. A testing program should be administered to determine academic placement, assess education progress and provide data for evaluation of both the local and state programs.

The local A.B.E. staff will assist adults to acquire health services and information which are available from the State Division of Public Health.

"All equipment acquired with Federal funds must be labeled as having been purchased for use in your A.B.E. program with monies authorized and appropriated by the Adult Education of 1966 (P.L. 89-750)." This equipment must be checked and certified as to continued use for purposes stated in the Adult Education Act.

If such equipment was purchased for $100 or more, and sold, the federal Government shall be accredited with its proportionate share of the value of such equipment.

Personnel affiliated with local A.B.E. programs will be expected to keep records and submit reports as required by the State Education Department. Fiscal records, invoices and similar verifications of all expenditures will be kept in files for at least three years. As required by the State plan, there will be an annual audit of each local agency's A.B.E.

account. A certified copy of this audit shall be submitted to the state A.B.E. office by means of form A.E.B. 17.

Student records including such data as class time, level of instruction, scores attained on tests, pertinent staff comments, age, and educational background shall be kept cumulatively.

In accordance with federal and state law, local A.B.E. projects are required to organized and utilize local advisory committees. The advisory committee is to have a membership reflecting many facets of the community such as educators, business people, labor leaders, industrialists, clergy, etc. "The committee can play an important role in interpreting the program to the community, gain support from the community leadership, be a source of volunteer referrals, provide entree to industry and business, aid in identifying and recruiting adults who are deficient in the basic educational skills, and in numerous other ways assure that future progress will be smoother and easier. A special memorandum outlining suggestions for creating local advisory committees is avialable from the State Department of Education.

The selection and training of staff [for a program in adult basic education] is of paramount importance. It is essential that all staff members possess the attributes of friendly personality, patience, and enthusiasm. Teachers should have the qualities of flexibility in the use of methods and techniques. . . . They must also be willing to work with teacher aides and volunteers and to learn to use them effectively."

The recruitment of students is a crucial problem which should be solved with the aid of the local advisory board and several community agencies. Bulletin #2 entitled "Student Recruitment and Community Involvement," is available from the State Department of Education.

It is the goal of every local A.B.E. program to create a stimulating environment in which adults can learn with dignity and enjoyment.

State Board of Education Regulations
for Adult High School Diploma Program
#00602

Adult evening programs, leading to a high school diploma, may be offered in adult programs conducted by local boards of education. Teachers must be certified and attend continuing in-service programs. Students will plan their own program, assisted by periodic counseling, and each will be given a final examination.

COURSE OF STUDY

Enrollees must be at least 16 years old. Students must complete a minimum program of 16 units for graduation, including eight in the following:

English	4 units
Social Science (U.S. History required)	2
Mathematics	1
Science	1

State Board of Education Policies,
#321.1, p. 00047

The need for adult and continuing education is recognized as an integral part of the educational system.

8. Adult Education

Statutes

§18A:48-1

A board of education may establish public evening schools "for the instruction of persons over 12 years of age who are residents of the district."

§18A:49-1

A board of education may establish evening schools "for the instruction of foreign-born residents of the district over 14 years of age in the English language and government of the U.S."

§18A:50-1

The board of education may maintain a program of adult education. The board shall determine the courses to be offered, subject to the approval of the commissioner, with consent of the state board.

§18A:50-8;9

Two or more boards of education may agree, by resolution, to jointly provide adult education courses. When such agreement has been made and it has been decided to employ a program supervisor, one board shall be designated the employing board.

§18A:50-12

School districts may establish high school programs of education for adults and out-of-school young people which will include "curricular content appropriate to the high school curriculum" designed to prepare them to secure a high school equivalency certificate.

§18A:52-1--3

The boards of education in municipalities of over 10,000, may provide free evening lectures for working men and women.

Evening school for foreign born shall be separate from other evening classes. Such courses of study may be organized and approved by the State Board.

Subjects taught shall include English; local and state government laws of New Jersey; government and laws of the United States; problems in American democracy.

IV.G.; Statute §18A:50-2

IV.H.; Regulation §6:27-1.14

STATUTES

§77-1-4

All residents under 18 who do not have a high school diploma or its equivalent and who are not judged unable to benefit from instruction because of mental, physical or emotional conditions shall have a free public school education available to them including the right to enroll, re-enroll and, subject to the Compulsory School Attendance Law [77-10-1 et seq.] the right to withdraw. Residents meeting these qualifications except that they already have a high school diploma or its equivalent shall have the same rights but on a space available basis.

DIPLOMA

"Local school boards shall make regulations concerning the enrollment and re-enrollment of all persons."

RULEMAKING

§77-11-4

When 15 or more students within a school district have been issued certificates of employment the local board shall establish a part time school. Students with certificates of employment must attend the part-time school unless excused by the district superintendent. "The state board shall adopt regulations concerning the establishment and operation of part-time schools" which must give at least 150 hours of instruction a year.

§77-11-5

A. Any person employing a student 14 years old or older shall permit the student to attend a part-time school established in the school district where the student lives or is employed.

B. "When the maximum number of hours of employment for a person having attained the age of 14 years is established by state or federal law, the hours of attendance at a part-time school shall be computed as hours of employment under these laws. Nothing in this section shall affect the right of an employer to reduce

accordingly the compensation to be paid to a person because of the time spent in a part-time school."

§77-11-6

"Pursuant to the standards and regulations of the state board, a local school board may establish an adult education class within the school district provided that the minimum enrollment for any . . . class shall be 10 persons. The local school board has authority to employ a certified school instructor to teach any adult education class established."

8. Adult Education

Statutes

§3207

"In each city . . . in which evening instruction is provided . . . each person from 17-21 years of age who is unable to speak, read, and write English as required for the completion of the fifth year of . . . elementary . . . study, and who is not attending . . . equivalent day instruction, shall attend . . . evening instruction."

§4604

Local boards of education may establish "day and evening schools for adults," which may include citizenship schools, "general continuing education adult schools," and recreation schools.

Regulations

§ 161.1 (Statutory authority §207)

In order to be approved by the Commissioner of Education, adult education courses must be operated by a board of education. Teachers must be certified and may hold an adult education or vocational certificate. The program must be administered by someone who holds a valid certificate other than an adult education or vocational education certificate. The school must strive to accomplish "important educational objectives" and maintain a level of attendance that is consistent with good instruction.

§ 165.1

These regulations provide guidelines for funding of high school equivalency classes for persons who are at least 16, not enrolled in a regular school program, and who have not received a high school diploma.

§ 165.2 — 165.4

School districts applying for funds for these programs must set forth the number of people to be served by the program and a description of the program. To be approved, a program must provide for a minimum of 150 hours of instruction, offered at least six hours per week. Classes shall consist of 8-20 students. All students must possess a seventh grade reading skill to be eligible for the program.

CLASS SIZE

Funds alloted may be used to establish individual district programs or regional cooperative programs.

§ 165.6

Districts will be required to keep records on pupil progress and attendance and make reports to the commissioner as required.

Part 166 (Statutory authority §207)

§ 166.1

This section provides guidelines for funding programs to operate evening school classes for persons who are at least 16, not enrolled in a regular school program, and who have not received a high school diploma or high school equivalency diploma.

DIPLOMA

§ 166.3

An approved evening school program shall include courses designed to "develop minimum competencies necessary to qualify for a high school diploma or a high school equivalency diploma." This includes courses designed to meet the needs of students with less than a 7th grade reading ability and those with a better than 7th grade reading level ability.

DIPLOMA

II.A.4.: Statute §2514

II.A.4.: Statute §2555

8. Adult Education

Statutes

§115-199

An adult education program may be established if the State Board of Education so determines. The State Board may also approve the establishment of local adult education programs instituted by local boards of education.

3. Adult Education

Statutes

§15-46-01

"The school board of any public school district may establish and maintain a public evening school as a branch of the public schools. At the direction of the [county or city] superintendent of schools or the superintendent of public instruction, the board shall establish and maintain such an evening school . . . . An evening school . . . shall be available to all persons over sixteen years of age who . . . are unable to attend the public schools . . . .The [general supervision of the evening school] shall be subject to the . . . control of the superintendent of public instruction."

§15-46-02

"When in any school district there are ten or more persons over sixteen years of age who desire instruction in an evening school and who petition therefor, the board shall establish . . . such school during a period of not less than three months of every school year and for not less than two hours at least three times a week during the term of the evening school." If such school is not established by the board, "the superintendent of public instruction may . . . require that an evening school be established."

PETITION

§15-46-05

Evening school funds shall be expended under the direction of the county superintendent of schools as she or he deems best.

Regulations

Chapter III: VI.

GED TEST

To aid adults who have not had the opportunity to complete formal requirements for high school graduation, the State Department of Public Instruction has established the high school achievement program. The principal requirement for a high school achievement certificate is demonstration, on the tests of General Educational Development, of an educational competence commensurate with the average high school graduate.

The Division of Independent Study offers a composite review course covering the areas of study in the equivalency examination. The Division does not administer the exam.

All arrangements for testing (including fee payment) are made with the official testing center selected. An applicant who fails to make the required score (a standard score of 40 or above on each test or an average standard test score of 50 on all the tests) may retake the tests only once.

Beside passing the test, candidates must be 19 years of age or older and North Dakota residents, must file a formal application for an equivalency certificate, and must be recommended for the certificate by the superintendent or principal of the last civilian school they attended.

All equivalency certificates are issued by the State Department.

Chapter III: VII. A.

The school board of any district may establish and maintain a public evening school at the direction of the local or state superintendent or on petition by ten or more persons over 16 years of age who live in the district and desire evening instruction.

An evening school shall be available to all persons over 16 years of age who are unable to attend public schools. The curriculum and conduct of evening schools

shall be under the direction of the superintendent of public instruction.

One-half of the salaries of all teachers in an evening school shall be paid by the state.

Chapter III: VII. B.

If courses are offered for regular credit: the teacher shall hold a first grade professional certificate and have the same preparation as required in the regular high school program; the course content and the achievement expected of students shall be equivalent to that in a regular high school program; the minimum amount of class time shall approach 100-120 hours; and the rate of tuition shall be determined by the local board.

8. Adult Education

Statutes

§3313.531

Adult high school continuation programs are organized instructional programs for persons 16 years or older who are not otherwise enrolled in a recognized high school program, and which offer courses for credit toward a high school diploma.

DIPLOMA

A single school district, or two or more boards of education, may establish such a program, receiving reimbursement not to exceed $5 per instructional hour, provided such program is in accordance with the rules, regulations and standards set for such a program by the state board of education.

§3313.54

A board of education may establish an Americanization school upon the application of 15 or more persons born outside the territorial limits of the United States, including Alaska and Hawaii. Applicants must be persons who are 18 years of age or over, of foreign birth, and residents of the district or of an adjoining district. Pupils may be charged a fee.

AMERICANIZATION SCHOOL

§3313.56

"The board... of any city, exempted village, or local school district may establish and maintain part-time schools or classes for the further education of children who are employed on age and schooling certificates. Such ... classes shall be conducted not fewer than four hours per week while in session, and for not fewer than one hundred forty-four hours per calendar year between the hours of 7:00 AM[and 6:00 PM weekdays]....". Standards for such schools and classes shall be set by the state board. Funds shall be provided for the expense

of such schools in the same manner as for the expense of ordinary elementary schools.

REGULATIONS

§3301-43-01 -- 3301-43-05

Boards of education may establish for persons 16 years of age or older and not otherwise enrolled in a high school an adult high school continuation program which is limited to courses for which credit may be granted toward the issuance of a high school diploma. Teachers for the program shall hold a valid certificate.

8. Adult Education
Regulations

Adult Education Regulations.

I. Adult Basic Education, p. 80

School superintendents should designate staff members "to be responsible for the adult education program.

"It is . . . recommended that all schools cooperate with the State Adult Education Organization."

Req. a. Adult education teachers must be certified in the same way as other public school teachers.

Req. b. "A certificate of 8th grade school achievement may be earned by enrolling in courses of basic education sponsored by the local public school and . . . passing standardized educational tests as prescribed by the State Department of Education.

Adult Education Regulations:

III. Adult High School Completion Program, p. 81

A. "The State Department of Education. . . encourages the development of adult learning opportunities to accomplish diploma completion and other desirable adult educational goals within limits prescribed by the local board of education.

"B. The following regulations are applicable . . . to those high schools in which the adult program is an extension of the regularly accredited high school program . . . . The school offering a high school completion program shall meet these standards:"

Req. 1. To have such a program a school must apply to the Accreditation Section of the State Department of Education "at the beginning of each adult semester or session."

Req. 2. Only persons who are 18 and over and "under no legal compulsion . . . to attend school" may enroll.

Req. 3. Teachers must have valid teaching certificates.

Req. 4. Adults must earn 18 units to receive a State High School Diploma, distributed as follows: language arts-4; mathematics-1; science-1; American history -1; Oklahoma history-1; electives-10 1/2.

DIPLOMA

Req. 5. Granting credit:

a. "Course credit shall be accepted . . . from schools . . . accredited by the State Board of Education or any regional accrediting association.

CORRESPONDENCE COURSE

"b. Credit for correspondence courses may be accepted from any regionally accredited institution.

"c. Credit may be granted for . . . apprenticeship programs or . . . occupational or vocational learning or achievement . . . .

"d. Credit for a specific subject" may be earned through an examination given by the school.

e. Credit may be granted for education or training received through the military.

MILITARY

f. In order to graduate, an adult student must earn at least 2 units "in the adult high school completion program or in the day high school awarding the diploma."

Req. 6. Each 1/2 unit shall be allotted 45 hours and each full unit 90 hours.

General Progress Criteria:

VII. Civil Defense Education, p. 26

The objectives of the State Department of Education's Civil Defense Education (CDE) program is "to conduct, through organized adult education classes, a program that will alert adults . . . to the need for emergency planning . . .[for] survival in a nuclear age."

CIVIL DEFENSE EDUCATION

Administrators should recommend teachers who will receive appropriate instruction and be "certified to teach 'personal and family survival' classes in their . . . communities." This course may also be incorporated into the regular school curriculum as part of safety education, social studies or science courses.

CROSS REFERENCE

III.C.Students: Regulation, Adult Education Regulations: High School Equivalency Certificates: p. 80

STATUTES

§336.125

Continuation schools may be operated by a district school board, which shall fix the hours school will be in session and the length of the school term.

The board shall employ teachers and "provide for the instruction of pupils in all branches taught in the day sessions if there seems sufficient demand in the evening school;" establish graduation requirements; and admit any person not attending the day session without regard to age.

§336.135

Any school district with fifteen or more employed students between the ages of 14 and 18 years, and any other school district so desiring, shall provide classes for such employed students.

Rules governing organization and administration are created by the board of education and funds available for the promotion of vocational education may be used.

§336.145

A district school board may establish adult education classes and employ personnel to conduct courses in English, except as needs for teaching a foreign language require otherwise, on the "fundamental principles of democratic government, English language, citizenship, public affairs, forums, arts and crafts, general cultural subjects, adult recreation and such other subjects as they may authorize."

COURSE OF STUDY

Scheduled fees may be charged and used "for the support or encouragement of adult education."

FEES

"The classes shall be subject to the rules of the district school board, shall be organized

to meet the needs of the adults in the district, and, as far as practicable, shall be held at such times and places as are most convenient and accessible to the members of the class."

§339.145

"Persons 16 years of age or older and persons who have graduated from high school may enroll in the adult education program of a school district . . . subject to [established] terms and conditions . . . ."

CROSS REFERENCE

I. Superintendent of Public Instruction: Statute §326.310

8. Adult Education

Statutes

§19-1901

"General extension education" shall designate the instructional and recreational services provided and administered by the board of school directors, but shall not include activities which are subsidized under the provisions of Federal enactment nor the coaching or supervision of interscholastic athletic teams or games.

Areas of "extension education" for which local school districts receive reimbursement from the Commonwealth shall be general extension education credit courses including standard evening high school and summer schools, general extension education noncredit courses required for classes in which 50% of the pupils are out-of-school youth and adults including citizenship classes, adult education for the blind, home nursing, home management, child care and recreation including activities for children and youth from the ages of 6-21.

§19-1902-1904

Free extension education shall be provided upon written application, "signed by fifteen or more residents over the age of sixteen" who don't attend public or private day school. If average attendance falls below ten for any month, school may be closed.

Class shall be in school buildings at any time not in conflict with day school activities, except on Sunday or holidays.

A $7.50 deposit fee may be required from each enrollee which will be returned at the close of the term to everyone who attended at least 75% of the classes, or may be returned for any other justifiable reason.

§19-1905

Credits earned in the standard evening high

school shall be equal to those earned in the regular day school program and upon graduation from an evening high school a student shall be awarded the appropriate school certificate or diploma.

§19-1906

General extension education shall be an "integral part" of the public schools and shall be under the supervision of the district superintendent. "The State Board of Education shall adopt standards for the qualifications and certification of general extension teachers and leaders, pre-approval of instructional budgets and all other matters pertaining to general extension education."

8. Adult Education

Statutes

§16-5-22

The general assembly shall appropriate funds necessary for support and maintenance of public evening schools in the several towns of the state, to be apportioned by the state board of education.

§16-29-1

Each town shall establish one or more evening schools in which the speaking, reading and writing of the English language shall be taught, free of charge, to those residents of said town more than sixteen and less than twenty-one who cannot speak, read and write in the English language. The school committees of two adjoining towns may unite for the purpose of jointly establishing and maintaining an evening school for persons resident in such town.

§16-29-2

The school committee of any town may establish and maintain one or more public day continuation schools for the teaching of the English language and American citizenship, at which any person beyond compulsory school age, resident of such town, may attend free of expense, or may make provisions, at the expense of the town, for the attendance of such persons in continuation community Americanization classes, and to co-operate with the school committee of any city or town in the establishment of such classes and said department may fix the compensation of said supervisor.

CITIZENSHIP CLASSES

§16-29-3

"Continuation or evening schools may be established in shops or factories; provided that such schools are under the control and supervision of the school committee.

§16-29-6

The department of education is empowered to provide for the inspection and supervision of day and

evening schools maintained under the provisions of this chapter, and the general assembly shall annually appropriate necessary sums to defray the expenses of such inspection and supervision, and for the promotion of Americanization.

§16-29-7

ENGLISH LANGUAGE INSTRUCTION

All persons between the ages of sixteen and twenty-one who cannot speak, read and write the English language in accord with standards approved by the department of education, and who resides in a town in which the school committee has established a day continuation school for the teaching of the English language, or an evening school, shall attend either school at least two hundred hours every year until he/she shall have acquired reasonable facility in speaking, reading, and writing the English language in accord with standards approved by the department of education.

§16-29-8

Attendance in private schools or private instruction in the English language may be accepted only if the private instruction is approved by the school committee. Persons attending private schools or receiving private instruction shall be deemed as having acquired reasonable facility in speaking, reading and writing the English language as provided in §16-29-7, only after the successful passage by such person of an examination, provided by the school committee.

§16-29-9

VIOLATIONS

All of those required to attend Americanization schools whose absence makes it impossible for him/her to complete the two hundred hours of instruction annually within the time set by the school committee, may be fined $1.00 for each wilful absence, and not exceeding $20.00 each year, for persistent refusal to attend such instruction, or may be committed to an institution during her/his minority.

The general assembly shall annually appropriate such sum necessary for the promotion of house and community classes in any city or town for instruction in use of the English language in the common rights and obligations of citizenship and in the fundamental principles of American government.

8. Adult Education

Regulations

§43-237

The curricula of an adult basic education program shall include organized and systematic instruction in the communication and computational skills of reading, writing, speaking, listening and arithmetic.

The number of units for the high school diploma program shall be consistent with the requirements prescribed by the State Board of Education for adults to complete the requirements for a State high school diploma in the following areas:

A minimum of 18 units of credit shall be the basis of awarding the State high school diploma to adults and be distributed as follows:

Language Arts	4 units
Social Studies (U.S. History & Constitution)	2 units
Mathematics	2 units
Natural Science	1 unit
Electives	9 units.

Effective for those who graduate in 1981 or thereafter, to qualify for a state high school diploma, a student must earn a total of 18 units of credit distributed as follows:

Language Arts	4 units
U.S. History	1 unit
Economics (1 1/2 unit)	
Government (1 1/2 unit)	
Other Social Studies	1 unit
Mathematics	2 units
Natural Science	1 unit Electives

At least 50% of the instructional time in any course used to satisfy the language arts requirements for graudation must be devoted to the teaching of grammar and composition.

The level of accomplishment required for the granting of credit shall be the same as that required in the regular

high school program. Class time may be waived only when objective evidence of subject matter attainment has been demonstrated by an acceptable performance on an approved, standardized subject matter exam. Credit granted by objective evidence must be approved by the principal of the high school awarding the diploma. A copy of the test results with information as to the date of the examination, the name and form of the standardized test, name of examiner, and signature of principal's approval must be filed in the school records for the adult.

Enrollment shall be limited to individuals who are 18 years of age or over and have left the elementary or secondary school, except when the local school board may assign individual students of less than 18 years of age who have officially withdrawn or been expelled from regular school. These students may be assigned to one or more classes of an adult education program when they exhibit an unusual educational need or exhibit physical, social or economic problems which can be better served by the adult education program.

No student shall be graduated from the adult education program prior to the time that he/she would normally have graduated had he/she remained in the regular high school. A minimum of 2 units shall be completed in residence as a prerequisite to being eligible for the State High School Diploma.

A student may not earn more than eight units through each or a combination of credit earned by successfully passing an approved standardized test, credit earned for occupational training and experience and credit earned through approved correspondence courses.

Adult education is provided for adults who want a basic education, to prepare for the High School Equivalency Examination, to develop skills, or to complete the requirements for a State High School Diploma. Enrollment in the program must be limited to adults who are residents in South Carolina.

Each district shall provide a program of adult

education in each of the three levels: Basic Level I (Grades1-4), Basic Level II (Grades 5-8), and High School Completion (Grades 9-12). It is recommended that each district offer a program in continuing education, vocational education, vocational exploration at Basic Levels I and II, and high school vocational courses as indicated by an assessment of local needs.

The district with the written approval of the Office of Adult Education may contract for the operation of the adult program with another school district in South Carolina. Diploma Programs must have written approval from the Accreditation and Educational Improvement Section, Office of General Education.

Students enrolled in the high school completion program shall have access to school library facilities.

NEEDS ASSESSMENT

An annual needs assessment, including a thorough status and evaluation of the district's adult education programs, must be submitted on or before October 15.

Adult Education facilities shall be adequate in size and arrangements. Buildings shall be kept clean and comfortable. Each room shall be designed and equipped to serve specific purposes. Adequate lighting, ventilation and heating shall be provided in all utilized areas. All operating adult school facilities shall comply with safety regulations prescribed by the State Fire Marshall and with sanitation and health regulations prescribed by the State Board of Health.

PHYSICAL EXAMINATION

Adult education personnel shall have an annual physical examination. Certification that the person is free of contagious disease must be filed in either the school, area or district office. Adult education personnel employed in the regular program who had an annual physical examination must meet the requirement.

Each adult education director shall develop and implement an organized inservice education program for professional personnel. A copy of the inservice education plan shall be made available to the adult education supervisor upon request.

Each approved adult education high school diploma program shall meet a minimum of 30 weeks and include a minimum of 60 hours of instruction for each unit of credit.

A student must attend class a minimum of 50 hours to receive consideration for credit. Any work missed in the high school completion program must be made up.

The adult education director is directly responsible for the supervision and improvement of the adult instructional program.

Accurate attendance and achievement records of each student shall be stored to provide security against possible destruction.

The maximum student membership in an adult education class shall be 30 students per teacher.

No credit toward a State High School Diploma will be granted to any adult education student unless the program has been officially approved in writing by the Office of Adult Education and the Accreditation and Educational Improvement Section, Office of General Education. If the program does not meet the minimum length of time, no credit shall be granted to any student in the high school completion program, unless verified by an approved standardized test.

§54-43-10 -- 59-43-30

Any district board of trustees may establish an adult education program. The trustees may raise and allocate funds, hire teachers and organize classes provided the classes comply with the rules and regulations of the state board of education. The state board shall determine teacher qualifications, tuition and the subjects taught. The program may be supported either in whole or in part by federal, state and local funds.

1) Adult Basic Education
2) Manpower Training
3) Civil Defense Education
4) Comprehensive Adult Vocational Education; and
5) Adult Bilingual Education.

"Adult education shall be provided for special approval for those who have specific qualifications. The population eligible shall include

ELIGIBILITY

1) veterans;
2) adult migrant farm workers;

3) welfare recipients receiving aid for families with dependent children; and

4) persons incarcerated in the Department of Corrections."

The Texas Education Agency shall . . . issue a Certificate of High School Equivalency on the basis of the General Educational Development Tests . . . .

EQUIVALENCY CERTIFICATE

The requirements which applicants for the Certificate of High School Equivalency shall meet are as follows:"

a) minimum test scores;

b) minimum age;

c) residence;

d) method of applying; and

e) a fee.

§3541; 3542; 3543

"The statewide adult and continuing education program provides educational opportunities for adults who are over the age of compulsory school attendance or who are not required to be in regular attendance and do not have a high school education or the educational prerequisites for developing a saleable skill. Instruction, including bilingual instruction, is provided below the college credit level to adults through local education agencies in the areas of adult basic education for grades 1-8, adult education for grades 9-12 or general educational development preparation, and adult skills training for all performance levels.

A comprehensive Adult Education program is provided in accordance with the State Plan as approved by the State Board of Education. The requirements of the education program for adults are as follows:

Provides for adults to continue their education to the level of completion of secondary school or its equivalency, or secure the specific educational prerequisites for gainful employment, vocational education, avocational training, aesthetic undertakings, or post-secondary education.

Persons whose educational development is above the eighth grade level of achievement and who are over the age of compulsory school attendance, or are not required to be in regular attendance, and who have not acquired a high school diploma from an accredited school, or its equivalency" are eligible for the program.

DIPLOMA

"Agency staff members establish procedures necessary to administer the program under provisions of State law and State Board policy to assist local education agencies in providing comprehensive adult education programs. Information research, teacher-training, operating guidelines, and technical assistance are provided to local education agencies in developing these programs.

Instruction is provided below the college level and is designed to (1) lead to a high school diploma from an accredited high school or the certificate of high school equivalency, (2) assist adults to meet specific educational objectives below the college credit level, and (3) provide educational prerequisites to vocational training or post-secondary education.

DIPLOMA

A valid teacher certificate is required in cases in which instruction is for the high school diploma and is desirable in the other adult education instructional areas. Teachers of adults are selected on the basis of general qualifications, interest in adult education, and the ability to work effectively with undereducated adults. An adult basic education program is provided in accordance with the state plan for adult basic education as approved by the State Board of Education and the United States Commissioner of Education.

Education is provided for adults whose inability to speak, read, or write the English language and do simple arithmetic constitutes a substantial impairment of their ability to obtain or retain employment or function as responsible adults.

Persons over the age of compulsory school attendance or are not required to be in regular attendance and whose educational achievement is below the ninth grade level," are eligible for the program.

"A Statement of Qualifications is required to be filed with the Texas Education Agency for all personnel. Teachers of adults are selected on the basis of general qualifications, interest in adult education, and the ability to work effectively with undereducated adults.

The manpower development and training program for adults is provided cooperatively by the Texas Education Agency and the United States Office of Education. The Texas Employment Commission and the Texas Education Agency enter into agreements in joint responsibilites for the operation of this program."

The objectives of the program are to "provide training to out-of-school youths and adults who do not have a saleable skill, to individuals who need retraining for employment, and to those who need upgrading in a skill.

A statement of qualifications of the proposed instructor must be submitted to the Texas Education Agency. The instructor must meet the requirements as outlined in the Texas State Plan for Vocational Education for the occupation for which he[she] wishes to qualify.

CIVIL DEFENSE EDUCATION

A civil defense education program is provided through agreements between the Texas Education Agency and the Department of Defense, Office of Civil Defense."

The program shall "provide basic survival information concerning natural and man-made disasters to high school and adult students through the curriculum in both junior high and high school. Advice, guidance, and encouragement are provided to school systems to assist them in incorporating Civil Defense concepts and principles into their school systems, and assistance is given to help develop school Civil Defense plans in consonance with the local Civil Defense emergency plan for all types of disasters.

Teachers are certified through completion of a Civil Defense teacher-training program. Staff members of the Texas Education Agency conduct teacher-training at local education agencies upon request.

Comprehensive adult Vocational Education programs are developed by local education agencies to meet the needs of adults. The Texas Education Agency establishes procedures necessary to administer the program and assists local educational agencies. Technical assistance, consultative assistance, teacher-training, operating procedures and guidelines are provided to local education agencies."

The objectives of the program are to "provide instruction for vocational and avocational skills for adults, 16 years of age and older, and out-of-school youth, including those persons who have dropped out of school before age 18.

Included in instruction are vocational orientation courses, counseling and guidance, occupational skill training for those adults without a saleable skill or in need of skills upgrading or retraining, driver education, second occupation courses, and avocational.

A statement of qualifications on the proposed instructor must be submitted to the Texas Education Agency in all cases except for driver education. The requirements for approval are that the applicant have a college degree and work experience in the occupation which is to be taught. Degree requirements may be waived where trade experience warrants such a waiver. Instructors in driver education are required to have a valid teachers certificate.

WAIVER

An adult bilingual education program is provided in accordance with the state plan for adult education as approved by the State Board of Education and the United States Commissioner of Education.

Bilingual education is provided for adults whose inability to function in the English language constitutes substantial impairment of their ability to obtain or retain employment or participate in day-to-day activities of our culture."

ELIGIBILITY

Eligible persons are those "over the age of compulsory school attendance who are not required to be in regular attendance and whose educational achievement is below the college credit level. (Anyone with a high school diploma or its equivalency is not eligible.)

A Statement of Qualifications is required to be filed with the Texas Education Agency for all personnel. Teachers or adults are selected on the basis of general qualifications, interest in adult education, the ability to work effectively with undereducated adults, and the ability to instruct through the use of English and the native language of the students.

A veterans approval program is provided through the Texas Education Agency which contracts with Veterans Administration and establishes procedures necessary to administer the program of Veterans Approval, in accordance with state and federal requirements.

Veterans, war orphans, widows, and wives of disabled veterans, and service personnel are assisted in receiving academic, vocational, and professional training. Veterans are assisted in receiving a secondary school diploma or an equivalency certificate provided by public and non-public institutions, as well as apprenticeship and other training on the job provided through industry and job training establishments.

VETERANS

DIPLOMA

The work incentive program is provided through the Texas Education Agency which enters into agreements with the Texas Employment Commission and establishes procedures necessary to administer the program.

The program's objective is to upgrade "employment capabilities of certain welfare recipients receiving Aid for Families with Dependent Children (AFDC).

A Statement of Qualifications on the proposed instructor must be submitted to the Texas Education Agency. Normally, the requirements for approval are that the applicant have a college degree and have work experience in the occupation which is to be taught. Degree requirements may be waived where trade experience warrants such a waiver.

The Texas Education Agency provides leadership for various programs designed to meet the educational and rehabilitative needs of persons incarcerated in the State Department of Corrections.

For the purpose of this procedure, a person is eligible for these programs if he[she] is incarcerated in the State Department of Corrections, has not graduated from an accredited high school and is able to benefit from the instructional program offered."

CROSS REFERENCE

III.C.High School Diploma Recipients; Regulation §3544

8. Adult Education

Statutes

§53-27-1 - 53-27-9

Local boards of education may, and "upon the direction of the state board of education must," establish evening classes for "at least two hundred hours during the school year" in "English, the fundamental principles of the Constitution . . ., and American history." The state board of education may make regulations for the "organization and supervision of Americanization school." All aliens between "sixteen and thirty-five" who cannot read, write, and speak English are required to attend "at least four hours a week." Failure to attend or to send a minor child will constitute a misdemeanor. Aliens must register with the district superintendent of schools each year. An "instruction fee" of $10 is required, which shall be used to pay teachers' salaries.

ALIENS

§53-30-2 - 53-30-5

The "control and supervision of adult education" is "vested in the state board of education." Local school boards may raise funds, hire teachers and "establish classes for adults in English, the fundamental principles of democratic government, citizenship, public affairs, workers' education, forums, arts and crafts, general cultural subjects, adult recreation" and other subjects.

The state board of education shall make "rules and regulations" for the adult education program, appoint a "full-time director," determine teachers' qualifications and "issue teaching certificates." The classes shall be open to persons "18 . . . or over" or any person with a high school diploma.

8. Adult Education

CROSS REFERENCE

I.State Board of Education; Statute $164

8. Adult Education

Statutes

§22-222

The school board in any school division which conducts day schools for eight or more months each year may conduct night schools for pupils regardless of age.

REGULATIONS

§180-72-040

"Purpose--Cooperation policy. The major purpose of adult education... is to raise the educational level of adults in the state who have not obtained an education consistent with their ability to learn and to provide adults disadvantaged through lack of a high school diploma with the opportunity to complete their high school education and to obtain proper recognition for it.

"Cooperation in the development and conduct of adult education programs by the educational agencies concerned is essential to achievement of the major purpose.... The provisions of this chapter therefore are designed to reflect and facilitate such cooperation."

§180-72-055

"Adult high school completion education--Policy. Every effort should be made to provide adequate opportunities for adults to complete...high school Provided, That discretion be exercised so that no inducement exists by means of which youth drop out of regularly established school programs."

§180-72-060

"Adult high school completion education--Community college and common school district participation. (1) Program Authorization. A community college district and a common school district...may enter into agreement for the conduct of an adult education program by the common school district in behalf of the community college district when such program will not conflict with an existing program of the same nature and in the same geographical area conducted by the community college district...."

"(3) Cooperative study of needs. Community colleges and common school districts are encouraged to study cooperatively the needs in their own communities for educational services designed for adults..., to provide appropriate programs to meet such needs."
§180-72-070

"Federal programs for adult education. The superintendent ...in cooperation with the state director of community colleges... [shall]...administer the programs of adult education supported ...by federal monies..to those who have not completed the regular high school program and are unable to participate in an organized program of adult courses to obtain certification of educational attainment upon the completion of a specified testing program.

(2) Administration. The superintendent [shall]... establish procedures for the establishment and operation of the certificate of educational competence program...

(3) Minimum requirements. The minimum requirements... may include allowance for educational experiences...as shall be...prescribed by the superintendent...

(4) Examination basis. The superintendent...may authorize the awarding of a certificate of educational competence to those adults unable to participate in an organized program of adult courses and in need of a certificate to qualify for employment or further education and training: Provided, That (a) the applicant submits to a general test of educational competence... and (b) the applicant has attained a satisfactory test result...."

"Regulatory provisions recognize intent of specific acts. The policies, rules and regulations...recognize the intent of (1) chapter 261..., to (a) place major responsibility for adult education in the community colleges, (b) provide for the conduct of adult education programs by the common schools under arrangements between the appropriate community college and common school district, (c) permit the issuance of high school diplomas by the community colleges...and (d) provide for the administration of certain federally supported adult education programs by the superintendent...in cooperation with the state director of

community colleged;(2)boards of directors of common school districts ...[shall]...make arrangements with adults wishing to attend school; and (3) The state board...shall prescribe course requirements for high school completion and issue state high school certificates to those completing the said course."

"The board of education of any district . . . shall have authority also to provide for the free use of any school property" for community recreation and meetings.

"The board of education of any county shall have authority to enter into contracts of agreement . . . for the education of veterans in special classes of the elementary and high schools of the county.

The board of education of any county shall have authority to provide special classes for adult education and to charge tuition for members of such classes who are twenty-one years of age or over, . . . TUITION

The state superintendent of schools shall have authority to establish in the state department of education a division of veteran and adult education, and to provide for suitable coordination and supervision of such educational programs as are established" pursuant to this section. "All programs [so] established . . . shall be under regulations of the state board of education."

9. Summer Programs

IIA9

9. Summer Programs

Statutes

§51730 -- 51732

A governing body may establish, in connection with any elementary school under its jurisdiction, special day and evening classes and summer schools for instruction in any areas prescribed and authorized for the elementary schools.

These classes may be convened at such hours and for such lengths of time during the school day or evening and at such period and for such length of time during the year as may be determined by the governing authority in accord with state board rules and with the superintendent's approval.

Such classes shall be open to minors and adults who in the judgment of the governing board may profit from the instruction offered.

Regulations

§ 11471-11474

Summer schools may be established by the governing board with prior written approval of the Superintendent of Public Instruction.

Summer school shall include only authorized subjects which shall be of the same level of difficulty as regular classes.

Summer schools shall meet the following time requirements: SCHOOL DAY

Kindergarten -- Not less than 180* minutes per day including recesses for not less than 20 teaching days

Elementary (grades 1-8) -- Not less than 200* minutes per day for not less than 20 teaching days

High School

(grades 7-12)-- Not less than 240 minutes per day
for not less than 30 teaching days

Exemptions from these time requirements may be made by the Superintendent of Public Instruction on the basis of agricultural labor factors, climactic conditions and specialized educational programs.

§ 11475

Summer schools offering work experience education shall:

1) Comply with provisions of Article 5 of Chapter 1 of Division 10 of this code.

2) Maintain one certificated coordinator for every 25 students.

3) Provide for at least 180 minutes of group and individualized instruction each week in work experience.

4) Grant a maximum of ten units of credit.

CROSS REFERENCE

REGULATIONS

Rule 51.1

TUITION

a. Effective June 1977, tuition for a full summer term in all grade levels shall be $48.00.

b. Tuition shall be paid prior to the first session.

c. Tuition payments will be refunded on an adjusted basis, as the term progresses but no refund will be made after the third week of summer school.

d. In some cases, tuition payments may be waived on a first-come-first-served basis, provided state appropriated funds are made available to cover such waivers.

REGULATIONS

Accreditation Standards For Secondary Schools:
STANDARD III. E.

Summer schools

Summer session high school shall be approved by the local board and supervised by a certified administrator.

The accumulation of 3 units of summer school work may be accepted as the equivalent of an academic year.

Each school shall have a pupil activity program which shall not be subject to over or under-participation.

Four units courses are the normal yearly amount of work to be carried by the average pupil, excluding music and physical education. Only pupils with high rank in ability and achievement should be allowed to carry additional units. To graduate from an accredited high school a student must complete four years of attendance in grades 9-12.

Schools shall develop and maintain a definite guidance program which includes the following:

Individual and group counseling in the areas of education, employment and personal life.

Maintenance of records that contain pertinent data on all students from entrance to graduation.

Coordination of the guidance program with the total education program, including standardized testing.

Maintaining a counselor-pupil ratio of one counselor to 400 pupils.

Maintenance of a guidance library.

9. Summer Programs

9. Summer School

Statutes

§79-1001.02

Regularly enrolled pupils between ages 6 and 15 "deemed by the school administration to be making unsatisfactory progress" shall be required "to attend summer school for up to one half of a regular school day" if the pupils would benefit from it. Classes should emphasize "reading, language arts, and arithmetic, and . . . personality development . . . . Teachers shall be encouraged to design . . . techniques and curricula not usually used during the regular school year . . .[as] new incentives toward learning. Teachers should have a maximum of 15 students or 25 "if assisted full-time by an aide or paraprofessional. . . . Students shall be graded . . . upon their relative degree of striving to improve their skills, attitudes, and personalities." *

3. SUMMER PROGRAMS

REGULATIONS

§6:26-3.1

Regular public elementary school rules shall apply to those elementary summer programs. These summer programs are to be operated free, to district pupils, by the local board.

§6:26-3.2

Members of the district administrative, supervisory or teaching staff who are certified to supervise instruction shall be responsible for administration at the summer session.

Summer session teachers shall hold valid certificates for all subjects they instruct.

§6:26-3.3

Summer session pupil assignments for remedial courses shall rest upon recommendations by principals of schools which pupils regularly attend, naming subjects and purposes for assignments.

The equivalent of one years work in a subject in enrichment or advanced work shall be regarded as a maximum. In remedial work, two subjects shall be regarded as a maximum.

§6:27-3.3

Pupil assignment for summer session remedial courses shall be based on the permission from the principal of the school which the pupil regularly attends, naming the subjects which the pupil may take and the purpose for which each subject is taken. In remedial work two subjects shall be regarded as a maximum.

10. Other - Educational Programs in Prisons

CROSS REFERENCE

I.State Board of Education: Statute §16-3-20

10. Other - Citizenship Night Schools

Regulations

4AAC 33.010

Citizenship night schools shall be established in communities where there is sufficient demand and funds appropriated. The cost shall be reimbursed by the state.

10. Other - Community School Program

Statutes

§14.36.010 -- 14.36.070

It is the intent of the legislature that Alaska develop a program of grants to assist the development of community schools and provide technical assistance and coordination for the community school program. The community school program is designed to promote a "more efficient use of school facilities through an extension of buildings and equipment beyond the normal school day." To receive a grant, a local attendance area shall develop "a comprehensive plan for the community school program, including, but not limited to, before and after school hours activities for both children and adults, continued educational programs for children and adults, and cultural enrichment and recreational activities for citizens in the community."

10. Other-Correspondance Courses

Regulations

4AAC 33.030

"(a) Students living in localities where they do not have daily access to a regular school program for their education grade level may apply for enrollment in the department's centralized correspondence study program at any time.

(b) Students living in localities where they have daily access to a regular school program for their education grade level who choose to participate in the department's centralized correspondence study program must apply for enrollment in the department's program before the end of the first quarter of the school year. Applications received by the department after that date will be processed as applications for enrollments for the following school year, unless the commissioner approves an earlier enrollment date.

(c) Students enrolled in the department's centralized correspondence study program who voluntarily drop the program during a school year without the permission of the department for good cause shown and enroll in a regular school program to which they have daily access may not be included in the local school district's computation of average daily membership for that school year. The local school district may, in its discretion, charge those students the same tuition rate which it would charge students attending its school who reside outside the school district.

(d) The commissioner may require progress reports from students enrolled in the department's correspondence study program as he[she] considers necessary, and he[she] shall, in the absence of good cause shown, refuse to furnish additional courses if satisfactory student participation or progress is not noted."

CROSS REFERENCE

III.C.School System; Regulation 4 AAC 33.080

10. Other-Community School Program

Statutes

§15-1171 -- 1176

High school and common school districts may enter into agreements to construct and develop recreational facilities on public school property. The establishment of "community school programs" will serve the community by providing recreation and supplementary education. Any school district board may establish a community school program and may charge tuition and fees for its use.

CROSS REFERENCE

IV.E.; Statute §15-1171 -- 1176

10. Other - Native American Education

Statutes

§15-1161

The state board of education may enter into contracts with the Department of the Interior to provide for the education of Indians in the public schools.

10. Other-Teacher Training Schools

Statutes

§15-901--903

Teacher training schools shall be part of the public school system and governed by the same laws. Teachers need not be certified in order to teach in the training schools. The district board of trustees shall supervise the school and prescribe rules for the admission and attendance of school age children.

10. Other - Abstract Mathematics Program

Statutes

§ 54682 -- 54689

Any district maintaining an elementary school with a high percentage of educationally needy children, meeting provisions of Title I of the Elementary and Secondary Education Act of 1965, as amended, is eligible for the abstract, conceptually oriented mathematics program and may apply to the state superintendent for approval of the establishment of such a program. "Abstract, conceptually oriented mathematics" means mathematics which includes such general topics as algebra, number theory, set theory, elementary logic, coordinate geometry, combinations, and intuitive geometry and which are taught at secondary or college level sophistication, with an approach annual at the understanding of the underlying relationships and structure of mathematics.

The number of districts whose applications may be approved shall not exceed 4.

Abstract, conceptually oriented mathematics classes shall be in addition to regular mathematics classes for educationally needy children in participating schools. Consisting of at least 40 minutes, but not more than 60 minutes, each and utilizing the discovery method (a mode of teaching that assures attentive answers through questioning and inductive reasoning), they shall be held not less than four times per week on separate days of the week.

In-service training of a local teaching staff shall be accomplished by having the regular classroom teacher present during the project class sessions. The mathematics specialist shall consult for at least one additional period per week with the school district staff involved in the project.

The mathematics specialist shall have at least the equivalent of 36 semester hour credits in mathematics from an accredited college or university.

The state superintendent may contract with a nonprofit corporation knowledgeable about an abstract, conceptually oriented mathematics program to carry out §54682 et seq., including but not limited to: recruiting, training, placing, and and supervising the mathematics specialists, coordinating all matters, and providing in-service training.

The program shall be monitored by the state superintendent to ensure that classes are conducted according to the contract. The superintendent shall withhold funding for classes that do not satisfy the contractual agreement.

The superintendent shall publish guidelines for participating districts which shall contain specific instructions for the systematic collection of necessary information.

The state superintendent shall provide for an evaluation of the district, conceptually oriented mathematics program, which shall include, but not be limited to: an assessment of its impact on mathematics achievement of target pupils and an analysis of changes in motivation, interest, and self-image among the same pupils. The superintendent shall contract with an independent, non-profit agency to conduct all of the evalution.

The superintendent shall report at least annually the findings of such evaluations to the state board.

REGULATIONS

§ 11301-11306

Applicants for specialized math programs must follow program "Guidelines". Mathematics achievement tests shall be given to pupils in classes participating in the programs to determine the effectiveness of the program. Tests shall be submitted to the Department of Education for scoring and statistical analysis.

TESTING

Districts administering programs shall submit an annual report and any other reports required by the Department.

§ 11320-11325

The following standards apply to Program I to improve mathematics instruction:

a) The district is willing to conduct the program for its duration or for three years.

b) A control class is paired with each class taught by a Program 1 teacher and mathematics is taught in a participating class the same amount of time as in a control class.

c) Instructional materials for in-service training are paid for by the State.

d) Each participating class is instructed for 40 minutes four days a week.

§ 11330

The following standards apply to an accelerated math program:

(a) Only pupils with demonstrated aptitude and talent for mathematics are in the program.

(b) Materials produced by the program are made available to the State Department of Education for distribution to public schools.

(c) The district files a copy of the fully executed contract with a neighboring cooperating junior college, college or university ... [and with] ... the Department of Education.

10. Other - Alternative Schools

Statutes

§58500 -- 58514

A governing board may establish and maintain one or more alternative schools.

An alternative school or class shall be designed: to maximize the opportunity for students to develop the positive values of self-reliance, initiative, kindness, resourcefulness, courage, creativity, responsibility, and joy; to maintain a learning situation maximizing student self-motivation and encouraging students in their own time to follow their own interests; maximize cooperation between teachers, parents, and

students in the learning process; and maximize the opportunity of students, teachers, and parents to react continuously to the changing world.

A notice describing the character of an alternative school shall be sent along with the notification of parents and guardians required by §58980. The notice shall indicate that the law authorizes interested persons to request a governing board to establish alternative school programs.

A copy of this notice shall also be distributed annually to each teacher of the district and posted conspicuously in schools and educational buildings.

A parent or guardian of any pupil may request the governing board to establish an alternative school program.

Provisions related to alternative schools (§§58500 to 58514) shall cease to be operative July 1, 1980, and are then repealed.

Teachers employed and students enrolled in an alternative schools shall be selected entirely from volunteers. Previous classroom performance shall not be a criterion limiting any student from attending.

There shall be no racial, sex, or ethnic discrimination in any aspect of the operation of alternative schools.

EQUAL OPPORTUNITY

Each district may enroll not more than 10 percent of its total average daily attendance during the preceding fiscal year in alternative schools. The maximum percentage may be waived by the state superintendent if the district shows that it is continuing to operate its alternative program without loss of its experimental value. However, the state superintendent shall not waive any provision of this code (as under §58509) for a district which exceeds the maximum.

Alternative schools shall be operated in a manner to maximize the opportunity for improvement of the general school curriculum by innovative methods and ideas developed within the alternative school operation.

Any alternative school shall be maintained and funded by the district at the same level of support as other educational programs.

For the operation of alternative schools, the state

superintendent may waive any provision of this code other than those relating to earthquake safety and provisions §§58500 to 58514.

EVALUATION

Each district operating an alternative school shall annually evaluate it. The evaluation shall include pre- and post-testing of basic skills and identify variables which may have affected student academic achievement, and shall be sent annually to the state superintendent. The state superintendent shall annually submit to the Legislature a report showing the number and type of alternative schools being operated and their success as reported by the districts.

The state superintendent shall establish minimum standards to further implement the definition of alternative schools used by §58500.

A governing board may provide in whole or in part for the transportation of a pupil attending an alternative school or pay to the parent or guardin a sum covering the actual cost of transporting a pupil. In no case, however, shall a district's state apportionment for transportation be increased because of the operation of an alternative school.

REGULATIONS

§ 11651-11654

Alternative schools may be established pursuant to Article 2.3, Chapter 6, Division 6, Part 2 of the Education Code. A district which approves an alternative school shall "notify the Superintendent of Public Instruction giving the name, expected enrollment and beginning date of the school.

WAIVER

Each district may submit an application for an enrollment waiver pursuant to Education Code Section 5813.5 or 5816.

EVALUATION

Any district establishing an alternative school shall provide an annual evaluation of that school according to the requirements of Section 5816.5 of the Education Code.

10. Other - Child Development Program

Statutes

§8200 -- 8201

The purpose of this chapter is as follows:

(a) as part of the education system provides for the care and development of children in the absence of their parents which places primary emphasis on: 1) the preparation of preschool age children for effective matriculation in the education programs of their community when they reach school age, and 2) the improved educational performance of children of school age with particular emphasis upon those children who require special assistance including bilingual capabilities to attain their full potential;

(b) provide parents with an opportunity to reach the level where they may offer proper care for their children;

(c) provide a comprehensive system of child development services.

§8202

No child shall be hungry while in attendance in child development facilities. These facilities have an obligation to provide for the nutritional need of children in attendance.

§8203 -- 8206; 8211

In providing child development programs priority will be given to children of families who qualify as low-income and disadvantaged. All programs and assistance for the aid of such children shall be sought out. It will be the Department of Education that is responsible for the promotion, development, and provision of care for such children.

Child development services may include:

(a) activities for prekindergarten children; (b) full or part-day supervision, etc. for children 14 years of

age or younger; (c) full-or-part-day supervision, etc. for children five years of age or younger; (d) full or part-day supervision, etc. for children 14 years of age or younger, for less than 24 hours a day, in a licensed home; (e) instruction in children's developmental activities for parents with prekindergarten children; (f) necessary social services; (g) health screening and health treatment; (h) nutrition services; (i) late-hour supervision.

§8240 -- 8250

The Department of Education shall develop and promote a full range of services as are essential to the creation of a child development program which will meet a wide variety of child needs. Priority shall be given to the employment of persons in such programs with ethnic background which are similar to those of the children receiving services.

The state shall also offer training and job opportunities in local child development programs for recipients of public assistance.

The Superintendent of Instruction shall be held responsible for a range of programs for child development where the need exists; and he/she shall enter into appropriate agreements to that end.

In addition to these duties, the Superintendent of Instruction shall:

(1) adopt rules and regulations that provide for procedures and standards for the accreditation of neighborhood family day care homes; (2) be responsible for the formulation and conducting of public hearings essential to the establishment and promotion of all aspects of child care; (3) provide a basic plan for the filing of claims, etc., (4) adopt rules for determining eligibility and priority of service; (5) establish a fee schedule for families utilizing child development services, no recipient of such services shall pay a fee.

RULEMAKING

Representatives of higher education in California may establish and maintain child development centers on or near their respective campuses.

MEDICAL EXAMINATION

IMMUNIZATION

WAIVER

§8252 -- 8256

No standard, rule or regulation shall require medical examination or immunization for admission to a child's center of a child whose parent or guardian files a letter stating that such is contrary to his/her religious beliefs.

The State Board of Education shall prescribe minimum education standards for child development programs.

For the purpose of bettering child development programs the Governor shall appoint an advisory committee comprised of selected persons from different sectors of the community, which will assist and evaluate.

Arrangements shall be made for the employment of the community social service personnel deemed necessary to provide the necessary services for those parent-child adjustment problems which arise.

Standards shall be established for the qualification of any child development facilities as places of instruction and on-the-job training in pre-school child development services fulfilling requirements for teaching credentials and permits persons enrolled in child development courses.

§8280 -- 8285

This section provides for the establishment of a pilot study to develop and test a coordinated child care delivery system which shall provide the parent a choice in selecting quality child care to fit their needs. This section also provides for the selection of the site for such a pilot study, which is to be administered by the Department of Education, with the Director of the Department of Finance and the Secretary of Health and Welfare Agency serving in an advisory capacity.

§8320 -- 8370

The governing board of any school district is authorized to establish and maintain child development programs. The superintendent of schools in each county shall have the same authority to establish children in centers as governing boards of schools.

Children residing in other districts may attend child development facilities.

Employees in preschool and other types of child development services shall have the same rights and privileges as are granted to employees of the same agencies in children's centers.

Participants in the program may be provided with work incentive programs.

Funds, agremeents and budgets are to be established by the governing board of any school district for the purpose of aiding the child development program.

The governing board of a school district shall employ in a children's center only such persons who hold permits properly issued, and these persons shall be required to have proper physical examinations.

A high school student or any other adult shall be selected by the governing board of a school district to serve as nonteaching personnel to perform noninstructional work.

Children's center permits may be either regular or provisional in nature.

A special child development permit shall be issued to any person employed as a supervisor conducting a child care and development program under contract with a county who did not meet the requirements for an emergency instructional permit authorizing service in children's centers, and shall be valid for 36 months. During this period of time, given certain requirements are met, a person may be issued either an emergency instructional permit or a supervision permit.

Service under a provisional permit shall not be included in computing the service required as a prerequisite to attainment of classification as a permanent employee of a children's center. Temporary certificates may be issued for the purpose of authorizing salary payments to children's center employees whose permit applications are being processed.

Each person requiring a permit shall be deemed to be employed in a position requiring certification qualifications. Such employees may be laid off at any time for lack of work, funds, etc. All such employees to be included in the retirement system, and shall receive all proper compensations.

REGULATIONS

§ 18010-18013

Campus Child Development Programs may be operated by public or private non-profit agencies.

The program shall be located on the campus.

Parents who are enrolled in an approved academic or vocational program or an educational work-in-training program in a public or private post-secondary institution leading to a "degree," or "diploma" as defined in Section 29002 of the Education Code, are eligible for subsidized child care in a Campus Child Development Program if the family's gross income falls within or below the income range established by the Superintendent of Public Instruction.

The Campus Child Development Program may provide services for infants and children up to 14 years of age, to the extent that facilities allow.

Student families who are not eligible for State subsidy may be enrolled at full hourly cost providing the services rendered to all families are comparable.

§ 18014-18015

The programs shall be maintained for daily hours as determined by the governing board of the Operating Agency. The Operating Agency shall provide the following services to student families enrolled:

(a) Supervised care of students' children while the parent or parents are attending classes, working, counseling, studying or preparing for and taking examinations.

(b) An educational program for the children commensurate with their individual developmental needs.

(c) Nutrition in the form of breakfast, lunch or

snacks, as determined by local need.

(d) Opportunities for the parents to participate with their children at the site, to become members of the Advisory Council, and to attend parent education classes.

(e) Health Screening, immunization and referral services to the extent that campus and community health facilities are available.

(f) Social services including referrals for family counseling available on campus or at other public or private community agencies.

§ 18016

Each agency shall develop and make available to the public, written admission procedures according to local needs and as required by this article. These procedures shall include, but need not be limited to, those set forth in Section 18150(c), (d), (e) and (f) of this title. The parent(s) class, work or study schedule shall be included in the information obtained pursuant to Section 18150(f)(2)(B).

§ 18019

Attendance records shall be kept in accordance with requirements of the Superintendent of Public Instruction. The following attendance records shall be kept:

(a) A record of hours of attendance shall be kept separately for state-eligible children. This attendance record shall be supported by a sign-in, sign-out time system for recording daily attendance.

(b) A record of absence due to illness or quarantine shall be kept and verified by contact with the parent. Absence due to illness or quarantine when properly verified is allowable as attendance for reimbursement purposes for the number of hours per day for which the child is enrolled.

§ 18021

Physical facilities shall comply with all applicable state and local statutes and ordinances, and standards prescribed in Section 18169 of this title and shall be appropriate to the needs of the children in the program.

§ 18024

Each agency operating a Campus Child Development Program shall establish an evaluation procedure related to program objectives. Documents shall be kept to support the evaluation results and shall be submitted to the Superintendent of Public Instruction as required.

Programs may be evaluated periodically by the State Department of Education in a form and manner determined by the Superintendent of Public Instruction.

CROSS REFERENCES

III.B.Teachers; Regulation §18020

III.D.Child Development Program; §18022

10. Other - Citizenship Classes

Statutes

§52550--52556

In counties in which the U.S. district courts are located, the county superintendent shall obtain monthly from the court clerk the names and addresses of all persons filing declarations of intention to become U.S. citizens or petitions for naturalization. The superintendent shall send a notice to the applicants stating that the governing board shall establish upon application classes in training for citizenship.

Upon application of 25 or more persons, the governing board shall establish such classes. Upon demand the board may establish the classes with a lesser number of applicants. Application shall be made in time to permit the governing board to arrange to meet the expenses of the classes.

Upon satisfactory evidence that a district required to do so has failed to establish citizenship classes, the state and county superintendents may withhold 5 percent of state and county apportionments until the district has complied.

COURSE OF STUDY

The course of study in citizenship training shall consist of the teaching of U.S. history, state and community civics, the U.S. Constitution, and allied subjects such as will properly prepare the applicants to assume the responsibilities of citizenship.

Classes shall be held at least twice a week for three months. At the close of this period if enrollment has fallen to 10 or less, the governing board may discontinue the class for that year.

10. Other - Community Service Classes

Statutes

§51810 -- 51815

A governing board maintaining secondary schools is authorized without state approval to establish community service classes in areas of civic, vocational, literacy, health, homemaking, technical and general education.

Such classes shall be open to adults and such minors as may profit from them. They may be convened at such hours and for such length of time during the day or evening and at such period for such length of time during the school year as the governing board determines. Governing boards shall have the authority to grant appropriate certificates of accomplishment in such classes.

Attendance shall not be reported to the state and no state apportionment shall be made for the maintenance of such classes.

Governing boards may expend from the general fund any money budgeted for community services to maintain community service classes and may charge fees or may provide instruction for remuneration by contract, or with contributions or donations.

10. Other - Continuation School

Statutes

§48430; 48436

Continuation education schools and classes shall attempt to meet special educational needs of pupils by providing an opportunity for the completion of required academic courses for high school graduation, a program of individualized instruction emphasizing occupational orientation or a work-study schedule, an individualized program of instruction and guidance for pupils with behavior or severe attendance problems, or a combination of these.

The state board shall prescribe and enforce standards and regulations for guidance and instructional programs in continuation education, for reimbursement for it, and for personnel certification.

§48431; 48432; 48437; 48438

The governing board of each high school and each unified school district shall establish special continuation education classes and may establish regional occupational programs, whenever there are minors in the district subject to compulsory continuation education.

The state department may exempt a school from this requirement if there are fewer than 100 students enrolled in grade 12 or if a district seeking exemption has entered into an agreement with another district to maintain special continuation classes for minors in either district (but not if the agreement would make it necessary for such minor to travel an excessive distance from their homes).

If there is a regional occupational program within a county, a governing board may enroll minors, otherwise subject to, and in lieu of, continuation education, in the program.

A governing board: shall establish a program of guidance, placement, and followup for all minors subject to compulsory continuation education; may accept and expend federal funds and other funds for purposes of continuation

education; and shall provide for an independent study of the effectiveness of its program and file it with the state department.

§48433; 48434; 48435

Continuation classes shall provide suitable instruction for persons required to participate in them. At least four 60-minute hours of instruction per week for each minor within the district who is subject to compulsory education shall be provided.

Such classes shall be maintained between 8 a.m. and 5 p.m. or, if the governing board deems it necessary, 6:30 p.m. However, if a district maintains adult classes, continuation classes may be held when adult classes are held, day or evening.

CROSS REFERENCE

IV.G; Statute §48413

10. Other - Correspondence Instruction

Statutes

§51740 -- 51741

A governing board maintaining secondary schools may, subject to rules prescribed by the state board and on the state superintendent's authorization, provide pupils enrolled in regular day schools of the district with instruction by correspondence provided by the University of California, or other university or college in California accredited for teacher training, in subjects included within or related to the course of study offered

in the school and which for good reason cannot be taken by the pupil.

A governing board may also provide veterans enrolled in district schools with correspondence instruction provided by institutions referred to above or by any other university, college, school or institution approved by the state superintendent in subjects necessary to adjust the veteran to an occupation and which, for good reason, cannot be given in the school.

In either case, the governing board shall pay for the instruction.

10. Other - Data Processing Program Center

§10500 -- 10556

The governing board of a school district may establish and maintain educational data processing centers.

A regional education data center may consist of either of the following: (a) one educational data processing center having an average daily attendance of 100,000 or more pupils; (b) one such center that provides data processing services to two or more school districts within or without the county, having a combined average daily attendance of not less than 100,000 or more than 300,000 pupils.

The functions of such centers shall include the processing and reporting of information relating to programs of instruction, school business administration, and pupil personnel data.

Requirements for such a center include: (a) it must possess equipment, personnel and funds sufficient to convert and correlate basic source material into data processing form by use of a basic data system; (b) it meets established minimum standards.

There shall also be administered an independent data-processing center, that is to be overseen by a board composed of one representative of each of the

participating local education agencies and one public member who shall be appointed.

The board of such a center: (a) shall adopt rules and regulations for its own government; (b) shall determine the location of the center; (c) shall establish and administer the operating budget of the center; (d) may contract with public or private agencies for service or with participating local education agencies; (e) may employ such staff as the board deems necessary.

10. Other - Demonstration Scholarship Program
§58000 -- 58051

It is the intent of the Legislature to enable one or more school districts to participate in no more than four demonstration programs designed to develop and test the use of education scholarships for school children.

The Demonstration Scholarship Program is designed to test the proposition that permitting school children at all levels and parents to choose among schools, including schools offering different approaches to instruction, will develop a school system move responsive to the students it serves.

A governing board or combination of governing boards may contract with a state or federal governmental agency to establish a demonstration scholarship program and to receive funds to support such programs. Any governing board decision related to such a program is a proper subject for meeting and conferring under §7100 et seq.

The demonstration scholarship program shall be administered by the demonstration board (the governing board or combination of governing boards or a board appointed by participating boards, contracting with a state or federal agency, to conduct the program). The demonstration board shall adopt regulations for the administration of the program, providing that: comprehensive information on all eligible schools and available opportunities under the program shall be disseminated to the parent or guardian of each eligible child in the demonstration area prior to the commencement of the school year for which the demonstration scholarships are to be issued; and the demonstration board shall ascertain that no arbitrary action by any school would

invalidate the admissions standards, and may review, approve, and disapprove the expulsion or suspension of any student by any eligible school.

There shall be an advisory board consisting of parents, teachers, administrators, and other appropriate persons selected by procedures developed by the demonstration board.

Scholarship funds may be made available for the 1973-1974 school year and for six subsequent years.

The demonstration board shall award a scholarship to each school child residing in the demonstration area, subject only to age and grade restrictions which it may establish. Scholarship funds shall be made available to the parent or legal guardian of a scholarship recipient in the form of a voucher, drawing right, or certificate which may not be redeemed except by participating schools. All scholarships are exempt from state income taxes.

The demonstration board shall establish the amount of the scholarship in a fair manner. There shall be a basic scholarship for every eligible student; the method of computing the scholarship's value shall be included in the contract. In addition, there shall be a compensatory scholarship for disadvantaged children; the amount and the manner by which children may qualify for it shall be included in the contract.

The contract shall provide for additional pupil transportation costs incurred by the district as a result of the demonstration.

The demonstration board shall authorize the parents or guardians of scholarship recipients to use demonstration scholarships at any school in which the scholarship recipient is enrolled which also: (a) Meets all health and safety standards (b) Does not discriminate in the admission of students and the hiring of teachers on the basis of race, religion, color, national origin, economic status, political affiliation, or sex, and has filed a certificate with the state board that the school is in compliance with Title VI of the Civil Rights Act of 1964; and provides that students from racial or bilingual minority groups be admitted in proportion as such

students make application; and takes an affirmative position to secure an integrated student body, reflecting the racial, ethnic, and socioeconomic composition of the demonstration area. Any school that receives applications in excess of enrollment capacity shall fill at least 50 percent of its enrollment capacity by a lottery among applicants, except when the contract provides that students currently enrolled and their younger siblings are not subject to the lottery. The demonstration board shall immediately investigate all complaints of violations and shall suspend redemption of any scholarships by any school or violation. The demonstration board's decision shall be final, except for any subsequent judicial review. If an otherwise eligible school is subsequently found ineligible, the demonstration board shall immediately notify parents and guardians of students in attendance of such ineligibility and shall provide for the student's continuing education at another school.

TUITION

(c) In no case levies any tuition or charge to the student above the value of the scholarship.

(d) Files with the demonstration board a statement of financial responsibility.

(e) Provides public access to all financial and administrative records and provides to parents and guardians comprehensive written information on courses of study offered, curriculum materials and textbooks, personnel qualifications, salary schedules, the minimum school day, the actual maount of money spent per pupil, and such other information as the demonstration board requires.

(f) Offers a comprehensive course of study in the basic skill areas of mathematics and the English language.

(g) Maintains a register of reports, including monthly attendance.

(h) Expends scholarship funds exclusively for the secular education of students.

A participating local board: shall not require a certificated employee of the district to serve in a participating school except according to procedures approved by the certificated employee council of the demonstration area; shall

involve certificated employees in the development of the program; shall employ in each school a teacher coordinator, selected by teachers in the school and assigned coordinator duties in place of a portion of regular teaching assignments; and shall make available in-service training relevant to the program.

SUSPENSION

NOTICE

HEARING

The demonstration board: may suspend redemption of scholarships by any school not complying with provisions related to the program, after notice and hearings; shall establish a parent-teacher needs assessment committee to evaluate how well educational needs of pupils in the demonstration area are being met by participating schools; may rent or lease any of its property or facilities for the program's duration; may authorize any certificated or classified employee to take a leave of absence for the duration of the program to accept employment directly related to the program; may employ a staff for the demonstration board; may receive and expend funds to support the program; may contract with other public and private agencies to provide or receive services or materials; may determine rules for the use of scholarships in the demonstration area and for its own government; establish criteria for and make selection of textbooks, regardless of provisions elsewhere in this code; and shall develop an evaluation system for the program.

Meetings of the demonstration board shall be open to the public. Residents of the demonstration area shall be afforded the regular opportunity to express themselves before the board.

The state superintendent and other educational officers shall take actions within their power to assure that the demonstration board and participating schools have sufficient flexibility to carry out the intent of the program.

WAIVER

The state superintendent may waive selectively the application of provisions of this code (except for those of this chapter); at a demonstration board's request. Such waiver may be requested on behalf of participating schools and on behalf of certain non-participating schools within the demonstration area. The purpose of waivers to non-participating schools is to permit the establishment of a control group of schools of comparable characteristics and size with the flexibility to

innovate in education without using demonstration scholarships. Thus, the progress of students and the type and variety of educational offerings of control group schools may be compared with that of schools participating in the Demonstration Scholarship Program.

The participating local board shall receive all public funds allocable to the demonstration area and transfer these funds to the demonstration board for use in the demonstration scholarship program.

Participating schools may receive grants or gifts from foundations, charitable trusts, governmental agencies, or other public or private sources. Participating schools shall maintain financial records which clearly report all income used to defray actual costs of educating students in attendance. This, however, shall not be construed to permit schools to receive funds for the purpose of supplementing the demonstration scholarships.

A demonstration board may permit privately owned schools to participate in the demonstration scholarship program on a selective and experimental basis, provided that such a privately owned school, for the duration of its participation, shall operate under the exclusive control of officers of the public schools, specifically, the demonstration board, and shall meet all requirements of this code. Each participating privately owned school shall enter into an agreement with the demonstration board setting the terms of participation.

"Privately owned school" shall exclude any institution controlled by any religious creed, church or, demonination or with its goal, the furtherance of any religious creed, church, or denomination.

The demonstration board's control shall include the power: to promulgate general regulations regarding the use of demonstration scholarships; to establish the amount of scholarships; to prescribe regulations binding on participating schools; to establish standards for teachers, instructors, and textbooks; to review and approve the supervision or expulsion of a pupil at a participating school; and to make any appropriate use of participating school facilities, equipment and supplies.

10. Other - Dropout Prevention Program

Statutes

§54661 -- 54663

Elementary and secondary school dropout prevention programs shall be established to reduce the number of children who do not complete elementary and secondary education in urban and rural schools with higher concentrations of children from low-income families and with high dropout rates. It is the legislature's intent that all existing district, state, and federal programs related to dropout prevention be integrated with dropout prevention programs created hereby.

Any district may submit an application to establish a dropout prevention program with a detailed plan including the following:

(a) a description of the proposed programs including innovative methods system, materials, and performance objectives;

(b) proposed procedures to coordinate the program with other dropout prevention programs;

(c) evaluative techniques and objective measures to be used;

(d) proposed educational and administrative staffing;

(e) steps taken to develop the proposed program, including involvement of potential participants and their families; and

(f) the district's elementary and secondary dropout rate for the three years preceding the application.

In approving applications, the state board shall give priority to acceptable applications from districts with the highest concentrations of children from families with an annual income of $4,000 or less and district which exceed the average statewide dropout rate.

The state board shall adopt regulations necessary to implement §54661 et seq. and allocate funds for these purposes and may grant waivers for any education code provision as may be necessary for the development of an effective dropout prevention program.

Districts with such programs shall report to the state board the effectiveness of programs in reducing the number of dropouts. On the basis of such reports, the state board shall

report annually to the Legislature on the success of the program and make recommendations for improvements.

The Department of Education shall administer provisions related to dropout prevention and all programs financed under Title VIII of the Elementary and Secondary Act of 1965. The state board shall allocate funds annually received by California under this Title.

10. Other - Education of Prisoners

Statutes

§1900 -- 1909

Classes or schools shall be maintained for prisoners in any county jails, county industrial farm or joint county road camp for the purpose of providing instruction in civics, vocational, literacy, health, homemaking, technical and general education. Under this provision diplomas or certificates may be awarded upon successful completion of a prescribed course of study.

Classes or schools may be established and maintained in connection with the jail facilities for the education and vocational training of the prisoners. Necessary funds shall be transferred as necessary for such programs. The provisions herein are applicable only to Riverside and Marin County.

10. Other - Emergency Schools

Statutes

§1920 -- 1925

This article deals with providing elementary education for children residing in a county or for children of migratory laborers engaged in seasonal industries within the county whenever an emergency school education is necessary.

This shall include the maintenance of said schools, the providing of teachers, and transportation for pupils involved.

This provision includes the purchase and/or construction of building and sites for such schools. The formula for computation of average daily attendance is provided.

10. Other - Evening Schools

Statutes

§51720 -- 51724

A governing board maintaining a high school and a continuation education program may establish evening high school programs for minors subject to compulsory attendance. A governing board may establish the number of days and the specific days of the week on which such a session shall be in session as well as the number of hours each day.

The program shall consist of courses similar to the regular high school curriculum. Credit for course work shall be acceptable by all regular day high schools of the district.

The attendance of a minor at an evening high school shall be voluntary, but the written permission of the minor's parent or guardian is required.

A pupil's attendance in an evening high school program shall not result in the crediting of more than one unit of average daily attendance, even if the pupil also attends one or more classes in the regular high schools of the district.

10. Other - Evening Study Halls

§51710

The governing board of any district maintaining a high school may establish evening study halls for high school pupils. Evening study halls shall be under the supervision of certificated personnel employed at the high school who volunteer their services. The compensation for such personnel shall be in amounts determined by the governing board and be paid solely from revenues provided by the district.

CROSS REFERENCE

II.A.9; Statute §51730--51732

10. Other - Farm Labor Driver Training Course

Statutes

§40070

The Department of Education shall develop a course for the training of farm labor vehicle drivers that will provide them with the skills and knowledge necessary to prepare them for an examination for certification.

10. Other - Home Instruction

Statutes

§51800 -- 51802

A governing board may employ "home teachers" not exceeding one teacher for every 500 units of average daily attendance in the elementary or high schools of the district to work in the homes of pupils, instructing children and adults in matters relating to school attendance, in sanitation, in the English language, in household duties, and in the fundamental principles of the American system of government.

Home teaching for pupils afflicted with any sort of handicap may be provided on Saturday. No pupil shall be required to attend home teaching on Saturday without the consent of the parent or guardian.

10. Other - Independent Study Program

Regulations

§ 11701-11703

The governing board of any school district conducting independent study shall adopt written policies to govern such study.

Written agreements which include:

1) a statement of objectives;

2) an evaluation procedure;

3) the duration of the study contract;

4) signature of any person other than school staff who will be assisting students.

Record keeping and reporting shall be the responsibility of the local district.

10. Other - Indian Education Center

Statutes

§33380 -- 33384

"The California Indian education centers established pursuant to this article shall serve as educational resource centers in Indian communities to the Indian students, parents, and the public schools. The centers shall be designed to: Improve the academic achievement of Indian students with particular emphasis on reading and mathematics; Improve the self-concept of Indian students and adults; Increase the employment of Indian adults; Serve as a center for related community activities; Provide tutorial assistance to students in reading and mathetmatics; Provide individual and group counseling to students and adults related to personal adjustment, academic progress, and vocational planning; Provide coordinated programs with the public schools; Provide a neutral location for parent-teacher conferences; Provide a focus for summer recreational sports and academic experience; Provide adult classes and activities; Provide college-related training programs for prospective Indian teachers; Provide libraries and other related educational material.

The State Board of Education upon the advice and recommendations of the Superintendent of Public Instruction, shall adopt guidelines for the selection and administration of the California Indian education centers.

"Application for the establishment of a California Indian education center may be made to the State Board of Education by any tribal group or incorporated Indian association, either separately or jointly, upon forms provided by the Department of Education. The State Board of Education shall select up to 10 applicants for such centers."

The Department of Education shall annually evaluate the Indian education centers and report its findings.

10. Other - Individual Instruction

Statutes

§58400 - 58412

Recognizing that several schools have developed programs of individualized instruction which have greatly improved their students' achievement, the Legislature intends to extend the use of individualized instruction on a large scale, and to immediately organize a comprehensive program of individualized instruction based upon performance criteria in a major urban school district.

Such a comprehenisve program shall: address the range of socioeconomic-educational problems of urban school children; convert the entire curriculum for kindergarten through 12th grade and articulate the curriculum with a community college; fully integrate vocational education with the regular curriculum to acquaint students with a variety of career alternatives and to provide them with opportunities to acquire the combination of vocational and academic skills required for their individual objectives; draw together existing experience, techniques, and material in the field of individualized instruction and produce an increased fund of economically reproducible instructional resources to accelerate large-scale conversion of schools in other districts; provide a careful evaluation of the effectiveness of individualized instruction and the problems of conversion; provide a major opportunity to design and test the criteria and tools for measuring educational performance; and provide the Governor and the Legislature with more precise information on the fiscal requirements for converting schools to programs of individualized instruction.

"Individualized instruction based upon performance criteria" means an educational method in which: each student's individual characteristics play a major role in the selection of educational obejctives and of the course and materials of instruction; the time spent by each student in a given subject area is determined by the student's performance; and the performance of each student is measured by comparing the student's performance with a specific objective, rather than with the

performance of other students.

The Legislature also declares that funds are needed to convert the regular curriculum to individualized instruction adn to integrate vocational education and that, once these are accomplished, the program shall operate on funds regularly available to school districts.

The state board shall establish application procedures and select a school district to undertake an individualized instruction program.

In selecting the district, the board shall use the following criteria. The school district shall be a large urban unified district, have had an average daily attendance of not less than 30,000 for 1967-1968, have an agreement with a community college to articulate their curricula, and represent the range of socioeconomic-educational problems faced by urban schools. The local board, district officers, and the administrators and teachers of the schools shall be strongly committed to individualized instruction. The district shall plan on maximum participation of teachers and administrators in the program and have a plan for community involvement with the program. The cost experience of the program and the instructional technology used shall be readily transferable to other schools. The district shall have a written statement adopted by the local board setting forth the goals and, to the extent feasible, the measureable objectives of education in the district.

The state board shall conduct a thorough field review in order to make independent judgments of the suitability of a district to participate in the program.

The district selected to undertake the individualized instruction program shall have complete responsibility for the program's progress and success. The staff of the Department of Educarion shall serve as a resource team for the district

The state board may waive any provision of the Education Code (except §§15501 to 15518 and §39140 et seq.) which it deems necessary to waive to assure the program's success.

The district selected shall, at the program's inception, design an evaluation system and shall submit an evaluative report to the Governor, the Legislature, and the state board annually for three years.

The evaluation system shall be based on the set of goals established by the district and shall compare the effectiveness of schools involved in the program against other schools in the district striving for the same set of goals. The evaluation system shall include but not be limited to: measuring the relative success of students in defining and achieving their individual educational and career objectives; measuring changes in student performance and attitude, community support of the schools, and teacher morale, and measuring the costs of converting to individualized instruction and differences between the newly developed program and the former program.

District evaluation and reporting requirements required of the district shall not supersede other legal requirements, though the Department of Education shall make efforts to use the special evaluations required of this district to satisfy other legal requirements so as to minimize the administrative burdens of the district.

The Legislative Analyst shall: review the quality of the evaluation system designed by the district and report to the Legislature on the outcome of this review; analyze the problems of converting the curriculum to individualized instruction; analyze the problems of basing the curriculum on performance criteria; and use the transferability of components of the individualized instruction program to other districts; analyze the waiver of any provision of the Education Code that was requested by the district and granted by the state board to determine if statutory or constitutional changes are necessary to encourage and assure success of conversion of other districts to individualized instruction; and carry out other analytical tasks as deemed appropriate.

The Legislative Analyst shall file a final evaluative report with the Governor, the Legislature, and the state board not later than January 5 following four years of operation of the program.

The Department of Education shall develop a plan to systematically individualize instruction in the public schools and integrate vocational education with the regular curriculum. The plan shall:

(a) Be submitted by September 15, 1973.

(b) Specify the fiscal requirements for the conversion effort and the support of such schools after the effort. The department shall prescribe the role, if any, which funds from at least the following sources shall play: the Elementary Secondary Education Act, the National Defense Education Act, the Economic Opportunity Act, the Vocational Education Act, and the Miller -Unruh Basic Reading Act.

(c) Specify criteria for selection of school districts, including but not limited to criteria set forth in §58404, and indicating that the next schools to participate shall reflect distinctly different educational environments such as a high concentration of social or ethnic minority students or very low assessed valuation per average daily attendance.

(d) Present a design for long-term evaluation of the success and progress of the conversion program.

(e) Outline the requirements for technical assistance to school districts.

(f) Specify changes needed in state textbook policy to assist the conversion program.

(g) Set forth other information as the department may deem necessary.

10. OTHER - INNOVATIVE PROGRAM

STATUTES

§ 12052

Districts shall give priority to projects or programs that provide for innovative methods for utilization of teachers and classroom space and for the evaluation of those methods.

10. OTHER - MATHEMATICS IMPROVEMENT PROGRAM

STATUTES

§54300 -- 54301

Funds and services for mathematics improvement programs shall be provided first to districts, and to particular schools within districts, for which the most comprehensive plans have been developed to evaluate the effectiveness of programs and secondly to districts in which the need for mathematics instruction is greatest

and the financial ability of districts to provide it is least.

Mathematics improvement programs shall be afforded to pupils at all levels and shall be administered by the state superintendent under regulations adopted by the state board which shall include minimum standards and criteria for all programs and provide for submission of periodic reports by all participating districts. Programs may be consolidated or conducted in conjunction with other mathematics programs being conducted in the public schools, if the evaluation of the programs is not thus rendered impracticable.

The Department of Education shall enter into a contract with the Regents of the University of California for the recruitment, training, designation, and supervision of mathematics specialists employed in the mathematics specialist program. The cost of the contract shall not exceed $50,000.

§54341 -- 54344

A school district maintaining elementary grades and participating in the mathematics specialist program may apply, in a manner and on forms provided by the state superintendent, for an allowance for the employment of mathematics specialist teachers. No allowance shall be made by the superintendent unless the superintendent approves the application and certifies that all state board requirements are met. Allowances shall be made as early as practicable in the fiscal year.

The superintendent shall allow to each eligible district an allowance equal to the total salaries to be paid mathematics specialists employed by the district, diminished by the product of the ratio which the assessed valuation per unit of average daily attendance during the preceding fiscal year in kindergarten and grades 1 to 8 in the district bears to the assessed valuation per unit of such average daily attendance in the state and one-half of the total of salaries to be paid mathematics specialists in the district.

Mathematics specialists shall be selected by the school districts based upon a list of qualified teachers submitted by the Regents of the University of California.

CROSS REFERENCE

III.D.Students; Statute §54302--54304

10. Other - Migrant Education

Policy Guides

CALIFORNIA MASTER PLAN FOR MIGRANT EDUCATION

California State Board of Education, 32 pages

1976

The plan is designed to help migrant children realize their highest potential by ensuring a relevant and equal opportunity to these children and assisting the local school districts to meet their special needs. The plan attempts to provide instructional activities, health and welfare services inservice training, supportive services, and community and parental involvement. Responsibility for the program is shared by state regional and local education entities.

10. Other - Military Service and Training

Statutes

§51440 -- 51442

Subject to regulations prescribed by the state board, a governing board may, for certain persons, evaluate classes completed in any high school or institution of higher learning, grant credit toward graduation for military service and training while in the U. S. military service and, if satisfied that the person has completed the equivalent of high school graduation requirements, grant the person a diploma. Such persons are veterans of wars or national emergencies who are residents of the state, former members of the armed forces who are residents and who

have received other than a dishonorable discharge, and members of armed forces who are, and on the date of entrance to the armed forces were, state residents.

A veteran who entered the U. S. military service while a 12th grade high school student and who at the time of entrance into military service had satisfactorily completed the first half of the work required for the 12th grade shall be granted a high school diploma.

10. Other - Outdoor Science Program

Statutes

§8760 -- 8773

The governing board of any school district may: (a) Conduct programs and classes in outdoor science education and conservation education; (b) acquire and maintain real or personal property for such programs; (c) contract for the joint operation and maintenance of such programs and classes; (d) transport or arrange transportation of pupils and instructors to or from places where such programs and classes are being conducted.

If such programs involve studies in marine science, arrangements may be made with the U.S. Coast Guard for transportation.

A school district may also: (a) conduct courses in forestry; (b) acquire forest lands outside the boundary of the district by lease; (c) afforest and reforest, and plant trees on such lands; (d) transport pupils, instructors, to or from classes or places where such work is being done.

Agreements may be entered into between districts to provide programs and classes in outdoor science education and conservation education for pupils in the district: in doing this the proper financial burden is to be borne by agreeing districts.

Personal or real property may be acquired or conveyed for the purpose of such programs and classes.

10. Other - Program Improvement Schools

Statutes

§54631 -- 54643

Program improvement schools shall be established throughout the state in not more than five separate schools (elementary, junior high, or senior high) in different districts to offer educational programs developed by the director and staff of such schools in cooperation with representatives of the local community and designed to facilitate an evaluation of the effectiveness of promising instructional methods intended to improve pupil achievement in areas of reading and mathematics.

A school may be designated a program improvement school when all of the following conditions are met:

(a) The school meets the criteria of §54483.

(b) The director of the school is appointed by the school district with the concurrence of the state superintendent and the Director of Compensatory Education.

(c) The school has at least the staff for auxiliary and administrative services that would be present in an adequately staffed school.

(d) The governing board has delegated to the director of the program improvement school all powers and duties related to budget, curriculum, courses of study, pupil conduct, staffing, and class scheduling.

(e) The school director has appointed a community resource committee.

(f) The proposed program has been developed by the school director and staff in cooperation with an institution of higher learning and has the concurrence of the community resource committee.

Districts are encouraged to waive their existing administrative salary schedule for the individual proposed for the school directorship in order to obtain an individual of demonstrated managerial talents who is committed to educational achievement.

A community resource committee shall be appointed by the director of each program improvement school to assist the director and his staff to plan and implement the program. At least one-half of its membership shall be made up of parents of children participating in the program.

Any school may apply to establish a program improvement school provided that the proposed program meets the requirements of §54633 and provided that the governing board intends to provide an entitlement for the development, implementation and maintenance of the school's program.

The application shall include a detailed program plan, including a description of quantifiable achievement objectives and the in-service training programs.

The state board shall exempt from any and all provisions of the education code a program improvement school when such provisions would hinder the implementation and maintenance of the proposed program.

For the purpose of state and federal categorical aid allocations, the program improvement schools shall be designated as school districts.

The state board, on the advice of the state superintendent and the Director of Compensatory Education, shall adopt rules necessary to implement §54600 et seq., which shall be administered by the Office of Compensatory Education.

RULEMAKING

The state board shall provide for evaluations of program improvement schools, including an analysis of the improvement or lack of it in pupil achievement, the costs of components in effective programs, and the effectiveness of the community resource committees.

Program improvement schools shall report to the state board the average scores of their pupils on standardized achievement tests. The district in which a program improvement school is located shall report the average scores of pupils in other schools. These two sets of reports shall be compared, and on their basis the state board shall prepare annually a comprehensive evaluation of the program for the Legislature.

10. Other - Programs at Tuberculosis Facilities

Statutes
§52531

Whenever any city or county maintains a tuberculosis facility in another county of the state, the governing board of any district of the city or county maintaining the facility may maintain classes in the institution for pretuberculosis, tuberculosis, and convalescent minors and adults. Attendance in the classes shall be credited to the district maintaining the classes.

10. Other - Special Reading Instruction

Statutes
§ 54101 -- 54180

An elementary school reading program shall be directed to the prevention of reading disabilities and their correction at the earliest possible time. The program shall be provided in grades 1, 2, and 3 and may be provided in kindergarten. However, units of average daily attendance in kindergarten shall in no manner be utilized in the computation of personnel or appropriation quotas, nor shall any kindergarten teacher be eligible to apply for a scholarship grant for teachers of reading.

Salary payments for specialist teachers in reading, scholarships to encourage the development of skills in the teaching of reading, and salaries for the employment of professional librarians shall be provided. Funds for these purposes shall be provided to districts and to schools in districts where the need for reading instruction is greatest. The program is voluntary, and any district may participate or decline to participate.

The state board shall adopt regulations for the administration of the special reading instruction program. RULEMAKING

The state board shall prepare a consolidated application form for use of school districts applying for appointment of a specialist teacher. It shall cover any request for funds under Titles I, II, and III of the

Elementary and Secondary Education Act of 1965, as amended, the Education Improvement Act of 1969 (§54600 et seq.), the Professional Development and Program Improvement Act of 1968 (§44630 et seq.), the Special Teacher Employment Programs (§54480 et seq.) and any other state or federal act providing funds to assist in reading programs for grades 1, 2, and 3.

The application shall be accompanied by a single coordinated project for all funds for which application is made as well as district funds devoted to the project. The project shall include a specialist teacher and any other educational component approved by the state board, including, but not limited to, teacher aides, tutors, interns, diagnosticians, materials and equipment, and administration or supervision. Each project shall include provisions for evaluation.

If a district is unable to participate fully in the reading program because of its inability to employ enough specialist teachers to fully meet the basic quota of certificated employees to be appointed special teachers (as under §54140 and §54141), the governing board may request to participate on a reduced basis. The state superintendent may grant the request if the superintendent determines that, in districts with more than one school, all efforts are made to concentrate available teachers in the school or schools of the district where the need is greatest.

If there are not sufficient funds to fully fund the SHARE programs established under Chapter 1199 of the Statutes of 1970 and programs operated under §54100 et seq. of this code, the state superintendent shall, insofar as necessary, reduce amounts allocable, first, for teacher scholarship grants, then for professional librarians, and then for salary increases.

Any governing board maintaining grades 1, 2, and 3 may nominate to the Commission for Teacher Preparation and Licensing qualified certificated employees of the district for the position of specialist teacher. Nominations shall be based on the teacher's observed performance in teaching reading. A certificated employee of the district who has

not been so nominated may petition the commission to be appointed a specialist teacher. In this case, the commission shall appoint a panel of three persons who shall observe the employee's performance in the classroom and either nominate the employee or deny the nomination.

APPOINTMENT

Each certificated employee nominated shall be notified of the time and place at which a written examination, designated by the Commission for Teacher Preparation and Licensing, will be administered. Such an examination shall be administered on a statewide basis at least once in each school year. The commission may select, for this purpose, an examination prepared by any competent public or private person or agency.

EXAMINATION

Employees who pass the examination shall be granted certificates entitling them to accept positions as specialist teachers in reading.

As an alternative to the above procedure, certificated employees may be examined for possible selection as specialist teachers in reading by a specialist teacher selection committee. Such a committee may be appointed by any governing board maintaining elementary schools and shall be comprised of five members, including one college or university authority in reading instruction, three district or county office personnel knowledgeable in reading instruction and in areas of human relationships, and one district administrator. Reasonable and necessary expenses of committee members shall be paid by the school district. The committee shall inquire into nominees' qualifications and determine whether or not nominees are qualified for selection. To be selected, each nominee shall meet the following requirements: completion of two years of successful teaching in kindergarten through grade 3; full state credentials to teach in the primary grades; completion of college or university courses in the teaching of elementary school reading, the diagnosis and remediation of reading disabilities, and directed clinical practice in the remediation of reading disabilities. A selected nominee shall be granted a certificate entitling him/her to

accept a position as a specialist teacher in reading.

Each school district maintaining grades 1, 2, and 3 shall compute a basic quota of employees to be appointed specialist teachers of one such employee for each 125 units of average daily attendance in grades 1, 2, and 3, provided that, with respect to districts maintaining more than one school, each of which has an average daily attendance in grades 1, 2, and 3 of less than 50, and with respect to all districts in a county with an average daily attendance in grades 1, 2, and 3 of less than 50, the quota shall be one specialist teacher for each 100 units of average daily attendance.

For any district in which 30% or more of the first grade pupils received scores below the first quartile of scores throughout the state for tests during the preceding school year, the basic quota shall be increased by one specialist teacher for each 300 units of average daily attendance. For any district in which 40% or more of the first grade pupils received scores below the first quartile for such tests, the basic quota shall be increased as ordered by the Department of Education following an investigation of the district's circumstances.

Each district may employ specialist teachers in number not to exceed 110% of the established quota.

A governing board may employ qualified teachers to serve under the direction of specialist teachers in reading, and shall establish in-service training programs for regular elementary teachers in the instructional methods of the reading specialist

Persons employed as specialist teachers in reading shall be considered as classroom teachers for purposes of all laws dealing with permanent status of certificated employees of a district.

A specialist teacher employed by a district may elect to serve for a period of not to exceed two consecutive school years in the employ of other districts. The teacher shall be afforded a leave of absence by the home district and shall retain all accumulated personnel rights.

A specialist teacher employed by a district with an average daily attendance in grades 1, 2, and 3 of less than 50 shall serve under the direction of the county superintendent.

The annual salary of a specialist teacher shall be increased by $250 over that otherwise payable to him/her under a regular contract of employment. The sum shall be paid in a lump sum. The warrant on which the payment is made shall clearly identify the purpose for which the payment is being made with such words as "special stipend for state basic reading program.

Specialist teachers in reading shall be relieved of all regular teaching and administrative responsibilities and shall devote full time to the following responsibilities: supplementing reading instruction otherwise provided for all pupils in grade 1; providing instruction to small groups of pupils and individuals in grades 2 and 3 who have been determined to have reading disabilities, and administering reading tests to be given pupils in grades 2 and 3 under §60640 et seq.

A school district which maintains grades 1, 2, and 3 may apply to the state superintendent by July 1, for an allowance for the employment of specialist teachers, in a manner and on forms provided by the state superintendent. The state board shall adopt minimum standards of course content for basic reading programs and criteria to be used by the superintendent in approving district applications.

The superintendent shall notify each district of action on the application, including the estimated allowance, prior to September 1. The total of the estimated allowances for all applicant districts shall not exceed the funds appropriated for the purpose by the Legislature. The superintendent shall not disapprove any application on the basis of the methodology of providing basic reading instruction which the district has selected. Allowances shall be made as early as practicable in the fiscal year.

Allowances shall be made in accordance with a system designed to give priority to districts in the following order: first, to insure that the districts participating in the program during the preceding year,

which continue to be eligible, will not be required to reduce programs below the level of the preceding year; and second, to insure that applications for expansion of programs and for new programs be considered on a priority basis in terms of the percentage of pupils in grade 1 who received scores in statewide testing during the preceding year below the first quartile of scores. Allowances for a district that received only basic aid in the preceding fiscal year shall be reduced by one-half.

The superintendent shall establish a procedure for each district provided an allowance pursuant to this Article, to report by April 1 of each year, the program actually maintained. If the district failed to conduct the program in full or in part as approved, the allowances shall be corrected accordingly.

The allowance shall be an amount equal to the total of salaries to be paid specialist teachers and professional librarians.

Any regularly credentialed teacher in grades 1, 2 or 3 may apply for a scholarship grant, in the amount of $250, for teachers of reading. Grants shall be made by the state board on recommendation of the state superintendent from amounts appropriated for the purpose by the Legislature. Grants may be used to meet expenses of attending any session of an institution accredited for teacher training purposes and enrolling for credit in courses designed to improve the teaching of reading.

The number of grants awarded shall not exceed one-fourth of the number of specialist teachers in reading for whom allowances have been provided.

A salary allotment for a professional school librarian shall be computed by the state superintendent whenever he/she determines with respect to any district that the district has employed 30% of its basic quota of specialist reading teachers and that a librarian holding a credential is employed full time in a school or schools in which one or more specialist reading teachers are employed.

The salary allotment for the professional school

librarian shall be $500 multiplied by the number of specialist teachers in reading employed full time in the school.

10. Other - Summer Environmental Internship

Statutes

§52410--52414

Upon approval of appropriate school district personnel or the county superintendent and with the consent of the parent or guardian, an eleventh or twelfth grade student who will be at least 17 years of age at the commencement of the junior year, may be employed during summer vacation as an environmental intern by a federal, state, or local agency in California concerned with regulation or protection of natural resources and the environment. Duties of the interns shall be established by the employing agency in conjunction with the local district or county superintendent and be oriented toward maximum exposure to programs of environmental control and resource use.

Successful completion of a summer program and submission by the intern of a suitable report to the district may result in academic credit toward graduation.

Such students may be deemed temporary employees of the agency involved for purposes of social security, unemployment insurance, and workers' compensation or may be deemed for these purposes employees of the district or the county superintendent.

The school district or county superintendent and the employing agency shall jointly apply to the Conservation Education Service for funds. The state superintendent, upon recommendation of the Curriculum Development and Supplemental Materials Commission, and with the state board's approval, is authorized to make grants for purposes of the internships.

10. Other - Technical, Agricultural and Natural Resource Conservation Schools

Statutes

§1790; 1805; 1807; 1808

This statute calls for the establishment, by the county superintendent of schools, of technical, agricultural and natural resource schools for the benefit of young people in need of jobs in these fields. This program also seeks to help youths who: 1) drop out of high school; 2) are unemployed; 3) are involved in juvenile problems; 4) are on welfare; 5) are not suited for purely academic studies These schools are to be under the management and control of the county board of education, who shall make such special rules and regulations as are necessary for proper operation, as well as purchase or otherwise obtain a site or sites for such schools and provide for the construction of suitable buildings.

The county board of education shall appoint a board of admissions to the school(s) who shall admit or investigate the case of any student who requests admission to the school(s). The pupils admitted must be minors from the age of 13 to 18 years who have completed the eighth grade, must be of reasonable aptitude and be residents of the county having jurisdiction over the school.

Each pupil, upon admission to said school, shall have his/her program outlined, with the course of study for the students established by the county board of education.

The course of study shall include:

"(a) Two hours per week on the average of American history emphasizing American institutions and ideals and California history. (b) Two hours per week on the average of world history, the history of western civilization, and world geography. (c) one hour per week on the average of American government emphasizing principles of the Constitution and the Declaration of Independence, and the principles of state and local government under the Constitution of this state. (d) Five hours per week on the average in the use of English, designed to teach the

student to read rapidly and perceptively, to write clearly and correctly, and to present ideas orally. Such instruction shall include the principles of grammar and punctuation as instruments of reading and writing. Also a core of reading designed to familiarize the student with the variety of literary forms and to improve his/her reading ability shall be taught. (e) A program to develop and maintain an adequate level of physical fitness."

A student at such an institution may be assigned part time to a vocational course in a place of employment.

Members of the staff at such schools may be required to reside in the school.

The costs of buildings, sites, etc. are to be absorbed by the county maintaining the school, with the school attendance being credited to the county school service fund.

A student shall be deemed to be a resident of the high school district in which he/she lived at the time of his/her admission to the program. A formula for the computation of such a student's average daily attendance is included, along with reimbursement procedures.

Statutes

§22-21-101--22-21-102

To promote "experimentation in all areas of the operation of public schools in order to achieve, evaluate, and disseminate programs that will increase the efficiency or economy of public education," the "Public Education Incentive Program Act" is established.

§22-21-104--22-21-105

Local school boards may submit proposals to the state board for "incentive programs." Incentive programs should be innovative and "clearly show the possibility of a substantial increase in efficiency."

Incentive programs may include the following: "Programs which initiate new instructional concepts . . .," thereby stimulating "movement toward the individualization of instruction" and that would "initiate better staff development;" planning programs in automated instruction and other educational media; and programs to achieve racial integration in the schools. The state board of education has authority to "adopt rules and regulations" to carry out these provisions.

10. Other - Migrant Children Program

Statutes

§22-23-102--22-23-106

"In order to facilitate the education of migrant children who are unable to receive continuous education

during the regular school term," a program for the education of migrant children is established.

"The state board may employ necessary personnel, pay . . . travel expenses . . . and purchase supples and equipment to carry out this program." Participation in the program is open to school districts with migrant children. The educational residence of a migrant child shall be the school district where he/she receives shelter and the necessities of life.

A migrant child shall attend school while residing in any school district when the regular terms of school are in session, and the local board shall enforce such attendance. The state and participating school districts shall share the cost of administering the program.

ATTENDANCE

Any school district may make application to the state board to operate a summer school program for migrant children. Those participating school districts shall be reimbursed from state funds, for actual costs incurred in operation of the programs.

10. Other - Career Education Programs

Statutes

§10-94e

Any student enrolled in a community based career education program . . . shall not be covered by any state labor law while working in any government agency, etc. provided the student does not receive compensation in the program.

"Career education program" means an alternative school or school without walls program to allow students to develop career awareness and orientation.

10. Other - Demonstration Project

Statutes

§10-239d -- 10-239e

A town or regional board of education may establish a demonstration board and staff and authorize it to administer the demonstration project.

The demonstration board may: employ a staff, receive and expend funds, contract with other government agencies, determine rules and regulations and otherwise provide the specified programs and services.

Subject to age and grade restrictions it may establish, the demonstration board shall award a scholarship to each school child in the demonstration area. In addition to each base scholarship, compensatory scholarships shall be given to disadvantaged children.

The demonstration scholarship board shall authorize the parents of scholarship recipients to use the scholarships at any public or private school in which the child is enrolled as long as the school meets all standards required by law; does not discriminate in admissions and hiring policies on the basis of race, color or economic status; is free from sectarian control; provides public access to records and provides adequate information to parents on curriculum, textbooks, and qualifications of teachers; provides reports to parents on pupil progress; and meets any other requirements established by the demonstration board.

EQUAL OPPORTUNITY

10. Other - Home School

Statutes

§10-252

Children in state-operated receiving homes operated by the state shall be counted in the school census. The commissioner of social services shall provide teachers and books for the schools at receiving homes. The school shall be supervised by the state board of education and may employ only certified teachers.

10. Other - Institution School

Statutes

§17-441

(a) The commissioner of children and youth services shall establish a special school district for the education or assistance of any child or youth who resides in any state operated institution. The commissioner shall administer and supervise the school district, establish vocational and academic education, and training and development programs as he deems necessary. The commissioner shall be the district superintendent and have authority to organize different grades, maintain school libraries and employ teachers.

The commissioner shall annually evaluate the progress of the school district and submit annual reports to the state board of education

10. Other - Programs for Expelled Students

CROSS REFERENCE

IV.J.: Statute §10-233b-e

10. Other - Special Cooperative Services

CROSS REFERENCE

I.Board of Education; Statute §10-118a

10. Other - Part Time Schools

Statutes

§3501

The Board of Education in every district in which there are employed or there reside fifteen or more children between the ages of 12 and 16 years to whom have been granted an employment certificate, shall establish and maintain part-time schools in general civic or vocational subjects for such children or for those minors who have ceased to attend all-day schools. The part-time schools or classes shall be maintained each year during the full period of time when the public schools of the district are in session.

10. Other-Career Development Centers

Regulations

CH. IV. §405

"Students who are otherwise eligible for admission under the provisions of this Chapter and who meet either one of the following criteria shall be eligible for admission to the Career Development Centers and Career Development programs of the D.C. Public Schools:

(a) Students who have satisfactorily completed the ninth grade of the regular instructional program or the equivalent;

(b) Students who are or will become fourteen . . . years of age on or before December 31 of the current school year and who exhibit aptitude for the Career Development program. Such students must have the recommendation of the principal or other person in charge of the school or program which they are attending, the recommendation of the principal or other person in charge of the Career Development Center or program to which they seek admission, and the approval of the Superintendent of Schools or his[her] designee.

Persons who are sixteen . . . years of age or older are eligible for admission to the Adult Education programs of the D.C. Public Schools.

Students who are at least fourteen . . . years of age, but less than sixteen . . . years of age, who have satisfactorily completed the eighth grade or its equivalent in the regular instructional program, and who are lawfully and regularly employed during regular school hours shall be eligible for admission to the Adult Education programs of the D.C. Public Schools.

Students in Adult Education programs who wish to attend regular instructional program day classes must receive the written permission of the principal or other person in charge of the regular school or program.

Students may apply for admission to the Summer School program for the purpose of meeting course requirements for

graduationor promotion, re-taking a failed course, or taking advanced or enrichment courses. Admission to the Summer School program shall be based upon the written approval of the principal or other person in charge of the school or program last attended by the student. Three or more unexcused absences shall be grounds for loss of eligibility to attend summer school."

10. Other-Educational Program for Pages

Statutes

§31-121

The Board of Education may employ personnel for the education of pages and pay compensation for their services.

10. Other-Experimental Programs

CROSS REFERENCE

II.B.4.; Regulation; Chap. IV, §445

10. Other-Manual Training

CROSS REFERENCE

I.Board of Education; Statute §31-111

10. Other - Community School Programs

Statutes

§228.071

Recognizing that "the community school is an expression of the philosophy that the school...is most effective when it involves the people of the community in a program designed to fulfill their educational, recreational, cultural, social, health, and other shared needs" and that "the community school promotes a more efficient use of school and other public facilities through an extension of personnel, buildings, and equipment," the state shall provide leadership and financial support to encourage local districts to establish community schools.

A school board may submit to the department a request for a community school grant. "The district school board shall give priority to the programs serving the maximum number of persons within the limits of resources available and to programs which will allow for matching funds or for joint funding from the federal government or other sources...."

10. Other - Innovative Programs

Regulations

6A-1.9532

When a school board proposes to operate an experimental or innovative school program at any school for less than the minimum school year, the commissioner may approve such program provided there shall be no reduction below the number of days required to provide 900 actual teaching hours for grades four through twelve and 720 hours for kindergarten through third grade.

10. Other — Evening or Part-Time Schools

Statutes

§32-932

Local boards of education have the authority to establish evening or part-time schools for working students over 14 who cannot attend day schools.

10. Other — Experimental Programs

Regulations

05-210

As Executive Secretary of the Board, the State Superintendent of Schools shall administer Board policies. These policies must "allow the flexibility necessary for efficient administration." With the approval of the Board's Chairperson, the State Superintendent may modify or waive for up to five days, "any State Board policy in order to continue on an engaging basis the operation of school . . . .

"Proposals for new policies or changes in policy . . . initiated outside of the Department of Education shall be submitted to the State Superintendent . . . . Executive procedures will be submitted to the State Board for its information and may be changed by the State Superintendent as needed . . . .

"A local board . . . may request waiver of State Board policy," provided such policy "works an undue hardship" upon the local school system, or a proposed "experimental design in a school system . . . at variance with State Board policy . . . can be shown to be of significant educational value to students." The Board shall determine the length of time for the waiver.

Adoption or change of "policies that affect local school systems shall be confirmed prior to July 1 of the school year in which" they take effect. "Copies "of all new policies or changes . . . shall be distributed to local system superintendents" as soon as possible.

10. OTHER — INDIVIDUAL PROGRAMS

REGULATIONS

30-714

For students over 16 local boards are encourage to "adopt policies for individual program completion in more or less than 12 school years."

10. OTHER — INSTITUTIONAL SCHOOL

STATUTES

§32-443:444

The state board of education is authorized to provide for the education of children and adults who reside in state institutions. The board may issue rules and regulations, employ teachers, and provide books and supplies for this purpose.

10. OTHER — MANUAL LABOR SCHOOLS

STATUTES

§32-931

"The county board of education may organize in each county one or more manual labor schools on such a plan as may be self-sustaining: Provided, that the plan be first approved by the State Board of Education."

10. OTHER — OPEN CAMPUS SCHOOLS

REGULATIONS

40-217; 227

"Students who are prevented for valid reasons from attending regular high schools . . . are . . . entitled to a quality education. . . . The State Board . . . shall provide allotments . . . for those special programs that allow students to complete their education while attending public high school programs on a

part-time basis." This may include "students who leave school to go to work."

In order to be allotted teachers, open campus schedules must meet certain requirements. Schools "must be so organized that students meet the requirements for graduation expected of all other high school graduates . . . (and) shall be staffed with certificated teachers and other professionally certificated personnel" and must employ "supportive personnel such as librarians and counselors." Students may not be charged tuition. Schools may not be adult education schools or "a regular high school or a vocational high school structured for youth regularly enrolled." Schools may operate during the day or evening.

10. Other— Pilot Programs

CROSS REFERENCE

II.A.1; Regulation 20-717

10. Other — Programs for Pregnant Students

REGULATIONS
40-510; 520

"Each local unit of administration shall provide for regular day-time instruction for the student who is married, . . . a parent or . . . pregnant, whether married or unmarried," either in the "existing regular day-time educational program" or in special programs within the regular program. "Special programs may include instruction in prenatal . . . and child care."

"The State Superintendent of Schools shall . . . insure that local systems have rules . . . relative to the attendance of students who are married, . . . a parent or . . . pregnant." Regulations shall provide that such a student may be excused from instruction at the request of a physician because of the "health of the student, or of the student's child or child-to-be," and that "special evening or home instruction programs . . . be provided for . . . students so excused. . . . Withdrawal or re-entry dates shall be determined upon the basis of health and educational factors. Provisions

shall be made for salvaging as much credit as possible for work satisfactorily completed by the student prior to withdrawal."

The Office of Instructional Services shall assist local systems in developing regulations and special programs for married, parent or pregnant students.

10. OTHER - FISHERMAN TRAINING PROGRAM

STATUTES

§189-32

"There is established within the department of education a fisherman training program . . . open to all who wish to become fishermen." Actual instruction shall be aboard fishing vessels, and over a twelve-month period shall cover:

1) "Bait catching;"
2) "Preparation of fishing gear;"
3) "Fishing positions and techniques;"
4) "Cooking;" and
5) "Such other duties are deemed necessary for the effective performance of a fisherman on a vessel."

10. OTHER - MODEL SCHOOL PROGRAM

§362-21, 22

The purpose of the model school program is 1) "to allow for more effective use of education programs in multi-problem neighborhoods and 2) to provide for exemplary and demonstration school programs which could serve as models for other neighborhoods and schools . . . Schools must be more attuned to the total needs and values of these neighborhoods, and model schools must demonstrate how to adjust the classroom and curriculum systems to the neighborhood environment." New teachers in the model schools program shall attend a two-week workshop for "sensitivity training and cultural adjustment purposes."

10. OTHER - POLICE ORGANIZATION

Rule 37

Each school will organize and maintain a Junior Police Organization in cooperation with the local police department except where the District Superintendent grants an exception because need for such an organization does not exist.

10. Other - Maternity Education Programs

Statutes

§33-2006 -- 33-2008

"Every public school district . . . within which is located a state licensed . . . or sponsored system of care for expectant or delivered mothers shall provide . . . instruction in accredited courses . . . for expectant and delivered mothers under twenty-one (21) years of age, who are enrolled for care." The state department of education shall reimburse from state funds the "costs of instruction, including . . transportation of teachers." A school district "shall provide instruction" to "expectant or delivered mothers" who are outpatients of a licensed maternity home located within the district.

10. Other - Experimental Programs

CROSS REFERENCE

III.A.1; Regulation, Accreditation Standards for Secondary Schools, Standard I -- VI

10. Other - Education Programs for Pregnant Students

Statutes

§10-22.6a

The school board shall provide home instruction for pregnant students.

10. Other - Independent Study Programs

Regulations

The Illinois Program for Evaluation, Supervision, and Recognition of Schools

Ch. 4-6

Each local board of education with a high school shall adopt a policy which defines the board's position with reference to the awarding of high school credit on the basis of local examinations to pupils who have achieved the necessary proficiencies through independent study, either with or without private tutoring, or for work taken in or from another institution. Plans for earning credit outside of regular classes should be approved in advance by the local high school principal according to established policy. The pupil's permanent record should show how the credit was earned. The examination papers upon which such credit is validated should be kept in the school file for three years as evidence for recognition and accreditation agencies.

10. Other - Innovative Programs

§1051-1070

There is established an Educational Development Board consisting of certain specified members, in addition to 7 members appointed by the governor with the adivce and consent of the state senate. These members shall be selected on the basis of their knowledge of, interest or experience in, the creation, or implementation of . . . innovative educational programs . . . ."

There is also established a fund to be controlled

by the Board and expended for its own expenses and/or the providing of grants to innovative secular programs" it approves.

The Board shall review grants in accordance with its regulations, placing "particular emphasis upon those educational problems . . . that arise out of the economically depressed and critically disadvantaged areas where educational opportunity is not available."

10. OTHER - ACTIVITY-BASED PROGRAMS

REGULATIONS

§ II, Ch. 3, Policy 71-09

Activity-Based Programs (Revision of 70-12 and 71-06)

"A school corporation may submit to the office of the State Superintendent of Public Instruction an application for permission to use one of these experimental programs in lieu of the textbooks listed in the state adoption. To receive favorable consideration of this application, the local superintendent shall provide the Assistant State Superintendent for Instructional Services with evidence of adequate in-service teacher training, reasonable cost, adequate resources, and sufficient planning for effective implementation of the program. Permission shall be granted on a limited basis...for a period of one year to corporations which meet these requirements. Permission for succeeding years shall depend upon the maintenance of adequate in-service training, reasonable cost, adequate resources, and sufficient planning. The staff of the Department...shall report to the Commission all such requests...and shall recommend approval or nonapproval. The Commission shall then act upon each such request."

10. OTHER - ALTERNATIVE PROGRAMS

REGULATIONS

§II, Ch. 1, Rule M-1

Recognizing of Credit for Adult Educational Experience, Military and Otherwise

Section 1

High schools are authorized to issue a diploma or certificate under the following conditions. DIPLOMA

a. The diploma is issued to one "who has earned units through actual attendance in high school, with recognition given credit earned as follows:

1) night school;

2) work experience;

3) correspondence credit; up to 2 units if under 21 and to four units if over 21

4) college attendance up to 2 units if under 21 and to four units if 21 or older

b. Said person must have lived in Indiana at least one year, and in the high school district the six months preceding the certificates' issuance, "or preceding entry into the armed forces . . . when some or all of the credit has been earned through:

1) actual school attendance;

2) armed forces training;

3) course work in the armed forces;

4) examination

5) requisite high school course equivalent examination (Rule E-1, Section 4a)

6) college attendance limited to 2 units if under 21 or to 8 units if 21 or over

7) High school course credit for work experience approved by an evaluation committee as in Rule E-1, Section 4b.

10. Other - College Credits

Regulations

§II, Ch. 1, Rule G-11

College Credits Applied Toward High School Graduation

Section 1

A pupil with the approval of his/her principal and/or superintendent "may take in a recognized college the courses thus approved" and have the credit applied to his/her high school diploma. For a pupil under twenty-one such credit may not count for more than two units; for a person over twenty-one, for not more than four units. "However, as many as eight units may be applied . . . if the person is over twenty-one . . . when such work is taken . . .[and] . . . no credits used for a high school diploma shall be used for college graduation."

DIPLOMA

10. Other - Correspondence Work

Regulations

§II, Ch. 1, Rule G-10

Correspondence Credit

Section 1

Correspondence school work by high school students must be approved in advance by his/her principal and/or local superintendent. A maximum of two units of such course work may be applied towards the diploma of any student under twenty-one, on a maximum of four units for any person over twenty-one years of age. Any such correspondence program must be accredited by the National Commission on Accrediting.

10. Other - Experimental Programs

Regulations

§ II, Ch. 1, Policy 71-08

Procedures for Obtaining Waivers for Experimental-Innovative Courses and Programs

"Recognizing the need for experimental programs...., the following procedures for obtaining needed waivers have been developed to encourage and facilitate innovation.

Experimental courses and experimental-innovative school programs are defined as those not presently authorized or permitted by the State Board and Education through its Rules and Regualtions...., The term courses refers only to high school (grades 9-12) while the term programs refers to all grades 1-12. School corporations planning either COURSES or SCHOOL PROGRAMS of this type shall seek Commission approval by submitting a proposal to the Assistant Superintendent for Instructional Services.... three months prior to the initiation of the course program.... However, initial proposals involving the operation of an

entire school or school corporation shall be submitted at least eight months in advance of program initiation.... Evaluation by the Department of Public Instruction and approval by the appropriate Commission...must be obtained before such programs are implemented... A determination shall be made of the extent to which waivers from...Board... Rules are involved and whether or not the completed proposal reflects adequate planning. Department of Public Instruction personnel shall, upon request....cooperate in both the preparation and processing of proposals. A report of COURSE or PROGRAM evaluation shall be made to the Department...during the last month of course or program duration, and/or prior to a request for continued operation, and at any other time as required by the approving Commission. Department...staff members shall review in person the operation of the course or program.

Proposals shall specify the anticipated duration of the experimental period. Continuation...beyond the experimental period may be granted by the appropriate Commission...if requested by the local school corporation.

1. Experimental Courses

a. Characteristics- a single secondary course or elementary subject area exceptional...in one or more ways including title, method of accreditation, materials, time allotment, instructional strategies, instructional and noninstructional personnel, location of class meeting.

b. An acceptable proposal shall include but not be limited to the following information:

(1) Rationale - A statement of purpose...and how the needs of students will be served more effectively.

(2) The Course and the School - The amount of credit to be awarded, whether...required or elective, whether the course will supplement or supplant other offerings, the...students the course is designed to serve, prerequisites, how the course organization will meet minimum standards as outlined by the State Board....,etc.

(3) Course of Study - Student objectives...concepts to be developed...topics to be covered, and a sequential plan of course procedure.

(4) Instructional Materials - Basic texts, if any, supplementary materials and equipment unique to instructional strategies.

(5) Evaluation - A method, conceived prior to initiation...and based upon course objective, of determining the extent to which objectives of the course have been reached and student needs met.

(6) Finance - How local, state and federal funds will be used to support the course.

(7) General Information - Schools, addresses and principals involved, number of students, grade placement, ages, and criteria used for selection...how community resources are being used...and plan for information dissemination and visitation.

(8) Planning - Steps taken, community and staff involvement.

2. Experimental - Innovative School Programs

a. Characteristics - Revision of the organization of the school program which implies or requires rule changes or waivers by a Commission...

b. An acceptable proposal shall include but not be limited to the following information:

(1) Rationale - A statement of purpose including how the program will serve the needs of students more effectively than the existing program.

(2) Student Objectives - What improvement in student growth can be expected and how the program will more effectively facilitate learning.

(3) Program Organization - How minimum standards of the state statutes and Commission...Rules will or will not be met. When appropriate, the exceptions to rules sought and how more effective student learning will result.

(4) Implementation - In-service training procedures

(5) Evaluation - A method...., of determining the extent to which program objectives and student needs have been met.

(6) Finance - How local, state and federal funds will be used to support the program.

(7) Planning - Steps taken, community and staff involvement.

CROSS REFERENCE

II.B.1.b; Regulation §II, Ch. 3, Policy 64-1[illegible]

10. Other - Exploratory Teaching Experience

Regulations

§II, Ch. 2, Rule C-5

Recognition of Credit Toward High School Graduation For Pretraining Experience in Teaching Grades Kindergarten Through Nine

Section 1

Junior and Senior high school students may earn credit through successful performance "in an exploratory teaching experience in grades kindergarten through nine.

Section 2

The requirements, limitations and conditions . . . are as follows:"

a) Such experience shall provide actual work with students in a regularly scheduled class under the guidance of "competent and fully qualified licensed teachers."

b) Each program shall have a supervisor who shall ensure that the student "has continuing and developmental experience in class organization, management and instruction.

c) The program shall provide for frequent conferences among the participants concerning teaching principles and procedures, and the student should be advised of vocational opportunities in the teaching profession.

d) The classroom experience shall include both observation and participation.

h) Evaluation shall be based on the student's "aptitude, cooperation, . . . practice performance . . . potential, teaching qualities and eventual teaching employment." Examinations and grading shall be the

responsibility of the high school sponsor teacher.

i) Credit for the course:

(1) "One credit (1/2 unit) may be earned per semester."

10. Other - Military Education

Statutes

§20-10.1-7-5 -- 20-10.1-7-7

Governing bodies of school corporations may institute a system of military instruction. The schools may hire persons as military instructors who hold a certificate of eligibility issued by the commission on teacher training. Military instruction is not compulsory.

10. Other - College Courses

Statutes

§282.26

High School students may be permitted to take courses in a junior college and may apply credits earned toward their high school requirements.

10. Other - Innovative Programs

CROSS REFERENCE

III.A.2.; Regulation §670-3.1 (257.25)

10. Other - Alternative Schools

Statutes

§72-9201

The board of education of any school district may establish an alternative school at any of the levels of grade seven or above to provide an educational alternative for students determined by such board of education to be unable to benefit from other schools of the school district. Requirements of statutes and regulations shall apply to any such schools to the extent that the same are not obstructive to programs of learning and instruction in such schools. The Board of education must obtain approval from the state board to waive existing regulations in the operation of such schools.

10. Other - Independent Study Program

Regulations

§91-2-6

A student shall be admitted to senior high school upon completion of a course of study in an accredited elementary or junior high school. A student shall be admitted to high school from an unaccredited school according to the student's past education experience record or the student's successful performance at the level of assignment or the student's test results on a validating examination.

The school district shall determine a policy for promoting a student. A student shall receive credit either by successfully completing classroom work, passing a validating examination, by completing an independent study program, or by participation in state board approved, part-time cooperative training program.

Each school shall have an independent study committee, which includes sponsoring teachers, to review and approve

student proposals for independent study. An independent study program shall be an in depth study of a particular subject area. The responsibilities of the sponsoring teacher shall be specified by the school. The teacher shall list for the student criteria to be met for successful completion of the program.

A student shall graduate upon completion of nine required units, eight elective units, and any other requirements imposed by the board. The nine required units include one unit of American history, one-half unit of American government, one-half unit of social studies, one unit of laboratory science, four units of English language arts, one unit of mathematics, and one unit of physical education. The physical education requirement may be waived if a licensed physician states that the student is physically or mentally incapable of participating or if the parent states that participation is contrary to the student's religious beliefs.

A school board may have its own graduation requirements if they are approved by the state board, do not conflict with state board, do not conflict with state goals, include seventeen units of credit of which one unit is in American history and one-half unit is in American government, and are formulated with broad base community involvement. The school shall cooperatively work with the student to produce a personalized education that is appropriate and relevant to his/her capabilities, needs and interests.

10. Other - Year-round School Program

Statutes

§157.520 -- 540

1) "It is the intention of the general assembly . . . to permit the state board of education, upon recommendation of the . . . superintendent . . . to authorize a local board of education to operate public elementary and secondary schools on a basis other than the standard school day, month, term or year for purposes of experimentation. The objective . . . is to encourage experimentation that may result in improved quality of education or more efficient use of educational resources in the state.

2-3) The board, upon recommendation of the superintendent, shall adopt regulations relating to the requirements to be met by school districts for authorization to operate [such] experimental programs . . ." provided that they shall select no more than three school districts from those applying to operate experimental programs on a basis other than the standard school day, month, or term and "at least three school districts meeting the requirements of the board for experimental operation of year-round school programs."

The department of education shall reimburse the school district selected for costs incurred in running the experimental school program. "The school services furnished shall be substantially equal to those provided during the regular school year.

The superintendent shall make thorough cost, benefit and effectiveness analyses and evaluation of all experimental programs . . . and shall make annual progress reports and, at the earliest appropriate time, final recommendations relating to their continuation, expansion or termination to the legislative research commission and to the governor."

10. Other - Non-listed Courses

Regulations

704 KAR 10:050

"Any school desiring to offer a course not listed in the 'Program of Studies for Kentucky Schools' shall secure the approval of the State Board of Education upon recommendation of the Superintendent of Public Instruction before such a course is offered . . . . No course shall be considered for approval that is inconsistent with state board regulations, Kentucky Revised Statutes, and the Constitution of the Commonwealth of Kentucky . . . ."

10. Other - Experimental Programs

Regulations

704 KAR 20:125

"The Superintendent of Public Instruction may approve an experimental program in new patterns of organization or instruction in the elementary school in which experienced high school teachers may be assigned to serve at the elementary school level in the experimental program provided the local school superintendent submits to the Bureau of Instruction before July 15 a written proposal for the experimental program which shows the need for using successful high school personnel in the program."

Regulations

BULLETIN 741

TYPES OF ALTERNATIVE PROGRAMS

"The kinds of alternative programs that can be developed are limited only by the school system's needs and the creativity of its staff. Without being all-inclusive, the majority of alternative schools fit into the following categories:

'Schools without walls' where students work and study throughout the community.

'Schools within schools' which subdivide large high schools into small units which may focus around a special interest, such as urban affairs, foreign studies, anthropology.

Schools for disruptive or suspended students who experience a variety of problems in the regular school setting.

Schools for youngsters having difficulty in areas of human relationships, self-organization, or other behaviorally linked learning problems.

'Open schools' utilizing flexible curriculum where individualized study and self-direction are stressed.

Schools for academically or artistically talented students.

Magnet schools for college-bound students.

Continuation schools with provisions for students whose education in conventional schools has been interrupted. (This includes dropout centers, pregnancy-maternity centers, street academies, etc.)"

BULLETIN 741

PROCEDURES FOR APPROVAL OF ALTERNATIVE SCHOOLS

"The local school board or governing body shall pass a resolution establishing the alternative school and setting forth its goals and objectives.

After the school has been in operation for ninety

days, the school administration shall request a visit from a representative of the State Department of Education, who will determine its suitability for state approval. In order to be eligible for approval, a school must have a competent and certified staff, sound curriculum, an appropriate pupil-teacher ratio, adequate financial support, and facilities sufficient to achieve its desired objectives. An annual report based upon the standards for approval of alternative schools will be made to the State Department of Education. . . ."

10. Other - Year Round School Operation

CROSS REFERENCE

III.D.Year Round School Operation; Statute §17:341 -- 346

10. Other-Alternative Education

Statutes

§931

"Because education is essential to the preservation of the rights and liberties of the people, school attendance is required of children and youth. To further preserve these rights and liberties and to insure equal access to educational opportunities, it should be a purpose of the schools to help certain youths find appropriate alternatives to school and to maintain contact with youths who have withdrawn from school before graduation or completion of a program of studies." DROPOUTS

§932

A school superintendent, responsible for any grade level from 9 through 12, "shall cause to be established a positive action committee." Each committee is comprised of appointed school officials, teachers (or guidance counselors), parents, students, recent "drop outs", and community members.

Members serve for two year terms, and the membership of the committee can be expanded, if deemed necessary by a majority vote. DROPOUTS

The purpose of this committee is to "study the problem of dropping out" and those factors which affect children from kindergarten through grade 12. It must develop a plan to be submitted to the school committee "for appropriate action." Among areas covered by the study are "attitudes and practices" in the schools "which may intentionally or unintentionally discriminate against students because of racial, sex, ethnic or economic background;" servicing dropouts through human service programs; developing in-service training and orientation programs for teachers and school personnel about the dropout problem; school policies dealing with different forms of disciplinary action.

REGULATIONS

STATE PLAN FOR DROPOUTS

Pursuant to MRSA §931-932

DROPOUTS

Statement of Purpose

"to help certain youth find appropriate alternatives to school and to maintain contact with youths who have withdrawn from school before graduation or completion of a program of studies."

10. Other - Programs for Pregnant Students

Regulations

13.07.02.02

The State must "provide appropriate school programs for all students including pregnant girls, married or unmarried. Such programs shall be approved by the State Superintendent of Schools and shall include . . . counseling, social work, and psychological services as needed." A girl who is pregnant and has not finished high school "may . . . remain in the regular school program and shall not be involuntarily excluded. . . .

A girl who is pregnant . . . who is under compulsory school age, may voluntarily withdraw from . . . school . . . provided that she enrolls in an . . . educational program planned for her." Programs may include modification of the regular program; "enrollment in a special school or . . . class for pregnant girls . . .[or] in a residential school; . . . telephone . . . home . . . [or] TV teaching; . . . programmed instruction; . . . admittance to a private maternity home," or a combination of these programs. The local school system is responsible for working with the girl's family to cooperate with State, local and private agencies "to assure that the pregnant girl receives proper medical, psychological, and social services prior to termination of pregnancy and for as long as needed thereafter."

CROSS REFERENCE

III.C.Students; Regulation 13.03.01.02

10. Other - Alternative Education Program

CROSS REFERENCE

IV.H; Statute 76 §18

10. Other - Alternative Schools

STATUTES

76 §3

"Every minor between sixteen and eighteen, except a married woman, who does not meet the requirements for the completion of the sixth grade of the public schools of the town where she/he resides" shall attend some alternative school unless his/her physical or mental condition is such as to render his/her attendance "harmful or impractical." Every married woman who does not meet the requirements for the completion of the sixth grade may also attend alternative programs.

10. Other - Conservation Education

STATUTES

15 §4 A

The board of education "shall appoint a supervisor of conservation education who shall serve in the division of elementary and secondary education" and who shall be responsible for setting up a conservation "education center to promote improved educational methods", encourage the training of teachers, and to organize government services for the "advancement of resource management."

10. Other - Extended School Year Program

STATUTES

71 §26 A

"If the school committee of a town determines that sufficient need exists . . . for extended school services for children, between three and fourteen years of age, of mothers who are employed, and whose employment is determined by said committee to be necessary for the welfare of their families, said school committee, subject

to [the school plan approved by the commissioner of education] and with the approval of the city council or selectmen may establish and maintain such services."

71 §26 B

If a school committee determines upon "sufficient need," that extended school services should be established, it shall submit a plan to the commissioner of education. The plan shall consist of standards established by the commissioner in consultation with the state department of public health and shall be operated by the school committee under the general supervision of the commissioner. The parents . . . shall pay up to four dollars per week toward the cost of these services.

71 §26 C

The state and/or any town may accept funds from the federal government to help finance the extended school services program.

REGULATIONS

REG. #26

Extended School Year Rules and Regulations

1. Local superintendents, with the approval of the school committee, shall write to the Commissioner "stating the school system's intent to consider the adoption of an extended school year."

2. A feasibility study will be conducted by the local school committee to determine which ESY approach "might make a positive and cost-effective contribution to the realization of local educational goals."

3. The Department shall assist the committees in an advisory capacity and by providing "information and resource materials upon request."

4. The school committee shall make its determination of whether to implement the ESY program upon review of the study.

5. The final plan shall be submitted to the Commissioner for consideration by the Board, "which will react within 90 days." The plan shall include:

a. "Specific reasons for adoption of the ESY program.

b. Cost analysis . . . of the current program in relation to those of the proposed ESY plan.

c. Waiver request, if necessary.

d. Provision for public information program.

e. Provision for extensive in-service and concentration program for all directly concerned.

f. Provision for an extensive evaluation of the program."

6. No ESY plan may be implemented without prior approval.

7. "Each year the LEA shall submit an evaluation program to the . . . Department . . ." which must be received "in sufficient time to allow for appropriate review and approval by the Department prior to the beginning of the next full year."

10. Other - Magnet Educational Program

Statutes

71 §37 J

The board of education may reimburse any city, town or regional district for all or part of the cost of providing magnet educational programs and may contract with any other public or private facility for the purpose of purchasing magnet educational programs. "Magnet educational program" shall mean educational measures including planning and special services, instruction, or treatment of children which meet requirements set by the board.

10. Other - Nautical Schools

74 §52

A town may establish and maintain schools for training persons in nautical duties. School committees may excuse persons attending these schools from attendance at other schools.

10. Other-Community School Program

Regulations

R 388.281, R 388.282

A community school program may include, but need not be limited to, preschool activities for children and their parents, continuing and remedial education for adults, cultural enrichment and recreational activities for all citizens, and the offerings of technical services to community groups. A community school program shall not include regular instructional activities for children five to eighteen years of age.

To be eligible for funds for a community school program, a district shall submit an application to the department of education. The program shall provide a budget for a salary for a director and for inservice education of the director. To be eligible for funds a district with less than 1800 students shall employ cooperatively with one or more other districts a community school director, unless it certifies that it tried but failed to join with another district.

The school board shall authorize the program and shall make a commitment for inservice for the director.

The director shall have the qualifications for a Michigan teaching certificate and three years teaching experience or a master's degree with a major in educational administration or fields related to community organization.

The program shall cooperate with governmental agencies and services agencies in identifying and servicing the needs of citizens.

The program shall have a citizen's advisory council whose membership shall be appointed by the board of education and shall be broadly representative of the community.

The program shall agree to account for the use of all funds applied for to the department of education.

10. Other-Cooperative Educational Program

CROSS REFERENCE

I. Intermediate Board of Education; Statute §380.627

REGULATIONS

R 340.433, R 340.434, R 340.435, R 340.436

"Application to the superintendent of public instruction for approval of driver safety school shall be made on forms designated for this purpose...

The county board of supervisors shall appoint a municipal judge, a justice of the peace, and two citizens at large to serve on the county advisory board for driver safety schools." The board may establish driver safety schools and may determine the policies governing their operation.

DRIVER SAFETY

Each driver safety school shall teach at least eight hours of classroom instruction. The maximum number of students shall not exceed thirty per class Course content shall be reviewed by the advisory board and approved by the superintendent of public instruction. The course shall include causes of traffic accidents, traffic laws and their enforcement, psychology of the driver, development of good driving attitudes, physical and emotional facotrs related to driving, and defensive driving techniques.

An instructor, who has responsibility for the operation of a driver safety school, shall be a certified driver education instructor.

The board shall establish fees which shall not exceed $10.00 per student.

The instructor shall maintain records of attendance and evaluation of student progress and shall submit an annual report to the board for transmittal to the superintendent of public instruction.

R 388.301; R 388.304, R 388.305, R 388.306, R 388.307

These regulations shall apply to driver education programs provided by school districts, private and parochial schools, and organizations for youth under eighteen years of age.

A school shall obtain approval from the state department of education before operating a new driver education program.

Willful failure to comply with any of these rules shall be considered just cause for withdrawal of approval. If the school requests one, the department of education shall grant the school a hearing.

A school may offer the program during the regular school year, after school hours, or during the summer period.

R 388.331, R 388.332, R 388.333, R 388.334, R 388.335

An organization may apply for approval of a driver education program for persons under the age of 18. The department may visit the proposed facilities and shall supervise the program.

No more than thirty students enrolled for the first time shall be taught per classroom.

Classroom facilities shall be inspected by the state fire marshal and the health department.

The owner and any person who has direct managerial and supervisory responsibility in operating the driver education program shall be a person of integrity in character and business practice.

Financial resources shall be adequate to realization of the announced instructional objectives.

A record of registration, attendance, and achievement shall be maintained for each student.

Tuition rates and equipment fees shall be filed with the department of education.

R 388.308, R 388.309

A driver education program shall have thirty hours of classroom instruction and six hours per student of behind-the-wheel experience. Experience on multiple car ranges may be substituted for part of the behind-the-wheel requirement with the approval of the state department of education.

R 388.315, R 388.316

The oldest students shall be given priority in placement in a driver education program unless circumstances based on need warrant earlier enrollment. No student under the age of 15

shall be admitted unless the student qualifies for a license under section 257.312 of the Compiled Laws of 1948. The student may be only admitted after the licensing authority indicates that the student will be granted a license, and the student's parent or guardian notifies the school that she/he wants the student to take the course.

10. Other-Experimental Programs (Arts Education)

Statutes

§388.1352 - 388.1356

The advisory committee on the development of comprehensive arts education is created to evaluate current efforts in comprehensive arts education programs and submit findings to the state board and to the legislature, including recommendations of guidelines for comprehensive arts programs in education and for experimental and developmental comprehensive arts education programs.

The committee shall consist of 25 members appointed by the board to staggered three years terms. The committee shall elect a chairperson from its members. Members shall be reimbursed for expenses incurred in performing duties.

This act shall expire December 31, 1978.

10. Other-Neighborhood Education Programs

Statutes

§388.1073

The state neighborhood education authority shall have power to develop and operate or provide for the development and operation of neighborhood education centers,

that is, facilities to provide educational, cultural, and social programs previously for school drop-outs but not limited to them. The authority shall have power to enter into and perform contracts with sponsors of centers, to accept grants for the purposes of such centers (provided that such grants do not obligate the state to continue or support programs so established), to acquire and otherwise deal with real and personal property, to avail itself within limits of available appropriations, of the services of state employees, and to promulgate rules necessary to carry out this act.

§388.1075

Cultural and social programs provided under §388.1071 to 388.1076 shall be clearly related to educational purposes and shall not include activities which promote any political party or are derogatory to any racial, religious, or ethnic group, whether directly or by undue emphasis on any other racial, religious, or ethnic group.

10. Other-Programs for Pregnant Students

Regulations

R 340.1121, R 340.1122, R 340.1123, R 340.1124

A pregnant girl under the compulsory school age may withdraw from school when her parent or legal guardian submits a signed request, and a physician states that the girl is pregnant and that continued attendance in school may adversely affect her health or that of the child. No pregnant girl shall be ordered, coerced, or withdrawn against her will from a regular school program.

A girl who withdraws from school because of pregnancy shall be readmitted upon her application. If she is within the compulsory school age, she shall be required to comply with the compulsory school attendance law after the birth of her baby, unless a physician states that her health would be impaired.

A school district may provide and receive financial reimbursement for an accredited alternative school program. The program shall be taught by a person holding a valid Michigan teaching certificate. The program shall be approved by the state department of education as equivalent to the regular school program. The program shall provide health counseling, child care instruction and services, social services and prenatal instruction within the resources of the district providing the program. A pregnant girl of any age, who has not graduated from high school, shall be admitted to the program upon making written application for admission.

A school district shall receive payment for the salary of each teacher employed by the district for an accredited alternative educational program, at the rate of one teacher per twenty pupils.

10. Other-Sex Education

Statutes

§380.1506; 380.1507

A school board may hire instructors and provide facilities for sex education. A sex hygiene program shall be supervised by a registered physician or nurse or a teacher certified as a supervisor in the field.

Instruction or advice or information with respect to birth control shall not be offered.

Upon written request of parent or guardian, a child shall be excused from attending classes in which sex hygiene, sex education, or the symptoms of disease are under discussion.

§380.1508

The state board shall aid and provide leadership in the establishment of sex education programs at all levels of instruction, establish a library of educational

materials concerning sex education available to school districts, and aid in the establishment of in-service and college programs for instruction of teachers and other personnel in sex education.

10. Other - Agricultural Education

Statutes

§123.64

School boards are authorized to purchase school sites and suitable tracts of land for "purposes of instruction, experimentation and demonstration in agriculture."

10. Other - Alternative Programs

CROSS REFERENCE

IV.J.; Statute §127.29

10. Other - American Indian Language and Culture

Statutes

§124.64

The state board of education is authorized to enter into contracts with the United States, and to receive federal money, for the purpose of educating Indians in Minnesota.

§126.46 -- 126.48

In order to ensure equal educational opportunity to every individual, an American Indian language and culture education program is established. An "American Indian child" is any child, living on or off a reservation, who is an enrolled member of a federally recognized tribe.

EQUAL OPPORTUNITY

The American Indian language and culture education programs shall be offered in elementary and secondary schools and designed to: make the curriculum more relevant to the needs and interests of American Indian pupils; provide positive reinforcement of the self-image of American Indian pupils; and develop intercultural awareness among pupils, parents, and staff. The program may include: instruction in American Indian language, literature and culture; and inservice training and technical assistance for staff.

ENROLLMENT

Enrollment in the program shall be voluntary. School districts shall make affirmative efforts to encourage participation.

If it is economically feasible, the school district may make provision for the voluntary enrollment of non-American Indian children. However, priority shall be given to American Indian children. Students shall not be assigned to schools in a way which will have the effect of promoting segregation of students by race, sex, color, or national origin.

In nonverbal courses such as art, music, and physical education, American Indian children shall participate fully and on an equal basis with their contemporaries.

§126.49 -- 126.50

STAFF

The board of teaching shall grant teaching licenses in American Indian language and culture education to persons who: possess competence in an American Indian language or possess qualifications relative to or knowledge of American Indian history and culture; and who possess a bachlor's degree or meet other requirements of study as the board may prescribe. In hiring for all positions in these programs, preference shall be given to persons who share the culture of the American Indian children enrolled in the program.

Teachers' aides may also be employed in the program. Any district with 100 or more students enrolled in the program shall employ one or more full time or part time community coordinators who shall promote communications, understanding, and cooperation between the schools and the community.

§126.51

PARENTAL INVOLVEMENT

School boards shall provide for the maximum involvement of parents of children enrolled in the program. Before implementing a program, each school district shall establish a parent advisory committee which shall give parents the necessary information and an opportunity to express their views on the program. The committees shall be composed solely of parents, secondary students eligible

for the program, teachers, and representatives of community groups.

§126.52

The state board of education shall conduct a statewide assessment of the need for American Indian language and culture education programs, shall study and review all available resources and programs; design program models; and provide for comprehensive evaluation of pilot programs. The evaluation shall include assessment of pupil achievement, processes and results of establishing quality programs, and attitudes of people involved in and affected by programs.

EVALUATION

The state board shall provide for the maximum involvement of the state advisory task force on American Indian language and culture education, parents of American Indian children, teachers, and representatives of community groups.

The state board shall report to the legislature, by September 1, 1979, on the status of the pilot programs and recommend any legislative changes it deems necessary.

The state board of education has authority to promulgate rules for implementing the act.

§126.53

The state board of education shall appoint an advisory task force on American Indian language and culture education, composed of parents, secondary students, teachers, and members of community groups. The task force shall make recommendations to the board concerning approval of programs and advise the board in its administrative duties.

TASK FORCE

§126.54

During 1978-79, at least six pilot programs in American Indian language and culture education shall be funded. Each school district making application for funds shall submit a plan outlining its program organization, courses scheduled, and goals and objectives. Each school district receiving a grant shall take a census of American Indian children in the schools; test for achievement; and

classify them by grade, level of education attainment, age and achievement. Participating schools and districts shall keep records on the programs.

10. Other - Community School Programs

Statutes

§121.85

The purpose of community school programs is "to expand utilization by the school of the human resources of the community."

§121.86

The community school programs shall be headed by a director and shall be under the control of the board of education. The director shall recommend rules to implement the programs to the board which will adopt those it deems necessary.

Regulations

EDU 680 -- 685

The community education program shall provide an education-based partnership between the community and the education system. Recommendations for community services shall be made by the advisory council to the district board of education which retains the final authority in deciding programs.

10. Other - Programs for Dismissed Students

CROSS REFERENCE

IV.J.; Statute §127.38

10. Other-Agricultural High Schools

Statutes

§37-27-1

"The county board of education in each county is . . . empowered to establish not more than two agricultural high schools in the county, and determine their location, in which instruction shall be given in high school branches, theoretical and practical agriculture, domestic science, and in such other branches as the board may hereinafter provide for and make a part of the curriculum, subject to review and correction by the state board of education." If only one school is established at first, the county board of education may establish another if the need arises.

§37-27-7

A board of six trustees, one from each supervisor's district, three who shall be elected by the county board of supervisors and two who shall be elected by the county board of education shall govern and control the county agricultural high schools. The county superintendent of education shall be the board's secretary, his/her term shall be his/her tenure of office, and he/she shall be the sixth board member and "represent the county at large." Board terms shall be for four years.

§37-27-9

Two or more county boards of education may join in establishing an agricultural high school or agricultural high school junior college.

"Any county not contributing to the support of an agricultural high school or high school junior college" wishing to cooperate in its maintenance and thus receive full benefits shall request it of the county board of education who may make a levy for support of the institution. After the levy, the county shall enjoy full rights and privileges as the original counties who established the agricultural high school or high school junior college.

§37-27-15

"The trustees of agricultural high schools . . . shall have full power to do all things necessary to the [school's] successful operation." If a common school is connected to an agricultural high school, teachers shall be chosen according to common school procedure.

§37-27-23

County boards of trustees shall judge the "eligibility of all applicants to "agricultural high school." No applicant shall be permitted to enroll "when in the opinion of said trustees the moral and mental characteristics of the applicant are such as would prove detrimental to the good morals of the institution."

The trustees shall also make detailed statements of receipts and disbursements and contract to supply water to municipalities as well as make oil, gas, and mineral leases.

§37-27-31

The board of trustees of any agricultural high school is empowered to lease all the buildings and equipment "to any responsible individual for the purpose of carrying on a private school when there are no funds available for running said institution and to lease the lands of said institution to some responsible person for agricultural purposes." Such leases shall not last for more than three years.

§37-27-33

If an agricultural high school establishes "facilities for the industrial training of students" and the board of trustees feels that their training will be "facilitated by continuous operation of such facilities," the board of trustees may lease facilities to individual companies or corporations provided all students wishing to participate are given "a reasonable opportunity to do so."

"The trustees of an agricultural high school in one country may acquire by donation the plan (including lands, buildings, and equipment) of a privately owned educational institution situated on land outside but adjoining the county line, and . . . thereon . . . maintain and operate an agricultural high school as though it was wholly located in the county receiving the donation."

§37-27-51

The board of trustees of any agricultural high school . . . may enter into an agreement with one another "providing for the attendance of any high school pupils . . . at such agricultural high school . . . all contracts shall be subject to the approval of the state educational finance commission."

Any parent or guardian of a high school student may request that the board of trustees enter into such an agreement. If the request is rejected or not acted upon, the county board of education may act on it and may enter into such an agreement "subject to the approval of the state educational finance commission."

§37-27-53

Any pupil attending agricultural high school otherwise entitled to transportation "at public expense under any applicable statute . . . shall remain entitled to such transportation."

§37-27-55

Any pupil attending an agricultural high school "shall be reported and accounted for the allocation of minimum education program funds and building funds just as though such pupils were attending the regular schools of the district in which they reside."

§37-27-61

"The county superintendent of education of a county which does not . . . maintain (or contribute to the support)of an agricultural high school . . . may provide, with the approval of the county board of

education and the board of supervisors, for the attendance of pupils residing in the county or which he [she] is superintendent of education, at an agricultural high school or agricultural high school-junior college located in a county adjoining thereto . . ."

II.A.3.; Statute §37-27-19

10. Other-Career Education Program

STATUTES
§37-13-59

To implement the career education program, the state department of education is empowered to hire a state coordinator of career education and staff. His/her responsibility shall be "to coordinate efforts of the personnel of the state department of education, the state's colleges and universities, local public schools and other appropriate agencies" to provide career education.

10. Other-Economic Education Program

§37-13-54 -- 55

The state department of education shall administer the economic educational program and "support shall be provided by colleges and universities in preparation of teachers. These institutions are also encouraged to establish formal Economic Education Centers to assist the schools with curriculum planning, in-service training and further work in the development of instructional materials."

In administering the economic education program, the state department of education shall take the following into consideration:

(1) implement inservice training for personnel;

(2) implement the above sections "in the most expeditious manner possible";

(3) "encourage local school evaluation of the effectiveness of the economic education program";

(4) "cooperate with the state colleges and universities in developing programs and short course workshops for the preparation of economic education teaching personnel."

10. Other - Experimental Programs

Regulations

11-(12)

Accredited schools are encouraged to carry on some innovative or experimental programs. If, however, the experiment presents a potential violation of any Accreditation Rules and Regulations, the school's administration must seek Department of Education approval for the experimentation.

10. Other - Education Voucher Programs

Statutes

§194-A:1 -- 194-A:5

The state board of education is authorized to "conduct a test of education voucher programs in certain school districts" to determine "whether education voucher programs will improve the quality of education, will increase freedom of choice with respect to publicly financed education and will provide more educational opportunities."

An "education voucher" is an instrument which may be exchanged for "the provision of educational services" or may be redeemed for cash up to a set maximum value.

The state board of education shall have the authority to "promulgate rules and regulations" for the education voucher program, including administrative standards, eligibility standards, and evaluation standards.

"Participating districts" are authorized to make agreements with the state board of education for the establishment of "educational voucher programs."

The state board of education shall "monitor and evaluate" the educational voucher programs to "determine whether such programs are improving the quality of education, increasing freedom of choice with respect to publicly financed education and providing more equal educational opportunities." The state board of education shall submit its reports to the governor.

10. Other-Demonstration Schools

Statutes

§18A:38-24

Any pupil may, with the consent of the district board of education and the commissioner, "be admitted to any demonstration school maintained in connection with any state college." The district board shall pay the determined amount of tuition.

TUITION

10. Other-Environmental Education Programs

Statutes

§18A:6-81--83

In order to meet the growing needs of New Jersey's environmental problems and to increase awareness and knowledge of environmental concerns, the commissioner of education is authorized to promote the establishment of "local public and nonprofit elementary and secondary school environmental education programs."

The commissioner of education is authorized to operate and develop "Regional Environmental Education Centers" in order to develop "environmental education programs" in each school district and provide environmental education to teachers.

§18A:6-84 --86

Any public or nonprofit educational agency may apply to the commissioner "for designation as a Regional Environmental Education Center."

Courses of study shall be approved by the Commissioner of Education and the State Board.

Instruction at the Regional centers shall include, "the study of man and his[her] environments, problems of environmental pollution, as they relate to the fields of ecology and other sciences. . . ."

§18A:6-87 - 89

Any public or non-profit school may arrange its schedule so that elementary and secondary school pupils" may utilize the services and facilities of an environmental education center."

The commissioner is authorized to enter into agreements with and to make cost sharing grants of money to, local school districts, New Jersey Public Broadcasting Authority or Regional Environmental Education Centers, to assist in the costs of services for local student participation in their educational services.

Upon application, the commissioner is authorized to enter into agreements with, to make grants of money to, local school districts to pay half the cost of "constructing and equipping local environmental education facilities."

§18A:6-91

The commissioner, with the approval of the state board of education shall: (a) make rules and regulations for the establishment and operation of the Environmental Education Centers for the purpose of providing curriculum materials, teacher training, demonstration pilot programs, guidance and consultative services to municipal conservation commissioner and other environmental interest groups. These centers shall concentrate their research and curriculum development efforts on "land use, ecology and related physical and social sciences;" (b) employ necessary personnel.

10. Other-Indian Education Program

Statutes

§77-2-11 -- 77-2-13

The "Indian education division" is created within the state department of education.

The superintendent shall appoint an assistant for Indian education.

The Indian education division shall:

A) provide direct assistance to meet the educational needs of Indian students;

B) provide direct assistance to local school districts in the planning, development, implementation and evaluation of curricula designed for Indian students;

C) establish an advisory council of Indian educators and others to assist in evaluating, consolidating and co-ordinating activities relating to education of Indian students.

10. Other - Home School Program

Statutes

§4801 -- 4809; 4815

The "common council" of any city having a population of 70,000 to 250,000 may establish a "home school for the purpose of giving instruction in the trades, industrial, agricultural and homemaking subjects in addition to instruction in public school subjects" to the city's school age children. Such school "shall be deemed a part of the public school system of the state, and shall be subject to the supervision and control of the commissioner of education and the education department."

A board of managers, comprised of at least five members, shall be appointed by the major, and shall be responsible for the operation and maintenance of the school. The managers may "discharge or parole . . . any child admitted" to the school. APPOINTMENT

The course of instruction includes "instruction in agriculture, mechanic arts, trades and homemaking, and in the duties, responsibilities and privileges of citizenship."

School age children are admitted on application, or committed as truants, incorrigible pupils, or juvenile delinquents. Juvenile courts may commit children to the school, but the board of managers may transfer any child committed by the court "found to be incorrigible, not amenable to proper discipline . . . or feeble minded . . . ." TRUANT

10. Other - Indian Education

Statutes

§111

The department of education shall perform "the

functions conferred by law" for the education of Indian children.

§4101 -- 4119

"The commissioner of education shall establish schools . . . for Indian children . . . ." In his/her discretion, the commissioner may cause suitable buildings to be erected or contract with any school district for such instruction. Composition of faculty, compulsory attendance laws, education of physically handicapped Indian children, and other policies with respect to Indian education conform substantially to state public education policies and procedures.

10. Other - Nautical School

Statutes

§4901 -- 4904

The board of education of the city of New York may, "in its discretion . . . provide and maintain a nautical school" in New York City "for the education and training ofpupils in the science and practice of navigation."

The board of education of the city of New York shall appoint at least three of its members as an executive committee for the nautical school. APPOINTMENT

The chamber of commerce of New York is to appoint a committee of its members as a council to cooperate with the New York City board of education in the establishment and maintenance of the school. APPOINTMENT

10. Other - Correspondence Courses

Regulations

Chapter III: VIII. A.

Supervised correspondence courses for high school credit or enrichment are available through the Division of Independent Study. The Division offers approximately 120 courses. Course work is done in units on a students' own. A local supervisor administers unit tests and final examination, but these are evaluated by the Division itself.

A summer school program is offered for high schools unable to provide one.

Graduation is possible through the Division. Requirements are the same as recommended by the State Department of Public Instruction.

Applications for enrollment of students presently enrolled in a high school, or those below compulsory school age, must have the application signed by a local school administrator.

10. Other - College Courses

Statutes

§3315.09

The board of education of any school district may enter into a contract for up to one year, with any other board or authorized official of any college to obtain instruction in special technical, professional or advanced studies beyond the scope of the public high school.

Similary the board may enter into a contract with a private corporation or association on a non-profit basis, for maintaining and furnishing a museum of art, science or history or providing music instruction or other educational services.

§336.175

The district school board may provide extended educational experiences to students "through public and private community agencies, when such experiences can be provided by the agencies more appropriately or at a lesser cost . . ." These programs may include but are not limited to work experience.

10. Other - Home Education

§343.960

The state board of education shall be responsible for approving the educational program for children living in private schools or homes enumerated herein.

The education may be provided in the regular schools or by the school district in facilities provided by the agency.

10. Other - Off-Campus Experience

CROSS REFERENCE

IV.H.; Regulation §581-22-230

10. Other - Other Courses

§343.910

In cities of at least 8,000, a district school board in cooperation with the city may employ "home demonstration agents and 4-H club agents to conduct educational programs among city youth and homemakers in the sciences of homemaking, agriculture and related arts and sciences."

10. Other - Driver Improvement School

Statutes

§2901

Any first class county or city may establish a driver improvement school. Motor vehicle operators residing in the first class county or city and with the approval of school administrators and operators residing elsewhere may attend. The purpose of the school is to give instruction in the operation of motor vehicles and for generally improving the driving habits of the operators attending.

§2902

A driver education school shall be established by the county commissioners subject to the approval of a majority of the judges of the court of common pleas, except in first class cities where the school shall be established by the city council.

§2903

Driver education schools shall be under the direction of the county superintendent of schools except in first class cities where they shall be under the direction of the superintendent of schools. The superintendent shall have the power and duty to hire instructors, but the cost of operation shall be on the county or city.

10. Other - Tutorial Services

Regulations

§ 11.31

Private tutoring by a properly qualified tutor shall be subject to the approval of the district superintendent of schools. Such instruction shall include subjects and activities designated and pre-

scribed by statute and shall be conducted daily throughout the period that the public schools are in session.

A compulsory school-age child regularly attending full time a nonpublic or private day school in which activities prescribed by statute and regulations of the State Board of Education are taught shall be excused from attending the public schools.

"Membership attendance of nonpublic school pupils lawfully enrolled part time in the public schools shall be recorded and counted on an equivalent full-time basis for attendance purposes and reimbursement."

HOMEBOUND INSTRUCTION

A school-age child unable to take part in homebound instruction or instruction in the home may upon recommendation of the school physician and a psychiatrist or public school psychologist or both and with the Secretary's approval be excused temporarily from school attendance. The temporary excusal, which shall be re-evaluated every 3 months may be extended upon recommendation of the school physician and with the Secretary's approval. The temporary excusal and re-evaluations are subject to requirements of notice and due process hearing. Children so excused shall be entered on the inactive roll.

10. Other - Americanization Schools

Statutes

§16-29-10

The truant officers shall inquire into "all cases" of the Americanization school attendance requirements, shall be authorized to enforce attendance by "legal processes", and shall not be liable for the costs of so doing.

10. Other - Programs for Pregnant Students

Regulations

ARTICLE IV: STUDENTS (p.4 - 12.3)

E. DISCRIMINATION, SEGREGATION, AND INTEGRATION

4. Regents: Policy for the Education of Pregnant Students (BR, 6/5/78)

The Board of Regents reaffirms the right of all students to equal educational opportunity. No student, whether a parent or prospective parent, shall be arbitrarialy excluded from any part of a regular school program.

The Board recommends that, whenever necessary, school programs for pregnant girls be adapted as as to allow for the provision of additional appropriate services. A comprehensive list of agencies to which local school systems can turn for supportive assistance for a pregnant school girl should be made available through the school system.

The Board recommends that a deliberate effort be made by local systems to interest new mothers in a return to school following birth of their child.

10. Other - Experimental Programs

Regulations

§43-230

Experimentation offers opportunities for the development of improved techniques and procedures in the educational process. Elementary and middle schools not using state-adopted textbooks in the required subject areas as the basis for their instructional program or that vary from the minimum time requirements must submit an application for an experimental program. Supplementary materials of instruction when utilized with an approved basal text does not constitute an experimental program. An experimental program must meet the following conditions:

1. The purpose, outline of general procedures, and plan of evaluation must be submitted to the Chief Supervisor, Accreditation and Educational Improvement Section, for written approval at least six weeks prior to the implementation of the program.

2. An evaluative report must be submitted to the Chief Supervisor, Accreditation and Educational Improvement Section, at the end of the experimental program on forms supplied by the Accreditation and Educational Improvement Section.

3. Experimental courses approved and offered for three consecutive years in elementary schools and for three years in middle schools may be considered regular courses in the sponsoring school without additional approval.

4. Standards relating to the minimum curriculum, the length of the school year, and others may not be violated in middle schools.

In secondary schools, the administrative head of an accredited high school may conduct an experimental program which necessitates the temporary waiving of certain standards providing condition (1) listed above is met, standards relating to the minimum curriculum, the length of the school year and others are not violated and evaluative

reports as described in condition (2) above are submitted with the following information: the number of students who passed and failed, instructional materials used, instructional schedule followed, and plans for continuing or modifying the experiment. Experimental courses approved and offered for three years may be considered regular courses in the sponsoring school without additional approval.

WAIVER

The director of an area vocational center may conduct an experimental program which necessitates the temporary waiving of certain standards provided the program has prior approval of the Chief Supervisor, Accreditation and Educational Improvement Section, and the Chief Supervisor, Program Planning and Development.

Experimentation by local directors of adult education programs is encouraged. It shall be reported to the Office of Adult Education when waiving of certain established standards are necessary for experimentation. Requests for prior approval shall be made to the Office of Adult Education and approved by the Office of General Education.

10. Other - Schools for Institutionalized Orphans

Statutes

§59-37-10 --59-37-30

The state board of education shall establish a grammar school and/or high school for institutionalized orphans and needy children if the directors of the institution request. The school shall be under the "direction and control" of the school district in which it is located and shall use its teachers but the instruction of those pupils shall be held in buildings provided by the institution. The school shall be subject to all rules and regulations that govern the operation of other public schools in the state. The state board shall provide for the support of the school and may discontinue the school at any time it deems advisable.

10. Other - Indian Education Programs

Statutes

§1-4-1

The "state commission of Indian affairs" is responsible for "securing assistance . . . particularly in the areas of education, health, welfare." The commission seeks to provide "resources and services" in order to "give equal opportunity to Indian people to solve their educational . . . problems . . . ."

§13-15-2

The state board of education is authorized to contract with the Department of the Interior "for the education of Indian children." The state board may receive and appropriate federal funds for that purpose.

§13-15-3

Local school boards are authorized to contract with the U.S. Bureau of Indian Affairs for the education of school-age children. Such contracts may agree to pay "tuition charges," or share "costs and facilities."

§13-15-5

Education provided under such federal contracts must meet school board standards. If the education is "supplied by a federally operated school," it shall be "considered in lieu of the public education required by law."

CROSS REFERENCE

IV.G.: Statute §13-28-11.1

10. OTHER - MINI-COURSES

REGULATIONS

p. 90

"Local school systems may establish mini-courses under the supervision of a certified teacher and with the approval of the local board of education and the State Commissioner of Education." These shall "permit the nine-week programs (for 1/4 of credit) for schools wishing to enrich the curriculum and provide more exploratory opportunities for students."

10. OTHER - OUT OF SCHOOL EXPERIENCES

REGULATIONS

p. 90

"Local school systems may establish guidelines for students to earn a maximum of two units of credit for out-of-school experiences. The guidelines would require instruction, text materials, and the same time requirements as for the regular school program." A certified teacher must supervise, and prior approval must be given by the local board and the State Commissioner.

"Credits earned in out-of-school experiences may not be substituted for required subjects as established by the State Board of Education" except for one-half unit credit of economics by participation in a Junior Achievement program. Out-of-school experience programs may include: Junior Achievement, private music, dance, and drama programs, apprenticeship programs, travel programs, and other programs whose goals are in accord with the school's objectives.

10. Other - Community Education

Regulations

§3621

"The procedures for providing community education programs are as follows:

(1) The Texas Education Agency will solicit from school districts proposals for pilot programs in community education and will, within the funds available, fund a limited number of such programs.

(2) The Agency will, within the resources available, provide upon request technical assistance to help school districts implement community education programs.

(3) Instruction shall be locally designed to meet community needs, using state guidelines for all programs supported by state or federal funds.

(4) Teacher qualifications for all locally designed and funded non-credit programs shall be established by the school district. Teacher qualifications for credit instruction must meet the state standards for such instructional programs."

10. Other - Consumer Education

Statutes

§21.119

"The Central Education Agency shall develop curricula and teaching materials for a unit of study in consumer education." This will be an optional unit of study.

Regulations

§3623

"A program in consumer education shall be developed, tested, and implemented as a multidisciplinary program, incorporated in appropriate subject areas and grades K-12."

§3623

"The program of consumer education as a multi-disciplinary program is the responsibility of several departments, chiefly the Department of Teacher Education and Instructional Services and the Department of Occupational Education and Technology.

A state design for consumer educationestablishes a conceptual framework for instruction defining goals, objectives, and activities. This design assigns responsibilities for the Texas Education Agency implementation."

10. Other - Crime and Narcotics Programs

Statutes

§21.118

The Central Education Agency will "provide and implement an effective education program" dealing with crime and narcotics. This will be to conduct assessments of the drug problem in each local high school district... (provide) training in drug-crime education ...." and to educate all members of the community concerning the drug problem...." This program will provide for study of crime and drug related problems and accreditation standards and teacher requirements.

Under this program funding will cover administrative costs for program development, coordinating and training professional positions, school district costs for materials and staff and such funding will be provided by the state, to be paid from the general revenue fund or other source.

10. Other - Environmental Education

Statutes

§3622

"There shall be a statewide design for environmental education. This design shall include goals and objectives, a framework for interdisciplinary environmental education programs, a structure for implementation, procedures for evaluation, and plans for financing such programs. The

statewide design for environmental education shall be coordinated with statewide activities for environmental education through the Governor's Office, Division of Planning Coordination.

An advisory committee on environmental education for conservation shall be established by the Commissioner of Education. The committee shall function in a reciprocating capacity, reacting to ideas being tested by the Texas Education Agency and offering suggestions relative to environmental education."

§3622

"The statewide design is implemented through guidelines for environmental education programs to be developed by school districts. The Division of Program Development is responsible for coordinating the efforts of several organizational units in developing the framework for these guidelines."

10. Other - Instructional Resources Program

Regulations

§3311

"Procedural guidelines for an instructional resources program are:

(a) comprehensive planning

(b) instructional resources programs personnel

(c) instructional resouces program and other state agencies."

10. Other - Late Afternoon and Evening Sessions

Statutes

§ 21.902

"The board of trustees of any district may provide late afternoon and evening sessions and determine which pupils shall be admitted or assigned to such school programs."

10. Other - Multi-Cultural Education

Regulations

§3251

"Multi-cultural education is in accordance with the State Plan for Implementing in Public School Curriculum the Concept of Confluence of Texan Cultures, adopted and revised by the State Board of Education and administered by the Commissioner of Education.

The State Plan includes guidelines relating to:

(a) Curriculum for Cultural Confluence

Teaching the knowledge of and appreciation for differences in cultural, language and life-style will be an integral part of the curriculum for every pupil.

(b) Textbook Materials for Cultural Confluence

Textbook materials used in teaching the concept of cultural confluence will present the positive contributions of all individuals and groups to the American way of life and will include a wide range of goal choices and life styles.

(c) Teacher Education for Cultural Confluence

Both the preservice and the inservice education of teachers will include components of the concept of cultural confluence to ensure their having a knowledge and understanding of cultural, language, and life-style differences."

10. Other - Programs for Pregnant Students

CROSS REFERENCE

IV.J.; Regulation §2304.1

Regulations

§4103.4.2

"The Commissioner . . . may allocate personnel units and operating costs to schools operated by the Department of Corrections . . . ."

10. Other - Indian Education Programs

Statutes

§53-2-33

In order to provide for the "welfare and education of Indians in public schools," the state board of education is "authorized to enter into contracts with the United States Department of the Interior." Such contracts are subject to the approval of local boards of education.

10. Other - Part-Time Schools

CROSS REFERENCE

IV.H; Statutes §53-24-1 -- 53-24-9

10. Other - Alternative Programs

Regulations

R.M. Ch. II.E; p. 22

Determination of education equivalent to that provided in public school shall be made by the Department of Education.

Within the Department of Education shall be established a Committee on Equivalent Education which shall act on home study cases. In such cases, other than those under Special Education, education shall be built around the Calvert Home Study Plan for elementary students and approval correspondence courses for secondary students.

Annually, each superintendant shall submit to the Department a list of places where education is provided other than public schools for children between the age of 7 and 16 years. The person responsible for approval of private schools shall ascertain that any non-public school on this list has been approved by the Board of Education.

10. Other-Alternative Study

Regulations

R.M. Ch. II; p. 88

The State Department enthusiastically supports the concept (called DUO, Do Unto Others) of volunteer work by students for academic credit, and recommends the granting of full academic credit for those who participate. The program is devised for youth of the tenth or eleventh grade and is recommended as a full semester activity. The benefits reaped by the student will depend on the creativity and planning of the local school and on the commitment of the sponsor.

10. Other-Citizenship Education

Regulations

R.M. Ch. II; p. 85

The State Board resolves to encourage local school boards to develop a comprehensive citizenship education plan, including participatory learning experiences in conjunction both with the decision-making

process of school life and with community agencies.

10. OTHER-DRUG EDUCATION

REGULATIONS

R.M. Ch. II.J; p. 35

The State Board urges immediate support and leadership by the Department to implement efforts to educate both adults and youth in the harmful affects of addictive drugs.

10. OTHER-LEGAL EDUCATION

REGULATIONS

R.M. Ch. II; p. 85

The State Board and the Vermont Bar Association jointly resolve to endorse the concept of legal education in the schools.

10. Other - Educational Programs for Institutionalized Children

Statutes

§22-9.1:04

"Each State board, agency and institution having children in residence or in custody shall provide education and training" which is "at least comparable" to that provided in the public schools. The board, agency or institution may provide education and training either with its own facilities and personnel in cooperation with the Board of Education or with a contract with a school division or any other public or private nonsectarian school, agency or institution.

The Board of Education shall prescribe standards and regulations for education and training provided directly by a board, agency or institution.

Each board, agency or institution providing the education and training shall submit annually its program to the Board of Education for approval in accordance with regulations of the Board

Any board, agency, or institution providing education and training to a handicapped child, as defined in §22-10.3, may proceed as a guardian, pursuant to §22-10.8 (a) to contract with a private non-sectarian school to provide special education as defined in §22-10.3

CROSS REFERENCE

IV.A.; Statute §22-55

10. Other - Community Education

Statutes

§28A.58.247

"Notwithstanding . . . any law, rule, or regulation, any school district is authorized to provide community education programs in the form of instructional, recreational and/or service programs on a non-credit and nontuition basis . . . for the purpose of stimulating the full education potential and meeting the needs of district residents of all ages and making the fullest use of the district's school facilities."

10. Other - Correspondence Courses

Statutes

§180-56-046

" Each school district ... shall adopt rules governing the acceptance of correspondence or college course for high school credit. Such rules shall limit acceptance to courses from approved schools or institutions .... The following are approved schools:

RULEMAKING

(1) Schools approved by the national University Extension Assocation,

(2) Community Colleges, vocational-technical institutes, four-year colleges and universities, and state approved private schools in Washington State, and

(3) Other schools ... approved, after evaluation for a particular course offering, by the school district."

10 Other - Environmental Study Center

Statutes

§28A.21.300

The operation of a state supported environmental study center shall be transferred to the educational service district "which the superintendent of public instruction deems . . . in the best interest of the public for utilization of such a center. . . ."

10. Other - National Defense Studies

Statutes

§180-50-060

" [T]he state superintendent ... is authorized to proceed with development of appropriate and necessary units relative to the national defense program."

10. Other - National Guard Career Training Program

Statutes

§28A.04.133

The state board of education may accept "national guard high school career training in lieu of" either required or elective high school credits.

§180-56-056

School districts may accept national guard high school career training in lieu of either required or elective high school credits.

Approval of the school district shall be obtained prior to a student's participation in a national guard career training program as follows:

" (1) The number of credits ... to be granted shall be calculated, agreed upon by the student and an authorized representative of the school district, ...

Credit toward high school graduation may be granted by the school district upon certification by a national guard training unit commander ... that the student has met all program requirements. "

Regulations

§180-56-041

" Credit ... may be granted for school planned learning experiences primarily conducted away from ...[school] ... facilities. School planned learning experiences ... may be accepted for credit upon compliance with [rules and] procedures established by the school district. Such rules shall include ... the following ...

(1) A proposal for approval of credit ... submitted prior to the experience and ... include ...

(a) Name of program

(b) Length of time ...

(c) Objectives ...

(d) Description of how credits shall be determined

(e) Content outline ... and/or major learning activities and instructional materials to be used

(f) Description of how student performance will be assessed

(g) Qualifications of instructional personnel, and

(h) Plans for evaluation of program.

(2) The proposal shall be presented to the ... school district board of directors for review, revision and approval or disapproval.

(3) The reasons for approval or disapproval shall be communciated to the students, parents, guardian..."

10. Other - Work Study Programs

Regulations

§180-56-051

" [W]ork experience ... should be regarded as a permanent phase of the secondary school curriculum rather than just a device to relieve a manpower shortage. The following ... may be granted for work experience [credit]:

(1) The work program shall be supervised by the school.

(2) The work experience shall be definitely related to the school program of the student.

(3) Credit given ... shall represent growth in the student and the type of work done should have definite educational value.

(4) The job ... shall provide varied experiences.

(5) A ... program shall be supplemented by an adequate program of guidance, placement, follow-up and coordination between job and school.

(6) Work experience as a planned part of a school subject may be included in the credit given for that subject.

(7) One work credit may be granted for not less than one hundred thirty five hours of work experience related to a student's school program.

(8) A student participating shall be legally employed and must have passed his/her sixteenth birthday.

(9) An employer's report ... indicating satisfactory progress on the job, shall be filed with the school.

APPRENTICESHIPS

(10) The regular state apprenticeship program, ... is acceptable."

10. Other-Conservation Camps

Statutes

§118.05

The school board may establish conservation camps, which need not be within the school district in order to promote an understanding of geology, geography, conservation and nature study. The board shall establish requirements for participation in the camps.

10. Other-Extension Courses

Statutes

§120.21

The school board of a union or common high school district or a common school district operating elementary and high school grades may contract with the university extension division for extension courses for pupils enrolled in high school, and for courses in flight instruction approved by the state superintendent. The cost of such contracts shall be paid out of school district funds.

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§16-36-1

A state textbook committee is created whose duty it is to make recommendations to the state board of education on textbooks to be used in the public elementary and high schools. In making its recommendations the textbook committee shall consider any recommendations made by the committee on courses of study or by the state superintendent of education.

§16-36-2

The committee shall be composed of 16 members, 14 appointed by the state board of education and 2 appointed by the governor, for one-year terms. Vacancies on the committee shall be filled by the original appointing authority. In order to qualify as a member of the committee, each person appointed must file an affidavit with the state board of education, declaring her/his intent to faithfully perform her/his duties and stating that s/he has no pecuniary interest in any textbook contracts.

CONFLICT OF INTEREST

§16-36-3

The state textbook committee shall elect officers from among its members at an organizational meeting and shall meet thereafter at the call of the chairman or the state superintendent of education.

§16-36-4; 5

Local textbook selection committees shall be appointed by each county and city board of education; the composition of the committee is to be determined by each local school board. In order to qualify, committee members shall file an affidavit with their respective board, stating their intent to faithfully perform their duties and stating that they have no personal economic interest in any textbook contracts. Local committee members shall serve for three-year terms. The local committees shall meet on call of the chairman of the local board and shall select textbooks from the state board of education's adopted

list or, if authorized by law, select books from a list submitted to the committee by a proper local authority.

§16-36-6

The adoption of a textbook by a majority vote of the local committee shall be for a six year period and may not be changed during that time unless the change is authorized by the state board of education.

§16-36-8

Besides recommending textbooks, the state textbook committee also has authority to recommend instructional materials when requested to do so by the state board of education, or when the textbook committee determines that such materials would improve the educational program.

§16-36-9

Before the state board of education adopts textbooks, members of the public shall be allowed a reasonable amount of time to be heard concerning any book proposed for adoption. Adoption of textbooks shall be made only at a public meeting of the state board of education.

§16-36-10

All textbooks adopted shall be in effect for six years and no changes may be made during that time unless recommended to the state board of education by the state textbook committee. All contracts with publishers shall stipulate that the authors of the books are not members of the communist party or known advocates of communism.

§16-36-22

City boards of education, upon the recommendation of the city superintendent of schools and the approval of the state board of education, may substitute texts for high schools other than those prescribed by the state board. Counties with a population of 150,000 - 180,000 may substitute other textbooks for use in junior and senior high schools for the state-adopted textbooks.

§16-36-23; 25

The state department of education shall purchase and furnish textbooks to pupils and teachers in schools operated by Alabama state hospitals, the Alabama institute for deaf and blind and the Alabama boys and girls industrial training schools.

§16-36-27

The state board of education shall provide as many textbooks as funds allow for the use of all public school pupils. No pupil shall be without a textbook except in courses which do not require one book for each pupil and except in courses not prescribed by the state courses of study committee.

§16-36-36

Neither the state superintendent of education nor any member of the state board of education shall have an interest in any textbook contract or publishing firm. A violation of this provision may result in fine or imprisonment.

CONFLICT OF INTEREST

§16-36-37

Any teacher who uses a textbook other than the book prescribed by the textbook committee shall be guilty of a misdemeanor and punished by a fine.

C. ISSUANCE

STATUTES

§16-36-32

All textbooks furnished to pupils shall remain the property of the state or local school system. The parent or guardian of a child to whom textbooks are issued shall be held liable for loss or damage of the books.

2. Audiovisual Education

Statutes

§16-7-2;3;5

The Alabama educational television commission shall consist of five members, appointed by the governor, who are residents and qualified voters. Co ssion members shall not have any financial interest in the facilities with which the commission deals. Vacancies on the commission shall be filled by the governor.

The commission shall promote the use of educational television and shall control and supervise the use of educational channels. The commission may own and operate television stations, or it may contract with other individuals or agencies for the operation of television stations.

3. School Libraries

Statutes

§16-21-1

The county board of education is authorized to appropriate funds to public schools for establishing, or improving school libraries.

§16-21-2

The state superintendent of education shall compile and publish a list of books from which the school libraries shall be chosen, and s/he shall adopt rules and regulations for the choice of books and the training of librarians.

§16-21-3

Any county board of education may establish a system of circulating libraries as an alternative to separate libraries for each school.

I.City Board of Education: Statute §16-11-23

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§14.07.050

Textbooks for district schools shall be selected by district boards. A State School Textbook Committee, "appointed by the director for state schools," shall make selections for state schools and the list shall be submitted to the "Board of Directors for State Operated Schools" for approval or rejection. A district may select from the list of the Committee.

§14.07.057

School boards selecting their own books shall submit a list to the department of education.

2. Audiovisual Education

Statutes

§14.58.10 -- 14.58.90

The Department of Education shall contain the Alaska Educational Broadcasting Commission. The commission shall consist of nine members appointed by the governor, subject to confirmation by the legislature. They shall serve a term of five years and may be removed only for cause. They shall receive no salary but shall be compensated by a per diem and travel expenses. The commission shall "control and supervise" the educational broadcasting channels, receive for revision and approval all educational broadcasting licenses, applications for federal, state or private funds involving educational broadcasting, provide consulting services to public or private agencies concerning educational broadcasting, serve as a library and clearing house for information on broadcasting for educational and public purposes, "have the final authority over the broadcasting policy programming, and provide coordination for the development of educational broadcasting.

To carry out its duties the commission may hire a director, a consultative, technical and clerical staff and appoint unpaid advisory committees to assist the commission to develop educational broadcasting.

Regulations

4AAC 63.010

"The goals of the commission are to assist in the establishment and support of educational broadcasting facilities in the state in order to provide citizens of Alaska with the opportunity to

(1) obtain the information needed to further their education, welfare, health and safety; and

(2) receive general educational instruction and instruction to obtain school or college credit; and

(3) become culturally enriched."

3. School Libraries

Statutes

§14.56.20

"The department shall: (1) stimulate and encourage citizen's participation in the development and improvement of library facilities; and (2) establish policies, plans, and procedures of the department and promulgate reasonable regulations and orders, with penalties, as may be required."

B. EDUCATIONAL MATERIALS
1. TEXTBOOKS
A. SELECTION AND PURCHASE
REGULATIONS
R7-2-201

ARS 15.102.18

The nine-member appointed state textbook committee shall advise the State Board of Education on designing and evaluating textbook adoption procedures and study legislative changes in the textbook adoption procedures.

TEXTBOOK COMMITTEE

R7-2-201

ARS §15.102.18
15.101.B

The 27 member appointed Textbook Evaluation Committee shall study available instructional materials and recommend to the State Board of Education three to five textbooks for each subject area and supplementary texts. When approved these shall become the official state textbooks. Supplementary texts shall be chosen to more fully cover the subject or to better meet the diverse educational needs of students with language or learning disabilities or cultural differences.

R7-2-301
Policies re Subject Areas

"The State Board of Education believes and suggests that parents should be involved in educational pursuits and encouraged to participate actively with the teachers in helping children learn. The views of parents should be solicited and given serious consideration in the selection of instructional materials and methods."

PARENTAL INVOLVEMENT

R7-2-301

ARS §15.102.18; 15.1101 B

The State Board of Education believes that parents have the right to know what is being taught their children and therefore, shall be provided with a copy of the current state adopted course of study and textbook list upon request to the State Superintendent. The State Board of Education recommend, that local districts develop procedures to allow parental review and participation in textbook selection.

C. Issuance

Statutes

§15-1101; 1103; 1107; 1109

The state board of education shall provide free textbooks to all students in the common schools. The state board of education sahll contract with publishers for the purchase of textbooks.

Pupils shall be held responsible for damage to or loss of textbooks. In schools with four or less teachers, the county school superintendent may advise the board of trustees on the selection of textbooks.

3. SCHOOL LIBRARIES

STATUTES

§15-450

The board of trustees may establish a district library and may appoint district librarians. The library shall be free to all pupils who attend the school.

B. Educational Materials

1. Textbooks

A. Selection and Purchase

Statutes

§80-136--139

School officials are prohibited from having interests in the sales of school supplies. Specifically, "any member of (the) board . . . their agents or employees" are prohibited from "directly or indirectly receiving any pecuniary reward or profit" from actions taken "by the board of which he /she may be a member." Those who violate this law "shall upon conviction, be deemed guilty of a misdemeanor," fined, and "be removed from office by the judge" hearing the case.

§80-1902

No school officer or employee shall represent a person "seeking to sell any school books to the State or to any school district" or receive compensation for "service or influence in recommending or procuring the use of any book, school apparatus or furniture . . . in any public school." Violators shall be guilty of a misdemeanor, removed from office and fined a maximum of $500.

LIABILITY

Acts 1975, NO.302,
§1-4

The State shall provide free textbooks and other instructional materials including textbooks, workbooks, dictionaries, films, filmstrips and other audiovisual equipment used in a particular program

By March 15 of each year the State Board of Education shall authorize the acquisition of materials for grades nine to twelve inclusive.

A State Textbook and Instructional Materials Selecting Committee shall select the materials, "make and execute contracts with publishers."

By June 15, the State Department on Education "shall prepare and distribute to school districts an

2. Audiovisual Education

§80-3901--3908

The Educational Television Commission shall consists of eight members, including at least one person from each Congressional district, one "actively engaged . . . in the public school system" and one engaged in an institution of higher learning. No commissioner shall simultaneously hold a political position. Commissioners "shall be appointed by the Governor with the advice and consent of the Senate for terms of eight years" and may be reappointed. Each member shall receive $15.00 each day of attending to the Commission's business and expense allowance of up to $10.00 per day.

COMMISSION

"No member of the Commission shall have any financial interest in any facilities such as the Commission is authorized to deal with, including an interest in any commercial television or radio station."

The Commission shall elect a chairman, secretary and other officers annually. The Commission's purpose is to promote the use of educational television and, to this end, "survey, study and appraise the need for an over-all plan for the use of television facilities available for non-commercial educational use." The Commission shall supervise "the use of channels reserved by the Federal Communications Commission" for said use. "It may designate the location of stations to utilize such channels and make rules and regulations governing the operation of such stations and programs televised over such channels. [And it] may own and operate television stations to utilize these channels, or it may contract with individuals, corporations, educational institutions, or other governmental agencies for the operation of such stations."

The Commission "may solicit and accept gifts and grants of money" and money received from the sale of property.

approved list of books . . . and other instructional materials for all subjects offered".

Acts 1975, No. 302, §7, 8

The Selecting Committee shall choose books and other instructional materials for the succeeding calendar year. It shall be comprised of nine persons, each having at least five years teaching or supervising experience in Arkansas public schools, four years of college, currently teaching or supervising in the subject for which he/she is choosing materials and three years prior teaching experience in that subject and representative of the grades under consideration.

SELECTION

The Committee shall select at least six books for every subject for grades nine through twelve inclusive.

For grades one through eight inclusive, the Committee shall recommend a total of six to nine "basic instructional programs." The Committee shall make its final recommendations to the State Board by December 15.

Acts 1975, No. 302, §12

School district boards of directors shall make reports to the State Board of Education on the "adoption, distribution, and use of State textbooks and instructional materials."

Acts 1975, No. 302, §15

Person(s) wishing to sell textbooks and other instructional materials to the state must comply with strict filing and bidding procedures.

No one connected with the public school system may benefit from contracts for educational materials, upon penalty of fines and/or imprisonment.

B. EDUCATIONAL MATERIALS
1. TEXTBOOKS
A. SELECTION AND PURCHASE

STATUTES

§ 60000 -- 60003

The state board shall have the power to adopt one or more separate series of textbooks or instructional materials systems for any of the several courses offered in the elementary schools.

The Legislature recognizes the need to establish broad minimum standards and general educational guidelines for the selection of instructional materials throughout the state but also recognizes the need for specific choices to be made at the local level.

The Legislature also recognizes that, in § 51000 et seq. and in § 51200 et seq., it gave governing boards broad powers to establish courses of study and that governing boards must have the ability to choose instructional materials appropriate to their courses of study.

§60060 -- 60063

Every publisher or manufacturer of instructional materials offered for adoption or sale in California shall:

(a) Furnish the instructional materials at a price in California which, including all costs of transportation, shall not exceed the lowest price at which the publisher offers the materials to any state or district in the United States.

(b) Provide any instructional materials free of charge in California to the same extent as provided to any state or district in the United States.

(c) Guarantee that all copies of any materials sold in California shall be at least equal in quality to copies of such materials sold elsewhere in the United States.

(d) Not in any way, directly or indirectly, become associated or connected with any combination in restraint of trade in instructional materials.

(e) Maintain an office and depository in California or arrange for one by contract. (For purposes of textbook purchases under §§60264 and 60401, this requirement shall apply to all publishers and manufacturers except one whose total orders for

textbooks from all governing boards in California are, for a particular school year, less than 1,000 copies of any single title or less than 10,000 cpies of multiple titles).

(f) Upon the willful failure of the publisher or manufacturer to comply with these requirements, be liable to the governing board in the amount of three times the total sum under the publisher or manufacturer nor paid in excess of the price required under (a) and (d) and in the amount of three times the total value of the materials which the board is entitled to receive free under (c).

LIABILITY

These provisions shall apply to the acquisition of materials under §18132 and 18171.

A governing board shall order any publisher or manufacturer who violates any of these provisions to cease to offer any instructional materials to that board. If such an order is made, it shall be unlawful for the publisher or manufacturer to sell materials to that board until the publisher or manufacturer is no longer in violation.

§60071 -- 60076

No publisher or manufacturer of instructional materials, nor any representative of one, shall offer or give any endowment, money or valuable thing, or any inducement, to any school oifered to influence the adoption or purchase of any instructional material, nor shall any school official accept any such offer.

CONFLICT OF INTEREST

Any publisher or manufacturer or representative of one or school official who violates this provision is guilty of a misdemeanor. A school official who violates these provisions shall also be removed from his/her official position.

REMOVAL

However, nothing here shall be construed to prevent the offering by a publisher or manufacturer or representative on the accepting by a school official of sample copies, nor shall anything be construed to restrict a school official from receiving royalties or other compensation from the publisher or manufacturer of materials written or prepared by the school official and adopted or purchased by a board. No district shall have the right to receive any such royalty or compensation due to a school official employed by the district unless the material was written

or prepared during the normal school day during which the official was required to be on duty.

§60200 -- 60202

The state board shall biennially adopt a list of textbooks and instructional materials for use in the elementary school grades.

(a) The state board shall adopt not less than 5 but not more than 15 of any of the following, per subject, per grade: instructional materials, instructional materials system, instructional materials sets, or a combination of these. The state board may designate each as a basic or supplementary It shall not adopt more than two instructional materials sets

(b) Fewer than five of these may be adopted per subject per grade.

However, in no event shall the board adopt less than two basic instructional materials systems per subject, per grade.

(c) If a district board establishes to a state board's satisfaction that the adoption of basic instructional materials does not promote the maximum efficiency of pupil learning in the district, the state board shall authorize the district board to use its instructional materials credit to purchase additional instructional materials specified by the state board in accord with its procedures.

(d) The state board shall bienially adopt lists of instructional materials for language arts, arithmetic, social services, reading, science, and any other subject in which the board shall determine the desirability for instructional materials.

(e) The state board shall, at the time of adoption, determine the date upon which state-adopted materials shall be available for use by districts.

(f) The state board may adopt materials without designating a grade or subject and may designate more than one subject or grade.

In adopting the biennial list, the state board may retain any instructional materials from the previous biennial list, delete from the previous biennial list any materials which are obsolete or received in order from any district during the previous biennial period, and add materials not previously submitted for adoption or

materials previously submitted which have been revised to comply with any state board recommendations.

Before final adoption of any instructional materials not currently listed, the state board shall make any textbooks prepared for adoption available for public inspection for 30 days at display centers designated by county superintendents. There shall be at least 5 display centers in Los Angeles County, 3 each in Orange County and San Diego County, and 2 each in Alameda County and Santa Clara County.

§ 60203 -- 60205

The State Board shall give the Curriculum Development and Supplemental Materials Commission a public hearing before making any adoption of instructional materials for use in the elementary schools.

The Commisssion shall recommend curriculum framework to the state board; develop criteria, available to the public, for educational materials resubmitted for adoption so that the materials shall adequately cover the subjects in the indicated grade; study and evaluate all materials submitted for adoption; and recommend to the state board instructional materials which it approves for adoption.

The Commission may appoint task forces of subject matter experts to assist them. Such task forces shall include teachers and representatives of various ethnic groups and of various types of districts.

§60221 -- 60226

Publishers and manufacturers submitting instructional materials for adoption shall provide sample copies in quantities determined by the state board.

Publishers and manufacturers shall, at a time designated by the Commission, submit the following information:

(a) Detailed specifications of the physical characteristics of instructional materials, submitted for adoption.

(b) A price schedule for the sale of completed materials (including all costs of transportation), a statement of the cost to the state of purchasing a single unit of each item, and any discounts for quantity purchases and for payment within any

specified period of time.

(c) A price schedule for lease and/or purchase by the state of films, dies, and other materials to be used by the state to manufacture such materials.

(d) A price schedule of royalty costs to be paid to the publisher or manufacturer whenever the state manufactures and distributes to districts any such materials.

Publishers and manufacturers may submit revisions to price schedules for any materials being considered for relisting.

Publishers and manufacturers shall make available for purchase by any governing board any diagnostic, criterion-referenced, or other tests that they may develop.

At a district board's request and with the county superintendent's approval, publishers and manufacturers or other qualified persons shall provide in-service training in the use of instructional materials produced by them. The training shall be provided on terms agreed upon and may be paid for by the board. No penalties shall be imposed on a publisher or manufacturer that does not provide such training free of charge.

Publishers and manufacturers shall develop plans to improve the quality and reliability of instructional materials through learner verification. Boards shall be encouraged to allow publishers and manufacturers limited access to classrooms for necessary testing and observation. Publishers and manufacturers shall provide copies of test results and evaluations made as part of learner verification at the board's request.

§60260 -- 60265

It is the Legislature's intent that district boards order instructional materials which meet the needs of pupils in their district.

District boards shall determine the necessary quantities and distribution pattern of instructional materials to pupils. No minimum order or ratio of materials shall be required, except that sufficient quantities shall be provided to meet the needs of pupils and the requirements of Section 7.5 of Article IX of the California Constitution. District boards shall order all parts of any instructional material system which they

order, except parts already owned. District boards may order any quantity of any part of any instructional materials set.

District boards shall provide for substantial teacher involvement and promote parent and community involvement in selecting instructional materials.

After any material, including any state-adopted textbooks, has been placed in use by a district board subsequent to a biennial adoption, it shall be retained in use by the district for not less than 2 years nor more than 6 years. The state superintendent may exempt materials from these requirements whenever the district board demonstrates that the material's continued use will contribute to maximum efficiency of pupil learning.

§60280 -- 60284

The state board may acquire instructional materials ordered by district boards by purchasing them directly from the publisher or manufacturer or from any publishers's or manufacturers' depository or by leasing films, dies, maps, engravings, and copyrights, providing for the payment of royalties, and doing all other things necessary for compiling, printing or publishing them.

The cost of instructional materials acquired in any manner shall be paid out of the State Instructional Materials Fund.

Each contract executed for the procurement of instructional materials shall include the right of the state to transcribe and reproduce material in braille, large print, recordings or other media for the use of handicapped minors, including the visually handicapped. The royalty shall be the same specified in the contract for the regualar materials designed for nonhandicapped pupils.

BRAILLE

LARGE PRINT TEXTS

§60400 -- 60404

The board of each district maintaining a high school shall adopt textbooks for use in the high school. Publishers of high school textbooks must comply with §60040 et seq., §60060 et seq., and §60226.

The state board shall designate the kinds of books which shall be classified as textbooks. All textbooks and instructional materials shall be purchased directly from the publisher or

manufacturer or any publisher's or manufacturer's depository.

Textbooks adopted shall be put into use in the district not later than the school year next following their adoption. Once placed in use, a textbook shall be retained in use for a period of not less than three years.

IIB1 -CA 7
CALIFORNIA

REGULATIONS

§9521

The State Board of Education has the right to donate, sell, distribute or otherwise dispose of any obsolete or undistributed textbooks.

§ 18530-18556

The State Curriculum Development and Supplemental Materials Commission shall submit to the Board its recommendations made pursuant to Education Code Section 9404(d).

The State Board shall display for 30 days those textbooks recommended for adoption, at display centers designated by county superintendents as provided in Education Code Section 9402. A copy of this article and a notice of the time and place of the public hearing to be given the Commission pursuant to Education Code Section 9403.

At that public hearing, the Curriculum Commission may present written comments on its recommendations of the instructional materials submitted for adoption.

PUBLIC LEARNING

Any person may submit a written statement or make oral comments on the materials recommended by the Commission.

POLICY GUIDES

CURRICULUM DEVELOPMENT AND INSTRUCTIONAL MATERIALS EVALUATION FOR CALIFORNIA SCHOOLS. 20 pages 1975. California State Board of Education.

This booklet describes the procedures for appointing committees to review instructional materials in various subject matter areas and the procedures for textbook adoption and evaluation.

II.A.1; Statute §51050

II.A.10.Other-Individual Instruction; Statute §58400--58412

B. CONTENT STANDARDS

STATUTES

§51510

Except as to textbooks approved by the state or county board, no bulletin, circular or publication may be used as a basis of study if the material contained in it has been disapproved by the governing board of the district in which the school is located.

§ 60040 -- 60047

When adopting instructional materials for use in the schools, governing boards shall include only materials which:

(a) accurately portray the cultural and social diversity of our society, including the contributions of both men and women in all types of roles, of American Indians, American Negroes, Mexican Americans, Asian Americans, European Americans, and members of other ethnic and cultural groups, and of the entrepreneur and labor in the development of California and the United States;

(b) accurately portray, whenever appropriate, man's place in ecological systems and the necessity for the protection of the environment, and the effects on the human system of the use of tobacco, alcohol, narcotics and restricted dangerous drugs and other dangerous substances;

(c) encourage, when deemed necessary and proper, thrift, fire prevention, and the humane treatment of animals and people;

(d) contain, when appropriate to the comprehension by pupils of social science, history, or civics, the Declaration of Independence and the Constitution of the United States; and,

(e) are, to the satisfaction of the governing board, accurate, objective, and current and suited to pupils at their respective grade levels.

No instructional materials shall be adopted by any governing board which, in its determination, contain any matter reflecting adversely on persons because of their race, color, creed, national origin, ancestry, sex or acceptance of any sectarian doctrine or propaganda contrary to law.

EQUAL OPPORTUNITY

§6004 -- 60047

Any governing board may conduct an investigation of the compliance of any instructional materials, which it adopts with content standards under §§60040 to 60045.

If, after the good faith acquisition of instructional materials by a governing board, they are found to be in violation of such standards and the governing board is unable to acquire other acceptable materials in time to be used, the governing board may use the acquired materials but only for that academic year.

§60110 -- 60111

DRUG EDUCATION

The Legislature intends that the state board give high priority to the adoption of accurate, objective, and current instructional materials on drug education for classroom use by teachers and pupils.

The Department of Education shall establish an information center of current drug education materials, to be used by districts and teachers and including samples of effective courses of study, curriculum guides, teaching materials, reference materials, and reports on current district policies on drug education.

CROSS REFERENCE

II.A.1; Statute §51511

C. ISSUANCE

STATUTES

§60070

No school official shall require any pupil, except pupils in adult classes, to purchase any instructional material for the pupils' use in the school.

§60100 -- 60102

District boards are not required to provide instructional materials, free of charge, or otherwise to any adult involved in adult classes. Provisions related to educational materials are not applicable to materials used by adults in adult classes.

§60310 -- 60315

Instructional materials or texts adopted by the state board may be ordered by the head of any state institution offering instruction in the elementary grades or giving instruction in elementary teaching; governing boards or nonpublic schools; and individuals for use only in California.

LARGE PRINT TEXTS

BRAILLE

The state board shall make available copies of adopted textbooks in large print for pupils whose visual acuity is 20/70 or less or who have other impairments making the use of such textbooks necessary, and in braille characters for pupils whose corrected visual acuity is 20/200 or less.

The state superintendent shall maintain a central clearinghouse-depository and duplication center for specialized textbooks, reference books, recordings, study materials and other items for the use of visually handicapped students. Such materials shall be available to other handicapped minors who are unable to benefit from the use of conventional materials and to visually handicapped students enrolled in public community colleges, California State University and Colleges, and the University of California.

The state superintendent shall loan to pupils entitled to attend public schools but in attendance at a school other than a public school under §48222 specialized instructional materials for the visually handicapped without cost to the pupils or their schools.

The state superintendent shall lend to pupils entitled to attend public schools but in attendance at a nonpublic-school under §48222 instructional materials adopted by the state board for use in the public schools. No charge for the materials shall be made for the use of such materials.

§60410 -- 60414

Each high school district board shall purchase textbooks for the use of pupils. The textbooks shall remain the district's property and be supplied to pupils for use without charge. The board may fix a charge not to exceed the cost of the books for books furnished pupils in classes for adults or may lend books to such pupils and require a deposit refunded on return of the books.

The board shall arrange to place books purchased within easy reach and accessible for the use of all pupils.

The board may at the end of any term sell textbooks owned by the district to pupils at prices not exceeding the actual value of the books. Pupils shall not be required to make such purchases. The proceeds shall be credited to the district's general fund.

The board may purchase textbooks for the use of students residing in the district but attending high school in an adjourning state which does not furnish textbooks free of charge. Such textbooks shall remain the district's property.

§60500 -- 60530

RULEMAKING

Governing boards shall adopt rules and procedures for prescribing standards for determining when instructional materials adopted by them are obsolete and whether or not such materials are usable for educational purposes.

The state board, any district board employing a superintendent, and other districts with the county superintendent's approval may dispose of obsolete instructional materials by donation to any governing board, county free library, or state institution; by donation to any public agency or institution of any territory of the U.S.; by donation to a nonprofit charitable organization; by donation to children or adults in California or foreign countries for increasing the general literacy; and by sale for a nominal price for use in California to any organization which agrees to use such materials solely for educational purposes. Any recipient organization or institution must certify that it will use the materials for educational purposes and that it will make no charge of any kind to persons to when the organization gives or lends such materials.

In order to ship the obsolete instructional materials to such recipients, governing boards may use funds from the State Instructional Materials Fund if the cost of shipping will be lower than the estimated cost of storing or otherwise disposing of the materials.

The state board shall pay the publisher or manufacturer the royalties agreed to for any instructional material that the state board designates or obsolete, but which it provides to district boards that have previously ordered the material.

Money received by the state board from the sale of obsolete materials shall be deposited in the State Instructional Materials Fund. Money received by a district board shall be deposited as the district board prescribes and used for district purposes.

The state board, any district board employing a superintendent, and other school districts with the county superintendent's approval may dispose of obsolete instructional materials by mutilating them so as not be salable as instructional materials and selling them for scrap at the highest obtainable price or by destroying them by any economical means, provided that no such material shall be destroyed until 30 days after the board has given notice to all persons who have requested such notice.

REGULATIONS

§9501 -- 9502

Title to instructional materials purchased by the Board shall pass to the school districts upon delivery. Nonpublic schools whose pupils are loaned state instructional materials must prescribe rules for their care and collect money for loss or willful or negligent damage to them.

§9583-4

LARGE PRINT TEXTS

BRAILLE

The superintendent of any district may request the State Board of Education to supply large print or braille textbooks.

II.B.1.a; Statute §60400--60404

2. Audiovisual Education

Statutes

§1250 -- 1251

The county superintendent of schools may enter into agreements with the governing board of any school district under his/her jurisdiction to provide for the use by the district of audiovisual equipment and apparatus. He/she is to provide for all incidentals related to such equipment. Such an agreement may also be entered with any nonpublic school or institution of higher education.

These materials shall be available for use by the nonpublic instution of higher education or the nonpublic school when not needed by the public schools.

§1830 -- 1836

Elementary and secondary schools which elect to participate in the use of the facilities which provide for audial and visual curriculum materials may do so as provided for by this article.

Certain personnel, not including clerical, accounting, and stenographic services personnel, shall hold valid credentials.

This article provides for the proper acquisition and distribution of necessary materials, and provides for the participation in or procuring by television broadcasts for use in the education program of the schools. When not in use for school purposes such facilities may be used for transmitting community educational television programs.

§51870 -- 51875

A school district or a county superintendent may contract for, on behalf of schools under their jurisdiction, subject to the state superintendent's approval, the processing of television broadcasts or closed-circuit television programs for use in the the educational program.

CONTRACTS

The state superintendent shall administer an instructional television service for public school pupils to include but not limited to: providing for equitable and high-quality instructional television service to the largest feasible number of public school pupils; providing for contracts with local educational authorities acting on behalf of regional organizations (of educational agencies), or directly with regional organizations, for assistance in developing and implementing instructional television service, evaluation procedures, and teacher training and parent involvement programs; providing for the production and acquisition of the highest quality and most widely useful instructional television programs possible for distribution by all regional organizations on a statewide basis; providing technical assistance to regional organizations to assist them in the production of their own quality programs, using local funds and meeting unique regional educational needs; and providing for statewide coordination among regional organizations and local educational agencies to eliminate unnecessary duplication of effort and facilitate economical provision of high quality programming in areas of highest priorities of need.

APPOINTMENT

The State Instructional Television Advisory Committee shall be appointed by the state board to assist in the production of high-quality programming and in the determination of areas of highest priorities of need for instructional television. It shall consist of eight representatives of regional organizations, with a maximum of one from each region, three public school administrators or classroom teachers or students or parents or combination of them, and one professional with expertise in television programming, and one professional actively engaged in the management of delivery systems. Members shall serve without compensation except for travel expenses incurred in the performance of duties. They shall serve staggered terms of three years.

The state board shall establish regulations governing the administration of instructional television and may request assistance from interested parties in the exercise of this responsibility. The state superintendent shall enforce these regulations and make an annual report to the state board on all aspects of instructional television activity in the state.

Nothing in §51870 et seq. shall be construed as limiting regional organizations and other agencies from expending their own funds for purposes related to instructional television.

REGULATIONS

§ 19502;19505;19506

School districts pursuant to Education Code Section 6442 or county superintendents pursuant to Education Code Section 6441 shall apply to the Superintendent of Public Instruction for approval of a plan to procure television broadcasts or closed-circuit T.V. programs.

3. School Libraries

Statutes

§1770 -- 1775

The county superintendent of schools may:

a) agree with the county librarian to take over all library services, and employ a librarian and such assistants as may be deemed necessary for the function of the library; and (b) transfer necessary funds for the purchase of books for the library as needed.

In addition to these library duties the county superintendent may establish a county teachers' library as well as file annual reports as to the condition of all libraries under his/her jurisdiction.

§18000 -- 18139

There is established here a commission known as the Board of Library examiners, consisting of:

(1) the State Librarian; (2) President of the California Library Association; (3) the librarian of the Public Library of the City and County of San Francisco; (4) the librarian of the L.A. Public Library. These members receive no compensation.

The governing board of each school district shall provide school library services for the pupils and teachers of the district by establishing and maintaining school libraries or by contractual arrangements with another public agency.

"The libraries shall be open to the use of the teachers and the pupils of the school district or community college district during the schoolday. In addition, the libraries may be open at such other hours, including evenings and Saturdays, as the governing board may determine. Libraries open to serve students during evening and Saturday hours shall be under the supervision of certificated personnel. Certificated personnel employed to perform full-time services in an elementary,

junior high, or high school during the regular schoolday, may supervise, but shall not without their consent be required to supervise, a school library on evenings or Saturdays. If such a person agrees to supervise the school library during Saturday or evening hours, he[she] shall be compensated in the amounts determined by the governing board of the district as indicated on the salary schedule."

County boards of education may adopt lists of books and other library materials for districts not employing a superintendent of schools or a librarian full time.

The governing board of any school district may exclude from schools and school libraries all books, publications, or papers of a sectarian, partisan, or denominational character.

The governing board of a school district may:

APPOINTMENT

(1) appoint a librarian(s) to staff libraries it maintains; (2) be accountable for the proper care and preservation of the school libraries of the district; (3) shall report on the condition of school libraries; and (4) may agree with the proper authorities of the county to contract for the provision of school library services by the county library.

School districts may purchase textbooks approved by any board authorized to adopt such materials in addition to those furnished by the county library.

The county librarians may dispose of books and other materials no longer fit for service and no longer needed by the course of study.

CONTRACT

The governing board of any high school district lying wholly or partly within a county maintaining a county free library may enter into a contract or agreement with the board of supervisors of the county by which the high school district may secure the advantages of the county free library.

Whenever the governing board of a school district enters into an agreement with a county or city library for school library services the district shall provide for the care and custody of the books and other property delivered to it.

Agreements made as forementioned may be terminated.

§18310; 18312 -- 18322

A library district may be formed upon the application of 50 or more taxpayers and residents of any unified school district, followed by an election.

If there are formed substantially within the territory of a union high school library district two or more unified school districts, the library district shall become a unified school district library which shall be governed by the governing board of the unified school district whose territory includes the largest portion of the territory of the library district.

Any union high school district may establish and equip a public library for the dissemination of knowledge of the arts, sciences, and general literature. The title to all library related property is to be vested in the district in which the library is located.

§18330; 18340-18341; 18370-18373

On petition of 50 or more taxpayers in a united high school district for the formation of a library, the district may cause an election for that purpose.

In the name of the library district, the governing board may sue or be sued, and may hold and convey property for the use and benefit of the district.

The trustees in whose control the library district has been placed shall severally hold office during the term for which they have been elected as trustees of the union high school district.

A library district may at any time be dissolved by a two-thirds vote. Upon dissolution the property of the district shall vest in any union high school district in which the library is situated.

§18380 -- 18411

The board of library trustees shall meet at least once a month, with special meeting to be called at any time by any two trustees. Three members constitute a quorum. At the first meeting of the board, a certificate shall be made out showing that the library has been established. The board shall be responsible for all transactions and rules of the library under its management.

The board of trustees shall:

(1) prescribe the duties and powers of the librarian and secretary ; determine the number of and appoint all officers and employees; (2) purchase necessary books and journals ; (3) purchase real property, erect or rent and equip rooms ; (4) request the appropriate state officials to furnish the library with copies of any and all reports, and laws; (5) borrow books from, lend books to, and exchange books with other libraries; (6) do and perform any and all other acts necessary; and (7) designate the hours during which the library will be open.

§18440 -- 18452

APPOINTMENT

A board of library trustees may appoint a library commission consisting of five members to manage and operate the library or libraries of the district. Said commission shall hold office for three years.

REGULATIONS

§ 16041-16043

Each school district may provide in its libraries books, reference books, periodicals, photographs, pictorial or graphic works, maps, charts, globes, sound recordings, films, filmstrips, kinescopes, video tapes, or other printed or audio visual materials approved for use in the schools by the governing board pursuant to Chapter 12 (commencing with Section 7050) of Division 6 of the Education Code.

Pupils may borrow school library materials at

no charge. "School librarians ... shall be responsible to perform duties assigned by the school district governing board."

§ 20150

As used in this chapter and where used in Chapter 1.5 of Division 20 of the Education Code, "library system" shall mean one or more libraries providing the following basic elements of library service, involving but not necessarily limited to book and periodical resources:

(a) The selection and acquisition of materials in a consolidated or in a coordinated mannter.

(b) The organization of materials for use, including cataloguing, classification, and physical preparation, in a consolidated or in a coordinated manner.

(c) The lending of materials for home use, with the return of such materials unrestricted as to service outlet.

(d) Reference and research, including assistance to users by library staff, consolidated or coordinated where necessary to provide

4. Supplies and Equipment

Statutes

§40000 -- 40008

The county board of education shall establish rules and regulations under which any school district in the county shall purchase standard school supplies and equipment.

RULEMAKING

The governing board of each school district shall purchase school furniture, including musical instruments, and apparatus as are necessary, and may purchase uniforms for the use of school bands.

The clerk of each district shall provide all school supplies.

§40011 -- 40015

Writing and drawing paper, pens, ink, and other necessary supplies for the use of schools, shall be furnished under direction of the governing boards of the school district.

The governing board of a school district may rent or lease personal property needed for district purposes.

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

CONSTITUTION

COLORADO CONST., art. 9 §16

"Neither the general assembly nor the state board of education shall have power to prescribe textbooks to be used in the public schools."

C. ISSUANCE

STATUTES

§22-32-117

"When the free use of textbooks is provided . . . a local board may require each nonindigent pupil to make a reasonable loss or damage deposit....

All such deposits shall be refunded to the pupil when [she]he has returned the textbooks or equipment in good condition except for ordinary wear....

A board may not require a pupil who has not completed the twelfth grade to pay any [other] fees as a condition of enrollment in school."

2. Audio-Visual Education

CROSS REFERENCE

IV.E; Statute §29-7-102

3. School Libraries

Regulations

2202-R-11.01 - 11.02

Each elementary and secondary school shall have an instructional media program designed to be used by pupils and staff in conjunction with everyday instruction. The media program may be housed centrally or dispersed in decentralized resource centers. The program shall include print and nonprint educational material, intellectually stimulating and varied so as to meet interests of those who use its services.

2202-R-11.03

The instructional media center should be attractive, easily accessible, well-lighted, appropriately equipped, and should accommodate the following proportions of the enrollment at learning stations:

(1) schools enrolling up to 1,000 pupils, 8 percent, but not less than an average class;

(2) schools enrolling 1,000 to 1,999 pupils 7 percent, but no fewer than 80 pupils;

(3) schools enrolling 2,000 pupils, 5 percent but no fewer than 140 pupils.

The centers shall not be used as a study hall.

2202-R-11.04 - 11.05

In addition to the instructional media center, which shall be open throughout the school day, each participating school shall have enough space, access to well lighted rooms, and electrical outlets to enable use of all forms of media made available.

2202-R-11.06

Each school should strive to meet the following minimum textbook collection:

(1) fewer than 199 pupils - 500 plus 10 books per pupil up to 200 pupils;

(2) 200-499 pupils - 2,500 plus 8 books per each pupil over 200;

(3) 500-999 pupils - 4,900 plus 6 books per each pupil over 500

(4) 1,000 - 1,999 pupils - 7,900 plus 4 books per each pupil over 1,000

(5) over 2,000 pupils - 11,900 plus 2 books per each pupil over 2,000.

In addition to these described above, pupils and faculty should have access to nonprint material, amounting to one item of nonprint material per pupil. The nature of the individual school curriculum and learning program will dictate numbers and types of specific formats.

2202-R-11.07

Media centers shall provide an appropriate range of periodicals listed in guides such as: the ABRIDGED READER'S GUIDE, and READERS GUIDE AND SUBJECT INDEX TO CHILDRENS MAGAZINES, subject to their enrollment and curriculum. Media centers should subscribe to at least two daily newspapers and one of local circulation.

2202-R-11.08

Media centers shall provide, for use of community and staff, a collection of publications and productions of professional organizations, periodicals, curriculum guides and other pertinent printed and nonprinted materials. This collection is to be kept current.

2202-R-11.09

Each school shall employ a library media specialist whose qualifications meet section 8.05(7). Recommended staffing patterns are as follows:

(1) up to 499, one half-time specialist

(2) 500 - 999, one full-time specialist

(3) 1,000 - 1,799, two full-time specialists.

Schools having two or more media staff members should designate one as nonprint specialist. Where satellite centers are a part of the school's instructional media program, provisions should be made for close liaison between the satellite center and the media center.

MEDIA SPECIALIST

Records of classification, cataloging, circulation, and financing should be up-to-date. An alphabetically arranged catalog, using a recognized system for classification and subject headings, and a shelf list should be maintained for print and nonprint media.

B. Educational Materials

1. Textbooks

A. Selection and Purchase

STATUTES

§10-229

Textbooks may not be changed without a notice of the proposed change, and a two-thirds vote of all members of the board.

REGULATIONS
§ 10-281n-6

"Textbooks means any book...or manuals...intended for use as a principal source of study material for a given class group of students, a copy of which is...available for...each pupil." A nonpublic school may submit for approval a textbook which has not been used in the public schools. The secretary of the state board shall approve the textbook "if it meets the same standards of educational quality for the subject matter and...grade as...for public schools provided such textbook does not ...promote...any religion or denominational tenent.... The maximum amount reimbursable to a nonpublic school for all textbooks purchased "during the contract period" shall be three dollars per student...in grades one through eight and fifteen dollars per student...in grades nine through twelve."

B. Educational Materials

2. Audiovisual Education

Statutes
§128 - 129

The State Board of Education is responsible for all of the property rights, duties and obligations of the former educational television board.

The Board shall maintain an educational television system serving public schools and institutions of higher learning. The Board may contract with other state agencies for space, equipment, supplies and personnel and pay for the same.

The Board may enter contracts which make the facilities available for a fee which is not be less than the cost of the services and facilities provided. Funds obtained in this manner shall be retained in the General fund of the state treasury.

§130

The Board is responsible for educational television, educational radio, and other public and educational broadcasting within this state.

B. Educational Materials

1. Textbooks

A. Selection and Purchase

Statutes

§31-401

The Board shall provide without cost "all textbooks and other necessary educational books and supplies" to students in the public schools.

§31-402

Books purchased shall be property of the District of Columbia and loaned under such conditions as the Board may prescribe.

§31-403

Parents or guardians shall be liable for the cost of books destroyed or damaged while on loan to children in their care.

§31-404

The Board is authorized to purchase only those books and supplies recommended by the superintendent . . . and formally approved by the Board.

§31-406

The Board shall provide for the expense of textbooks and supplies from funds appropriated by the Board.

§31-1104

No school officials shall "receive any . . . benefit" due to the purchase of textbooks and supplies for the use of the public schools.

4. Supplies and Equipment

Statutes

§31-405

The Board may "exchange or . . . sell books or other educational supplies which are no longer desired for school use."

Regulations

CH.IV, §445

"All instructional materials, including teachers' manuals, audio-visual aids, and other supplementary instructional materials which are to be used in connection with any research or experimental program or project shall be available for inspection and review by the parent or guardian of students involved in such programs or projects.

For the purpose of this section, "research or experimental program or project" shall be defined as any program or project designed to explore or develop new or unproven teaching methods, techniques, or materials."

B. Educational Materials

1. Textbooks

A. Selection and Purchase

Statutes
§233.07-10

Annually, the State Board of Education shall appoint persons to state instructional materials councils including four teachers, two "lay persons", one school board member and two teacher supervisors who shall recommend materials to be purchased by elementary and secondary schools, taking into account the "desires of the districts". The council members shall serve three-year terms and each district shall have no more than one representative on a council. "Instructional materials" include: textbooks, "consumables", "learning laboratories," slides, films, filmstrips, recordings, and "manipulatives." Council members shall submit affidavits attesting to the fact that they will not benefit personally from any contracts made. Council meetings and agendas shall be announced two weeks in advance and shall be open to the public. Councils shall standardize the presentation of a product, the forms for the results of Council recommendations, and guidelines for district councils evaluating materials for statewide use.

EVALUATION

The standard for evaluating materials is that they "best implement the curriculum objectives of the schools." The councils must file a written statement of their criteria and evaluation procedures with the Commissioner of Education.

Another goal of the councils shall be to "accurately portray the cultural and racial diversity of our society, including men and women in professional, vocational, and executive roles, and the role and contributions of the entrepreneur and labor in the total development of Florida and the United States." Further, materials shall illustrate the necessity for environmental protection and conservation, the effects of

tobacco, alcohol and "other dangerous substances," and "encourage thrift, fire prevention and humane treatment of people and animals."

Civics or history textbooks must contain the Declaration of Independence and the Constitution of the United States.

The State Council shall supply local councils with sample materials before making any recommendation. Finally, the Council shall make its report on the procedures it followed for evaluating materials and its recommendations "for each grade and subject field in the curriculum." Individual members may submit dissenting opinions. All findings shall be available to the public.

§233.16

The Department of Education shall select educational materials from the list of recommendations of the State Instructional Materials Council. Contracts shall then be drawn up by the Department of Legal Affairs. The Department of Education shall "make necessary regulations . . . to secure the prompt and faithful performance of all contracts."

§233.34; 233.37; 233.38; 233.39

School districts may use up to 25% of their annual allotment for instructional materials for purchasing materials such as library and reference books not on the "state adopted list" and "for repair and renovation" of books. Unused funds shall be carried forward each year.

Materials shall be used until their physical condition "makes them unsuitable for further use" or until they are obsolete. Districts may exchange textbooks when shifting enrollment deems necessary.

Book renovation or repair shall be debted against a district's allotment for new materials, and contracts for services shall be based upon competitive bidding.

§233.43

The superintendent's responsibilities regarding instructional materials shall be determined by the school board.

§233.48

"The Commissioner of Education shall include in the department's annual legislative budget . . . funds . . . for: (1) The instructional materials councils; (2) Operating expense of the surplus instructional materials exchange; (3) Instructional materials for . . . partially sighted pupils," and other necessary materials.

III.C.School Officials; Statute §233.115; §233.14; §233.15

B. CONTENT STANDARDS

STATUTES

§233.165

Those selecting reading materials used in public schools shall consider: "the age of the children who . . .would have access to the material"; "the educational purpose" of the material; and "the degree to which the material would be supplemented and explained". "No materials containing hard-core pornography . . . shall be used in the public school".

CROSS REFERENCES

II.B.1.a.; Statute §233.07 -- 233.10

C. ISSUANCE

STATUTES

§233.46-233.47

Principals shall collect damages for textbooks from students or parents. They shall sell said materials to parents, when requested. Funds "collected from the sale, exchange, loss or damage of instructional materials" shall go into the fund for appropriation of

new materials. Principals shall make reports on textbook inventory as directed by the Department of Education. §233.255

The Department of Education may sell materials "for educational use to non-public schools in the state and to the public" to subsidize the efficient and economical distribution of materials to public school personnel and students. Proceeds shall go to the "Educational Media and Technology Trust Fund". This does not mean that the department be allowed to "enter into the business of publishing textbooks."

CROSS REFERENCE

II.B.1.a.; Statute §233.34; 233.37; 233.38; 233.39

2. Audiovisual Education

Statutes

§229.805

The department of education is authorized to establish a TV network connecting the communities or networks it designates. The origin and transmission of programs shall be directed by the state board.

The department of education shall: (1) encourage the extension of educational television network facilities; (2) coordinate Florida's educational television with that of other states and with the federal government; (3) further the development of educational television within the state; (4) identify and provide for the needs of the system as they relate to instructional materials.

§229.8051

A public broadcasting program system shall be administered statewide by the department of education under policies adopted by the state board of education. The program shall provide complete broadcast service to all areas of the state and funds for educational programming to meet statewide priorities.

§230.59

"Educational communications systems" may be operated by school boards and shall include wired or radio systems to carry messages related to "instruction, administration, or general information" between buildings or campus or the general public. Boards, singly or in combination, "may lease, establish, or acquire educational communication systems or services to implement the goals of the state system of public education."

§235.40

Local school boards "may acquire . . . suitable lands and other facilities . . . for use in providing educational radio or television transmitting sites and may erect such buildings, antennas, transmission equipment and towers or other structures" for said purpose.

3. School Libraries

Statutes

§233.29-233.30

District school boards shall "establish and maintain as essential to the instructional program, adequate libraries and library services".

School boards may contract with "county or community groups or organizations for a co-operative program(s). . . of library establishment, maintenance, and use" on public school property and controlled by the school board of that district.

B. Educational Materials

1. Textbooks

A. Selection and Purchase

Statutes

§32-416

"No member or appointee of the board, or any other person having authority to select or aid in the selection of textbooks for the schools, shall for himself[herself] . . . receive any gift, compensation or remuneration from any schoolbook publishing house."

CONFLICT OF INTEREST

§32-707

The State Board of Education may by regulation prescribe textbooks to be used in the public schools, and may prescribe "multiple listings" from which local superintendents may choose.

§32-709

"The State Board of Education shall select a committee or committees of educators actually engaged in public school work in this State to examine textbooks and make recommendations thereon to the State Board of Education . . . ."

§32-717

"All purchases, listings, or adoptions of textbooks for use in the public schools of the State . . . shall be made upon competitive sealed bids or proposals, after notice of the time and place of receiving same has been published once in each of at least three newspapers of general circulation published in the State . . . ."

The State Board of Education may, if "advantageous" to the state, publish textbooks or arrange for their publication.

REGULATIONS

30-1611 -- 1613; 30-1621 -- 1623

The State Board of Education shall distribute funds to "local units of administration" for instructional media and equipment. Local systems must use these funds in such manner as to "contribute to the attainment of student goals identified for the system. . . . For instructional equipment priority shall be given to that which would benefit students with special needs." Local school boards shall determine how much is to be spent on textbooks and how much on "nontextual media." The latter includes "library books, films, recordings, paperback books, filmstrips, workbooks, video and audio tapes, newspapers, magazines" and other materials.

Procedures for allotting funds shall be developed by the Office of School Administrative Services. The Office of Instructional Services shall assist local school systems in developing "policies and procedures dealing with instructional media and equipment" and in implementing "media programs" and evaluating and improving "media centers."

30-1614 -- 1616; 1624; 1625

"The State Board shall maintain a free textbook program for . . . providing funds to local school systems for the purchase of textbooks." Textbooks include hard- and softbound books and "basic instructional multi-media programs."

The State Board shall appoint a Textbook Advisory Committee to review, and make recommendations on, textbooks. In performing these duties, "each member

of the Textbook Advisory Committee shall establish a subcommittee from his/her district to assist in the evaluation of materials bid." All committee and subcommittee members will use the same evaluation criteria. "All meetings of the Textbook Advisory Committee shall be open to the public."

The committee shall meet "to prepare the list of titles to be recommended to the State Board for adoption . . . Interested citizens . . . shall be given an opportunity to present their views on any books under consideration. . . . The State Board may accept or reject, in whole or in part, recommendations of the Textbook Advisory Committee.

"Appeals from publishers or interested citizens shall be made . . . to the State Superintendent of Schools" who will submit them to the State Board's textbook committee for recommendation on further action. With respect to "appeals concerning items" the State Board may "prohibit expenditure of state funds for the items in question."

Members of the Textbook Advisory Committee may not receive gifts or money from or accept employment with "any author, producer, publisher or distributor of instructional materials while serving on the committee."

The State Superintendent shall report annually to the State Board on the free textbook program.

"Funds . . . shall be used for the purchase, maintenance, repair . . . of equipment for instructional laboratories and for special education classrooms. . . (and) must not be used in support of interscholastic or athletic activities." The Office of Instructional Services shall assist local systems in developing the instructional equipment program.

§32-710

"The State Board of Education is authorized and directed to inaugurate and administer a system of free textbooks for the public schools of the State of Georgia."

§32-711-712

"The State Board of Education shall . . . provide for purchasing, . . . repairing and furnishing free textbooks for use by the pupils in all of the elementary and high school grades in the public shcools of this state . . . .

The State Board of Education is further impowered to restore, repair, recover, or rebind all books used in the public schools of the State."

§32-719

If funds appropriated are insufficient to provide all textbooks free, preference for free distribution shall be given to the elementary schools starting with the lower grades.

§32-723

". . . The State Board of Education is authorized and impowered to do whatever may be necessary for the general welfare of the free school book system, and in order to acquire school books at the lowest possible cost . . . ."

2. Audiovisual Education

Statutes

§32-408.1

"The State Board of Education is authorized to make available educational programs through the medium of educational television." Also, the State Board may "own, operate, maintain and manage television stations, transmission equipment and all other related equipment and facilities, both audio and video, for the production and transmission of open and closed circuit telecasting."

§32-413.1

"The Board will receive all federal funds, and any other funds that are made available to the State for educational television for all levels of education."

§32-627a

"The State Board of Education shall annually determine the cost of operating and maintaining the statewide network of public school educational television stations . . . . Such costs shall be paid entirely from state funds." The State Board shall also establish an Educational Television Advisory Council to develop a plan for the utilization and expansion of instructional services.

Regulations

30-1410; 1420

"It is . . . the policy of the State Board to develop and operate an instructional and public television network, including" the acquisition of "equipment and facilities to transmit and produce those programs . . . most needed to supplement . . . the offerings of the educational enterprise, including local school systems." The State Superintendent shall develop a state plan for the network's operation to be approved by the Board.

"The Office of Instructional Services shall prepare a state plan for the state's utilization of the television media. . . . (It) shall periodically review the utilization . . . by local school systems of the Educational Television Network and shall report at least annually to the State Superintendent the status of the program in local schools. . . . The Office of Staff Services shall develop . . . a plan to assess the effectiveness of the educational television services program in meeting its stated objectives."

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§298-21

No school, without the written permission of the department of education shall create stores or sell merchandise, excepting, "school lunches, milk, ice cream, candy, things made or grown at the school as part of the educational program, and in cases where classroom efficiency, uniformity or standardization of particular supplies is essential, textbooks, equipment and necessary school supplies and equipment may be sold at any school."

STATUTES

§93-1

"There shall be established within the department of education . . . a state publications distribution center for depositing and distributing government publications and for promoting an orderly depositing library system for state and county publications."

§312-1

"The department . . . shall care for, manage and control all . . . libraries. This shall include control over the real estate; building funds; acquisition of books; placement of libraries (within reach of all residents throughout the state . . .") and any other incident necessary to the management and control of the system.

§312-2.1

"The state librarian, under the direction of the superintendent of education, shall be responsible for the operation of all school and public libraries within the state."

§312-5

"Annually . . . the department of education shall report to the Governor the moneys received from all sources and expended for all purposes during the preceding year, and any matters pertaining to the libraries which it may deem important. . ."

4. Supplies and Equipment

Statutes

§106-1, 4

Annually, the heads of the executive departments shall submit a "return of inventory sworn to before a person authorized . . . containing a full, true and corrected list by detailed items of all property, of whatever nature . . . belonging to the state and in the possession, custody, control or use of the officer so making the return . . ." or of any employee under his/her supervision. The officer shall include in his/her list a "separate detailed statement . . . of items of property acquired and those disposed of during the year . . ." since the last inventory. Failure to comply with this provision can cause the employees' salaries to be withheld.

§106-13

"The head of every department . . . of the state shall be responsible for all state property pertaining to his/her. . .department, whether he/she receipts for the same or not. Shortages occurring during the administration of one person shall not be the responsibility of his/her successor."

§298-5

"No equipment, material or other fees shall be assessed against any pupil in any elementary school," except special fees may be collected from students "who negligently break, damage, lose, or destroy equipment and supplies."

"The department may . . . group pupils within any public school in accordance with their abilities and educational needs."

Regulations

Rule 44.53

"Equipment. A sufficient variety and quantity of classroom and outdoor equipment shall be provided to permit a quality educational program in terms of the philosophy

and objectives of the school. The equipment shall be free of hazards and in good repair at all times. Classroom furniture and playground equipment shall be scaled to the size of the students using it."

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

REGULATIONS

Policy Manual
Ch. 400, §407

The state board shall determine how and under what regulations textbooks shall be adopted for the public schools.

The Division of Instruction shall prepare and mail a special bulletin to all Idaho school districts listing the textbook adoptions.

The State Textbooks Committee shall prepare a list of textbooks and teaching material from which school districts shall select those for use in instruction.

Membership on the State Textbook Committee shall include one elementary supervisor and one subject area consultant, each being a voting member.

The following procedures shall govern the State Textbook Committee:

Textbooks shall be adopted for a five-year period.

The Committee will consider for recommendation only complete textbooks submitted to it.

Revised edition of adopted list books may be submitted to the Committee within two years of adoption. These revised editions must have committee recommendation and be adopted by the State Board prior to being offered for sale by publishers as adopted books.

Textbooks published within two years after an adoption in that area may be submitted to the Committee for consideration. If this textbook is recommended for adoption, the termination date of the contract is the same as other contract termination dates in that area.

Consumable textbooks are not usually recommended by the Committee to the State Board. This does not include workbooks which are used with a non-consumable textbook.

The Committee does not recommend for adoption reference books, encyclopedias, library books, etc. This type

of material is not evaluated by the Committee for publishers or professional educators.

A committee shall be formed by the State Textbook Committee under supervision of the State Science Supervisor to evaluate new materials and make recommendations on their adoption.

Schools may conduct experimental programs with proper supervision, provided written permission to do so has been granted by the Supervisor of Science and Mathematics.

The procedure for submitting textbooks for adoption in the State of Idaho are as follows.

"1. Notify the Executive Secretary of the Idaho State Textbook and Improvement of Instruction Committee by letter on or before November 1, of all materials being submitted for consideration. Give titles, authors, and copyright dates. This letter should accompany books at the time they are sent to the Executive Secretary.

"2. Deliver textbook samples to Committee members.

"3. Interviews:

"a. Interviews with the Committee will be held in May, at the Statehouse, Boise, Idaho.

"b. Interviews with individual Committee members may be held any time after the spring meeting and before November 1, at the convenience of the representative and the member, provided they are scheduled in advance.

. . . .

"4. Each publisher is requested to submit to each Committee member a brief on books and materials presented. . . .

. . . .

"6. Recommendations for adoptions in the areas specified will be made at the November meeting of the State Textbook and Improvement of Instruction Committee. . . .

The Executive Secretary of the Idaho State Textbook and Improvement of Instruction Committee must be notified by November 1 of all materials being submitted for consideration. Recommendations for adoptions in the areas specified will be made at the November meeting of the textbook committee.

Idaho State Textbook
Committee Handbook (1976), pp.1-5

The State Textbook and Improvement of Instruction Committee has the responsibility for screening, evaluating and recommending textbooks for adoption to the State Board. Local school districts then evaluate the listed materials and select those materials designed to fit local needs.

The State Textbook Committee is appointed by the State Board.

There are fifteen committee member regulars serving six-year terms while specialists serve one year.

After being screened and recommended by the State Textbook Committee all adopted materials should be consistent with the curriculum and direction of the state's educational program. The list of texts recommended for adoption are arrived at through an approach known as multiple adoption. The thrust of the adoption process is to approve all materials meeting a certain standard and a rejection of those items falling below the standard.

During the committee's spring meeting, publishers may present material for adoption, at a gathering open to all. This allows the Committee members to gather information on the nature of texts for adoption which occurs at the Fall meeting.

At the Fall meeting specific evaluation, screening, and recommending of instructional materials occur, subsequent to comments from interested groups on material value. Special meetings of the Committee may be called by the chairperson.

Each committee member is responsible for evaluation and screening of the presented materials. However, it is the duty of the Committee to involve others in order to have a wide base of input in deciding which materials are to be adopted.

Criteria to be used by the Committee in selecting

materials is to be made available to interested publishers. All requests for consideration of materials by the Committee shall be submitted to the Executive Secretary.

B. CONTENT STANDARDS

CROSS REFERENCE

II.A.1; Statute §33-1603

3. School Libraries

Statutes

§33-2501

The state superintendent of public instruction shall be an ex officio member of the state library board.

§33-2502

The "Idaho State Library . . . shall cooperate with the . . . public school libraries . . .[of] the state."

§33-2601

The board of trustees of a school district may establish, with the approval of the school district electors, a public library if, within the district, there is no town or village having a population of more than 1,000. The board of trustees shall serve as the board of trustees of the library.

§33-2609 -- 33-2612

Regional library systems are established "to provide improved library and information services for residents of a multi-county region." Two or more library boards [each of which consists of five appointed or elected citizens, as the case may be] "may petition the state library board for the establishment of a regional system." Such systems shall be governed by a board of directors, on which "each library shall be entitled to one representative," and libraries serving populations of 10,000 or more, two representatives. The board shall not exceed 25 members.

PETITION

§33-2613

The system board of directors "shall serve as a liaison agency between the participating libraries and their governing bodies and library boards, . . . [making] such by-laws, rules and regulations as may be necessary for its own government and that of the

RULEMAKING

regional system." Each system board shall "provide improved library service . . . in cooperation with participating libraries, . . . purchase books and . . . supplies . . . and . . . employ such personnel as the system finds necessary; and exercise such other powers . . . necessary for the effective use and management of the regional system."

REGULATIONS

Accreditation Standards for Secondary Schools, Standard V,D.

The instructional media center shall provide facilities and space for the following:

FACILITIES

Student and teacher use, such as facilities and space for large groups, small groups, individual study, viewing, listening, recording, student and staff work areas and general library use.

Housing of all basic instructional media.

Other facilities.

Each school shall provide work areas for professionals and staff away from pupils and possible "interruption by students."

Accreditation Standards For Secondary Schools: STANDARD VIII. B.

All library books shall be catalogued with an author and title card for fiction, and not less than a title, author, and one subject card for all non-fiction.

Shelf lists of all books shall be maintained which may be combined with the accession record if desired.

Loan records shall be kept to aid the annual book inventory.

4. Supplies and Equipment

Statutes

§28-1 - 28-3

Suppliers of instructional materials shall submit to the State Board price information, along with a surety bond, before materials are offered for adoption, sale or exchange in the state.

The State Board shall, "within 30 days after the filing of any list and bond, send a copy of the list to the regional superintendent . . ." who shall submit it to the school board for ultimate decision as to which materials to acquire.

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§20-1-1-3

"The commission on textbook adoptions shall exercise all the powers and duties . . . with reference to the adoption and approval of textbooks and teaching materials in the public schools."

§20-10.1-9-1 -- 20-10.1-9-3

"The commission on textbook adoptions shall make multiple adoptions of textbooks" and contract with publishers for the books. A multiple list of seven textbooks for each subject shall be adopted by the commission. The commission may prescribe rules and regulations to carry out its work. The classifications for textbook subjects are: language arts, social studies, mathematics, science and health education, and miscellaneous.

§20-10.1-9-7

The meetings of the commission at which textbooks are adopted shall be open to the public. The commission [on textbook adoption] shall give notice of the meeting by publication in two newspapers at least thirty days prior to the meeting. The notice shall include a list of all subjects and grades to be considered.

§20-10.1-9-21 -- 20-10.1-9-22

Locally, the superintendent of schools is responsible for establishing textbook selection procedures. An advisory committee shall make recommen-

dations on textbooks and the superintendent shall present these to the governing body of the school corporation. A special committee of parents and teachers may also be formed to review books, magazines and audio-visual material used in the classroom.

After a local superintendent has selected textbooks, she/he shall forward to the commission on textbook adoptions a list of the selections. If the commission "finds a deviation from the state adopted list, the commission on education shall cancel the accreditation of the offending schools."

§20-10.1-9-25

CONFLICT OF INTEREST

The commission on textbook adoptions shall not adopt any textbook in which any of its members has a direct or indirect financial interest.

Any firm, association, or person that gives money or promises an appointment in order to influence the selection of a textbook, shall be guilty of a misdemeanor and fined or imprisoned or both.

REGULATIONS

§ II, Ch. 3, Policies 62-08; 62-09

"If the state adopted texts were used as a basic text and if the content satisfied the requirements as set out by the State Department of Public Instruction... the method [of selection] was a matter for the local administration to handle.

It was agreed that the resolution of the previous meeting covered the point in question-that is, if a text book is used, a state adopted textbook is to be used. If a course is being taught by a laboratory method, it is a matter of state and local administration to determine the efficiency of the method and content of such a course."

§ II, Ch. 3, Policy 72-01-(1)

"Texts or programs for each textbook category, duly advertised for state adoption in the manner prescribed...shall be adopted by secret ballot. The ballot for each category shall list in alphabetical order by name of the publisher and title the texts or programs submitted for adoption. Each Commission member may vote for as many as seven (7) texts or programs; however, a Commission member is obligated to vote only for so many texts or programs as he deems suitable for state adoption."

§ II, Ch. 3, Rule 2

"The school corporation, or its said dealer, prior to July 15, shall annually ascertain the probable number of books needed to supply the schools for the ensuing year and...will order said books on or before the 15th day of July each year."

§ II, Ch. 3, Rule 3

"Section 1. The Commission on Textbook Adoption... shall receive sealed bids from...suppliers of textbooks to be used in the public schools... Said bids shall be opened at one time in a special meeting of said Commission... open to the public.

Section 2. All bidders must submit samples of the book or books bid not later than the time provided in the 'Notice to Publishers'... Such samples must be designated as official samples. Failure to submit official samples. . . will result in a rejection of the bid submitted. . ."

CROSS REFERENCE

I. State Board of Education; Regulation §I, Ch. 3.A

B. Content Standards

Statutes

§20-10.1-9-10 -- 20-10.1-9-11

The commission on textbook adoptions shall carefully examine all books submitted for approval. The commission shall consider such things as the "amount and quality of material, subject matter, style of binding, mechanical execution and price." The commission shall not approve a textbook which contains "anything of a partisan or sectarian character."

Regulations

§ II, Ch. 3, Policy 64-12

Materials for Experimental Courses

"The Commission on Textbook Adoption...is aware that...we are living in a period of scientific, technological, and intellectual development. We realize that mathematics is one of the great factors in this intellectual revolution.

"Therefore, we as a body feel it our duty to authorize for use in the Indiana schools instructional material which may be needed in experimental courses authorized by the Commission on General Education. . . ."

§ II, Ch. 3, Policy 67-10

Supplemental Materials

"All supplementary books be deleted from the bid request (no adoption to be made for supplementary reading books)."

Multi-Ethnic Content

"The Commission on Textbook Adoption...resolves that textbooks submitted...for offical adoption should provide for the following considerations:

1. Textbook content and illustration should accurately depict...our...multi-ethnic society...

2. The contributions, heritage, and cultural aspects of minority groups should be recognized and explained in such a manner to historically integrate these facts into the proper sequence of subject presentation.

3. Publishers...should publish supplemental material...which can be used to give additional insight and detail of the role of multi-ethnic groups in our country.

4. The Commission...resolves to officially adopt textbooks based on the concepts and principles of this resolution."

CROSS REFERENCE

II.A.10. Other-Activity Based Program; Regulation §II. Ch.3, Policy 71-09

C. ISSUANCE

§20-5-6-5

A school board operating a textbook rental program may furnish textbooks without charge to students who are unable to purchase or rent the books.

2. Audio-Visual Education

Statutes

§20-10.1-7-2

School corporations may conduct educational television instruction and may contract with a television station for the use of the station's facilities and staff. Any two or more school corporations may jointly operate educational television facilities. Credit will be given in the elementary and high school grades for educational television instruction when it is approved by the commission on general education.

Regulations

§ II, Ch. 1, Policy 65-11

Educational Television

"Whereas, the General Commission accepts educational television as another media for distribution of educational information and materials for the masses, it encourages and approves its use to provide educational opportunities for all.

CROSS REFERENCE

I.State Superintendent; Regulation §II. Ch. 2C

3. School Libraries

Statutes

§20-5-15-1

"In all cities and incorporated towns of this state [the school board] shall have the power, if . . . they deem it to the public interest, to establish a free public library in connection with the common schools . . . and to make such rules and regulations for the care [and administration] of such library . . . ." In cities of between 4,000 and 4,500 population, "in which there is a public library open to all the people already established under the library laws of this state, supported in whole or in part by taxation, [the school board] shall have the power, by and with the consent of the . . . board in charge of such library . . . to take over, receive and take full charge of such established library . . . as if [it] had been originally established by such [school] board."

§20-10.1-11-2

If at least fifty-one percent of the registered voters of a school corporation so petition, the governing body of the school corporation shall provide an elementary school library with enough textbooks to meet the needs of all students in the first eight grades.

If a school has previously established an elementary school library, the voters may petition [20% required] for a high school library containing textbooks to meet the needs of all students in each of the four high school grades.

§20-10.1-11-8; 20-10.1-11-11

If the voters' petition is properly filed, the school corporation is obligated to maintain the elementary

school library or high school library with textbooks for all students.

The library textbooks shall be loaned, free of charge, to each resident student.

CROSS REFERENCE

III.A.1.; Regulation §II, Ch. 1, Rule G-4; G-5

4. Supplies and Equipment

Statutes

§20-5-9-1

"Any two or more school corporations within a county may . . . engage in joint employment of professional personnel and/or in joint purchases of necessary supplies, equipment and other materials . . . . The county superintendent of schools shall be the administrator of these joint activities."

§20-2-9-3

The care, management and maintenance of all property, real and personal, belonging to their respective corporations for common school purposes, shall be handled by the school trustees.

B. EDUCATIONAL MATERIALS
1. TEXTBOOKS
A. SELECTION AND PURCHASE

STATUTES

§257.25 (9)(d)

Each school offering any of grades seven through twelve shall have "adequate instructional materials for classrooms."

§278.1

The voters at the regular election shall have the power to "direct a change of textbooks," direct the sale of school property, authorize a boundary change, change the name of the school district.

§279.25

The board of directors of a local school district may purchase "dictionaries, library books, ... maps, charts, and apparatus ... for each school building under its charge; and may furnish schoolbooks to indigent children when they are likely to be deprived of the proper benefits of the school unless so aided."

§292.2 -- .6

The area education agency board shall be in charge of buying and distributing books and materials for the use of the school districts. In districts where there is not a librarian, the secretary of the board shall serve as librarian.

§301.1

The board of directors of each school district is authorized and empowered to adopt textbooks for all subjects taught in the public schools, to contract for and buy the books, and to sell, loan, or rent them to pupils.

c. ISSUANCE

STATUTES

§301.24 -- .25

Qualified voters may petition at the time of the regular school election to vote on the issue of providing free textbooks. If the majority vote in favor of such a plan, the board of directors shall loan textbooks to pupils free of charge.

§301.26

Students will be held responsible for any loss of or damage to textbooks.

2. Audiovisual Education

Statutes

§18.137

A "state educational radio and television facility board" is created to establish and operate an educational radio and television facility and other "communications services" as are necessary to accomplish "the educational objectives of the state."

§18.146

The state educational facility board has the power to "purchase or lease property, equipment, and services" and to improve them for use in educational communications.

§18.149

The state educational facility board shall appoint an "educational facilities director" who shall not be included in the Iowa merit system. All personnel appointments shall be without regard to sex, race, religion, political affiliation, etc.

§18.150

Local boards of education are not prohibited from "owning, operating, improving and maintaining educational radio and television stations ... now in existence." Local boards of education are "empowered and authorized to enter into such agreements with the state educational radio and television facility board as are contemplated in §18.146" (purchase or lease of property).

§273.10

The purchase of equipment for media production must be approved by the state board of public instruction, but the purchase of equipment for television production is prohibited. The area education agency must contract with the state educational radio and television facility board for these services.

3. School Libraries

Statutes

§2[illegible]-25(9)(a)

Each school offering any of grades seven through twelve shall have a qualified media specialist. The media center shall be a "resource center of instructional material for the entire educational program." The number and kind of books, newspapers, etc., "shall be adequate for the number of students in attendance...and other appropriate factors."

§273.6

"The media centers required under section 273.2 shall contain:

"a. a materials lending library ...

"b. a professional library.

"c. a curriculum laboratory, including textbooks ...

"d. capability for production of media-oriented instructional materials.

"e. qualified media personnel."

Regulations

§670-2.10 -- 2.15 (257)

Each high school library should contain: two sets of encyclopedias, parallel texts and more explicit supplemental books, for each course offered, books for recreational and enrichment purposes at various reading levels, an abridged and unabridged dictionary, compilations of source and reference materials, an atlas, and at least five magazine and periodical subscriptions.

§670-3.5 (20)

Each secondary school shall establish a media center as a resource center for instructional materials for the center's

entire educational program. It shall have an adequate number and kind of reading materials and audio-visual materials to serve the needs of pupils and teachers.

B. Educational Materials

II.A.2.; Statute §72-8230

III.A.1.; Regulation §91-28-2 -- 91-28-10

3. School Libraries

Statutes

§72-1623

The district board shall establish and maintain a system of free public schools for all children residing in the city school district and may make all necessary rules and regulations for the government and conduct of such schools, consistent with the laws of the state: provided (1) the board of a city having a population between 120,000 and 200,000 may establish and maintain a public library system paid for from the same funds as school expenditures; (2) if any city is located within a school district maintaining a high school the board shall not establish or maintain a high school. The board may divide the city school district into subschool districts for purposes of attendance by pupils. The board shall hold the title to and have the use and keeping of all school buildings.

Regulations

§91-2-7

The district library media program shall provide in-service programs in the use of library media equipment.

The program shall be implemented by:

A written policy statement about the selection and best use of library media including procedures for dealing with controversial materials.

Establishing coordinated services for maintaining material, equipment, and delivery services.

Evaluating annually the program to determine its effectiveness in relation to the goals of the educational program.

Utilizing all available media resources, including public or community resoruces, within the district, and, if feasible, in surrounding districts.

The library media center program shall have a long range plan formulated by administrators, teachers, library media specialists and students. The center shall expand classroom experiences and provide reading, listening and viewing activities. The center shall continuously evaluate its objectives and its services and shall have a written media selection policy.

Each school shall have a center with a well-balanced collection of books, basic reference material, periodicals, and nonprint media (audio visual materials) appropriate to the objectives and needs of the school and the students.

In the alternative, a school may have a "library media center organized as a resource center of instructional material for the entire educational program." The library shall have five professional magazines for teachers "dealing with general teaching methods as well as specific areas of organization and use of educational media both printed and audiovisual."

The school shall have a written library media plan which states the amount of time that the library will be staffed, the number of print and nonprint materials in the library, and the library's budget. The school shall have a written statement of the goals of the program. The goals shall not conflict with state goals and shall be formulated with broad base community involvement. Experimental or innovative programs are encouraged. The statement shall indicate the kinds of supportive services available to the school to supplement the school's program.

The library media program shall be approved by the local board and the state department of education.

§156.400

1) "The superintendent of public instruction shall arrange the elementary and secondary school subjects . . . into five adoption groups . . .[which] . . . shall be arranged as nearly equal in number and purchase cost as possible."

2) Group I shall start in 1975 and last for five years. Groups II through V shall start in each succeeding year, and also last for five years. "The state textbook commission . . . may extend any or all subjects [presently] under contract or accept bids for less than five years for the purpose of arranging adoption groups with proper subjects and equal size."

§156.405

1) "The state textbook commission shall consist of the superintendent of public instruction and ten . . . members . . . appointed by the state board of education upon recommendation of the superintendent . . .

APPOINTMENT

2) Eight of the appointed members . . . shall have had not less than five years teaching or supervising experience in the public schools of Kentucky and . . . at least four years of . . . accredited college education. Five members . . . shall be classroom teachers actively employed in the public schools of Kentucky as teachers in the subject field or fields for which the commission will select books. Two members shall be principals, supervisors or superintendents of public schools or public school systems. One member shall be a member of the faculty of a public institution of higher education engaged in teacher education. Two members shall be lay citizens. In selecting the members . . . the superin-

tendent . . . shall give due regard to representation from both rural and urban areas and both elementary and secondary levels . . . . The lay citizens shall have children in the public . . . schools at the time of appointment."

The committee shall meet at least once a year, and their meetings shall be open to the public.

§156.410

1) "The superintendent . . . shall prepare minimum manufacturing standards and specifications . . . and formulate other criteria for use in the selection and adoption of textbooks in Kentucky." He/she shall also, in conjunction with the state board of education, supervise and manage any other matter relating to the advertising and acceptance of bids.

§156.437

1) "The state board of education, upon the recommendation of the superintendent of public instruction may designate subjects in the state courses of study for which programs may be listed by the state textbook commission . . ."

2) The state board, with the superintendent's recommendation "shall have the authority to prescribe rules and regulations for the listing by the state textbook commission . . . [regarding] the purchase of subject programs for the pupils in the state public schools."

§156.440

1) "Textbook publishers . . . upon . . . request . . . shall furnish to the local boards of education the requested sample copies of their books that were . . . placed on the state multiple list of textbooks . . ."

2) Each year the local board of education shall "select from the state multiple list books or programs

for each subject and grade to be used as a basal text, in its school system for a period of five years."

3) If the local school boards decline or fail to make textbook adoptions they "shall use the books or programs in the state multiple list designated by the state textbook commission for each subject and grade for the adoption period."

4) Upon selection from the multiple list, the local superintendents of schools "shall send to the superintendent of public instruction a complete list of books adopted . . ."

§156.445

"No textbook shall be used in any public school . . . as a basal textbook unless it has been approved and listed on the state multiple list of textbooks by the state textbook commission. Any changes of textbooks made by the . . . commission shall not become effective until grades and classes of the respective . . . school districts have completed work for which the adopted book then in use was originally intended. Nothing in this section shall apply to the supplementary books that are needed from time to time."

§156.460, 465

CONFLICT OF INTEREST

"No superintendent, teacher or other official employee of any institution supported . . . by public funds shall act, either directly or indirectly, as agent for any person whose school textbooks are filed with the superintendent of public instruction.

No person shall secure or attempt to secure the adoption of any school textbook in any school district . . . by rewarding or promising to reward, directly or indirectly, any person in any public school in the state. No person shall offer or give any emolument to any person in any school district for any vote or promise to vote, or the use of his influence, for the use of any school textbook to be used in this state."

§156.476

"The state board of education, upon the recommendation of the superintendent of public instruction, may select suitable textbooks and other materials . . . for children with impaired vision who are attending the free public schools . . . in grades kindergarten through twelve. Such . . . materials shall not be subject to the official textbook. . ." rules and regulations. "[The] board . . . upon the recommendation of the superintendent . . . shall have the authority to prescribe rules and regulations for determining the pupils eligible for such books, the number of books to be purchased, and the general administration of the program. The superintendent . . . subject to the approval of [the] board . . . may purchase these books and distribute them without cost to the [eligible] students . . . . All textbooks purchased under this section . . . are the property of the State."

§157.150

All textbooks which have been adopted for use by the State Textbook Commission become the property of the state when they are purchased.

REGULATIONS

704 KAR 2:020

The Kentucky State Plan for Administering the Textbook Program "shall include the standards and procedures for the management of the textbook program in relation to the selection, listing, adopting and purchasing textbooks for the schools of the Commonwealth."

CROSS REFERENCE

II.A.1.; Statute §161.470

STATUTES

§156.435

1) "The State Textbook Commission shall . . . select, approve and publish a list of ten books or programs in each subject and grade taking into account the needs of the various types of school organizations. The Commission shall not list more than one book or program for the same subject and grade from the same person, firm or corporation.

2) The state textbook commission shall have the authority to reject any book which contains subversive material or information . . . If . . . the multiple list . . . contains [any book with] subversive material or information . . . the commission shall have authority to remove the book from the list. The . . . commission shall have the authority to add books to the state list when the number of books on the list is less than ten per subject and grade or when the list does not contain books for subjects added to the state courses of study.

5) The superintendent of public instruction shall prepare a multiple list of the . . . books and programs . . ." selected annually by the Commission ". . . and publish some and send a copy to the superintendent of each county and independent school district . . ."

§158.180; 190

"No person connected with the public school system shall use or cause to be used, read or taught in the public schools any textbook or printed matter of any kind that . . . criticizes or condemns, or could be deemed discrediting, discriminating or harmful to, any legally constituted school or system of healing, science or profession in Kentucky.

No book or other publication of a sectarian, infidel or immoral character, or that reflects on any religious denomination, shall be used or distributed in any common school. No sectarian, infidel or immoral doctrine shall be taught in any common school."

CROSS REFERENCE

II.A.1.; Statute §158.280

C. Issuance

Statutes

§156.450

"Where old books, displaced by new adoption are offered by pupils in exchange for the corresponding new books, the new books shall be offered at a price not more than twenty percent in excess of the listed exchange price."

§156.470

"Textbooks submitted to the state textbook commission for examination shall remain in the office of the superintendent of public instruction for the period of the adoption. After the adoption period they shall be sold by the state board of education."

§157.145

"The superintendent of public instruction shall each year cause all textbooks which have not been made obsolete by new adoptions to be rebound upon request of the local districts."

§157.160

"The superintendent of public instruction, subject to the approval of the state board of education, shall make rules and regulations for the disposal of

textbooks no longer in condition to be used for purposes of instruction."

§156.455

"When a pupil moves from any school district the board of education of the district shall, if requested, purchase . . . the textbooks in actual use by him[her] at the time. The price shall be based upon the condition of the books. The books may be sold by the board . . ., or furnished to indigent children in the district."

§156.474

"The state board of education, upon the recommendation of the superintendent of public instruction, shall have the authority to prescribe the conditions, . . ." and the rules and regulations "whereby a school district may make multiple textbook adoptions for the different school subjects by grades.

2) The superintendent . . .[with] . . . the approval of the board . . . may purchase the textbooks from the publishers . . . for grades kindergarten through twelve and distribute them without cost to the pupils attending the free public schools in the school district."

§157.100

"The superintendent of public instruction subject to the approval of the state board of education shall purchase [approved] textbooks . . . and . . . other related media . . . and distribute them without cost to pupils attending grades kindergarten through twelve, of the public schools of the state."

§157.110

1) "In the purchase and distribution of textbooks . . . the state board of education shall first furnish textbooks to the primary grades, then, if additional funds are available, to the intermediate grades, and so on until the funds are exhausted. If

sufficient funds are not available to furnish textbooks for all grades, then the board may determine for what grades and/or subject textbooks shall be provided.

2) The . . . board . . . upon the recommendation of the superintendent . . . shall adopt regulations whereby local school districts may be reimbursed for certain textbooks in grades nine through twelve, whose condition would warrant their continued use."

§157.130

"The superintendent of public instruction shall, subject to the approval of the state board of education make rules and regulations governing the purchase, requisition, distribution, assignment to pupils, care, use and return of textbooks and a plan for permanently labeling the textbooks as the property of the state."

§157.140

"Each pupil, or [her]his parent or guardian, shall be responsible to the teacher for all books not returned by the pupil, and a pupil not returning all books delivered to [her] him shall not be entitled to . . ." distribution of any other educational materials "until the books are paid for by the parent or guardian or accounted for . . ."

§157.170

"The superintendent of public instruction, subject to approval of the state board of education, shall make rules and regulations governing the sale of textbooks by superintendents to pupils, parents or guardians of pupils attending the public schools . . . . Superintendents shall not sell textbooks to private or sectarian schools. Books sold under this section shall be sold at the retail contract price."

§157.190

1) "The superintendent of public instruction, subject to the approval of the state board of education shall provide basally adapted textbooks without cost

to all children between the ages of six and eighteen who are confined in any state correctional institution . . . and who are regularly enrolled in classes of elementary grades."

§160.330

"Each board of education may furnish textbooks and other necessary school supplies free of charge to indigent children . . . or to such other children as it deems advisable under such rules and regulations as it may adopt."

2. Audiovisual Education

Statutes

§168.010 -- 100

It is the public policy of the state "that there be established, developed and utilized in the public interest a network of educational television production and related facilities . . . such as will ultimately make available to students . . . television programs and related services in aid of education . . . ."

The Kentucky Authority for Educational Television shall be established as a public corporation to implement the purpose of this statute. Its memberships and administrative organization are set forth in the statutes. It is granted "all such constitutional powers as are necessary to . . .[the] accomplishment" of the policy of this statute. Specifically it shall have authority to produce, prepare, transmit and relay . . . educational television programs and related services, provided, however they do not transmit or permit to be transmitted "any subversive matter, any political propaganda, or any image or message in the interests of any political party or candidate for public office; or be used by, or in aid of of any church, sectarian or denominational school" unless such material is "properly related to the study of history or of current events, or is no more than factually informative of current issues of government or of various political ideologies."

III.B.Librarian; Regulation 704 KAR §20:145; 704 KAR §20:150

3. School Libraries

Statutes

§171.130 -- 145

The department of libraries "shall give assistance and advice to all school . . . libraries . . . as to the best means of establishing and administering them, selecting and cataloging books and other details of library management." It may "for the benefit of blind and physically handicapped . . . make available books . . . in any . . . medium of reading used by the blind and physically handicapped.

CROSS REFERENCE

III.B.Librarian; 704 KAR §20:140

4. Supplies and Equipment

Statutes

§156.074

"The state board of education may secure price contract agreements for the purchase of supplies and equipment by district boards of education. The board by regulation shall specify the particular types of supplies and equipment for which contracts shall be secured . . . The board . . . shall fix standards of quality and quantity and shall develop standard specifications for supplies and equipment."

§156.076

"The superintendent of public instruction shall furnish full information on established price contracts to each district board of education." Any such board "may purchase supplies and equipment from the vendor to whom the contract has been awarded, under the terms of the contract." In addition any board of education may, after advertising for bids, award contracts, "if the superintendent of public instruction certifies that such a bid offers supplies and equipment which meets the standards and specifications fixed by the state board of education and that the bid price is lower than that established by the price contract agreement."

§156.447

1) "The state board of education, upon the recommendation of the superintendent of public instruction may authorize school districts to select and use supplementary textbooks, print and audio-visual materials and audio-visual equipment other than those selected and listed by the state textbook commission . . ."

2) The superintendent, with the approval of the state board of education, "and in accordance with documented district needs, shall make available each year . . ." funds for the purchase of such supple-

mental materials.

3) "Local school districts may purchase supplementary . . . materials . . . in accordance with regulations adopted by the state board of education upon the recommendation of the . . . superintendent . . ."

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§17:8

"The board shall prescribe and adopt and shall exercise control over the distribution and use of free school books and other materials of instruction for use in elementary and secondary schools . . . ."

It shall adopt one or more lists of basic textbooks and "it may authorize and approve revised editions of any school book it adopts."

Each contract with a publisher for school books shall be:

a. awarded on a competetive basis;

b. made without determinate date of expiration;

c. made as to run without change until properly terminated;

d. made as to stipulate the publisher will automatically reduce net cost of textbooks when reduced anywhere in the U.S.;

e. made as to authorize either party (board or publisher) to terminate it upon 90 days notice.

"The State Department of Education shall be the depository in the state for books for the schools."

These books "shall be distributed to the several parish and city school boards from the depository on requisition of the superintendent of education for public elementary and secondary education."

§17:351 -- 352

The State Board of Elementary and Secondary Education shall prescribe and adopt school books and other materials of instruction to the children of this state as well as to students attending vocational-technical schools and programs under the jurisdiction of the Board. Together with the State Department of Education or separately the Board shall take action "to assure that all school books,

films, and booklets . . . and other audio-visual devices . . . are thoroughly screened, reviewed and approved as to their content by the State Board of Elementary and Secondary Education and the local parish or city school board concerned." A copy of all approved textbooks and teaching materials shall be available for inspection at the State Board of Elementary and Secondary Education.

2. Audiovisual Education

Statutes

§17:2501 -- 2506

The Louisiana Educational Television Authority (LETA) is created within the executive department of the state government, "in order to promote the use of educational and public television and radio in the state of Louisiana to further the education and cultural enrichment of its citizens." The Authority is empowered to act as the official agency of the state to be the licensee of the stations or channels needed to implement the purposes of this chapter. It is "charged to cooperate with all presently existing noncommercial and educational public television and radio stations within the state of Louisiana.

The power to establish policy to carry out the intent of this chapter shall be vested in the members of the Authority, which shall consist of the governor, the state superintendent of education and the president of the Louisiana State Board of Education, or their designees," and eighteen other selected persons.

The Authority "shall employ a professionally qualified executive director to carry out the policies established by the Authority." It will meet "not less than bimonthly." Ten members shall constitute a quorum" for the transaction of business." The terms of members shall be overlapping to insure that ordinarily members will be replaced every two years."

The State Department of Education "shall have the sole responsibility for and control over the preparation content and programming of all instructional television programs used to supplement elementary and secondary curricula in the schools of the state."

Subject to this provision, "the Authority shall have full responsibility and control over the preparation, content, coordination and programming of all programs.

. . .[LETA] shall provide in its rules for local option time for each station" for local programming under the direction of the station's advisory board.

In compliance with the rules and regulations of the FCC, "no station licensed to the Authority shall be used for . . . the presentation of biased or one-sided aspects of partisan politics, or to advocating or opposing [either] any present or prospective political candidacy, [or]. . . any legislation currently being considered or prepared."

3. School Libraries

Regulations

BULLETIN 741

INSTRUCTIONAL MATERIALS AND EQUIPMENT

"Instructional materials and equipment shall be appropriate in kind and amount to facilitate instruction. . . .

The library of each school shall have an up-to-date growing collection to meet the needs and interests of faculty and students. The library shall reflect the philosophy and purposes of the school, and it shall relate directly to the educational program and the teaching techniques used by the teaching staff. It shall, at the same time, provide an opportunity to explore beyond the sphere of school activities. . . ."

BULLETIN 741

MEDIA CENTERS

"Each school shall have library or media services that are geared to the instructional levels and handicapping conditions of the students with a focus on the early childhood, preacademic, academic, prevocational, and vocational aspects of their needs.

The utilization of funds for library services shall be at least proportional to that received by nonhandicapped students."

A. SELECTION AND PURCHASE

STATUTES

§856

Administrative units shall supply schoolbooks, apparatus and appliances for the pupils' use in the public schools at the expense of the administrative unit. A parent or guardian may buy books for the exclusive use of his/her child. No school shall buy secondhand books. Whoever violates this section shall forfeit up to $500, to be recovered in a civil action by any school officer or person aggrieved."

"Administrative units shall pay for the necessary repairs of school buildings and the improvement and maintenance of school yards and playgrounds out of [money] raised and appropriated for the support of public schools."

Administrative units may lease buildings, furniture and other school equipment as follows:

1) the property shall be the same as any school property;

2) the period of use or occupancy shall be the same as the periods when public school buildings of the unit are used and occupied;

3) the lease will provide for exclusive use and occupancy of rooms for instruction during their period of use, and may provide for concurrent use of other areas of property;

4) co-occupancy shall be used for housing on an emergency basis. Leases shall not exceed 10 years and must be approved by the commissioner before the lease is signed, to qualify for reimbursement.

3. School Libraries

Statutes

Art. 77 §162

". . . The State of Maryland, in collaboration with the counties . . . adopts the policy to continue the orderly development and maintenance of library services and facilities throughout the State."

Art. 77 §163

"The State Board of Education shall exercise general direction and control over library development . . ." including the power to make rules and regulations, recommend legislation, accept appropriations and/or materials from the federal government.

Art. 77 §164

The Division of Library Development and Services shall be under the control of the State Board of Education and shall "provide for the public libraries and for the coordination and development of other library services . . ."

The Division shall be headed by a person titled Assistant Superintendent for Libraries, who shall be appointed by the State Board of Education and shall possess an advanced degree in library and information service and have administrative experience in libraries.

Art. 77 §§166; 166A; 166B

The Division of Library Services shall have the power to develop statewide library services; provide professional and technical advisory services to library officials, state government agencies and others; collect library statistics; identify and provide for research studies on library needs; administer federal and state funds appropriated to it; and carry out other duties set forth by law.

The state of Maryland is a party to the Interstate Library Compact, the purpose of which is to "cooperate and share . . . responsibilities, to authorize cooperation and sharing with respect to those types of library facilities and services which can be more economically or efficiently developed and maintained on a cooperative

basis . . .[and to provide] joint or cooperative library services in areas where the distribution of population or of existing and potential resources make provision of library service on an interstate basis . . ." most effective.

The means of accomplishing these goals are set forth in the statute.

Art. 77 §167

The Maryland Advisory Council on Libraries "shall gather information pertaining to the needs of libraries throughout the state, render advice . . . to the Division of Library Development and Services, the State Superintendent, the State Board of Education and the Governor . . ." The Council shall consist of eleven members; seven appointed by the governor and the other four shall be the Commissioner of Higher Education, the President of the Pratt Free Library Board of Trustees, the President of the Maryland Library Association, and the dean of the Library Science School at the University of Maryland.

Art. 77 §169

Upon request to the State Department of Education any three or more local public libraries outside a standard metropolitan statistical area may maintain a regional resource center and cooperate to provide books, information and other material which an individual library could not provide adequately. [The services provided and the administration of regional resource center are set forth in this section.]

CROSS REFERENCE

II.C.1; Statute 69 §3

B. Educational Materials

1. Textbooks

A. Selection and Purchase

Statutes

§380.1422

Each school board shall select, approve, and purchase textbooks, which shall be the property of the district and loaned to pupils without charge. A board may require a reasonable and refundable deposit on textbooks.

§380.1431

A school board shall not use in the district schools a textbook not listed with the state board. Anyone desiring to offer textbooks for use in the state shall file with the state board copies of all textbooks offered with a sworn statement of the usual list price, the lowest net wholesale price and the lowest exchange price.

The board shall not list a textbook unless the offerer enters into an annual written contract embracing these terms:

The offerer shall furnish all textbooks listed in the statement to every district in the state at the lowest price contained in the statement.

Prices listed in the statement shall be automatically reduced in this state when reductions are made elsewhere in the United States.

Textbooks offered for use shall be at least equal in quality to those filed with the state board.

If an abridged or special edition of a listed textbook is offered elsewhere in the U.S. at a lower wholesale price than the net wholesale price of the listed textbook, the offerer shall file the special edition, and its price, where requested, with the state board, and offer the textbook for sale at the lowest net price.

No one shall enter into any agreement to

control the prices of textbooks or restrict competition in their sale.

If the state board determines that a textbook is being offered for sale elsewhere in the U.S. at a lower price than that for which it is offered for sale in this state, the board may cancel all filings on the part of the offerer of the textbook.

§380.1437

A person shall not attempt to secure the sale of a textbook in a district by making rewards of valuable items or promises of work to a teacher or school officer.

This shall not prevent a person from giving sample copies of textbooks for examination.

§380.1805 ; 380.1806

CONFLICT OF INTEREST

A superintendent, school officer or teacher who acts as agent for an author, publisher, or seller of school books or apparatus is guilty of a misdemeanor punishable by a fine of not more than $500.00 or imprisonment for not more than three months, or both.

A board may dismiss and cancel the contract of a superintendent, school officer, or teacher who fails to comply with this act.

§388.1006

A state board member shall not act as the agent of any publisher of school books or be interested in the publication or sale of any such book as agent or otherwise.

B. Content Standards

Statutes

§380.1173

The appropriate school authorities, consistent with acceptable academic standards, shall select instructional materials which reflect the pluralistic, multisocial, and

multiethnic nature of our society, past and present, and positively portray the varied roles of men and women in this society.

The state board shall make a biennial random survey of instructional materials in use to determine the progress made in the attainment of these objectives.

§380.1174

The state board may develop guidelines for expanding existing school curriculum to include materials on the culture of ethnic, religious and social minority peoples, and the contributions of women.

Guidelines shall be available for grades K to 12 and shall include the history and heritage, living conditions, beliefs, and customs, word meaning and usages and problems of and prejudices against these groups.

CROSS REFERENCE

II.A.5.; Statute §380.1158

2. Audiovisual Education

Statutes

§380.671

The state board shall establish criteria for approving regional educational media centers for initial and continued funding. Among the criteria shall be: minimum size for the service area based on enrollment; provision for intermediate school districts or parts of them to combine to operate an instructional materials center (either by contracting with one district to administer the center or by organizing a cooperative board); designation of a service area which will provide efficient lines of communication with outlying districts and the use of subcenters in sparsely settled areas; and qualification standards for personnel.

Intermediate school boards acting singly or in cooperation may operate educational media centers to serve public and nonpublic schools in their respective areas.

An educational media center provides educational services to local school districts, including: a materials lending library of motion pictures, slides, film strips and disc recordings; a graphics staff and duplication services for visual and audial materials; an acquisition, delivery and dissemination system; a technical and maintenance service; professional leadership training services to local school districts; and professional, reference and informational library services.

§388.1041; 388.1042; 388.1043

The state board may take any necessary action consistent with state law to comply with the "television broadcasting facilities act of 1962" and the "national defense education act of 1958" and may accept and expend federal funds available for such purpose by the legislature.

The state board may appoint an advisory committee to conduct studies relating to the development of an educational television system with emphasis on the feasibility of a multi-channel broadcasting system for instruction, materials distribution, and administrative data handling.

3. School Libraries

Statutes

§380.260

"The board may establish and maintain a library or museum, or both," which "may be separately operated for the" district's public schools. "The board may appoint librarians and hire other [library or museum] employees . . . and fix their salaries, may purchase necessary books and apparatus, and may include in the [district's] general budget . . . sums for building maintenance and support of a library or museum."

The board may appoint separate boards of library or museum commissioners of not more than 7 persons. Board of education members shall not serve as such commissioners. These "appointed boards shall have control . . . of the public library and museum, subject to the approval of the board of education," and "shall keep correct records of [their] proceedings." School district library money shall be paid to the board of education treasurer to be kept until receipt of orders by the board of library commissioners which have been approved by the board of education secretary.

§397.261

In the cities where free public libraries are under control of boards of education, such boards are authorized to include in their annual estimate sums sufficient to defray the expense of the maintenance and purchase of required books.

§380.351

The 2nd class district board shall receive funds designated for maintaining district or public libraries and shall use them for such purposes." The board may delegate the expenditure of library funds to an executive body constituted by law for [library] management within the city."

§380.1264

A school board shall provide for the care and management of a library or museum established in the district, appoint personnel, fix salaries, and provide materials and equipment.

§380.1451

A school district other than a primary district, by a majority vote of the school electors, may establish a public library. The school electors and the school board may vote a district tax for support of the public library.

§380.1452

A school board shall have charge of the library and may donate or sell library books belonging to the district.

Persons residing within the district in which a library is established shall be entitled to the privileges of the library. The board may contract with a community outside the board's jurisdiction for the use and privileges of the library.

§380.1456

An intermediate board may donate or sell library books belonging to the intermediate district to a township board with a township library, a city library or a county library board.

4. Supplies and Equipment

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§126.16

Any person, company or corporation selling textbooks in the state of Minnesota shall:

1) file a copy of the textbook, the list price, the lowest exchange and wholesale price in the office of the commissioner;

2) file a written agreement with the commissioner (a) to furnish textbooks of equal quality at the lowest prices to filed and (b) to reduce price automatically if reductions are made elsewhere in the U.S;

3) file a surety bond of $2,000 with the commissioner.

§127.15

CONFLICT OF INTEREST

Any teacher, or any person connected with the public schools, who profits from the sale of textbooks or school supplies shall be fined from $50 -- $200 for each offense.

§127.21 -- 127.23

The attorney general shall revoke the license of any textbook publisher who seeks to control prices or restrict competition in the sale of textbooks.

Publishers who sell school textbooks without first placing samples on file shall be guilty of a gross misdemeanor and shall be fined 500 to 2000 dollars.

State officials and/or board members shall not receive any money, gift or favor from any person or corporation selling textbooks. Penalty not exceeding $500 or imprisonment shall be given to any one convicted of such a crime.

3. School Libraries

Statutes

§121.22

The department may purchase books and audio visual educational items to be used as a state circulating and traveling library.

§121.23

The department of education shall give advice to the managers of any public library and encourage the establishment and aid in the organization of local libraries.

§121.24

The department shall keep relevant statistics on public and traveling libraries and report them to the legislature.

§134.01 --134.02

"Every school district may provide library facilities . . . ." The school board may approve funds to maintain a library and hire a librarian.

§134.03

In cities of less than 2,000 people that do not levy a tax for a public library, the school board may maintain a public library for the use of all residents.

§134.04

The state department of education shall periodically prepare a list of books suitable for school libraries.

§134.21

The interstate library compact is enacted into law in Minnesota. The state board of education shall designate an officer of the state department of education as "compact administrator."

§134.06

A school board may contract with a city or county board to become a part of its public library and to receive library books for the use of students. The school board and the library board may jointly employ a librarian who meets the standards of the state board of education.

4. Supplies and Equipment

Statutes

§123.16

Contracts for furniture, construction, and repair will be awarded to the lowest bidder. Contracts for rental of rooms or facilities and for student transportation must be approved by the commissioner. "Members of the board are authorized to contract with, do work for, and furnish supplies to the school district" subject to the provision of state law.

B. EDUCATIONAL MATERIALS
1. TEXTBOOKS
A. SELECTION AND PURCHASE

STATUTES

§37-43-3

The Mississippi State Textbook Purchasing Board is established which "shall consist of the governor who shall be ex-officio chairman, the state superintendent of public education and three members . . . appointed by the governor, one from each . . . supreme court district, who shall serve for . . . four years . . . . Each appointed member . . . shall be an educator of known character and acknowledged ability in his or her profession, with at least five years of successful teaching or supervisory experience in the public schools of Mississippi immediately previous to his or her appointment." Each appointed member shall be a qualified voter of his or her supreme court district and at least thirty years old.

§37-43-19

"The board . . . is . . . authorized (a) to promulgate rules and regulations for the purchase, . . . use . . . and accounting of all books . . . furnished under this chapter and other rules and regulations . . . necessary; RULEMAKING

(b) to adopt, contract for and purchase . . . basal textbooks through twelve grades as provided in the school curriculum . . .;

(c) to have complete power and authority . . . [regarding] any acts or regulations, not contrary to law, that may be deemed necessary for furnishing and loaning free textbooks to the school children . . . ."

§37-43-21

To assist the textbook board in appraising a textbook, rating committees in each field in which textbooks are being considered shall be established. Each committee shall be composed of seven members. "The state superintendent shall appoint three members of each APPOINTMENT

of the committees . . ." Each member shall be a competent teacher trained in each field "in which textbooks are being considered for adoption." The governor shall appoint four members of each committee whom "he[she] deems competent."

Each committee shall appraise the books and make recommendations thereon. "No book shall be recommended which does not receive a majority vote of the members of each committee."

§37-43-31

"The board shall adopt and furnish textbooks only for use in the [prescribed state course of study]. In all subjects the board may adopt five textbooks from those recommended by the textbook rating committees . . . ."

Any person given the authority to sell textbooks may do so if requested to by any parent, person, or school board in any community of the state.

C. Issuance

Statutes

§37-43-1

"This chapter is intended to furnish a plan for the adoption, purchase, distribution, care and use of free textbooks to be loaned to the pupils in all elementary and high schools.

The books herein provided by the state textbook purchasing board shall be distributed and loaned free of cost to the children of the free public schools . . . and of all other schools located in the state, which

maintain educational standards equivalent to the standards established by the state department of education for the state" schools. All pupils shall be permitted to carry any loaned textbooks home with them.

2. Audiovisual Education

Statutes

§37-63-1

"It is declared to be the legislative purpose of this chapter and the public policy of the state of Mississippi, that there be established and developed in the public interest an educational television and radio system which shall provide educational and instructional, professional growth, and public service programs for the students and citizens of Mississippi, . . . to be known as Mississippi Educational Television."

§37-63-5

"The Authority for educational television shall consist of the state superintendent of public education and six members appointed with the advice and consent of the senate." APPOINTMENT

Authority members who are not state employees shall receive a per diem allowance for attending meetings plus expenses.

§37-63-7

"The Authority for educational television shall employ an executive director who shall be the administrative officer of the authority . . . ."

§37-63-9

"The Authority for educational television is empowered to lease, purchase, and operate facilities necessary to "provide complete coverage of educational television in the state."

§37-63-13

"The Authority for Educational Television is empowered and is hereby designated as the proper and official state agency to:

(1) Control and supervise the use of television broadcast . . . and radio frequencies reserved by the Federal Communications Commission for non-commercial, educational purposes."

(2) Review all application by educational institutions for education television and radio licenses, and all applications for federal state or private funds involving construction or acquisition of television or radio equipment or facilities.

(3) "Prescribe official state approved standards for appropriate educational television equipment which may be purchased by [any educational institution or non-profit organization] in order to insure a standard of quality and technical compatibility throughout the state."

(4) Serve as a consultant on educational television and radio.

(5) "Serve as a clearing house for information on television and radio for educational purposes."

(6) Do anything "necessary to insure the orderly and coordinated development of educational television and radio . . ." and

(7) Set policy for the governance of "programming, administration, and supervision . . . of educational television and radio."

3. School Libraries

Statutes

§37-55-1

"The county superintendent of education shall name two first grade teachers who, together with the county superintendent, shall constitute a county library commission. Their duty shall be "to name a list of books suited for school libraries and all books purchased under this chapter shall be selected from this list. A further duty shall be "to make rules and regulations to govern and control the use of such libraries in the county and . . . [to] name a local manager who shall make a report every year to the county commission. . . ."

RULEMAKING

B. Educational Materials

1. Textbooks

A. Selection and Purchase

Statutes

§75-7603

"Textbooks shall be selected by the district superintendent or by the school principal." In the absence of either, "the trustees shall . . . adopt the textbooks on the basis of recommendations of the county superintendent."

§75-7604 — 75-7605; 75-7607 — 76-7609

Districts must obtain the textbooks adopted "from a licensed textbook dealer." A textbook dealer may obtain a license from the superintendent of public instruction after filing a written agreement guaranteeing that (1) "textbooks shall be supplied to any district at the listed, uniform sale prices in effect for schools; (2) the sale prices shall be the standard prices in effect throughout the United States; and (3) price reductions made elsewhere are automatically applicable. A district or county superintendent must notify the superintendent of public instruction if a textbook dealer is "offering to supply textbooks without a license" or in any way violating the "laws regulating the offering of textbooks for sale or adoption to districts." The dealer must be notified of the complaint. If the superintendent of public instruction finds that there has been a violation, the dealer has 30 days "to rectify his[her] error." Any textbook dealer who sells a textbook to a district without obtaining a license is guilty of a misdemeanor. If a "dealer enters into any . . . agreement . . . to control textbook prices or otherwise restrict competition" in textbook sales, he/she forfeits his/her license and surety bond.

§75-7610

"No textbook dealer . . . shall offer," nor shall any "trustee, county superintendent or school

employee . . . accept any emolument or other inducement . . .[to] influence . . . the selection, adoption or purchase of textbooks." Any violation of this provision is a misdemeanor, and "any trustee, county superintendent or school employee convicted of such misdemeanor shall be removed from his[her] position."

POLICY GUIDES

TEACHER'S RESOURCE GUIDE TO ACCOMPANY
BASIC QUALITY EDUCATION
Board of Public Education 63 pages
1975

This resource guide was published by the superintendent of public instruction as a companion to the 1975 report on "basic quality education." The resource guide is essentially a dual bibliography of periodicals and catalogs that contain suggestions for classroom and school use, and a topical list of books. The topical bibliography is divided into resources on "humanizing education" and on "values and decision making."

B. CONTENT STANDARDS

CROSS REFERENCE

II.A.1.; Statute §75-7521

C. ISSUANCE

STATUTES

§75-7602

District trustees shall purchase textbooks and loan them to public school pupils "free of charge, subject to the textbook damage policy" adopted.

3. School Libraries

Statutes

§44-222

"The library board of trustees of every public library" is authorized "to contract . . . with school districts . . . to give and receive library service."

§75-7511

The superintendent of public instruction shall establish "a library of visual, aural and other educational media . . . selected . . . on the basis of their usefulness as teaching aids and resources for schools and other educational groups within the state." The superintendent of public instruction shall set rental fees for use of these materials.

§75-7517

District trustees are required to establish a school library in each school. The libraries must meet the "minimum requirements of the standards of accreditation adopted by the board of [public] education.

§75-7518; 75-7520

"The trustees shall adopt . . . policies . . . for regulating the use and operation of school libraries." District residents may be allowed to use school libraries if "such use does not interfere with the regular school use of the library." Trustees "shall report school library information" to such officials as may request.

§75-7519

The district superintendent, or principal if there is no district superintendent, shall select school library books with the trustees' approval. If there is no superintendent or principal, "the trustees shall select . . . books on the basis of

the recommendations of the county superintendent."

REGULATIONS

§48-2.6(10)-S6140

Each school shall have a library and each district shall have written policies regarding selection and use of materials. The librarian shall have a teaching certificate with a library endorsement. Junior and senior high schools of 501 students shall have a full-time librarian. It is recommended that at least 6,000 instructional items or a ratio of 20 per student, whichever is greater, be maintained.

§48-2.6(10) - S6150

Schools with an enrollment of more than 350 shall maintain a central library. The selection and use of materials is the responsibility of the local school board.

It is recommended that all schools which have separate grades shall have a separate library. It is recommended that the librarian shall have a teaching certificate with library endorsement.

The minimum number of instructional items, exclusive of textbooks, shall be 500 or at least 10 per student. It is recommended that the minimum number shall be 800 or 12 items per student. Schools with an enrollment over 500 shall provide at least six additional items per student.

4. Supplies and Equipment

Statutes

§75-6322

"The trustees of any district may require pupils in the commercial, industrial arts, music domestic science, scientific or agricultural courses to pay reasonable fees to cover the actual cost of breakage and of excessive supplies used."

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§79-4.118; 4.120

School boards "shall purchase all textbooks, equipment, and supplies necessary for" district schools. If a contract is entered into "with any publisher who shall . . . become a party to any combination . . . for . . . raising the price of school textbooks," the school board may declare the contract "null and void."

REGULATIONS

14-(19)-14(23)

Each elementary school shall maintain materials and supplies to support the required curriculum. At least 50% of the textbooks used must have been purchased within the past five years. Schools using instructional television shall have current broadcast schedules and related program manuals. Each elementary school shall keep an up-to-date list of new library acquisitions. Each school shall have at least one set of encyclopedias, at least one film projector, and shall acquire a minimum of 25 new library resources per teacher per year. The school library resources shall be accessible to students during the entire school day.

CROSS REFERENCE

II.A.1; Statute §79-213

C. ISSUANCE

STATUTES

§79-4, 121

All books purchased by school boards are district property and shall be "loaned free of charge

to pupils" attending school. Pupils shall be held "responsible for any damage to, loss of, or failure to return such books" by the board.

STATUTES

§79-2110 — 79-2114

The Department of Education shall provide for the development and utilization of "instructional television programs in the elementary and secondary schools." A director and other staff may be employed. The department "may publish . . . informational material . . . [and] make such materials available at cost to all individuals, schools. . . and organizations." The director of instructional television is appointed by the Commissioner of Education with the approval of the State Board of Education. The director must have had at least "three years of successful elementary or secondary school experience and . . . hold a Nebraska Administrative and Supervisory Certificate." The director's duties include: "(1) to administer the elementary and secondary instructional television responsibilities as provided by law . . .; (2) to act as contract agent for the Department of Education . . . [and] provide a liaison" between the department and educational organizations; (3) to consult and cooperate with the Nebraska Educational Television Commission . . . to coordinate . . . the transmission of instructional television programming to . . . schools;" (4) to work with department personnel to make the best use of instructional television in school curricula and to improve education in the state, and (5) "to provide for the evaluation of the fulfillment of school needs through instructional television programming." The Nebraska Educational Television Committee or its designees "shall serve as an advisory committee to the Commissioner of Education and the director of instructional television." This advisory committee shall "assist in the study of needs of the schools and recommend appropriate program development" and otherwise assist in

and make recommendations for the development and coordination of instructional television operations and programs.

REGULATIONS

11-(61)

Each high school shall make instructional use of media which may include television, filmstrips, records, radio, and newspapers.

11-(71)

Each elementary school shall make instructional use of selected media, including television, radio, and newspapers.

14-(45)

Each secondary school shall have at least one movie projector, one record and tape player.

CROSS REFERENCE

II.B.1.a.; Regulation 14-(19) - 14-(23)

3. School Libraries

Regulations

11-(52) - 11(56)

Each school system shall have a library in each school. All high schools must have a library with at least 1,800 titles, exclusive of textbooks. At least 300 new titles will be acquired each year until a maximum of 5,000 titles are acquired.

11-(63); 11-(66)-11-(67)

Every elementary school shall have a library with at least 1,200 titles, exclusive of textbooks. Each school must acquire 200 new titles yearly until a minimum total of 2,400 titles is obtained.

14-(44)

Each secondary school shall have a central library media facility which shall be available to students during the entire school day. The library shall contain at least 1,200 titles, exclusive of textbooks. A minimum of 150 new library resources shall be acquired each year.

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§385.240

"The superintendent of public instruction shall approve or disapprove lists of books for use in school libraries, but such lists shall not include books containing" material which would tend to "influence the minds of children in the formation of ideals not in harmony with truth and morality or the American way of life or not in harmony with the Constitution and laws" of the U.S. or Nevada.

§390.010 - 390.160

Within the state department of education, there exists a state textbook commission composed of the superintendent for public instruction or his or her representative and eight persons appointed by the governor: four from Clark County, two from Washoe County and two from the remainder of the state. Members appointed by the governor shall be "certified by the state department of education as having been actively engaged in school teaching or administration in the state for at least four years prior to being appointed" and "shall serve terms of four years."

APPOINTMENT

Before entering office, appointive commission members shall take the constitutional oath of office and file the same in the office of the secretary of state.

OATH

Vacancies occurring in terms of appointive members shall be filled by the governor's appointment of "an eligible person to serve for the remainder of the unexpired term."

VACANCY

"The commission shall elect one of its members as president of the commission, to serve a

COMMISSION OFFICERS

CONSULTANT

RULEMAKING

two-year term. The state board of education may employ a textbook consultant who may serve as secretary of the commission. The state board of education shall define his[her] other duties.

The commission shall adopt rules of procedure concerning all aspects of internal organization and textbook selection. The rules of procedure shall be in writing and shall be approved by the state board of education before becoming effective.

A majority of the members of the commission shall constitute a quorum. . . ."

The commission's rules of procedure shall list the times and places of its regular meetings. Special meetings may be called by the secretary at the request or with the consent of the majority of commission members. All meetings shall be public. The secretary shall keep a full record of all proceedings which shall be open to public inspection. "Minutes of meetings shall be prepared and distributed" to commission members and county school superintendents. When engaged in commission works, members shall receive per diem and travel expenses.

"The commission shall select textbooks to be recommended for adoption to the state board of education. The . . . board . . . shall make the final selection of all textbooks to be used in the public schools in this state."

"The commission shall have power to make such contracts for the purchase and use of textbooks" as it deems "necessary for the interests of the public schools." Contracts shall set forth textbook prices and "guarantee that there is no subversive or sectarian doctrine, as determined by" Nevada and U.S. laws "in any textbook covered by the contract."
§390.220

"Boards of trustees of school districts . . . shall enforce in schools the use of textbooks prescribed and adopted by the state board of education."

§390.230

Only "the textbooks adopted by the state board of education shall be used in the public schools" and shall be used as basic textbooks. This section does not prohibit the continued use of previously approved textbooks until they become unserviceable. "the use of supplemental textbooks purchased by a school [must be] with the approval of the superintendent of public instruction," and, "after approval by the commission, the temporary use of textbooks [is] for tryout purposes." Any school officer or teacher violating the provisions of this chapter or failing to follow the rules and regulations of the commission shall be fined up to $100. "All superintendents, principals, teachers and school officers are charged with the execution of this section."

C. Issuance

Statutes

§393.170

The board of trustees shall buy all necessary new library books, supplies, textbooks, and supplementary schoolbooks approved by the state textbook commission and necessary school supplies for pupils. The cost "shall be a legal charge against the school district fund." Books bought by the board shall be school district property and shall be loaned to pupils of the school for their classes. Parents and guardians shall be responsible for books and other materials loaned to

children, and shall pay the clerk of the board the full purchase price of all such things destroyed, lost, or badly damaged. The board shall make rules and regulations governing the care of such property and the payment of fines. The same conditions apply to equipment and materials for use in manual or industrial training and for teaching domestic science. If this equipment is no longer used by schools, it may be sold in accordance with the law. Authorized supplementary books and desk books shall be purchased for the use of teachers and shall be the property of the school district. The clerk of the board shall turn over to the county treasurer, within 30 days after receiving it, all moneys collected under this provision, to be credited to the school district fund. Any violation of this provision is a misdemeanor.

2. Audio-Visual Education

Statutes

§398.090

The Nevada educational communications commission shall promote noncommercial educational facilities and systems (T.V., radio, etc.) utilized in formal education and in general information distribution and advise the governor on educational communications matters.

§398.140 --.170

The commission may: (1) establish general policies concerning the nature and character of educational radio and television broadcasts and set standards and requirements to maintain high production quality for programs on a statewide educational communications network; (2) establish a Nevada instructional television planning council, to "advise the commission on necessary instructional programming to satisfy common curriculum needs of all public school districts;" (3) "establish a Nevada educational television community development council," to "determine general cultural or informational programming needs of the entire state and to advise the commission on requirements" for such programming; (4) "establish a Nevada legislative communications council," which shall prepare the legislative program provided by the commission, for the purpose of assuring the continued operation of a statewide educational communications network; (5) "initiate or receive for review and approval all applications for federal, state or private funds for the development or operation of a statewide education communications network; and (6) serve as a clearing house for information."

3. School Libraries

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§18A:6-8

No official or employee of the public school system shall benefit from the sale of any textbooks; school apparatus, or supplies of any kind. A violation may result in removal from office or loss of certification.

CONFLICT OF INTEREST

§18A:34-1;2

Textbooks shall be selected by "majority vote" of the board of education and "furnished free of cost" to all district students. The board shall make rules for the care of textbooks and keep accounts of money expended for books and supplies.

REGULATIONS

§6:20-6.6

Any textbooks used in the public schools of the State and new textbooks approved by any local board of education shall be allowed for instructional use.

CROSS REFERENCE

III.E.Student Achievement; Regulation §6:8-4.5

C. ISSUANCE

REGULATIONS

§6:20-6.1

All local boards may purchase and loan, without charge, textbooks to pupils residents of their respective

school districts or other districts within the state. Children enrolled in New Jersey school (public or non-public) are eligible.

§6:20-6.7

Pupils are not to be charged for use of textbooks but reimbursement by pupils will be expected for those textbooks that are lost or damaged.

CROSS REFERENCE

II.B.1.a.; Statute §18A:34-1;2

2. Audiovisual Education

Statutes

§18A:51-1--6

The boards of two or more districts in a county may, by "majority vote," resolve to establish "a county audio-visual aids center." A "county educational audiovisual aids commission," consisting of seven members, shall supervise and manage the center. The members shall, for the first year, be appointed by the commissioner and thereafter elected. The commission shall furnish audiovisual aids to the public schools.

§18A:51-13--16

Any board of education may contract with a nonprofit educational television station in order to "make use of television as an educational aid." Every board of education may participate in the organization of a nonprofit educational television station and procure its services for school use. All contracts must be approved by the state board of education.

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§6-5-22

Purchases made from the state board of education free textbook fund are exempt from the general rule that public purchases must be made by a state purchasing agent.

§73-8-15

"No board of regents of state educational institutions, boards of education, board of school directors, nor any member of any said boards, nor any school official nor teacher . . . shall sell to any school or state educational institution that they are connected with . . . any school books, school furniture, equipment . . . or . . . supplies or property insurance or life insurance to any school employee. Nor shall any person herein mentioned work under contract or receive commission or profit from a contract with any school."

CONFLICT OF INTEREST

§77-13-8

School districts, state institutions, private schools and adult basic education centers, (hereinafter, agents) may select instructional material for students' use from a multiple list adopted by the state board.

REGULATIONS

Reg. No. 77-2

The adoption, requisition and distribution of instructional materials shall proceed as follows:

The State Board shall officially adopt a list of instructional material to be used in the schools once annually, except when the state instructional material director determines there to be an emergency. Instructional material that is not in finished form shall not be adopted. A maximum of 15 books or programs will be adopted in each subject or major subcategory at the

§77-13-4

"Subject to the policies of the state board the division shall:

. . .B. adopt and enforce regulations for the handling, safekeeping and distribution of instructional material and for inventory and accounting procedures to be followed by school districts, state institutions, private schools and adult basic education courses . . .;

C. withdraw or withhold the privilege of participating in the free use of instructional material if the Instructional Material Law is violated."

primary, elementary and secondary levels. Local agencies shall adopt material in subject areas in which their needs assessment indicates a deficiency within two years after the material is placed on the state list.

Regional centers shall be established on a trial basis to receive instructional material samples and make them available to evaluators. Advisory committees, appointed by the State Board, will prepare recommendations for the State Board.

CROSS REFERENCE

I.Department Employees; Statute §77-19-1

C. Issuance

Statutes

§77-13-3

"The state instructional material division is created within the department of education. With approval of the state board, the state superintendent shall appoint a director of the division to be known as the state instructional material director." The director shall be bonded.

§77-13-7

Any qualified student is entitled to the free use of instructional material, which shall be distributed to school districts, state institutions, private schools and adult basic education centers as agents for students. The agents are responsible for distribution and safekeeping of the instructional material.

1. Textbooks
A. Selection and Purchase

CROSS REFERENCES

I.City Superintendent of Schools; Statute §2508

I.Superintendent of Schools, Union Free School District; Statute §1711

B. Content Standards

Statutes

§701;704

Boards of education "shall designate textbooks to be used in the schools." Textbooks may be loaned free of charge to children enrolled in grades K-12 of a public or private school. School authorities may "purchase supplies and either rent, sell or loan" them to children attending the public schools. No textbook may be used which contains seditious or disloyal matter.

Regulations

Part 21 (Statutory Authority: §§ 207, 701)

§ 21.1

A complaint, alleging that a public school textbook contains seditious material, must be in writing and contain a full statement quoting the matter complained of. The complaint shall be filed with the Textbook Commission.

C. Issuance

Regulations

§ 21.2

Resident students in grades kindergarten through 12 may borrow textbooks that are used for required courses in public schools. This does not include encyclopedias, supplementary textbooks, or special dictionaries. A written request for a textbook loan

is required of private school pupils.

School districts shall distribute textbooks "on an equitable basis" to all children in grades kindergarten through 12.

2. Audiovisual Education

Regulations

Part 179 (Statutory authority §207)

§ 179.4 – 179.5

Broadcasting corporations chartered by the Regents ("Councils") will provide an instructional television broadcast service for regional school use. The councils and local education agencies will cooperatively develop an instructional television service committee to represent school interests and needs. All schools in New York State may utilize television broadcasts at no cost to the schools.

Quarterly reports describing the working relationship of the area instructional television committee and the council shall be filed with the commissioner.

An instructional television service committee shall be formed in each of the several regions of the state. The regional committee shall identify instructional television needs in the area, identify programs to be scheduled, and develop a program of evaluation of the use and effectiveness of programs broadcast to schools.

3. School Libraries

Statutes

§274;275

The commissioner of education shall make rules for the management and use of school libraries. In districts where a public library does not exist, the school library shall serve the needs of all residents. In a district that maintains a high school, the local board of education may hire a school librarian who meets qualifications set by the commissioner of education. In other districts, any "competent person" may serve as librarian.

Regulations

Part 91 (Statutory Authority: §207)

§ 91.1

A school library shall be established and maintained in each school. The libraries must contain a specified number of titles, according to the pupil enrollment size.

§ 91.2

Each school district shall employ a certified school library media specialist. The number of hours or days devoted to library work by the media specialist will be determined according to school enrollment.

CROSS REFERENCES

III.A.2.; Regulation §100.2

III.B.School Media Specialist; Regulation §80.18

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§115-10

The state board of education shall meet once a month or at any special meetings called by the chairperson. "A majority vote of the whole . . . Board shall be required to adopt textbooks." All Board proceedings "shall be recorded" and "kept in the office of the Superintendent of Public Instruction, and open to public inspection."

§115-205.1 -- 206.2

The state Board of Education has the authority to "select and adopt for the exclusive use in the public school . . . the basic textbooks" needed for instructional purposes.

§115-206.14 — 115-206.18

Local boards of education shall administer the "local operation of the textbook program." Local boards shall adopt their own "written policies" on "selection and procurement" of "instructional materials." Local boards are the "custodians of all books furnished by the State" and shall provide safe storage facilities for the books. No pupil may be charged a rental fee by a local board for the use of textbooks, but damage fees may be charged for "abuse or loss of textbooks." Local superintendents shall administer the textbook program and see to it that moneys are accounted for and that teachers and principals fully cooperate. A parent or guardian has a right to purchase basic textbooks or any instructional material from the State Board of Education and the local boards of education respectively.

B. Content Standards

Statutes

§115-206.3 - 115-206.5; 115-206.8

A "Textbook Commission", consisting of twelve members, shall be appointed by the Governor for a four-year term. The members shall include six elementary teachers or principals, five high school teachers or principals, and one county or city superintendent. All elementary school textbooks shall be evaluated by the Commission's elementary school representatives, and high school textbooks evaluated by those respective Commission members. A written evaluation , giving consideration to the suitability of the book for its particular grade level, and the content or subject matter , shall be filed by each member for each book evaluated. The State Board of Education and the Textbook Commission then jointly examine the reports and the Board shall then select the textbooks it believes "will meet the teaching requirements of the State public schools."

The state superintendent may at any time tell the Board that "a particular book is unsatisfactory" and urge the adoption of a different one.

II.A.1.; Regulation §2E.0901 -- .0902

C. Issuance

Statutes

§115-206.12

The State Board of Education shall see to it that children in the public schools are "provided with free basic textbooks."

CROSS REFERENCE

II.A.2.; Statute §115.321 -- 115.342

3. School Libraries

Statutes

§115-206.24

Each local "administrative unit" shall hire "at least one half-time librarian." This employment "shall be supplemental to . . . any previously existing library positions." Librarians hired under this provision shall not be considered part of the "instructional personnel" of §115-59(b).

CROSS REFERENCE

I.Local Boards of Education; Statute §115-27

4. Supplies and Equipment

Statutes

§115-52

Local boards of education have the duty "to purchase or exchange all supplies, equipment and materials" in accordance with state law.

§115-132

Local boards of education shall "provide suitable supplies for the school buildings under their jurisdiction." Such supplies shall include "necessary instructional supplies, . . . blackboards, reference books, library equipment, maps, and equipment for teaching the sciences."

In addition, the boards shall provide schools with "a good supply of water" and where "sewerage facilities" are not available, "sanitary privies" shall be provided. These shall be considered "an essential and necessary part of the equipment of each public school."

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§15-43-04

"The superintendent of public instruction shall distribute to the clerks of district school boards and the county superintendents of schools, a complete printed list of books filed with his [her] department, giving the prices and terms of the sale and, annually, shall cause a supplementary list of textbooks filed during the year, with prices and terms of sale, to be printed and distributed. All books used in the public schools of the state shall be selected, adopted, and purchased by contract from such list by the district school boards. School boards may use supplementary books not shown on the lists . . . ."

§15-43-05

"No person [or company] shall . . . attempt to obtain . . . the adoption, selection, or purchase of, or contract for, any school textbook by making any reward or promise of a reward to any teacher or school officer. No person [or company] shall offer or give emoluments, money, or any valuable thing, promise or employment or any other inducement to any teacher or school officer in any school district for any vote or promise of vote, or for his [her] influence, for the selection of any schoolbook for use in this state. This shall not prohibit any person [or company] from giving or any school officer or teacher receiving, a reasonable number of sample schoolbooks for examination. Any school officer or teacher who receives sample books for examination shall deliver the samples to the clerk of the school district after such examination, and the books then shall become the property of the district."

CONFLICT OF INTEREST

§15-43-11

"No public school or educational institution of the state shall change or alter the basic textbooks which are used . . . more often than once in five years." This is not applicable to technical books used in institutions of higher learning.

REGULATIONS

Chapter V: II.S.

Textbooks are locally selected. They may be purchased by the school to be used free of charge, rented to pupils, or sold at cost. The school district may provide texts for indigent children and for the use of teachers. Schools are expected to use up-to-date tests. Basic textbooks may not be changed more often than once in five years.

B. CONTENT STANDARDS

REGULATIONS

Chapter V: II.T.

In the areas of language arts and mathematics, schools shall have a sequential set of instructional materials.

Music should be offered to all elementary students for at least 90 minutes per week, and physical education for 150 minutes per week.

C. ISSUANCE

STATUTES

§15-43-07

"A school board may purchase textbooks from the publisher at prices and terms listed with the superintendent of public instruction and may sell such books

to the pupils at cost price or at prices including the cost of transportation and of handling. Such board may purchase all necessary books for indigent pupils and loan such books free of expense to such pupils, and shall purchase all books necessary for the use of the teachers in conducting the work of the schools of the district. Books purchased for the use of indigent pupils and of the teachers shall be paid for out of the funds of the district and shall remain the property of the district.

§15-43-08

"When a family removes from a school district in which free textbooks are not provided, the school board of the district from which the family removes, may purchase the textbooks in actual use by the children of such family at a fair price based upon the cost of the books and upon the condition thereof. The books so purchased may be resold to other children in the district.

§15-43-09

"When the school board of any school district shall deem it desirable or necessary, or whenever such board is petitioned so to do by two-thirds of the voters of the district, it shall provide free textbooks and supplies for all schools under its charge. All such books purchased . . . shall be paid for out of the funds of the district, and the school board shall see that sufficient funds are raised and set aside therefor. The clerk of the district shall keep a record of all books furnished to the schools in the district. Any school board which has adopted the free textbook system must dispense with such system if petitioned so to do by two-thirds of the voters of the district. No petition to dispense with the free textbook system shall be acted upon by the board within a period of four years after such system is adopted, and after such system has been dispensed with, it shall not be installed again until the expiration of four years thereafter."

§15-43-10

"In any school district which does not have the free textbook system, the parent or guardian of any child in school shall provide him [her] with the textbooks adopted by the school board necessary to the reasonably successful progress of the child in class in all of the subjects of study of the grade to which the child is assigned by [her/]his teacher."

2. Audiovisual Education

Statutes

§15-47-36

"The superintendent of public instruction may contract, for a period not to exceed two years, with provisions for its renewal, with a non-profit organization for the purpose of providing . . . educational television services."

§15-65-02 -- 15-65-03

In order to encourage the creation of educational radio and television facilities, the "North Dakota educational broadcasting council" is established. The council shall be comprised of twelve members, including the state superintendent of public instruction. The council shall be concerned with the "development of statewide educational television and radio facilities," and shall cooperate with the state department of public instruction in developing statewide educational broadcasting projects.

Regulations

Chapter III: VIII. B.

The Division of Independent Study runs the North Dakota State Film Library, which makes approximately 5,000 prints of educational films available to schools and other organizations.

REGULATIONS

Chapter III: V.

A school library or media center, with adequate quarters, collection, and staff, has become an essential part of the instructional program of any elementary or secondary school. Standards for School Media Programs (published by the ALA/NEA in 1969) should be the basis for planning North Dakota media programs.

A sequential program of instruction in media center use should be provided for students throughout the grades.

Material should be available for long or short-term loans to classrooms. Any class, group, or individual should be permitted to go to the media center without pre-scheduling.

Chapter III: V.A.

One unified center for library services and other media resources is recommended for all students in each building. The center should include: quarters with sufficient office, working, and storage space for the acquisition and processing of materials and for filing of records; the services of professional and supportive staff; and a centralized pool of printed and audio-visual materials.

The library should be open for a half hour before and after school in addition to time during the school day.

The Dewey decimal classification should be used. All centers should have a shelf list, a card catalog, a materials lending policy, and information files kept up to date.

All instructional materials throughout the school should be catalogued and records of them kept in the library.

Chapter III: V. C.

"Policies and Procedures for Selection of Instructional Materials," approved by the American Association of School Librarians, is recommended in the selection of materials.

Chapter III: V. E.

Balance, suitability and quality in the collection are essential. Recognized sources must be used in the selection and evaluation of materials. Weeding of obsolete or worn-out materials is a continual process. Collections should be evaluated periodically.

Chapter III: V. G.

As a media center provides more comprehensive services, additional areas may be needed such as conference rooms, library classrooms, storage areas and typing space.

Office space or workroom should include storage space for back-issue magazines, which should be kept at least five years.

The AV production room should include provision for teachers to produce audiovisual materials locally and to preview audiovisual materials for purchase or use.

Chapter V: II. X

"An effective and efficient media center is reflective of three major facts: the professional staff and their preparation, the facilities for the media program, and the amount of media available for teachers and students."

The elementary library is an integral part of the elementary school. For an effective library program, it is recommended that a full-time, professional librarian be assigned for each school.

CROSS REFERENCE

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§3329.01; .02

Any book publisher desiring to sell schoolbooks to any board of education for use in the public schools must file the published list wholesale price with the superintendent.

When the price list has been filed, "the superintendent immediately shall fix the maximum price at which such books may be sold to or purchased by boards of education, which price must not exceed seventy-five percent of the published list wholesale price thereof." Upon notification of the maximum price, the publisher may agree to accepting the price fixed and furnish the books for a period of one year.

§3329.09

In all school districts, the clerk of the board of education shall be the custodian of school books purchased by the district, and shall keep the necessary records as required by the boards.

Pupils may purchase textbooks for their own use. The board may sell textbooks to such pupils at no more than ten percent above cost and such payment shall be credited to the same fund from which the textbooks were purchased.

§3329.10

"A superintendent, supervisor, principal, or teacher employed by any board of education shall not act as sales agent, either directly or indirectly, for any person, firm, or corporation whose school textbooks..."

CONFLICT OF INTEREST

may be used in the public schools. Forfeiture of teaching certificates may result from violation of this section.

CROSS REFERENCE

I.Board of Education; Statute §3313.18

B. CONTENT STANDARDS

REGULATIONS

§3301-35-05

"Instructional materials shall be provided by the Board of Education. . .and shall be appropriate in kind and amount to achieve the goals in all areas of work and study. . . . Each junior high school shall have sufficient up-to-date textbook materials for each pupil and shall have proper procedures for their selection. . . . Instructional materials shall be selected with consideration for the students cultural backgrounds, motivational patterns, and their approach to learning tasks. Multi-level instructional materials which may include textbooks shall be provided for all pupils."

Each junior high school shall have guidance materials which "reflect the orientation of pupils to secondary educational experiences, personal and social development, and career outlooks.

"Each school shall have adequate audio-visual instructional equipment and related audio-visual materials so that a wide variety of instructional uses can be continuously and effectively made at all appropriate times by the staff.

"Appropriate and adequate supplementary materials including current magazines, pamphlets, newspapers, and other multi-level instructional material shall be available to pupils in each subject level.

The junior high school library shall "meet the needs of early adolescence pupils." Junior High schools with less than 500 enrollment shall have a library of 5,000 volumes. Junior high schools with enrollment 2,000 or greater shall

have libraries with 10,000 volumes plus 2 volumes for each additional pupil over 2,000. Intermediate size junior high schools shall have libraries in between these sizes

"Each school district shall establish and maintain in a convenient location a library of books, magazines, and other materials essential to professional growth of its teachers.

All instructional materials and equipment shall be "in a state of good repair."

C. ISSUANCE

STATUTES

§3313.642

The board of education of a city, exempted village, or local school district shall not be required to furnish free any materials used in a course of instruction other than necessary textbooks. The board may, however, furnish such materials free to students it determines are in "serious financial need." The board may determine fees for such materials and fines for loss, damage, or destruction of school equipment and property, including musical instruments, library material, textbooks, etc. It may enforce such fines by witholding grades and credits.

§3329.06; .08

"The board of education of each city, exempted village, and local school district shall furnish, free of charge, the necessary textbooks to the pupils attending public schools," as needed. The board may limit purchases to six subjects per year, "the cost of which shall not exceed twenty-five percent of the entire cost of adoption." Such books are property of the district and shall be on loan to the pupil.

The board of education of each district shall determine how many textbooks are required, and by majority vote of the board, which books shall be purchased. The board shall pay for the books, and shipping costs out of the general fund. No book shall be changed without a of four-fifths vote of the board.

Books so voted shall be adopted for a four year term.

2. Audiovisual Education

Statutes

§3313.05

The board of education may provide educational television courses and programs to classes within the district The board shall pay any membership or fees required to receive such programming related materials and educational services, provided they are secured from nonprofit educational television corporations.

3. School Libraries

Regulations

§3301-37-05

Standards for high school instructional materials and libraries shall be similar to those for junior high schools.

CROSS REFERENCES

II.B.1.b.; Regulation §3301-35-05

III.A.2.; Regulation §3301-35-04

4. Supplies and Equipment

Statutes

§3313.811

No board, principal teacher, class organization, or individual student may sell or supervise the sale of uniform school supplies, foods, candies or similar supplies or school property, except where profit from such sale is used for school purposes.

The school district board of education shall provide funds for the purchase and sale of uniform school supplies.

§3315.06

The county board of education may provide programs, examinations, school records, diplomas, and other necessary supplies and equipment for instructional programs. The board may pay expenses for county and local district board meetings; at least once a year to discuss educational matters. The county boards may pay superintendents and the assistant superintendents up to $600 per year for travel expenses and may employ stenographers and clerks for the superintendent.

CROSS REFERENCE

III.E.School Employees; Statute §3315.07

B. Educational Materials

1. Textbooks

A. Selection and Purchase

STATUTES

§70-16-101

The State Textbook Committee shall be composed of twelve members (two from each Congressional District) appointed by the Governor, and one appointed member who shall be a lay citizen educator without a teaching certificate, and having at least one child in the public school system. A majority of the twelve members from the Congressional Districts shall be classroom teachers. Each member must have at least five years' teaching or supervisory experience and shall be actively employed in the public schools during his or her term of service on the Committee.

The State Superintendent of Public Instruction or a designated member of his or her staff shall serve as secretary of the Committee and vote only when there is a tie vote.

§70-16-102 -- 16-104; 16-107; 16-109; 16-110

The State Textbook Committee shall select textbooks for subjects taught up to and including 12th grade. Selections shall be for not more than five years per textbook, except basic textbooks for essential curriculum which can only be certified for four years. The Committee shall select seven textbooks for each subject.

The Committee shall advertise for books in all basic subjects. If it be found that any member of the Committee, State Textbook Director, or any employee of that office is financially interested in a bidder, the member shall be disqualified from the committee and the bidder shall be disqualified from bidding.

CONFLICT OF INTEREST

The textbook committee shall make "a full and complete investigation" of all books and bids received. Not more than five classroom teachers may be consultants. The books selected shall be those which the committee considers "best suited for the public schools . . . ."

The State Textbook Committee may require a publisher whose bid is accepted to substitute new or revised editions for the adopted editions at a price to be mutually agreed upon.

The State Textbook Committee shall have the right to reject any and all bids. If it fails to select sufficient books from among the proposals submitted, it may advertise for sealed bids under the same terms as before.

§70-16-111; 16-116

The superintendent of schools of each independent school district and the county superintendent of schools for each county shall appoint a local textbook committee consisting of from three to nine teachers, of which a majority shall be classroom teachers, and one lay member. The superintendent of schools or a designated principal shall serve as chairperson of the local textbook committee.

Upon a written request, the State Board of Education shall furnish to the local textbook committee a reasonable number of examination copies of each textbook selected by the State Textbook Committee. The local textbook committee shall adopt textbooks from the multiple list selected by the State Textbook Committee. Each local committee shall serve without compensation and shall cease to exist when local adoptions have been completed.

The superintendent of schools for each independent school district and the county superintendent of schools of each county shall submit to the State Board of Education a requisition for all adopted textbooks that will be needed

for the ensuing year.

All meetings of the State Textbook Committee and of every local textbook committee shall be open to the public, except any agent of a textbook publisher may be excluded.

§70-16-122 -- 16-124

Anyone who offers or causes to be offered any money, books, bribe or "any valuable thing whatsoever" to any member of a board of education or textbook committee, or any other person, "with the intent to influence his or her decision" with respect to selection of textbooks, "shall be guilty of a felony and punishable as such."

CONFLICT OF INTEREST

Any teacher, superintendent, or other school district employee who shall "in any way be interested in the profits, proceeds or sale" of any textbook used in the public schools "shall be guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine of" 50 to 100 dollars, and shall in addition thereto "forfeit his [or her] office or position."

If any school official "directly or indirectly solicits, receives, or agrees to receive" any bribe or reward "with the intent, and which will have the effect, to influence his or her decision . . . in the selection . . . of any textbook . . .," the following sanctions shall apply: Members of the State Board of Education and the State Textbook Committee shall be "guilty of a felony and punishable as such."

County or district superintendents, and members of local boards of education or local textbook committees "shall be guilty of a misdemeanor, and upon conviction thereof shall be punished" by a maximum fine of $500, or a maximum imprisonment of six months, or both.

Any person, firm or corporation that violates any provisions of this article or any rules and regulations of the State Board of Education or State Textbook Committee, (if the penalty is not otherwise

provided), "shall be guilty of a misdemeanor and upon conviction thereof shall be punished" by a fine of from 100 to 500 dollars, or by imprisonment from 90 days to one year, or both. Any public official or employee or Board or Committee member violating any provisions or rules shall in addition forfeit his or her position or office.

C. Issuance

Constitution

OKLAHOMA CONSTITUTION, ART. XIII, §6 (amended 1946)

"The Legislature shall provide for a system of textbooks for the common schools of the State, and the State through appropriate legislation shall furnish such textbooks free of cost for use by all pupils therein. The Legislature shall authorize the Governor to appoint a committee composed of active educators of the State, whose duty it shall be to prepare official multiple textbook lists from which textbooks for use in such schools shall be selected by committees composed of active educators in the local school districts in a manner to be designated by the Legislature."

Statutes

§70-16-111.1 -- 16-115; 16-118, 16-121

"Satisfactory proof" that a school district has issued to every child a complete set of "currently adopted basic textbooks" for his or her grade for his or her personal use, shall constitute compliance with the law.

Schools in which grades seven through nine are taught may either use textbooks adopted for use in junior high school grades or textbooks for use in elementary school grades.

The State Board of Education may provide a repair service for textbooks that become deteriorated, and shall

prescribe rules and regulations for distributing the repaired books.

The State Board of Education shall provide office space and equipment for, and fix the compensation and duties of, personnel necessary for "proper performance" of its duties and functions with respect to textbooks.

All textbooks destroyed by fire or other hazard shall be replaced by the State Board of Education.

The State Board of Education shall adopt rules and regulations for the issuance of textbooks to school children, and for the preservation of the textbooks.

The State Textbook Committee shall also have power to adopt necessary rules and regulations.

All textbooks shall be furnished free of cost to school children. Each district shall mark the books for identification to maintain proper records. The State Board of Education shall maintain a replacement program so that each child will have, "at all times, textbooks that are in satisfactory condition."

2. Audiovisual Education

Statutes

§70-12-101; 12-105; 12-108;

The State Board of Education is authorized to formulate, establish and maintain a program of audiovisual education for public schools, and shall adopt and enforce rules and regulations necessary to make such programs effective. It shall also appoint, employ, and fix the compensation and duties of necessary personnel.

§70-12-102 -- 12-104; 12-106 -- 12-107

The county superintendent of schools and the local board of education may purchase or rent films, projectors, and any and all equipment necessary for successful operation of the visual education program. Any county or school district may establish a local film library.

The State Board of Education is authorized to establish regional film libraries in cooperation with State Universities, for the purpose of storing and circulating films. It shall also establish a state depository for the storage of films for assignment to regional libraries.

§72-23-102 -- 103; 105; 106; 123-124

The Oklahoma Educational Television Authority is authorized and empowered to plan, construct, repair, maintain and operate educational television facilities for the purpose of providing a state-wide system of educational television for all Oklahoma citizens.

It shall be unlawful for any person, organization or company to advertise or attempt to sell its products or services, and for anyone to sponsor the election of anyone to public office through use of the facilities.

Any attempt to influence the program content or use the facilities of educational television for personal profit or benefit by any elected official

shall be a misdemeanor, punishable by a maximum fine of $1000 or maximum imprisonment of one year, or both.

The Oklahoma Educational Television Authority shall have the power to select an advisory committee of no more than 35 persons to assist the Authority in carrying out its duties. These persons shall serve without pay

The Oklahoma Educational Television Authority shall be an instrumentality of the state. Its activities shall be deemed an "essential function of the state," and shall be tax exempt.

The Authority shall consist of 13 members, 7 of whom shall be appointed by the Governor. They must have been residents of Oklahoma for at least 5 years, and a majority of them must be "actively engaged" in the educational profession. All members shall serve without pay.

The Oklahoma Educational Television Authority is authorized and empowered to: assume control of television channels assigned by the FCC; adopt bylaws for regulation of its affairs; contract, sue and be sued in its own name; construct, maintain and operate television facilities; acquire and dispose of real and personal property, and employ whatever personnel necessary.

It shall be unlawful for any member, officer or employee of the Authority to accept a fee or transact "business for profit." Violation of this section shall constitute a felony, punishable by a fine of $500 to $5,000 maximum, and/or imprisonment of up to five years.

This article, "being necessary for the advancement of education and the welfare of the state," shall be liberally construed and regarded as supplemental and additional to powers conferred by other laws.

§70-23-122

The Oklahoma Educational Television Authority shall submit to the Legislature by the end of each

year a full report showing projects under construction and in operation, planned projects, and the financial condition of the Authority.

REGULATIONS

High School Progress Criteria; p. 77

III. Library

The criteria suggest an appropriate distribution of printed materials in the high school library and establish lists to be used in selecting library resources.

Hig School Regulations; p. 66
IX. Library-Media

Req. a. "The library shall be . . . a resource center of instructional materials for the entire educational program."

Req. b. Requirements for teacher-libraries, librarians, audiovisual and media specialists may vary with the size of the school as follows:

Size of School	Position	Training/Education	Time Devoted
less than 100 pupils	teacher/ librarian	6 hours of library science valid certificate	1 period/day
	audiovisual specialist	6 hours audiovisual train. valid teaching certificate	1 hour/day
	media	6 hours library science 6 hours audiovisual valid teaching certificate	2 hrs/day
100-199 pupils	teacher/ librarian	15 hours library science valid teaching certificate	2 periods/day
	audiovisual specialist	10 hrs. A/V training valid teaching certificate	2 hrs/day
	media specialist	10 hrs. library science 6 hrs. A/V training valid teaching certificate	1/2 day
200-499 pupils	teacher/ librarian	15 hrs. library science valid teaching certificate	1/2 day
	audiovisual specialist	15 hrs. A/V training valid teaching certificate	1/2 day
	media specialist	15 hours library science 8 hours in A/V training valid teaching certificate	2/3 day

500-1499 pupils	librarian	library certificate	full-time
	audiovisual specialist	teaching certificate in field	full-time
	media specialist	teaching certificate in field	full-time
over 1500 pupils	2 librarians	library certificate	full-time
	audiovisual specialist	certificate in field	full-time
	media specialist	certificate in field	full-time

Req. c. A "Scale of annual minimum expenditure based on the number of students is established."

Middle School Regulations, p. 40
IV. Library - Media

Reg. a. The library should be a "resource center of instructional materials for the entire curriculum."

b. Senior high regulations apply when middle and senior high libraries are combined.

c. "In approved middle schools in non-high school districts, a separate library . . . from the elementary grades shall be maintained."

d. In schools with enrollment of less than 150, 151 to 300, and 301 to 599 students, the teacher-librarian shall devote, respectively, at least 1, 2, and 3 periods a day to the library and have earned, respectively, 3, 9 and 15 hours of credit in cataloging and library science.

"In schools with . . . over 600 students, the librarian shall devote full time and hold a library certificate.

e. The regulation sets out the required annual expenditure for books and other materials based on the number of students.

Junior High Regulations, p. 40
X. Library-Media

Req. a. "The library shall be . . . a resource center of instructional materials for the entire curriculum.

"Req. b. If the junior and senior high libraries are combined, the senior high regulations will apply.

"Req. c. In approved junior high schools in non-high school districts, a separate library . . . from the

elementary grades shall be maintained."

Req. d. In schools with enrollments of less than 150, between 151 and 300, and between 301 and 599 students, teacher-librarians shall devote at least 1, 2, and 3 periods respectively to the library per day and have at least 3, 9 and 15 hours respectively in cataloging and library science. "In schools with an enrollment of over 600 students, the librarian shall devote full time and hold a library certificate."

Req. e. The required annual expenditure for books is based on the number of students. "Materials collection shall include print and non-print materials adequate in quality and quantity for . . . the curriculum" and student needs.

Elementary School Regulations, P. 31

X. Library - Media

Req. a. If several elementary schools have a central library, it should be "supervised by a librarian with a library certificate or . . . 15 hours of library science and an elementary certificate." Aids should work under the librarian's supervision.

b. Elementary schools should "maintain a desirable library and reading program. The . . . library shall contain suitable reference books, sets of supplementary readers, functional readers and recreational reading materials.

4. Supplies and Equipment

Regulations

General Progress Criteria, p. 23
IV. Instructional Material and Equipment

Each classroom should have U.S. and state flags, a standard size blackboard, bulletin board space, modern desks and chairs that are movable; "at least two appropriate pictures;" and "extra chairs and sufficient instructional supplies. . . "Laboratory facilities . . .[and] materials . . . shall be adequate to meet the needs of instruction of all courses offered." The Learning Resources Center should be separate from the classrooms "and the book collections shall be . . . catalogued" and readily available.

"All resources should be carefully selected with preference given" to recommended items in the specified lists.

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§337.011

The textbook commission consists of seven persons "of recognized scholarship and professional standing" appointed by the state board of education.

The membership shall consist of: (a) three teachers -two from public elementary or secondary schools and one from a community college or university; (b) "three public school administrators or superviors;" and (c) "one public member."

§337.055

The state board of education shall review the selection list of the state textbook commission and may ratify or reject any selection. Items not meeting the guidelines and criteria established by the board shall be rejected. "The state board shall notify the commission within five days of the meeting [of the textbooks rejected]."

§337.100

"The superintendent of public instruction . . . issue[s] a circular giving the full title of each [item] selected by the textbook commission, when the [item] was ratified by the state board, with such other information as the state board may consider useful."

§337.110

If for any reason a textbook on the approved list needs to be replaced or another added, a special session of the commission shall be called.

§337.141

A school district having a population of 20,000 or more pupils, and, with approval, a school district having a population of fewer than 20,000 pupils "may adopt and use textbooks in place of or in addition to those adopted by the state board of education provided . . . the guidelines and criteria [are met]." This section does not prohibit district employees from serving on the textbook commission or otherwise participating in textbook selection.

REGULATIONS

§581-11-051

The State Textbook Commission shall select, and the State Board of Education shall adopt, the books to be used in Oregon public schools. "Adoption of supplementary books or other instructional materials is not made by the State Board of Education."

§581-11-070

A list of textbooks selected by the State Textbook Commission shall be presented to the State Board of Education for review and ratification or rejection of the books. Any person, upon written notification prior to a hearing, may challenge the adoption of a book. State board adoption of such material shall be known as interim adoption. The Superintendent of Public Instruction shall hold a hearing within 15 days of the date of receipt of challenge by the superintendent.

ADOPTION

HEARING

§581-11-075

Textbook proposals submitted by publishers must be on forms supplied by the Department of Education. A separate proposal form must be used for each subject on which a proposal is submitted.

§581-11-085

Local school districts with 20,000 or more average daily membership may adopt textbooks not adopted by the State Board of Education provided they meet the criteria for textbook adoption established by the State Board of Education.

Local school districts with fewer than 20,000 average daily membership may adopt books not adopted by the State Board of Education provided they meet the criteria established by the State Board of Education. To obtain such approval, a written application prior to use of the books in schools must be submitted to the State Board of Education. The application should include: identification of the books, evidence that the texts meet established guidelines, identify what needs proposed books meet that state adopted books do not achieve, evidence that the textbooks will meet the needs of the local school, and evidence of teacher participation in evaluation of appropriate textbooks. Applications for independent adoptions and resolutions of the boards of education should be sent to the Coordinator of Accreditation.

APPROVAL

§581-22-271

"Each local district shall establish procedures for selecting and purchasing instructional materials."

CROSS REFERENCES

I. Intermediate Education District; Statute §334.175

II.A.2.; Regulation §581-15-225

III.E. Curriculum; Statute §336.082; 336.086

IV.J.; Statute §339.250

B. CONTENT STANDARDS

STATUTES

§337.035

"The state board of education by rule shall establish guidelines and criteria for the review and selection of textbooks to be used in the public elementary and secondary schools in the state."

§337.040

REVIEW

The state textbook commission shall hold a public meeting "for the purpose of reviewing and selecting textbooks and other instructional materials" and any other meetings that are necessary.

§337.050

The state textbook commission reviews and selects a multiple choice list of textbooks and other instructional materials "for each grade and subject field in the standard curriculum for which, in its judgment, textbooks are required." No textbook shall be chosen for a subject field when the guidelines established by the state board of education for textbooks cannot be met.

§337.120

Textbooks and other instructional materials shall be selected from the multiple choice approved list by the district school board, with the assistance of teachers, administrators and citizens at the board's discretion.

"The board shall cause at least one half of the [selected items]. . . to be used in its schools at the beginning of the school year following the selection and the remainder thereof at the beginning of the second school year following the selection, except when authorized . . . to postpone such use for a reasonable period of time."

§337.260

There must be selected for use in public schools "textbooks on American history and government which adequately stress the services rendered by those who achieved our national independence, who established our form of constitutional government and who preserved our federal union. No textbook shall be used in the schools which speaks slightingly of the founders of the republic or of those who preserved the union or which belittles, or undervalues their work. Respect for all people, regardless of race, color, creed, national origin, age, sex, or handicap, and their contributions to our history and system of government shall be reflected in the textbooks adopted by the state board of education."

REGULATIONS

§581-11-055

Textbook criteria committees shall work under the supervision of the state textbook commission. Each committee shall be appointed to recommend categories and develop criteria for specific subject areas that are established from the standard school program.

§581-11-060; 581-11-065

Criteria to determine fair and accurate presentation in textbooks shall be developed by the criteria committee to provide assistance for judgmental determination by evaluation committees, the State Textbook Commission, and the State Board of Education. The criteria shall be used to fairly present: drug and narcotic usage; contributions of various ethnic groups; factual and impartial manner of both sexes; avoidance of stereotyping as to race, ethnic group, occupation, age, geographic location, and handicapped conditions, fair presentation of controversial issues of teaching strategies and methodology consistent with educational philosophies, value and goals.

The State Textbook Commission shall approve developed critieria and submit it to the State Board of Education for review and adoption or rejection.

§581-11-095

No books will be considered by the Commissioner unless presented sixty days prior to the adoption date.

All publishers are required to prepare briefs which include documentation and analysis on each textbook showing how it conforms to the guidelines and criteria adopted by the State Board of Education for the review and selection of textbooks. Such briefs must be submitted to Commission members, their advisors, the Secretary of the Commission, and appropriate evaluation committee members.

§581-11-100

Business education books should have substantial aids to instruction, when applicable, such as teacher's manuals, keys, standardized tests, course outlines, workbooks, progress records, and tapes.

§581-11-101

Drivers education has become a widely accepted objective of secondary education. Textbooks should assist in developing skills based on an understanding of the mechanics of a car, and the laws within which it operates for the protection of human life and safety.

§581-11-102

Modern foreign languages (German, Russian, Spanish and French) are referred to as the second language in the body of the criteria. The criteria to be used when evaluating such books include: a major emphasis on understanding and speaking; relationships between the writing system and the sound system; exercises designed for learning of grammatical structure; and materials reflecting the cultural aspects of the second language countries. Included in the student text: the basic vocabulary and grammatical structure, glossary or dictionary which contains both English to second language and second language to English listings; detailed maps; songs. Included in teacher materials should be: techniques to clarify and compare cultural differences in the following areas:

(1) sex roles; (ii) ethnic groups; (iii) career planning; (iv) nonverbal communication.

§581-11-103

Student instructional materials for health education should: (1) center around a positive mental health theme; (2) emphasize health rather than illness; (3) develop skills which are directed toward prevention of abusive behavior; and (4) emphasize the importance of individual responsibility for one's own health. The contents should have an equal female-male representation and cultural-racial representation.

The instructional materials and mathematical textbooks should demonstrate quality in the following seven general considerations: (1) affirmative action considerations-portraying both sexes, ethnic groups, and senior citizens; (2) content considerations — goal-oriented subject matter, student interest developed in numbers, utilizing the metric system as a primary system of measurement; (3) problem solving considerations - gathering, organizing, presenting data, and predicting and choosing solution strategies, computing and checking, problem solving; (4) developmental strategy considerations - develop concepts in more than one way; (5) individualized instruction considerations - provide challenging activities which will also permit all students to experience success; (6) format considerations - provide instructional materials of durable quality, format illustration, and a style of writing which is clear; (7) teacher material considerations - comprehensive and self-instructive teacher's guide which will explain the learning theory and educational philosophy underlying the student materials. In grades kindergarten through sixth, instructional materials should be rich in concrete experiences for students with abstract exercises based on and directly related to the concrete experience.

In grades 7-8, materials should review, unify and extend previously developed concepts.

On the secondary level, general mathematics, basic mathematics, advanced general mathematics, and consumer mathematics or applied mathematics will be offered. Instructional materials should stress mastery and real world applications of skills and concepts.

§581-11-105

In evaluating science instructional materials the following criteria shall be considered: content, com-

patibility with state minimum standards, and the purpose for the use of each activity, unit, chapter, and entire program. The science instructional materials should stress: safety, the metric system, sound environmental practices, recent scientific research, and new approaches to the study of science and technology. Vocabulary and concept levels should be suitable for the age group which will use the material. Where appropriate the use of tobacco, alcohol, narcotics, or restricted dangerous drugs should be presented in a factual manner, without glamorization or encouragement, by illustration or discussion references. The achievement and consideration of various ethnic groups at different socioeconomic levels should be treated fairly and equitably. There should be fair recognition of alternative views, with facts and data distinguished from theories and hypothesis; methodology and teaching strategies should be consistent with stated educational philosophies and the values of science. Students should be given the opportunity to engage in the major activities which are employed in scientific inquiry: observing, organizing, inferring, analyzing, synthesizing, generalizing, reviewing and summarizing.

§581-11-106

The general criteria for all homemaking, music and social studies should be in reasonable agreement with the educational principles expressed in the State Board of Education criteria and state curriculum guidelines. Subject matter is meaningful in terms of pupil needs, experiences, interests, and understandings. The sequence of material is consistent with the findings of recent research in child growth and development and accepted instructional techniques. Content is accurate both in fact and presentation and does not speak slightingly of minority points of view. The balance between illustrations and reading material is such that the pupil does not lose continuity in using the text. Illustrative material is

representative of all economic and cultural levels, is fair in treatment of both sexes, is multiethnic whenever possible, and is of such a nature that it does not date the book.

Textbooks will, when possible, involve the student in interdisciplinary experiences which draw widely upon the student's background, values and skills.

CROSS REFERENCE

III.C.School Districts; Regulation §581-21-046

C. ISSUANCE

STATUTES

§337.150

Prescribed textbooks are to be provided free to all resident public school pupils in grades one through eight and may be provided for use in grades nine through twelve or any combination thereof.

Where the school district does not provide free textbooks, parents or guardians shall be required to, but the board shall loan textbooks to indigent pupils.

CROSS REFERENCE

IV.G.; Statute §339.135

2. Audiovisual Education

Statutes

§354.420

"The purpose of [this chapter] is to encourage the development of and provide means for making educational television and radio programs of direct instruction and instructional enrichment for pupils and in-service education for teachers available to the public schools of the state, and to provide for the authorization and approval of such programs by the Department of Education."

Educational television and radio are authorized as a "means of instruction in the public schools of Oregon to the extent that may be approved by the Department of Education and accepted by local school district officials."

§354.430

"The Department of Education may utilize its appropriate personnel and facilities and any funds made available to it: (1) To stimulate interest by school districts in the appropriate use of educational television and radio in the public schools. (2) To plan and produce suitable educational television and radio programs of direct instruction, instructional enrichment for pupils and inservice programs for teachers in the public schools. (3) To cooperate with officials of state-operated educational television and radio stations in planning and producing suitable programs of direct teaching and instructional enrichment, and in planning and producing in-service programs for teachers for the public schools. (4) To assist local school districts in planning suitable programs of educational television and radio for the public schools, and to cooperate with officials of state operated educational television and radio stations in producing such programs . . . . (6) To contract for and pay for professional

services utilized in the development and production of programs for educational television and radio. To purchase, rent, lease or contract for use of filmed, taped or otherwise recorded educational television and radio programs from available sources and to sell programs or to exchange them for others of a similar nature...."

§354.440

"All educational television and radio programs provided by state-operated educational television and radio stations for direct teaching, instruction, establishment, and inservice education of teachers. . . shall be approved by the State Board of Education."

REGULATIONS

§581-22-268

"Each local district shall provide in each school a center offering organized media services and materials consistent with district program and course goals."

§581-71-010

The purpose of educational television and radio in relation to the elementary and secondary schools is the improvement of instruction and services to children. All agencies involved in such programming for the public schools, including the Department of Educational Media of the State System of Higher Education, the Oregon State Department of Education, and participating schools, shall consider their specific activities as part of a cooperative project for the accomplishment of these goals.

It is the primary responsibility of the Oregon State Department of Education to develop programs for in-school viewing and listening and teacher inservice both within the Department and with school districts and

involve the network in-school program personnel in such program planning.

Instructional programs for in-school viewing and listening and teacher in-service may be initiated by any appropriate group, but such programs must be approved by the Oregon State Department of Education before they can be scheduled on either network.

It is primarily the responsibility of the Oregon State Department of Education to supply public school educators with information about and schedules of in-school and teacher in-service programs; to develop and publish teacher's guides and handbooks; to initiate and submit ideas for programs; to work with school districts on facilities and the development and utilization of programs; and to conduct surveys of program utilization, evaluation and needs. The cooperative services of the informed officers of both agencies may be utilized to provide public information concerning approved in-school and teacher in-service programs.

B. Educational Materials

1. Textbooks

A. Selection and Purchase

Statutes

§8-803

All school textbooks, in 2nd, 3rd, and 4th class school districts, shall be adopted by the board of school directors between April 1 and August 1 and provided for use at the beginning of the following school term. The adoption or change shall only be made by the recommendation of the superintendent of by 2/3 vote of the board. Books, supplementary to textbooks regularly adopted, may be adopted and purchased for use in the schools at any time and shall be adopted in the same manner as textbooks.

§8-808

CONFLICT OF INTEREST

No person shall act as agent for school books or school supplies in any district in which he is employed or was employed during the preceding school year.

§8-810

BRIBERY

Any school director, officer, superintendent, supervising principal, or teacher, who shall seek or receive bribes in order to secure the recommendation, adoption, rejection or purchase of any school books, furniture, or other supplies shall be guilty of a misdemeanor carrying penalties of fines and/or imprisonment.

§9-973

The Secretary of Education, directly or through intermediate units, shall have the power and duty to purchase textbooks, instructional materials and equipment, and upon individual request, to loan them free subject to Secretary of Education rules, to all children residing in the Commonwealth who are enrolled in grades kindergarten through twelve of a nonpublic

school wherein the requirements of the compulsory attendance provisions may be met.

CROSS REFERENCE

II.C.1.; Statute §333

C. ISSUANCE

STATUTES

§8-804

The board of school directors may allow a pupil the use of school books during vacations, under such rules and regulations as it may adopt.

RULEMAKING

2. Audiovisual Education

Statutes

§5-523

The State Board of Education shall adopt and amend (when necessary) a State Plan for Educational Broadcasting which shall provide for the development of educational broadcasting facilities and define educational broadcasting service areas to be served by specified broadcasting centers. The Department of Education shall promulgate regulations to implement the State plan. The plan shall be submitted prior to adoption or amendment to the Pennsylvania Public Television Network Commission for comments.

RULEMAKING

§5-525

Whenever funds become available for establishing and operating pilot educational television projects; purchasing and producing tapes, films and recordings for educational broadcasting; or establishing network facilities to link facilities, the Department of Public Instruction may expend such funds for such purpose(s) in amounts it determines to be in accord with State Board of Education policies, this section does not authorize expenditure of state funds for such purposes unless specifically appropriated by the General Assembly.

Regulations

§ 9.21 - 9.24

The Secretary shall be responsible for the development of a Commonwealth plan for educational broadcasting and shall insure that there is full educational utilization of noncommercial broadcasting stations, commercial stations, and cable television systems, as well as the development of all available FCC educational allocations.

Closed-circuit television systems and other origination and distribution facilities may be developed at school districts and intermediate units with the approval of the Secretary. These facilities may be integrated with the existing State educational-public television network, with each other and with other stations to form a statewide educational service.

The Secretary shall assist in the application to the FCC for allocations consistent with the Commonwealth plans for their educational use.

A broadcasting service area shall be an area in which engineering "class A" signals are received and used from at least one broadcasting facility. Broadcasting service areas are listed.

§ 9.25 - 9.27

A Regional Educational Broadcasting Council shall be a nonprofit corporation established with the approval of the Secretary to establish and coordinate educational broadcasting program needs, improve the use of educational radio and television, evaluate the effectiveness of educational radio and television, and procure program services necessary for educational broadcasting.

Each broadcasting service area shall be administered by a Regional Educational Broadcasting Council in accordance with standards approved by the Secretary, Pennsylvania corporate laws, and, if applicable, FCC regulations.

Programs developed by the Council and financed in whole or in part by Departmental and Federal educational funds shall be subject to the Secretary's approval and be available to all Pennsylvania students.

§ 9.31

The Secretary shall develop standards and specifications for all media equipment to be purchased with Federal and Commonwealth funds.

3. School Libraries

Regulations

§5.31 -- 5.33

Each school district shall employ a full-time, certified elementary teacher or school librarian to provide leadership in the development of an elementary library program.

Each secondary school shall employ a full-time, certified school librarian.

Each school district shall have a library book collection of no less than 10 carefully selected titles per elementary and secondary pupil or a collection of 10,000 titles, whichever is smaller. Books borrowed from nonschool libraries shall not be counted in this total.

Every school district is to have a comprehensive library program including printed material and non-printed media that encompasses kindergarten or grades 1-12 and meets standards established by the Department of Education.

§ 9.1 - 9.9

If an intermediate unit provides an instructional materials service it will be established, approved, and operated as provided in Public School Code of 1949 regulations of the State Board of Education and the standards of the Secretary. Intermediate unit instructional materials service will include all component districts.

The intermediate unit may appoint such program specialists and other staff members as may be necessary for the supervision and operation of instructional materials service. Such program specialists shall meet qualifications established by the State Board of Education and the standards of the Secretary.

An intermediate unit may contract with the approval of the Secretary with another intermediate unit

to provide an approved program of instructional materials service.

All instructional materials and related equipment purchased by intermediate units become the property of the unit. If service is discontinued, all property shall be disposed of as provided in a plan submitted to the Secretary.

Revenues for support of the instructional materials service shall be obtained from a computed pro rata share when a majority of the component districts participate in this program. If less than a majority of the component districts participate in the instructional materials service, the revenues may be obtained from either a direct fee or other manner agreed to by the intermediate unit and participating districts. The budget of the service is to be included in the operational budget of the intermediate unit.

APPOINTMENT

If an intermediate unit appoints an instructional materials advisory committee, it shall do so in accordance with the Secretary's standards.

4. Supplies and Equipment

Statutes

§8-801

The board of school directors shall purchase all necessary furniture, equipment, textbooks, school supplies and other appliances for the use of the public schools and furnish the same free of cost subject to rules and regulations regarding use and safe-keeping as the board may adopt. RULEMAKING

§21-2113

The superintendent of supplies shall be the executive agent of the board of public education under such regulations as the board shall prescribe. He/she may appoint such assistants as the board of public education may authorize and approve. APPOINTMENT

2. Audiovisual Education

Statutes

§16-28-1

Educational television services shall be made available to all the citizens of Rhode Island in the interest of education, culture, health and living conditions.

§16-28-2

The board of regents, formerly the state board of education, is empowered

a. To accept and control the television channel or channels assigned by the FCC to Rhode Island.

b. To adopt rules and regulations necessary for that purpose.

c. To construct, repair and operate non-commercial educational facilities.

d. To produce, lease, rent and contract for telecasting purposes any cultural, educational or public information programs.

e. To make and enter into all contracts necessary for the performance and execution of its duties and powers under this chapter, and to employ consulting engineers, attorneys, accountants, financial and construction experts, superintendents and such other employees as may be necessary, who shall not be in the classified service of the state, and to fix their compensation.

f. To receive appropriations from the general assembly and to accept federal grants for or in aid of the construction and operation of any television facility or for any other purpose connected with educational television.

g. To comply with rules and regulations of the Federal Communications Commission or any federal agency administering any law to aid or encourage education.

h. To fix, revise, change or collect fees for the use of the television facilities.

i. To do all things necessary for implementing the powers expressly granted in this chapter.

§16-28-4

An advisory commission consisting of twenty members shall be created for educational television. The commission shall be broadly representative of the different educational, cultural, professional, religious and social interests of the state.

§16-28-5

It shall be the duty of the state board of education to consult with the advisory commission on matters relating to the operation of the educational television station, providing, however, that ultimate policy decisions shall rest with the board.

3. SCHOOL LIBRARIES

REGULATIONS

STANDARDS FOR APPROVAL AND ACCREDITATION
OF SECONDARY SCHOOLS IN RHODE ISLAND

APPENDIX A: School Library Standards for
Secondary Schools (SBE, 5/9/63)

"School library standards for secondary schools shall be as follows:

Size of School	Staff	Collection
Under 250	1 school librarian one-half time	2,000 volumes
250-499	1 full time librarian	2,000 volumes for first 250 pupils. 8 for each addition pupils.
500-999	1 full time librarian plus 1 full time clerical assistant	4,000 volumes for first 500 pupils. 4 for each additional pupil.
Over 1000	1 full time librarians. 1 full time clerical assistant	6,000 volumes for first 1,000 pupils. 3 for each additional pupil.

"The library should have a live, up-to-date, growing collection to meet the ever-changing needs and interests of the faculty and student body.

"Certain references are essential regardless of the size of the school. Up-to-date (published within the last 5 years) encyclopedias; dictionaries of words, of people, of places; atlases; almanacs; indexes; and books of statistics are required.

"The magazine collection should be sufficient to meet the needs for current news, opinions, and comments; special fields of interest; and recreation. (Should include 25 or more.)

"Daily newspaper coverage of local, state, national and international happenings should be supplied in sufficient quantity to provide for the needs of the enrollment.

"A collection of professional books and periodicals in line with curriculum needs and interests should be provided for teachers and administrators.

"A functional pamphlet and clipping file that is timely should be available to supplement all other mateirals.

"An annual expenditure of $300 is recommended for these materials.

"Local school policy should determine the responsibility for the audio-visual center. Audio-visual materials such as pictures, film-strips, and phonograph records should be chosen after school needs are determined. A sufficient number of all types of these materials to fit the curriculum should be provided.

"The Board of Education makes the following regulations for all new schools: [a]dequate space for a library shall be provided in all new schools. The reading room in the elementary school library shall be large enough to seat the largest class plus 20. Secondary school library reading rooms shall be large enough to accommodate at least 10% of the enrollment. All library reading rooms should provide at least 25 square feet of floor space per reader. . . .

"New schools shall be given three years to reach the requirements for book collections contained in the standards."

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§59-5-90

The duties of the state educational finance commission and school book commission are devolved upon the state board of education.

§59-31-510

The commission may negotiate and execute contracts with publishers to purchase or rent textbooks. The attorney general shall approve all these contracts. If books are sold to the state at a price higher than that sold to any other person, the lower price shall automatically become the contract price for the textbooks.

§59-31-590

No school official or teacher shall "become an active or silent agent of any schoolbook publisher or be otherwise pecuniarily interested in the introduction of any schoolbook into any school in this state." Any person violating this section shall be guilty of a misdemeanor.

REGULATIONS

§43-70

The State Board of Education shall have the responsibility and duty to adopt the textbooks used for instruction in the free public schools of South Carolina.

APPOINTMENT

The Board shall appoint, with recommendation of the State Superintendent of Education, a Textbook and Curriculum Advisory Committee consisting of 14 members, 8 who are actively involved in school work either administratively or supervisory, at least one from each congressional district; 1 lay citizen preferably a former member of the State Board of Education, 5 members from the staffs of the state educational agencies having responsibilities in the curri-

culum and textbook fields including the Director of the Office of General Education, the Director of the Office of Textbooks and a representative of ETV. Four of the appointed members shall be appointed for two year terms; five shall be appointed for four year terms. The Committee shall have the power to organize itself.

The duties of the Committee shall be to study continually the curriculum and textbook needs and make recommendations to the Board in subject fields in which textbook adoptions are needed to meet new programs of study; to replace textbooks on which contracts are expiring; to make recommendations in regard to exercising options in existing contracts; to make recommendations in regard to renegotiating expiring contracts. Careful attention shall be given to new and improved methods of presenting instructional materials. The Committee is authorized and directed to secure the assistance of any consultants deemed proper, especially consultants from the State Department of Education, colleges and universities of South Carolina.

The Committee shall meet annually at the call of the Chairman. Additional meetings may be held at the call of the Chairman, a majority of its members, or on request from the State Board of Education. The Board, however, reserves the right to limit the number of official meetings this committee may hold in one school year.

The Committee shall report to the Board not later than May of each year in regard to the necessity of textbook adoptions to be made during the following school year. The Committee may make curriculum reports when in its judgment such reports are deemed advisable.

The Board shall examine the recommendation of the Committee and determine the fields in which textbook adoptions will be made. The Board, through its Administrative Officer, shall make information relative to the adoptions available to publishers and school administrators by mail, not later than June 30 preceding the adoption date. The Board also shall make due arrangements for an official announcement at least 45 days before bids are to be opened.

The announcement shall be sent to all publishing companies registered with the Administrative Officer of the Board, and a notice shall be given by legal advertisement in at least one daily newspaper in the State of South Carolina in accordance with the general legal requirements.

The formal notice by the Administrative Officer of the Board shall make available sample copies of the bid forms to be used by the publishers in submitting textbooks for adoption and a copy of the contract and bond each publisher will be required to execute if its books are adopted.

The Board shall appoint, with recommendation of the State Superintendent of Education, as soon as practical, an Evaluating and Rating Committee for each major subject field or related subject area in which adoptions are to be made. The Board desires that a balance be maintained on each evaluating committee between large and small, rural and urban schools. There shall be at least two nominees, one principal and one alternate, for each position except that of the State Department of Education.

If the principal nominee does not accept, the State Superintendent of Education is authorized to appoint the alternate nominee and to make other substitutions when necessary. Each committee shall consist of between nine and twelve members. One member shall be a representative from the State Department of Education and one may be a college teacher or layman competent in the fields under consideration. All others shall be persons who are actively engaged in teaching, in the supervision of teaching or administration in the public schools, who have had teaching experience, special training or supervision in the subject field in which they have been appointed, not less than one-third of whom shall be full-time classroom teachers.

The recommendations by the State Superintendent of Education shall include the suggestion of a Chairman and the size of each committee.

It shall be the duty of each Evaluating and Rating Committee to rate all textbooks offered for adoption and

file a written report with the Administrative Officer of the State Board of Education. The report shall consist of the committee's evaluation, list of textbooks which the committees recommend as suitable for adoption, and an annotation which includes for each textbook, the common reading level of the materials, level of difficulty, and other information as required by the State Superintendent. A textbook must receive affirmative votes from at least 2/3 of the committee members to be placed on the recommended list.

If a committee does not find the specified number of books satisfactory, its report shall indicate if the number is considered inadequate, the reasons shall be carefully detailed in its report.

To facilitate efficient and competent evaluations by the committee, the Board shall furnish the committee with detailed instructions pertaining to its duties, textbook evaluating guide materials, etc. and the time schedule necessary in order the Board to complete its work in an orderly fashion. The State Department shall serve as co-ordinator and liaison between the Board and the committees.

Publishers shall be required to furnish a brief to each committee member for all textbooks being offered for adoption. Failure to comply with this regulation will automatically exclude textbooks for adoption. The brief shall include a common reading level of the text material, level of difficulty and other information so required by the State Superintendent of Education. The Committee shall hold hearings allowing adequate time for each publisher's oral presentation, provided that there are at least 21 days between final date for submitting briefs and the dates of hearings. HEARING

The Director of the Office of General Education and the Chairman of the Evaluating and Rating Committee shall develop a schedule of official hearings according to the Calendar of Events adopted by the State Board of Education.

Each publishing company or its representative is

responsible for distributing textbook samples and briefs to each member of the appropriate Textbook Evaluating and Rating Committee on or before the date set by the Board for each adoption year. This may be done by personal delivery or by mail to the address specified by the committee member. The textbook representative may have a maximum of 30 minutes of personal interview with the committee member.

CONSULTANTS

The committee is authorized and directed to secure the assistance and advice of any consultants deemed proper, especially consultants from the State Department of Education or colleges and universities of South Carolina. Necessary clerical services may be requested and secured from the State Deparmtent of Education.

Textbooks shall not be recommended by the Evaluating and Rating Committee and the State Board of Education shall not adopt textbooks that fail to meet the South Carolina Official Manufacturing Standards and Specifications. But the Board reserves the right to waive minor deviations and technicalities; the publisher shall be responsible for showing cause why the minor deviations or technicalities cannot be met.

If an Evaluating and Rating Committee cannot submit a report that is acceptable to the Board, the committee may be dissolved and a new committee appointed in the same manner as the original committee. Each Evaluating and Rating Committee shall be dissolved as soon as the Board completes the adoption in the subject field for which it was appointed.

The Office of Textbooks is to cooperate fully with the State Board of Education, the Textbook and Curriculum Advisory Committee and the Textbook Evaluating and Rating Committees in determining whether textbooks offered for adoption meet the South Carolina Manufacturing Standards and Specifications for Textbooks. The Office shall furnish a list of textbooks offered for adoption which in its judgment, fail to meet the Manufacturing Standards and Specifications and list in detail the deviations it finds prior to the rating by the evaluating committees.

Materials in certain critical areas which may not

meet the manufacturing standards and specifications for textbooks may be adopted when recommended by the appropriate Textbook Evaluating and Rating Committee and when the Committee's justification is deemed sufficient by the Board.

It is the Board's duty to adopt between 3 and 5 books and series of books in each subject field if so many books have been recommended by the Evaluating and Rating Committees. The Board is not required to adopt any books recommended by the committees that in the Board's judgment are unsatisfactory. The Board may adopt more than 5 books or series of books if the Evaluation and Rating Committee recommends to do so and the Board concurs.

The Board shall not approve and add a textbook or other instructional materials to the state list of adopted textbooks unless it has been reviewed and rated by a properly constituted rating committee.

Substitutions of new copyrights for textbooks under contracts will be allowed only with written permission as specified in this section.

Any school, desiring to teach an elective course that has been approved by the Board where, due to the volume, a formal adoption has not been made, may apply to the State Department of Education for approval of the book which the school proposes to use. The State Superintendent of Education, after consultation with his/her staff, may approve the text if it is found to be satisfactory. If not found to be satisfactory, the matter shall be taken up with the school involved, recommendations made and a suitable text shall be agreed upon between the school and the State Department of Education. All texts so approved shall be reported to the Board in writing within 90 days with a description of the circumstances which make the action advisable. The texts are subject to Board approval.

Any school may be given the right to select and use a new and improved textbook not already on the state adopted list upon the recommendation of the Director of the Office of General Education and with the approval of the State Board of Education. All textbooks approved under

this paragraph shall be reported to the State Board of Education. This paragraph shall not be used to circumvent state textbook adoptions.

All contracts shall provide that, if any person who furnishes adopted textbooks in the state shall sell the same textbooks or cause them to be sold or offer them for sale to any other person, state or State Board of Education for a price less than the state has contracted to pay for the textbooks, the lower prices shall become the price of the textbooks in the state and that the content of the textbook shall be considered and not the title in investigating such prices. The State Board of Education shall make the necessary investigations as to the prices of such textbooks so sold to others.

It shall be unlawful for any teacher of a school supported in whole or in part from the public school funds of this state, any trustee of any such school or any other school officer or employee to become an agent of any school book publisher or be in anywise pecuniarily interested in the introduction of any school book into any school in this state. A violation of this provision is a misdemeanor. Any teacher or administrative officer of the South Carolina public school is not prevented from authoring instructional materials or a textbook for use in the state's public schools by this provision.

B. Content Standards

Statutes

§59-31-30; 59-31-50

The state shall designate a uniform series of textbooks. Use of any texts which have been disapproved or condemned by the state board of education shall be unlawful.

REGULATIONS

§43-252

It is the policy of the Board that no workbook be allowed to take the place of a state adopted text. If considered indispensable, the workbook should be selected from the published list approved by the Board.

CROSS REFERENCE

II.A.10.Other - Experimental Programs;
Regulation §43-230

C. ISSUANCE

STATUTES

§59-31-210; 59-31-230

The state board shall rent textbooks to each pupil for a rental amount fixed by the state board. Library books and audiovisual equipment shall be provided to public schools on a rental basis or they may be purchased by the school districts.

§59-31-260-- 59-31-280

Any county or school district enrolling more than 5,000 pupils may set up its own textbook rental system or provide textbooks free for its pupils. A county may abandon its system and join the state system by submitting a written statement to the state board and selling its textbooks to the state.

§59-31-340

The state board of education shall hold each school district responsible for the "proper protection, use and care of all school books allotted to [the] district."

§59-31-360

The state board shall waive textbook rental for "as many of the grammar and high school grades as available funds permit." Effective 1966-67 school year, the state board will provide basal textbooks adopted and approved by the board free of charge to all pupils in grades one - four and by 1969 provide free textbooks to pupils in grades one through eight.

§43-72

"(1) The State Department of Education shall provide for use in the public schools only books that are regularly adopted by the State Board of Education and daily contracted for with the publishers.

(3) Books issued to schools and depositories shall be consigned to them by the State Department of Education for a period equivalent to the first four year period of the contract between the State Board of Education and the publishers, except limited changes that are justified by variations in student achievement. Any books exchanged must be on different levels of difficulty.

(10) Books shall be rented to pupils for the entire school year for one-third of the contract retail price except that all literature shall be rented for one-fourth of the contract price.

(11) Only new books that have not previously been rented may be sold to pupils. The sales shall be at contract retail prices. Used books may be sold only if unreasonably abused or damaged, as provided in §13 and §14.

(12) All record forms furnished by the State Department of Education shall show the contract retail price and yearly rental price of books listed.

(13) Parents or guardians shall be required to pay for books lost and the pupil and parents and/or guardians shall be denied further benefits of the South Carolina Rental Textbook Law until this requirement is fully complied with. The remaining balance between the cost of the book and the amount of rental previously paid, and a minimum charge of 25%, irrespective of the number of years the book has been used, will be collected for lost books issued to a pupil. If the length of service of books cannot be determined, an average price, based on actual value of books in the state, will be assessed. Books destroyed by fire in school buildings or private homes will be replaced free, provided officials of the

school shall furnish a certified list of books destroyed.

(14) Parents and/or guardians shall be required to pay a fine for books damaged or in any way abused beyond reasonable wear and tear. The amount to be charged shall be determined by the agent in charge of books and shall in no case exceed the amount of charge applicable had the books been lost, provided that the pupil may have the option of paying the fine or purchasing the book.

(15) No Board or agent shall be allowed to require a pupil to make a money deposit to secure the return of books.

(16) No book shall be issued to a pupil until the rental fee has been paid in full

(20) No requisition for additional books shall be approved for any Depository until the Depository has settled in full with the State Department of Education all prior year's indebtedness and submitted reports required by the Department at the close of school. Books being replaced by newly adopted books must be returned before any new books can be shipped.

(28) Books shall be subject at any time to inspection by authorized agents of the County Board of Education and/or District Board of Trustees, or the State Department of Education. It shall be the duty of each teacher to frequently inspect the books issued to her/his pupils and to emphasize the proper care of handling of books.

(29) All parties responsible for books shall make such reports to the State Department of Education as to the condition of books.

(30) All books shall be covered with book covers which may be ordered without charge from the State Department of Education.

(33) Pupils shall not mark books, paste labels in them or force the bindings.

(35) Books handled by children suffering from contagious diseases shall be burned by the local agent if such is recommended by the physician attending the child. The local agent shall provide the State Department of Education with a list of books and a statement in writing from the physician recommending destruction of the books. The Department shall give credit to the school's account.

(36) All parties responsible for books shall keep an accurate record of the number of books received and returned. Each school or Depository shall keep an accurate record of rental and other fees collected from pupils and the amount of such funds remitted to the proper authority.

(38) In each school, books may be distributed directly to the pupils from a central book room, or delivered from the book room to each teacher for re-issue to pupils in her/his room. All used books of each title shall be issued before any new books of the same title are issued. The State Department of Education shall provide forms for recording books issued by the agent to each teacher.

(39) A record shall be kept of all the books issued to each pupil during the year and shall be kept on forms provided by the State Department of Education.

(40) Books shall be turned in by the pupils at the close of school year, or when the pupil withdraws from school or when completed. Books turned in before the end of the school year shall be separated from books not used during the current school year.

(42) Boards or their agents shall promptly furnish the State Department of Education necessary reports.

(43) A pupil transferring from one school to another in the State Rental System shall return his/her books to the agent of the school he/she is leaving. The agent shall properly receipt the pupil for the return of his/her books and give him a "Pupil's Transfer Slip" on which is indicated the amount of rental paid by that pupil in his/her school. The transfer slip, when presented at the second school, shall entitle the pupil, without charge, to books with a rental value of the amount shown on the slip. If the

rental on books issued at the second school exceeds the credit value of the slip, the pupil shall pay the difference, but there shall be no refund if the entire credit value of the slip is not used at the second school. Transfer slips from any public school system in the state are acceptable. The agent of the 2nd school shall submit the transfer slip to the same authority to whom his/her rental collections are remitted for the credit of his/her account.

(44) A pupil moving out of the State, or to another school, within the state not connected with the State Rental System, shall receive from the State Department of Education a refund of one-half of the rental paid during the year if he/she leaves school before February 1. The agent of the school shall certify to the Department the amount of rental paid by the pupil and the date of his/her withdrawal from school.

(45) Schools ordering Library books through the State Department of Education shall use order blanks provided by the Department. The order shall be made in duplicate.

(46) Library books, that do not appear on the library lists prepared by the State Library Committee cannot be shipped by the State Department of Education."

§43-71

(1) The South Carolina State Board of Education designates the textbooks listed under §3 as "free basal textbooks" for grades 1-8.

(2) Requisitions for free textbooks shall be made only to the State Department of Education and only on official current requisition forms with the top section completed and signed by the agent and/or official designated by the district or county. Membership must be reported with each requisition. Requisitions shall be in accordance with policies outlined in the "Rules and Regulations for Free Textbooks." A requisition may be returned to the school for further action if it does not conform with the Rules and Regulations.

(3)(a) Any pupil who is a member of any grade

within the free textbook program may be assigned free textbooks on the appropriate level.

(b) A school may select any number of series in any subject provided the combined total number of books in all the series in any one subject does not exceed the total membership of the grades in which the subject is listed, with the exception of Reading, Grades 1-6. After combined total in each subject area has been reached, the school may not increase the number of free books except when acceptably justified by an increase in membership or when otherwise eligible under the Rules and Regulations to change series.

(c) Free Basal Textbook List:

Arithmetic, Grades 1-8. Texts for all grades but 1 and 2 are hardback books.

Art, Grades 1-6 - Paper Bound Books. A school may requisition one teacher's manual and one student's book for each Art teacher for each grade level they instruct only when the school has a bona fide planned course in Art.

Art, Grades 5-8 - Hardback books for bona-fide planned Art courses may be purchased.

Basal Reading Skills Program - Grades 1-6. The First Grade readiness readers and pre-primers are a part of the basal reading program. Readiness readers will be furnished free to students only when those books are essential to beginning their reading program. (Nonconsumable readiness readers and pre-primers must be returned to the bookroom when completed.) A school may obtain reading series not to exceed 120% of its total membership in Grades 1-6 After the total has been reached, the school may not increase the number of free books in any series in these grades except where acceptably justified by a membership increase or when it is otherwise eligible under the Rules and Regulations to change series.

Basal Reading Skills Program, Grades 7 and 8.

Consumer and Homemaking Education, Grade 8 books may be requisitioned on the basis of justifiable needs of the program and not on a book per pupil basis.

English Grammar, Grades 3-8

Health, Grades 1-8

Industrial Arts, Grades 7 and 8 books may be requisitioned to meet a planned course in the subject in a quantity not to exceed the equivalent of one book per student.

Music, Grades 1-8 books may be requisitioned only when there is a planned course in Music instruction.

Science, Grades 1-8.

Social Studies, Grades 1-8. A geography and history book or a fusion book (combination) may be used. If a fusion book is used, a History or Geography may not be obtained as a free book.

Spelling (Hardback), Grades 2-8.

Writing, Grades 1-8 books are paperbound, but should be considered as manuals not to be written in unless authorized and non-consumable and when completed must be returned to the bookroom for further use.

(d) Educable Mentally Handicapped (special Education). Primary classes in reading shall be eligible for necessary reading materials not to exceed two pre-readiness Readers and/or Readiness Programs and one beginning Reading program. Intermediate classes shall be eligible for two Reading Programs, one of which may be a Readiness Program. Junior and Senior High School classes shall be eligible for two Reading Programs.

When practical, the educable mentally handicapped classes may receive regular free text material but the total of all material shall not exceed the quantity of free textbook material offered to other students.

(4) A school may change to a new title or series in a subject area only when new material on the same level is adopted by the State Board of Education. Schools shall not return books presently on the state adopted list to be exchanged for other titles or series, except limited changes justified by variations in student achievements. Any books exchanged must be on different levels of difficulty.

Provided, that the Board shall have the authority to limit or postpone the acquisition of titles or series for such period of time as deemed advisable.

(5) Title to all books issued to schools and depositories under the Free Textbook Act shall be vested in the State.

(6) The District Board of Education shall be responsible for the proper custody of all books in its schools and depositories and shall be responsible for the administration of the "Rules and Regulations for Free Textbooks" in those schools and depositories.

(7) The County or District Board of Education shall elect the system of distribution. A county depository, district depository or school depository may be established through which all books will be distributed. The Board of Education may designate an agent to operate the depository, maintain adequate records and make necessary reports and remittances to the Office of Textbooks; however, such designation does not relieve the Board of its responsibilities.

(8) Each school or depository will be sent an invoice listing the books shipped to it. The school or depository agent shall verify the books received with the books listed on the invoice. If the titles and number of books received do not agree with the title and number of books on the invoice. . . a report must be made within 30 days to the Office of Textbooks showing the name of the school and county, the number and date of the invoice, and a complete itemized list of the differences between invoice and books received, both over and short.

(9) Each school and depository shall maintain a separate and complete file for textbook records, correspondence forms. Each shall maintain an accurate record of the number of books on hand, books received and books returned. They shall keep an accurate record of sales, lost books and damage fees; report same to the State Department of Education; remit all funds collected and pay promptly all amounts due. The Department will issue an official receipt covering each remittance.

Each school and depository shall furnish the Office of Textbooks with membership reports, anticipated membership reports, inventory reports and other reports as may be requested. Each school shall maintain a record of books issued to each pupil.

(10) Each school and depository shall provide for textbooks adequate places of storage which are safe and sanitary. Books should not be stored on floors and should be at least one inch from walls to allow proper ventilation and protection from termites.

(11) Books may be distributed directly to the pupils from a central bookroom or delivered from the bookroom to each teacher to be issued to the pupils. The State Department of Education shall provide forms for recording books issued by agent and teacher.

(12) All books and book records shall be subject at any time to inspection by authorized agents of the County and/or District Board of Education and the State Department of Education. It shall be the duty of each teacher to inspect frequently the books issued to pupils and to emphasize the proper care and handling of books.

(13) All free textbooks shall be covered with bookcovers which may be ordered without charge from the State Department of Education.

(14) Free textbooks issued to pupils shall be stamped "Property of South Carolina, Year_____, No._____," or have a gummed label placed on the inside of the front cover. New books shall not be stamped or labeled until issued to pupils. Restamping a book after the first stamp has been applied is not necessary, but the current year and serial number should be entered underneath the original stamp impression each year the book is issued.

(15) All used books of each title shall be issued before any new books of the same title are issued.

(16) Pupils' names may be written below the property stamp impression or on the property label. Pupils may appropriately mark lesson assignments; otherwise they shall not mark or write in textbooks.

(17) No board or agent shall require a pupil to pay a deposit on any free books.

(18) Books shall be turned in to the school by the pupil, parents or guardians when appropriately requested by teacher or school official, when the course is completed or discontinued by the school or pupil, when the pupil withdraws from school or at the end of the school year.

(19) A school from which a pupil transfers shall make an appropriate notation on the pupil's transcript records as to whether all his/her books were returned to the school and whether any damage or lost book fees are unpaid.

(20, 21) Schools may require pupils, parents or guardians to pay for textbooks they lose or damage through improper care or abuse, and they may be denied further benefits of the Free Textbook Program until they fully comply. Waiver of this requirement may occur where the principal and/or responsible officials believe that the child is a victim of unusual circumstances. The school district shall be responsible for the cost.

The report of lost textbooks paid for and sales should be itemized by titles on an appropriate form sent each school at the end of the school year. A schedule is provided in subsection 20 for determining amounts to be charged for lost textbooks and paperback books.

The amount to be charged for damaged textbooks shall be determined by the agent in charge of books, teacher or principal and shall in no case exceed the amount of charge had the book been lost, provided that the pupil, parent, guardian, shall have the option of paying the damage fee or purchasing the book.

Books on which only a damage fee is collected shall remain the property of the state and shall remain with the school for further use. Damaged books purchased under the option shall be reported in the "Lost and Sold Book Report" and the collection included in the amount remitted for lost and sold books. Free book damage fees collected should be reported in a lump sum on an appropriate

report form sent each school at the end of the school year.

A replacement paperback book may be issued a pupil only after the lost or badly damaged book has been paid for.

(22) Books destroyed or damaged beyond further use by fire in school buildings or private homes shall be charged to the individual or school if a school official furnishes the State Department of Education a certified list of the books destroyed and the place and date of the fire.

(23) Books issued to a pupil having a contagious disease shall be burned by the local agent if such destruction has been recommended by the physician attending the child. The local agent shall provide the State Department of Education with a certified list of the books destroyed.

(24) Schools or depositories shall not return used free textbooks except when requested or authorized to do so by the State Department of Education or as otherwise authorized in these Rules and Regulations. New textbooks may be returned at any time by instructions provided in subsection 24.

(25) Defective books should be so marked on the outside of the front cover with the defect identified on the inside of the front cover and returned as soon as possible to the Central Textbook Depository. The Office of Textbooks should be notified whether a replacement or an inventory credit is desired.

(26) Out-of-adoption textbooks, those for which the contracts with the publishers have expired, shall be returned, if new, to the Central Textbook Depository promptly after the expiration of the contract, along with any newly rebound books they do not plan to use. Schools may continue to use a title on which the contract has expired as long as the title is available from stock owned by the state. Such books should be used until all newly adopted texts have been carefully evaluated and the best titles are selected. Schools may continue to use the old title for some grade sections and new titles for other grade sections if they wish. Schools which change to new

titles will be requested to return a portion of the titles that are being discontinued. The remaining copies may be used or disposed of by the school. Maximum use should be made of these books such as additional text material. Out-of-adoption books will be removed from the inventory of books charged to the school before the second year after the expiration of the contract with the publisher. If the school is unable to dispose of the books locally, they may be returned to the Central Textbook Depository.

2. Audiovisual Education

Statutes

§59-1-360

The State Department of Education may lend film, recordings or other audiovisual material to nonpublic institutions of higher learning and to other charitable schools and educational institutions.

§59-7-10 --59-7-60

APPOINTMENT

The South Carolina Educational Television Commission shall be composed of seven members appointed by the governor. Four designated members of the state legislature and the state superintendent shall be ex officio members. The commission shall make a complete study of "the use of educational television and its adaptation for instructional purposes . . ." and shall make a report with recommendations to the governor. The commission may purchase or lease facilities required "to develop, promote and extend educational programs to meet the needs of the state." Textbooks and curricula used in educational television shall be in conformity with the general policies of the state department of education. An advisory committee of technical experts shall be appointed by the commission and assist it in its duties.

Regulations

§43-25

By joint agreement between the State Board of Education and the South Carolina Educational Television Commission, the State Department of Education shall be responsible for the development, acquisition, scheduling and utilization of instructional television and radio resources to be used in the public schools by students, teachers and adults. The South Carolina Educational Television Commission provides professional telecommunication support to achieve the approved program objectives of the Department including the production of television and

radio programs, transmission of such programs, expansion of the ETV Network, printing, public information and publications, field technical services and other services relating to the public school program in South Carolina. The Department is charged with the curriculum development, scheduling and utilization activities related to all Department television and radio resources produced through the South Carolina ETV Network facilities as well as the acquisition of resources for transmission to the public schools with advice from the State ITV and Radio Advisory Committee.

The Board shall review and approve annually the Department's recommendation for television and radio resources to be made available to the public schools via the ETV and Radio Network.

§43-400

The State Department of Education is authorized to provide audiovisual equipment for use in the public schools.

CROSS REFERENCE

I.State Board of Education; Statute §59-5-80

3. School Libraries

Regulations

§43-253

An elementary school with less than 375 pupils shall provide at least half-time services of a librarian and one with more than 375 pupils shall provide a full-time librarian. The library shall be open at least seven hours per day and provide a collection of at least 10 library volumes per pupil.

A middle school with less than 400 pupils shall provide a librarian for at least 3 hours daily and a school with more than 400 pupils shall provide a full time librarian. The library shall contain a collection of at least eight library volumes per pupil.

A high school library shall provide a collection of at least eight library volumes per student in Grades 7-8 and at least six volumes per student in Grades 9-12.

Schools with an enrollment of more than 400 pupils shall employ a certified librarian devoting full time to library services.

CROSS REFERENCE

II.B.1.c; Regulation §43-72

4. Supplies and Equipment

Regulations

§43-250

Each elementary and middle school shall budget at least $7 per pupil for instructional supplies and materials. Each high school shall receive an appropriation of at least $5 per student in Grades 7-8, and $3 per student in Grades 9-12.

IV.G; Statute §59-17-90

B. Educational Materials

1. Textbooks

A. Selection and Purchase

CROSS REFERENCE

I.Local School Board; Statute §13-8-39

B. Content Standards

STATUTES

§13-34-11

The state board of education has authority to "review any books or other instructional material" used in the public schools. The board may order the withdrawal of any materials it finds to be "undesirable in nature."

C. Issuance

STATUTES

§13-34-16.2

In order to promote "an educated and enlightened citizenry," the state of South Dakota declares its policy to loan textbooks without charge to all public school students ages five through nineteen.

§13-34-16.3

Each public school board shall loan textbooks without charge to students enrolled in a public school, in an accredited nonpublic school, or who are pursuing a course of study in the school district. The textbooks shall be approved by the school board.

2. Audiovisual Education

Statutes

§13-1-22.1

The state board of education shall establish standards for equipment used in radio receiving and transmitting systems by school districts.

§13-47-1 - 13-47-1.1

A "state board of directors for educational television" is created, consisting of the "commissioner of higher education," the state superintendent of schools and four Governor-appointed members. The board functions under the "division of cultural affairs" of the department of education.

APPOINTMENT

§13-47-2; 13-47-7; 13-47-15 - 13-47-17

The "state board of directors for educational television" shall "establish policy for and exercise control over the state educational television network." The board has the power to "promote and sponsor a non-commercial educational television network." The board has the power to "establish general policies relating to the nature and character of educational television broadcasts." The provisions "relating to educational television shall also apply to educational radio broadcasting." The board has the power to "make certain that facilities authorized by this chapter are not used for any purpose which is contrary to the Constitution of the United States or the state of South Dakota, or for broadcasting propaganda, or attempting to influence legislation."

§13-47-19

The state board for educational television may arrange with the state board of education for "telecasting instructional television programs" for school use.

§13-47-21

"The executive committee of the South Dakota Instructional Television Council shall act as an advisory board to the state board of education" and assist the board in "reviewing . . . and recommending" school programs. It is representative of schools using these programs and it advises the board in order that the programs "meet the needs of the local school systems."

REGULATIONS

§24:03:07:01

"All instructional materials shall be readily available to both teachers and students. Instructional materials shall be in keeping with study guides approved by the state board."

AUTHORITY: SDCL 13-1-12; 13-3-47

§24:03:07:02

"When a school system employs seven to seventeen teachers on a full time basis in grades kindergarten through twelve, the educational media specialist shall devote at least one-half of his time serving as a media specialist. When a school system employs eighteen or more teachers on a full time basis in grades kindergarten through twelve, the educational media specialist shall devote full time to this assignment."

AUTHORITY. SDCL 13-1-12; 13-3-47

§24:03:07:03

"Instructional media collections shall include up to date materials, both book and non-book, which meet the need of the individual learner. This material shall be centrally organized, properly maintained, readily available, and easily accessible to students and staff. The meeting of the basic quantitative

standards alone is no assurance of an adequate materials collection."

AUTHORITY: SDCL 13-1-12; 13-3-47

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§2001 — 2007

APPOINTMENT

The state textbook commission is composed of seven members, six of which are chosen by the governor. Members shall be highly qualified educators with no less than four years of college with a bachelor's degree and "at least five years of teaching, supervisory, or administrative experience."

The terms of the commission's members shall be three years.

"The state commissioner of education shall be ex officio secretary of the commission, with the right to vote . . ." The chairman of the commission shall be elected each year.

Each member shall take an oath before entering office. No member of the commission shall receive gifts, awards or rewards from a publisher; nor shall such member accept employment as a lawyer, agent, employee or representative of any publisher or distributor during his or her term of office.

CONFLICT OF INTEREST

Members shall be compensated for each daily attendance at meetings and shall receive reimbursements for all travel expenses.

§2008; 2009

The state textbook commission has the duty to prepare a list of approved textbooks. "A list of at least four books in each subject and grade shall be listed...."

The commission shall have the authority to determine the policies and conditions for removing textbooks from and adding textbooks to the list.

§2010

"The state textbook commission shall have authority to adopt minimum manufacturing standards and specifications for textbooks, and to make contracts with publishers" for a period of between three and five years.

§2021

Local boards of education are required to adopt textbooks to be used in the public schools from the list of textbooks adopted by the state textbook commission.

C. ISSUANCE

STATUTES

§1719

If a child cannot attend school because he/she cannot obtain books, the local board of education shall procure the books out of school funds and lend them to the student.

§2014

"The state textbook commission shall establish the retail price at which adopted books shall be [retailed]. . . ." Any retailer receiving more than the designated retail price shall be guilty of a misdemeanor.

§2020

No teacher or principal shall use textbooks not found on the approved list. This does not apply to textbooks that were previously listed and purchased.

STATUTES

§3801; 3802

An educational TV and radio network is to be established "to meet more adequately the educational needs of the pupils . . . and to meet the educational needs of out-of-school adults."

The state board of education is authorized to do whatever necessary to carry out the intent of the statutes concerning television and radio.

Each public school must be "within television and radio receiving distance of one or more educational television and radio stations . . . ."

§3803

The state board of education can appoint an advisory committee(s) to advise the board concerning the "location, establishment, construction, and operation of said state educational television and radio network" and any other necessary matters.

§3804

The state board of education is authorized to contract with public or private television and radio stations and any other body or agency "in order to carry out the provisions and purposes of this chapter."

§3805

The state board of education is authorized to have research done in the field of educational television and radio as it sees necessary "in order to carry out the provisions . . . of this chapter."

§3806

The state board is authorized"(1) to accept grants of funds from . . . any public or private body to be used for the purposes of this chapter, and (2) to accept, purchase, or lease . . . any educational television and radio facilities or other property. . . ."

A city, county or special school district can donate, sell or lease land, facilities and other property to the board "to be used for an educational television and radio network . . . ."

§3807

The state board of education is "authorized to expend and/or obligate . . . funds . . . which may be made available for the purposes of this chapter, to the end that a unified state educational television network may be located, established, constructed, and operated in the state . . . for the benefit of the pupils in the public schools . . . and for the benefit of out-of-state adults."

As concerns radio, the board may obligate or expend the funds.

REGULATIONS

pp.92 — 94

The primary functions of a school's library/media center "are to assist in the identification, evaluation, acquisition, production, organization, and coordination of the school's resources and to motivate, instruct, and assist students and teachers in their effective use."

There shall be a library/media specialist "with certificate endorsement as librarian" in every school whose functions shall vary according to the number of teachers in the school. When there are 15 teachers or less in a school, the principal or a designated faculty member shall serve as library/media coordinator.

"Schools with 54 or more full time teaching positions, excluding special education positions, shall have two full-time library/media specialists" with certificate endorsements as librarians.

There is a materials collection consisting of "items selected to meet instructional and developmental needs of students" and adapted to their needs and abilities. "Pamphlets, textbooks, unbound periodicals, out-of-date items, and items in poor physical condition shall neither be counted nor reported in the total collection."

"All schools shall follow a system-wide procedure for selection and acquisition . . .[and] develop a school library/media inventory system for all items and equipment" to be classified, shelved, and circulated through an adequate system.

B. EDUCATIONAL MATERIALS

I. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§ 2.08

If a trustee or teacher in any public school, or county or city superintendent shall act as agent or attorney for any textbook publishing company selling textbooks in Texas, such person shall forfeit his position with the public schools.

CONFLICT OF INTEREST

§ 4.13 to 4.14

Any school trustee or teacher who shall prevent or wilfully fail to use any textbook adopted for use in the schools or receive any commission or rebate on any such book shall be guilty of a misdemeanor.

§ 4.24

Any person convicted of wilfully violating any law providing for the purchase and distribution of free textbooks shall be fined.

§ 4.27

It shall be unlawful for any person, organization or corporation, either connected with the textbook business or interested in selling bonds, to make a financial contribution to or take part in, directly or indirectly, the campaign of any person seeking election to the State Board of Education.

CONFLICT OF INTEREST

§12.04

"a) The State Board . . . may acquire . . . with or without bids . . . free textbooks recommended as suitable by the State Textbook Committee in accordance with guidelines established by the Central Education Agency for the education of children enrolled in [public school] kindergarten classes . . . .

b). . .[T]extbooks means books and any apparatus . . . which convey information to the . . .[student]. . .

or otherwise contribute to the learning process. The . . . Agency shall establish guidelines clearly delimiting the types of materials most effectively used in helping kindergarten children learn . . . .

e) Textbooks . . . may be obtained and distributed by the . . . Agency pursuant to rules and regulations adopted by the . . . Board . . . as it may act on recommendations of the . . . Committee and the Commissioner. . . .

g) Each school district may elect to receive an allotment of $400 at the time each new kindergarten classroom is established by the district in lieu of textbooks procured under the provision of this section." Such funds shall be used "only for the purpose of purchasing teaching materials for the kindergarten class which meet the [established] standards and guidelines. . . ."

§12.11

a) Annually, the Commissioner shall recommend to the State Board "the names of 15 persons no two of whom shall live in the same Congressional district, for appointment to the textbook committee for a one-year term. . . .

APPOINTMENT

b) Each of the persons so named shall be an experienced and active educator engaged in teaching in the public schools of Texas. At least a majority of the members . . . shall be classroom teachers, and all members shall be appointed because of unusual backgrounds of training and recognized ability as teachers in the subject fields for which adoptions are to be made during the year of appointment."

CONFLICT OF INTEREST

c) No person with any interest whatsoever in a textbook publishing house shall be eligible for appointment to the Committee.

"d) The State Board . . . shall approve or reject the nominations . . . .

e) It shall be the duty of the . . . committee to recommend to the commissioner . . . a complete list of textbooks which it approves for adoption at the various grade levels and in the various school subjects.

The committee shall examine carefully all books submitted for adoption and shall prepare and publish . . . a list of its recommendations to the state commissioner.

f) The . . . committee shall hold its meetings where and when the . . . Board . . . shall determine, its members shall receive no salary but shall be reimbursed for expenses . . . ."

§12.12

"a) The commissioner . . . may remove books from the list recommended by the . . . Textbook Committee, but he[she] shall not place on the list any book not recommended by the committee, nor . . . reduce to a single adoption any list for a specific grade or subject in which multiple adoption is recommended by the committee.

b) The commissioner . . . shall [thereafter] submit to the State Board . . . the list recommended by the . . . Committee."

§12.15

"The State Board . . . shall adopt a multiple list of books for use in the high schools . . .[which]. . . shall include not fewer than three nor more than five textbooks on the following subjects: algebra, plane geometry, solid geometry, general science, biology, physics, chemistry, and one-year world history, American history, homemaking, physical geography, driver education and safety, vocal music, English composition, literature (. . . American. . . and English), shop courses, physiology, agriculture, civil government, commercial arithmetic, bookkeeping, typewriting, shorthand, journalism, and the Latin, Spanish, German, Czech, and French languages."

"Free textbooks may also be adopted and provided for any additional courses or subjects approved by the Central Education Agency and accredited by the state accrediting committee."

§12.17

"a) When textbooks are to be selected and adopted . . . or where a contract for a textbook then in use is

about to expire . . . the chairman of the State Board shall give "at least two months public notice --

1) in the public press . . .;and"

2) in writing "to all persons, firms or corporations in whose behalf the notices shall have been requested.

b) The notices . . . shall contain:

1) time and place of the meeting . . . at which the adoptions may be made;

2) the subject on which textbooks may be adopted;

3) the last date on which sample copies of books offered for textbook adoption may be submitted;

4) the amount of cash deposit required;

5) the time to be allowed for signing contract and filing bond after the award is made; and

6) a statement that formal proposals will be received on the date of the meeting."

§12.18

"Every person, firm, or corporation desiring to submit a bid on a book for adoption shall," at least thirty days prior to the Board's adoption meeting, file with the commisisoner "five copies of each book offered for consideration . . . . Publisher's price information . . . shall be printed, stamped, or pasted in each . . . book filed . . . .

The bid shall state the prices . . . and the terms and conditions upon which the book will be furnished."

The bids shall quote two prices; one with a trade-in allowance for used textbooks, and one without such allowance.

"Information which shall also be printed, stamped, or pasted in each . . . book . . . shall be:

1) a statement of the price at which the book . . .[is]. . . sold in other places . . . and the minimum quantities in which it will be sold at such prices;

2) a statement of the publisher's catalogue price of the book . . . together with trade discounts and the conditions under which . . . such discounts are allowed. . . .;

3) a statement of the minimum wholesale price at which the book . . .[is]. . . sold f.o.b. the shipping point of the publisher . . . ."

§12.20;21

"Each person, firm, or corporation submitting a bid on any book[s]. . . for adoption shall file with the commissioner . . . on the day that the . . . Board. . . meets . . . an affidavit . . . setting forth all of the facts with reference to the eligibility of the bidder to make a proposal.

Each affidavit filed must contain the following:

1) the names of all persons employed to act for the bidder . . . in any way whatsoever in securing the contract . . . together with the[ir] addresses. . . and the capacity in which each served;

2) the names of any persons who may have at any time during the preceding year received. . . any. . . thing of value from the bidder. . . for services rendered in this state. . . in securing or attempting to secure contracts for the sale of books of the publisher. . . .

3) a statement that no member of the State Board . . . or of the . . . Textbook Committee is in any way interested. . . in the individual, firm, or corporation bidding[.]"

If, after filing the affidavit, the publisher shall employ "an attorney or other representative to assist in securing the award of a contract . . . he[she] shall disclose such employment. . . by filing a supplementary affidavit before any contract in which he[she] is interested shall be awarded.

A publisher who . . . does not comply with the provisions of this section shall not be eligible to bid."

Any statements in the affidavit, subsequently found to be untrue, shall subject any contract awarded to forfeiture, "unless it is shown that such misstatement or non-disclosure of fact was unintentional. . . ."

§12.22

"No book[s]. . . shall be purchased from any person, firm, or corporation who is . . . connected with any trust," and an affidavit to that effect shall be required.

§12.23

At the meeting of the state board at which the bids are received "no person. . . shall appear. . . in behalf of any book submitted to the board for adoption or seek to influence the member thereof."

§12.25

"The maximum price which the State Board . . . shall contract to pay . . . shall not exceed the minimum price at which the publisher sells the book in wholesale quantities" and any contract made at a higher price shall be void.

§12.28

Any contract awarded shall provide that the State Board, may, during the life of the contract "order the changes, amendments and additions to the book" in order to "keep them up-to-date and abreast of the times."

However, if the "changes or revisions make it impractical for the revised books to be used in the same class with the old books, the publishers shall be required to give the same exchange terms as were given when the books were first adopted. . ."

§12.29

No contract for the purchase of textbooks shall exceed six years in length. Nor shall any contract provide that a certain book shall be used to the exclusion of all others.

All contracts shall be only for "such books as the state may need"; not for a fixed number or quantity of books.

Any books purchased by the state may be re-sold "to any person, or to private and/or parochial schools, or state institutions . . . at the same rate and discount as those granted to the state. . ."

Cancellation of the contract by reason of fraud, collusion, or material breach shall cause a forfeiture of the publisher's bond.

§12.30

Upon entering a contract for the furnishing of textbooks, the state board shall publicize such fact, and the state superintendent shall mail a circular to all county superintendents and school board presidents, "which shall contain a list of all the books" adopted.

§12.31

A publisher awarded a contract shall be required to keep at a designated central depository in the state a sufficient number of books to meet the state's immediate demands.

§12.32

All books furnished under an adoption contract shall be of the same "standard of quality and mechanical excellence" as the samples furnished by the publisher during the bidding.

"Complaints regarding textbook service or quality shall be made . . . to . . . the commissioner. . . ." If the complaint does not receive "prompt attention," it "shall be taken to the county judge, who shall report the fact to the attorney general." The attorney general shall have the authority to sue the publisher to enforce the terms of the contract.

§12.33

Any adoption contract "may be cancelled by the state. . . for fraud, or collusion, or material breach. . . in the part of either party to the contract or any member of the State Board . . . or any person, firm, or corporation, or their agents . . . ."

§12.34

At least once a year the State Board shall meet to consider "the advisability of continuing or discontinuing . . . any or all of the state-adopted textbooks . . . ."

Contractual adoptions and/or expiration shall be arranged so that no more than one-sixth of the total number of adoption contracts shall expire in any given year.

Changes in the adopted series shall be made only when the Board satisfies itself that "a change is necessary for the best interest of the school children and . . . is consistent with financial economy."

In arriving at such a determination the commissioner of education acting for the Board shall canvas local superintendents "as to whether or not they believe the existing text should be readopted . . . ."

§12.61

Each spring, teachers, principals and local superintendents shall compile a report containing the maximum attendance, for each of the grade levels in the district. Such compilations, where reported to the Commissioner of Education, shall be used to determine the number of books needed for the following year. An additional ten percent shall be added to this figure to take into account error, population shifts, etc.

The county superintendent, subject to the approval of the county board of education and the Commissioner shall have the duty to requisition and distribute textbooks.

All requisitions for supplementary textbooks may be made wherever convenient, provided, however, that they should be made at least "one month in advance of the time the books will be needed."

§13.13

"The State Board . . . may remove books from the list submitted by the commissioner . . . but . . . shall not place on the list any book not recommended by the commissioner . . . nor . . . reduce to a single adoption any list for a specific grade or subject . . . in which multiple adoption is recommended. . . ."

§2102.4.6;2102.5-.7

"Each education service center shall maintain a continuing inventory of all property. The inventory shall be available for review at all times by member schools or the Texas Education Agency." All services of the center "shall be evaluated in accordance with procedures specified by the Commissioner . . ., the approved state plan, and as required by law."

The regional board of directors of the centers "shall adopt and revise policies for the administration and operation of its center" to be filed with the agency. Each center shall also establish policy and procedures to meet its responsibility in the state textbook adoption process.

§3311.1

"Instructional resources shall be provided as a part of the public education program of Texas. Every pupil shall have available to him[her] through local and state sources a broad range of printed and non-printed instructional resources consistent with his[her] learning style and his[her] capacity to learn."

"Statewide instructional resource programs . . . shall provide leadership and guidance . . . in the establishment, operation, and development of comprehensive programs of printed and non-printed instructional resources and services."

"The Commissioner of Education shall establish procedures and formulas for the implementation of statewide instructional resource programs. The operational guidelines shall be made available to the public schools of Texas."

§3331

This series (3331) concerns the state textbook program in general, with specifics concerning manufacturing standards and specifications of textbooks in which the Commissioner of Education "refers manufacturing standards and specification changes to the State Board of Education for approval."

§3334

"In January of every year the Commissioner of Education undertakes to secure a statement from school district officials of the number of usable books on hand in subjects wherein contracts will expire on August 31 of the year follwoing the then current year. He[she] also seeks the opinion of school district officials as to whether the contracts for books in these subjects should be renewed or new books adopted. He[she] considers this information, the recommendations of the State Textbook Committee, the recommendations of the Texas Education Agency Instructional Division staff, the fiscal aspects, gradual introduction plans, the availability of books offered for re-adoption and the new books available as well as any other information available to him[her]. After considering these factors the Commissioner of Education recommends to the State Board of Education those contracts which he[she] feels should be renewed." . . . .

"The Commissioner of Education prepares and submits to the State Board of Education a proclamation. Accompanying and considered a part of the proclamation are special provisions and description of content of textbooks applicable to the new books to be considered for adoption. . . .

The Schedule of State Textbook Adoption Procedures is printed in the official agenda of each May meeting of the State Board of Education.

"The procedures whereby citizens may protest books offered for adoption includes the following:

(1) Any citizen, referred to herein as "petitioner", desiring to enter a protest (bill of particulars) against books which are offered for use in Texas public schools declares by the specified date, in writing, his intentions to do so to the Commissioner of Education.

(2) Upon receipt of a protest (bill of particulars), the Commissioner of Education notifies the State Textbook Committee and the publisher(s) involved.

(3) On or before the specified date, the petitioner files three typewritten and signed copies, on one side of 8 1/2 x 11 inch white paper with margins at least two inches on the left and one inch on the right, top, and bottom of each page, of his[her] protest with the Commissioner. This bill of particulars sets forth clearly and specifically by direct references to page and paragraph designations the books, chapters, statements, illustrations, or selections which he[she] is protesting, together with a concise statement as to his[her] reasons for so protesting. The bills of particulars must not compare, rate, or endorse textbooks. If a hearing before the Commissioner of Education and the State Textbook Committee is desired, a request for such a hearing should be included. Upon receipt of the above copies of the protest, the Commissioner of Education causes the protest to be reproduced and sends copies to each member of the State Textbook Committee and to the publisher(s) involved.

(4) All information furnished in support of his protests by a petitioner shall be included in the bill of particulars.

(5) A separate bill of particulars shall be filed for each publisher and all protested books of that publisher shall be covered therein.

(6) The publisher(s) may answer the protests by filing three typewritten signed copies, on one side of 8 1/2 x 11 inch white paper with margins at least two

inches on the left and one inch on the right, top, and bottom of each page, of his[her] statement with the Commissioner of Education on or before the specified date. The publishers' answers must be addressed to specific charges of the petitioner. If a hearing before the Commissioner of Education and State Textbook Committee is desired, a request for such a hearing should be included.

(7) All information furnished by the publisher in response to protests shall be included in his[her] answer to the petitioner's bill of particulars.

(8) Hearings on textbook protest are held in accordance with the provisions of:

(1) Policy 3334.6.3, Hearings by the Commissioner of Education and the State Textbook Committee on Textbook Protest; and

(2) Policy 3334.6.5, Hearings by the State Board of Education on Textbook Protests and Complaints.

The procedures governing hearings and appeals on textbook protests and complaints are included in the official agenda of each May meeting of the State Board of Education."

§3334.7

"The Commissioner of Education, upon finding a book subject to removal from the committee's recommended list, confers with the publisher to determine if adjustment or changes can be made to avoid its removal.

In the event that a book from the list of five books in each adoption category recommended by the committee is removed by action of the Commissioner or the State Board of Education, the book ranked next in order of preference by the committee on the alternate list shall be placed on the recommended list of five books in that adoption category.

The Commissioner prepares a list of changes which the publisher is asked to make in a book. This list is transmitted to the State Board of Education, the publisher

making the changes, the regional education service centers, and other persons, such as Braillists, needing immediate access to such information."

§3335

"The Commissioner of Education . . . recommends 15 people for appointment to the (State Textbook Committee) . . . . Should the State Board of Education refuse to appoint any of them, the Commissioner . . . recommends eligible alternates."

APPOINTMENT

"The Commissioner . . . determines that each proposed committee member meets the qualifications as required by statute."

§3335.4-3336.2

"The duties of the [textbook] committee shall be to:

1) examine carefully all books submitted for adoption, using advisors in each subject field called for in the adoption;

2) select and certify advisors who meet qualifications;

3) comply fully with the procedures governing appeals . . .;

4) prepare and publish a list of textbooks recommended . . . for adoption . . .;

5) advise the Commissioner . . . of any alternate books and any changes . . . which they recommend be made. . . .;

6) consider the subjects in which contracts will expire August 31 of the second year following the then current year and transmit among its recommendations . . . those subjects in which new books should be provided; and

7) determine and report to the Commissioner . . . the suitability and usability of the Braille and Large Type versions of all recommended textbooks."

"At each November meeting, the State Board of Education shall

1) authorize the purchase of sample textbooks for use by local textbook committees; and

2) approve the rules governing the selection

and use of the newly adopted textbooks by a school district."

§3336

"The Commissioner of Education proposes the following rules as to the manner of selecting textbooks from the multiple lists by local school officials.

(1) For purposes of multiple list selections, the county board of school trustees and the county superintendent have jurisdiction in each system of county schools or other schools subject to supervision by county boards of school trustees. The jurisdiction for each independent school district rests with the board of trustees and the superintendent of schools of that district.

(2) On or before December 15 of each year, each board of trustees and each county board appoints a local textbook committee composed of not fewer than five and not more than 15 members. The official minutes of each board at which the appointment of a textbook committee is made must include a record of the names of persons appointed to serve on the textbook committee.

(3) Appointments to the textbook committee are made by the board of trustees upon the recommendation of the superintendent of schools and by the county board upon the recommendation of the county superintendent. Should any board reject any recommendation, the superintendent is requested to present to the board another recommendation in lieu of the one rejected. APPOINTMENT

(4) The entire personnel of each textbook committee must be professional employees of the independent school district or of the county system of school districts. The majority of each committee must be classroom teachers. The superintendent or county superintendent is a member and serves as chairman of the committee.

(5) It is the duty of the local textbook committee to examine all books on the multiple lists adopted by the

State Board of Education, to select the textbooks from these lists for use in its school system, and to recommend its selections to the board of trustees or county board for ratification.

(6) Each local textbook committee makes its selections at a meeting of the committee held not later than March 1. In the event selections recommended by the committee are not ratified by the local board, the committee makes other selections at a meeting held as soon as possible following the meeting of the board at which time any of the previous selections were not ratified. The quorum of the committee for any meeting at which selections are made must consist of at least a majority of the members of the committee.

(7) If the board of trustees or the county board, by majority vote, fails to ratify any of the selections made by its textbook committee, the reasons therefor must be placed in its official minutes, and the board then directs the textbook committee to recommend other selection or selections from the multiple lists and to report its selection to the board for ratification. This procedure continues until the board ratifies all selections of the local textbook committee. Final selection must be recorded in the minutes of the board.

(8) After ratification by the board of trustees or county board, two copies of the textbook committee's report carrying the signatures of members of the committee who participated in the selection, the board president, and the board secretary, are sent by the superintendent or the county superintendent to the Textbook Division not later than March 31. Forms on which such reports are to be made are provided by the Textbook Division. Only those books recommended by the textbook committee and ratified by the board of trustees or the county board are furnished by the state for use in any school.

(9) The period between December 1 and March 1 is the only period for visitation of publishers' representatives

(including executives, sales representatives, and educational consultants) with textbook committee members or other school district personnel on multiple list selections. The full cooperation of publishers' representatives and local school officials is requested so that an orderly procedure may prevail in multiple list selections.

(10) The selections as certified to the Textbook Division are final and, therefore, are not subject to reconsideration during the contract period or periods covering the books selected.

(11) Where two or more titles are selected from a multiple list, requisitions may be made for a combined total of the selected titles not to exceed the quota applicable to a single title. After books which have been duly selected have been requisitioned and delivered to the school district, these books shall be continued in use during the contract period or periods. It is not permissible to return copies of one title in order to secure copies of another title on the same multiple list.

(12) High school textbooks may be distributed to eighth grade pupils enrolled in accelerated classes. The distribution of high school textbooks to eighth-grade and high school students shall be based on subject enrollment, subject to statutory quotas.

(13) Where selections have not been made from the multiple lists of prior adoptions, the current local textbook committees may select such texts if the subjects are to be taught in their systems during the ensuing school term. Such selections are to be reported with other multiple list selections on the regular form where spaces are provided for indicating them. New selections are not permitted from multiple lists of texts which are readopted. School district officials must continue to use the texts previously selected.

(14) The procedures by which out-of-adoption textbooks are provided to city and county jails, institutions within the Department of Corrections, and other state agency institutions are as follows:

(14-1) The Textbook Division will obtain written permission from the publishers involved in diverting books which have previously been returned to them to libraries maintained by city and county jails, institutions within the Department of Corrections, and other state agency institutions.

(14-2) Jail and institution officials will be notified that:

(1) books in certain subjects are available to them upon request; and

(2) they must pick up the books in their containers; and

(3) they must give the school a receipt in duplicate. (One copy of the receipt will be retained by the school; the other sent to the Textbook Division.)

(14-3) School officials will be notifed to release expiring adoption textbooks that jails and other institutions in their community might request.

(14-4) The receipts signed by institution officials and sent to the Textbook Division by school officials will be tabulated and the quantity of books will be removed from publishers' exchange billings."

§3337.1--3339.5

"Bids must be submitted to the State Board of Education at prices with an allowance for exchange of books presently in use and prices without an allowance for exchange.

One official sample copy and five additional copies of each textbook offered for adoption must be filed . . . . All samples must have price information . . . inside the front cover.

A publisher submitting a bid . . . on a book . . . must deposit $2,500 . . . with the State Treasurer as earnest money to produce a valid contract provided his/her book . . . (is) adopted.

A determination of the suitability and usability of the Braille and large type versions of all textbooks

recommended . . . shall be considered as part of the committee's recommendations.

Textbooks recommended as suitable and usable for the education of blind and visually handicapped pupils may be acquired . . . without cost to eligible pupils enrolled in grades one through 12 of the public schools.

Agreements may be entered into which provide for . . . books and instructional aids for legally blind pupils . . . ."

Money for the purchase of Braille and large type textbooks must be used only for textbooks found in the General Catalogue of Braille and Large Type Publications or published by the Instructional Materials Reference Center, or supplements thereof.

"Gifts of textbooks and instructional materials for the education of the blind . . . may be accepted by the State Board of Education and shall become state property . . . .

All laws . . . which apply to textbooks provided to sighted pupils . . . shall apply to the distribution and control of Braille and large type textbooks and other instructional materials.

Kindergarten textbooks for the regular state textbook program may be acquired . . . with or without bids, subject to a special proclamation issued by the State Board of Education . . . .

Textbooks of the regular state textbook program for kindergarten children . . . shall be paid out of the State Textbook Fund.

All requirements governing the distribution and control of regular textbooks . . . shall apply to the distribution and control of kindergarten textbooks."

Included in this policy is the fund allotment in lieu of textbooks for new classroom units.

§3340.2

"Textbooks recommended as suitable for use in bilingual education programs shall be adopted in accordance with regular textbook adoption policies and administrative procedures . . . ."

B. CONTENT STANDARDS

STATUTES

§12.14

"a) The State Board . . . shall select and adopt a multiple list of textbooks for use in the elementary grades . . .

b) The . . . list shall consist of not less than three nor more than five textbooks in the following subjects: spelling, reading (basal and supolementary), English language and grammar, geography, arithmetic, physiology-hygiene, civil government, driver education and safety, vocal music, elementary science, history of the United States (in which the Confederacy shall be fairly represented), history of Texas, agriculture, a system of writing books, and a system of drawing books.

c) The board may also select and adopt textbooks for any additional subjects approved by the . . . Department of Education . . . including but not limited to . . . foreign languages . . . .

d) The board may . . . adotp as textbooks a geography of Texas and a civil government of Texas.

e) No book adopted shall contain anything of a partisan or sectarian character."

§12.16

a) If "three suitable textbooks are not offered for adoption on any one subject, the board may select fewer than three textbooks.

b) Specific rules as to the manner of selection for all books in the multiple lists . . . shall be made

by the State Board . . .

c) . . . [N]o public school in the state shall use any textbook unless it has previously been approved and adopted by the State Board. The board shall prescribe unless under which such textbooks adopted and approved shall be introduced or used by or in the public schools . . . .

d) Textbooks on physiology and hygiene shall contain at least one chapter on the effect of alcohol and narcotics."

§12.24

After careful examination of the textbooks submitted the state board shall select and adopt those books which in their opinion "are most acceptable for use in the schools . . . .

No textbook shall be adopted until it has been read carefully and examined by . . . the State Textbook Committee."

If the board finds the bids submitted to be unsatisfactory, they "may postpone the selection" and re-advertise for new bids.

If no texts are submitted that meet the requirements of the schools, the superintendent shall "investigate the book market for the purpose of securing bids. . . ."

REGULATIONS

§3331; 3332; 3333; 3334

"Textbooks adopted by the State Board of Education for use in the public schools fo Texas shall be furnished without cost to the pupils.

All adopted textbooks must meet the following content requirements and limitations:

1) Textbooks shall contain no material of a partisan or sectarian character.

2) Textbooks in physiology and hygiene must contain at least one chapter on the effects of alcohol and narcotics."

3) Textbook content shall:

a) promote the school's legal responsibility to teach citizenship and understanding of the free enterprise system;

b) emphasize patriotism and respect for recognized authority;

c) promote respect for human rights;

d) be objective in content;

e) impartial in interpretations;

f) not include selections of works which contribute to civil disorder, social strife, or disregard of the law;

g) treat violence in the context of cause and consequence;

h) not include blatantly offensive language or illustrations nor present material which would cause embarrassing situations or interference in the learning atmosphere of the classroom;

i) identify evolution as only one of several explanations of the origin of humankind;

j) present varying life styles, treat divergent groups fairly and reflect the positive contribution of all individuals and groups to the American way of life, with an avoidance of bias.

"The public schools of Texas must either furnish free textbooks adopted by the State Board of Education . . . (but) may procure and use unadopted books and other materials when

1) there is no adopted textbook on a subject;

2) field testing on a classroom basis is being conducted by the district in cooperationwith a publisher or an educational institution or assiciation;

3) the adopted textbooks are not appropriate to be used by pupils with special needs; or

4) the method of instruction requires additional materials supplementary to the adopted textbook or does not involve the use of a textbook.

"Textbook contracts shall be arranged so that not

more than one-sixty of the total number of different basal subject contracts expire in any one year.

All textbooks purchased under contracts with the state of Texas shall be required to be manufactured at least equal to the Manufacturing Standards and Specifications for Textbooks as approved by the State Board of Education.

The Commissioner of Education shall determine which textbooks are to be rebound.

School districts may be permitted to retain out-of-adoption textbooks in amounts of at least 25 percent or as may justifiably be needed so long as they are used by the school for reference, teaching aids, or library use.

Consumable textbooks may be considered for adoption only in those subjects taught in the first and second grades.

In December of each year, the Commissioner . . . shall bill the textbook publishers for exchange allowances and other charges properly allocable to the publishers.

Textbooks shall be supplied to pupils in special education classes with regard to level of the pupil's ability . . . .

School districts shall not be reimbursed from state funds for expenses incurred in local handling of textbooks.

Those worn textbooks on the current adoption lists no longer in useable condition for instructional purposes remain the property of the state. They shall be destroyed . . ." with resultant material being sold to the highest bidder.

"In July of each year the Textbook Fund shall be set aside from the available School Fund and approved, in an amount needed for the purchase and distribution of textbooks and for other necessary expenses. An additional amount not in excess of 25 percent of the amount arrived at above also shall be set aside to meet emergencies or unusual and unforseen expenses and school

conditions.

Multiple lists consisting of not less than five textbooks in a subject shall be adopted by the state board of education. Fewer than three textbooks may be adopted where fewer suitable books are offered for adoption. The subject in which textbooks shall be provided . . ." include spelling, arithmetic, civil government, etc., elementary schools, and algebra, calculus, shorthand, etc. in high school. All in all a total of 24 subjects at the elementary level, 49 at the high school level.

"The State Board of Education shall review the textbook contracts which (are to) expire . . . and determine which contracts are to be renewed for terms not to exceed six years and which contracts are not to be renewed.

The determination to renew contracts shall be made after the State Board of Education has satisfied itself that renewal would be to the best interest of the State . . ." as well as after considering such factors as budgetary control, gradual introduction plans and other factors.

"The fact that a publisher . . . refuses to rebid his/her textbooks as is provided in policies . . . shall be just cause to refuse to award future contracts to that publisher.

At a meeting specified by the State Board of Education the Board shall issue a proclamation for new textbooks in those subjects in which contracts are not renewed . . .(it) shall serve as public notice to all textbook publishers and to the public that bids to furnish textbooks to the state are being invited. The proclamation shall contain "such things as times and places for adoptions, subjects concerned and amounts of deposit.

The responsibilities of the state Textbook Committee shall be in accordance with law and policies.

Also at a meeting there will be adopted "a schecule of textbook adoption procedures for the ensuing years;" and

will include specific dates and responsibilities.

"All textbook publishers who filed a statement of intent to offer textbooks for adoption shall deposit with each of the 20 regional education service centers one copy of each textbook being offered, or . . . a prospectus giving a full description of each system being offered and its components . . . . The books deposited . . . shall be in the same format supplied to the State Textbook Committee . . . ." Procedures for handling the textbooks is left to the Commissioner of Education.

"One copy of each instructional system offered for adoption shall be placed on display . . . for a period of time as determined by the Commissioner . . . ."

"Any citizen of Texas may protest . . . a book or books offered for textbook adoption . . . .

All information about misconduct or procedural irregularities shall be filed with the Commissioner . . . .

The Commissioner . . . shall notify the state Board . . . of all textbooks considered . . . which were not on deposit in the regional education service centers . . . . the Board may . . . remove from adoption consideration of any book . . . not properly on deposit . . . ."

The process for hearings before the Commissioner of Education and the State Textbook Committee in Textbook Protests may be found in Policy 3334.6.3, and includes the purpose of such hearings, the method of presentation, the date of presentation, and a list of five provisions for the hearing of oral presentations by petitioners and publishers.

"Responsibility of the textbook committee for considering protests of petitioners shall be limited to protests against books and their content . . . . not . . . complaints about textbook adoption procedures or about conduct or persons engaged in the adoption process." No one shall "refer information or complaints about misconduct or procedural irregularities to the committee. To do so would mean disqualification by the State Board . . . from further

participation in the adoption."

"(T)he State Textbook Committee . . . shall consider petitioners' protests and publishers' answers in accordance with . . . provisions . . . (that) limit its consideration . . . (allow for whatever discussion," and provide for "no formal action on the protests and answers," but give "full consideration to the protests and answers before . . . votes on textbooks to be recommended" are made.

It will be the duty of the State Board of Education to conduct hearings on textbook protests and complaints preceding a November meeting date in order to hear complaints and protests. Each complainint and person complained against shall have a set presentation time.

A second session of the meeting is "designated . . . for hearing protests of textbooks. To be eligible to appear, the petitioner shall have filed . . . an appeal from the decision of the Commissioner . . . to the State Board . . . and shall have appeared as a petitioner in the joint hearing before the Commissioner . . . and the State Textbook Committee."

"Both the petitioner and the publisher shall restrict their presentation to

1) information previously filed . . . ;

2) the record of the joint hearings . . . ."

A third session of the meeting shall be designated for the textbook report of the Commissioner "and a discussion thereof by members of the Board."
Decisions are reserved for the November meeting.

"At a meeting specified . . . the Board shall approve procedures governing hearings and appeals on textbook protests and complaints." These procedures are to be in accordance with policies, printed; mailed to school districts; and made available to interested citizens.

In considering protested books the Commissioner shall give full consideration to all facts previously presented, and shall provide the State Board with "the list of books he/she has received from the State Textbook

Committee together with a report of those books which he/she has deleted. He/she shall not alter the list from accepted policy. A book may be removed if its prices are "much higher than average in the subject" or "quality is below specifications.

"At each November meeting the State Board . . . may remove from the list any book which was recommended by the Commissioner . . . which in its judgment should not be adopted and adopt the remaining list of textbooks as recommended . . . ." The Board shall not place on the list any book not recommended by the Commissioner . . . nor shall the Board reduce to a single adoption any list for a specific grade or subject in which multiple adoption is recommended by the Commissioner . . . ." If the bids submitted are not satisfactory, the Board may postpone the selection of the books . . . to such time as the Board may select . . . new bids . . . ."

C. ISSUANCE

STATUTES

§12.01

"a) Textbooks adopted by the . . . Board . . . for use in the public schools . . . shall be furnished . . . as set out in this chapter, without cost to the pupils attending such schools."

§12.35

"The purchase and distribution of free textbooks for the state shall be under the management of the commissioner . . . subject to the approval of the . . . Board . . . ."

Each teacher shall be given a desk copy of the textbook for the course which he/she teaches.

"Any person, school not controlled by the state, state institution or dealer . . . may order books from the state depository . . . and the books so ordered shall be

furnished at the same rate and discount as are granted to the state. . . ."

§12.62

"No public school. . . shall use any textbook unless it has been previously adopted and approved by the State Board . . ." Where multiple lists have been adopted "one or more of the several textbooks . . . may be selected by local school officials, but all of the schools in any one district, or all districts under the supervision of any one county school system . . . must select the same book[s]. . . for all of the schools within the system. . . .

Once textbooks are selected . . . they shall be continued in use in that school system for the entire period of the adoption or for a minimum period of not less than five years . . . .

Supplementary readers for pre-primer, primer, first, second, and third grades shall be distributed on a quota of not more than 300 percent of the enrollment for each of the grades to which the book is assigned. . . and for grades four through eight, at a quota of not more than 200 percent of the enrollment. Agriculture and home-making textbooks for grades nine through twelve must be supplied per quota of 220 percent of the enrollment. "All other books . . . shall be supplied on the basis of one book for each pupil enrolled . . . ."

§12.63

The commissioner of education, subject to the approval of the State Board shall make "specific rules as to the requisition, distribution, care, use, and disposal of books . . . .

Textbooks shall be subject to inspection by any agent or inspector authorized by those having charge of the local textbook service or . . . by the commissioner. . . .

The commissioner. . . with the approval of the . . . Board. . . may provide for the disposition" of worn out or discarded textbooks. With books in fair condition, which are no longer used, inspectors of the Department of Education

"may require continuance of their use."

The local school trustees "shall have the power to make such arrangements for the distribution of books to the pupils as they may deem most effective and economical."

The commissioner, pursuant to the rules and regulations of the Board, "shall make available on request copies of discontinued textbooks for use in . . . city and county jails, institutions within the Department of Corrections, and other state agency institutions."

§12.65

"The district school trustees may delegate . . . to their employees power to requisition and distribute books and to manage books . . . ."

All books to be distributed shall be labeled as being the property of the state, and shall be numbered and a record shall be kept of each number and the name of the student recipient. Books must be covered by the pupil under the direction of the teacher. Books must be returned to the teacher at the close of the session or when the pupil withdraws from schoool.

Each pupil, or his[her] parent or guardian, shall be responsible . . . for all books not returned by the pupil, and any pupil failing to return all books shall forfeit his/her right to free textbooks until the books . . . not returned are paid for . . . ."

Reports as to the use, care, and condition of free textbooks may be required of teachers and other school officers by the local trustees or the Department of Education. Failure to make such reports can result in the withholding of the staff member's monthly salary.

"No . . . employee of the school engaged in the distribution of textbooks . . . shall, in connection with this distribution, sell or distribute, or in any way handle any kind of school furniture or supplies . . .

Local boards . . . shall make provision for the fumigation of books before the[ir] reissue. . . ."

§12.66

Local boards of School Trustees "may sell books to pupils or parents . . . at the state contract price. All money accruing from [such] sales . . . shall be forwarded to the commissioner . . . ."

REGULATIONS

§2304.12

"The school district refuses to issue free textbooks to any pupil who has not returned or paid for all free textbooks previously issued to him[her]."

§2306.5

"Requisitions for textbooks are handled by the superintendent in independent school districts, by the county superintendent for common school districts, and by the principal in common school districts having 300 or more scholastics, if this is the wish of the district."

". . .[B]ooks are provided to the district from the state on the basis of the reported maximum attendance plus applicable quota. Orders for these books are delivered to the designated school book depositories on or before June 1."

"Both annual and emergency requisitions must be approved by the . . . Agency before shipment by textbook depositories."

"Requisitions for supplementary books may be made during the school term one month in advance of need."

"The school trustees of each district are legal custodians of the textbooks consigned to the district and are responsible for the requisition, distribution, use, and accounting for such books."

This series also includes the bonding of board members for the handling of these textbooks.

"A district may delegate authority to its employees to handle and manage textbooks in accordance with statutes and the following regulations:

(1) "all textbooks are to be labeled and

3. School Libraries

Statutes

§21.351--.355

If a school district has boundaries embracing the entire area of a county that is valued in excess of $30 million it "may enter into contracts with the county ... to provide joint library facilities."

"The commissioners court of the county shall appoint a board of library trustees consisting of five members who are residents of the county... [and] shall organize by appointing a chairman, a secretary, and a treasurer." It will be their duty to present to the trustees of the school district and the commissioners court a petition "setting forth the need for additional library facilities" to be maintained upon or adjacent to school grounds to be used as a county free library and as a school library. They will decide on the petition and if approved a contract will be enacted for that purpose.

If the contract is put into effect the commisioners court must deliver to the board of library trustees the county-owned free library or libraries.

The library, upon completion, will be managed by the board of library trustees, and may be used by educational and civic organizations subject to trustee rules.

4. SUPPLIES AND EQUIPMENT

REGULATIONS

§4601

"Priorities shall be given to the purchase of needed goods and services available from other agencies of the State of Texas to assure the best support for the activities of the Texas Education Agency.

Interagency contracts shall be prepared on all occasions to provide for revenue from, or receipts to, State of Texas agencies that are not agencies of public education as named in appropriate Texas law.

When authority to grant, allocate, or otherwise fund educational undertakings is not available, interagency contracts may be used. (Federal Funds for the Texas Education Agency, Policy 4302)

Approval authority for interagency contracts shall be vested with the Commissioner of Education.

Interagency contracts shall be prepared and approved prior to the commencement of the activities.

Notice required by the contract shall be to or by the Commissioner of Education.

Procedures for budgetary control, expending, auditing, and reporting within adopted budgets shall be established.

All payments of operating funds to other State of Texas agencies shall be by proper interagency contract. Grants, allocations, or other funding arrangements may not be made to other Texas governmental agencies with operating funds.

All contracts providing for revenue from other State of Texas agencies shall be executed and approved by the State Board of Control before expenditures of anticipated monies shall be authorized. Contracts shall be subject to all appropriate policies of the State Board of Education.

Activities conducted by, or at the direction of, the Governor of Texas are exempted from the Interagency Cooperation Act as are goods and services in amounts of

numbered, and records of issues of books to pupils are to be kept . . . ."

(2) "books issued to pupils are to be covered under the direction of the teacher, and books must be returned to the teacher at the end of the term or when the pupil withdraws from school.

(3) a district may require reports concerning textbooks from school personnel and must make textbook reports to the Texas Education Agency as required.

(4) a district is to make provision for the removal of covers and for fumigation of textbooks before they are reissued."

"A district may sell textbooks to pupils or parents at the State contract price."

"The school district is to hold each pupil, or his[her] parent or guardian, responsible to the teacher for textbooks not returned or paid for. No further free textbooks are to be issued to a pupil who has not returned or paid for all books previously issued to him[her]."

IV.J.; Regulation §2304.1

2. Audiovisual Education

Statutes

§11.32

"The State Board . . . shall provide . . . for the establishment and operation of Regional Education Media Centers to furnish participating school districts with education media materials, equipment and maintenance, and educational services."

Approved centers "are established for the purpose of developing . . .[and] . . . providing . . . the following:

1) lending library service for educational motion picture films . . . slides . . . filmstrips, and disc recordings;

3) comprehensive lending library collection of programmed instruction materials for both remedial and enrichment purposes;

4) educational magnetic tape duplicating service for both audio and visual tapes . . .;

5) overhead and other projection transparency duplicating service . . .;

6) professional . . . services to assist . . . in effective and efficient utilization of all center materials and services."

Regional centers shall be strategically placed so that a number of school districts have access to their materials. The area served generally will contain at least 50,000 students.

A Regional Media Board shall, under standardized rules and regulations of the State Board, govern the centers. Rules relating to membership on the media board are set forth in the statute.

"The Central Education Agency . . . shall review for purposes of continuity and standardization the services of the centers."

§3321

"Annually, the Division of Finance notifies each school district of the provisions for financial support for instructional television services."

§3321.2

"Eligibility and Participation

Each district desiring to receive support for instructional television services must submit an application for State funds, and a copy of their proposed contract with a television station to the Texas Education Agency on or before October 1 of each year."

§3321.3

"Educational Programming Committee

Each television station is required to have an educational programming committee composed of a minimum of one representative from each participating school district and a representative from the television station. A television station owned and controlled by a single district is required to have an educational programming committee with a membership of not less than five.

The programming committee is responsible for the following instructional television activities:

(1) designating instructional content to be offered each semester;

(2) providing for the preparation of teacher guides;

(3) organizing work conferences to guide teachers in classroom utilization of television instruction;

(4) communicating with school districts and the teachers who are instructing by means of television; and

(5) evaluating the program.

On or before the following specified dates, the programming committee for each station submits to the Division of Instructional Media:

"(1) an evaluation report of the previous year's programming and utilization by September 1;

(2) the instructional television schedule for the

current school year, submitted by October 15; and

(3) a list of new, retained, and deleted teaching guides by October 15.

Public school districts wishing to participate in media services annually submit applications for State Financial Assistance for Regional Media Services to the regional service center. This application indicates approval of the local board of school trustees to particpate in media services and specifies the rate of payment and number of scholastics upon which total payment is based. (Regional Education Service Centers Funding, Policy 4115 Services Program of Education Service Centers, Policy 2103). Basic media services provided are:

(1) a materials lending library containing 16 and 8 mm motion picture or improvements thereof with provision for processing and servicing, 35 mm slides or improvements thereof, filmstrips, remedial and enrichment programed instructional materials, and disc recording;

(2) visual duplication service to reproduce transparencies, slides, filmstrips, and charts or improvements thereof;

(3) a magnetic tape duplicating service for audio and video tape;

(4) a delivery and dissemination system for materials and services;

(5) professional leadership training services to the districts for coordination of media and curriculum; and

(6) acquisition and utilization of materials that will be coordinated with the curriculum of local school districts.

Optional media services may include but are not limited to:

(1) equipment repair service with local school districts paying for such service;

(2) evaluation of services of new equipment, materials and techniques;

(3) graphics staff to produce transparency masters and charts; and

(4) other services.

The superintendent of the school district desiring to discontinue participation must notify the executive director of the service center to make the necessary arrangements for withdrawal."

§3321.1--3322.3

"The instructional television program shall be provided as a public education program in accordance with law. Eligibility to participate . . . shall be extended to any . . . high school district . . . ."

An educational programming committee shall be established for each television station participating in instructional television.

A media service program shall be provided through education service centers . . . . funded from the Foundation School Program.

To receive media services from the regional education service center serving its particular geographic region, a Texas public school district shall make application to the center and pay its proportionate share for the cost of the media services . . . .

Any school district that is participating . . . may elect to discontinue its participation . . . for a succeeding scholastic year with the provision that title to all educational materials and property purchased by the center shall remain with and in the center."

§4114

"Any school district may contract for approved instructional television services and be reimbursed from the Foundation School Program Fund for one-half of the cost of such services not to exceed $0.75 per pupil in average daily attendance in the district during the preceding year."

CONTRACT

CROSS REFERENCE

II.B.1.a.; Regulation §3311.1

IIB2-TX 5
TEXAS

less than $25.00.

Contracts for needed goods, services, and professional assistance from individuals and private or public firms may be obtained by the Texas Education Agency for the benefit of public education within the State of Texas through the use of administrative funds, in accordance with federal and state program regulations.

Authority to execute contracts with private individuals or firms shall be vested in the Commissioner of Education under general authority granted him[her] by the State Board of Education. This authority covers the execution of contracts which implement projects and services approved by the State Board of Education and where funds for the projects and services have been included in the Texas Education Agency budgets as approved by the State Board of Education.

The Commissioner of Education shall submit to the State Board of Education certain contracts for execution or approval where (1) required by statutes or regulations; (2) required by terms of the contract; or (3) deemed by the Commissioner of Education to be in the best interests of the Texas Education Agency.

Contracts for the performance of professional services by individuals may provide for payment of an honorarium or a fee. In addition, payments for travel expenses may be paid at "actual" expense as calculated and applicable to Texas Education Agency staff members.

Contracts prepared shall contain a clear statement of tasks to be performed by the contractor and will identify the Agency as the Texas Education Agency, an Agency of the State of Texas. Sources of payment shall be described as warrants issued by the State of Texas and shall limit jurisdiction to the State of Texas. Private contract relationships are to be limited to a transaction between the contractor and the Texas Education Agency acting by authority of the State Board of Education.

Where like quality goods or services are available from several sources, bids from the several sources shall

be taken and the best bid awarded the contract.

Notice required by contracts shall be to or by the Commissioner of Education.

Firms, including eleemosynary institutions, shall furnish budgets and accounting records as requested by the Texas Education Agency. All contracts shall contain the assurance clauses that may be required by appropriate regulation including the Civil Rights Act of 1964, executive orders, copyrights and patents, non-collusion clauses, and others necessary to particular fund sources.

Contracts authorized by this series shall not be used to purchase goods or services or to lease facilities that are subject to State of Texas purchasing regulations through the State Board of Control.

All contracts shall be executed and approved before expenditures of anticipated monies shall be authorized and shall be subject to required budgetary approval by the State Board of Education.

Contracts may provide only for reimbursement of services performed or goods delivered; advance payment or funding shall be prohibited."

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

CONSTITUTION

UTAH CONSTITUTION, ARTICLE X, §9

The Legislature and the State Board of Education shall not have the authority to "prescribe textbooks" for the "common schools".

STATUTES

§53-13-1 - 53-13-2

The "state textbook commission" shall be made up of the state superintendent, local superintendents and lay persons, and shall have authority to "decide what textbooks shall be adopted for use in the district schools and the high schools of the state."

§53-13-10

The use of textbooks adopted by the commission is mandatory and failure on the part of any local board to "enforce the use of" such textbooks is a misdemeanor and punishable by "removal from office."

§53-14-1 - 53-14-2

A "state course of study committee," consisting of the state superintendent, the deans of the "state schools of education," "three school superintendents" and "five lay citizens," shall meet annually to "recommend textbooks" and "determine . . . changes . . . in the state course of study" for the public schools. It shall be the committee's responsibility to formulate a "statement of aims, purposes, objectives and philosophy of education as a guide for the public schools." The "executive responsibility for carrying out the work of the committee" shall rest with the state board of education.

POLICY GUIDES

UTAH STATE COURSE OF STUDY COMMITTEE AND TEXTBOOK COMMISSION

Utah State Board of Education, 26 pages 1976.

This publication describes the state textbook commission which has responsibility for deciding what textbooks shall be adopted and the state course of study committee which has responsibility for formulating a statement of aims, purposes and objectives for public schools. These two bodies appoint curriculum advisory committees in each major area to serve as consultants on curricular offerings and the adoption of textbooks.

The guide also outlines the method of adopting textbooks. Selection criteria are set forth, which include: (1) physical format, (2) organization, (3) content (style, accuracy, treatment of minorities, sexism, controversial issues), (4) enrichment and extension possibilities, (5) author, and (6) accompanying instructional aids.

In the appendix to the guide, statutory materials on textbooks are set forth.

3. School Libraries

Statutes

§53-2-14

"The state board of education shall promote the establishment and improvement of public school libraries" and "adopt standards, rules and regulations" in order to "provide adequate school library service."

B. EDUCATIONAL MATERIALS

1. TEXTBOOKS

A. SELECTION AND PURCHASE

STATUTES

§3743

The board of school directors shall select and provide with district funds all textbooks used in the public schools and all appliances and supplies for elementary schools. The selection of textbooks shall be subject to the approval of the superintendent of the district.

REGULATIONS

R.M. Ch. II.B8; p. 14

Each school district furnishing elementary education shall expend a minimum of $10 per elementary pupil per year for the purchase of learning resource materials, which shall be located within a school facility.

CROSS REFERENCES

III.C.School Officials; Statute §557

2. Audiovisual Education

Statutes

§144

(a) $5,000 shall be allocated each biennium to provide "visual educational films and instructional help" in using those materials in the schools.

(b) The state board may administer all federal funds made available to this state under P.L. 89-10 (Elementary and Secondary Education Act of 1965 20 U.S.C. §241a).

§2802, 2803

The University of Vermont (UVM) and the state agricultural college may construct and operate or interconnect with other television stations to provide a statewide education television network to transmit programs to students in Vermont. The UVM and Agricultural College may hold all necessary governmental authorization for all facilities contemplated by this chapter.

§2804

The Vermont instructional television committee shall advise the board of trustees of UVM and Agricultural College in determining elementary and secondary school "instructional television programming, policy and courses for the Vermont educational television network."

§2805

The Vermont Educational Television Broadcasting Council shall consult with and advise the board of trustees in carrying out the purposes of this chapter.

Regulations

R.M. Ch. II; p. 89

The State Board strongly supports educational television in Vermont and registers its opposition to any contemplated cutback that will curtail present service and to any suggestion that ETV service be totally dispensed with.

3. School Libraries

CROSS REFERENCE

III.A.1.; Regulation, R.M. Ch. II.C., pp. 15-22

B. EDUCATIONAL MATERIALS
1. TEXTBOOKS
A. SELECTION AND PURCHASE

STATUTES

§22-295; 296; 297; 299

The State Board shall adopt regulations governing the purchase, distribution and care of textbooks.

The State Board shall select textbooks and educational appliances, including films for use in the schools.

No textbook adopted for basal use shall be changed for at least six years unless the book becomes obsolete or unless a change would result in a decrease in price.

The State Board shall enter into written contracts with publishers of textbooks.

§22-306.1

The State Board with a State legislative commission may contract with a publishing firm for preparation of texts on Virginia's history, government, and geography. The State may require exclusive use of these texts in the teaching of these subjects.

The Virginia History and Government Textbook Commission created by Senate Joint Resolution No. 5, 1950 shall have seven at-large members appointed by the Governor for two year terms.

If the Commission and the State Board cannot agree about any matter arising under the contracts with publishers, they may refer the matter to the Governor for decision. Sixty days before the beginning of the regular session of the General Assembly, the Commission shall report to the General Assembly and the Governor what remains to be done under the contracts.

§22-318; 318.1

Any school board may withdraw itself from coverage by this chapter.

A school board may use basal textbooks not on the

state-adopted list so long as they are selected in accordance with State Board regulations.

REGULATIONS

Textbooks, Local Adoption, pp. 129-131

The Constitution of Virginia empowers the Board of Education with the authority to adopt textbooks for basal use in the schools of Virginia.

Books not on the State-adopted list may be used if selected in accordance with rules and regulations promulgated by the Board of Education.

An Evaluation Committee shall be appointed by the school board to review and evaluate textbooks only in one or more of the specified subject areas for which state adoptions were effective beginning July 1, 1973.

A local school board that adopts one or more textbooks in accordance with these regulations in a particular subject area may also adopt one or more of the State Basal Textbooks for that particular field.

Textbook Adoption, State Level, pp. 133-34

Textbooks will be adopted for a six-year period for those subjects as stipulated by the Board of Education (State).

An adopted book may be deleted from the approved list within the six-year period in accordance with statutory provisions.

A local school board may select textbooks not on the July 1, 1973 adopted list but may do so provided such textbooks are selected in accordance with rules and regulations established by the Board of Education (State).

II.A.1.; Regulation, Sex Education, §I-V

C. ISSUANCE

STATUTES

§22-193 -- 22-201

No tuition shall be charged for high school students.

A school board may charge students with fees or require a deposit for the library, examination paper, pens, pencils and ink. Students may be charged for class dues, voluntary student activities, night school, post-graduate classes, vocational or manual training classes, summer school, rental of texstbooks, or any course not required for a high school certificate. No student's report card or diploma shall be withheld for non-payment of a fee.

FEES

A student shall reimburse the school for any destruction of property done by the student in pursuit of his/her studies.

§22-298

The State Board shall determine the number of basal textbooks required for instruction in classes of various sizes in the several subjects in schools with varying library facilities.

§22-307.1; 22-316; 22-317

A school board may, in accordance with State Board regulations, establish a textbook rental system.

The funds spent shall not exceed the number of pupils enrolled multiplied by two dollars or the actual cost of the system.

Any school board with a system of providing free textbooks shall be reimbursed on the same basis as school boards with a textbook rental system.

State textbook funds shall be apportioned on the basis of one dollar per pupil enrolled during the preceding year.

The State Board may withhold textbook funds from a school board if it fails to comply with the provision of this chapter.

2. Audiovisual Education

Regulations

Educational Telecommunications, §I-III

The educational telecommunications station shall be located in Virginia or if not shall be temporarily the only available source for a satisfactory signal.

All telecommunications programs intended for in-school use must be approved by the Board of Education or by local school boards.

Film Circulation From State and Regional Bureaus of Teaching Materials, §I-II

General circulation of films from the state and regional bureaus of teaching materials is restricted to Virginia public schools and state-supported colleges except private colleges, health agencies, agricultural agencies and noncommercial ETV stations.

3. SCHOOL LIBRARIES

STATUTES

§22-163

Whenever the patrons of any school raise by private subscription five dollars to buy books and materials for a school library the school board shall also appropriate fifteen dollars and the State Board forty dollars.

The school board may allow residents of the county to use a school library if the county does not have a library.

A. Selection and Purchase

Constitution

WEST VIRGINIA CONSTITUTION, ART. 12, §9

CONFLICT OF INTEREST

"No person connected with the free school system of the State, or with any educational institution . . . under state control, shall be interested in the sale, proceeds or profits of any book or other thing used, or to be used therein, under such penalties as may be prescribed by law: Provided, that nothing herein shall be construed to apply to any written work, or thing invented, by such person."

Statutes

§18-2A - 1-4

"The state board of education shall classify the elementary school subjects now required to be taught . . . into five adoption groups. The five adoption groups shall be grouped by related subject field as nearly as possible." Adoption shall be made each succeeding year starting in 1973, for a period of five years. The adoption period for each group shall be the time in which textbooks for all subjects are adopted.

A 15-member committee of teachers and other educational specialists shall help the board to "select, approve and publish a list of at least five books or series of books in each subject and grade in the elementary subjects required to be taught.

Upon completion of the approved multiple lists, the state board of education "shall . . . execute contracts for the selected books with the publishers. . . ," prepare and publish a list of the adopted books and "send a copy to each county superintendent not later than January first of the year of the county adoption. Such contracts . . . shall run for five years."

§18-2A-5

"Textbook publishers, upon requests of county superintendents, shall furnish to county boards of education . . . single copies of books . . . in the state multiple list of textbooks . . . .

The county board of education shall, upon recommendation of the county superintendent with the aid of a committee of teachers not to exceed five members . . . have the option to select from the state multiple list one or more book(s) or series of books for each subject and grade to be used as . . . textbooks in the county for a period of five years.

After the . . . board . . . has adopted the . . . textbooks . . . the county superintendent shall send to the state board of education and the respective publishers a complete list of books adopted . . . ."

§18-2A-8

"No textbook shall be used in any public elementary school in West Virginia as a basal textbook unless it has been approved and listed in the state multiple list of textbooks by the state board of education. Any changes of textbooks made by the state board of education shall not become effective until grades and classes of the respective county school districts have completed work for which the adopted book then in use was originally intended. The . . . board . . . may upon request by a county board of education . . . approve the adoption of additional books to meet the needs of specific children which were not provided for in the original adoption.

The state board of education is authorized to make such rules and regulations as it may deem necessary and expedient to carry out the provisions of this article."

§18-9

"Any . . . person who shall receive, solicit, or accept any gift, present, or thing of value to influence him[her] in his [her] vote for the adoption of books,

or any person who shall either directly or indirectly give or offer to give any such gift, present or thing of value to any person to influence him[her] in voting for the adoption of books, shall be guilty of a felony . . . ."

REGULATIONS

§2445.41

The county boards of education shall each adopt a uniform system of textbook adoption so that the same books will be used in the various schools within the county. The method and schedule of adoption shall state the procedures for selection and set forth the method of financing.

A correlated language arts text designed to incorporate training in all language arts should be adopted by the counties for grades 1 and 2 because it avoids the artificial boundaries that exist when each subject area is taught separately. The state board of education therefore approves these textbooks on the optional list of state adopted textbooks.

B. CONTENT STANDARDS

REGULATIONS

§2445.42

The state board of education opposes the use of any book containing subversive doctrines and authorizes a committee to ascertain if such books are used in public schools in West Virginia.

SUBVERSION

§2445.43

State and local textbook committees shall select only those textbooks that "accurately portray minority and ethnic group contributions to American growth and culture and which depict and illustrate the intercultural character of our pluralistic society."

ETHNIC STUDIES

C. ISSUANCE

STATUTES

§18-2A-6

"The state board of education shall notify each county superintendent of the list of books adopted on the state multiple list and the prices at which they are to be sold, and any person selling such books at a higher price . . . shall be guilty of a misdemeanor . . . ."

§18-5-21-21e

"The board of education of every county may purchase the necessary textbooks to be used in the free schools by the pupils thereof.

At the commencement of every term, the county superintendent shall deliver to the teachers . . . the textbooks necessary . . . for the ensuing term . . . It shall be the duty of the teachers to take charge of such textbooks and to distribute them among the pupils of their schools as needed; and said teachers shall have and exercise general control of all such textbooks, . . . and before receiving . . . [their]. . . salary" at the close of the school term," shall collect and gather together all textbooks so used and deliver them to the county superintendent."

If any of the textbooks delivered to any pupils shall be unnecessarily injured or destroyed, they shall be replaced by the pupils who injured or destroyed them.

The board . . . shall provide the textbooks . . . for the pupils whose parents, in the judgment of the board, are unable to provide the same.

The board . . . upon application of the proper authorities of any private school, may likewise provide state-adopted textbooks for use of the pupils enrolled therein, whose parents, in the judgment of the board, are unable to provide same."

The state superintendent of schools shall annually distribute "such amounts of free textbook money as the legislature may provide . . ."

After complying with the provisions of this section relating to distribution of free textbooks, the board "shall use any proceeds remaining in the 'free textbook account' for the purchase (including replacement and repair) of textbooks for all pupils enrolled in the public schools of the county, grades one to eight inclusive . . .

The order of preference used in providing free textbooks . . . shall be either by grade preference . . . or by subject preference . . ."

Any additional proceeds available after the above distributions "shall be used for the purchase of approved library books and other supplementary materials for grades one to eight. . .

In providing free textbooks to pupils . . . the board . . . shall have authority to purchase state-adopted textbooks from pupils who own them, . . . at a price commensurate with the useable value of said books at the time, but in no case to exceed one-half the original purchase price of the textbook . . . . All such purchases shall conform to the order of preference . . . adopted by the county board of education . . . .

The state board of education shall have authority to prescribe rules and regulations governing the care, distribution and use of free textbooks . . . .

The state board . . . is further authorized to prescribe and require reports to be made by the various county boards . . . concerning the expenditures . . . distributions and conditions of inventories at such time and in such form as the board may require.

The state superintendent . . . is authorized . . . to withhold the state allotment of free textbook money . . . for any violation of the rules and regulations herein authorized."

2. Audiovisual Education

Statutes

§10-5-1

"It is the duty of this State to provide the best educational training possible for all its citizens and . . . the encouragement and use of noncommercial educational radio, television and related media operating and originating from educational broadcasting, closed circuit or related facilities located . . . within this State serving all of the citizens . . . on a regional basis or as part of a coordinated statewide plan is a proper, necessary and beneficial means of providing and extending enriched educational instruction to all citizens of this State . . . ."

§10-5-2-5

"The West Virginia educational broadcasting authority . . . shall consist of nine members, who shall be citizens and residents of the State, of whom one shall be the state superintendent of schools, [and] one shall be a member of the West Virginia board of education . . . . The other . . . members shall be appointed by the governor with the advice and consent of the Senate for overlapping terms."

The authority shall select a chairman, executive secretary, "and such other personnel as may be necessary to perform its duties."

The authority shall meet at least three times a year. "The members shall serve without compensation but . . . may be reimbursed for actual expenses incident to the performance of his[her] duties."

The authority shall have the power:

(1) To act as advisor and consultant to television and radio stations concerning noncommercial educational programs;

(2) To cooperate with and assist all local and state educational institutions in planning and development of the use of educational radio, television and related media;

(3) To promote and coordinate the use of these media for noncommercial educational purposes;

(4) To construct, maintain and operate educational broadcasting, closed circuit or related facilities . . . within this State including . . . production centers, broadcasting stations and a broadcasting network connecting such communities or stations as may be designated by the authority;

(5) To acquire . . . for the use and benefit of the authority by purchase, lease or agreement, any property, both real and personal, and any interest in such property necessary to carry out the provisions of this article;

(6) To apply for and receive any [necessary broadcasting] license . . .;

(7) To supervise and approve the origination and transmission of all noncommercial educational radio, television and related media programs in this State which would be carried through the facilities of a state network;

(8) To employ such personnel as may be necessary to operate and maintain any facility created under the provisions of this article;

(9) To lease from communication common carriers and use such transmission channels as may be necessary or, if it determines it could more economically construct and maintain such transmission channels, it may design, construct, maintain and operate the same, including a television microwave network;

(11) To contract and be contracted with . . .

(13) To promulgate reasonable rules and regulations to carry out the provisions of this article . . .

(14) To perform such other services in behalf

of noncommercial educational radio, television and related media as it may consider to be in the best interest of the State.

The authority is further authorized and empowered to apply for and receive appropriations, gifts, bequests or grants . . .

The authority may also create one or more advisory councils . . .[which]. . . shall consist of not more than nine members to be appointed by and serve at the will and pleasure of the authority. Members so appointed shall serve without compensation, but may be reimbursed for actual expenses incident to the performance of their duties . . .

Any such council shall serve in an advisory manner to one or more facilities established under the provisions of this article as directed by the authority and shall meet at least twice a year."

STATUTES

§18-5-20

"The board may provide libraries for its schools and may purchase books, bookcases, and other things necessary therefor . . . . The board may employ a full-time librarian or may require one of the teachers at the school to serve as part-time librarian. Any such full-time librarian or any such teacher-librarian who holds a degree in library science based upon the successful completion of a full year of graduate work at an institution qualified and approved to offer such degree, and who holds a collegiate elementary, first-class high school, or other certificate of equal rank, shall be paid the same salary as is prescribed by law for teachers holding a master's degree.

The board shall have authority to employ [a librarian] during the vacation period . . . . Any librarian so appointed shall keep the library open at least one day a week."

Statutes

§14.08.161

School construction, repair and improvement in a regional area shall be determined by the governor upon recommendation by the Department of Education.

Regulations

4AAC 05.090

If a community initiates a major renovation or construction of a new facility, a school may be discontinued only after the governing body submits a plan for discontinuance to the department for approval. If the plan is not disapproved within 90 days it may be considered approved.

4AAC 06.030

All plans for major construction or renovation must be approved by the commissioner. The approval is effective for two years. All costs and financing for a project must be reported to the commissioner.

4AAC 24.010

"Operational plans or applications for schools, submitted by the board of directors in accordance with AS 14.08.100 shall include the following:

(1) area map showing location of attendance center, proximity to other schools, attendance area, proposed transportation routes.

(2) programs or educational levels to be offered;

(3) description of facilities;

(4) number of pupils, by grades, expected to attend;

(5) number and ages of preschool children in attendance area."

4AAC 24.020

"(a) The following factors will be considered in approving or disapproving plans and applications:

(1) number of school age children;

(2) number of preschool children;

(3) adequacy of facilities;

(4) proximity of other schools;

(5) effect of school on other area schools;

(b) Operational plans include changes in pupil attendance centers in areas which affect other districts, and the addition of one or more elementary or secondary grades to an existing school."

CROSS REFERENCE

II.C.1.; Statute §14.14.060; 14.14.065

3. Use of Facilities

Statutes

§14.03.100

School facilities may be used for any "legal gatherings" on a reasonable and impartial basis.

CROSS REFERENCE

II.A.8.; Statute §14.36.010 -- 14.36.020

C. SCHOOL PROPERTY AND FACILITIES

3. USE OF FACILITIES

STATUTES

§15-451

The board of trustees may permit school buildings to be used as civic centers for recreational or educational activities of the district.

§15-452

A board of trustees may use the school buildings and grounds for public recreation centers. The board may organize community recreation activities for neighborhood youths.

PUBLIC RECREATION

C. School Property and Facilities

2. Physical Plant and Facilities

Statutes

§14-604--611; 80-3505--3506; 14-627--628

"The State Board of Education shall establish reasonable minimum standards for school house construction . . . [which] may be revised . . . as educational problems and methods of procedure develop and change." The Board shall be advised by the American Institute of Architecture, the Fire Prevention Bureau, and the Arkansas State Board of Health. All school building plans must be approved by the State Board of Education. School buildings, like all buildings financed in part by the state, shall accommodate handicapped persons by providing ramps, special entrances, special parking areas, handrails and the like.

MINIMUM STANDARDS

A minimum hourly wage rate "shall not affect public school construction unless federal matching funds" are used.

§80-140; 141

"The State Board of Education is . . . designated as the agency . . . to receive and administer . . . all federal funds made available to this state for the purpose of assisting local school districts in providing elementary and secondary school facilities."

The board shall "make such plans, rules and regulations as are necessary . . . to meet requirements of any law enacted by the Congress . . . or any supplementary federal regulations pertaining to such legislation."

RULEMAKING

§80-142

The State Board "is hereby granted authority to prescribe principles, standards, and criteria in setting up priority of projects" which shall "include the following factors. (a) the relative condition of facilities . . . taking into consideration the age and

condition of school buildings and facilities . . . (b) the relative financial ability of districts to provide facilities with local taxes; (c) the adequacy of satisfactory (transportation) facilities . . . and (d) the relative debt service obligations of districts in proportion to the statutory limitations on bonded indebtedness of districts."

§80-214

"Each County Board of Education . . . (may) . . . make purchases of property and equipment . . . from the Government." The School Board, by a vote, must authorize such purchases.

§80-228

"The School Board . . . shall make available suitable room, including heat and light, provided that in doing so it shall not interfere with instruction . . . during the customary school hours."

§80-1903; 1904

Any person "who shall deface, mar, or disfigure any . . . [school building, furniture or fixtures] shall be fined double the sum of the damaged objects and/or building(s) between $10 and $50 for each offense, to be recovered by civil action." This punishment is in addition to that provided by other statutes.

LIABILITY

If the offender is a minor, under eighteen and living with parents his/her parents shall be liable for damages, not more than $1,000.00

Fines collected for damages shall go into "school funds of the district where the crime was committed."

§80-2216

"The superintendent may employ such operatives as are necessary for the proper management of the institution, repairs of buildings, cultivation of adjacent grounds" subject to the approval of the Board of Trustees.

II.A.3.; Statute §80-2561

3. Use of Facilities

Statutes

§19-3604, 3605

". . . where school funds or property are utilized the State Board of Education shall: 'establish minimum qualifications of local recreational directors and instructors" and "distribute . . . appropriate manuals" necessary to carry out this provision.

Activities related to the regular school curriculum shall have priority over recreational uses of same.

§80-517

School buildings may be used for "social, civic and recreation purposes, or other community purposes" such as town meetings, as long as they "do not interfere with the regular school work." The directors of the school district, who shall authorize such use, may charge for it.

§80-518

"The directors may permit a private school to be taught in the district schoolhouse during such time as the said house is not occupied by a public school, unless they be otherwise directed by a majority of the legal voters of the district."

C. SCHOOL PROPERTY AND FACILITIES

1. SCHOOL SITE

§35270 -- 35271; 35275-35276

"The governing board of any school district may select and acquire sites within the boundaries of the district, and may acquire or construct thereon school facilities . . . ."

§39000 -- 39018

"The State Department of Education shall establish standards for school sites.

The governing board of any school district may, and when so directed by a vote of the voters within the district shall, purchase or improve school lands.

The governing board of a school district, prior to acquiring any site on which it proposes to construct any school building shall have the site, or sites, under consideration investigated by competent personnel to ensure that the final site selection is determined by an evaluation of all factors affecting the public interest and is not limited to selection on the basis of raw land cost only. The investigation shall include such geological and soil engineering studies by competent personnel as are needed to provide an assessment of the nature of the site and potential for earthquake damage.

To promote the safety of pupils and comprehensive community planning the governing board of each school district before acquiring title to property for a new school site or for an addition to a present school site, SAFETY

shall give the planning commission having jurisdiction notice in writing of the proposed acquisition. The planning commission shall investigate the proposed site and within 30 days after receipt of the notice shall submit to the governing board a written report of the investigation and its recommendations concerning acquisition of the site.

The governing board shall not acquire title to the property until the report of the planning commission has been received. If the report does not favor the acquisition of the property for a school site, or for an addition to a present school site, the governing board of the school district shall not acquire title to the property until 30 days after the commission's report is received.

If, with respect to a proposed site located within two miles of an operative airport runway, the report of the Department of Education submitted to a school district governing board . . . does not favor the acquisition of the site or the sole or partial basis of the unfavorable recommendation of the Department of Aeronautics, no state agency or officer shall grant, apportion, or allow to such school district for expenditure in connection with that site.

§39420 -- 39421

When any territory withdrawn from a school district contains a school building, site or real property, the building or site, together with the fixtures thereof, shall, upon the withdrawal of the territory becoming effective, become the property of the district of which the territory becomes a part or the whole.

§39490 -- 39491

"The governing board of any school district which has acquired title to property included within an application which has been approved . . . for state school building aid and which property is to be used as an access roadway to such school site may exchange such property for other property to be used as an access roadway which abuts a state highway . . . ."

"The governing boards of any school district may sell, exchange, grant or quitclaim all or any of its interests in, or may lease for a term not exceeding 99 years, to the federal government or its agencies, to the state, . . . any real property belonging to the school district . . . which is not . . . needed for school classroom buildings . . . ."

In addition to this, the governing board may sell any personal property or school supplies to these parties, if owned by the district, as well as:

(a) sell for cash any personal property belonging to the district if the property is not required for school purposes;

(b) dedicate or convey to the state, for public street or highway purposes, any real property belonging to the district; and

(c) if the district owns shares of stock in a mutual water company may rent, lease, or assign such shares, for a term not to exceed one year.

REGULATIONS

§ 14010

Before acquiring title to real property for school use, a school district shall:

a) Prepare a statement of policies covering transportation, enrollment and the grades of students to be served on the site.

b) Prepare maps showing present and proposed school sites.

c) Comply with Education Code Section 15002.1 with emphasis on engineering investigation of the site.

d) Secure a written site review from the bureau of field representative for sites that the district intends to acquire.

2. Physical Plant and Fixtures

Statutes

§1264; 1265; 1269

The superintendent of schools of each county may require the governing board of any district to repair school building or property, or otherwise improve the asthetic appeal of school ground, where practicable. The superintendent may also employ extra help to meet this end.

§4211

The county committee shall prepare and submit to the Superintendent of Public Instruction a report and recommendations respecting the urgency of need for school plant facilities if assistance is sought for the purpose of providing such facilities.

§39100 -- 39156

"The Department of Education shall:

(a) Advise the governing board of each elementary, high school, and unified school district on the acquisition of new school sites, and after a review of available plots give the governing board of the district in writing a list of the approved locations in the order of their merit considering especially the matters of educational merit, reduction of traffic hazards, and conformity to the organized regional plans as presented in the master plan of the planning commission having jurisdiction and charge the governing board of the school district a fee of twenty-five dollars ($25) for each 10 acres or fraction thereof of school site reviewed.

(b) Establish standards for school buildings.

(c) Review all plans and specifications for buildings in every district required to submit plans and specifications therefor to it for approval. The department may, upon the request of the governing board of any other district, review plans and specifications for buildings in such district.

(d) Approve plans and specifications submitted to governing boards of school districts, and return without approval and with recommendation for changes any plans not conforming to established standards.

(e) Make all necessary provisions by which governing boards of school districts, or architects engaged by them, may procure by purchase or otherwise, copies of standard specifications, plans, and building codes prepared by the department.

(f) Make, upon the request of the governing board of any school district, except a city board of education, a survey of the building needs of the district, advise the governing board concerning the building needs, suggest plans for financing a building program to meet the needs, and collect the cost of the survey, exclusive of the salaries of the state employees participating therein, from the district.

(g) Employ experts and clerical, and stenographic assistants as may be required for expediting the checking and approving of plans and specifications."

This chapter also includes the subject of plans for school buildings appropriate for school districts. Included are provisions on standards for such plans, who might receive them, and who must submit them.

"The Department of General Services under the police power of the state shall supervise the design and construction of any school building or, if the estimated cost exceeds ten thousand dollars ($10,000), the reconstruction or alteration of or addition to any school building, to ensure that plans and specifications comply with the rules and regulations adopted pursuant to this article and building regulations published in the State Building Standards Code, and to ensure that the work of construction has been performed in accordance with the approved plans and specifications for the protection of life and property."

Before letting any contract for any construction or alteration of any such school building, the written approval

of the plans, as to safety of design and construction, shall be first had.

All plans, specifications, and estimates shall be prepared by a certified architect holding a valid license.

INSPECTIONS

SAFETY

"Inspections of school buildings shall be made in order to insure the protection of the safety of the pupils, the teachers and the public."

§39120 -- 39232

This section provides for the need of fitness for occupancy standards for school buildings and enumerates what buildings require inspections for such standards, and how changes are to be made on buildings not meeting those standards.

§39170 -- 39173

The governing board of any school district may build and maintain a schoolhouse as well as establish additional schools in the district.

§39240 -- 39252

LEASE

The governing board of any school district may lease land or buildings for a term extending to the expected duration of use by the school district.

§39360 -- 39383

The governing board of any school district may sell any real property belonging to the school district or may lease for a term not exceeding 99 years, any real property belonging to the school district which is not or will not be needed by the district for school classroom buildings at the time of delivery of title or possession.

§39480 -- 39484

"The governing board of a school district may exchange any of its real property for real property of another person or private business firm."

§39600 -- 39616

The governing board of any school district shall:

(a) furnish, repair, insure against fire and in its own discretion rent the school property of its

districts, and may also insure against other perils.

(b) provide a warm, healthful place in which children who bring their own lunches to school may eat the lunches.

(c) provide sufficient patent flush water closets for the use of the pupils.

(d) provide for the annual cleaning, sterilizing, and necessary repair of football equipment of their respective schools.

The governing board of any school district may:

(a) grade, pave, construct sewers, or otherwise improve streets and other public places in front of real property owned or controlled by it.

(b) construct a mobile home site on the grounds of any school or schools maintained by the district.

(c) when leasing a building for housing of school district employees, lease such buildings for any period they deem necessary.

(d) provide sewers and drains adequate to treat and/or dispose of sewage and drainage on or away from each school property.

§39630

"The clerk of each school district . . . shall . . . keep the schoolhouses in repair during the time school is taught therein, and exercise a general care and supervision over the school premises and property during the vacations of the school."

§ 46304

"If the Superintendent of Public Instruction determines that a school district in which pupils reside does not have suitable quarters in which to maintain school for all the day pupils of the district, or that for other good and sufficient reasons the education of pupils in the district in which they reside is not practical or in the best interests of such pupils, the governing board of the district of residence shall contract with the governing board of another school district for the education of those pupils...."

TUITION

"Such contract shall provide for the payment of tution in such amount and in the manner as may be agreed upon by the governing board of the district of attendance and the governing board of the district of residence.

Any contract for the education of pupils residing in a school district made by the governing board of the district in accordance with the provisions of this section shall be deemed for all purposes to be...the maintenance of a school within the boundaries of the district."

REGULATIONS

§630

HEALTH

Governing boards, superintendents, principals and teachers are responsible for the "sanitary, neat and clean conditions of the school premises." All buildings and grounds shall be maintained according to the requirements of the Board of Health.

§ 14000-14001

It is the right of each school child to have access to adequate educational facilities. The State Board requires that educational facilities shall be:

a) Evolved from a well-documented statement of educational program requirements.

b) Planned to provide for saturation enrollment.

c) Located on an adequate site and designed to meet legal requirements for fire, structure and panic safety.

§ 14030-14031

Before authorizing the preparation of plans for the erection of any school building each district shall:

a) Request a conference with a field representative of the Bureau of School Planning to justify the need for new construction.

b) District personnel should prepare a written statement of the goals, objectives, and policies which determine the educational program of the district.

c) "Prepare essential program information for the district architect for preliminary design studies."

§ 14032-14033

"New school construction cannot be advertised for bids until written approval of final plans and specifications is given by the Bureau of School Planning."

§ 14041-14045

Plans for a construction project requiring state school building aid shall be prepared in accordance with Article 4 of this chapter. Districts shall prepare a justification document in order to secure approval for such aid from the Department of Education.

3. Use of Facilities

Statutes

§10800

The governing board of any school district may lease real property owned by the district to the State Department of Education.

§11002

The governing boards of two or more school districts whose boundaries are contiguous may enter into an agreement upon such terms and conditions as may be agreeable for the joint use and maintenance of school buildings and other school facilities.

§11020 -- 11022

Whenever a high school district and a community college district have coterminous boundaries and the same persons comprise both governing boards, either district may sell all or any of its interests in any real property belonging to the district which is not or will not be needed for classroom buildings by the district owning it.

§39290 -- 39325

Any school district may enter into leases and agreements relating to real property and buildings to be used by the district.

§39330 -- 39333

Any school district or any county superintendent of schools may, as lessee, enter into a lease or lease-purchase agreement for equipment or service systems with any persons or firms.

§39430 -- 39432

"The governing board of a school district may . . . enter into . . . a community lease to which a city or other public agency . . . private persons or private agencies

are also parties for the leasing of the parcels of land owned by the district and the other parties for the extraction and taking of gases not associated with oil."

§39440 -- 39453

"Any school district may enter into leases and agreements relating to real property and buildings to be used jointly by the district and any private person, firm, or corporation . . . ."

§39470 -- 39473

"Any school district may enter into a lease or agreements with a city, county or city and county for the joint occupancy, or a private educational institution for its sole occupancy, of the real property and buildings of the school district,provided that no such occupancy . . . shall occur during normal school hours when the school is in session."

§40040 -- 40058

The governing board of any school district may grant the use of school buildings or grounds for public, literary, scientific, recreational, educational, or public agency meetings, or for the discussion of matters of general or public interest as well as religious affairs, child care programs, public agencies and other community associations.

IV.E; Statute §48930--48932

c. School Property

1. School Site

Statutes

§22-32-111

"A school district has the power to take by eminent domain so much real property as the board of education of the district may deem necessary for any school purpose authorized by law."

Regulations

2202-R-13.07

Representatives of the local board of education, in cooperation with the area's planning and zoning officials, shall aid in the planning and locating of educational and recreational facilities.

2. Physical Plant and Fixtures

Statutes

§22-32-124

"The board of education of a school district may determine the location of public schools within the district and erect necessary buildings and structures without a permit or fee in compliance with a local building code." All buildings and structures "shall be erected in conformity with the standards of the industrial commission of Colorado."

Regulations

2202-R-13.01

All buildings and grounds shall meet the standards of the Department of Health, section 66-1-7(14), and the Safety Inspection Division of the Department of Labor and Employment, section 80-2-1 through 21. All school buses shall meet the Colorado Rules and Regulations Governing the Operation of School Transportation Vehicles.

2202-R-13.02

The school buildings shall provide suitable space with respect to enrollment, the educational program, and essential administration and supporting services.

2202-R-13.03 -- 13.04

The school grounds shall provide suitable space to accomodate its enrollment and shall include playgrounds that are operationally safe. Playing fields shall be provided for outdoor physical education activities. Gymnasiums shall be equipped with sufficient lockers and shower facilities to accomodate regular classes participating in physical education programs. Gymnasium modifications shall be made for elementary schools.

2202-R-13.06

All teaching areas, regular classrooms, and special-purpose rooms shall be adequately equipped in terms of class size and course content.

(1) Regular maintenance of school equipment and instructions on their use shall be provided for pupils and staff.

II.C.1; Regulation 2202-R-13.07

IV.A; Regulation 2202-R-13.08

C. School Property and Facilities

1. School Site

Statutes

§10-47

Regional boards of education have all the powers and duties conferred upon boards of education by the general statutes not inconsistent with this part. The boards may purchase, lease or rent property for school purposes. They may build, add to or equip schools for the benefit of the towns comprising the district.

§10-49a

Upon approval of the town by referendum, any school district may acquire real property to build a school. Upon notification of the town clerk by the school district, the town shall hold and bear the cost of a referendum sixty days after receipt of such notice.

§10-241a

A school district may take land by eminent domain proceedings.

CROSS REFERENCE

II.A.2.: Regulation §10-76b-5

2. Physical Plant and Facilities

Statutes

§19-382

Fire alarms shall be installed in all school buildings.

§19-384a

Adequate stairways, exits and fire escapes shall be provided in all school buildings. These devices must be constructed in accordance with the fire safety code.

CROSS REFERENCES

I.Local Board of Education; Statute §10-221

II.C.1.; Statute §10-47

3. Use of Facilities

Statutes

§10-239

Any school district may allow the schoolhouse(s) to be used for any non-school purposes.

C. School Property and Facilities

1. School Site

Statutes

§1022

Reorganized school districts shall be empowered to "purchase, receive, take, lease, or otherwise acquire, own, hold, improve, and otherwise use real or personal property, or any interest therein and to sell, convey, lease, exchange transfer or otherwise dispose of all its property. . ." Legal title to property, real and personal, of a reorganized school district shall be held in the name of the reorganized district.

2. Physical Plant and Fixtures

Statutes

§1055

The school board of reorganized districts shall provide for the care and maintenance, within standards adopted by the Board, of all buildings and grounds and other school property.

§1057

When school property is no longer needed for school purposes it may be sold subject to written approval by the Director of State Planning and the Board.

3. Use of Facilities

Statutes

§1056

All property, estate, effects, money funds, claims and state donations vested by law in the public school of any district prior to June 3, 1968 for the benefit of the public schools of that district, shall be under the control and management of the school board of that district. Any property devised or bequeathed on or after June 3, 1968, for use of any public school district, shall be held in trust by the school board for the benefit of the public school of the respective district. Such trust money shall be exempt from federal and state taxes.

The control, management, and custody of school property in all public school districts shall be subject to the laws of the State, the Board and the school districts. Each school board rules and regulations governing the use of school property within the respective districts subject to the following provisions and the Board's approval.

The use of property for use other than the education of youth shall not be permitted when it interferes with this primary purpose. However, a request by ten citizens or community organizations for use of property for purposes other than education must be considered.

In granting such requests the school board should consider:

The facility requested has not been scheduled for other use;

The use of the facility will be beneficial to and consistent with the education program;

The use will serve educational, cultural, civic, political or recreational purposes and not result in personal monetary gain.

A school board shall permit free use of property under its jurisdiction but may charge for cost of custodial salaries, heating and lighting.

A school board may refuse to allow use of facilities

under its jurisdiction for purposes it deems not in harmony with public education and an interference with public education. Dispute arising in response to the ways school boards exercise this discretion shall be by written appeal to the Board.

Any group of citizens allowed use of school facilities shall be responsible for any damage done above normal wear.

The school baord shall not be liable for any damages in tort due to negligent construction or maintenance when it permits use of its facilities.

C. School Property and Facilities

2. Physical Plant and Fixtures

Statutes

§31-812

Appropriations shall not be used to maintain school "in any building unless all outside doors . . used as exits or entrances shall open outward and be kept unlocked every school day" for one-half hour before and after school hours.

Regulations

CH. V. §507

"No school building shall be named in honor of any living person.

No school building shall be named in honor of any deceased person until at least two ... years after that person's death....Upon the receipt of a recommendation from the Superintendent of schools for the naming of a school building, the Board of Education shall refer the recommendation to the proper committee for consideration in public session and recommendation to the full Board. Upon receipt of the recommendation from the committee, the Board shall take proposed action to name the school building. Notice of such proposed action shall be published in the D.C. Register for a period of not less than thirty...days prior to final action to name the school building. Additional notice shall be given to the organized community in the area of the school buildings and shall be delivered to the press and media.

The existing name of any school building may be changed upon the written recommendation of the Superintendent of Schools and the action of the Board of Education pursuant to the procedures set forth in this section.

Any person or organization may submit a proposed name or change of name of any school building to the Superintendent

of Schools for consideration; however, the Superintendent shall not be required to submit any particular name or recommendation for change of name to the Board of Education."

CH. V. §510

"It is the goal of the Board of Education to make the most efficient and practical use of its school buildings and other physical facilities....it is the policy of the Board of Education to investigate and determine the status of the utilization and projected use of all buildings. Having obtained such information, the Board of Education shall determine the disposition of underutilized facilities....

The Board of Education shall consider all responsible options and alternatives to the closing of schools and shall provide for consideration of the concerns and comments of affected citizens and representative groups of citizens....

First priority for utilization of public school buildings shall be given to the programs and activities of the District of Columbia Public Schools.

The approval of the Board of Education shall be required upon the written recommendation of the Superintendent of Schools, to effect the phasing out or termination of any program utilizing public school facilities which has been established or approved by the Board of Education.

The approval of the Board of Education...shall be required to phase out or close any public school building."

CH. V, §513

"In the event that a program or activity is being housed in a public school building which meets the criteria of this Chapter for relocation, but for which no suitable alternative exists, the Superintendent of Schools shall make recommendations to the Board of Education for disposition of the program or activity.

A recommendation by the Superintendent of Schools to phase out or close a school building shall include a recommendation on the disposition of the building of the building to be phased out or closed."

"Public school buildings which are vacant, underutilized, or incapable of being efficiently and effectively operated may be phased out or closed by the Board of Education upon the written recommendation of the Superintendent of Schools....

Notice of proposed action to close or phase out a school building shall be sent to each affected Advisory Neighborhood Council, shall be available for review in the offices of the Superintendent of Schools, appropriate Regional Superintendents, the Board of Education, the principal of each affected school, and appropriate Public Libraries. Such notices shall include all supporting criteria, findings, and recommendations by the Superintendent....

After taking proposed action and prior to taking final action on a recommendation to phase out or close a school building, the Board of Education shall hold a special community meeting to receive input and comment from the public....

The results and findings of such special community meetings shall be reported to the Board of Education prior to its taking final action by the member of the Board chairing the special community meeting....

Except as provided otherwise, all public school buildings regardless of their use, shall remain under the jurisdiction and control of the Board of Education pending action by the Board declaring any such building no longer needed for its own direct educational purposes....

In making its determination of the disposition of a closed building, the Board of Education shall take into consideration the following factors:

(a) The suitability and need for the land which the building occupies for playground space, athletic field, construction of new facilities, parking for school system employees, or other educational purpose; (b) The suitability and need for the building to house alternative, non-public school educational programs; (c) The suitability and need for the building to house public school programs or offices located in space which is leased or on loan to the Board of Education; (d) The potential need for the building to house future public

school educational programs; (e) The potential income or other benefit to the Board of Education through the sale or lease of the building.

Buildings which are no longer needed for direct educational purposes, and for which no alternative public school use or non-public school educational or alternative use is designated may be declared no longer needed by the Board of Education and released from the control of the Board for use or other disposition by the government of the District of Columbia.... [Those] which are retained under the control of the Board of Education for possible future educational use, shall be re-evaluated annually by the Board of Education, pursuant to recommendations from the Superintendent of Schools."

CH.V, §516

"All temporary and demountable structures which have been closed by the Board of Education shall be automatically declared no longer needed for direct educational purposes by the Board of Education and released from the control and jurisdiction of the Board."

3. Use of Facilities

Statutes

§31-801; 31-802; 31-803

Public school buildings, and grounds shall be used for those purposes "directly connected with the public school system." The Board shall control the use of buildings and grounds and limit that use to such purposes. It is authorized to accept, upon recommendation of the superintendent, free and voluntary service from its employees and other persons.

Control over construction and repairs of all school buildings shall be vested in the Director of Inspection.

Regulations

CH. V, §500

"The control of all public school buildings and grounds, as vested in the Board of Education by the Code of Laws of the District of Columbia, shall be exercised in accordance with the provisions of this Chapter.

The jurisdiction of the Board of Education includes all uses of public school buildings and grounds, regardless of the purpose for which the space is used or the agency, individual, or organization using such space.

First priority for use of public school buildings and grounds shall be given to the programs, activities, and requirements of the Board of Education. Where the use of such buildings and grounds is granted to another agency of the government of the District of Columbia, or any other individual or organization, the grant of use shall recognize and include the priority claim of the Board of Education for the use of such buildings and grounds.

Public school buildings and grounds shall include those portions of buildings and school grounds which are designated by law or design for use by other government agencies or non-

public school organizations unless such facilities are separate entities which operate independently of heating plants, utilities, and security systems which serve the portion of the buildings and grounds operated by the Board of Education....

The Board of Education shall have no authority to sell, lease, or otherwise divest the real property under its control and jurisdiction. In order for any real property under the control of the Board of Education to be sold, leased, or otherwise conveyed, such building or property must first be released from the control of the Board of Education to the government of the District of Columbia, pursuant to the provisions of this Chapter.

No use shall be made of any public school buildings and grounds which unlawfully discriminates against any person on grounds of race, color, sex, age, religion, marital status, sexual orientation, citizenship status, national origin, handicapping condition, or any other basis of unlawful discrimination under the laws of the District of Columbia."

CH. V, §501

"Public school buildings and grounds shall not be used for any sectarian purpose, except as provided in this section.

The buildings and grounds of the public schools may be used by parochial or private schools for sponsoring athletic contests, pursuant to the requirements of this Chapter, if both of the following conditions are met: (a) A specific smoking area has been designated by the principal or other school official pursuant to guidelines established by the Superintendent of Schools; (b) The smoking area has been approved by the D.C. Fire Marshall or by safety officials of the D.C. public schools pursuant to guidelines established by the D.C. Fire Marshall; (c) A specific space is also provided for non-smokers; (d) No smoking shall be allowed in public meeting rooms, auditoriums, or gymnasiums.

Public school buildings and grounds shall not be used for any commercial, profit-making, fund-raising, or other solicitation by any agency, individual, or organization, except as specifically provided otherwise in this section. The charging of admission

fees or other fees to defray costs or to offset expenses may be permitted if specific provision for such fees is included in the Use Agreement executed pursuant to this Chapter."

CH. V, §501

"Public school buildings and grounds may be used by the public schools and related public school support organizations, as defined in section 503.1 of this Chapter, for fund-raising activities pursuant to guidelines established by the Superintendent of Schools.

Activities which are by nature commercial or for profit which involve in-service training or supplemental education for employees of the Board of Education may be permitted use of public schools buildings and grounds pursuant to guidelines established by the Superintendent of Schools.

Fund-raising activities by other organizations may be permitted use of public school buildings and grounds upon the written recommendation fo the Superintendent of Schools and the approval of the Board of Education."

CH. V, §502

"The Board of Education may grant the use of public school buildings and grounds to individuals, organizations, or other agencies of the government of the District of Columbia in accordance wtih the provisions of this Chapter and the laws of the District of Columbia.

Non-public school uses of buildings and grounds under the jurisdiction of the Board of Education may include any of the following: (a) Alternative educational programs and services and other supplementary educational activities; (b) Civic meetings held for the purpose of free discussion of matters of public interest; (c) Regularly operated social centers and recreation centers; (d) Playgrounds, (e) Any other use which is sepcifically authorized by law or the Rules of the Board of Education.

All activities, meetings, programs, or other uses of public school buildings and grounds granted under this Chapter

shall be open to the public, unless specific provision for restricted admission is included in the Use Agreement executed pursuant to this Chapter.

Public school buildings and grounds may be used by otherwise qualified individuals, organizations, and agencies which charge a dues or membership fee so long as membership status or the payment of dues or membership fees is not a prerequisite for attendance at meetings held in public school buildings or on school grounds."

CH. V, §503

"The following school-related organizations shall be allowed to use public school buildings and grounds pursuant to the provisions of sections 500,501, 502, 506, and this section:

(a) Parent-Teacher Associations (PTA) or Home & School Associations which are duly recognized by the local school administration pursuant to guidelines established by the Superintendent of Schools; (b) Local School Advisory Committees; (c) Citywide educational organizations or local affiliates of national educational associations which are recognized by the Superintendent of Schools.

School-related organizations shall be granted the use of public school buildings and grounds without charge for one... meeting per month during non-school hours, pursuant to the following: (a) Time and space provisions set forth in the guidelines issued by the Superintendent of Schools pursuant to subsection 503.4; (b) The Superintendent of Schools may require that monthly meetings be held at a school other than the local school with which the organization is associated where regional facilities are available at a reasonable distance from the local school and where such use is more economical.

School-related organizations may use buildings and grounds during school hours without charge for meetings, committee meetings, or other purposes which do not conflict with the operation of the school and where such use does not incur additional costs to the Board of Education. Designation of local school hours for each building and other guidelines for such use shall be established by the Superintendent of Schools.

Use of public school buildings and grounds by school-related organizations shall be granted upon the recommendation of the local school administrator and approval of the Superintendent of Schools or his[her] designee pursuant to uniform guidelines established by the Superintendent of Schools."

CH.V, §504

"Use of public school buildings and grounds by non-public school related organizations, individuals, or other agencies of the government of the District of Columbia shall be granted pursuant to the provisions of sections 500,501, 502, 505, 506, and this section.

Use of public school buildings and grounds shall be granted only where such use is without cost to the Board of Education or where such costs are reimbursed to the Board of Education by other agencies of the government of the District of Columbia.

Grant of use of public school buildings and grounds under this section shall be pursuant to an executed Use Agreement which conforms to the requirements of section 505 of this Chapter.

All Use Agreements executed pursuant to this section which extend for a period of more than one...year shall be defined as "short term" Use Agreements.

All long term Use Agreements shall be reviewed annually and may be extended, modified, or cancelled subsequent to such review. No Use Agreement shall contain any provision for automatic extension beyond the original term of the agreement.

All Use Agreements shall be executed by the Superintendent of Schools and a copy provided to the Board of Education.

Long Term Use Agreements shall be subject to the prior approval of the Board of Education.

Grants of use and Use Agreements shall be valid only with respect to the original grantee. Grants of use and Use Agreements shall be non-transferable and shall make no provision for the designation of any sub-grantee by the user."

"Each Use Agreement executed pursuant to this Chapter shall include provision for at least the following:

(a) The name of the individual, organization, or agency with which the agreement is made; (b) The name, title, and authority of the person(s) responsible for the use of the building or school grounds and provision for contact between the person(s) and the Superintendent of Schools or his[her] designee; (c) A description of the particular room(s), space, or area to which the grant of use applies; (d) The specific times, dates, or other appropriate designation of the period(s) of use; (e) The specific use(s) covered by the agreement; (f) Reference to the general restrictions and conditions of use provided by this Chapter and any other specific conditions and restrictions applicable to the particular grant of use; (g) A description of the costs or estimated costs related to the grant of use and specific provisions for the payment or reimbursement of such costs, including all costs for custodial services and supplies, heat or air conditioning, utilities, telephone service, and repairs or modifications to existing structures; (h) Provision for the assignment of risk and liability for damages and personal injury, including any requirement for insurance coverage; (i) Inclusion of the applicable provisions of this Chapter in the agreement by reference.

Where appropriate, provisions of the Use Agreement with regard to costs may include a fee based on costs per square foot, a pro rata fee for maintenance and repairs, or other appropriate form of cost allocation, reimbursement, or payment, including the provision of in-kind services or other form of exchange of consideration for the costs of the use of buildings and grounds.

All Use Agreements shall be subject to cancellation at any time for violation of the provisions of this Chapter, violation of any provision of the Use Agreement, a finding by the Board of Education that the use conflicts with the priority needs of the school system, or other reasonable cause upon the written recommendation of the Superintendent of Schools with written notice to the user and the action of the Board of Education."

CH. V, §506

"The use of cafeteria or kitchen facilities, or any use of public school buildings and grounds for the preparation, handling, serving, or storage of any item(s) of food or drink by school-related organizations pursuant to section 503 of this Chapter shall be approved in advance by the local school administration and be subject to guidelines established by the Superintendent of Schools."

CH.V, §517

"Buildings which the Board of Education has declared no longer needed for its own direct educational purposes may be designated by the Board for use by non-public school individuals or organizations for educational and supplementary uses, as provided by law and this Chapter. Such uses may include, but are not limited to, day care and early childhood centers, alternative educational programs for residents of the District of Columbia, and offices of educational organizations. Such uses shall be subject to annual review by the Board of Education and recission for cause...

All agreements between the Board of Education and any non-public school individual or organization designated as user of a closed building shall be subject to review on an annual basis. The Board of Education shall maintain jurisdiction over such buildings and retains the authority to modify, revise, or terminate any such agreement or designation pursuant to such annual review process as the Board of Education shall determine."

C. School Property and Facilities

1. School Site

Regulations

6A-2.39 School Site

Before a site can be approved, the following conditions must be met: Each site shall contain the minimum number of usable acres determined by the grade level of the school and the number of students in the school. These conditions may be waived if there is evidence that a school site of that size is impracticable in any given situation.
The school board shall have a written agreement with the appropriate agency for the provision of electricity, water and sewage disposal or have made provisions for on-site utilities. Water and sewage approvals must be approved from appropriate state agencies. Provisions shall also be made for fire and police protection, primary and secondary access roads, drainage and the vehicular drives.

II.B.2.; Statute §235.40

III.A.2.; Statute §235.15; 235.16; 235;18; 235.19

III.E.Teacher; Statute §231.605

2. Physical Plant and Fixtures

Statutes

§232.36

The State Board of Education shall set sanitation standards for school facilities and grounds which may be augmented by the school board and administered by the superintendent.

§235.002; 235.01; 235.012-.016

In order to equalize education the legislature has "authorized state and district school officials to cooperate in establishing and maintaining school plants that will . . . (promote) the health, comfort, and . . . moral and intellectual development of school children" by updating and constructing educational facilities. Towards this end, the Office of Educational Facilities Construction has been established (the "office"). It "shall recommend to the state board rules, regulations, and procedures for the administration of its programs and activities." State departments and agencies shall cooperate and aid the office in its tasks. The office shall: ask local school boards to submit "long-range plans for educational facilities construction" and improvement of existing schools; instruct municipal governments to "construct and maintain sidewalks or bicycle trails within a two-mile radius of each school"; "approve or disapprove . . . the acquisition of sites"; "develop the mechanisms to be used in bidding specific projects"; "determine the roles of the different state and local government agencies . . . in the planning, design and construction of educational facilities"; "develop a mandatory, uniform building code for school construction; and encourage participation by "local personnel" and make sure "the needs of local communities be given consideration" in construction or improvement decisions.

ASSESSMENT AND PLANNING

The programs of the office shall be administered by an associate commissioner, appointed by the commissioner.

That person shall "report on the projected needs of school facilities construction" annually, review requests for construction funds and make recommendations to the commissioner.

§235.09

Non-students who wilfully deface or destroy school property, including the school grounds, "with obscene word, image or device" shall be guilty of a second degree misdemeanor.

§235.195

"Two or more school districts . . . [may] participate in a cooperative project to establish a common educational facility" by applying to the Commissioner of Education. The Commissioner, after reviewing a survey of the areas, shall make his/her recommendations to the State Board of Education.

§235.211;235.221

"Upon the request of the school board, the state board shall provide relocatable educational facilities for use at school centers where there is an immediate need for pupil stations or where . . . the pupil population will not remain stable in the near future years." Relocatable facilities may be loaned to school districts for this purpose.

All facilities constructed must conform to the State Uniform Building Code for Public Educational Facilities Construction.

A Special Facility Construction Account shall "provide necessary construction funds to school districts that have urgent construction needs but lack sufficient resources at present." The State Board of Education shall approve requests for such funds "within 30 days after receipt of the recommendations" (by the Office of Educational Facilities Construction).

§235.26

BUILDING CODE

There shall be "a mandatory, uniform, statewide building code for the construction of public education facilities." The code shall be flexible, yet "afford reasonable protection for public safety, health and general welfare." The Office of Educational Facilities Construction shall prescribe the necessary standards, which "shall have the force and effect of law" and supersede local school board or other building codes.

§235.30

Prior to the "construction or alteration of, or addition to, any building. . .the school board shall provide for . . . supervision and necessary inspection of the work."

§235.31-.34

CONTRACTS

School boards shall negotiate contracts for construction of public educational facilities with bidders who have been pre-qualified for school construction by the State Board of Education. Boards may opt to contract "only for . . . extensive repair, alteration, remodeling, renovation or improvement of any existing building." They shall publish their intentions in a local paper for 30 days, "after which a public hearing shall be held." A cost analysis shall be conducted before the awarding of a contract.

Bidders must be certified by school boards, pending a review and recommendation by the school superintendent. Rejected applicants may request in writing reconsideration of their applications within 10 days after notification of the original decision and the board must act "within 30 days after the filing thereof."

VIOLATION

Violation of a contract shall constitute a misdemeanor of the second degree.

§235.43

The Commissioner of Education may "internally organize those functions of the Department of Education

which relate to the construction of educational facilities." Such a reorganization should include the transfer of functions from areas of the Department of Education to the Office of Educational Facilities Construction.

CROSS REFERENCES

III.A.2.; Statute §235.15; 235.16; 235.18; 235.19

3. Use of Facilities

Statutes

§235.02

"The school board may permit the use of educational facilities . . . for any legal assembly, community use centers, or . . . voting places." The board shall set rules "necessary to protect educational facilities when used for such purposes."

§235.04-235.055

School boards may dispose of "any school land or real property" that is "unnecessary for school purposes . . . because of location, condition, or other cause." Motor vehicles used for driver education, however, shall be disposed of as contractually agreed upon. The board also has the "right to take private property for any public school purpose" and shall pay the "absolute fee simple title." School boards may construct school facilities on federal, state or local lands acquired by a "long-term lease" allowing the use of the land for at least 40 years or the life expectancy of the facilities, whichever is longer.

C. School Property and Facilities

1. School Site

Regulations

40-4210; 4220

"The State Board assumes the responsibility for supporting the wisest choice of sites on which public school facilities are to be constructed.

"The State Board shall establish a School Site Approval Committee" to evaluate proposed sites submitted by local school systems. The State Superintendent is directed "to develop . . . guidelines for the School Site Approval Committee and for local school systems in the selection of school sites." Criteria shall include minimum acreage; a clear title; available utilities; availability of public sewage or sewage treatment; "safety precautions can be provided to prevent hazards" from traffic, pollution or other sources; "the community area is appropriate for a school site in terms of . . . zoning, traffic and other environmental factors;" typography and geography are appropriate and the site is feasible for construction; there is "adequate space . . . for athletic and recreation area development."

2. Physical Plant and Fixtures

Statutes

§32-613a; 614a

"The State Board of Education shall grant funds to local units of administration for the purchase, maintenence, repair and replacement of equipment for instructional laboratories and for special educational classrooms."

The State Board of Education may "prescribe minimum requirements and standards" concerning "purchase, distribution, and use" of these facilities.

§32-649a

"The State Board of Education shall establish common minimum requirements which each public school facility must meet in order to be certified for use . . . [the] minimum requirements shall include those provisions of law and/or State Board policy on matters related to fire and physical safety, sanitation and health, . . . minimum space, size and configuration . . . ."

§32-809

Local boards of education shall "have authority to lease any schoolhouse or other school property for private educational purposes . . . ."

§32-909

"The county boards of education shall have the power to purchase, lease, or rent school sites, build, repair or rent school houses, purchase maps, globes, and school furniture, and make all arrangements necessary to the efficient operation of the schools."

The superintendent and the board of education must approve the construction of all school buildings.

§32-1401

The county board of education may build and equip schoolhouses in the county

§32-1404

Counties and municipalities "may contract with each other for the joint building and maintenance of high school buildings" for the use of the "children living in such municipalities and those living in the county outside of the limit of such municipalities."

§32-1903

"County, city and area boards of education may employ supervisors and special teachers of physical education and health education . . . ."

"The Board of education may allow the use of school buildings or school grounds after regular school hours and during vacations as community centers for . . . recreation."

Two or more school district boards may jointly employ a physical education teacher.

§32-2001; 2003

Public schools with two or more stories must have ample fire escapes in order to receive state aid. Minimum safety requirements include an easy means of exit and ample stairways.

REGULATIONS

30-1210; 1220

The State Board is required by law to prescribe "common minimum requirements which each public school facility must meet in order to be certified for use in school programs." It shall also set forth rules and standards for "location, construction, equipping, operation and maintenance of new school facility construction." All requirements shall be recommended by the State Superintendent, including enforcement procedures for schools which aren't certified. "This enforcement process shall provide for . . . deficiency remediation and . . . periods of consultation and probation" before state funds are withheld.

"The Office of School Administrative Services shall develop and implement . . . the common minimum requirements " criteria for new facilities and related procedures for certification and enforcement. Non-certified schools must submit "a plan for compliance with the common minimum requirements."

CROSS REFERENCE

IV.A.; Statute §32-420 -- 32-421

C. School Property and Facilities

1. School Site

STATUTES

§298-25

The superintendent of education shall have authority to recommend that state lands, including the buildings thereon, be sold once they are no longer necessary for school purposes.

CROSS REFERENCE

I.State Board of Education; Statute §27-11

2. Physical Plant and Fixtures

Statutes

§296-37

"The department of education shall . . . implement acoustic noise control and air conditioning of existing and new school facilities in areas affected by aircraft, traffic and other noise." The criteria for deciding whether such control is necessary shall be whether they are "required for effective classroom instruction."

Regulations

Rule 44.52

"Facilities. The school shall provide buildings and playgrounds which are adequate to provide a quality educational program in terms of the philosophy and objectives of the school.

The classrooms shall be sufficient in number, adequate in space, and so arranged as to be conducive to carrying on the assigned activities. Playgrounds and physical education facilities shall be well maintained, free from hazards, and large enough to permit an adequate program of physical education."

CROSS REFERENCE

I. State Board of Education; Statute §27-11

3. Use of Facilities

Statutes

§296-49

"The state department of education . . . may establish and regulate" after-school and weekend activities . . ."including but not limited to day-care programs, arts and crafts . . ." etc. Any volunteers working on these programs will be considered state employees "in determining the liability of the state . . . for the negligent acts of such persons."

§298-22

School grounds shall be made available after school hours for use by the department of parks and recreation or the recreation commission whenever this can be done without interference with the normal activities of the school.

§298-23

"All public school buildings, facilities and grounds shall be available for general recreational purposes and for public and community group meetings, whenever these activities do not interfere with the normal and usual activities of the school and its pupils concerned." The department of education "shall issue such rules and regulations as are necessary to carry out this section."

§298-24

"The fullest freedom shall be given to the citizens of the state to use for lawful purposes all public school buildings throughout the state . . ." when the structures are not being used for strictly educational purposes. A permit shall be issued by the proper authorities, "when the proposed use is shown to be lawful by the applicant."

Rule 6.1

All public school buildings, facilities and grounds shall be available for general recreational purposes and for public and community group meetings whenever these activities do not interfere with the normal and usual activities of the school and its pupils as provided by law.

Rule 6.2

Applications for use of school buildings, facilities, and grounds must be submitted in writing. Authority to approve applications is vested in the District Superintendent or his[her] representative.

Rule 6.4

School buildings may not be used for religious services or church schools except on an occasional and temporary basis.

Rule 6.6

Only school groups may use school buildings for sleeping quarters except with the written permission of the Superintendent. In the event of public emergency, school buildings are to be made available by the Superintendent.

Rule 6.7

School buildings and facilities shall not be used for private instruction except on an occasional and temporary basis.

Rule 7.1

Cafeteria equipment used in the preparation and serving of food shall be used only by organizations or persons for school related activities. Any exception must have written approval of the District Superintendent.

Rule 8.1; 8.8

The Department will cooperate with individuals, community organizations and agencies desiring to sponsor activities in the public schools, that are in

keeping with the purposes and educational aims of the schools, when such can be integrated into the school program without undue disruption or loss of instructional time for the student or impose an unreasonable added work load on the staff and students of the school.

Rule 8.3

Schools shall not be used to promote private interests and causes that have not gained general approval as being for the public welfare, nor for direct sales promotion of individual competitive goods or services.

Rule 8.5

All materials or activities initiated by private sources shall be judged on grounds of their (a) direct contribution to educational values; (b) factual accuracy; (c) good taste.

III.A.1.; Regulation §II, Ch. 1, Rule G-3

REGULATIONS

§ II, Ch. 1, Policy 66-11

Civil Rights - Location of New Buildings

"The Commission on General Education....is concerned that de facto segregation not be intensified or perpetuated by the location of new buildings.

We have, therefore, directed the Division of Schoolhouse Planning, before granting approval to any proposed site for a new building, or addition to buildings, to consider the effect on segregation.

We also suggest...that you give careful consideration to the effect on segregation of any new building or additions to buildings and that you confer with the Division... before deciding on any location or making any commitments for a site or addition to a building."

§II, Ch. 1, Rule B-1

Procedure, Planning and Approval in Remodeling Old, or Constructing New School Plants

Section 1

a) These rules "contemplate providing guidance toward construction to meet long range educational needs" through the Division of Schoolhouse Planning.

The Division's responsibilities are:

1) to determine the "educational need for the enlargement or remodeling of the school plant after the local community has studied the local situation."

2) To judge the adequacy of the proposed site "in regard to size, environment, location in relation to pupil population and . . . meeting desirable educational needs.

3) Improving the quantity and educational re-

lationship of the floor space in the added, remodeled or new structure."

c. "Request forms" for such construction must be filled out by the local school official.

d. When such request is properly received, an inspection will be made in the community tendering such request.

e. "Upon the basis of the inspection report and the recommendation of the Division . . . action on the request will be taken by the State Superintendent. . ."

f. If approved, the corporation may prepare preliminary plans which shall be submitted to the Division for "analysis and recommendation." The Division shall either make, or withhold their recommendation based on the factors specified above. If the preliminary plans are approved, the corporation "may proceed with the development of final plans and specifications."

g. Final plans must be approved by the Department. Such approval is assured if "no unapproved deviations from the preliminary has been made in the final plans and specifications.

h. Where the above procedures and standards have been complied with the Division is authorized to recommend approval to the State Superintendent who is authorized to act for the Commission on General Education, and issue approvals. Where, however there are "questionable situations" or "substantial variation," approval or disapproval must be determined by the Commission itself.

§II, Ch. 1, Rule B-4

Incorporation of Safe Areas Into School Facility Design

Section 1

Requirement

School corporation submitting preliminary plans for either new building construction or major building

addition shall indicate therein "that provision has been made for minimum safe area(s) within the structure."

"Safe area" is an area determined by a certified architect or engineer "providing a reasonable degree of protection . . . from high winds and/or debris, either falling or airborne."

d. The "minimum safe area" shall be 4.0 square feet per person to be based upon planned student and staff capacity of the building.

Section 2

Available Guidelines

"The Division of Schoolhouse Planning will furnish a set of guidelines to any school corporation requesting them."

Statutes

§72-1033--72-1033a

The school board shall control school district property. The school board may open the schoolhouse for public purpose under board regulations. The school board may contract with a public library board to allow the public library board to use the school library or to have the public library board provide library service to the school library.

§72-1625--1626

Any board is hereby authorized to purchase or lease grounds for public recreation parks and playgrounds on grounds and in buildings under the custody and management of such board.

The board of education of any city of the 1st or 2nd class may purchase and hold land for school sites outside the boundary of such city for purposes of planning to meet future school needs.

Regulations

§13-1357

The governing body of a city may lease to the board of education a military memorial park, recreation or athletic field which is adjacent to any public school property for not more than twenty years. The purpose of the lease shall be to provide adequate facilities for athletics, amusements, and recreational activities of the schools. The governing board may permit the board of education to build a stadium and other buildings. The board of education may charge admission fees for school activities.

When not in use by the schools, the park may be used by public, civic, religious and charitable organizations, and war veterans. The governing body

may issue permits for such use and allow an organization to charge admission fees.

CROSS REFERENCE

III.A.1.; Statute §72-8212

C. School Property and Facilities

1. School Site

Statutes

§160.320

"Any board of education may make provision for roads or passways to its school buildings . . . and may apply to . . . the governing authority of the city . . . to open the same as other roads and passways are opened for public necessity and convenience. If there is no road or passway from the residence of any pupil to the school building which he[she] attends, it shall be lawful for such pupil, in attending school, to walk over the property of any person between the residence of the pupil and the school building."

§162.030

"Each board may, when unable to make a [satisfactory] contract . . . with the owner for the purchase of real estate to be used for school purposes, initiate condemnation proceedings pursuant to . . ." statute.

§162.040

"So much property in each school district as escheats to the state, and is not required . . .[by statute]. . . to be disposed of in some other manner, shall vest in the state for the use and benefit of the public schools in the district. The board . . . may. . . enter upon and take possession of the property, or sue for and receive the porperty. The board may sell and convey any of . . .[such]. . . property."

§162.060

"No board of education may award a contract for the erection of a new building or contract for an addition to or alteration of an old building until the plan has been approved by the superintendent of public

instruction" in accordance with the rules and regulations of the state board of education.

§162.120 -- 160; 290; 300

"For the purpose of providing buildings for school purposes, boards of education of school districts . . . may convey to . . .[a] . . . city [or county] a[ny] site . . . held . . . by such boards of education."

"Every city [or county] to which a site for a building has been conveyed . . . shall" erect a school building on the site "for the purpose of supplying the board of education of the . . . district . . . with adequate buildings to carry out its duties and powers."

Any city [or county] which desires to so construct a school building shall cause plans and specifications giving "a full description of the building to be constructed, the details thereof and the manner of construction" to be prepared by an architect approved by the board of education. Said plans "shall be submitted to the board of education of the school district and to the superintendent of public instruction for approval."

"Immediately upon . . . approval . . . the board of education shall offer to lease the building." The length of the lease and the rental payments thereunder shall be computed so as to "amortize the total cost of the erection of the building . . . provide an adequate maintenance fund, and in addition . . . a sum sufficient to pay the cost of insuring the building." Such procedure shall be in addition to other methods of acquisition of school buildings by boards of education.

§162.310 -- 350

"For the purpose of providing buildings to be used in connection with any state educational institution, the governing body of the institution may convey to any person . . . real estate held by . . . the institution as a site for the buildings."

"Every person to whom a site is conveyed . . . shall immediately . . . contract with some person approved by the . . . institution, for the immediate erection on the site of a building . . . according to plans and specifications approved by the . . . institution." The contract shall contain a penalty bond to insure timely construction.

REGULATIONS

702 KAR 4:050

"The Superintendent of Public Instruction shall cause an inspection to be made of each proposed school building site or site addition and shall approve each site ....

The minimum size of school sites varies according to the type of school (elementary, junior high, middle school, etc. ...)."

CROSS REFERENCE

I.Board of Education; Statute §160.160

2. Physical Plant and Fixtures

Statutes

§162.070;075

All "contracts for the erection of new school buildings, additions and repairs to old buildings," or the purchase of supplies and equipment, except those which do not exceed twenty-five hundred dollars, "shall be made by the board . . . to the lowest and best responsible bidder complying with the terms of the letting, after advertisement for competitive bids pursuant to . . .[statute]. . . but the board may reject any or all bids. All necessary specifications and drawings shall be prepared for all such work."

This "shall not apply to purchase made . . . from the United States . . . or any agency thereof."

§162.440

Local boards of education may, upon approval of the superintendent of public instruction, establish an insurance fund which "shall be used exclusively for replacing or repairing any injury or destruction to any of the buildings owned by the board or to their contents when caused by national catastrophe, fire or riot . . . but not when caused by wear and tear or the natural processes of decadence or deterioration."

§273.060

"The governing body of any educational institution . . . shall have the same rights, civil and penal, against any person injuring or intruding upon any property belonging to it as were granted . . . [by stututes] . . . concerning the public property of a county. The net proceeds shall be paid to the governing body entitled thereto."

Regulations

702 KAR 4:060

"The structural design for construction of all new

school buildings, building additions and remodeling shall be in conformance with the ... Kentucky Standards of Safety and ... local building codes and regluations ...."

School dimensions, standards for facilities and classrooms shall be established for elementary schools, on the one hand, and for middle, junior high, and high schools, on the other hand.

702 KAR 4:070

"The design of the mechanical, ventilation, or air conditioning system in schools shall be in accord with the recommendations and standards contained in ... the American Society of Heating, Refrigeration and Air Conditioning Engineers Guide.

There shall be mechanical ventilation in all new schools. "All electrical work shall conform to the requirements of the National Electric Code... All plumbing shall be installed in accord with the Kentucky Plumbing Code." The heating system shall "insure uniform temperature of seventy(70) degrees."

702 KAR 4:080

"Relocatable classrooms which can be moved and assembled into instructional units on the school site may be approved on a year to year basis " following compliance with specific requirements dealing with space, weight, dimensions, and design of facilities.

CROSS REFERENCES

II.C.2.; Statute Art. 77, §26

II.C.2.; Statute Art. 77, §47

2. Physical Plant and Fixtures

Statutes

Art. 77 §9

The state board shall establish standards and guides for the planning and construction of school buildings. The board shall maintain a school construction planning service to assist in developing and reviewing school plans and in determining their suitability. It shall distribute planning information to the local boards of education.

Art. 77 §26

The state superintendent shall pass upon all proposals for school sites and all plans for construction or remodeling of school buildings. If the state superintendent does not approve any of the above she/he must state her/his reasons in writing. No instruction shall proceed without such approval.

Art. 77 §47

(a) The county board is authorized, subject to the approval of the state superintendent, to purchase sites, improve or construct school buildings. When the board determines a school is no longer needed, it shall be disposed of by the county commissioners. The county board shall consult an architect and a planning commission and shall conform to all applicable building regulations. When considering a school building site, a public hearing may be held if requested by the commissioner or citizens to give all parties an opportunity to present their views.

Art. 77 §130

A state school building construction aid program shall finance the construction of school buildings in each county through state grants. The formula to determine the amount each county receives is provided by law. The state department of education shall develop and the state board shall adopt regulations to administer this program. The state superintendent shall approve the expenditures for each county. If the appropriation

for the state program is insufficient to pay all costs in any given year, all eligible projects shall be reduced proportionately.

.Art. 77 §130A

". . . The state shall pay all costs in excess of available federal funds of all public school construction projects . . ." The state shall also reimburse the counties for their direct expenditures to school construction.

The Board of Public Works is authorized to adopt regulations to administer the programs provided for in this section. The state's obligation to pay for school construction extends only to those projects which comply with the Board of Public Works regulations. Any conflict between the authority of the state board of education or other state education agency and the rules and regulations of the Board of Public Works shall be resolved in favor of the Board of Public Works.

REGULATIONS

13.05.04.01 - 13.05.04.02

'The rules and regulations for the planning and construction of school buildings shall be those set forth in Planning Maryland School Plans . . .[which] sets forth 'desirable goals rather than minimum standards.' The method of achieving these goals is left to the discretion of the superintendent and the architect. The only minimum standards. . . are those conforming with local building codes and those affecting the health and welfare of the child."

FIRE REVENTION

Fire prevention standards for school planning and construction "shall include the following standards prepared by the National Board of Fire Underwriters and approved by the National Fire Protective Association:

1. Building exits
2. Installation of oil-burning equipment
3. Protection of openings in walls and partitions against fire."

CROSS REFERENCE

I.County Superintendent; Statute Art. 77, §60

3. Use of Facilities

Statutes

Art. 77 §97

The county board shall encourage the use of school facilities for community purposes. The board may refuse to allow a group to use the facilities if it appears likely that this use will provoke a public riot or breach of the peace. The board may permit a partisan political organization receiving more than 10 percent of the state vote in the preceding election to use the facilities for programs and meetings designed to elect a public official. Use of the facilities for religious purposes shall be at the discretion of the county board.

The board shall give priority to nonprofit day care programs before and after school hours and may make space available during school hours provided the state health regulations governing day care centers are met.

DAYCARE CENTERS

Art. 77 §98

Persons using the school facilities shall be responsible for all damage to property except ordinary wear and tear. If any person or group fails to do so, the county board may refuse all future applications by that person until the injury is repaired. Failure to return the premises to their prior state of cleanliness will, likewise warrant the county board in refusing to allow that person future use of the school facilities.

DAMAGE

3. Use of Facilities

Statutes

69 §8

The department of education may allow public school buildings to be used for specified courses if their use does not interfere with the normal activities carried on in the building.

71 §71

For the purpose of promoting the usefulness of public school property, the school committee may conduct educational and recreational activities in or upon school property under its control, and subject to its regulation shall allow the use of the property by individuals and associations "for such educational, recreational, social, civic, philanthropic and like purposes as it deems for the interest of the community." Religious affiliation or political affiliation does not matter. "This section shall not apply to Boston."

C. School Property and Facilities

1. School Site

Statutes

§380.87

"If authorized by a vote of the school electors, . . . the board may locate, purchase or lease" school sites in the district's name; "purchase, lease, acquire, erect or build" school buildings; "or sell or exchange" unneeded real property. "The board may properly" pass "title to property" and "may sell personal property in an amount" totalling not more than $500.00 in one school year without approval of the school electors."

§380.143

In the school district's name, the board may acquire, lease or equip sites in or out of the district "for schools, libraries, administration buildings, agricultural farms, athletic fields, and playgrounds" with funds provided for such purposes. The board may "sell, exchange or lease real or personal property" no longer needed by the district. However, real property "leased to a private individual, association or corporation shall not be exempt from property taxation" during the lease term. The board may convey land to the state for highway purposes "when the action does not divide the school property into two or more separate parcels."

§380.250

The board may: (a) locate and acquire, in the district's name, sites in or out of the district "for schools, libraries, administration buildings, agricultural farms, athletic fields, and playgrounds;" (b) acquire, or build and equip buildings for uses listed in subdivision (a); (c) pay for facilities listed in subdivisions (a) and (b) with district funds provided for that

purpose; (d) sell or lease, "subject to §380.1141," the district's unneeded real or personal property and give proper instruments passing title to such property; (e) maintain court condemnation proceedings where such taking is necessary for the public's use and benefit.

§380.361

A second class district may purchase or lease, in the district's name, "sites for schools, administrative buildings, agricultural sites, athletic fields, and playgrounds;" may sell unneeded property; and "may establish . . . and maintain agricultural, trade, and other vocational schools" inside or outside district limits.

§380.431

First class district boards may take, lease, and convey real and personal property for public school use "within and without its corporate limits." Except for powers given to regional boards under §380.481 or delegated to them by first class district boards, first class district boards "have the power to purchase, lease, and take by eminent domain all property; erect and maintain . . . all buildings; employ and pay all persons; and do all other things . . . necessary for the proper establishment and management of . . . public schools."

The first class . . . district board may adopt by-laws and regulations for its own government and . . . government of all [district] schools, property and pupils."

§380.1262

A school board may acquire real or personal property for school purposes and pay for it out of funds legally available for these purposes. The outstanding balance of all contractual agreements, exclusive of interest, shall not exceed one and one-fourth percent of the state equalized valuation of real and personal property in the district.

§380.1265

A school board may become a participating member with other units of government and spend building and site funds to acquire school sites through an urban renewal program.

§380.1621 — 380.1634

If a site for a school or other educational facility is designated, determined, established, or enlarged and the school board is unable to agree with the owner of the site on the compensation to be paid for the site or if the board is unable to procure a perfect unencumbered title in fee simple to the site, the board shall apply to the county circuit judge.

The circuit judge shall issue a summons commending the sheriff to summon 18 county residents to form a jury.

Prior public notice of the assembly of the jury shall be given by publication in a county newspaper.

The judge, the persons summoned as jurors, and the sheiff shall assemble in accord with the summons. If the owner could not be found, the officer shall certify the fact. Either party may challenge a juror for the same causes as in civil actions. A jury of 12 shall be chosen.

Subpoenas for witnesses may be issued. The jury may visit and examine the premises and from this and other evidence shall determine the necessity for using the real estate and the just compensation to be made for it. If the jury finds that it is necessary that the real estate shall be used, the jurors shall sign a written certificate stating this and the sum to be paid as compensation. The circuit judge shall endorse the certificate.

Upon filing the certificate in circuit court, the court shall render judgment for the sum. If the owner is unknown, insane, non compos mentis, or an infant, the school board may deposit the sum with the county treasurer.

The court shall then determine that the title in fee of the real estate shall be vested in the school

district and shall award to the district a writ of possession. The school district, after making the payment or deposit required, may enter upon and take possession of the real estate.

If the school site is encumbered by mortgage, levy, tax sale, or otherwise, the mortgagee or other parties claiming to be interested shall severally be made a party to the procedure and shall make proof relative to their proportionate claims to the site. The circuit judge shall settle their several claims.

Jurors and sheriffs shall be entitled to the same fees for services rendered under this part as for like services in civil cases in the circuit court.

I.School Districts; Statute §380.1132

II.A.3; Statute §380.690

II.A.7; Statute §380.628

2. Physical Plant and Fixtures

Statutes

§380.1261

A school board shall have general care and custody of schools and property of the district and make regulations for their management and preservation.

§380.1263

A school board shall not build a school on a site without having prior title in fee to the site, a lease for not less than 99 years, or a lease for not less than 50 years from the U.S. government, the state, or a political subdivision of the state.

A school board shall not build a frame school on a site for which it does not have a title in fee or a lease for 50 years without securing the privilege of removing the school.

§388.851

All school buildings, public and private shall conform to these specifications:

(a) all plans for and construction of buildings shall be prepared and supervised by an architect or engineer registered in Michigan. Before construction, the state superintendent's written approval shall be obtained. Such approval shall not be given until the state superintendent has obtained the approval of the state fire marshal, or appropriate municipal official, for factors concerning fire safety and of the health department for factors concerning water supply, sanitation, and food handling. (The state superintendent, in cooperation with the state fire marshal and the state health commissioner, shall publish a bulletin on good school building planning procedures.)

MINIMUM STANDARDS

(b) All walls, floors, partitions, and roofs shall be constructed of fire-resisting materials. All steel

members shall be protected by at least 3/4 of an inch of fire-resisting material.

(c) No wood lath or wood burning shall be used but this shall not prohibit use of finished wood flooring, wood door and window frames, wood sash or wood framing and grounds, for the purpose of installing wood trim, panelling, or similar facing materials.

(d) Every room enclosing a heating unit shall be enclosed by walls of fire-resisting materials and equipped with automatically closing fire doors and shall not be located directly beneath any portion of a school building constructed after the effective date of this act. Any natural or other gas used for heating purposes shall be chemically treated to give a very distinguishable odor if a leak should develop.

(e) In gymnasiums, fire proofings may be omitted from the trusses and purlins if they are more than 16 feet off the main floor level. Adequate exits shall be provided from all parts of school buildings. In all cases there shall be at least two stairways and the distance from the door of any class or assembly room to a stairway or exit shall not exceed 100 feet.

(f) Provisions concerning fire safety may be issued by the state fire marshal.

§388.852

The architect or engineer shall be responsible for constructing the building of adequate strength to resist fire and in a workmanlike manner according to approved plans.

§388.853

The state fire marshal shall inspect any building to determine whether the construction complies with provisions of this act. The marshal shall inspect each building at least twice during construction, one inspection to be made of the frame work prior to plastering and one inspection on

completion of the building. The architect shall notify the fire marshal when the building is ready for inspection.

A school building, existing or under construction, shall be exempt from state fire marshal inspection if located in a municipality where both the school board and the governing body of the municipality have certified to the state superintendent that fire safety inspections and measures are satisfactorily provided for by a municipal code administered by a full-time fire prevention and safety department. Before such certification can be submitted, the municipality shall first receive from the state fire safety board written attestation that the municipality has an ordinance for fire protection in schools equal to the minimum state requirements and that the municipality has a full-time fire prevention inspection service having a qualified program of school plan review and inspection.

§388.854

VIOLATIONS

The license or registration of any architect or engineer convicted of violating any provisions of this act shall be revoked Any school officer or board member failing in responsibilities under this act shall be guilty of a misdemeanor punishable by a fine not exceeding $500.00 or by imprisonment in the county jail not exceeding three months, or by both. Any violation of this act may be enjoined in a proceeding instituted by the state fire marshal, to be brought in the circuit court in the county in which the school buildings are situated.

§388.855a

Except as provided, the provisions of §388.851 to 388.855a shall not apply to one-story school buildings or additions nor to construction and remodeling where total cost is less than $15,000.00.

Subdivision (a) of §388.851 shall apply to all buildings, regardless of the number of stories, where total-cost exceeds $15,000.00.

For all construction involving total cost of less than $15,000.00, it shall not be necessary that a registered architect or engineer be employed, but plans for such buildings shall be submitted to the state fire marshal and to the state superintendent for criticism, suggestions, and approval.

I.District School Boards; Statute §123.19

II.C.2.; Statute §123.15

STATUTES

§37-7-315

In reorganizing schools under this chapter, the county board of education does not have to "specify or designate the location of the school houses or attendance centers therein." "Existing school buildings shall be retained as places of attendance until changed in manner herein." When existing buildings are not used as attendance facilities, the county board of education may use the buildings for "related school activity."

The governing body of any school district is empowered "to designate" school buildings' location and "to change, alter, or abolish the location of such school buildings and attendance centers from time to time as may be required by the educational needs of such school district." If a change or alteration involves construction of new facilities or major repair, the work shall not be "effective" until approved by the state educational finance commissioner and by the county board excluding municipal separate school district.

"The board of trustees or other governing authority . . . shall have the power and authority to specify the attendance areas which shall be served by each school building or attendance area, and to change or alter same from time to time as necessity requires."

§37-7-401

Where necessary from the standpoint of public transportation or efficiency of school operation any reorganized school district may, with the prior approval of the state educational finance commission, acquire land outside of school district boundaries and construct thereon.

§37-7-451

IIC1-MS 2
MISSISSIPPI

When any school district owns land not used or needed for school purposes or operation of the school, the board of trustees may sell or convey such "land, buildings or property."

2. Physical Plant and Fixtures

Statutes

§37-3-23

The director of the division of school building and transportation shall be responsible for school plant planning, construction and inspection and school transportation services.

§37-7-403; 407; 411

Two or more reconstituted school districts may cooperate in the construction of school buildings situated in either of the cooperating districts. No cooperation for operation shall be had before approval by the state educational finance commission.

The state educational finance commission shall consider the request in light of whether the plan "will promote the welfare of the school districts involved and the efficiency of the operation of the schools." Also before approval by the state educational finance commission the board of trustees of all school districts included should agree as to which board or boards will control the joint school district. All pertinent laws of the state shall apply to joint school districts.

CROSS REFERENCES

II.C.3.; Statute §37-7-317

III.C. School Employees; Statute §37-11-27

3. Use of Facilities

Statutes

§37-7-305

The board of trustees is empowered to lease school district lands for oil, gas and mineral exploration for a period no greater than ten years and the proceeds shall be paid to the school district fund.

§37-7-317

"The board of trustees is . . . authorized . . . to transfer jurisdiction and control of any recreational property . . . under its dominion to the governing authorities of any municipality or county in which such property is located provided such transfer is temporary" for the summer recess and provided the governing authority of the municipality or county concurs in approval.

§37-7-471; 473

Whenever the board of trustees of any school determines by resolution that any school facility is not needed for school or related purposes, that the sale of the property is not necessary to the financial welfare of the district and that use of the school facility "will promote and foster the development and improvement of the community in which it is located and the civil, social, educational, cultural, moral, economic or industrial welfare thereof," the board of trustees is empowered to "sell, convey, lease or otherwise dispose" of the school facility for the above purposes.

Such facility may be conveyed, leased, disposed of, or sold to "any group of persons . . . to be used as a civic, community, recreational or youth center, or to be used by any county or district fair association in connection with its activities, or to be used for church purposes, or to be used as a library or other public building, or "as a factory or otherwise in connection with an industrial enterprise, or to be used for any similar or related purpose or activity."

II.C.1.; Statute §37-7-451

C. School Property and Facilities

1. School Site

Statutes

§162.780 -- .785

"[T]he state board of education shall not sell or in any manner dispose of any real estate purchased by tax moneys belonging to the schools without an act of the general assembly authorizing the sale or other disposition," and "may acquire by purchase . . . or otherwise all necessary lands for the use and benefit of the Missouri school for the blind, Missouri school for the deaf and state schools for severely handicapped children. Whenever the board selects property . . . and for any cause without secure title . . . the board may condemn the property . . . and in such condemnation" may use the property "for the use and benefit of the school."

2. Physical Plant and Fixtures

CROSS REFERENCE

II.A.2.; Statute §162.915

C. School Property and Facilities

1. School Site

Constitution

MONTANA CONSTITUTION, ART. X, §4

"The governor, superintendent of public instruction, auditors, secretary of state, and attorney general constitute the board of land commissioners. It has the authority to direct, control, lease, exchange and sell school lands which have been or may be granted for the support and benefit of the various state educational institutions, under such regulations and restrictions as may be provided by law."

Statutes

§11-1006

"All . . . school districts . . . are . . . granted the . . . authority to . . . receive" real or personal property and to own and improve the same.

§11-2918; 2921; 3019; 3025

If a city or town is on the public domain, all school lands "must be conveyed to the school trustees of the school district" in which the city or town is located. If the lands of a city or town "are on a school section . . . and . . . owned by the state," the town may purchase the lands from the state.

§16-1009

The board of county commissioners may sell any real or personal property which it does not need to the school district "for its appraised value." Notice of the sale must be given if the value exceeds certain limits.

§75-8203

District trustees are authorized to select and purchase sites for school contingent upon the approval of the district's electors, except when property acquired is "contiguous to an existing site . . . in use for school purposes . . . . Any site . . . selected or purchased by the trustees shall . . . be . . . accessible and suitable" and comply with state board of health requirements and any "state-wide building regulations." The state board of land commissioners may sell or lease to districts a tract of state land not exceeding ten acres "to be used as a school site."

§75-8204

District trustees are authorized "to purchase, build . . . acquire or sell or otherwise dispose of sites and buildings" upon the approval of the voters, unless a bond issue or additional levy has been authorized or approved, or "moneys are otherwise available . . . and the ballot for the site approval for such building" included the building.

§75-8205

If district trustees "determine that a site, building, or any other . . . property of the district is . . . abandoned, obsolete, . . . or unsuitable for . . . school purposes," they may sell or dispose of the property. The trustees must "adopt a resolution stating their intent to sell," and post notices of the resolution. "Any taxpayer may appeal the resolution . . . to the district court by filing a verified petition" setting out the petitioner's objections. The court shall hold an informal hearing and its decision is final.

CROSS REFERENCE

IV.A.; Statute §75-8207

2. Physical Plant and Fixtures

Statutes

§69-1803 — 1806

All buildings used for education that are two or more stories high shall have at least one interior or exterior fire escape for each 5,000 square feet of area occupied by the building. Such buildings shall have "proper guide signs and exit lights" and an internal alarm system. "Exterior stairways . . . shall be located on buildings as remote from interior stairways as possible . . . . Public corridors shall extend to all fire escapes." Buildings shall have no more than one room between the corridor and the fire escape; "when a room intervenes, the corridor shall have a glass panel . . . that is easily broken."

§69-1808 — 69-1810

No educational building may be constructed or altered, for $1500 or more, unless "sketches or architectural plans" are approved by the state fire marshal. Buildings "designed for human occupancy owned or controlled by the state may not be constructed unless plans for . . . construction" are approved by the state fire marshal. All buildings shall be inspected at least every six months by appropriate officials for violations of fire safety regulations. Fire alarms, extinguishers, hoses and other equipment and fire escapes shall be included in inspections. Parties responsible for maintenance of fire safety equipment have a maximum of 90 days to remedy "defective conditions." The state fire marshall shall be responsible for "enforcement of the provisions of this act." Failure to comply with these provisions is a misdemeanor. The state attorney general or a county attorney may also enjoin "the further occupancy of . . . [a] building until compliance with this act."

§69-4117 — 69-4118

The department of administration "shall adopt rules for lighting, heating, ventilation, plumbing and sanitary arrangements for schoolhouses." The department must approve plans "before a schoolhouse is constructed," and it "must conform" to the department's rules "before being used." "The department shall make sanitary inspections of schoolhouses," and, if a building "is found unsanitary . . . shall direct that condition be corrected . . . . If the . . . conditions are not corrected within the time specified, the building . . . is a public nuisance . . .[and] either the department or a local board of health shall bring an action to correct the unsanitary conditions."

§75-7205

With the approval of the majority of a district's electors, the trustees "may establish a building reserve . . . for the future construction, equipping or enlarging of school buildings or for . . . purchasing land needed for school purposes in the district." The total of the building reserve and the district's outstanding indebtedness shall not exceed 5% of the value of the district's taxable property.

§75-8206 — 75-8206.1

"All school construction plans requiring state review and approval shall be submitted to the state department of administration for approval." The department is responsible for coordinating plan review and approval required by any other state agency. No public or private school shall be built or altered until plans have been submitted to and approved by state board of health and state fire marshal. Plans must be "prepared in accordance with the regulations of the board of health . . .[and] state fire marshall, and the building code . . .[of] the state building code council."

§75-8212

District trustees "have the authority and . . . duty to insure . . . real and personal property of the district."

§75-8308

District trustees "shall not make any payment . . . for the construction of school facilities until the plans . . . have been approved" by appropriate state agencies. Any person violating these procedures or the regulations of the state board of health or state marshal shall be guilty of a misdemeanor.

REGULATIONS

§48-2.6(14)-S6180

"The primary duty of a district with regard to school facilities is to safeguard the health and well-being of the children enrolled in its schools." In addition to sufficient classroom space, a quality educational program needs facilities for science, music, art, vocational education and guidance programs.

§48-2.6(14)-S6190

The school area must be large enough to provide adequate space for school facilities and activities. New and remodeled schools must comply with requirements outlined in the School Environment Guide, published by the State Department of Health.

§48-2.6(14)-S6200

School plant and facilities must be adequate for the number of students enrolled and the curriculum offered.

All high schools must have at least four classrooms in addition to a study hall and library.

New construction must be approved by the Superintendent of Public Instruction.

§48-2.6(14)-S6210

School grounds and buildings must be maintained in such a manner so as to assure the health and safety of students and staff.

CROSS REFERENCES

II.C.I.; Statute §11-1006

IV.A.; Statute §75-8207

3. Use of Facilities

Statutes

§60-701

Any school district can lease its property for oil and gas development purposes provided it does not interfere with the normal use of such property by the school district.

§62-211 — 62-213

A school district may co-operate with a city or town to operate a "program of public recreation and playgrounds; and acquire [and] equip . . . land . . . and . . . recreation facilities." A school district "may operate such a program independently" or co-operatively, or delegate its operation to a "board of recreation." Any board operating "a recreation program . . . is authorized to accept gifts," hire necessary staff, and "conduct its activities on" available property.

§62-214

When school property is used, for public recreation programs, the state board of education has authority to prescribe qualifications for recreational directors and instructors, and to prepare other needed materials.

§62-215

"The use of school facilities for recreational purposes . . . shall be secondary" to their use for "conducting a regular school curriculum."

§75-8209 — 75-8211

District trustees are authorized "to lease buildings suitable for school purposes" for a period of no more than three years. Trustees may also "rent, lease, or let any buildings or facilities of the district." The procedures outlined in §75-6808 shall govern "any letting of contracts related to the construction or furnishing of a new" or altered building.

C. School Property and Facilities

1. School Site

Statutes

§79-4.145 — 79-4.146

Any city or village may "convey title to any real estate . . . used as a public park, to the school district . . . within whose boundaries such real estate may lie." Such property may be used in the same way other school district property is used.

§79-4.151

"In order to provide for orderly school planning and development . . ., a planning commission considering . . . a zoning ordinance, or approval . . . of any development of real estate, shall notify the board . . . of each school district in which the real estate . . . to be affected by such a proposal lies" of the next meeting at which the proposal will be discussed and give the board a copy of the proposal.

§79-4.152 — 79-4.154

Any school board "may lease, purchase . . . and hold title to real property . . . outside its school district for laboratory, recreation . . . or educational facilities." District voters must approve any purchase over $1,000 in Class I or II districts or over $5,000 in Class III-VI districts. Voters need not approve the lease or acquisition of such property if it is contiguous to property outside the district already owned by the same. A school board "may enter into a lease or lease-purchase agreement for the exclusive use of . . . buildings or equipment," for a period not to exceed five years.

§79-4,4107; 4,114; 4,117

All school districts may exercise the right of eminent domain. The land to be taken for a school site may not exceed 50 acres, and "public parks and county or district fairgrounds" may not be taken. A public hearing must be held, with notice given. A district may purchase between one and ten acres per site of school lands from the state if it wishes to build a schoolhouse.

§79-504 - 79-506; 79-507

The voters of Class I and II districts may designate or change the site for a schoolhouse at a meeting by a vote of 55% of those present. If the voters fail to establish a site, the county superintendent shall determine the location. The decision will be final unless 55% of the voters request a change in writing.

The district voters "shall also have the power at any annual or special meeting (1) to direct the purchasing or leasing of any . . . site and the building . . . of a schoolhouse, housing . . . for the school employees . . ., or other school buildings; (2) to determine the amount . . . to be expended for such purposes . . ., and (3) to vote a tax on" district property. The voters may also "authorize . . . the sale of any schoolhouses, site, building, or other property belonging to the district."

§79-521; 79-530

"School property of any kind belonging to" a Class III, IV, V or VI district may only be sold at a regular meeting of the board of education with "an affirmative recorded vote of at least two-thirds of all" board members.

CROSS REFERENCES

I.State Board of Education; Statute §79-322 -- 327

II.C.2.; Regulation 14-(32) - 14-(34)

IV.A.; Regulation 14-(24) - 14-(28)

2. Physical Plant and Fixtures

Statutes

§79-541

The voters of a Class III or VI district may authorize the purchase or lease of a site and construction of a teacherage to provide housing for school district employees, determine the expenditure for such, and vote on a property tax to cover expenses.

Regulations

14-(52) — 14-(54)

Each secondary school shall maintain a safe and healthy environment both in the school building and on school grounds. Adequate classroom and laboratory space shall be provided.

3. Use of Facilities

Statutes

§79-4.142

School boards may "permit the use of public school buildings for public assemblages . . .[and] exact such rental as may be necessary" to cover costs.

C. School Property And Facilities

1. School Site

Statutes

§393.080

The board of trustees may build, purchase, or rent schoolhouses and other school buildings and may change the location of schools.

§393.140

The board of trustees may acquire, by exchange, purchase, lease or otherwise, any school site or other real property for necessary school purposes.

§393.150

The board of trustees may change the location of schoolhouse sites.

§393.220

The board of trustees may sell, rent, or lease real property of a school district when necessary, unless it would contravene a condition in a gift of property to the district.

§393.3251

The board may lease or rent school district real property having a rental value of up to $5,000 a year for up to a year without formal appraisal. "After determining the amount and the terms of the lease, the board of trustees shall in open meeting by a majority vote of the members adopt a resolution declaring its intention to lease the property."

2. Physical Plant and Fixtures

Statutes

§385.125

"The board may adopt standard rules and specifications for the construction of school buildings by the boards of trustees of various school districts. If such plans and specifications are adopted, provisions shall be made" for their production and distribution by appropriate rules and regulations. The board of trustees of a school district may use any such plans and specifications if it determines that they are in the best interests of the district. Before adopted, plans and specifications shall be submitted to the state public works board "whose written approval . . . shall be obtained prior to any further consideration" by the state board. RULEMAKING

§393.010

"The board of trustees of a school district shall: (1) manage and control the school property within its district; (2) have the custody and safekeeping of the district schoolhouses, their sites and appurtenances."

§393.0718

The board of trustees may appoint a custodian of property who shall have the power of a peace officer to carry out the intents and purposes of §393.071 to §393.0719, inclusive.

§393.090

The board of trustees may rent, purchase, or build suitable dormitories and dining halls for high school students and provide for maintenance and management of them.

§393.100

The board of trustees shall repair all school buildings when necessary. If it neglects to do so, the state department of education shall make necessary repairs up to $500 and will pay for it out of school district's funds.

§393.325

The board may lease any school building not in use for community center purposes. The lease must be made with a nonprofit association of a community or area within the school district. The building may not be used for private gain. The lease shall provide for cancellation of the lease and a return of the building to the school district, upon 30 days' written notice and demand.

CROSS REFERENCE

II.C.1; Statute §393.3251

3. Use of Facilities

Statutes

§393.071; .0713; .0716; .0717

The board of trustees may grant the use of school buildings or grounds for public, literary, scientific, recreational, or educational meetings or discussion, and shall establish rules and regulations for use. Such use shall not interfere with the regular conduct of school work and shall not allow for monopolization by any person or group. Use may be granted for up to one year and is subject to renewal or revocation at the discretion of the board.

§393.0714

Public agencies may use school buildings, grounds and equipment without charge to hold examinations for personnel selection.

§393.0715

School property may not be used for a program or movement designed to overthrow state or federal government by force, violence or other unlawful means. No board may grant use of school property for this purpose. Any violation of this provision is a misdemeanor.

C. School Property and Fixtures

1. School Site

Statutes

§195:16-b

Cooperative school districts shall have the power of eminent domain to acquire school property.

§199:2 --199:3

"The school board of cities shall have sole power to . . . purchase land for schoolhouse lots." All plans for the construction of schoolhouses in a city school district must be approved by "the school board of that district."

§199.8

"If ten percent or more of the voters of a district are aggrieved by the location of a schoolhouse," they may petition the school board which shall hold a hearing to determine the location.

2. Physical Plant and Fixtures

Statutes

§189:12

"The school board shall provide . . . fuel, and . . . make . . . repairs of the school houses and furniture . . . ."

§199:1

The location and construction of schoolhouses must be approved by the district school boards. The state board of education may make recommendations to the school board for "any changes it deems necessary."

§199:23

School buildings shall have at least one outside door that "can always be opened easily on the inside."

§199:24

A school building in which there are "one hundred or more" students shall have its main exit doors equipped with some safety device" so that the doors can be opened easily from the inside.

§199:25

School buildings that fail "to meet the requirements of the two preceding sections may be condemned as unfit for school purposes".

III.A.1.; Regulation, Minimum Standards and Recommendations - Elementary Schools, #319.13, pp. 3--24

3. Use of Facilities

Statutes

§199:22

A school district may permit the use of a schoolhouse "for a writing or singing school, and for religious and other meetings, whenever such use will not conflict with any regular school exercise."

§199:22-a

A school board "may operate or allow to be operated . . . a meal program on school property" for elderly persons. Such a program shall not be operated at the district's expense and "shall not interfere with the education of the students."

C. School Property And Facilities

1. School Site

Statutes

§18A:13-15

The board of education of any regional district may acquire, for school purposes, "lands or premises not exceeding 45 acres," located in any municipality adjoining the regional district.

2. Physical Plant and Facilities

Statutes

§18A: 4-13

"The state board shall conduct all building operations," including construction and repair work, and may hire architects and engineers to prepare building plans and specifications.

§18A: 13-41

A board of education of a new regional district "shall take charge of the educational facilities of the constituent districts" when the commissioner certifies to the boards of education of each constituent district that "suitable facilities and accommodations have been made available for the instruction of pupils in that district."

Regulations

§6:8-4.8

School buildings and sites shall be suitable to carry out the educational program of the school, making provisions for the handicapped. All school buildings are to be safe clean, and in good repair.

CROSS REFERENCES

I.Business Manager; Statute §18A:17-27; 28; 29; §18A:18-2--2.3

II.B.2.; Regulation §6:11-12.21; §6:11-12.22

3. Use Of Facilities

Statutes

§18A:4-12

The board may allow municipalities to use school lands for recreation a playgrounds, but the city shall be liable for any damage done to the property.

§18A:20-34

Local boards of education may permit the use of school buildings for education purposes, for use as public libraries, for holding civic and recreational meetings, and for elections.

C. School Property and Facilities

1. School Site

Statutes

§6-1-8

The state department of education and local public school districts are "empowered to sell or otherwise dispose of real or personal property" belonging to them subject to approval of the state board of finance.

§7-8-23

"Should any state lands be valuable or desirable for . . . school site purposes, the commissioner may subdivide and sell such lands for such purposes in accordance with law."

§7-8-59 --7-8-60

Any school district which may have use for any state lands shall have the right and power to lease the land and shall have preference over private lessees. But reasonable value must be paid.

§22-9-15

School districts may condemn property.

§77-4-2 I

The local school board shall "acquire real estate by eminent domain . . . ."

Regulations

Reg. No. 73-17

Before a local board may take any final action with regard to the selection of a school buidling site or changes in an attendance center, the local superintendent must obtain approval of the State Superintendent of the local board's evaluation of the effects of the site selection or attendance center change on the school bus transportation in the area.

Failure to obtain such approval may result in denial of additional State Transportation Distribution funds to cover increased costs of transportation caused by local school board action.

2. Physical Plant and Fixtures

Statutes

§4-16-32

". . . the state fire board is empowered to adopt and revise regulations relating to the safe conduct or use of . . . educational occupancies."

§6-1-4

"All officers and boards charged with the custody and control of public buildings . . . shall keep such public buildings insured for the benefit of the state and its political subdivisions."

§6-4-3

The municipal or county government may "vest the power to provide, maintain and conduct playgrounds, recreation centers, zoos and other recreational activities and facilities in the school board."

§6-4-5

". . . Any school board may join with any municipality or county in conducting and maintaining a recreational system, and may expend funds as are included in its maintenance budget for such purpose."

§6-4-15

A. "A school district may construct, own or operate community recreational facilities within the school district. A school district may operate the community recreational facilities on land owned by the school district or on land acquired by the school district for the . . . facilities."

B. "A local school board of a school district may enter into agreements with any state or federal agency . . . to obtain assistance in acquiring, constructing or operating community recreational facilities."

§77-17-2 --77-17-3

A school district may enter into a leasing contract only with a "lessor corporation" which is a nonprofit corporation organized solely for the purpose of acquiring or leasing land and erecting school buildings on the land to be leased. Leasing contracts shall not be longer than 30 years and shall only be made if the local school board certifies that the district lacks the funds to purchase the required building(s).

§77-17-4

Prior to a contract the lessor coporation must submit, and the state board must approve, proposed construction plans, specifications and estimated costs.

§77-17-13

"The School Leasing Law is supplemental to all existing laws relating to the acquisition, use and maintenance of school buildings by a school district." However, when a district proceeds under this law other laws on the topic of maintenance, use and acquisition need not necessarily be complied with.

§77-18-1

Each local school board shall secure the approval of the chief prior to the construction, re-opening, or letting of contracts for construction of any school building. Upon written application to the chief he/she shall within 30 days, approve or disapprove the plan. The plan must include 1) a statement of need; 2) the anticipated number of students affected; 3) estimated cost; 4) a description of the proposed construction; and 5) a map of the area.

§77-18-2

"No local school board shall construct or cause construction of any public school building within 400 feet of any main artery of travel without prior written approval of the state board."

When a local school board plans to spend $25,000 or more of state funds for construction, remodeling or expansion, the project must have state board approval. When the money being spent is locally raised the state board's role is limited to review and recommendation.

1. School Site

STATUTES

§401

Any school district meeting, by a majority vote, may designate a site for a schoolhouse. A board of education in a union free school district with a population of 5,000 or more may designate sites without voter approval.

§ 402

If a schoolhouse has not been used for a period of two years or longer, the district may vote to sell the property. Prior to a sale, the board of education may lease the building and grounds for one year periods. The board may also lease the property to nonprofit corporations for purposes relating to youth or the aged.

§404

Any school district or any city with less than 70,000 population may acquire real property for school purposes by gift or by condemnation.

§1910 -- 1911

The board of education of a central high school district shall designate sites for school buildings. If the board is unable to agree, the commissioner of education will determine the sites. The proposition will then be submitted to the voters for their approval.

§2511

The board of education may purchase real and personal property for school purposes. The board may institute proceedings to acquire property.

§2512

The board of education has authority to designate sites, purchase, repair, or construct school buildings. Sites and buildings must be approved by the board of education. In a city school district, the board of education must be advised by the city planning commission.

§2556 -- 2557

A board of education has authority to purchase, repair, improve, or construct new buildings. A site shall not be designated without a majority vote of the board of education, and all plans and specifications for school buildings must be approved by the board of education.

The board of education has authority to purchase real property for school use. The board may condemn property that it wishes to acquire for school purposes.

Part 155 (Statutory authority §207)

§ 155.1

It is the duty of each school district to provide suitable and adequate facilities. Each school district shall develop a long range plan for educational facilities and update it at least annually. The plan shall take into consideration the following: the educational philosophy of the district; projected student enrollment; use of existing facilities; and provision of additional facilities. Specifications for the construction or remodeling of educational facilities shall be submitted to the commissioner. Facilities shall be designed efficiently, with consideration for the health and safety of occupants, and the conservation of natural resources.

§ 155.3

School facilities must meet certain health and safety requirements. There must be an adequate number of exits and fire escapes, fire alarms, and adequate lighting, heating, and sanitary facilities.

§ 155.5

ENVIRONMENTAL IMPACT

Any action proposed by a district which might have a significant effect on the environment must be approved by the commissioner. Such actions incl[illegible] construction or expansion of facilities costing more than $10,000 or construction plans which affect scenic or recreational areas. If the commissioner decides that the plan will have a significant effect on the environment, an environmental impact statement must be prepared and filed with the commissioner.

III.School Officers and Employees; Statute §410

3. Use of Facilities

Statutes

§413; 414(a)

Free use of a school building shall be granted "for any examination."

"The trustees or board of education may adopt reasonable regulations" for the use of school buildings and grounds outside of regular school activities when such activities "will not be disruptive of normal school operations." Such activities may include: instruction in "any branch of education"; "public library purposes"; and "social, civic, recreational meetings" which are "open to the general public."

Subject to "satisfactory conditions", school officials may allow access to school buildings and grounds by news media for "the dissemination of information" of interest to the general public.

CROSS REFERENCE

II.C.2.: Regulation §155.1

C. School Property

1. School Site

STATUTES

§115-125

"Sites for schoolhouses" may be acquired by local boards of education, but a school board may not operate a school "outside its own [unit] boundaries." School boards have the power of eminent domain to acquire property for school purposes.

§11-126

Local boards of education have the power to sell any building, site or other real property owned by the board, when in there discretion such property is "unnecessary or undesirable". Such sale shall be made pursuant to statute.

§115-240 - 115-242

Local boards of education may "purchase suitable building sites" to be used for the construction of buildings by vocational building trade classes in the public schools. If the completed building is "not needed for public school purposes," it may be sold and the proceeds used "to finance similar building projects." All projects undertaken must be approved by a five-member advisory council appointed by the board.

CROSS REFERENCE

I.Local Boards of Education; Statute §115-27

2. Physical Plant and Fixtures

Statutes

§115-73

In order to "protect all school property in its district," school committees are "given custody of all schoolhouses . . . and other school property in the district." The committee must report any damage of school property to the county board of education.

§115-129

Local school boards have a duty to provide "adequate school buildings equipped with suitable school furniture and apparatus." In the event that "the existing . . . school building does not have sufficient classrooms," the local boards of education may acquire mobile classroom units for use as temporary classrooms. The mobile units must meet the approval of the State Board of Education and the "requirements of the North Carolina State Building Code."

§115-130

The building and repairing of all schools shall be under the control of the local boards of education. The boards shall see to it that a new building meets the standards for "structural and functional soundness and safety and sanitation."

§115-131

A local school board may not erect or repair any school building unless the site on which it is located is owned by them. A board may, however, appropriate funds for the "establishment of a school facility . . . in an adjoining county or city . . . unit" under a mutual agreement between the two school units and provided the board may send pupils from its district to the new facility.

§115-133

It is the duty of the local boards of education to "keep all school buildings in good repair." All principals and teachers shall be held responsible for damage

to school buildings by students due to lack of proper discipline unless such damage could not have been prevented by reasonable supervision. Local boards may permit the use of school facilities "for other than school purposes."

§115-149

All principals and teachers have a duty to exercise due care in the protection of school property against damage and failure to exercise such care may subject them to financial responsibility for damage caused to school property during the day. All principals must report such damage or any unsanitary condition to their superintendents immediately.

§115-150.1

The principals of all public schools shall have certain duties regarding fire hazards which shall include: making certain that "all corridors, halls, and tower stairways which are used for exits shall always be kept clear," and that "all doors used for exits shall be kept in good working condition." The principal shall make certain that all trash is removed from the school building daily. The principal shall report to the superintendent of schools on the inspections made.

§115-150.2

"Every public school building . . . shall be inspected every four months." Schools shall be inspected to make certain that they comply with safety regulations, that no fire hazards exist, and that all equipment is properly maintained. The principal shall make certain that all fire hazards are immediately corrected or called to the attention of the superintendent of schools.

3. Use of Facilities

Statutes

§115-133.3

School boards may permit the use of school buildings for political meetings as long as such use does not "interfere with school activities or functions."

C. SCHOOL PROPERTY AND FACILITIES

1. SCHOOL SITE

CONSTITUTION

N.D. CONST., §156

The superintendant of public instruction, governor, attorney general, secretary of state and state auditer shall constitute a board of commissioners. This board shall have the control of the appraisement, sale, rental, and disposal of all school and university lands, and the proceeds of such land shall be invested as provided by law.

STATUTES

§15-21-19

"In addition to its other powers, the state board of public school education shall have the power, in its sound discretion to authorize any school district to acquire sites, construct buildings, and operate schools to discontinue such schools and liquidate the assets thereof, outside its district boundaries if the school district is affected by the impact of federal activities in its area, or if anticipated increased enrollments make it necessary, and if consent is first obtained from the school district within which the school is to be located."

2. Physical Plant and Fixtures

Statutes

§15-35-01

"No building designed to be used in whole or in part, as a public school building shall be erected until a copy of the plans thereof has been submitted . . . to the superintendent of public instruction."

§15-35-01.1

". . . all construction, purchase, repair, improvement, renovation or modernization of any school building within a school district estimated by the school boards to cost in excess of twenty-five thousand dollars shall not be commenced unless approved by the superintendent of public instruction. The superintendent . . . shall not approve such school building project unless[she]he shall find that the building will be fully or substantially usable by any reorganized school district which in [her/]his judgment is likely to be created and which would encompass all or a major portion of the school district applying for approval of a construction project . . . , such school board shall have the right to appeal . . . to the board of public school education and the decision of the board . . . shall be final."

Regulations

Chapter I: I.3.12

The Director of School Construction has the responsibility to assist and advise school boards in planning and financing building programs and to approve building plans.

IIC2-ND 2
NORTH DAKOTA

A successful school building program requires careful planning and execution. All building projects should be discussed with the State Department of Public Instruction before preliminary plans are prepared, and preliminary plans should receive tentative approval before final plans and specifications are developed. The Department will advise, but not assume responsibility for aspects of construction.

The steps in any contemplated building program are:

To contact the State Department of Public Instruction and become familiar with laws and regulations governing construction procedures.

To secure the advice of the State Superintendent and his/her offices.

To determine the educational objectives of the project and the district's ability to accomplish them, and, in terms of these, to prepare the educational specifications for the project.

To locate the facilities on suitable sites.

To equip the facilities.

Site selection is the responsibility of the school board. It may acquire school sites upon its own motion. It should be planned several years in advance of the actual need, based on careful population, land use, and educational studies. Eminent domain or condemnation should be a last resort in obtaining school sites.

Site size should be: for an elementary school, ten acres plus one acre for each 100 pupils enrolled or fraction thereof, and, for a junior or senior high school or a combination elementary-high school, a basic twenty acres plus one acre for each 100 pupils enrolled, or fraction thereof. Wise long-range planning might provide for an additional two to five acres beyond present basic needs.

Building area may require from 70 to 150 square feet per pupil enrolled, depending on the grade levels, the number of specialized areas, and the school design.

A good physical education program is designed for the physical development of all children enrolled. Physical education space should be ample enough to meet all students' needs.

Facilities for outdoor science laboratories should not be overlooked. Sites with natural features may aid science instruction.

Regarding recreational use areas: kindergartens should have a fenced area with sandpiles, play equipment space, a wading pool, and shaded areas; elementary schools should have paved and unpaved space for vigorous activities; high schools should have adequate space for large team games and for individual or dual sports; and general activities for all age groups.

Supplementary use areas include: walks which avoid vehicular hazards; driveways and service drives; school bus and general parking; bicycle racks; buffer spaces between game areas; and areas for storage and maintenance equipment.

Whenever possible, school sites should be developed in connection with park sites.

New construction and remodeling work must have preliminary plans approved by the State Department of Public Instruction before final plans and specifications are developed and approved. Change in plans and specifications subsequent to final approval must have Department approval. Plans and specifications are required for any project costing $2,000 or more. Any new construction costing $25,000 or more requires permission to build from the Department and must have plans and specifications prepared by an architect registered in North Dakota. Only architects registered in North Dakota may be hired by public school boards.

All public school construction and remodeling must meet all North Dakota code requirements.

All building projects are to be insured while under construction, and all public school buildings located in incorporated villages or cities must be insured with the

State Fire and Tornado Fund or by private insurance companies.

All regular classrooms shall be above grade level. Classrooms for grades 1-8 shall have a minimum area of 750 square feet and for grades 9-12 minimum of 720 square feet. At least one entrance to the school building providing access to all facilities should be planned without steps; school buildings should be planned with handicapped children in need. Any school building with eight or more classrooms is to have an administrative unit and a fire resistive vault. Planning should be given to various kinds of storage required in a school building.

All schools with two or more rooms shall have at least two fire drills per month. One-room schools must have one fire drill per month.

Every public school must have an adequate flag pole and the U.S. flag must be displayed in suitable weather during the school hours of each day's session.

In general, furniture should be comfortable for students and in good condition. Outdoor equipment should include: bicycle racks; playground equipment; backstops, net posts, goal posts; seating facilities and bleachers; picnic tables, fireplaces; garden and lawn tools; drinking fountains; a watering service system, jumping, vaulting, and other track equipment; archery and driving range equipment.

Maintenance schedules should be classified on the basis of regular inspection under: emergency; summer; annual; and three-year, five-year, or larger controls. Maintenance should be based on sound custodial and business policies and practices. The janitor can add much to the educational program by adhering to a daily cleaning schedule. The janitor should be trained in the proper techniques for the cleaning and maintenance of materials and equipment in the building, and should be sent to in-service janitor workshops at school expense. The janitor should have regulations and a schedule for: hours of duty, frequency of various cleaning activities; requisition and storage of supplies; taking

inventories; and vacations. The janitor should be of good moral character -- a congenial and conscientious person. His/her appearance in dress is very important.

3. Use of Facilities

Statutes

§15-35-14

School boards may permit the use of school buildings for any appropriate purposes when not in use for school purposes. "Equal rights and privileges shall be accorded to all religious denominations and to all political parties." Such use shall not interfere with the operation of school activities. A charge shall be made to defray the cost of expenses.

C. School Property and Facilities

1. School Site

STATUTES

§3313.92

Any two or more district boards of education may enter into a cooperative agreement on construction, acquisition, or improvement of any building, structure or facility, including schools and classrooms, and for their management, operation, occupancy, use maintenance or repair.

CROSS REFERENCE

I.Board of Education: Statute §3313.17; 3313.18

II.C.2.; Statute §3313.37

2. Physical Plant and Facilities

Statutes

§3301.41

The board of education may acquire, warehouse, distribute, transfer, retransfer, recapture, revert and dispose of federal real and related personal property, and take the necessary procedural steps to dispose of such federal property.

§3311.218

When the boundaries of a joint vocational school district and a technical college district are coterminous, the board of education of the former and the board of trustees of the latter may agree to share the use of any physical facility or equipment owned or used by either district. The agreement shall be approved by resolution by both boards, and shall be filed with the state board of education.

§3313.37

The board of education of any school district, except a county school district, may build, enlarge, repair or furnish the necessary schoolhouses, purchase or lease sites, therefor, or rights of way thereto, or purchase or lease real estate to be used as playgrounds for children, or rent suitable schoolrooms.

§3313.38

The board of a school district that is inaccessible from the mainland at some time of the year for any reason, may purchase, erect or rent and maintain residence for a principal or teacher when it is necessary to insure adequate personnel for the schools. TEACHER RESIDENCE

§3313.92

(A) Any two or more district boards of education may enter into

a cooperative agreement on construction, acquisition, or improvement of any building, structure or facility, including schools and classrooms, and for their management, operation, occupancy, use, maintenance or repair.

(B) Any such agreement shall provide for (1) the method of construction, acquisition, etc. how it will be managed, maintained and the designation of one board with exclusive charge including advertising forbids and awarding contracts; (2) the manner in which title is to be held; (3) management and/or administration of such project which may be by one board of education; (4) the manner of appointment or sharing of all costs, which may be based on fixed amounts or on ratios and formulas or through tuition paid by both parties.

(C) Any agreement may provide (1) an orderly process for making determinations as to planning, operation, etc. which may include provisions for a committee, board or representative commission; (2) securing necessary personnel from the participating districts (3) standards for admission for students (4) conditions for participation of ther districts to the agreement; (5) establishing means of determining special charges for particular services and materials; (6) the method of amending, supplementing, terminating or withdrawing of a party to the agreement, and the terms of the agreement; (7) designation of the applicants for or recipients of any state federal or ther aid, assistance, or leave available by reason of any activities conducted under the agreement; (8) designation of one or more boards to maintain records of the activities conducted under the agreement; (9) other matters as the participating districts agree upon;

(D) For paying or contributing the board's share of the agreement it may:

(1) appropriate money from its general or other funds not restricted by law; (2) issue bonds and notes; (3) levy taxes; (4) contribute real and personal property for use under this agreement without the need for competitive bidding;

(E) Funds provided for the agreement shall be transferred to a separate designated fund to be used for such projects designated in the agreement. Such fund shall be subject to inspection and audit;

(F) As used in this section, construction acquisition or improvement of any building, structure, facility also includes acqusition of real estate and interests in real estate, site improvement and furniture, furnishing, and equipment.

(G) The agreement shall be subject to any laws made hereafter making express reference to such agreements and shall require transfer of any functions or property to any board, person or body hereafter established.

(H) The powers granted in this section are supplementary to and not in restriction of the other powers of the districts board of education and are to be "liberally construed to permit the achievements of this section and to permit the boards...to take advantage of federal grants and loan programs..."

§3318.01;02

Applications to purchase classroom facilities will be submitted to the state board from the school district board on the appropriate forms together with the district board's authorization. Classroom facilities includes "rooms in which pupils regularly assemble in public school building to receive instruction and education and such facilities and building improvements for the operation and use of such rooms as may be needed in order to provide a complete educational program, including the acquisition, construction, reconstruction, and other improvement and equipment of buildings and structures and the acquisition of sites thereof.

§3318.03

The state board will review all applications and make a determination as to the needs, costs available funds under this code which might be applied to the proposed project, and the assigned priority based on the relative degree of overcrowding on existing satisfactory classroom facilities.

Certain sections of the code are listed as exceptions. If the state board of education acts favorably, the project shall be conditionally approved and the state shall reserve and encumber its estimated share of the necessary funds under this code. Such conditional approval shall be submitted to the controlling

board for its approval. The controlling board shall approve or reject the state board's determination conditional approval and the estimated amount of the state's portion of the cost of such classroom facilities. If the controlling board approves, the superintendent shall certify such conditional approval to the district board. Such conditional approval and encumbrance of funds shall be in force for 120 days by which time the district board shall accept the conditional approval and the electors shall vote on the following proposals. (A) Issuing bonds of the school district board for its portion of the cost; and (b) levying taxes for the purpose of paying the cost of purchasing classroom facilities.

§3318.17; .18; .19

A detailed report on the classroom facilities acquired by the state and sold to the districts, the moneys received from the school districts and such other information on the nature and progress of this program shall be made biennially to the general assembly.

§3319.19

The board of county commissioners will provide and equip offices as a permanent headquarters for the superintendent of schools and shall provide the necessary heat, light, water and janitorial services. Such offices shall be used by the county board of education when in session, and shall be located in the county seat, or outside upon approval of the board.

CROSS REFERENCES

I.Board of Education; Statute §3313.201

II.A,3.; Statute §3311.215

3. Use of Facilities

Statutes

§3313.59

The board of education of a city, exempted village, or local school district may cooperate with other public officials to provide education, social, civic and recreational activities in public parks, libraries, museums and other public buildings and grounds over which such public officials may have responsibility.

§3313.75 -- .76

The board of education of a city, exempted village, or local school district may authorize the opening of schoolhouses for any lawful purposes providing such action does not interfere with the public school.

Such schoolhouses or other buildings maintained by public support may be "available for use as social centers for the entertainment and education of the people, including the adult and youthful population, and for the discussion of all topics tending to the development of personal character and of civic welfare, and for religious exercises."

§3313.77

The board of education of any city, exempted village, or local school district may adopt a policy whereby it may charge a reasonable fee for the use of school property when not in use for school purposes. A schedule of fees shall be listed and available to residents of the district. Such uses include: USER FEE

"A) Giving instructions in any branch of education, learning, or the arts;

B) Holding educational, religious, civic, social, or recreational meetings and entertainments, and for

such other purposes as promote the welfare of the community; provided such meetings and entertainments shall be non-exclusive and open to the general public;

C) Public library purposes, as a station for a public library, or as reading rooms;

D) Polling places, for holding elections and for the registration of voters, or for holding grange or similar meetings."

§3313.78

The board of education may permit school property to be used as a meeting place of electors to hold discussions of public questions and issues, upon request of a committee representing a candidate for public office or a recognized political party. Such meetings shall not be held during normal school hours, nor shall there be any charge for such use.

The candidate or organization holding the meeting shall be responsible for any damages or expenses incurred.

§3313.79

Any organization or group of citizens using school property for any purposes mentioned in this code "shall be responsible for any damage done... over and above the ordinary wear, and shall, if required, pay the actual expenses incurred for janitor service, light, and heat."

DAMAGE

C. School Property and Facilities

2. Physical Plant and Fixtures

Statutes

§70-24-115

Each local board of education is authorized and empowered to construct, "equip and maintain storm and fallout shelters," independently or jointly with other offices or agencies or other entities of local, state, and federal governments.

§74-360.11; 74-360.12

Each Board of Education may appoint campus police to protect the property of the schools and shall prescribe duties and fix compensation for those police.

Regulations

General Progress Criteria, p. 22

III. Physical Plant

A school's plant should be adequate for the school's educational program and student and community needs. Planning for more construction or alteration in facilities should take future needs into account. The State Board may "prescribe rules of governing the construction of school buildings and . . . furnish plans and specifications for school buildings."

Schools "should be well lighted and ventilated," and all facilities "should be maintained to insure the best hygienic conditions for pupils and teachers." Equipment, buildings and grounds should be maintained and used so as to protect students from injuries, and the school plant should have adequate fire protection and be familiar with the State Civil Defense Program.

"The number of students assigned to any class should be commensurate with room accommodations, equipment, books, courses of study . . . and health and safety provisions." A cafeteria, teachers' lounge and infirmary should be provided as needed by the school.

C. School Property and Facilities

1. School Site

CROSS REFERENCE

II.C.2.; Regulation §581-22-274

2. Physical Plant and Fixtures

Statutes

§332.155

"A district school board . . . may furnish, equip, repair, lease, purchase and build schoolhouses. . . ."

§333.290

The local school committee, under the rules and regulations of the county school board, cares for school property and makes recommendations concerning its improvement and use for civic purposes. It must visit the school regularly and report to the district superintendent of the school's progress and needs and the wishes of the community concerning the school.

§479.020

". . . all buildings . . . erected after May 28, 1925, or any building having three stories or more where the stories above the second story are actually used, shall be equipped with not less than one standard fire escape or one exterior stairway, for each 10,000 square feet of lot or ground space, or fraction thereof, occupied by the building.

(2) If the approval of the State Fire Marshal is secured with respect to a particular building, the requirements of subsection (1) . . . do not apply to such building if it: (a) Is constructed with two-hour fire-resistive structural elements of steel, iron, concrete or masonry; and (b) Has incombustible fire-resistive walls and permanent partitions; and (c) Is provided with not less than two inclosed smokeproof stairwells with fireman's access to each floor and to the roof, or is provided with other fire protection and escape which the State Fire Marshal finds adequate for the use of the building.

§479.050

Fire escapes in schools shall extend clear to the ground or "have an approved counterbalanced stairway, when the state fire marshal deems such to be necessary, as in the case of schools . . . ."

§479.080

"An electric red or green exit light . . . shall be placed in full view of hallways showing location of fire escapes. Each light must be kept burning from sundown to sunrise when such building is occupied. The light must not at any time be . . . out of order and when out of order must be immediately repaired.

All . . . schools . . . shall be equipped with a fire warning system in accordance with the rules and regulations of the state fire marshal."

§479.150

"The outside doors and other exits leading thereto, in every . . . school building . . . shall be so swung and hinged that they will open outward. Revolving doors shall not constitute any part of the door width required for exit facilities."

REGULATIONS

§581-22-274

"Each local district shall provide site and building environments appropriate for the district instructional and support program activities and for human physical needs."

§581-22-278

Local districts shall obtain Department approval of the district's building program, preliminary drawings,

and outline specifications which indicate the general scope of the project and types of structural particulars.

3. Use of Facilities

Statutes

§332.172

The district school board may permit the use of school buildings and grounds by residents of the district for civic and recreational purposes.

The district board may appoint a special supervising officer to have charge of the buildings and grounds, preserve order, protect school property and do all things necessary in the capacity of a peace officer to carry out the provisions of this section.

The district school board shall make rules governing the use of school buildings and grounds under this section.

CROSS REFERENCE

II.C.2.; Statute §333.290

C. School Property and Facilities

1. School Site

Statutes

§7-701

The board of school directors shall provide the necessary grounds and suitable school buildings to accommodate all children aged 6 through 21 who attend school. Such buildings shall be constructed, furnished, equipped and maintained in a proper manner. Suitable provisions shall be made for the heating (including the purchase of fuel), ventilating, adequate lighting, and sanitary conditions and for a safe supply of water, so that every pupil in any building may have proper and healthful accommodations.

§7-702

The location and amount of real estate required by school district for school purposes shall be determined by majority vote of all members of the board of school directors. "No new school building shall be erected without a proper playground."

§7-703

The board of school directors is vested with the necessary power and authority to acquire, in the name of the district, schools and real estate for school use.

§7-703.1

The board of school directors is vested with the power and authority to lease for an extended period of five years or more buildings or portions of buildings constructed or altered for school use provided the buildings comply with standards and regulations established by the State Board of Education and the Department of Labor and Industry.

§7-704

The board of school directors is vested with the necessary power and authority to acquire, in the name

of the district, for proper school purpose, any school building or real estate situated in another school district and to erect thereon school buildings and to sell, convey, transfer, or abandon the same or part.

§7-707

The board of school directors is vested with the necessary power and authority to sell unused and unnecessary lands and buildings by certain listed methods.

§7-708

No property acquired by the school district for school purposes shall be considered as abandoned until the board of school directors shall pass, by majority vote of the members, a resolution declaring the intent to vacate and abandon the property.

§7-721

If the board of school directors cannot agree on the terms of its purchase with the owners of real estate that the board has selected for school purposes the board, after having decided upon the amount and location, may take possession of the land, designate and mark the boundary lines and may use the land for school purposes. No board of school directors shall take by condemnation any burial ground or land belonging to any incorporated institution of learning, incorporated hospital association, or unincorporated church, incorporated or unincorporated religious association which is actually used for purpose for which it was established.

§7-735

The Governor shall appoint an advisory committee consisting of 15 members who will serve without compensation. The committee shall advise the State Board of Education on standards for school buildings. It shall state reasons for its recommended changes with reference to specific educational or health benefits expected to accrue and the associated expected change in construction or maintenance costs.

APPOINTMENT

§7-741

"Any school district or authority planning to construct or reconstruct a school building located in an area certified by the Department of Environmental Resources to be subject to mine subsidies, shall, before beginning design, obtain an evaluation of the substrata of the land upon which it will be situate from the Department of Environmental Resources."

§7-772

The board of school directors in each school district shall put and maintain the grounds about every school building in a neat, proper and sanitary condition and shall provide and maintain a proper number of shade trees.

§333

The several boards of directors of sub-school districts of 2nd class cities shall have the power to purchase ground, to erect, enlarge and repair school buildings, to purchase furniture, apparatus, books, stationary and fuel, to pay janitors, to borrow money, to provide for the payment thereof with its interest, and to levy taxes.

§791.11

The Public School Building Authority shall have the power to acquire by purchase or eminent domain proceedings, either the fee or such right, title, interest or easement in lands it deems necessary. However "no lands, interest in lands or property of a public service company, or property used as a burial ground or place of public worship, or a dwelling house and the reasonable curtilage not to be less than 300 feet appurtenant thereto," shall be appropriated by eminent domain. The right of eminent domain shall be exercised by the Authority in the manner provided by Pennsylvania law.

§791.16

Whenever any public school building or addition to any public school building is to be erected or

constructed on a site on, over or adjacent to any land which has or may have been mined for coal or any other mineral, the authority may request the Department of Mines and Mineral Industries to examine such site and to advise the authority whether it can be safely erected."

REGULATIONS

§21.41 -- 21.43

Every school district shall secure approval from the Secretary of the Department of Education prior to entering into contract for purchase of a school site. Application for approval shall be submitted on forms provided by the Secretary of the Department of Education and shall contain such school site analysis data as may be required by him/her. When approving an application for a school site, the Secretary of the Department of Education will certify that the proposed site conforms to the long-range building program of this school district.

In its application for approval of a school site, a school district shall set forth in detail the size and types of buildings to be accommodated, the variety and scope of education programs to be offered, the educational specifications applicable and the extent and nature of out-of-school activities to be served, along with such other information as may be required by the Secretary of the Department of Education.

The Secretary of the Department of Education may require the applicant school district to establish an advisory committee composed of architects, engineers, landscapers, real estate brokers, and other persons knowledgeable in matters relative to real estate to consult with the school district on its selection of a school site.

§21.61 -- 21.63

The Secretary of the Department of Education shall establish an advisory committee on school building standards, to be composed of architects, engineers, contractors, educators and others who may be interested in school building

construction.

The advisory committee shall offer advice to the Secretary of the Department of Education as may be requested by him/her or among other things requests for the granting of exceptions to building standards which may be set by the Board of Education or Secretary of the Department of Education, shall review procedures established by him/her for approval of school sites and school buildings, shall review standards established by him/her in conformity with these regulations, and may make recommendations to him/her on any other matter relative to school building programs.

The advisory committee on school building standards shall in January of each off-numbered year submit to the Secretary of the Department of Education and to the Board a report setting for its findings and presenting recommendations for improvement in the school building program.

§21.71

In the administration of these regulations, the Secretary of the Department of Education shall issue procedures and guidelines to facilitate compliance. The Secretary of the Department of Education may approve sites or school building projects or both, which deviate from these regulations, if such deviations are in the interest of education experimentation or if circumstances make compliance with regulations impracticable.

2. Physical Plant and Fixtures

Statutes

§5-506

Whenever graded schools can be made to accommodate the pupils of one or more one-room schools by consolidating said one-room school(s) with another school, either graded or ungraded it shall be the duty of the board of school directors to abandon the one-room school(s) and erect a suitable modern building for the purpose of consolidating and properly grading all of the schools. No pupil of the abandoned schools shall be required to walk more than a mile and a half to the new school building.

§7-705

"The board of directors of any fourth class school district, when they consider it necessary, may purchase or build a residence(s) for the use of the principal or teacher or janitor . . . in the same manner . . . as other school buildings are purchased or erected. [The] district may fix and charge a rental . . . to be paid into the school treasury," for the use of the building.

§7-731

The Department of Education, with respect to construction or reconstruction of public school buildings, shall have the power and its duties shall be: (1) to review all projects, and to make recommendations to the General Assembly and Governor; (2) to assist school districts by offering such architectural, engineering and financial advice; (3) to hold hearings on projects; and (4) receive and investigate complaints.

§7-731.1

No building facilities for school use authorized under §704.1 shall be leased by any school district until approved by the Department of Education. Such

approval shall not be given unless the building facilities meet standards required to operate public school buildings.

§7-733

All public school buildings built or rebuilt shall conform to standards established by State Board of Education for heating and ventilating systems, light area, floor space, cubical contents, substantiated need and cost standards for construction. The board shall, every three years, review and revise such standards in light of improved facilities, equipment and methods, changing philosophies of classroom efficiency, and with a view to utilizing natural advantages wherever available. Such standards shall permit opportunity for individuality in design and equipment.

The Secretary of Education shall have the power to deny approval of a project which fails to meet State Board of Education standards.

§7-736

No board of school directors shall use a common heating stove to heat any schoolroom unless such stove is in part enclosed so as to protect pupils while seated from direct rays of heat.

§7-737

No school room or recitation room shall be used in any public school which is not provided with ample means of ventilation and does not have some device to protect pupils fromcurrents of cold air. Every such room shall have a thermometer.

§7-739

In buildings used for school purposes, all doors shall open outward. Every school building shall be provided with necessary fire-escapes and safety appliances. New school buildings and additions equipped with windows and no emergency fire rescue door to outside, shall be equipped with escape windows approved by Department of Labor and Industry.

§7-740

The board of school directors shall maintain in a proper manner a suitable number of water-closets or out-houses, not less than two for each building, where both sexes are in attendance. Such water-closets or out-houses shall be suitably constructed for and used separately by, the sexes.

Out-houses and water-closets that are outside and detached from school buildings shall have entrances that are properly screened. Unless constructed at a remote distance from each other, they shall have separate means of access and if possible, the means of access shall be separated by a closed partition, wall or fence, not less than seven feet high.

The board of school directors shall keep all water-closets or out-houses in a clean and sanitary condition and shall not less than 10 days prior to the opening of any school term have them properly cleaned and disinfected.

§7-751

All construction and repairs including introduction of plumbing, heating, ventilating or lighting on school property by any school district where the entire cost exceeds $1500 shall be done under separate contracts to be entered into by the district with the lowest responsible bidder after due public notice. The board of directors may perform any construction or repairs with an entire cost of less than $5000 by its own maintenance personnel or have the work performed by contract after soliciting bids from at least three responsible bidders. The board may authorize the secretary of the board or other executive to award contracts for construction or repair where the entire cost is $1500 or less, without soliciting competitive bids.

Whenever a board shall approve the use of a prefabricated unit, the board may advertise for a single bid on all the work and award the contract to the lowest responsible

bidder. If due to an emergency a school plant or any part thereof becomes unusable, competitive bids for repairs or replacement may be solicited from at least three responsible bidders, and upon approval of the bid by the State Superintendent of Public Instruction, the board of school directors may proceed at once to make the necessary repairs or replacements in accordance with the terms of said bids.

§7-777

If any person shall willfully or maliciously break into, enter or deface any property used for school purposes, he/she shall be guilty of a misdemeanor, and upon conviction shall be sentenced to pay a fine of not less than $5 and not more than $200 or undergo an imprisonment in the county jail for a period not exceeding six months, either or both at the discretion of the court.

§21-2111

The superintendent of buildings shall be responsible for the conditions and care of all school buildings and premises. He/she may appoint assistants as the board may authorize and approve. All plans for new school construction, additions or repairs shall be approved by the superintendent of buildings and shall be submitted to the superintendent of schools for criticism.

'§791.3 - 791.5

The "State Public School Building Authority" composed of the Governor, legislative leaders and other designated officials is created for the purpose of constructing, improving, maintaining and operating buildings for public school and educational broadcasting facilities." The Authority has the powers necessary or convenient for carrying out its purpose.

Any school district or districts have the power and authority to enter into contracts with the authority to lease from the authority any school building, including furnishings and equipment, not to exceed 40 years.

All leases for intermediate unit facilities shall be filed as required under §919-A of the Public School Code of 1949 and shall be filed on such forms in such manner at such time as may be required by the Secretary. After the first full year of occupancy, the lessor shall agree to promptly furnish the lessee with copies of real estate tax receipts showing the amount assessed and paid for upon the described premises. If such receipts show an increase or decrease of 5.0% or more, the rental will be adjusted to reflect such change.

Lease may be terminated by mutual agreement of lessor and lessee.

The lessor shall agree to make at his/her expense all alterations or repairs specified in the rental option for the premises before lesses takes possession. Until the alterations are completed, the lessee shall not be liable for the payment of rent.

The lessor shall agree to make at his expense all interior and exterior repairs, to keep and maintain the premises in a tenantable condition, including all the plumbing, drainage, heating equipment and electric wiring during the term of the lease and any renewals or extensions; to assume liability for all damages resulting from failure to maintain the premises in a tenantable condition; and to purchase and maintain adequate insurance on the premises.

§21.1

Well-planned, well-constructed, well-maintained educational facilities are essential to achieve superior education of the Commonwealth's citizens of all ages.

§21.21 -- 21.23

Approval of school buildings shall be based upon data and plans or projected in the long-range building plan. The number and area of reimbursable spaces for general use, instructional use and service use shall be

determined according to schedules developed by the Secretary of the Department of Education based on formulas established by him/her.

A list of necessary equipment will be made available by the Secretary of the Department of Education for consideration by school districts of those projects in which cost of equipment is a factor in determining reimbursement.

§21.31 -- 21.33

All architectural and engineering plans for the construction of new school buildings shall be approved by the Secretary of the Department of Education as conforming to these regulations and to such standards as may be established by the Secretary of the Department of Education.

At the time of final submission of plans to the Secretary of the Department of Education, a school district shall furnish certification that all necessary approvals have been obtained from local, regional and State agencies relating to health, safety, authentic design, highway access, freedom from flooding, subsidence and conformity to community planning.

The Secretary of the Department of Education shall establish design standards relating to the health, comfort and safety of school buildings.

3. Use of Facilities

Statutes

§7-706

"Any school district shall have the power to join with any city, borough, incorporated town, township, or county . . . in equipping, operating and maintaining parks, playgrounds, playfields, gymnasiums, public baths, swimming pools, and indoor recreation centers, and may appropriate money therefor."

§7-709

The board of school directors may lease for any lawful purpose, other than educational use, unused and unnecessary lands and buildings of the district pending sale or re-use for school purposes.

§7-775

The board of school directors may permit the use of its school buildings and grounds for social, recreation and other proper purposes, under such rules and regulations as the board may adopt.

C. School Property and Facilities

1. School Site

STATUTES

§16-9-5

Any city or town, from time to time may take lands therein, improved or unimproved for the location of schoolhouses, the enlargement of school lots, and for school purposes, provided that the amount of the same at any one taking shall not exceed five acres.

II.C.2.; Statute §16-2-15

II.C.2.; Statute §16-8-4

III.A.1.; Regulation, Standards for Approval and Accreditation of Secondary Schools

2. Physical Plant and Fixtures

Statutes

§16-2-15

"The school committee shall locate all schoolhouses, and shall not abandon or change the location of any without good cause. Unless otherwise provided by law, the school committee of each town shall have control of all public school buildings and property, including repairs of said buildings and the purchase of furniture and other school equipment."

§16-8-4

The board of regents is empowered to co-operate with the United States commissioner of education in his/her program for "surveys and state plans for school construction", to regulate necessary expenditures relating thereto, and to survey the need and develop the plans for construction of additional school facilities as the state may need or be able to finance.

§16-9-4

Any town may vote, in a meeting notified for that purpose, to provide schoolhouses, together with the necessary fixtures and appendages thereto.

§16-21-3

The state board of education from time to time shall approve proper standards of lighting, heating, ventilating, seating, and other sanitary arrangements of school buildings, and proper regulations necessary for the safety and health of persons who may attend school.

Regulations

ARTICLE I: ROLE AND FUNCTION OF THE STATE EDUCATION AGENCY, pp. 1-18.1 -- 1-18.3

D. BUDGET

Regulations for Determining the Necessity of School Construction (BR, 3/26/75)

In determining the necessity of school construction, the local school district shall assemble for its consideration: the present pupil population and projected pupil population for the next five years; the estimated population of the community; an evaluation of existing buildings in terms of serving present and projected program needs; evidence of coordination of proposed construction with other local planning; information about availability of space in adjoining school districts, federal schools, transportation, and available community facilities suitable to educational use; and an analysis of the current financial status of districts.

When, after evaluation of this data, the local school committee believes that there is a need to construct new and/or additional facilities, this data should be compiled into a single proposal and submitted to the Commissioner of Education, along with:

- a description of the construction project(s), including age groups to be served, approximate size of building(s), and estimated total cost;
- description of site (already located or being sought), including size, location, and availability of utilities; and
- a written outline of educational specifications for the new building(s).

Approval of a proposed construction project does not include endorsement of materials, mechanical equipment, or other devices mentioned in the plans or specifications.

GUIDELINES FOR THE DEVELOPMENT AND MAINTENANCE OF A DISTRICT FIVE-YEAR SCHOOL CONSTRUCTION, MAINTENANCE AND REHABILITATION PLAN (1975)

FIVE YEAR PLAN

The state department of education requires each school district to develop and maintain a five-year school construction, maintenance and rehabilitation plan. The plan is intended to provide each school system with a continuous basis for planning educational facilities and a continuous basis for choosing alternatives in allocating facility resources.

The school committee initiating the plan should designate specific individuals to provide leadership and be responsible for the implementationof the plan. A planning committee should be named, composed of representatives or designees of the school committee, the superintendent, the state department of education, instructional services, business services, and building principals. Professional resources should be called upon in particular areas of competency.

Each school district's five-year plan should consist of four components, as described below.

Part I shall describe the educational program and include a history of quantitive and qualitative change in the district's educational program; a description of the character of the local community and its relations with the school system; and an account of general goals of education in the district and of the policies and operations of the pre-, elementary, middle, high school, and special programs and instructional and general support services in the district.

Part II shall provide a comprehensive evaluation and report of the utilization and condition of school facilities now existing in the district. The evaluation should be the result of a visit to each school by an evaluation team, accompanied by the school principal. A uniform checklist should be used as an evaluative tool.

Part III shall offer a master plan for the next five years showing existing and future schools with their anticipated attendance boundaries. This should represent the most efficient method of schoolhousing to meet district needs.

Part IV, which is not due until the initial five-year plan has been in effect for a year, shall state the district's plan for review and continuing evaluation of the five-year plan and state the plan to insure continuous up-dating of all parts of the five-year plan. An annual update must be submitted to the Commissioner of Education.

C. SCHOOL PROPERTY AND FACILITIES

2. PHYSICAL PLANT AND FIXTURES

REGULATIONS

§43-180

Buildings and grounds shall be adequate in size and arrangements to accommodate the program offered. Buildings and grounds shall be kept clean and comfortable. Each room shall be designed and equipped to serve specific purposes. Adequate lighting ventilation and heating shalll be provided in all utilized areas. Buildings and grounds shall be properly maintained, safe and attractive.

All operating school facilities shall comply with safety regulations prescribed by the State Fire Marshal and with sanitation and health regulations prescribed by the State Board of Health.

Playgrounds, physical education and play equipment shall be adequately maintained and safe.

Private offices shall be provided for each principal and for counseling services.

All vocational education laboratories and facilities shall meet the standards prescribed by OSHA and governed by the Department of Labor. Courtesy inspection and assistance are available from the South Carolina Department of Labor.

§43-181

Each high school shall have a sufficient number of fire extinguishers. The extinguishers must be regularly inspected and clearly designated throughout the building.

C. School Property and Facilities

1. School Site

Statutes

§5-1-7

The commissioner of school and public lands shall "conduct all sales" and supervise "all leasing of school and public lands."

§13-3-26

The state superintendent of schools shall "make suggestions to district officers" regarding their duties as to "school facilities and sites, . . . equipment and grounds."

§13-24-1

Local school boards have authority to "purchase or lease land for school purposes."

§13-24-2

Local school boards have "eminent domain power" for the taking of school lands.

§13-24-14

The superintendent of schools shall approve all building plans, and all building sites.

Regulations

§24:04:01:01--02

The following are minimum acreage requirements for school sites. They are applicable to new or proposed sites as well as existing sites where school housing capacity is to be increased through remodeling or additional buildings. The acreage criteria are:

(1) Primary schools, grades nursery through three: at least three acres plus 1/2 acre for each 100 pupils in planned ultimate enrollment.

(2) Elementary schools: at least five acres plus one acre for each 100 pupils in expected ultimate enrollment.

(3) Middle schools (grades 5 through 8 usually): at least seven acres plus one acre for each 100 pupils in planned ultimate enrollment.

(4) Junior high schools: eight acres plus one acre for each one hundred pupils in planned ultimate enrollment.

(5) Secondary schools: at least twelve acres plus one acre for each 100 students in planned ultimate enrollment.

(6) Combination schools (kindergarten through twelve): at least fifteen acres plus one acre for each 100 pupils in planned ultimate enrollment in grades 7 through 12.

(7) "Sites for vocational schools shall consist of not less than 20 acres plus two acres for each additional course offering over five."

AUTHORITY: SDCL 13-24-14

CROSS REFERENCE

I.Local School Board; Statute §13-8-39

2. Physical Plant and Fixtures

Statutes

§13-3-25

The state superintendent of schools shall have the power to supervise "the acts . . . of the school board pertaining to the management . . . of such schools . . ., the maintenance and repair of facilities . . ., the maintenance of sanitary conditions . . ., and to direct repairs" as needed.

§13-24-11

It is the duty of local school boards to "equip, provide for . . . maintenance . . ., and keep in . . . repair" all school buildings.

§13-24-16

In order to provide for the "health conditions of the school," each school must have "sanitary facilities," "suitable drinking water," adequate "electrical service and lighting facilities and a telephone."

C. School Property and Facilities

1. School Site

STATUTES

§801

"County and city boards of education are empowered to exercise the right of eminent domain and to take and use the property of individuals or private corporations for public school purposes . . . ."

§802 — 804

Not more than seven freeholders shall be appointed who shall constitute a board of appraisers and shall determine the cash value of the land.

If the owner of the property and the board of education do not agree on a price, then the appraisers shall fix a value on the land.

If the owner and the board still cannot agree on the appraisal, then the board, after posting a bond, can build on the property.

§805 -- 807

"All municipal corporations establishing or having any free public school . . . . are empowered to take and condemn the lands, property, property rights, privileges, and easements of individuals and/or of private corporations . . . for the purpose of school sites or the extension or enlargement of grounds" to build schoolhouses or other school buildings.

The owner shall be compensated for such property.

REGULATIONS

P 107

"The Commissioner of Education shall approve all new school sites."

2. Physical Plant and Fixtures

Statutes

§813

The county board of education shall have custody of county school property. The board may designate the principal of the school to look after the grounds, buildings and equipment; a custodian can be appointed to guard or care for the property during vacations.

Regulations

pp. 102 — 103

All buildings housing schools shall be approved only when the school plant conforms to minimum standards and when a reasonable and definite effort is being made to meet these standards.

Adequate storage space "shall be provided [for teaching material] in each classroom, . . . for pupil's wraps, [and]. . . for janitorial supplies and equipment." "There shall be no storage space under any stairs."

All schools "shall have an adequate building maintenance program . . .[and]. . . make provisions for satisfactory housekeeping, well-kept grounds, . . and special and constant sanitary maintenance of kitchen, cafeteria, and toilet rooms."

pp. 103—104

Schools shall be housed in structurally safe buildings, whose "total exit facilities . . . shall be at least 22 inches in width for each 100 people to be housed at one time." Single exit doors must be at least 36 inches wide. All buildings "shall have at least two exits remote from each other."

"Adequate fire extinguishers . . . shall be provided for all buildings. [They] shall be serviced annually."

Glass different from wire glass shall not be used in interior doors or interior corridor walls. "No glass in any building shall be larger than 1400 square inches unless it be an approved safety glass" such as wire glass, laminated glass, tempered glass or approved plastic sheet.

Handrails shall be "on every stairway or outside step with four or more risers (3 steps)."

"All classroom and exit doors shall open outward," the latter being equipped with "panic hardware."

Ventilation shall be provided for all classrooms, through different methods (natural, gravity, or mechanical ventilation).

p. 104

"One drinking fountain shall be provided for each 60 pupils enrolled."

pp. 104-106

"Toilet rooms for each sex shall be provided, and there shall be at least one water closet of appropriate height for each 30 girls and one for each 40 boys . . . . Lavatories shall be provided . . . in the ratio of one fixture for each 50 pupils. . . . A percolation test satisfactory to the State Department of Public Health shall be run before locating a disposal field."

Adequate lighting shall be provided to the schools "in such amounts as to [equal] 30 foot candles on desk top."

A separate space shall be provided for clinical health services.

All power driven equipment used by the school "shall be properly and adequately equipped with safety devices."

Cafeteria facilities shall be provided with adequate washing facilities, refrigeration, hand washing and toilet facilities, screened openings, dry food storage, and fly chaser fans.

Tables and utensils shall be "kept in a sanitary condition."

p. 108

"The Commissioner of Education shall approve all plans and specifications for construction including relocatable or portable, and mobile buildings."

p.109

"The State Commissioner of Education shall make such inspections as he[she] may deem necessary . . . ."

p.114

"Every school shall be provided with an area for physical education consisting of a well-drained, smooth playground . . . ."

p.124

"The State Commissioner of Education is . . . authorized to grant waivers of any of these standards if in his[her] discretion it seems advisable because of factors which might improve the location or facilities for the total school attendance centers."

2. Physical Plant and Fixtures

Statutes

Title 20; Ch. 4, Art. 678g

"It is the intent of this act to eliminate, insofar as possible, unnecessary barriers encountered by aged, handicapped or disabled persons, whose ability ... is needlessly restricted when such persons cannot readily use public buildings."

This act applies standards and specifications for the adjustment of such things as camps, entrance doors, stairs etc., which includes design criteria and site development.

Within this act "[e]very effort shall be exercised to obviate hazards to individuals with physical disabilities."

"The responsibility for administration and enforcement of this act shall reside primarily in the State Building Commission, but (it) ... shall have the assistance of appropriate state rehabilitation agencies in carrying out its responsibilities under this act."

"The State Building Commission shall have all necessary powers to require compliance with its rules and regulations ... including powers to institute and prosecute proceedings in the District Court to compel such compliance...." The commission is also "authorized to promulgate such rules and regulations as might reasonably be required to implement and enforce this act", to receive all plans and specifications for construction of buildings subject to provisions of this act for approval and make inspections of buildings already constructed to certify that privately owned structures are free of architectural barriers.

Title 63; Ch. 2; Art. 3955, 3959, 3960

"The owner of each building, which is or may be constructed within this State ... in (the) case of schoolhouses two or more stories in height ... shall provide and equip such buildings with at least one adequate fire escape ...." Such is also the case with school buildings owned by any school district in which "schools of any kind are conducted". Whether the school is two or more stories in height it

FIRE ESCAPES

will have one fire escape for every two-hundred and fifty students.

The State Department of Education is to approve fire escape passages, complying with set standards whether it is exterior or interior fire escapes. Fire escapes for new school buildings "three stories or more in height ... shall be interior ...." New school buildings two stories or less need no fire escapes. All fire escapes are to fit the standards set forth in this article.

"Each board, commission, offical or person having charge ... of any building included in ... the article ... shall fully comply with the provisions" set forth.

REGULATIONS

§2102.2.5

"The Statewide Advisory Committee for Computer Services shall advise the Texas Education Agency on all aspects of the statewide program of computer services." This committee shall be under the control of Regional Education Service Centers.

3. Use of Facilities

Title 103; Ch. 7 Art. 6081 and Sec. 2,2a

"Any governmental unit may by agreement establish .. and operate jointly with another governmental unit located in the same or adjacent counties, playgrounds, recreation centers, athletic fields, swimming pools, and other park and recreational facilities located on property now owned or subsequently acquired by either of the governmental units."

C. SCHOOL PROPERTY

1. SCHOOL SITE

STATUTES

§53-6-21

The sale of any "school sites or buildings" must be approved by a two-thirds vote of the local board of education.

2. Physical Plant and Fixtures

Statutes

§53-11-2

All "plans and specifications" for the construction of any school building costing in excess of $20,000 must be approved by the "state superintendent of public instruction." Such plans must comply with "standard building codes" so as to "assure safety to occupants."

§53-11-3

The state board of education shall "adopt codes to govern the preparation of plans," which shall include "minimum standards for construction . . . ventilation, sanitation . . . protection from fire . . . and promoting the safety, health and comfort of the occupants" and providing "suitable facilities for the handicapped." The board shall also "establish rules and regulations" for determining "school plant facilities" needs and make available to the districts information on "school designs" and "new methods of construction."

§53-11-4 - 53-11-5

The state superintendent has authority to enforce the school construction provisions and may employ "an architect or other qualified personnel" to "examine plans and specifications" or inspect a "school building in the course of construction." No plans for construction may be approved unless prepared by a "duly licensed architect."

§53-11-7

The state board of education may apply for federal funds to aid in the construction of school buildings and allocate these funds to public schools in the state.

3. Use of Facilities

Statutes

§53-21-1 - 53-21-5

All public school buildings shall have a "civic center" where citizens of the school district may meet for recreation and to discuss community problems. The funds for such use of the school buildings shall be provided by the school districts. The local boards of education shall manage the civic centers and make "rules and regulations" for the activities conducted there. The local boards of education shall permit public school buildings to be used for other than school purposes, as long as they do not interfere with the school, and may charge for such use.

C. School Property and Facilities

1. School Site

Statutes

§560

The school board may acquire land for school purposes by condemnation according to procedures established in Title 24, Chapter 63. The school board, school district officers or board of trustees shall exercise the powers given to municipal officers in Title 24 Chapter 65.

Regulations

R.M. Ch. VI.E; p. 105

The original cost of school sites will be excluded from cost of construction eligible for state aid.

CROSS REFERENCE

I.School District; Statute §562

2. Physical Plant and Facilities

Statutes

§3457

Any school owned and operated in a school district which is designated by the commissioner to provide instruction for retarded children shall be eligible to receive state aid for the construction or alteration of school buildings in an award not to exceed 30% of the construction cost. As a condition of such award the district shall enter into a contract with the state under such terms as it requires.

§3457a

A school district may receive state aid covering 75% of the construction costs for classroom space for handicapped children if the state board of education finds "evidence of need" and the project meets the board's criteria "as to type, kind, quality, size, use, location, and estimated cost suitable for the proposed curriculum . . . [and] . . . will effectively serve the largest numbers of handicapped pupils in an area specified by the board . . . ."

§3581

State board of education is authorized to accept and disburse federal funds made available to acquire, construct and remodel public school buildings.

§3741

Each town shall maintain "suitable" school houses. The board may purchase, lease, erect or dispose of any school houses when authorized.

Regulations

R.M. Ch. VI.C; pp. 104 -- 105

The State Board supports and encourages local school administrators and school boards to induce both students and the community when improvements are to be made to new or existing school facilities and sites. Such student involvement should be incorporated as a part of the total educational program of the district.

R.M. Ch. VI.G; p. 105

The State Board may make regulations pertaining to school construction and capital outlay if the Board submits the regulations for approval to the legislature or to the joint fiscal committee not less than 30 days prior to the proposed effective date of the regulations.

The State Board will approve school building and projects only if there is demonstrated and urgent need for the projects, such as overcrowded classrooms, deterioration of existing buildings, and unsafe or unhealthful conditions.

A project may be approved in entirety or in part for such parts as meet the requirements of demonstrated and urgent needs.

CROSS REFERENCE

I.State Board of Education; Statute §3582

C. School Property and Facilities
1. School Site

Statutes

§22-7

School boards with the consent of the Board of Education "may establish joint schools" ..."and may purchase, take, hold, lease, convey, condemn, jointly, property, both real and personal, for joint schools." School boards, acting jointly, shall not condemn more than thirty acres of land for the use of any one joint school. The title of acquired property shall vest jointly in the school boards in proportions that the school boards may determine. Joint schools shall be managed by the school boards jointly, in accordance with regulations promulgated by the State Board of Education. Unless approved by the school boards, any regulation in effect "at the time of the adoption of a plan for the operation of a joint school shall not be changed for the joint school by the State Board of Education."

§22-147 -- 22-151

Title to all property received for school purposes shall be vested in the county school boards. The board may invest property and may use the profits to build schools.

A board may condemn property for school purposes.

A board may buy property from the United States.

§22-161

The school board may sell or lease, either as lessor or lessee, property.

§22-189

It shall be lawful for a school board "to establish and maintain public high schools at such places as may be both most convenient for the pupils to attend, and most

suitable for the purposes of such schools . . . ." The establishment of a high school shall not be allowed to interfere with the instruction in elementary schools.

CROSS REFERENCE

II.A.3.; Statute §22-330.44 — 22-330.46

2. Physical Plant and Fixtures

Statutes

§22-151.1

"The county school board may transfer the maintenance of school buildings and grounds and operation and maintenance of school buses from the department of education to the department of public works . . .(it) may authorize the construction of new school buildings and additions to existing school buildings . . . ."

§22-152 -- 22- 154

No school shall be contracted for or built until the division superintendent and Superintendent of Public Instruction approves the plans and specifications.

The State Board shall make regulations for minimum floor and air space, minimum ventilating facilities, and minimum light that must be provided for in building plans before approval may be granted.

§22-156 -- 22-158

A school building shall facilitate leaving in the event of fire or accident.

A school shall hold a fire drill once a week during the first month of school and after that monthly. SAFETY

The Superintendent of Public Instruction shall periodically survey any nonfireproof school when authorized by the State Board. The State Board may close or change construction on any school it considers a fire hazard. The State Board may withhold State funds from any school board that has not corrected a defect.

Schools shall be decent and healthy. Any school which is unfit for occupancy shall be condemned and its use discontinued by the division superintendent.

§22-166.1

The State Board may, after advertising its intention, commission a licensed architect to prepare plans for school buildings which may be made available to local school boards.

§22-166.2

If school construction costs are paid by the state, the school board shall confer, prior to contracting, with the State Board about the services that the State Board can give the local board.

Upon request of a local school board the State Board shall furnish building plans done by licensed architects, data on school construction costs and brochures explaining services that the State provides for school construction. The State Board shall also aid the local board in advertising for bids and preparing contracts. The local school board shall pay the State Board for the cost of the services as determined by the State Board.

§22-166.3; 22-166.6

The Advisory Research Committee shall advise the State Board about school construction. It shall have thirteen members appointed by the Governor for four year terms. One member shall be from each of the following: Senate of Virginia, House of Delegates, State Department of Education, Virginia Chapter, American Institute of Architects, Virginia Branch, Associated General Contractors, Virginia Society of Professional Engineers, Architectural Department of Virginia Polytechnic Institute, Architectural Department of the University of Virginia, a member of a local school board, and a division superintendent, and three people from the field of business and management.

The State Board , with the approval of the Governor, may hire personnel necessary to carry out the provisions of this article.

3. Use of Facilities

Statutes

§22-164 -- 22.164.2

The school board or the division superintendent with the approval of the board may permit the use of school buildings and grounds for voting places or for any legal assembly after school hours or during vacation.

The school board may permit a library board created pursuant to §42.1-35 to operate a library in a school building as long as it does not interfere with the use of the building for school purposes. The board shall adopt regulations to protect school property when it is used for this purpose.

The school board may permit use of school property as long as the use does not impair the efficiency of the schools. Permission shall be granted under school board regulations. The board may authorize the division superintendent to permit use of school property. The board may restrict property use to after-school hours.

CROSS REFERENCE

IV.D.; Statute §22-151.2

C. School Property and Facilities

1. School Site

Statutes

§28A.58.040

The board of directors of each school district may purchase, lease, receive or hold personal and real property over which they will have exclusive control. They may convey such property when no longer needed for school purposes.

§28A.58.070

The board of directors of a school district may condemn and appropriate limited acreage for school useage.

Regulations

§180-30-055

"[C]ompliance with applicable statutory requirements relating to sites and approval of the site by the state board ... shall be prerequisites for state assistance ....

Minimum site sizes (a) for elementary schools shall be five acres plus an additional acre for each one hundred pupils for projected maximum enrollment; and (b) for ... [all others] ... schools shall be ten acres plus an additional acre for each one hundred pupils for projected maximum enrollment .... [D]eviations below such minimums shall be subject to state board ... approval.

Unless ... waived ... by the state board ... a school district ... shall file with the state board ... an opinion of ... legal counsel (a) that fee simple title to the real property is vested in the school district making application, free and clear of all encumbrances ... and (b) containing the legal description of such property.... [T]his regulation shall not apply to land secured on lease from the state ...."

"(1) An application for state assistance ... shall be comprised of completed forms prescribed by the state board ... and the supporting documents and data set forth below.

(a) Complete set of preliminary ... drawings.

(b) Signed ... copy of contract between school district and the architect.

(c) Site documents as follows:

(i) Opinion by ...legal counsel relating to fee simple title ... of site ...;

(ii) Statement of approval by the state department of health or local health agency having jurisdiction;

(iii) Statement of approval by ...[the] ... locoal planning commission ...;

(iv) Statement of approval by state department of ecology ...

(v) Statement indicating compliance with applicable rules of the council on environmental policy ... and;

(vi) Request for site approval by the state board ....

(d) Certification of nonhigh school district participative finance funds ... when applicable.

(e) Copy of resolution adopted by the school district board ... certifying full compliance with the provisions ... relating to racial balance and supported by the following data:

(i) An ethnic count for each school in the district ... the extent of the change in ethnic count projected for a five-year period ...;

(ii) A map indicating present attendance areas and ethnic distribution at all levels and any proposed changes;

(iii) Transportation services proposed,...;

(iv) A statement delineating impact and relationship of proposed construction of any federal and state programs, ... and;

(v) Such additional data as the school district deems pertinent in support of the resolution.

(f) Documentation of compliance with requirements of energy conservation program ....

(2) The school district shall (a) complete the application ... in accordance with the cooperative study ...."

2. Physical Plant and Fixtures

Statutes

§28A.04.300

The Washington State School Building Systems Project shall "develop and implement a schools construction project designed to produce schools which will suit the needs of the children of this state . . ." The project shall be under the control of the superintendent of public instruction and shall be evaluated prior to its termination on June 30, 1977.

§28A.47.746; 47.806

The state board shall furnish "consulting and advisory service" to school districts planning and developing school building programs, and shall prepare a manual to guide local school districts in "designing, planning, maintenance and operation of school plant facilities . . . ."

§28A.60.200

Each second class district may construct, remodel, build, purchase or lease real and personal property and furnish facilities.

§28A.60.350

Any second class school district with an enrollment of three hundred or less students may provide housing for the superintendent of the district.

Regulations

§180-30-010

The State Board recognizes that primary responsibility for determing the appropriate type of school building to be constructed must be in the hands of the local board of directors. The State Board's primary responsbility

lies in prescribing rules and regulations to assist the local directors in carrying out their responsibilities.

§180-30-015

"(1) The policy of the state board of education with respect to state assistance in school building construction to nonhigh school districts contemplating establishment of high schools is that assistance "must be considered in light of the need for improvement of school administrative units and school attendance areas among or within such districts."

"(2) In administering the assistance program consideration shall be given to a) the effectiveness of small high schools in terms of curriculum offerings and per capita expenditures for plant operations, and b) the necessity of providing educational opportunities in remote and/or isolated areas.

"Generally, it is considered inadvisable for non-high school districts to establish high schools or for existing high schools with limited enrollment to be continued because they are unnecessary [for] ... convenience ... [or] ... the educational opportunities of students ....

"(3) State assistance ... shall be administered in conformity with the[se] policies and principles ... and in accordance with the following purposes and objectives:

(a) To ... establish ... single area high school[s] ... wherever ... conditions permit.

(b) To allot state funds to nonhigh school districts for construction of secondary school facilities only upon prior approval by the state board of education ....

(c) To allot state funds to high school districts for ... school plant facilities only when such allotments will not result in the continuation of small high schools ... where (i) the students ... can be served ... in ... schools of larger size or (ii) the operating district can be united with another district[s] ....

(d) To make high school operations possible in

areas ... remote or isolated, and likely to remain so, ... Eligibility for ... state funds on the basis of remoteness must be determined in the light of (i) the situation,... which prevails at the time of the application; (ii) possible future changes in the situation ... and (iii) the number of high school students living in the area who cannot reside at home and attend another high school."

§180-30-030

"Allotments for funds ... for ... school building facilities shall be determined ... [by] ... the following conditions:

"(1) Facilities (a) have been destroyed by ... calamity; or (b) are ... hazardous to the safety and health of school children .... Provided, that the pupils affected cannot [conveniently] be housed elsewhere ...

"(2) [Serious overcrowding]

"(3) Certain facilities ... are lacking or extremely inadequate, including ... multipurpose rooms, kitchens, health units, shops and physical education facilities.

"(4) [A] foreseeable excessive future increase in school population ...."

§180-30-040

"[R]acial imbalance shall ... exist when a school has an enrollment of any one minority racial group in excess of forty percent .... A minority racial group is ... a racial group constituting a lesser part or smaller number identified in relation to the total enrollment of children in the public schools of the state.

"A prerequisite for an allotment of funds ... shall be satisfactory evidence ... that the proposed construction will not create or aggravate racial imbalance within the boundaries of the applicant school district. Provided, that this regulation shall not apply to schools serving American Indian communities.

"In order to determine the effect of proposed

construction upon racial imbalance the superintendent ... shall require study for that purpose . . ."

§180-30-220

" Additional state assistance in school building construction ... for improvement in school district organization may be allowed when it is found by the state board ... there is need for such ... assistance to achieve improvement and equalization of educational opportunities of pupils, economics in the administration and operation of schools and equalization among school districts of the tax burden ....

(1) Determination by the state board ... that a plan ... constitutes an acceptable administrative unit shall be a prerequisite for additional state assistance consideration ....

(2) When the boards ... of two or more school disticts, at least one of which shall be a high school district, contemplate the formation of new school district ... make application for additional state assistance under the provisions of this section, the respective boards ... shall file ... a joint resolution of intent which shall set forth the proposed organizational pattern and evidence of the need for additional state assistance, including ... the following:

(a) Map of the proposed ... district.

(b) Current and projected enrollment for a five-year period.

(c) Number of secondary school students ... in each component district of the proposed new district.

(d) Reasons why existing buildings cannot satisfactorily house the projected enrollment of the proposed new distirct.

(e) Financial status of the proposed new district.

(f) Number of school buses currently in operation by the component districts and number required ....

(g) Analysis of the improvement in educational opportunities through the ... new district.

(h) Statement of impetus new facilities would provide in effecting the formation of the proposed new district.

(i) Complete description of the site ... including ... its location with respect to pupils to be served, size and adequacy.

(j) Such additional data as the boards ... deem pertinent to a thorough analysis of the proposal.

(3) When ... a proposal ... will provide an acceptable administrative unit ... and the state board has determined that additional state assistance is necessary to achieve the objectives in this section... the state board shall notify the boards ... of the component districts (a) of its approval of the proposed ... pattern, and (b) that upon approval by the voters of the proposal ... an application by the [new] board of directors ... for state assistance ... will receive favorable consideration ....

(7) When ... an improvement in school district organization will be achieved ...

additional

state assistance may be allowed in an amount to be determined by the state board."

§180-30-225

"A school district which furnishes ... evidence of need for additional state assistance to provide for improvement in racial balance ... shall be eligible for such ... assistance ... in accordance with the following...:

(1) Definition of racial imbalance [see] ... WAC 180-30-040.

(2) Data submitted in ... the racial balance study ... [WAC 180-30-630] ... must substantiate that the proposed construction or modernization will improve racial balance in one or more schools.

(3) [As] it is the responsibility and authority of the [local] board ... to determine the type of school building it desires ... and [as] the varying degrees of minority race imbalance throughout the state may require varying procedures to alleviate such imbalance, it shall be the responsibility of school district boards ... to determine means to achieve improvement in racial balance.

(4) [T]he school district shall submit a description of its program of achieving racial balance, including ... the following:

(a) [T]he philosophy of the school district as it relates to racial imbalance.

(b) Objectives of the program.

(c) Program improvements to be employed.

(d) Limitations of existing ... facilities which preclude implementation of the contemplated program.

(e) Proposed use of any [resulting] vacated space ....

(f) Estimate of time period for full implementation of program.

(5) When ... [a proposal] ... involved ... two or more schools, all such units must be included in the program improvement application.

(6) In addition to the[se] regulations, the regulations governing the basic state assistance program shall [also] be applied: Provided, that the waiver of any such requirements ... shall be subject to approval by the state board....

(7) When ... an improvement in racial balance will be achieved ... additional state assistance may be allowed in an amount to be determined by the state board: Provided, that the total amount allotted shall not exceed ninety percent of the total project cost determined eligible for state matching purposes."

§ 180-30-407

"[S]tate assistance ... may be allowed for costs incurred through energy conservation considerations in a modernization project."

§180-30-408

"The superintendent ... shall ... assure that energy conservation practices shall be employed in design of all school building projects ...."

CONSERVATION

§180-30-415

" State participation in financing costs of preliminary planning shall be limited to (1) school districts which evidence a need ... for the purpose of improving the usefulness or adequacy of their school plant facilities ... and (2) the availability of state funds ...."

§180-30-420

The applicant school district shall submit a written application which shall include the proposed budget for carrying out its planning process.

§180-30-425

"The superintendent ... shall determine procedures and forms for the administration of state participation ...."

§180-30-465

"Any interdistrict financial plan for construction or modernization of school facilities irrespective of whether state funds are involved ... must be approved by the state board ... prior to carrying [it] into effect ...."

§180-30-470

" The board of directors ... [where] ... the proposed new facility is to be located ... shall be the applicant district ...."

§ 180-30-475

" The applicant school district shall submit a written application which shall include ... the following ...

(1) A joint resolution ... of all participating school districts shall (a) confer contractual authority and subsequent ownership on the board of directors in whose jurisdiction the facility is to be located ... and (b) designate such board ... as the legal applicant.

(2) Contract between applicant and participating districts.

(3) Statement defining the educational program or services to be offered in the proposed ... facility.

(4) Number and grade level[s] ... by district of all pupils to be housed in the proposed ... facility.

(5) Description of proposed project including size ... and the estimated cost of construction ....

(6) Proposed financial plan to fund construction and joint operaton of proposed facility.

(7) Certification by the county treasurers ... as to (a) amount of funds in the building fund of the district, (b) bonds authorized and (c) value of the taxable property of the district.

(8) An area map indicating location of schools within the ... districts and the location of the proposed ... facility.

(9) [E]valuation of the proposal by the superintendent of the educational service district in which the proposed new facility is to be located ...."

§ 180-30-480

"The boards of directors of participating school districts shall ... contract with the board of directors of the applicant school district ...for the following ...

(1) Financial terms by which each cooperating district will participate in the cost of construction ....

(2) Administration of the facility and of the

program or services to be offered ....

(3) Duration of the ... agreement.

(4) Procedures for dissolution of cooperative operation of the facility including ....

(a) Ownership of all captial equipment and facilities.

(b) Distribution of assets or the payments to be made to the participating districts.

(c) Minimum period of operation prior to dissolution ...."

§180-30-495

"A project to be constructed under interdistrict cooperative financing ... shall be subject to approval by the state board ... irrespective of whether state funds are involved ... shall be in conformity with the applicable rules and regulations hereinafter prescribed ....

(1) Projects financed entirely with school district local funds. All rules and regulations promulgated by the state board ... relating to school building construction ... shall govern ... except those rules ... deemed by the superintendent ... to be inapplicable ....

(2) Projects financed with state assistance.

(a) All rules and regulations promulgated by state board ... relating to school building construction shall govern except such rules deemed by the superintendnet ... to be inapplicable ....

(b) In determinin[g] state assistance ... each participating district, otherwise eligible ... shall receive such assistance on the basis of the computed area ratio. The amount that each participating district shall provide may be the percentage proportion that the value of its taxable property bears to the total value of taxable property of all particpating districts ....

(3) [A]pplications for state assistance ... shall be judged by the state board ... on the basis of the need for ... (a) providing educational opportunities ... not otherwise provided, (b) avoiding unnecessary duplication of specialized or unusually expensive educational programs or facilities, or (c) improving racial balance ....

(4) [A]dditional state assistance may be allowed in an amount to be determined by the state board: Provided that the total amount allotted shall not exceed ninety per cent of the total project cost determined eligible for state matching purposes: Provided further, that the total funds available... are sufficient to meet state-wide needs ...."

§180-30-575

"[P]rerequistites for a recommendation by the state educational agency ... for ... federal funds ... for school building construction should include ... (a) The school building project shall be consistent with over-all state plans for the construction of school facilities, and (b) the applicant school district shall meet requirements established by the state board ... for eligibility for an allotment of state funds for assistance in construction of school facilities of any kind ...."

§180-30-620

"(1) The school district shall submit to the state board ... a notice of intent to file an application for each proposed school building project....

(2) (a) At the time a notice of intent is filed ... the school distict shall arrange for a cooperative study of its school housing situation .... [T]he ... study shall provide information including ... following:

(i) Kind and extent of the school plant

facilities required and the urgency of need for such facilities;

(ii) Ability of the district to provide capital funds by local effort;

(iii) Need for improvement of school administrative units and school attendance areas among or within districts;

(iv) Enrollment trends and racial balance data;

(v) Site; and

(vi) Such other data as the state board ... may require ....

(b) Subsequent projects shall ... [include such data] ... as the state board may require ...."

§180-30-640

"Upon receipt of authoriziaton ... the school district shall ... prepare final plans and specifications in accordance with the following ....

(1) Separate and/or combined bids may be received for general construction, mechanical work and electrical work ... [and] ... may be awarded on the basis ... most advantageous to the school district ....

(6) (a) The final plan and specifications ... shall be subject to the approval of the state fire marshal ... the state electrical inspector, the health agency having jurisdiction and, when applicable, the state department of ecology ....

(b) The life cycle cost analysis, when required, shall be subject to approval of the office of energy management and conservation....

The architect shall certify to the superintendent ... that the final plan and specificatons are in full compliance with ... pertinent statutes relating to construction of public buildings applicable to school building construction."

"(1) The school district shall submit ... the final plan and specifications to the state board ... for review and approval ... [plus] ...

(a) Form for certification of construction documents and final cost estimate of project, completed and signed by architect.

(b) [L]etters of approval by governmental agencies ....

(c) Signed statement by architect of analysis of square foot area.

(d) Life cycle cost analysis ....

(2) The school district shall obtain [final] approval ... by the state board ... prior to the call for bids ...."

§180-30-710

"(1) The superintendent of public instruction is ... authorized to ... administer the disbursement of state funds allotted ... for school building construction, ...

(2) The superintendent shall keep a complete and accurate record of each allotment ... made and of all disbursements, upaid balances and other matters connected therewith."

§180-30-740

"[F]inal payment on a contract ... shall not be made until thirty days have elapsed following final acceptance by the school district ... of the work as completed.

After the ... 30-day period, final payment shall be made in accordance with ... subsections (1) through (3) ... and such other procedures as amy be prescribed by the superintendent ... in compliance with statutory and state board of education regulations.

(1) (a) Upon completion of work by a contractor ... the architect and the school district officials shall inspect the ... work to determine compliance with

plans and specifications.

(b) The architect, upon determining that the ... work has been completed satisfactorily, shall recommend ... to the school district ... acceptance as completed satisfactorily. Separate letters shall be written concerning the work of each contractor.

(c) The school district board ... upon determining that the ... work has been completed satisfactorily, shall ... officially accept such ... work as completed satisfactorily.

(2) Final payments ... shall be subject to receipt by the superintendent ... of the documents listed below and such other evidence of final completion ... he/she may determine to be necessary.

(a) Documents to be submitted immediately following official final acceptance of building, improvement or work.

(i) Properly executed state invoice voucher;

(ii) Architect's letter of inspection;

(iii) School district board of directors ... final acceptance;

(iv) Archtitect's certificate of final amount due and payable to contractor; and

(b) Documents to be submitted immediately after the expiration of the 30-day period ....

(i) [A] certified list of all valid liens in event liens have been filed."

3. Use of Facilities

Statutes

§18-5-7

"If at any time the board shall ascertain that any building or any land no longer shall be needed for school purposes, the board may sell, dismantle, remove or relocate any such building and sell the land in which they are located at public auction after proper notice. . . to the highest responsible bidder." The board . . . may also lease for oil and gas or other minerals any lands or school sites owned in fee by it . . . . The provisions of this section . . . shall not apply to boards of education selling or disposing of its property for a public use to the State of West Virginia, or its political subdivisions . . . for an adequate consideration without considering alone the present commercial or market value of the property."

C. SCHOOL PROPERYY AND FACILITIES

2. PHYSICAL PLANT AND FACILITIES

STATUTES

§115.33

"If any school district administrator or elector in the school district complains in writing to the state superintendent that any [school building] in the school district is in such condition as to endanger the lives or health of the pupils or that the building is otherwise unfit for school purposes, the state superintendent shall investigate the matter and may hold a hearing in connection therewith.

INVESTIGATION

HEARING

If conditions warrant, [he/she] shall order the school board or other officers having control of the school to repair, improve or remodel such building by a stated date so as to render it safe and sanitary. If [he/she] deems the building . . . not worth repairing, [he/she] shall order the erection or acquisition of an adequate school building by a stated date. [Failure to comply] with the order shall deprive the school district of its right to share in the school fund income until the state superintendent determines that the school district has complied with [his/her] order.

Upon written application of the school board, the state superintendent shall grant a hearing on the order." Execution of the order shall be stayed pending the hearing. The superintendent may affirm, amend or vacate the original order.

"The state supervisors of schools shall be inspectors of public school buildings under the direction of the state superintendent."

§118.11

"The school district shall erect and maintain all the fence necessary to enclose the school site on grounds without any financial burden on the holders of adjoining properties."

§120.19

In order to provide school buildings and equipment for elementary or high schools and to enable the construction, financing and ultimate acquisition thereof, the school board of a common or union high school district may make agreements with non-profit corporations. Buildings so constructed or acquired by the school board are exempt from taxation.

III. Quality of the Educational Process

A. Qualification Standards for Schools and School Districts

1. Accreditation

Statutes

§16-26-1

Matters relating to the minimum standards prescribed for high schools by the state board of education shall be administered through the department of education. Instruction manuals, curriculum bulletins and rules and regulations shall be printed by the state board of education. Accreditation requirements for high schools and the list of approved high schools shall be approved and printed by the state board of education on the recommendation of the state superintendent of education.

2. Other Qualification Standards

Statutes

§16-3-14

The state board of education shall prescribe rules and regulations for the grading and standardizing of public schools. RULEMAKING

§16-4-14

The state superintendent shall prepare rules and regulations for grading and standardizing all public elementary and high schools. She/he shall also prepare and submit for state board approval the minimum requirements for issuing all certificates and diplomas in these schools. RULEMAKING

§§16-8-29; 16-9-22

The county superintendent shall prepare rules and regulations for grading and standardizing all public schools in the county and submit them for approval and adoption by the county board. RULEMAKING

The county board of education shall, upon the superintendent's recommendation, grade and standarize all schools under its jurisdiction.

§16-8-30

The county board of education shall fix a uniform date each year for the opening of all school in the county.

§16-8-36

The public schools of the county shall include elementary schools, grades one to six; junior high schools, grades seven to nine; and senior high schools, grades 10 to 12.

§16-11-20

The city board of education shall grade and standardize the schools under its jurisdiction, and shall prescribe courses of study. Copies of the courses of study shall be given to all teachers and interested citizens.

§16-12-8

The city superintendent of schools shall prepare rules and regulations for grading and standardizing the public schools and recommend them for approval by the city board of education.

RULEMAKING

§16-26-2

All high schools established by county boards of education constitute a system of high schools for the county. City boards of education shall provide a system of high school education which shall meet the minimum standards prescribed by the state board of education. A town or city board may cooperate with the county board of education in establishing and maintaining a county system of high schools which shall include the town or city.

CROSS REFERENCE

I.City Board of Education: Statute §16-11-1

City Superintendent of Schools

STATUTES

§16-12-2

The city superintendent of schools must hold a degree from a recognized four-year college or university and be knowledgeable in school administration.

County Board of Education

Statutes

§16-8-1

The county board of education shall be composed of five elected members. They must be of good moral character, possess at least a fair elementary education, be of good standing in their communities, and be known for their honesty, business ability, and interest in public education.

County Superintendent

Statutes

§16-9-2

The following requirements must be met by a person seeking appointment or election to the office of county superintendent: an Alabama certificate in administration and supervision; at least five years experience in public school work; three years experience as a teacher, principal or administrator during the past five years; a degree from a college or university; and if appointed by the county board, knowledge in school administration.

§16-9-10

Any person possessing the qualifications for a certificate of administration and supervision required as a qualification of a county superintendent shall be entitled to receive the certificate. If the state superintendent fails to issue the certificate without good reason for doing so, she/he shall be subject to a penalty of $250.00.

§16-23-7

The county superintendents, city superintendents, supervisors, principals and teachers must be certified by the state superintendent of education.

State Board of Education Members

STATUTES

§16-3-4

Members of the state board of education must be qualified voters of the state. Board employees or persons who have been professional educators within the last five years preceding the election shall not be eligible for board membership. A professional educator is a teacher, supervisor or principal of any public or private school, or an administrator in the field of education.

State Superintendent of Education

STATUTES

§16-4-1

A state superintendent of education shall be appointed by the state board of education and serve at its pleasure. Alternatively, the board may enter into a contract with the state superintendent for a period not to exceed four years

The superintendent of education must be of good moral character, have an education equivalent to graduation from college, be knowledgeable in school administration and have training and experience sufficient to qualify him/her to perform the duties of superintendent.

The salary of the state superintendent shall be set by the state board of education.

SCHOOLS

STATUTES

§16-26-3

In the interests of economy of organization and administration, county boards of education may place the elementary, junior and senior high schools of any district under one principal.

SCHOOL BOARD

STATUTES

§16-1-13

If a school board determines that it is in the best interests of pupils in that district, the board may prescribe the manner and procedure to be followed in classrooms for teaching pupils of disparate ability, background and achievement in the public schools. The board's authority shall extend to prescribing the grouping and classification of students within the same grade, based upon general intelligence, and academic achievement. Such a classification shall be prescribed only after the board has consulted with the school superintendent, teachers, students and parents. The board may assign special teachers, prescribe special courses or remedial courses, and take other necessary action for teaching the special groups of students.

School Employees

Statutes

§16-8-23

The county board of education, upon the written recommendation of the county superintendent, shall appoint all principals, teachers, and professional assistants. The county board may suspend or dismiss superintendents, principals, teachers, or other employees for immorality, misconduct in office, insubordination, incompetency or wilful neglect of duty.

SUSPENSION

DISMISSAL

§16-12-15; 16

The city superintendent shall be responsible for the administration of the office of superintendent of schools. The city superintendent shall nominate all principals, teachers and other employees for appointment by the city board and shall transfer, promote, suspend, or dismiss them in accordance with the school laws.

School System

Statutes

§16-8-11

The county board of education shall maintain a uniform and effective system of public schools.

REMOVAL

NOTICE

STATE SUPERINTENDENT OF EDUCATION

CROSS REFERENCE

II.B.1.a.: Statute §16-36-36

TEACHERS

STATUTES

§16-10-9

The board of school trustees shall strive to develop support for the schools. In case of dissatisfaction they may file charges with the county board of education requesting the removal of the principal or any teacher in the school.

REMOVAL

§16-11-17

The city board of education shall set employees' salaries and may dismiss any principal, teacher or other employee for immorality, misconduct, incompetency, neglect of duty, or when the board determines the dismissal to be in the best interests of the school.

DISMISSAL

§16-24-11

A teacher is not permitted to cancel her/his contract during the school year or anytime within 45 days prior to the beginning of the school term unless the cancellation is mutually agreed upon. A teacher may be permitted to cancel her/his contract at any other time by giving five days' written notice to the employing board.

§16-24-1; 2

In order to attain continuing service status or tenure, a teacher must serve under contract for three consecutive years in the same county or city school system and be reemployed in that city or county for the succeeding school year. The term "teacher" includes all certified persons employed as instructors, principals, or supervisors in the public schools.

An instructor with continuing service status who is promoted to principal or supervisor must serve for three consecutive years in that position before attaining tenure as a principal or supervisor.

By the end of the school term, the superintendent shall submit to the board a list of teachers recommended for tenure status.

Consolidation of two or more schools shall not prejudice the tenure rights of the teachers involved.

§16-24-8; 10

CONTRACT CANCELLATION

A tenured teacher's contract may be cancelled for "incompentency, insubordination, neglect of duty, immorality, justifiable decrease in the number of teaching positions or other good and just cause." A contract may not be cancelled for political or personal reasons.

NOTICE

The employing board of education shall give written notice to the teacher stating the reasons for the proposed cancellation and naming a time and place at which the teacher may appear before the board. In order to contest the cancellation, the teacher must file an intent to contest at least five days before the hearing. The teacher may be suspended, without pay, pending the hearing. After the board's decision, the teacher has the right of appeal to the state tenure commission which shall determine the validity of the board's action.

§16-24-12

NOTICE
RE-EMPLOYMENT

Unless the employing board gives written notice to the teacher on or before the last day of school, a teacher shall be deemed offered reemployment. A teacher's contract may not be cancelled except by majority vote of the board.

§16-24-30

A state tenure commission is established, consisting of seven members, including teachers, a principal and other appointed members. The tenure commission shall meet at such times as the chairman may determine and shall appoint officers from among their members. The commission may adopt rules, regulations and orders necesssary to carry out its functions.

RULEMAKING

§16-24-36

It is the duty of the state tenure commission to hear and determine appeal cases. A teacher with tenure status who has been denied a hearing before the local board of education has a right of appeal directly to the state tenure commission.

APPEAL

HEARING

The action of the state tenure commission in reviewing transfers of teachers or cancellation of teacher contracts, if made in compliance with the provisions of this chapter, and unless unjust, shall be final and conclusive.

CROSS REFERENCE

II.B.1.a.; Statute §16-36-37

D. Evaluation and Reporting

County Board of Education

STATUTES

§16-8-37

The county board of education shall publish an annual statement of its receipts and disbursements. The board may also publish and distribute a report on the condition and need for improvement of the county board of education. The refusal or failure of any board member to comply with these requirements is a misdemeanor.

County Superintendent

CROSS REFERENCE

I.County Superintendent; Statute §16-9-22

CURRICULUM

STATUTES

§16-35-3

The "courses of study" committee shall conduct evaluations of the courses taught in the public schools. It shall prepare the course content for each grade and periodically revise it. In evaluating the curriculum, "consideration shall be given to the required basic content, textbooks used, the educational objective of the course, changing scientific, technological and cultural developments, as well as established facts of American history, tradition and patriotism." Every two years the committee shall prepare a report of its recommendations on minimum course content and recommendations on revisions of content and materials in specific areas. The report will be submitted to the state superintendent of education and to the state textbook committee.

EDUCATIONAL CONDITIONS

STATUTES

§16-3-17

The state board of education shall conduct investigations relating to the educational needs of the state and means for improving educational conditions. The board may employ additional expert assistance if needed. INVESTIGATION

EDUCATIONAL SYSTEM

STATUTES

§16-3-25

The state board of education shall consider the state's educational needs and recommend additional legislation or changes in existing legislation to the governor and the legislature.

Needs of Education

Statutes

§16-3-21

The state board of education shall submit an annual report to the governor covering all operations of the department of education and the conditions, progress and needs of education in the state.

Reports Required by the State Board of Education

Statutes

§16-4-18

The state superintendent shall prepare an annual report of the state board of education, as well as all other reports required of the board.

§16-8-39

The county board of education shall make all the reports required to the state board of education.

§16-12-14

The city superintendent shall prepare all reports required by the state board of education and submit them to the city board for its approval.

STATUTES

§16-4-6

The state superintendent of education shall execute the educational policy of the state board of education. She/he shall call and conduct conferences for county and city boards of education, county and city superintendents, principals and teachers on matters relating to the condition, needs and improvements of the schools.

§16-6-1

The Alabama education study commission shall be composed of eight members appointed by the governor for eight year terms. The commission shall report to the legislature at each session on the following: (1) an evaluation of current educational programs and policies and recommendations for improvement; (2) the financial needs of public education in the state; and (3) the commission's recommendations as to the responsibility of the state and local boards for financial aid.

§16-9-26

The county superintendent shall visit the schools, observe the management and instruction, and give suggestions for the improvement of the schools. SCHOOL VISITS

§16-9-31

The county superintendent shall forward to the state superintendent of education an annual report on the public schools of her/his county.

§16-10-7

The board of school trustees shall visit the schools under its jurisdiction at least once a month and consult with teachers and principals on pupil progress and school conditions, and give aid for the advancement of the schools. SCHOOL VISITS

§16-11-22

The city board of education shall make all reports required by the state board of education.

§16-11-24

The city board of education shall publish an annual report on its financial status. The board may publish a report on the condition, accomplishments and needs for improvement of the schools.

§16-12-11

The city superintendent shall visit the schools, observe instruction and give suggestions for improvement.

III. Quality of the Educational Process

A. Qualification Standards for Schools and School Districts

1. Accreditation

Regulations

4AAC 60.010; 020

"Every person, institution, or agency operating a school for children ages three through five years, when the school's primary function is educational, shall apply to the department for a certificate of approval."

Schools maintained entirely by federal funds, church schools devoted to instructing in religious subjects or schools having an enrollment of six children or less are exempt from applying for a certificate of approval.

AUTHORITY:
AS 14.07.020(8)
AS 14.07.060
AS 14.35.080(4)

4AAC 60.030

"(a) Application for a Certificate of Approval shall be submitted on a form prescribed by the department.

(b) No preelementary school may represent that its program has a sponsorship, approval, characteristics, affiliation, or accreditation which it does not have, nor may any school cause a likelihood of confusion or misunderstanding as to any of these matters.

(c) Before issuing a Certificate of approval, the department shall conduct an investigation of the applicant, the proposed plan for the education and supervision of children and the mode of operation of the preelementary school. If the results of the investigation reveal that

the primary purpose of the school is educational and that the applicable rules and regulations promulgated by the department are satisfied, a regular Certificate of Approval shall be issued.

(d) The department may grant a conditional Certificate of Approval for programs with minor deficiencies correctable within a time specified on the permit not exceeding six months."

AUTHORITY:
AS 14.07.020(8)
AS 14.07.060

4AAC 60.040

"(a) A school or program denied a certificate of approval by the department is entitled to a hearing before the State Board of Education at a regular meeting of the board if a written appeal is received by the commissioner within 15 days of the date of the denial of certification. HEARING

(b) The decision of the board on appeal is final." APPEAL

4AAC 60.050

A certificate of approval remains in effect for five years. It may be revoked or suspended for failure to follow applicable laws or regulations concerning education, or "the health, safety and welfare of students and employees." REVOCATION SUSPENSION

The holder of the certificate has a right to a hearing. The hearing examiner's recommendations shall be the basis for any action by the commissioner of education. The ruling of the Commissioner may be appealed to the board. The Board's decision is final. HEARING APPEAL

AUTHORITY:
AS 14.07.020(8)
AS 14.07.060

4AAC 60.150

"Major changes in written policies, plans, programs and other information included in the initial application (for certification of pre-elementary school) must be trans-

4AAC 60.160

EQUAL OPPORTUNITY

"No pre-elementary school will be approved unless it adopts a policy of non-discrimination in respect to race, sex, creed, color or religion with the following exceptions:

(1) a preelementary school established for an identified group (i.e., physical-mental handicaps) may serve that group only but otherwise may not discriminate;

(2) a religious group may elect to serve children that adhere to its religious beliefs but otherwise may not discriminate."

AUTHORITY:

AS 14.07.060

CROSS REFERENCES

I.School District; Statute §14.03.083

II.A.4.; Regulation 4 AAC 60.160; .170

2. Other Qualification Standards

Statutes

§14.03.020

The school year is from July 1 to June 30.

§14.03.030

SCHOOL TERM

A "school term" is "fixed by the . . . school district." Terms must be at least 180 days; provided, however, that a maximum of 10 days may be devoted to in-service teacher training. With approval of the commissioner a district may have a term less than 180 days but it must provide a minimum of 680 hours of instruction for grades one through three and 850 hours for all other grades.

§14.03.040

SCHOOL DAY

A "day in session" shall be at least four hours long (exclusive of intermissions) for grades one through three, and five hours long for all other

grades. "The period of the day in session shall be devoted to the instruction of pupils or to study periods . . ."

§14.14.120

"When there are fewer than eight children eligible to attend elementary and secondary school in a district the school board may declare the district inoperative for that school year." The school board shall continue to function to the extent necessary to preserve the assets and the continuity of the district. The board must also take whatever steps are necessary to insure that children from the district receive proper schooling.

REGULATIONS

4AAC 15.030

"(a) A school district with seven or more full time equivalent certificated staff members, administrator included, and offering both elementary and secondary programs, shall employ a qualified superintendent as chief school administrator.

(b) A school district with four to six full time equivalent certificated staff members, administrator included, shall employ a qualified principal as chief school administrator.

(c) A school district with one to three full time equivalent certificated staff members, administrator included, shall designate a qualified teacher a principal/teacher as chief school administrator.

(d) In sec. 30 of this chapter, a 'chief school administrator' is an administrator who has full administrative control of a school district."

Administrators

Regulations

4AAC 12.030

" (a) The administrative certificate, valid for five years, shall be issued to an applicant who

(1) has completed a program in school administration approved by the Alaska State Board of Education, has a master's or higher degree, is recommended by the preparing institution and has three years of satisfactory teaching experience on a regular certificate; or

(2) has completed a comparable program in another state and is recommended by the preparing institution.

(b) The applicant must have earned at least six semester hours of credit within the five year period prior to the application.

(c) A regular administrator's certificate may be renewed any number of times by completing six semester hours plus evidence of satisfactory service obtained during the life of the certificate.

(d) Three of the six semester hours required for renewal may be by correspondence or, with the prior approval of the commissioner, the completion of institutes and/or workshops."

CERTIFICATED STAFF

REGULATIONS

4AAC 12.060

"(a) Each certificate will be endorsed indicating the area(s) in which each applicant is qualified.

(b) Endorsements shall be based on:

(1) the preparing institution's recommendation; or

(2) a determination by the commissioner of the applicant's qualifications based on his[her] transcripts.

(c) For the 'vocational' endorsement, *the applicant must also submit evidence of two years' successful work experience related to the vocational area which was outside the field of education."

AUTHORITY:

AS 14.07.060

AS 14.20.020

*NOTE: The 'vocational' endorsement is required of persons teaching vocational education courses under the provisions of a memorandum of agreement between the Division of Vocational Education and individual school districts.

4AAC 12.080

"(a) Institutes and workshops may be accepted for renewal of certificates under the following conditions:

(1) prior to attending workshop or institute: the applicant must apply to the commissioner requesting approval for certificate renewal purposes;

(2) upon receipt of the application the

commissioner shall notify the applicant of the number of hours of nonacademic credit to be granted for the proposed workshop or institute;

(3) if approved, evidence of satisfactory completion must be submitted by the instructor or workshop leader to the certification supervisor;

(b) For certification purposes, satisfactory teaching experience must have been completed in a state approved or accredited school;

(c) Partial years of experience will be prorated toward experience requirements for certification.

(d) Expired certificates: A person whose certificate has expired for a period of 30 days or more must make new application for a certificate and meet the requirements for certification at the time of the new application."

TEACHERS

STATUTES

§14.20.010

"A person may not be employed as a" public school teacher "unless he[she] possesses a valid teacher certificate" except that he/she may be employed for up to 3 months while awaiting action on an application for a teacher certificate or certificate renewal.

§14.20.020

"The board shall issue a teacher certificate to every person who" (1) holds a "baccalaureate degree from an institution of higher education accredited by a recognized regional accrediting association or approved by the commissioner;" (2) meets additional requirements which the board "may establish by regulation." EXCEPTIONS: "(1) Persons employed in the state public school system on September 1, 1962; (2) persons issued a temporary "emergency certificate" by the commissioner. "The board of education may, by regulation, establish various classes of certificates."

§14.20.100;14.20.110

"A person applying for the position of teacher" may not be required or compelled "to state his religious or political affiliation." The maximum fine for violation of §100 is $100.

§14.20.120

"A statement of the qualifications of each teacher and superintendent employed by the state or a school district shall be filed with the commissioner. The statement shall contain the credits earned in college, normal school, or university, and the number of years of teaching experience . . . ."

§14.30.250 -- 270

A teacher of a class for exceptional children must possess a valid teacher certificate and "such training as the department may require."

During the first year special services are offered in a district or attendance area the school board "may waive part of the qualifications for teachers as set out in §250."

These qualifications do not apply to substitute teachers.

REGULATIONS

4AAC 12.020

"(a) The regular certificate, valid for five years, shall be issued to an applicant who

(1) has completed a teacher education program approved by the Alaska State Board of Education, has a bachelor's degree, and is recommended by the preparing institution; or

(2) has completed a comparable program in another state and is recommended by the preparing institution.

(b) The applicant must have earned at least six semester hours of credit within the five year period prior to the application.

(c) A regular certificate may be renewed any number of times by presenting six semester hours of appropriate credit plus evidence of satisfactory service obtained during the life of the certificate.

VISITING TEACHERS

REGULATIONS

4AAC 30.010

"(a) The exchange of teachers is for a period of one year only. The school board of the school district making the exchange is authorized to grant the exchange in accordance with this section and may give teachers leaves of absence for not more than one year.

(b) Teachers in district schools desiring exchange positions with teachers of school systems in the states or territories shall first secure the written consent of their respective school boards. The consent shall state that a leave of absence is granted for one year, specify the year, and state that the teacher may return to her [his] position the following year. These letters shall be forwarded to the commissioner for recordation.

(c) All teachers must have taught successfully for a period of five years in the state, the last three years of which must be in the position they are holding at the time of their application for exchange.

(d) The district school boards have authority to accept in exchange, teachers qualified in the other states or territories for the period of one year, and the exchange teachers are not required to secure a state certificate for the year of exchange. If the teachers coming into the state stay longer than one year, they are required to secure certificates in accordance with the regulations of the department.

(e) In selecting teachers for exchange, special attention shall be paid to the "general fitness" of

teachers under consideration. No applicant for the privilege of securing an exchange position shall be recommended unless it is felt that the teacher will make a satisfactory contribution and will represent with credit the public schools of Alaska.

(f) This section also applies to exchange teaching positions for foreign countries. Exchange teachers from foreign countries are not required to meet the citizenship requirement for teaching in the state and will not have to take the oath of office, provided they have been cleared for entrance into this country. They shall, however, be required to file a medical certificate.

(g) Exchange teaching in another state or in a territory or in a foreign country will be acceptable as Alaska experience for not to exceed a one year experience credit, provided that the experience is in a public school and provided that the teacher has gone directly from an Alaska position in the exchange position."

TEACHERS

STATUTES

§14.20.030

"The commissioner or the Professional Teaching Practices Commission may revoke or suspend a certificate

REVOCATION

SUSPENSION

only for the following reasons: (1) incompetency, which is defined as the inability or the unintentional or intentional failure to perform the teacher's customary teaching duties in a satisfactory manner; (2) immorality; which is defined as the commission of an act which, under [state law], constitutes a crime involving moral turpitude; (3) substantial non compliance with the school laws of the state or the regulations of the department; or (4) upon a determination by the Professional Teaching Practices Commission that there has been a violation of ethical or professional standards or contractual obligations."

§14.20.140;14.20.145;14.20.158

NOTICE

A tenured teacher who is not to be retained must be notified in "writing, delivered before March 16, or by regular mail postmarked before March 16." Likewise, a non-tenured teacher must be notified by the last day of the school term. "If notice of non-retention is not given . . ., a teacher is entitled to be reemployed in the same district for the following school year on the contract terms the teacher and the employer may agree upon, or if no terms are agreed upon, the provisions of the previous contract are continued."

RE-EMPLOYMENT

"The right to be reemployed . . . expires if a teacher does not accept reemployment within 30 days after the date on which he/she receives his/her contract for reemployment."

§14.20.150

A teacher possessing "a standard teaching certificate [who] has been employed . . . in the same district continuously for two full school years and is reemployed for the [next] school year," acquires tenure rights which "become effective on the first day the teacher performs teaching services" in the next school year.

§14.20.155

A tenured teacher "has the right to employment within the district during continuous service [and] may agree to a new contract at any time." Should such an agreement be absent, "the provisions of the previous contract are continued."

§14.20.160

"Tenure rights are lost when the teacher's employment in the district is interrupted or terminated, or when the teacher reaches the age of 65."

§14.20.165

A tenured teacher "who was retired due to disability . . ., but whose disability (1) has been removed" (removal being certified by a competent physician), or "(2) has been compensated for by rehabilitation or other appropriate restorative education or training" (which is certified by the department of education), "shall be restored to full tenure rights in the district from which he was retired [when] an opening for which he is qualified becomes available."

§14.20.170

DISMISSAL

(a) "A teacher, including a teacher who has acquired tenure rights, may be dismised at any time only for the following causes: (1) incompetency, which is defined as the inability or the unintentional or intentional failure to perform duties in a satisfactory manner; (2) immorality, which is defined as the commission of an act which, under the laws of the state, constitutes a crime involving moral turptitude; or (3) substantial noncompliance" with written state or local laws, regulations, bylaws, or rules.

SUSPENSION

(b) "A teacher may be suspended temporarily with regular compensation" pending an "investigation to determine whether or not cause exists for dismissal."

§14.20.175

A non-tenured teacher "is subject to nonretention," upon the expiration of his contract, at the pleasure of the employer. "However, at his request, the teacher is entitled to a written statement of the cause for his nonretention." School boards may provide for a nonretained teacher to "be heard informally by the board." Tenured teachers are subject to nonretention only because of (1) incompetence; (2) immorality; (3) substantial noncompliance with laws, regulations, bylaws or rules; or (4)" . . . a necessary reduction of staff occasioned by a decrease in school attendance."

§14.20.180

Notices to all teachers of dismissal, and to tenured teachers of non-retention, shall be accompanied by "a statement of cause and a complete bill of particulars. The tenured teacher may, within 15 days . . . notify the employer in writing that he requests a hearing before the school board" and he may require that (1) the hearing be public or private; (2) the hearing be under oath or affirmation; (3) he have the right of cross-examination; (4) he be represented by counsel; (5) he have the right to subpoena a person who has made the allegations which are used as a basis for the decision of the employer.

NOTICE

HEARING

RIGHT TO COUNSEL

"Upon receipt of the notification . . ., the employer shall immediately arrange for a hearing." The proceedings shall be recorded and copies "furnished to the teacher for cost upon his request." The final decision of the board, being a majority vote by roll call, "shall be written and contain specific findings of fact and conclusions of law."

§14.20.205

A tenured teacher dismissed according to this procedure "is entitled to a trial de novo in the superior court."

§14.20.210

"A school board or the department may adopt teacher tenure bylaws not in conflict with the regulations of the department or state law."

REGULATIONS

4AAC 18.010

"(a) All teachers' and administrators' contracts for Alaska public schools shall contain the following provisions....

(7) contract to show clearly that each teacher in a public school must file a medical certificate with the chief school administrator; MEDICAL CERTIFICATE

(8) contract to be terminated without liability to the employing board should the teacher fail to discharge the duties imposed either through incapacity or disability, or for cause as defined in AS 14.20.170;...

(10) contract to be terminated without penalty to the employing board should the teacher fail to obtain a valid certificate in accordance with ch. 12 of this title;

(11) contract to be made in duplicate and signed by at least two members of the school board and the teacher; in the case of rural teachers, the signature of the teacher and the director of state schools are sufficient;

(12) all contracts for teachers (as defined by AS 14.20.370) shall contain a clause stating the teacher is obligated to abide by the code of ethics and the professional teaching standards adopted by the Professional Teaching Practices Commission....

(d) Contracts may be terminated by mutual consent of both parties upon 30 days written notice by either party and the written assent of the other party; a teacher failing to give the written notice, or who leaves a position following the notice without having the written assent of the employing board, may be liable to revocation of certificate for breach of contract." ELEMENTARY COURSE OF STUDY: SCOPE AND SEQUENCE FOR ALASKA SCHOOLS

Alaska Department of Education 1971 33 pages

The Course of Study is intended as a guide to further curriculum development at the local school level. The guide is meant to be introduced through an in-serivce training program, rather than distributed to faculty.

The guide covers curriculum development for mathematics, language arts, social studies, science and health, art, music, and physical education. For each subject, objectives are formulated for progressive stages of development.

PROFESSIONAL EMPLOYEES

REGULATIONS

4AAC 19.010

"Evaluation of the performance of professional employees of each school district shall be directed toward improving the quality of instruction and facilitating the learning process in the public schools. Additionally, formal evaluations shall serve as a method for gathering data relevant to subsequent employment status decisions pertaining to the person evaluated."

AUTHORITY:

AS 14.07.020(1) and (2)

AS 14.07.060

4AAC 19.020

"The evaluation should emphasize such factors as teaching or administrative skills, processes and techniques and interpersonal relationships with students, parents, peers and supervisors, as well as those additional factors which the school district considers relevant to the effective performance of its professional employees. The standards for performance must be measurable and relevant."

AUTHORITY:

AS 14.07.020(1) and (2)

AS 14.07.060

4AAC 19.030

"(a) Formal written evaluation of professional employees of each school district must be made at least once per contract year for each certificated staff member, without regard to tenured or non-tenured status, including teacher evaluation of principals and other administrators.

(b) An acknowledgement of content signed by both the evaluator and the person evaluated must appear on all formal evaluations. The person evaluated must be informed that he[she] has the right to review each written evaluation prior to its final submission and comment in writing on any matter contained in it and that he[she] may at his[her] request, retain the evaluation for a reasonable amount of time, but not less than 24 hours, for the purpose of reviewing and commenting upon it. The fact that a person evaluated exercises his[her] right to comment on his[her] evaluation in the manner described may not be used against him[her]. Failure to submit written comments by a person evaluated prior to his[her] acknowledgement of the evaluation constitutes a waiver of this right.

(c) The evaluation may include information other than specific observations of the evaluator. Districts may adopt procedures whereby input such as students' evaluation of teachers, principals' evaluation of administrators, peer and self-evaluation are utilized. The evaluation must clearly indicate that this kind of information has been used and clearly identify the source of the information."

AUTHORITY:

AS 14.07.020(1) and (2)

AS 14.07.060

4AAC 19.040

"(a) Neither the formal evaluation document, nor any notes, comments, or other information used in its preparation is a matter of public record.

(b) The evaluation may be reviewed upon demand at reasonable times by the person evaluated or some other person designated in writing by the person evaluated.

(c) Each school district shall establish procedures as to which supervisory personnel may have access to the evaluation documents.

(d) Unless mutually agreed otherwise by both the person evaluated and the school board (or its designee), no portion of an evaluation may be made public, except as evidence in a proceeding relative to an evaluated person's certification or employment, or as otherwise allowed or required by a court of law."

AUTHORITY:

Teachers

Constitution

ARIZONA CONSTITUTION, ART. XI, §7

Sectarian instruction in the public schools is forbidden, and "no religious or political qualifications shall ever be required as a condition of admission into any public educational institution" for teachers or students.

SECTARIAN INSTRUCTION

STATUTES

§15-231;232

Every teacher and administrative officer shall take an oath before a person qualified to administer them before receiving his/her teaching certificate. It is unlawful for an official to allow anyone to serve as a teacher or administrative officer without having complied with this section.

§15-233

In order to qualify for a certificate as a superintendent, principal, or teacher, the applicant must pass an examination on the "provisions and principles" of the United States and Arizona constitutions. A person who meets all certification requirements except for this one shall be issued a certificate for only one year. Teachers in adult and evening classes shall be exempt from this requirement. No teacher shall receive a salary unless she/he possesses a certificate.

EXAMINATION

§15-443

The Board may employ and fix the salaries of personnel. Contracts shall be in writing. All teachers must be certified prior to employment. Close relatives of trustees may not be employed, except by consent of the Board.

§15-1191 --1195

The board of trustees of any school district may enter into teacher exchange agreements with other states or districts. Temporary certificates shall be issued to exchange teachers who meet the requisites set by the state board and such certificates shall remain good for one year. The teacher's salary shall be paid either by her/his home district or the employing district, and the teacher shall not lose any tenure or other benefits previously earned.

TEACHER EXCHANGE

REGULATIONS

ARS §15-102.20

R7-2-201

Teacher Education Committee.

The 23-member appointed committee shall advise the State Board of Education on teacher education programs and rules and regulations governing teacher certification.

ARS 15-102.20; 15-206A; 15-234; 15-1192
Policies re Certification

1. Reciprocity

Certificates secured in other states are not transferable.

SBE Approv. 7/24/73 AG Approv. 9/6/73

2. Basic Certificate is valid for six years and renewable based on continuous teaching or five semester hours of upper division graduate work or equivalent.

ELIGIBILITY

3. Applicants for certification must be U.S. citizens, qualified exchange teachers or resident aliens of good moral character, adequately trained and competent and free from active tuberculosis. Persons who have not passed the Arizona and U.S. Constitution test or have not graduated from an accredited institution may be granted a provisional certificate for one year. Persons shall be automatically rejected who have active TB, have been convicted of a misdemeanor involving moral turpitude, drug use or sale, or a felony.

4. A person is eligible for a renewable standard teaching certificate after six years of teaching and fulfilling all other requirements for a Basic certificate (or Basic Certificate in Special Education) and receiving a Master's degree or having completed 30 semester hours of an approved graduate program.

RENEWAL

R7-2-306

Policies re Options for Obtaining Certification

One can obtain a teaching certificate by attending an approved teacher preparation program at an Arizona college and properly filling out an "institutional recommendation" form. These applicants are automatically accepted. Out-

of-state applicants and other individuals can obtain certification by submitting transcripts and notarized application. These are evaluated by the Division according to SBE requirements.

SBE Approv. 11/19/73 AG 1/18/74

Policies of University Teacher Preparation Program
ARS §102.20

Each university may present their teacher preparation program to the State Board of Education for approval. If approved, any applicant with such a university recommendation may be automatically certified provided other forms and fees are correct.

Policy re Teacher Intern Program

INTERN PROGRAM

A two-year temporary certificate may be issued to one enrolled in a teacher intern program. Such a program shall consist of four semesters of academic work in the university and observation in the district culminating in the recommendation for issuance of a Basic Certificate.

Policies re Renewal of Certification

RENEWAL

Persons over 55 who have taught for 25 years may renew their certificates without additional credit providing they have taught in Arizona the previous four years. Not more than one renewal of six years may be granted under this provision.

SBE 1/7/74 1/22/74 Constit. XVIII §10

R7-7-2-401

Any person denied a certificate may apply to the State Board of Education for consideration.

In order to provide well trained and competent teachers and administrators, the State Board of Education establishes specific certification requirements.

(1) Basic Certificates: To earn an elementary and secondary teaching certificate, an applicant must have a bachelor's degree from an accredited institution with 45 semester credits in liberal arts education. For the elementary certificate, the holder must complete a 30-hour major in education, and for the secondary certificate, a 30-semester hour major in a subject taught in

Arizona high schools. Additionally, 24-semester hours in professional preparation are required for the elementary certificate and 22 hours for the secondary certificate.

(2) Basic Special Education Certificate (elementary and secondary): The degree and general education requirements are the same for each area of special education as the Basic Teaching Certificate. The academic subject field, professional preparation requirements and the electives vary according to the specific area of specialization.

SCHOOL SYSTEM

REGULATIONS

R7-2-301
ARS § 15-102.15; 16; 17

Policy of State Board of Education re Course of Study

The State Board of Education believes every child should have "equal educational opportunity to receive the basic knowledge and skills..." The course of study provides "minimum course content ...to insure a minimum quality education..." The Board "encourages local districts to excel beyond these basic standards."

SBE Approv. 7/24/73 AG Approv. 9/13/73

Policies re Pupil Equality

The State Board of Education calls upon local boards to "encourage a spirit of mutual cooperation, trust and good will among students" and an appreciation of their individual and cultural differences.

The Board believes a "Strong quality education provides the necessary knowledge and skills which will enable the student to overcome [physical or cultural] handicaps. . ."

STUDENTS

STATUTES

§15-546

The state board of education shall issue "certificates of promotion" to eighth grade pupils. The

certificate will admit the holder to any state high school.

§15-547

GED TEST

Any person 18 or over who passes a "general educational development test" shall be awarded an Arizona high school certificate of equivalency.

REGULATIONS

R7-2-301

ARS § 15-102.25

Every student shall have equal opportunity to learn to read and write effectively and to master basic computational skills. Promotion shall be based on predetermined standards for these basic skills as established by the local district. Each student must achieve a sixth grade competency in such skills prior to receiving an eighth grade certificate of promotion and a ninth grade competency prior to graduation from high school.

EQUAL OPPORTUNITY

SBE Approv. 11/26/73 AG 1/22/74

R7-2-301

ARS § 15-2021

One goal of the educational system is that each student have an equal opportunity to understand the United States and Arizona Constitutions. Therefore, each district must develop a method to assure that students are knowledgeable prior to receiving a certificate of promotion from the eighth grade.

SBE Approv. 11/26/73 AG Approv. 1/22/74

R7-2-301

ARS 15-546 A

Policies re Promotion

Eighth Grade Certificates of Promotion

PROMOTION

Two types of certificates shall be issued: a standard certificate shall be issued to those who attain a sixth grade

competency in basic skills. A special education certificate shall be issued to those "evaluated and determined to have a physical and/or mental deficiency which prevents their attainment of a sixth grade competency..." The district superintendent must certify all special education certificates.

R7-2-401

Policies re Revocation, Suspension, and Dismissal
ARS §102.23, 15-207, 15-232, 15-258

COMPLAINT

Properly executed complaints shall be forwarded to the Professional Practices Advisory Committee for action except in cases involving moral turpitude or falsifying certification materials. After a hearing, they shall recommend action to the State Board of Education. The State Board of Education shall review the recommendation and render a decision.

HEARING

If a complaint is filed in a court of competent jurisdiction alleging an offense of moral turpitude or falsifying certification material, certification shall be temporarily

suspended pending a Board hearing. These substantive charges are legal grounds for revocation.

SUSPENSION

Suspension. The Board may issue three types of suspensions. Limited (one year); conditional (specific conditions must be met before reinstatement) and indefinite (respondent must request reinstatement).

REVOCATION

Revocation. In addition to statutory bases for revocation, the following shall be defined as unprofessional or immoral conduct or unfitness to teach and grounds for revocation provided the procedural requirements are fulfilled and the Board's action is not arbitrary.

Conviction of a felony or offense of moral turpitude, falsifying information on certification applications, failure to list all arrests and convictions, failure to inform the Division of Certification of any arrest and conviction within 90 days.

STATUTES

§15-1131 --1135

All third grade pupils are required to take a reading achievement test at the beginning of the school year, and all fifth grade pupils are required to take a mathematics achievement test. The superintendent may require testing of students in higher grades. The tests shall be adopted by the state board of education and shall be uniform throughout the state. Test results shall be reported to the state board of education which shall evaluate them and assess the quality of reading programs in the schools. Mentally retarded pupils or any student excused from attending public school shall be exempt from the testing requirement. TESTING

POLICY GUIDES

SUGGESTED GUIDELINES FOR THE DEVELOPMENT AND IMPLEMENTATION OF A CONTINUOUS UNIFORM EVALUATION SYSTEM (CUES) 20 pages

Arizona Department of Education 1977

The guide describes the CUES system which emphasizes what is learned rather than what is taught. It uses a continuum of performance objectives and emphasizes individual achievement of these objectives. Additionally, school districts are encouraged to conduct in-service workshops, develop parent reporting

systems, and alternative learning plans which may be more appropriate to the needs of particular students. The guide suggests detailed steps for implementing and developing the CUES system at the local level.

TEACHER

§15-268

A system of assessment and evaluation of certified teachers shall be developed within each school district. Each school district shall develop guidelines for the evaluation of instruction, which shall include (1) criteria for evaluating teacher performance in all areas of teaching, and (2) evaluation of teachers' competence as it relates to the criteria. All evaluations shall be in writing with a copy given to the teacher. The evaluations shall be conducted periodically, and shall include recommendations for improvement. Assessment and evaluation reports are confidential and cannot be released to the public.

E. IMPROVEMENT EFFORTS

TEACHERS

STATUTES

§11-512

The county superintendent shall: (1) conduct teachers' institutes and hire lecturers in the field of teaching for these institutes; (2) enforce the curriculum; (3) examine teachers applying for certification; (4) appoint trustees and board of education members to fill vacancies until the next election; (5) make annual reports to the state superintendent; and (6) carry out other powers and duties prescribed by law.

III. Quality of the Educational Process

A. Qualification Standards for Schools and School

1. Accreditation

STATUTES

§80-428

A newly elected school board and the county board shall "provide an accredited elementary school for every child as close to his /her home as possible (and) . . . access to an accredited high school."

§80-1233

Any state-accredited primary or secondary school "may be entitled to assignments of student teachers" from post-secondary State institutions, "irrespective of accreditation by any other agency, private or public."

§80-4601--4615

The purpose of the Quality Education Act is to raise the standards of primary and secondary schools. It proposes the elimination of schools with less than an "A" rating by June 1, 1979. The judiciary may issue court orders mandating implementation of this Act until that time.

If no school in a county has an "A" rating, the state board of education shall designate one district in that county to operate its elementary and secondary schools and annex the remaining districts by June 1, 1980. The state board shall give additional funds to schools or districts it determines are "isolated" to hire additional teachers and thereby "improve the quality of the education program." A maximum of seven districts and/or schools may be so designated each year. The state board shall use specifically enumerated standards for annually accrediting schools. A school which falls below an "A" rating must regain its higher status within two years or be subject to annexation or dissolution. The state department of education shall notify schools

APPEAL

of their "A", "B", or "C" rating by April 15 of each year. Districts may appeal their rating after April 15, 1979 by the following May 1 and a hearing must be held by June 15 of that year.

Annexed districts shall receive the same amount of state aid for two years.

A district may petition the County Board of Education to be annexed to an adjoining district whose schools have "A" ratings. The Board of Directors of a receiving district may be increased to not more than eight members, who shall be appointed by the county board to serve until the following school election.

CROSS REFERENCE

II.A.4.; Statute §80-1652 -- 80-1653

2. Other Qualification Standards

Statutes

§80-1601--1682

All "common or elementary schools in Arkansas" shall be open and free at least six months each year. The State Board of Education shall designate the subjects taught, as required by law.

SCHOOL CALENDAR

A school month consists of twenty school days or four weeks of five school days each. A school day consists of at least five hours of instruction.

CROSS REFERENCES

II.A.1.; Statute §80-1637 -- 80-1643; 75-1901 -- 75-1905; 72-281; 75-921

II.A.2.; Statute §80-2108

B. Qualification Standards for Personnel

Commissioner

Statutes

§80-118

The Commissioner shall be appointed by the state

board of education and "may be removed with or without cause" by the state board. He/she "must hold a master's degree from an accredited institution, . . . have had ten years' experience as a teacher, five of which must be . . . of an administrative or supervisory nature, and must hold a valid state teacher's certificate." The commissioner shall be bonded and must account "for all the school money of the state."

REMOVAL

COUNTY BOARD OF EDUCATION

CROSS REFERENCE

I.County Board of Education; Statute §80-201

COUNTY SCHOOL SUPERVISOR

STATUTES

§80-217

The County Supervisor shall be selected by the County Board of Education "for a term of one or two years, subject to re-employment." He/she must meet stringent qualifications regarding completion of degrees and administrative experience.

§80-231

The county supervisor must: "hold a bachelor's degree (from) . . . a college or university approved for the certification of teachers," have at least five years teaching experience, "at least three years of such experience . . . of school administrative nature," and hold a teaching certificate valid in Arkansas.

SCHOOL BOARD MEMBERS

STATUTES

§80-504

"A school director shall be a bona fide resident and qualified elector of the school district which he/she serves." A vacancy may be filled by a majority vote of the remaining members of the board.

VACANCY

School Employees

Statutes

§80-409

CONTRACTS

The board of school directors of each district shall contract with teachers and other employees as prescribed by the state board. Local school boards may issue annual contracts to non-teaching personnel or maintain time sheets.

No spouse or relation "within the fourth degree of consanguinity or affinity to any member of the school board" shall be employed except as specified in this act. Teachers and other employees may be elected upon written petition of the electorate.

School Directors shall make certain all subjects "prescribed the the state board of education or by law" are taught.

State Board of Education

I.State Board of Education; Statute §80-102 -- 80-105

Student

CROSS REFERENCE

IV.G.; Statute §80-1527

Teachers

Statutes

§80-1208

The State Board of Education shall issue and renew all teachers' certificates.

§80-1209

A teacher must be licensed to teach in the State of Arkansas and register his/her license with the county superintendent. Without such certification, the teacher shall not receive "any compensation from school funds."

§80-2211

Teachers qualified for the literary department of the School for the Blind must hold a first grade county teacher's license or professional license or state license.

CROSS REFERENCE

II.A.2.; Statute §80-2314 -- 80-2316

VOCATIONAL EDUCATION TEACHERS

CROSS REFERENCE

II.A.3.; Statute §80-2587 -- 80-2589

C. PERFORMANCE STANDARDS

COUNTY BOARD MEMBERS

STATUTES

§80-204--207

Should county "members . . . (accept) employment elsewhere" or move to a different community or fail to "attend meetings of the school board or participate in its affairs over a period of ninety days," they forfeit their position on the board.

§80-226

The County Supervisor may be discharged by the Board of Education if he/she fails to "perform any duties provided by law, or . . . imposed . . . by the county board of education." The license of the county supervisor may be revoked by the state board of education for wilfull neglect of duties.

REVOCATION

SCHOOL BOARD

CROSS REFERENCE

I.School Board; Statute §80-1532 -- 80-1534

School Board Members

Statutes

§80-1909

It is unlawful for a school board member to be directly or indirectly interested in a contract or purchase made by his/her district unless his/her company offers the lowest bid in a competitive bid.

School Employee

CROSS REFERENCE

II.B.1.a.; Statute §80-1902

School Officials

Statutes

§12-3004--3006

"No elected public official shall receive . . . any salary, compensation, gift or any payment from any tax-exempt foundation." Elected officials or State employees shall not pay to or receive compensation from one another. School district officials and all local officers must file a financial disclosure statement on or before January 31 of each year with the County Clerk and Secretary of State. Said statements shall be "open to public inspection." Violators of these provisions shall be guilty of a misdemeanor, fined $50 to $500 or imprisoned for ten to ninety days or both. In addition, guilty persons shall "forfeit [their] public office or position."

CONFLICT OF INTEREST

§80-1907--1908

Any officer or employee of the school system "who shall wilfully fail or refuse to comply with any provisions of the 'school law' for which no punishment is . . . provided by law shall be . . . guilty of a misdemeanor" and fined $10.00 to $500.00

LIABILITY

CROSS REFERENCE

II.B.1.a.; Statute §80-136 -- 139; §80-1902

SCHOOLS

CONSTITUTION

ARKANSAS CONSTITUTION ART. XIV, §1

Intelligence and virtue being the safeguard of liberty and the bulwark of a free and good government, the the state shall maintain a general, suitable and efficient system of free schools, whereby all persons in the state between the ages of six and twenty-one years may receive gratuitous instructions.

ARKANSAS CONSTITUTION ART. XIV §2

No money or property belonging to the public school fund, or to this state for the benefit of schools or universities, shall ever be used for any other than the respective purposes to which it belongs.

STATUTES

§12-2801--2807

"Except as otherwise specifically provided by laws . . . all state, county, township, municipal and school district records . . . shall be open to inspection and copying by any citizen of the State . . . during regular business hours of the custodian of the records." Citizens are entitled to "reasonable access" to said records.

ACCESS TO RECORDS

Similarly, meeting of same governing bodies, except grand juries and organizations partly supported by public funds shall be open to the public. Persons denied access to reports or meetings may appeal to the courts and be heard within seven days of filing a petition. Knowing violation of this law shall constitute a misdemeanor.

SUPERINTENDENT

STATUTES

§80-1214.1

"The State Board of Education may revoke the license of any superintendent or supervisor . . . where the State Comptroller has found it necessary to proceed upon the bond of said (personnel) . . . to recover funds wrongfully used. Revocation shall be mandatory . . . where recovery on said bond is had."

REVOCATION

CROSS REFERENCE

III.C.Teachers; Statute §80-1228

STATUTES

§80-1214

"The State Board of Education may revoke the license of any teacher for cause, but only after a hearing before the board upon reasonable notice to such teacher and a written copy of the cause to be considered."

REVOCATION

NOTICE

§80-1228

HEARING

The State Board of Education may revoke the certificates of a teacher "who knowingly falsifies any attendance records" and of a superintendent of schools "who knowingly permits or requires" such falsification. Persons whose licenses have been revoked in this manner shall not be eligible for an Arkansas license thereafter.

§80-1243--1248

"Teacher shall mean . . . any person employed by a school district in [Arkansas] in a teaching, instructional, administrative or supervisory capacity, for which a teacher certificate issued by the Arkansas State Education Department is required as a condition of employment." A local school board shall notify a teacher of his/her dismissal in writing. It shall serve notice of a refusal to renew a contract in the manner prescribed by the Teachers' Salary Law. It may include reasons for such actions. Otherwise, "the teacher may file a written request with the board within ten days after receipt of the notice . . . for a statement of the reasons for such dismissal or termination or decision not to renew the contract of the teacher."

A teacher may request a hearing in the same manner. Such a request "shall be sent . . . to the president of the school board, with a copy to the superintendent, within thirty days after written notice of dismissal . . . is received by the teacher."

HEARING

The hearing shall be conducted in this manner: it shall take place five to ten days after the request has been submitted unless the teacher and the board agree to a postponement; it shall be private unless otherwise requested by the teacher or board; both sides may be represented by legal counsel; a record of the proceedings is optional. "If a teacher quits or refuses to teach in accordance with his or her contract without just cause, or otherwise breaks or violates the contract between the teacher and the school district, and enters into a contract with another district or accepts employment in a position requring a teacher certificate with another district during the term of . . .[said] . . . contract. . ., the school board of the injured district may . . . petition the State Board of Education to revoke or suspend the certificate of such teacher . . . during the time for which he or she has been employed under the contract . . . ." This law shall not "limit or restrict" the teacher's right to seek a legal remedy.

§80-1304

RENEWAL

Employment contracts between teachers and boards of school directors shall be renewed in writing by the termination date of the preceeding contract. Otherwise the board must notify a teacher of its decision not to renew said contract no later than within ten days after its termination. Likewise, a teacher must give notice of resignation up to and "within ten days after the close of school" or if said contract "is superceded by another contract between the parties."

"If a teacher quits or refuses to teach in accordance with his or her contract without just cause, he or she is hereby prohibited from teaching

elsewhere during the time for which he or she had been employed."

§80-1629

Teachers shall exercise discipline in the hope of "instill(ing) . . . good morals and gentle manners."

CROSS REFERENCE

D. Evaluation and Reporting

Educational System

Statutes

§80-2214

The Board of Trustees and superintendent shall report to the Governor and General Assembly by January 15th of each year. "These reports shall deal with improvements made during [a] biennial period . . . with suggestions and recommendations covering the institution for the blind for the next legislative period."

CROSS REFERENCE

I.City Superintendent; Statute §80-534

Elementary and Secondary Education

Statutes

§80-4101--4105

An Advisory Council on Public Elementary and Secondary Education has been created and is "purely advisory." It shall have forty-five members, ten persons from each of the four Congressional districts, and five from the General Assembly. The Chairpersons of the Education Committees of the House and Senate shall be members of the Council. Twenty members shall be appointed by the Commissioner of Education for two-year terms and twenty members for four-year terms.

"The Council shall annually select a a vice-chair[person] from its membership."

Minutes of meetings shall be public record. "The facilities and personnel of the State Department of Education shall be made available to the Council. The Department of Education shall publish such reports as desired by the Council and shall pay all necessary expenses" except a per diem allowance.

"The Council shall make such studies, evaluations, recommendations, and reports as it deems advisable in public elementary and secondary education, but shall, as a minimum, file a biennial report with the Governor, General Assembly and the State Board of Education [covering] . . . recommendations for improvement of the quality of public elementary and secondary education", save for the area of vocational education.

A. QUALIFICATION STANDARDS FOR SCHOOLS AND SCHOOL DISTRICTS

2. OTHER QUALIFICATION STANDARDS

STATUTES

§30

"English shall be the basic language of instruction in all schools . . . to insure (its) mastery. . . Pupils . . . proficient in English . . . may be instructed. . . in . . . (a) foreign language."

§37020 -- 37026

"The governing board of any elementary school district shall maintain within the boundaries of the district at least one elementary day school.

The governing board of any high school district shall maintain within the boundaries of the district at least one four-year high school or one senior high school and one junior high school, as provided in Section 3701.

Each unified school district shall maintain classes at least in grades 1 through 12.

Except as otherwise provided, the courses of study for the day elementary schools in districts maintaining junior high schools shall embrace six years of instruction, and in districts in which junior high schools are not maintained, the courses of study shall embrace eight years of instruction. Courses shall allot six or eight years, respectively, for instruction in subjects required to be taught in such schools and may allot not more than two years for kindergarten instruction.

The course of study for any day elementary school located in an elementary school district situated in a high school district maintaining one or more junior high schools, where the districts are governed by boards of identical personnel, shall embrace six years or eight years at the discretion of the governing board of the elementary school

district.

The courses of study for the day elementary schools of a unified school district maintaining one or more junior high schools shall embrace six years or eights years, or some of the elementary schools may be maintained for six years and some may be maintained for eight years. The courses of study for any day elementary school located in an elementary school district situated in a union or joint union high school district maintaining one or more junior high schools shall be six years or eight years at the discretion of the governing board of the elementary school district if such high school district did not maintain a junior high school prior to July, 1943, and if such elementary school is located 40 miles or more by the nearest traveled road from any junior high school maintained by such high school district.

In all other cases, the courses of study of any elementary school shall embrace eight years.

Each day elementary school may allot not more than two years kindergarten instruction."

§37200 -- 37203

"The school year begins on the first day of July and ends on the last day of June.

(a) A school month is 20 days or four weeks of five days each, including legal holidays; provided, however, that for the purposes of counting attendance only in providing for a school calendar the Christmas vacation period, or any portion thereof, may be excluded by the school district in the definition of a school month.

(b) The provisions of subdivision (a) of this section are limited to defining a school month for attendance counting purposes only. A school month for employee pay purposes may be designated by the governing board to begin on any day of the week.

Except where a school has been closed by order of a city or a county board of health, or of the State Board of Health, on account of contagious disease, or where the school has been closed on account of fire, flood, or other

public disaster, the governing board of any school district shall maintain all of the elementary day schools established by it for an equal length of time during the school year, and all of the day high schools established by it for an equal length of time during the school year."

When it is necessary for the convenience of the residents of any district that the school be maintained a part of the year in one portion of the district, and a part of the year in another portion of the district, the aggregate of the time the school is maintained in the different portions of the district shall be the time for which a school has been maintained in the district during a school year.

§37220 -- 228; 37230 --232

The public schools shall continue in session on all legal holidays other than those designated.

When any of the holidays on which the schools would be closed fall on Sunday, the public schools shall close on the Monday following.

When any of the holidays on which the schools would be closed fall on Saturday, the public schools shall close on the preceding Friday.

Nothing in this section is to be interpreted as authorizing a school district governing board to maintain schools in its district for a lesser number of days during the school year than the minimum established by law...the governing board of any school district may declare a holiday in the public schools under its jurisdiction when good reason exists.

"All public schools and educational institutions shall include in the school work on or near the anniversary of the adoption of the Constitution of the United States exercies and instruction for pupils suitable to their ages in the purpose, meaning, and importance of the Constitution of the United States, including the Bill of Rights.

All public schools and educational institutions shall observe Conservation, Bird, and Arbor Day not as a holiday, but by including in the schoolwork of the day, suitable exercises having for their object instruction as to the economic value of birds and trees, and the promotion of a spirit of protection toward them, and as to the economic value of natural resources, and the desirability of their conservation.

February 15th of each year, the anniversary of the birthday of Susan B. Anthony, is designated and set apart as Susan B. Anthony Day.

All public schools and educational institutions shall observe this day with suitable exercises, directing attention to the development of the political and economic status of women in the United States, through the efforts of Susan B. Anthony.

March 5th of each year, the anniversary of the death of Crispus Attucks, the first black American martyr of the Boston Massacre, is designated and set apart as Black American Day to direct attention to the development of black people in the United States of America.

All public schools and educational institutions shall observe this day with suitable exercises.

All public schools and educational institutions throughout the state shall, on January 15th of each year, the anniversary of the birth of Dr. Martin Luther King, Jr., hold suitable exercises commemorating, and directing attention to the history of, the civil rights movement in the United States, and particularly the role therein of Dr. Martin Luther King, Jr.

The governing body of any elementary, high school, or unified school district or any county superintendent of schools may maintain classes on Saturday or Sunday, or both.

Whenever climatic conditions of a school district are such as to render it necessary that the schools be closed as early in the year as possible or opened as late in the year as possible, the governing board of the school district may maintain schools and

classes on any days other than Saturday, Sunday, the 25th of December, the first day of January, the fourth day of July, and any day appointed by the President or the Governor for a public thanksgiving.

When classes are maintained on holidays pursuant to this section, proper exercises shall be held commemorating the day.

§ 46100

SCHOOL DAY

The governing board of each school district shall fix the length of the school day.

§ 46111; 46117 -- 46119

SCHOOL DAY

The minimum schoolday for kindergarten pupils is 180 minutes inclusive of recesses. No kindergarten pupil shall be kept in school in any day more than four hours exclusive of recesses.

A simple-session kindergarten shall be taught by a full-time certificated teacher assigned to only one session of kindergarten daily as principal teacher and where full-time duties are directly related to the kindergarten program.

The governing board of a district with fewer than 40 kindergarten pupils may request permission from the state superintendent to maintain two kindergarten classes of 150 minutes on the same day taught by the same teacher. The average daily attendance for such classes shall be adjusted by a factor of 0.500.

§ 46112 -- 46114

SCHOOL DAY

The minimum schoolday, except in opportunity programs, shall be 230 minutes in grades 1-3 and 240 minutes in grades 4-8. Where a governing board has prescribed double sessions for grades 1-3, the minimum shall be 200 minutes.

The minimum school day may be computed by determing the number of minutes of attendance in any 10 consecutive schooldays and dividing that number by 10.

If the resulting quotient is 230 or more for grades 1-3 or 240 or more for grades 4-8, the pupils shall be deemed to have complied with minimal requirements, even if any one school day is less than 230 or 240 minutes respectively, but not less than 120 minutes for grades 1-3 or 180 minutes for grades 4-8.

§ 46141 -- 46144; 46146

SCHOOL DAY

The minimum schoolday for high school students, including educationally handicapped students but excepting students in an evening high school, regional occupational center, opportunity program, vocational training program and work experience education program, is 240 minutes. It may be computed by determing the number of minutes of attendance in any 10 consecutive school days and dividing by 10. If the quotient is 240 or more, the pupils shall be deemed to have complied with the minimum even if any one schoolday is less than 240, but not less than 180 minutes.

The minimum day in special day or Saturday vocational training programs and work experience education programs is 180 minutes.

A day of attendance in grades 1[illegible]d 12 is 180 minutes of attendance.

REGULATIONS

§11

All elementary schools shall have recess for at least 20 minutes daily. Children shall not be kept in school more than one hour without a recess and all children must leave the schoolrooms at recess.

§ 11237

Whenever one specialist teacher is to serve more than one school pursuant to Education Code Section 5781(a) and (b), the priority required by Education Code Section 5792(b) shall be determined by the combined totals of the pupils in grades 2 and 3.

§3936

All participating districts shall have multicultural education where a survey reveals a multicultural population.

NON-TEACHING ASSISTANT

REGULATIONS

§ 17904-17905

"A person may be employed as a non-teaching aide pursuant to Education Code Sections 13253 and 13253.5 or as a non-teaching assistant pursuant to Education Code Section 16625.01 to serve under the immediate supervision of those holding permits for supervision and/or instruction of a program. Such a person shall submit the following prior to her/his employment:

a) Health certificate form (No. 41-3)

b) Duplicate personal identification cards, processed in accordance with Education Code 13588.

Volunteer personnel shall submit a health certificate form (No. 41-3) to the chief administrative officer, before being assigned to duties in any children's center."

CROSS REFERENCE

IV.A.; Statute §49422; 49425

Teachers

Statutes

§44259 -- 44274

The minimum requirements for the teaching credential are:

(a) a baccalaureate degree or higher from an approved institution;

(b) a fifth year of study to be completed within five years from the date of issuance of the preliminary credential;

(c) an approved program of professional preparation;

(d) passage of a subject matter examination or its waiver;

(e) demonstration of a knowledge of the various methods of teaching reading, to an adequate level.

The minimum requirements for the designated subjects teaching credential shall be adequate, successful, and

recent experience in the technical skill, trade or vocation named. The minimum requirements for the teaching credential also include the satisfactory completion of a unit requirement in health education.

The minimum requirements for specialist instruction credentials are:

(a) a valid teaching credential; and

(b) such specialized and professional preparation as the Commission for Teacher Preparation and Licensing deems necessary.

§44259 -- 44274

Also included are minimum requirements for services credentials with specialization in

(a) pupil personnel services;

(b) health;

(c) clerical or rehabilitative services; and

(d) administrative services.

§44280 -- 44317

The adequacy of subject matter preparation and the basis for assignment of certified personnel shall be determined by the succesful passage of a subject matter examination prepared by the Commission for Teacher Preparation and Licensing, and explained herein.

EXAMINATION

The commission shall waive the subject matter examination requirement for graduates of accredited public and private institutions of higher education who have successfully completed subject matter programs.

§44330 -- 44333

Each county or city and county board of education may provide for the registration of any valid certification or other document authorizing the holder thereof to serve in a position requiring certification qualifications.

§44334 -- 44336

No certification document shall be granted to any person unless and until he/she

(1) has subscribed to an oath or affirmation as provided herein; and

(2) passed a satisfactory examination.

§44337 -- 44338

PHYSICALLY HANDICAPPED

No person otherwise qualified shall be denied the right to receive credentials, to receive training for the purpose of becoming a teacher, or to engage in practice teaching in any school, on the ground he/she is physically handicapped or physically deformed.

§44339 -- 44354

Each applicant for a credential is required to submit reasonable evidence of identification and good moral character.

If the applicant fails to meet standards set by the Commission for Teacher Preparation and Licensing he/she may be denied any application for the issuance of a credential.

§44610 -- 44617

The purpose of these provisions is "to encourage and promote the temporary exchange of teachers between school districts . . . and schools in foreign countries and to make available . . . as teachers foreign-born persons and others who are especially qualified to provide instruction . . . in order that the schools . . . comply with the requirement of state law . . . ."

REGULATIONS

§5902

A preliminary similar multiple subject teaching credential shall be issued for not more than five years following completion of a baccalaureate. After the five

years a single or multiple subject teaching credential shall be issued for five years.

§5920

Emergency credentials shall be issued for up to one year as provided herein.

§5920.6

Emergency Bilingual/Cross-Cultural Teaching Credential shall be granted to a person for one year who meets all the following requirements: completed 90 semester hours of college work, competence in a language other than English, passing specified assessments and examinations, completion of a three hour course or inservice training in bilingual classroom instruction; has served in a bilingual setting and is enrolled or admitted to an approved teacher education institution. The Credential shall be renewed for one year periods upon completion of six semester units of collegiate work.

§5920.7

An emergency specialist credential in learning handicapped, severely handicapped and physically handicapped is not renewable. Applicants must have a valid teaching certificate and one year teaching experience in the area of specialization.

§5922

A life teaching credential may be issued when the person has had five years of full time school experience within the past 10 years and 2 years of continuous full time employment in a California public school district while holding clear credentials.

§5923

Local school boards may initiate a program to certify persons to teach designated subjects by filing an application with the Commission for Teacher Preparation and Licensing. Programs must meet the guidelines established by the Commission to be approved.

Specific Requirements for obtaining a credential include either:

a) a high school diploma plus at least 5 years paid work experience in the field or its equivalent; completion of a state approved examination; completion of 9 semester hours of inservice training and two semester hours of study of the U.S. Constitution if not previously completed. For driver education, the applicant must have a satisfactory driving record for three years prior to receiving his/her credential application; or

b) part time teachers must comply with the requirements above but complete only four semester hours of inservice training or sixty hours rather than nine semester hours or 135 hours.

This credential authorizes the person to teach the subject or trade in which the applicant has demonstrated competency.

To qualify as a supervisor of a designated subject program, a person must possess a clear credential authorizing him/her to teach the subject, three years of fulltime classroom experience and completion of an approved six semester hour program of inservice training.

§5924

An eminence credential may be issued to persons teaching a subject or offering a service that the school board wishes to have taught or practiced in its district. To obtain such a credential the person must possess superior knowledge and skill in comparison with the generally accepted standards and "distinguished superiority" in attainments.

To be reissued a credential, the superintendent must submit to the Commission a copy of the applicant's evaluation report, a statement that the school district will rehire the applicant and a statement that the applicant will "best serve the children of the district."

§5931

In addition to other requirements for obtaining any credential an applicant must either

a) complete an approved teacher education program at a California college or university

b) complete an approved program in another state

c) complete an approved teaching intern program

d) have completed a baccaulareate degree and have three years successful experience completed within 10 years prior to the date of application verified by the state in which the experience occurred.

§5931.1

If a college refuses to recommend an applicant for appropriate credentials, the person may apply directly to the Commission. It shall evaluate the student based on the materials submitted (including a statement of the reasons why the college refused to recommend the applicant) and it shall determine whether to issue a credential.

§5931.2

To add an authorization to the credential a person must apply to the Commission. To obtain an authorization in a single subject area a person must verify that he/she has knowledge of the subject matter by completing an exam adopted by the Commission or a course of study.

The Commission intends that teachers given authorization outside the grade level or subject matter previously taught shall have transitional supervision as deemed appropriate by the district or county superintendent.

§5932

The Commission believes a fifth year of study is an integral part of a teacher education program. The design of the fifth year study will be a responsibility of the teacher in consultation with an accredited university. The Commission shall allow a wide latitude for fifth year programs including: pursuit of a master's degree, inservice training, pursuit of a program of professional preparation.

An applicant may appeal a university's decision not to approve the individuals' fifth year program to the Commission which shall examine the applicant's credentials and make a determination.

§6000-6055

All applicants for teaching credentials must:

have a scholarship record of "C" or better in courses taken to fulfill requirements for a credential; pay a fee of $20; submit a health certificate dated within 12 months of filing application; submit an official transcript; take a course in U.S. Constitution; and be at least 18 years of age.

§6058

To qualify for a life diploma a person must have 48 school months of successful school experience at least 21 of which have been in the public schools of California.

§6076

Any applicant for a credential or renewal of life diploma who is dissatisfied with the action taken by the Commission may appeal to the State Board of Education and is entitled to a hearing at that point.

§ 11210-11215

A governing board that nominates, pursuant to Education Code Section 5775, a qualified certificated employee of the district for the position of

specialist teacher shall submit the nomination to the Bureau of Teacher Education and Certification, State Department of Education (the Bureau).

A certificated employee may petition the Bureau to be nominated a specialist teacher.

APPOINTMENT

The Bureau shall appoint Panels of Observers, required by Education Code Section 5775, who shall select each person appointed a member of an observer panel which shall make observation visits of teachers. Each observation panel, by a two thirds vote, shall nominate or deny nomination of the candidate teacher for the position of specialist teacher.

EXAMINATION

Applicants shall take the State Board designated examination, pay the cost of the examination and pay for issuance of the Specialist Teacher's certificate, if successful.

§ 11230-11234

Applications for an allowance for the employment of specialist teachers and professional librarians under provisions of Education Code Section 5793 shall contain information on eligibility, teachers quotas, and priorities.

After notice of approval and at the end of the school year each district shall furnish preliminary and final certification of actual participation in the act. Districts which fail to conduct their programs in full as certified shall draw a warrant in favor of the Department of Education for the amount of the discrepancy.

§ 11326-11327

Eligibility for designation as a mathematics specialist depends on the following:

a) A baccalaureate degree accompanied by work in both mathematics and math education.

b) Awareness of current trends in math education.

All math specialists designates are subject to approval of the State Board.

§ 11331

Teachers participating in Program III shall meet the qualifications in Education Code Section 5799.25 plus hold a major in mathematics and a regular credential authorizing service at the grade level taught.

§ 11403-11404

Members of the teaching staff of English Language Centers shall have a California teaching certificate and competence based on experience and education to teach English.

Persons with special abilities in the native language of the students may work as "teaching aides" under the supervision of the teaching staff. The administration shall judge the competency required of teaching aides and decide if there is provision for such aides in the plans submitted for approval.

§ 12026-12032

Teachers may be employed with such a program only if they hold a permit authorizing supervision or instruction of children in a children's center under Education Code Secions 16625-16629.

Assistants (as defined in Section 12020(d)) may be employed under the direction of persons holding teaching or supervisory permits. Volunteers may perform any service authorized under Section 12020(d). Both assistants and volunteers shall file certificates with the operating agency declaring themselves free from tuberculosis, as defined in Education Code Section 11708.

"There shall be at least two assistants or volunteers, not less than 16 years of age present for every 15 children."

A teacher, assistant or volunteer shall be provided to assist a child whose primary language is not English. Such service shall be made by a person who is proficient in the child's primary language, to help the child speak English correctly.

"The operating agency shall make every effort to involve parents in observation and participation in the preschool program."

§ 12097-12099

Any person employed as a teacher or supervisor in a demonstration program shall be certified by the State of California unless this requirement has been waived according to Education Code Section 6493. Teachers aide may be employed in tasks which shall be determined by the district.

A district operating a demonstration program shall periodically evaluate the program including the pupils' achievement.

§13001-13003-13005

The New Careers in Education Programs incorporate academic study with on-the-job training for persons who are "familiar with the life problems of low-income and minority students." Local school districts are the eligible applicant agencies and maintain control over the non-academic learning opportunities of the interns.

"...(C)oordination with the school district staff who work in the area of compensatory education is required."

§ 13007-13017

Interns must meet the following requirements:

a) have acquired at least 60 units of college credit;

b) lived or worked extensively with low-income families or be a member of a minority group.

An intern may be removed from such a Program after due process is conducted by a review committee.

§ 17903

Each person employed in a position of supervision and/or instruction in a children's center program shall hold a children's center permit issued by the Superintendent of Public Instruction in accordance with Article 2.

§ 17931

A person who holds a credential described in Education Code Section 16706 when such credential is deemed a children's center permit shall:

(a) File (register) the credential with the county superintendent of schools as provided in Education Code Section 16760 if he/she is employed in a children's center maintained by a public agency.

(b) File (register) the credential with the private agency if he/she is employed in a child development program maintained by a private agency, such filing (registration) to be made not later than 95 days after commencement of his/her service for the agency.

§ 17932

Each applicant for a children's center permit of any type or for any renewal thereof shall submit an application to the Commission for Teacher Preparation and Licensing, or to the Office of the County or District Superintendent of Schools of the county in which the applicant is employed.

Such an application shall be accompanied by the following:

(1) Identification. A personal identification card as otherwise provided in Section 6026 of this title, unless an acceptable card has been submitted with a previous application for a permit under this section or for a certification document issued by the Commission for Teacher Preparation and Licensing.

(2) Fee. Each application for a permit shall be accompanied by a money order or check for the fee specified in Section 6020 for the issuance of a credential.

(3) Transcript. Transcripts of record listing all college and university course work.

(4) Verification of Experience. For each permit granted in whole or in part on the basis of educational experience, the application shall be accompanied with original letters, from responsible persons having knowledge of the facts, verifying the dates and character of the experience claimed.

When all requirements for a permit are met by the date an application is filed, the permit shall be dated as of the date the application was filed, and such date shall be deemed the date of issuance.

§ 17933-17934

Every applicant for a children's center permit, or renewal permit, shall, on demand, submit satisfactory evidence of good moral character as described in Section 17945.

The Commission for Teacher Preparation and Licensing shall issue permits of the following types for service in child development programs:

(a) Supervision permit.

(b) Instructional permit.

(c) Emergency Instruction permit.

§ 17935-17936

Each applicant for a supervision permit shall comply with the procedure prescribed for application (Section 17932) and meet all the following requirements:

(1) Two years of successful teaching or supervision experience in a child development program.

(2) A bachelor's or higher degree granted by an approved institution.

(3) A major, as defined by the institution offering the degree, in early childhood education or child development, and in addition at least six semester hours of course work covering administration and supervision of child development programs. In lieu of a major, a candidate may offer successful completion of twenty-four semester hours of course work

completed through an approved collegiate institution.

The supervision permit authorizes the holder to perform the following services in a child development program:

(1) Supervise a child development program consisting of any number of children's facilities.

(2) Perform services in the instruction of children in a child development program.

The permit issued pursuant to this section shall be valid for 2 years.

Each applicant for a Supervision Permit issued upon postponement of requirements shall comply with the procedure prescribed for application (Section 17932) and meet both of the following requirements:

(1) Possession of a bachelor's or higher degree granted by an approved institution, and at least twelve semester hours of course work in subject fields related to early childhood education.

(2) Two years of successful teaching or supervision experience in a child development program.

The permit shall be valid for two years and may be renewed for two-year periods upon fulfilling both of the following:

(1) Successful completion during the term of the permit to be renewed of four semester hours of course work which applies to a major in a subject field related to early childhood education, or four semester hours of course work in subject fields related to early childhood education.

(2) A year of successful teaching or supervision experience in a child development program.

Upon completion of two years of successful experience in a child development program, subsequent permits may be renewed for two-year periods upon completion of the course work specified in (b)(1) of this section.

The supervision permit issued upon postponement of requirements authorizes the services as specified above.

Applicants for regular instructional permits shall meet the following requirements:

(1) A bachelor's or higher degree granted by an approved institution.

(2) A major in early childhood education or child development. In lieu of a major, a candidate may offer successful completion of sixteen semester hours of course work completed in an approved institution in subject fields related to early childhood education.

(b)Postponement of Requirements. An instructional permit may be issued on the basis of postponement of requirements to an applicant who meets either (1) or (2):

(1) Possession of a bachelor's or higher degree granted by an approved institution and eight semester hours of course work in subject fields related to early childhood education.

(2) Either (A) and (B) or (A) and (C):

(A) Sixty semester hours of course work, including at least twelve semester hours of course work completed in an approved institution in subject fields related to early childhood education.

(B) Two years of successful experience as a teacher or non-teaching aide or non-teaching assistant in a child development program as defined in Section 17930.

(C) A field work course which provides experience in a pre-school program, completed through a community college, college or university which is accredited by a regional accrediting association.

(c) Term and Renewal. An instructional permit shall be valid for a period of two years, and may be renewed as follows:

(1) When issued under subsection (a), the permit may be renewed for the life of the holder upon compliance with the procedure prescribed for application (Section 17932) and certification by the chief administrative officer of the employing agency of a minimum of a year of successful

experience in a child development program within the two years immediately preceding the application.

(2) When issued under subsection (b), the permit shall be valid for a period of two years and may be renewed for successive two-year periods upon compliance with the procedure prescribed for application (Section 17932) and the successful completion, during the life of the document to be renewed, of at least four semester hours of course work in an approved institution in subject fields related to early childhood education.

§ 17938

Each applicant for an emergency instructional permit shall submit with the application verification of (1), (2) or (3):

(1) Sixty semester hours of course work, completed through an approved collegiate institution, including twelve semester hours of course work in subject fields related to early childhood education.

(2) One year of successful experience as a teacher, nonteaching aide or nonteaching assistant and thirty semester hours of course work in subject fields related to early childhood education and continued enrollment in an approved institution.

(3) Employment as a teacher in a State Department of Education community-based contract center on October 1, 1974.

(b) Term and Renewal. The emergency instructional permit shall be valid for two years and may be renewed for successive two-year periods upon compliance with the procedure prescribed for application (Section 17932) and submission of both (1) and (2):

RENEWAL

(1) Certification by the chief administrative officer of the employing agency of a minimum of a year of successful experience performed under the authorization of the document to be renewed.

(2) Verification that the holder has, during the two years preceding the application, successfully completed not less than four semester hours of course work in a subject field related to early childhood education or four semester hours of course work which applies to a bachelor's degree.

The emergency instructional permit may be renewed for two-year periods provided the holder continues to complete renewal requirements specified in (b)(1) and (2) of this section, until the applicant completes requirements for the regular instructional permit or the instructional permit issued upon postponement of requirements.

(c) Authorization. An emergency instructional permit authorizes the holder to perform service in the instruction of children in a child development program.

(d) Expiration Date. The authorization to issue Emergency Instructional permits under this Section will expire June 30, 1976.

§ 17939-17945

APPOINTMENT

The Superintendent of Public Instruction shall appoint a permit committee consisting of 3 persons to examine applications and conduct investigations in connection with children's center permits.

A permit is not required for a nonteaching aide described in Education Code Sections 13253 and 13253.5.

A permit issued pursuant to this article is subject to the condition that it may be suspended or revoked for the reasons and by the procedure specified in this article.

The grounds and procedures for denial, suspension and revocation of teaching credentials, shall, respectively, constitute grounds for denial, suspension and revocation of children's center permits.

§ 18020

Campus Child Development Programs shall provide adequate, qualified personnel to achieve the programs objectives.

Personnel policies shall be established pursuant to Section 18168(a)(9) of this title.

Health requirements for all personnel, including volunteers, shall conform to those stated in Section 18168(a)(8) of this title.

Director/Teacher: Directors or teachers shall hold credentials or permits issued by the Commission for Teacher Preparation and Licensing or possess teaching credentials issued by the State Board of Education or Commission. In larger programs, persons who directly supervise more than one teacher, shall have a Child Development Supervisor's Permit or an Administrative Services Credential.

Teacher's Aides or Assistants: Teacher's aides or assistants may be employed to the extent that they are essential to the program. If sufficient competent volunteers, work study students, and parent participants cannot be recruited on a regular basis, teacher's aides or assistants may be budgeted to assure adequate adult-child ratios.

§56531--56532

No person shall be employed as a teacher of mentally retarded pupils who does not hold a valid credential for the education of mentally retarded children. However, the employment of a person with some other valid credential for substitute teaching as a substitute teacher of a special class for the mentally retarded for not more than 20 schooldays in a school year shall not be prohibited.

Any person may be employed to teach mentally retarded pupils in a sheltered workshop, occupational training program, or other vocational educational program if that person holds a designated subjects teaching credential in a subject related to the program.

HIGH SCHOOL DIPLOMA RECIPIENTS

STATUTES

§51420 -- 51427

The state superintendent may issue a California

high school equivalency certificate to any person who has not completed high school and who is at least 18 years of age or would have graduated from high school had he/she remained in school, who is a resident of the state or is a member of the armed services assigned to this state, and who has passed a general educational development test, approved by the State Board and administered at an approved testing center, with a score equal to the standard of performance expected from high school graduates.

Applications for a high school equivalency certificate shall be submitted on a form prescribed by the state superintendent. A fee, not to exceed ten dollars, may be charged and used for purposes of equivalency certification.

Each testing center shall, upon the applicant's request, provide the state superintendent with a certificate of the applicant's test results.

The state superintendent may provide for the administration of the general educational development test to persons confined to state or county hospitals or correctional institutions.

The state superintendent shall keep a permanent record of equivalency certificates issued and applications for them.

The equivalency certificate shall be deemed a high school diploma for purposes of meeting employment requirements by all state and local public agencies.

The state board shall adopt rules necessary to implement §51420 et seq.

DISMISSAL

"No permanent employee shall be dismissed except for one or more of the following causes:

(a) Immoral or unprofessional conduct.

(b) Commission, aiding, or advocating the commission of acts of criminal syndicalism, as prohibited by Chapter 188, Statutes of 1919, or in any amendment thereof.

DISMISSAL

(c) Dishonesty.

(d) Incompetency.

(e) Evident unfitness for service.

(f) Physical or mental condition unfitting him[her] to instruct or associate with children.

(g) Persistent violation of or refusal to obey the school laws of the state or reasonable regulations prescribed for the government of the public schools by the State Board of Education or by the governing board of the school district employing him[her].

(h) Conviction of a felony or of any crime involving moral turpitude."

(i) Knowing membership by the employee in the Communist Party.

A permanent employee may be dismissed on all grounds of unprofessional conduct.

No report on the fitness of a teacher in a dismissal proceeding shall be received by a governing board unless the teacher shall have been given the opportunity to submit his/her comments on the report.

An employee is entitled to a hearing, and any possible appearances or examination upon discovering he/she may be dismissed with the intent of providing all possible means for vindication. A decision on competency may be made by the Commission on Professional Competence.

HEARING

This article also provides for the granting of leaves of absence and conditions attached to such leaves.

§70

CONFLICT OF INTEREST

"Public employees should perform their duties in an impartial manner free from bias caused by their own financial interests. . . . Assets and income which may be materially affected by their official action should be disclosed and . . . employees should be disqualified from acting [so] that conflict may be avoided."

This code has the force of law.

To implement the preceding goals, four categories of employees are designated to disclose information to the personnel department. The information to be disclosed varies with the category of employee. Those persons employed above the level of Assistant Superintendent shall report all financial interests required of the lower three categories. These include interests in investments, real property, income and positions of management which the employee "knows or has reason to know" is the type utilized by the department. Employees must disqualify themselves from making decisions "which will foreseeably have a material financial effect, distinguishable from its effect on the public generally on any reportable interest of that employee (except sources of gifts less than $250)" including the employee's personal residence.

To disqualify oneself, the employee notifies his or her immediate superior in writing and another person shall be assigned to the matter.

§ 17646

NOTICE
DISMISSAL
SUSPENSION

The superintendent of a special school, with approval of the Chief of the Divisions of Special Education, may serve a written notice of dismissal or suspension on an employee. Such notice shall include the grounds upon which such an action is based and the date on which dismissal is effective.

§ 17647

HEARING

Within 10 days of receipt of such notice, the employee may file a request for a hearing with the Chief of the Division of Special Education. A hearing shall be held within 30 days at which evidence from the Superintendent of Public Instruction and from the employee regarding the existence of grounds for such dismissal, may be presented.

§ 17648

"The Chief of the Division of Special Education or her/his designee shall prepare a written statement that she/he finds grounds do, or do not, exist for the employee's dismissal or suspension."

§ 18520-18523

The meeting shall be a public meeting, unless the employee otherwise requests five days prior to the meeting by letter directed to the Secretary of the State Board of Education at Sacramento in which event the meeting shall be an executive one.

Attendance at an executive session shall be limited to members of the board, a subcommittee or counsel thereof, the employee and his counsel, and such members of the staff of the Department of Education as the chairman may then designate.

RIGHT TO COUNSEL

The employee shall be permitted to be represented by counsel of his own choosing at such meeting.

The chairman or the person propounding the questions shall have the power to issue such orders as are necessary to maintain the fair, proper, and orderly conduct of the proceedings.

School Officer

Statutes

§44030

"Any principal, teacher, employee, or school officer of any elementary or secondary school who refuses or willfully neglects to make such reports as are required by law is guilty of a misdemeanor . . . ."

State Board of Education

Regulations

§ 18600

On June 4, 1974, the Political Reform Act of 1974 was enacted into law. A part of that Act has a direct application to the State Board of Education. Among the goals the Act seeks to achieve are:

CONFLICT OF INTEREST

(a) Public officers and employees should perform their duties in an impartial manner free from bias caused by their own financial interests.

(b) Assets and income of public officers and employees which may be materially affected by their official actions should be disclosed and, in appropriate circumstances, the officer or employee should be disqualified from acting in order that conflicts of interest may be avoided.

(c) To accomplish the above goals and to satisfy the requirements of law the State Board of Education adopts the following Conflict of Interest Code.

(d) This Code has the force of law and any violation of the Code by a designated officer or employee may subject him or her to the sanctions provided by law.

STATUTES

§48412; 48414

A person subject to or exempt from compulsory continuation education (except high school graduates) may apply to have proficiency in basic high school skills verified according to criteria established by the state department. The state board shall award a "certificate of proficiency," equivalent to a high school diploma, to pupils who demonstrate such proficiency.

DIPLOMA

The department shall develop standards of competency in basic skills and supply to approved centers means to verify such competency in order to measure eligibility for exemption from compulsory continuation attendance.

The department may charge a fee, not to exceed $10.00, for each examination application to cover costs of administering proficiency determination.

Any person 16 or 17 years of age exempt from compulsory continuation on account of successful demonstration of proficiency shall be permitted to reenroll in the district, without prejudice.

§51224 -- 51226

The governing board maintaining a high school shall adopt minimum academic standards that every pupil shall have to meet to receive a diploma of graduation. Standards will be such as will enable individual achievement to be ascertained and evaluated. Such standards shall include separate courses of study including, but not limited to, a course designed to prepare prospective students for admission to colleges and for vocational training. Standards shall be made available to the public.

GRADUATION

Requirements for graduation shall include: English, American history, American government, mathematics, science, physical education, and other prescribed courses.

The state board shall prepare and distribute to each school district examples of minimum academic standards for graduation to assist school districts in developing their own standards.

The state board is not authorized to adopt statewide minimum academic standards for high school graduation.

REGULATIONS

§1021-1025

TESTS

Each school district shall administer achievement tests for basic skills to each pupil in grades 6 and 12. Scores shall not be included on the pupil's cumulative record or be used for placement purposes. The district or County Superintendent shall make sure the tests are properly administered.

§1026

TESTS

Statewide test results shall be released by the State Board at a regularly scheduled meeting. No school district shall release its result prior to this meeting.

§1041

PHYSICAL TESTS

Students shall be required to take physical performance tests in grades 5, 7 and 10. Physically handicapped children will be given as much of the test as the condition permits.

These scores shall be included in the student's permanent record.

These test scores shall be used to identify physically underdeveloped pupils, appraising student progress and adapting the physical education program to the student needs.

§1050

READING TEST

Grade 1 pupils shall be given an entry level reading test developed by the SBE. Pupils in grades 2 and 3 shall also be tested.

Test Scores shall not be used for placement and not included on the student's cumulative record.

§1630

COLLEGE COURSES

A high school student may receive credit for courses taken in a state college provided the person makes written application, the course is included in the high school curriculum and college credit is not received.

§1632

FOREIGN LANGUAGE

Private school instruction in a foreign language may be applied to a regularly enrolled high school student if the parents make written application to the school and the instruction demands a level of difficulty comparable to a specified level at schools in the district. The principal shall make this determination based on test scores given in the school.

§1635

WORK EXPERIENCE

Credit may also be given for work experience but not to exceed 10 semester periods each semester with a maximum of 40 semester periods.

§ 11521

CERTIFICATE OF PROFICIENCY

Each "certificate of proficiency" shall be accompanied by an indication of the pupil's accomplishment and the date of the award on the pupil's official transcript.

§ 11531

TESTING

Each General Educational Development Testing Center may be authorized to administer tests as long as it has complied with the following:

a) Fulfilled the requirements of the Commission on Accreditation of Services Experiences.

b) Agreed to comply with test security requirements.

c) Agreed to inspection by representatives of the State Department of Education.

STATUTES

§32340 -- 32341

Any superintendent or board of education, who issues a credential, except as provided by law, is guilty of a misdemeanor.

STATUTES

§44420 -- 44437

Should any person employed by a school district in a position requiring certification qualifications refuse to fulfill a valid contract of employment with such district his/her credentials may be suspended. SUSPENSION

Such revocation may also take place if the holder is convicted of a sex offense or narcotics offense. REVOCATION

REGULATIONS

§5481

"Principle I. Commitment to the Student. The educator measures his[her] success by the progress of each student toward realization of his[her] potential as a worthy and effective citizen. The educator therefore works to stimulate the spirit of inquiry, the acquisition of knowledge and understanding, and the thoughtful formulation of worthy goals. In fulfilling these goals:

(a) He[she] encourages the student to independent action in the pursuit of learning and provides access to varying points of view.

(b) He[she] prepares his[her] subject carefully, presents it to his[her] students without distortion and -- within the limits of time and curriculum -- gives all points of view a fair hearing.

(c) He[she] protects the health and safety of his[her] students.

(d) He[she] honors the integrity of his[her] students and influences them through constructive criticism rather than by ridicule and harassment.

(e) He[she] provides for participation in educational programs without regard to race, color, creed, or national origin -- both in what he[she] teaches and how he[she] teaches it.

(f) His[her] professional relationships with students

shall not be used for private advantage; the educator neither solicits nor involves them or their parents in schemes for commercial gain.

(g) He[she] shall keep in confidence information that has been obtained in the course of professional service, unless disclosure serves professional purposes or is required by law."

§5482

"Principle II. Commitment to the Public. The educator believes that democratic citizenship in its highest form requires dedication to the principles of our democratic heritage. He[she] shares with all other citizens the responsibility for the development of sound public policy and assumes full political and citizenship responsibilities. The educator bears particular responsibility for the development of policy relating to the extension of educational opportunities for all and for interpreting educational programs and policies to the public. In fulfilling these goals:

(a) He[she] has an obligation to support his[her] profession and institution and not to misrepresent them in public discussion. When he[she] criticizes it in public he[she] has an obligation not to distort the facts. When he[she] speaks or writes about policies he[she] takes adequate precautions to distinguish his[her] private views from the official position of the institution.

(b) He[she] does not interfere with a colleague exercise of political and citizenship rights and responsibilities.

(c) His[her] institutional privileges shall not be used for private gain. He[she] does not exploit his[her] pupils, their parents, his[her] colleagues, nor the school system itself for his[her] private advantage. He[she] does not accept gifts or favors that might impair or appear to impair professional judgment nor offer any favor, service, or thing of value to obtain special advantage."

§5483

"Principle III. Commitment to the Profession. The educator believes that the quality of the services of the education profession directly influences the nation and its citizens. He[she] therefore exerts every effort to raise professional standards, to improve his[her] service, to promote a climate in which the exercise of professional judgment is encouraged, and to achieve conditions which attract persons worthy of trust to careers in education. In fulfilling these goals:

(a) He[she] accords just and equitable treatment to all members of the profession in the exercise of their professional rights and responsibilities.

(b) He[she] does not use coercive means or promise special treatment in order to influence professional decisions of colleagues.

(c) He[she] does not misrepresent his[her] own professional qualifications.

(e) He[she] applies for, accepts, offers and assigns positions or responsibility on the basis of professional preparation and legal qualifications.

(d) He[she] does not misrepresent the professional qualifications of his colleagues, and will discuss these qualifications fairly and accurately when discussion serves professional purposes.

(f) He [she] uses honest and effective methods of administering his[her] educational responsibility. He[she] conducts professional business through proper channels. He[she] does not assign unauthorized persons to educational tasks. He[she] uses time granted for its intended purposes. He[she] does not misrepresent conditions of employment. He[she] lives up to the letter and spirit of his[her] contract."

§5484

DISMISSAL

Unprofessional conduct that is cause for dismissal shall be only those which "involve jeopardy to student welfare, evidence malice, serious incompetency or bad judgment; or show a consistent pattern of misconduct."

The procedures for denial, suspension and revocation of Childrens' Centers permits shall be as follows:

SUSPENSION

REVOCATION

(a) Statement of Issues. Upon filing of an appeal pursuant to Section 17944(c) hereof, the Superintendent of Public Instruction shall cause a statement of issues to be prepared, filed and served consistent with the provisions of Section 11504 of the Government Code and a hearing thereon shall be held as is herein provided.

(b) Accusation. Proceedings to suspend or revoke a children's center permit pursuant to Section 17955(b) hereof shall be initiated by the filing of an accusation consistent with the provisions of Government Code Sections 11503 and 11505 and the provisions of Government Code Section 11506 shall apply.

(c) Hearings. When a hearing is held involving the denial of an application for,or the suspension or revocation of, a children's center permit, the proceedings shall be conducted pursuant to this article and to Article 2 of Chapter 2 of Part 1 of Division 3 of Title 2 of the Government Code, insofar as it may be applicable.

HEARING

(d) Notice of Hearing. The provisions of Government Code Section 11509 shall apply to the Notice of Hearing.

NOTICE

(e) Augmented Permit Committee. Every hearing in a contested case shall be conducted by the permit committee augmented by a presiding officer, who shall be an attorney, appointed for that purpose by the Superintendent of Public Instruction, which committee shall be designated the augmented permit committee, or, by the presiding officer, sitting alone, as the Superintendent of Public Instruction may order.

(f) Proposed Decision. In every contested case, the augmented permit committee, or the presiding officer, as the case may be, shall prepare a proposed decision in such form that it may be adopted by the Superintendent

of Public Instruction as the decision in the case. A copy of the proposed decision shall be filed by the Superintendent of Public Instruction as a public record and a copy of the proposed decision shall be served on each party in the case and his attorney. The Superintendent of Public Instruction may adopt the proposal in its entirety, or partially or may reject the proposed decision and decide the case upon the record, after allowing parties to submit written arguments.

POLICY GUIDES

HANDBOOK ON THE LEGAL RIGHTS AND RESPONSIBILITIES OF SCHOOL PERSONNEL AND STUDENTS IN THE AREAS OF MORAL AND CIVIC EDUCATION AND TEACHING ABOUT RELIGION
California State Board of Education, 32 pages
1977.

This booklet discusses the educational responsibilities of school personnel in teaching morality, truth, justice, patriotism and other values recognized by the California Legislature in Code Section 1355.15. It also summarizes the legal rights and responsibilities of students and teachers. Finally, it provides guidelines about teaching religion in the public schools.

TENURED EMPLOYEE

REGULATIONS

§ 17631

Tenure is acquired by being a full time pre-tenure employee at one special school for three successive school terms or fiscal years. This shall include the "voluntary transfer of a tenure employee at one special school to another special school for the same type of student for one school term."

§ 17633-17634

NOTICE

REAPPOINTMENT

Unless the superintendent of the school gives her/him notice, by March 1, that she/he will not be reappointed, a pre-tenure employee shall be deemed reappointed for the school term of fiscal year.

"Unless she/he gives written notice to the superintendent by April 1 that she/he resigns effective on or before the close of the school term or fiscal year .... a pre-tenure or tenure employee shall be deemed to have accepted full-time appointment or reappointment for the succeeding year."

§ 17649

TERMINATION

The Superintendent of Public Instruction may terminate the employment of a tenure employee under conditions specified in Education Code Sections 13255 and 13256 or upon revocation of the employee's credentials without complying with Section 17647 or 17648.

§ 17645

DISMISSAL

SUSPENSION

Any ground for which a permanent certificated employee of a school district may be dismissed or suspended by a school district constitutes ground for suspension or dismissal of a tenure employee.

CERTIFICATED PERSONNEL

STATUTES

§44660 -- 44664

The intent of this article is to establish a uniform system of evaluation and assessment of the performance of all certificated personnel within each school district of the state. The system shall involve the development and adoption by each school district of objective evaluation and assessment guidelines which may be uniform throughout the district or be individually developed for territories or schools within the district.

POLICY GUIDES

GUIDELINES FOR SCHOOL DISTRICTS TO USE IN DEVELOPING PROCEDURES FOR EVALUATING CERTIFICATED PERSONNEL

California State Board of Education, 11 pages 1972.

This booklet describes guidelines for districtwide policies that will provide "a uniform system of evaluation of certificated personnel" and for the development of specific procedures for classifying such personnel.

CHILD DEVELOPMENT PROGRAM

REGULATIONS

§ 18022

The State Department of Education may visit each Campus Child Development Program to conduct compliance

reviews. The compliance reviews will be conducted in accordance with Sections 18153(a)(1),(2) and (3), 18154, and 18155 of this title.

The compliance review process assesses the adequacy of the Campus Child Development Program and provides authorization for its continued operation pursuant to the provisions of this chapter.

STATUTES

§4208

Each county superintendent of schools, every other county officer, and officers or employees of any school district shall furnish any records, reports, etc. to the county committee and confer with that group concerning such county's problems, when requested to do so.

CURRICULUM

STATUTES

§60630 -- 60634

From time to time, the state board shall conduct studies of the effectiveness of various public school courses, including details of specific course objectives and of levels of student achievement. For this purpose, the board may use results of any

tests administered under §60603 et seq. The board shall report its findings and recommendations to the Governor and the Legislature. Such reports shall maintain the anonymity of individual students.

Governing boards shall cooperate fully with the state board in making their schools available for studies, provided that the state board shall provide all materials and consultant services free of charge.

The state board may accept federal or other funds for purposes of financing such studies.

EDUCATIONAL INFORMATION

STATUTES

§10600 -- 10607

The object of this section is to make complete,

current, and reliable information relating to education available to all public education agencies in California at maximum efficiency and economics through statewide compatibility in the development and application of information systems and electronic data-processing techniques insofar as they relate to data required in reports to the Department of Education. In pursuit of this end a system is established to conduct and keep up to date a basic, integrated, statewide information system for education.

In establishing and maintaining the system the Department of Education shall consult and cooperate with school districts, maintain the system by incorporating necessary or desirable changes, and provide sufficient flexibility within the system to allow local and state education agencies to meet all of their education information needs.

School districts shall cooperate and consult in joint development, coordinate activities, and conduct those activities pursuant to the goal of information processing.

The information processing capabilities of the system shall include the following: (a) Provision of a statewide common data base for education research and other uses in education; (b) Interchange of data with other education institutions; (c) machine processing aid to decision making in education administration and the use of modern management tools; (d) reduction of routine clerical activities in education agencies; (e) facilitation of preparation of reports required by state and federal agencies; (f) support of functions of the Educational Management and Evaluation Commission.

The Department of Education, in its establishment and conduct of the system shall: (a) develop statewide education use standards; (b) make available the system components; (c) establish a pilot data-processing

center; (d) establish safeguards to assure only appropriate access to confidential information; and (e) disseminate information about the system.

The system is intended to provide a basic package of services to school districts that will facilitate the gathering of data required for reporting to the state.

Educational Programs

Statutes

§33550 -- 33556

There is in the state government the Education Management and Evaluation Commission, consisting of members of proper experience, that shall "assist and advise the State Board of Education in the evaluation of the program achievement of education programs, in the determination of the relative cost effectiveness of education programs, and shall make recommendations concerning the expanded use, modification, or replacement of education programs so as to produce a higher degree of program achievement and cost effectiveness."

Regulations

§3926

Every school district maintaining categorial aid programs must submit a comprehensive program plan for students who will receive additional services from these funds. It shall indicate goals and measureable objectives such as improvement of basic skills and evaluation procedures designed to test how well the objectives have been met and the extent of student progress.

Employee Reports

Statutes

"On or before December of each year, each school district shall submit to the Superintendnet of Public Instruction, on forms that he/she shall provide . . . a report containing all of the following information . . . .

The number of teachers employed by the district.
The number classified employees (of the) district.
The number of pupil services employees (of the) district.

Students

Statutes

§49066

Grades given to pupils for course work shall be determined by the teacher of the course and this determination, in the absence of mistake, fraud, bad faith, or incompetency shall be final. GRADES

No grade in a physical education class may be adversely affected by a pupil's failure to wear standardized physical education apparel where the failure arises from circumstances beyond the pupil's control.

§49067

The school governing board shall prescribe regulations requiring the evaluation of each pupil's achievement for each marking period and requiring a conference with, or a written report to, the parent of a pupil who is in danger of failing a course. The refusal of the parent to attend the conference, or respond to the report, shall not preclude failing the pupil at the end of the grading period. GRADES

This provision shall apply to the parent of any pupil, even if the pupil has attained the age of 18 years.

§54302 -- 54304

TESTS

The state board, with the advice of the Advisory Committee on Educational Research in Basic Educational Programs, shall select achievement tests to be administered to pupils in mathematics improvement programs and shall also develop an achievement test in mathematics for grades 3, 6, and 8 to measure the degree to which mathematics programs meet the objectives of the revised outline of the mathematics curriculum developed by the Advisory Committee on Educational Research in Basic Educational Programs. This test may be designated by the state board for use in studies to evaluate state-recommended course content and other assessment purposes.

Tests shall be provided by the state superintendent free of charge to participating school districts.

§60603 -- 60614

TESTING PROGRAM

The state board shall:

(a) Require a testing program in all school districts.

(b) Require the Department of Education to recommend achievement tests to the state board for adoption.

(c) Develop a testing method that will obtain an accurate estimate of statewide, districtwide, and schoolwide performance of pupils in grades 6 and 12 in basic skills courses. Under such a testing method, the Department of Education shall annually require that such district administer a statewide test to all pupils in grades 6 and 12.

(d) Designate a physical fitness performance test.

(e) Adopt regulations for the administration of the testing program.

The state board may develop and use tests of its own devising and may utilize expert services of any persons or groups.

The state board shall determine which, if any, results or achievement tests may be recorded on the pupil's cumulative school record.

Each governing board shall, in accord with state board rules, conduct an achievement testing program within the district.

Each county superintendent shall cooperate with and assist local districts in carrying out the testing programs prescribed by the state.

Each governing board shall submit all answer sheets for the achievement tests on a pre-school basis to the Department of Education for scoring.

With the exception of physical performance tests, no superintendent, school officer, or teacher shall carry on a program of specific preparation for the testing program as such or for a particular test.

No group test directed to ascertaining the intelligence quotient of a pupil, except tests administered to determine individual placement in special education programs, shall be given to any pupil who has come to the U.S. for the first time from a foreign country in which English is not the primary language until such student has resided in the U.S. for two years.

Annually each governing board shall administer to each pupil in grades designated by the state board the physical performance test designated by the state board.

Each physically handicapped pupil and each pupil physically unable to take all of the test shall be given as much of the test as his/her condition permits.

Upon the Department of Education's request, a school district shall submit at least once every two years the results of its physical performance testing.

No school district shall administer any standardized group test which attempts to provide a single measure of general scholastic aptitude to any pupils in a district except for:

(a) scholastic aptitude tests administered for placement in special educational programs for mentally gifted minors or in postsecondary education or for purposes of determining eligibility

for scholarship awards.

(b) giving scholastic aptitude tests for research purposes (if the district has a state superintendent-approved testing plan including a current schedule of testing, a statement of purposes for the tests and provisions for the tests' interpretation by a school psychologist, psychometrist, or school counselor).

§60640 -- 60644

TESTS

The state board shall require each district to administer uniform tests to each pupil not later than the pupil's third month of attendance in the first grade in order to obtain a composite estimate for each pupil of skills related to learning and memory, attention, visual perception, and auditory comprehension.

The state board shall also require each district to administer uniform tests in reading annually to pupils in grades 2 and 3. The state board shall develop a testing method that will obtain an accurate estimate of statewide performance of pupils in grades 2 and 3 in reading.

If no published tests are deemed suitable for these purposes, the state board may combine parts of available tests or develop a new test.

Answer sheets shall be transmitted to the Department of Education for scoring. The state board shall determine the form in which this shall be done.

These tests shall be employed to determine each district's quota of specialist reading teachers.

Scores for individuals on the first-grade entry level shall not be used for individual diagnosis or placement and shall not be included on the pupil's cummulative record.

Scores of tests of pupils in grades 2 and 3 who have participated in a remedial program shall be maintained separately. From a study of test results in districts which conduct a basic

reading program and districts which do not, the state superintendent shall evaluate basic reading programs and report findings to the state board.

§60650

PERSONAL INFORMATION

No test, questionnaire, survey or examination containing any questions about a pupil's or a pupil's parents' or guardians' belief or practices in sex, family life, heredity and religion shall be administered to any pupil, unless a parent or guardian is given prior notice and given written permission.

NOTICE

§60660 -- 60664

TEST ANALYSIS

The Department of Education shall submit an annual report to the Legislature, the state board and each school district containing a district-by-district analysis of the results and scores of the testing program in basic skills courses including tests administered under §54100 et seq. and §60640 et seq. The report shall include an analysis of such factors bearing on the results as demographic, financial, pupil and parent, and instructional and staff characteristics and specially funded programs.

The state board shall recommend to the Legislature appropriate or necessary legislation with respect to results of the testing program.

Whenever the state board designates a new test to be administered under this chapter, the Department of Education shall study the compatibility of the results of the new test and existing tests.

The state superintendent shall perform an analysis of selected schools to identify educational factors which produce the difference between unusually high-performing districts and unusually low-performing districts. Schools chosen for study shall be comparable in social and demographic characteristics and shall vary only on student attainment.

REGULATIONS

§ 11201

The reading testing program required by the Act in Grades 1,2 and 3 shall be conducted as provided in Sections 1050-1056.

E. IMPROVEMENT EFFORTS

CERTIFICATED EMPLOYEES

STATUTES

§1946

The county board of education may contract for the conduct of centralized in-service training programs for both certificated and classified employees of the school districts.

IN SERVICE TRAINING

REGULATIONS

§3933

Schools maintaining programs under this section shall provide staff development for all certificated personnel to assure successful implementation of the program.

COUNTY SUPERINTENDENT

STATUTES

§1943

Personnel may be employed to conduct research in connection with the activities of the county superintendent and to develop systems for applying such research findings to improve the effectiveness of those activities.

CURRICULUM

STATUTES

§33530 -- 33539

This section concerns the Curriculum Develpment and Supplemental Materials Commission which is designed to "study problems of courses of study in the schools of the state and shall . . . recommend to the State Board of Education the adoption of minimum standards for courses of study in preschool, kindergarten, elementary, and secondary schools."

Members of the Commission shall have a proper background and be sufficiently qualified to carry out such a task.

EDUCATIONAL OPPORTUNITIES

STATUTES

§45340 -- 45349

This article seeks to fulfill the need to provide classroom teachers and other certifieated personnel with more time to teach and the means for them to utilize their professional knowledge more effectively. This is done by authorizing the employment of instructional aides so that such aide may assist in ways determined to be useful in improving the quality of educational opportunities for pupils.

EDUCATIONAL PROGRAMS

STATUTES

§33500; 33502 -- 33508; 33512 -- 33522

"The Legislature hereby declares that there is further need to encourage the adoption of new or improved educational ideas, practices, and techniques in solving critical educational problems in preschool, elementary and secondary schools throughout the state. Recognizing the need for the planning and developing of new programs involving a wide range of new approaches designed to improve the quality of education available in this state, this chapter is expressly enacted to foster innovation and create change in education, based on research and proven need. It is the intent of this chapter to bring purposeful change and experimentation to schools throughout the state, through the use of all available resources of the state.

The Legislature further finds that there are in existence a large number of permanent commission, committees and councils, some of which have overlapping duites and functions, and some of which have been perpetuated beyond the original need or purpose for which created. In order to provide a more economical, efficient and logical structure to educational policymaking, it is the intent of the Legislature to create three levels of educational advisory committees, and educational task forces."

Pursuant to this chapter there is in the state government the Educational Innovation and Planning Commission, and the Superintendent of Public Instruction shall serve as its executive secretary.

All projects recommended by the commission shall be submitted to the State Board of Education for its approval.

"Priority for experimental, demonstration or operational projects shall be given to the following:

(a) A language development program or a mathematics program, or both, given in the elementary or secondary

grades or both. For purposes of this article, 'language development' includes the elements of reading, writing, spelling, speaking and listening, and comprehension of ideas and concepts.

IN SERVICE TRAINING

(b) An in-service and preservice training program for elementary or secondary teachers or both developed with local institutions of higher education. Such programs shall emphasize the improvement of specific classroom teacher skills required to instruct language development and mathematics.

"In order to be deemed an approved project and be eligible to receive an allocation from the State Board of Education, an experimental, demonstration, or operational project shall meet the following criteria:

(a) The proposed activities are not activities presently being performed by other state and federal programs.

(b) The proposed activities supplement, but do not supplant, other state or federal programs.

Special consideration shall be given to applications which meet the following criteria:

(a) The target school has an above average number of pupils whose reading achievement scores fall within the first quartile, as measured by the most recently administered statewide reading test;

(b) The application includes comprehensive evaluation plans.

The State Board of Education shall submit an annual comprehensive report to the Governor and the Legislature which shall document:

(a) Improved achievement levels resulting from the projects.

(b) The degree to which the program has motivated schools, both participating and nonparticipating in the program to improve their curriculum in language development and mathematics and other instructional areas emphasized in grants approved.

(c) The numbers of programs continued by the original local educational agencies.

(d) The results of the dissemination and diffusion efforts by exemplary projects . . . .

The commission shall identify and submit to the State Board of Education up to 25 projects conducted during the current years as 'exemplary projects.' Priority shall be given to projects which exhibited the greatest degree of success in achieving their objectives, with the highest priority given to those which demonstrate the greatest gain in achievement levels. Such exemplary projects may include projects funded pursuant to this article and similar projects selected from other funding sources which address state priorities. Information concerning such exemplary projects shall be disseminated to all local educational agencies in the state which maintain the grade levels involved in such projects."

SCHOOL DISTRICT BOARD MEMBERS

STATUTES

§33360 -- 33363

"The Department of Education and a statewide association composed exclusively of school district

governing boards or county boards of education, or both, acting jointly, may conduct annual workshops within this state. Such workshops shall include but are not limited to study and instruction on the subjects of school finance, the Education Code and related laws, and the ethics, duties, and responsibilities of the school district governing boards and county boards of education . . . .

The Department of Education shall maintain a permanent record of each school district and county board of education member who successfully completes a workshop and shall issue a certificate of completion to such member.

Any member or member-elect of a school district governing board who attends and successfully completes a workshop as authorized by this article may be reimbursed for expenses. . . ."

School District Educational System

Statutes

§10400 -- 10407

This section seeks to improve school district educational systems and to enrich their educational offerings by utilizing resources which exist in the community. Emphasis is to be placed on agriculture, science, business and commerce, vocational education, and teacher training. In pursuit of this end contracts and agreements with appropriate organizations may be entered into by school districts.

Assistance may be sought from colleges and universities so that their programs may be functionally and effectively integrated with and provide assistance to the public schools.

TEACHER AIDES

CROSS REFERENCE

II.A.6: Statute §54460--54487

TEACHERS

STATUTES

§1263

Certified personnel shall participate in workshops sponsored by the county superintendents to further the understanding of the nature and range of child disabilities in order that a better understanding of these disabilities is provided.

§1930-1931

An annual teachers institute may be held as well as an annual institute for noncertificated employees.

§10300 -- 10319

The superintendent of schools of every school district may hold an annual teachers' institute in each year. Such institutes are to be provided at accessible times and places, and shall feature lecturers competent to instruct in the art of teaching. Reports on attendance to such institutes are to be given to governing boards by the superintendent; they are to be attended by all.

Every teacher shall be paid his/her regular salary for the time covered by his/her attendance upon an institute.

The superintendent of any school district may authorize any teacher or instructor of the district or county, in lieu of attending one or more days of institute held by him/her, to attend an institute held by another district.

The expense of a joint teachers' institute shall be borne proportionately by the counties, city and county, and city school districts participating therein.

Such institutes may also be held for persons employed in the classified service.

§44380 -- 44387

This article seeks to stimulate interest in retraining and study for the purpose of encouraging classified employees to prepare themselves for the changes that are occurring in technology as well as other fields.

§44490 -- 44504

This section provides for the Ryan Master Teacher Act which is herein established to "encourage teachers employed in the public schools to attain excellence in their profession, and to provide . . . incentives to that end in the form of special recognition and material reward." This act will be administered by the Master Teacher Review Board.

§44560 -- 44564

Each school with a substantial population of students of diverse ethnic backgrounds shall provide an inservice preparation program designed to prepare teachers and other professional school service personnel to understand and effectively relate to the history, culture, and current problems of these students and their environment.

§44570 -- 44591

This section seeks to facilitate the process whereby institutions of higher education, research centers, or regional education laboratories may provide resource personnel and special courses with local school districts for in-service training in secondary education.

IN SERVICE TRAINING

§44630 -- 44643

The purpose of this article is to provide, through the Professional Development and Program Improvement Act of 1968, professional development and improvement centers to offer comprehensive in-service training programs to strengthen the instructional techniques of classroom teachers in kindergarten and grades 1 through 6.

IN SERVICE TRAINING

§51264 -- 51266

DRUG TRAINING PROGRAM

The Department of Education shall develop a drug training program for public school teachers and administrators to provide training at the local district level.

Regional training programs for school district teams of teachers, administrators, youth and community representatives shall be made available to every district under criteria established by the Department of Education.

Team members shall be reimbursed for travel and expenses by their district. All certificated teaching or administrative personnel attending a training program shall receive their regular salary for the time covered by this attendance.

§54345 -- 54347

IN SERVICE TRAINING

The state superintendent shall pay costs of regional in-service training programs for specialized teachers in mathematics including the salaries of persons employed to provide the instruction. Teachers in attendance shall be reimbursed for living and travelling expenses and paid a nominal stipend. Expenses incurred for training of supervisors or administrators shall be borne by districts.

From funds which may be appropriated, the state superintendent shall reimburse districts for expenses incurred, under contractual agreements, in securing the participation of colleges and universities in providing the accelerated instructional program in mathematics in grades 7 to 12.

The state board and superintendent shall take necessary steps to ensure that federal funds which may be available for any experimental pilot programs shall be received.

§56050 -- 56053; 56060 -- 56064

A governing board or a county superintendent and any employee holding a position requiring certification qualifications or any certificated person under contract to teach physically handicapped or mentally retarded pupils may enter into an agreement whereby the district or superintendent may make a

financial grant for the employee or certificated person to undertake during summers specialized preparation to teach physically handicapped or mentally retarded minors.

The state superintendent with state board approval, shall establish regulations for the administration of §56050 et seq.

REGULATIONS

§5750

IN SERVICE TRAINING

Inservice training in teaching reading shall consist of a minimum of 60 clock hours of classroom instruction. The teacher of the course must have completed at least one course or workshop in teaching reading or have been approved by a Committee on Credentials.

§ 13026-13044

Any district or county superintendent may apply for funds under the Professional Development and Program Improvement Act of 1968. Each application shall include an assessment of the needs of the district, a statement of objectives for all participants in the program, and a description of the system of rotation by which the participants will be released from regular duties and receive concentrated training.

III. Quality of the Educational Process

A. Qualification Standards for Schools and School Districts

1. Accreditation

REGULATIONS

2202-R-2.01

To provide quality education for the pupils of Colorado and retain its accreditation, each district must continually maintain and improve its educational programs.

2202-R-2.02

To maintain accreditation, educational programs should encompass district goals and objectives, organizational structure, personnel qualifications, comprehensive curriculum and pupil services and adequate, safe facilities.

2202-R-2.03

It is desirable to evaluate a district in terms of its own stated goals and educational objectives arrived at through school-community interaction.

2202-R-2.04

Evaluation of a school district program shall include kindergarten through grade twelve; applicable curricular activities; and its preschool and continuing education programs. The contracting out of areas of the program is possible, upon proper authorization (Department of Education), the refusal of which is appealable to the state board.

EVALUATION

2202-R-3.02

"When applying for standard accreditation, A ... resolution stating a local board's intent to seek accreditation and its willingness to comply with accreditation standards, must be presented.

2202-R-3.03

The district shall formally notify the commissioner of Education of its intent to apply for standard accreditation.

2202-R-3.04

An accreditation consultant will visit the district to explain standard accreditation criteria and aid in the review of the district's current status.

2202-R-3.05

The district shall conduct a self-evaluation, identifying its educational strengths and weaknesses; thereafter, to be conducted yearly. An accreditation consultant will be available to assist the district.

2202-R-3.06 - 3.07

When a district completes the evaluation it shall notify the Department of Education, who shall send a committee of review, two weeks after having received two copies of the evaluation report.

2202-R-3.08

REVIEW COMMITTEE

The Department and the local district will form a committee of review composed of teachers and administrators. This committee will review the district's evaluation report and observe its programs.

2202-R-3.09

A written report identifying any accreditation deficiencies shall be drafted by the committee of review and forwarded, to the district, within thirty days of the visit.

2202-R-3.10

"The committee of review's report will be submitted to the Department which will report to the State Board those districts which meet or do not meet the criteria of standard accreditation."

2202-R-3.11 - 3.12

Final decisions with regard to standard accreditation are made by the State Board annually, and districts will be notified of any change of status by a letter from the Commissioner of Education.

Those districts adversely affected by a decision of the state board must, sixty days from the time of notification, lodge a letter of intent to appeal. After receiving this letter, stating the reason for appeal, the State Board must schedule a hearing during one of its next two meetings.

APPEAL

2202-R-4.01

Districts with standard accreditation are to be evaluated by yearly reports, from school districts and on-the-scene visits. A letter identifying deficiencies, confirmed by the accreditation consultant, shall be sent to the chief administrator, and the president and secretary of the governing board.

2202-R-4.02

A letter sent to a district notifying it of accreditation deficiencies constitutes an advisement. A district is to report any steps taken to eliminate the deficiency the year following receipt of the advisement.

2202-R-4.03

If an on-site visit to a district during the year following an issuance of an advisement reveals that it has failed to make satisfactory progress in removing its deficiencies, or when a district annually has a number of deficiencies, that district shall be placed on the list of warned school districts. Such districts will be notified of this action by letter from the Commissioner of Education.

2202-R-4.04

A district shall be placed on probation when, during the year after it was warned, an on-site visit reveals no progress in accreditation deficiency removal. Such districts will be notified of this action by a letter from the Commissioner.

PROBATION

2202-R-4.05

Ninety days following a warning or being placed on probation, a district must develop a plan, including a time schedule, to remove deficiencies. Upon approval of the plan, the district will be advised by letter to implement the plan. Warned or probationary status applies until all deficiencies are removed.

2202-R-4.06

A district shall lose its warned or probationary status and drop to nonaccredited status if it fails to file a plan in time or fails to execute it fully, without giving just cause.

2202-R-4.07

If conditions exist in a district or school that are prejudicial to the health, welfare and safety of pupils, and after notice is given are not corrected, then the State Board shall remove accreditation from the district or school.

2202-R-4.08

Districts recommended for probation or to be dropped accreditation status will be notified two weeks before any State Board meeting at which such action will be taken. Districts may appeal adverse action by appearing before the State Board of Education.

APPEAL

2202-R-20.0

The purpose of accreditation by contract is:

to individualize school district accreditation by basing it on the particular needs of pupils;

implement long-range planning staff responsibilities and district-wide procedures;

CONTRACT PLAN

to interrelate school and community (a) goals, needs and objectives; (b) programs, practices and services; (c) program planning and budgeting; (d) inputs, processes and outputs; (e) costs and benefits.

Section II - Criteria for Accreditation

Accreditation by Contract is an alternative accrediting program. The program is to encourage districts to adopt long-range planning procedures in a continuous effort to maximize student educational opportunities.

Under this program, each district shall establish its individual needs, capabilities and standards of excellence. To qualify a district shall meet the minimal standard of accreditation or approved alternatives, and further implement planning and evaluation processes for providing optimal education programs. The contract, committing the district to the plan, shall be submitted to the State Board for its approval.

Basic to the Accreditation Contract is the implementation of a plan to meet the educational need of students. General goals, accompanied by an implementation plan, are cited by an applicant district in a contract. This plan shall run for five years with provisions for yearly continuous update. Continuous accountability is the corner stone of the Accreditation Contract.

to determine results by establishing measureable objectives.

to take timely action by charting a long-range operational plan directing who shall act and at what time.

2202-R-21.0

To initiate an Accreditation by Contract program the local school board president, of the district desiring the programs, must submit written notification to the State Commissioner of Education. Upon receipt of such letter the Department of Education shall, if possible, commit a staff member who will, in liaison with the requesting district, develop an Accreditation by Contract plan.

2202-R-22.0

The local board shall appoint an advisory committee which is to be composed of a representative cross section of the social, economic, racial and ethnic groups of the community. This committee shall be charged with the responsibility of making recommendations on how to involve all community groups, in the program, and how to use the community in the contract accreditation planning process.

2202-R-23.0

The first phase of the planning process involves identifying goals and needs. Activities to be conducted by those school personnel, community representatives and students serving on advisory committees shall include:

(1) development and review of general educational goals.

(2) collect and analyze facts and concerns about students, staff, program, facilities, and financial needs of the district.

(3) identification, analysis of student educational needs and objectives, and, in turn, the requirements of staff, program, facilities and financial investment.

A development of programs to meet identified needs shall include:

(1) continuous review of those alternative plans for meeting student needs and selecting the best staff,

programs, facilities and financial investments to further that end.

(2) The development, review, and prioritizing of specific objectives for staff.

(3) develop a means of collecting and analyzing data which indicates whether student objectives are being achieved; if so, how to improve and maintain this accountability.

(4) Submission of reports to public concerning educational accountability.

2202-R-24.0

Three months prior to the time a proposed plan is submitted for approval, a state review committee shall conduct an evaluation of the contractual plan and any recommendations made shall be followed.

2204-R-24.0

The Accreditation by Contract plan shall be evaluated by a Department committee, for completeness, in that, it will be updated yearly within its five year span.

2. Other Qualification Standards

Constitution

COLORADO CONST., art. 9 §7

Public funds shall not be used "to help support or sustain any religious or sectarian school."

COLORADO CONST., art. 9 §8

"No religious test or qualification shall ever be required of any person as a condition of admission into any public educational institution . . . either as a teacher or student."

SECTARIAN DOCTRINES

"No sectarian . . . doctrines shall ever be taught in the public school, nor shall any . . . classification of pupils be made on account of

race . . . nor shall any pupil be assigned or transported to any public educational institution for the purpose of achieving racial balance."

REGULATIONS

2202-R-7.03

In districts with less than 150 pupils the superintendents shall devote 50 percent of their time to administration. Districts with more than 150 pupils, shall have a full-time superintendent.

2202-R-7.04

An elementary school with more than 250 pupils and a secondary school with more than 100 pupils, shall have a full-time superintendent and at least, a half-time principal. Schools, with more than 400 students must employ a full-time principal or the equivalent.

2202-R-8.06

PUPIL-TEACHER RATIO

Pupil teacher ratio per school should not exceed 28:1, non teaching time of administrators excluded. When paraprofessionals are utilized to aid teachers the ratio should not exceed 38:2. The child-adult ratios for kindergarten, 25:1, and pre-school, 12:1, shall not be exceeded. Persons not legally certified for instructional activities shall not conduct them.

2202-R-8.07

A pupil-teacher, per class ratio of 35:1, maximum of 160 pupils a day shall not be exceeded. Activity type classes, which, by their nature attract large numbers of students, are exempt.

"Graduate Endorsements. The following shall serve as standards for endorsements requiring completion of approved graduate programs on Types A, B, or D Certificates.

Counselor: To be endorsed Counselor, an applicant shall hold or be eligible for a Type A or equivalent Certificate and shall have completed the following requirements: Hold a master's or higher degree in guidance and counseling from an accredited institution of higher education and complete an approved graduate counselor program in an

accepted institution of higher education. . . . Have developed the following knowledge and skills: Counseling both individuals and groups; Planning and decision making skills related to personal, social, educational, and career opportunities; Designing, administering, and evaluating a counseling program reflecting the needs of the community served.

Performing, interpreting, and using educational research, including follow-up skills; Supervising the use of records; Evaluating skills relative to self-assessment for professional growth planning; Recognizing organizational structures and effecting positive changes in consultation with parents and school personnel; Assessing and identifying learning and developmental problems; Have completed a supervised practicum or internship in an elementary "and/or secondary school at the appropriate grade level(s) for endorsement (elementary, secondary, or K-12).

Educational Media Specialist: To be endorsed Educational Media Specialist, an applicant shall hold or be eligible for a Type A or equivalent Certificate and shall have completed the following requirements:

MEDIA SPECIALIST

Hold a master's or higher degree from an accredited institution of higher education and have completed an approved graduate program in educational media in an accepted institution of higher education; Have completed three years of teaching experience and/or school media experience while holding a valid Colorado Type A or equivalent certificate;

Have knowledge and skills in the following areas: Administration of media program; Media cataloging and classification; Media production and design; Reference services; Media selection, evaluation, and utilization; Research and evaluation; Media materials for children and youth; Curriculum development and instruction design; Have completed a supervised practicum or internship in an elementary and/or secondary school at the appropriate grade level(s) for endorsement (elementary, secondary, or K-12). The practicum or internship may be waived by the accepted institution upon comparable media experience.

Reading Teacher: To be endorsed Reading Teacher, an applicant shall hold or be eligible for a Type A or equivalent certificate and shall have completed the following requirements: Have completed two or more years of teaching experience in an accredited and/or established elementary or secondary school while holding a Type A or equivalent certificate; Have completed an approved 5th year graduate program in an accepted institution of higher education in reading designed to develop knowledge and skills in the following areas: Diagnostic, prescriptive, and evaluative techniques appropriate to the requested grade level(s) for endorsement; Foundations of reading instruction, including methods, techniques, and materials appropriate to the requested grade level(s) for endorsement; Psychological processes related to the teaching of reading; Diagnostic and remedial teaching of reading, including methods, techniques, and materials; Organization and management procedures for reading instruction;

Have graduate studies in a minimum of three supporting areas, such as: tests and measurements; exceptional children; child and adolescent development; speech and hearing; guidance and counseling; child and adolescent literature; language development; curriculum; developmental and advanced reading skills; and reading problems within multi-lingual, multi-cultural, and disadvantaged environments;

Have completed a supervised practicum(s) or internship(s) as a reading teacher at the appropriate grade level(s) for endorsement (elementary, secondary, or K-12).

Reading Specialist: To be endorsed Reading Specialist, an applicant shall hold or be eligible for a Type A or equivalent certificate endorsed for reading teacher and shall have completed the following requirements:

An approved 6th year graduate program of studies in reading in an accepted institution of higher education;

Graduate studies in the teaching of reading to qualify for a K-12 reading teacher endorsement. (An elementary or secondary reading reacher shall have completed preparation

in reading at the level alternate to the initial reading endorsement); Graduate preparation in reading in the areas of: research; organization and supervision of reading instruction; advanced diagnosis of reading and learning disorders; and advanced problems in reading and learning disabilities; Have completed an advanced supervised practicum or internship as a reading specialist.

School Administrator: To be endorsed School Administrator, an applicant shall hold or be eligible for a Type A or equivalent certificate and shall have completed the following requirements: Hold a master's or higher degree from an accepted institution of higher education and complete an approved program in administration designed to develop knowledge and skills in the following areas: Basic management skills; . . . Leadership skills; . . . Decision-making and problem-solving skills; . . . Human relations skills;. . . Personnel administration skills; . . . Curriculum and instruction assessment skills; . . . Resource utilization skills; . . . . Have completed a supervised practicum or internship at the appropriate level(s) for endorsement (elementary school principal, middle school/junior high school principal, secondary school principal, or superintendent). The practicum or internship may be waived by the accepted institution based upon comparable administrative expereince."

SPECIAL SERVICES

REGULATIONS

2260-R-9.0

"Special Services Endorsements. The following shall serve as standards for Special Service endorsements on Types A, B, or E Certificates, as appropriate:

Audiologist, K-12: To be endorsed Audiologist, an applicant shall have satisfied the following requirements: Hold a master's or higher degree in audiology from an accepted institution of higher education; Have completed an approved graduate-level program in audiology; Demon-

strated competencies for providing services to preschool and school age children; . . . Preservice and inservice education, including training and supervision of support personnel needed to implement a hearing conservation program, participation in the development and implementation of teacher inservice training and environmental noise control;

Supervised practicum or internship within a school setting under the supervision of a certified audiologist (or under the combined supervision of a clinical audiologist and a teacher of the hearing handicapped).

Occupational Therapist, K-12: To be endorsed Occupational Therapist, an applicant shall have satisfactorily completed an approved occupational therapist program, in an accepted institution of higher education, designed to develop knowledge and skills in the following areas:

"Orientation to the role of the school occupational therapist; Scientific application of accepted therapeutic theories and practices of evaluation and treatment methods to achieve maximum function, independence, emotional, social, and physical adjustment for each student served; Staffing in consultation with physicians, physical therapists, speech correctionists, nurses, social workers, psychologists, counselors, and other specialists; Community resources; Legal rights and due process of students, parents, teachers, administrators, and school boards; Maintenance of records; Educational alternatives for children requiring the services of an occupational therapist; Full-time clinical affiliations in cooperating hospitals and health agencies, or field experience with handicapped children supervised by a qualified occupational therpist.

Peripatology, K-12: To be endorsed in Peripatology, an applicant shall hold a master's or higher degree and shall have satisfactorily completed an approved peripatology program, in an accepted institution of higher education, designed to develop knowledge and skills in the following areas: Travel techniques; . . . Sensory training; . . . Alternative mobility aids; . . .Concept development; . . .

Course time allotments; Maintenance of records; Relationship to the family and other community services; Field experience; In depth experiences with visually impaired children and youth early in the preparation program and continuing throughout the program.

Physical Therapist, K-12: To be endorsed Physical Therapist, an applicant shall have satisfactorily completed an approved physical therapist program in an accepted institution of higher education designed to develop knowledge and skills in the following areas: Orientation to the role of the school physical therapist; Provision of physical therapy services to sensory-motor impaired preschool and school-age children; Gross and/or fine motor screening; Assessment and evaluation of referred children; Normal sensory-motor development and function; Community resources: Staffing processes and procedures; Interpretation of medical reports and prescriptions, and appropriate compliance; Educational alternatives for sensory-motor handicapped children; Legal rights and due process of students, parents, teachers, administrators, and school boards; Maintenance of records; Consultations with teachers and other professional groups, and parents; Treatment of sensory-motor problems; Supervised practicum in a school setting, or two years of field experience with sensory-motor impaired children supervised by a qualified, registered physical therapist.

School Psychologist, K-12: To be endorsed School Psychologist, an applicant shall have completed an approved 6th year program of graduate study, in an accepted institution of higher education, designed to develop knowledge and skills in the following areas:

Psychological foundations; . . . . Psychological methods, and techniques; . . .[and] Professional education. . . .

Field experience under the supervision of a certificated school psychologist in the psychological service division of a school system.

A Type E, Special Services Certificate, endorsed

School Psychologist, may be issued to an applicant trained in clinical psychology who has: Earned a doctorate degree in psychology; Had at least two years experience in Colorado under the supervision of a Colorado licensed psychologist; Been issued a license by the State Board of Psychological Examiners.

School Social Worker, K-12: To be endorsed School Social Worker, an applicant shall have satisfied the following requirements: Hold the master's or higher degree in social work from an accredited graduate institution of higher education.

Have completed an approved graduate level school social worker program in an accepted institution of higher education designed to develop knowledge and skills in the following areas: Orientation to the role of the school social worker; Psychosocial assessment; Counseling and consultation; Social case work; Family problems; Staff cooperation and communication; Community resources and social work agencies; Child welfare laws; Research; Comprehension and sensitivity to the dynamics and interrelatedness of the school, the home, and the individual child; Child growth and development with special reference to learning; Cause and effects of stress, disability, disease, and deprivation on human behavior and development, especially in those children whose learning is affected by physical, neurological, intellectual, emotional disturbances or retardation; Have completed a supervised practicum.

Speech Correctionist/Language Specialist, K-12: To be endorsed Speech Correctionist/Language Specialist, an applicant shall have satisfied the following requirements:

Hold a master's or higher degree and have completed an approved program in speech pathology from an accepted institution of higher education;

Demonstrate competencies for providing services to pre-school and school age children within the school setting, under the supervision of a certificated speech/language specialist or speech correctionist in the following

areas:

Identification of speech, language, and hearing problems. . . ."

TEACHERS

STATUTES

§22-2-109

The state board of education shall "adopt rules and regulations which prescribe standards for the evaluation of teacher preparation programs; . . . adopt rules and regulations which prescribe standards of qualification, preparation, training, or experience that are required for the issuance of all certificates and letters of authorization; . . . adopt rules and regulations which prescribe standards for endorsements deemed appropriate for each type of certificate or letter of authorization; . . . utilize representatives from all levels of education in the development of standards of qualification, preparation, and experience for all certificates, letters of authorization, and endorsements; . . . conduct or arrange for research pertinent or essential to implement" the teacher certification provision of this Act; and perform the duties previously allocated to the state board of teacher certification."

RULEMAKING

§22-60-102

In order to "provide quality education," evaluate and revise certification standards, and encourage the "professional development" of teachers, the "Teacher Certification Act" is adopted. Colorado teachers must be of "good moral character," possess a "thorough knowledge of their subject matter," hold "at least a bachelor's degree," and have an "adequate foundation in professional education." The policy of the state education system involves the safeguarding of children against "unqualified incompetent and immoral teachers;" the improvement of "instructional programs;" a wiser use of teachers' services; and greater flexibility in certification standards.

The certificates shall consist of the following types:

The general teacher certificate, Type A, "certifies that a person has been awarded a bachelor's degree from an accepted institution of higher education, including therein a student teaching program.

The professional teaching certificate, Type B, certifies that a person has a minimum of three years of experience under a "Type A" and has been awarded a master's degree or a higher degree in an accepted institution of higher education.

The vocational teaching certificate, Type C, "certifies that a person has satisfactorily completed five or more calendar years of work experience in the specific occupational area."

The administrative certificate, Type D, "certifies that a person has completed an approved program of school administration in an accepted institution of higher education, has completed a master's or higher degree in an accepted institution of higher education."

The special service certificate, Type E, "certifies that a person has been awarded an appropriate degree from an institution of higher education and has met the standards of the state board of education concerning academic and professional preparation and experience." [i.e., audiologist, school nurse, guidance counselor, social worker, etc.] However, "a guidance counselor shall be required to have, in addition to a Type A certificate, five years teaching experience."

The provisional certificate certifies that a person "has been awarded a bachelor's degree from an accepted institution of higher education and has completed a program of teacher preparation in an accepted institution of higher education but lacks any specific requirements of the state board of education in force at the time of application."

"Types A, B, C, D, and E certificates granted under this section shall be valid for a period of five years after the date of issuance."

§22-60-105

The department of education has authority to issue "letters of authorization" of three different types: "recognized expert," "intern," and "emergency teacher." Criteria for the issuance of such letters shall be experience and demonstrated ability.

§22-60-107 — 108

Teachers who have completed a "professional growth plan" consisting of six or more semester credits, and an approved institution of higher education may apply for the renewal of their certificates. In-service education programs may be approved for recertification credit. Additional means of obtaining such "credit", such as supervision of student teachers, foreign study, educational travel, etc. are set forth in the statute.

RENEWAL

§22-60-114

Teachers who received their training at Colorado state universities "shall evaluate their program during their first and third years of teaching." These evaluations will be reviewed by the department of education and sent to the state "teacher preparation institutions."

§22-63-103 - 104

A board of a school district may enter into contracts only with certified teachers. Teachers in an adult education program may receive compensation without certification.

REGULATIONS

2202-R-8.01 - 8.02

All teachers must be fully certified and shall be assigned to officially approved areas of experience.

2202-R-8.03

Elementary school teachers shall have specific preparation in elementary education. Those working in special areas such as reading, speech, therapy, physical education, art, music, shall have educational training and or experience to qualify as instructors in these areas.

2202-R-8.04

Teachers with elementary or secondary school endorements shall instruct grades 5 through 8. Those with elementary school endorsements may instruct any other subjects for which they have been trained. Teachers with secondary endorsements shall have at least 16 semester hours of preparation in each field in which they teach.

2202-R-8.05

Teachers in grades 9 through 12 shall have specific preparation in each subject to which they are assigned. (Algebra, chemistry, composition, geography, etc. are subjects). Special circumstances may allow experience to be approved as a basis for assignment. In case of need, teachers may be temporarily assigned to one period of 60 minutes or less per day outside their specific preparation, subject to approval by the Colorado Department of Education.

PROFICIENCY EXAMINATION

To qualify to teach in their subject fields teachers holding type "A" or "B" certificates, must pass a proficiency examination, administered by an accredited college. Holders of type "C" certificates are qualified to teach in areas of their endorsements.

Teachers and supervisors of driver education, traffic safety, and courses so related shall have a driver education endorsement on their certificates, or have successfully completed at least a twelve semester-hour sequence of appropriate college-level course work in the field of driver and safety education to meet State Board requirements.

2202-R-9.05

Teachers instructing grades 9 through 12 shall have a minimum of 20 semester hours of preparation in each field in which they teach: (math, science, English, social studies, are "fields").

2260-R-1.0

The Colorado Department of Education has the sole authority to issue teaching certificates.

Any person employed to instruct students, or administer, direct, or supervise the instructional program in a public school, including the superintendent of schools, and who is compensated for his/her services, is required to hold a certificate with appropriate level(s) and area(s) of endorsement.

Certificates endorsed and issued by the state prior to July 1, 1976 shall be valid for period issued. Those based on specialized areas shall be continued on subsequent renewals of Types A, B, C, D or E.

Certificates which have expired are invalid as well as those issued in other states.

To apply for a Colorado certificate one must submit a completed application and an official copy of all college records to the Department of Education.

College transcripts shall be original or photostat, bearing the seal of the institution, the signature of the registrat and descriptive title number, credit and grade for each course listed. Credits are to be in semester hours or may be interpreted to the equivalent in quarters, trimesters, units or term credits.

Transcripts from institution outside the United States shall be in English or English translation.

Certification that the applicant has met all graduation requirements, by the registrar of the accepted institution whether or not the degree has been conferred, qualifies the applicant as a "holder" of the degree.

Applicants must have earned six semester or nine quarter hours of credit appropriate to the certificate at a

fully accredited, four-year degree-granting institution of higher education within the five-year period prior to the date of application.

Certificates, Type A, B, C, or E may be issued based on satisfactory completion of a Colorado approved program or equivalent as defined below, plus submission of an institutional recommendation.

A program in education, administration, or special services at an accepted Colorado institution of higher learning that is approved and endorsed by the State Board is necessary to meet the certificate requirements.

Applicants who hold teaching degrees from non-accredited colleges or universities may gain their certificates after an evaluation of the non-accredited degree granting program and completing certification requirement at an accepted institution.

Each applicant for a certificate must submit, from the attended institution, a recommendation certifying: that the applicant has completed the approved program in a satisfactory manner and is in good standing; the grade level(s) subject area(s) or service specialization(s) completed by the applicant.

This recommendation shall not be required for renewal of a Type C, Vocational Teaching Certificate, or a certificate, or certification based upon a foreign degree.

2260-R-2.0

General Teacher Certificate requirements are:

A bachelor's or higher degree from an accredited institution, including a broad educational background in liberal arts.

Completion of an approved teacher education program in an accepted institution of higher education.

Institutional recommendation verifying:

Satisfactory completion of the program with the applicant's grade level(s), subject area(s) or service specialization(s).

Evidence of at least six semester hours of recent

college credit appropriate to the certificate and endorsement earned in the five-year peiod prior to date of application for the certificate.

Waiver of professional education courses for applicants seeking Type A certificates may be granted if the applicant meets the requirements of section 2.0(a), 2.0(d), 2.0(e) and:

Has five or more years of teaching experience in an elementary or secondary school, and

Demonstrates professional education and teaching through:

a good evaluative report and scoring at or above the 75th percentile on the professional education section of the National Teacher's Examination.

The Professional Teaching Certificate requirements are:

A master's or higher degree from an accredited institution of higher learning. Such a degree may be designed to:

Constitute and strengthen preparation in a teaching field, and/or improve instruction and comprise a field of specialization(s) (Supervision, direction, and administration in education).

A minimum of three years of teaching experience, which must be:

In an accredited and/or established pre-school through secondary school, as full-time instructor, administrator, supervisor, or director of instructional programs;

Obtained while holding a Type A or equivalent certificate;

Six semester hours of credit appropriate to the certificate and endorsement from an accredited institution of higher education in the five-year period prior to the date of application for the certificate;

The institutional recommendation (for initial certificates and additional endorsements) verifying;

The grades, subject area(s), or major area(s) of service specialization(s) of the applicant and satisfactory completion of an approved teacher program.

A Type C Vocational Teaching Certificate qualifies the holder to teach in that field and, is valid for five years from date of issuance. It may be issued to those who:

Have worked full-time for five years in the occupation in which instruction is to be given.

A maximum of two years of trade or technical school experience maybe applied to meet the five years;

Have successfully completed, with Letter of Authorization, a year of teaching in a Type 3 vocational education program;

Have been recommended as having a knowledgeable understanding of the occupation with an ability to teach, by the most recent superintendent of schools or designate;

Have completed six semester hours of academic credit in the area of vocational education.

The Administrator Certificate requirements are: eligibility for a Type A or equivalent teacher certificate and a master's or higher degree from an accredited institution of higher education;

Completion of an approved graduate program for school administration in an accepted institution of higher education or proof of partial completion of an approved administration preparation program in each of two or more accepted institutions of higher education. Applicant's status in each institution, i.e., work completed and any work remaining to be completed must be supplied. Assuming all other requirements have been met, certificates may be issued, by a finding that one program has been completed by combining work taken in all;

Six semester hours of completed credit towards the certificate within the five year period prior to the date of application and institutional recommendation(s) verifying satisfactory completion of an approved program.

The holder of a Special Service Certificate may perform service in a special area. To obtain such a certificate an applicant must;

Hold bachelor's or higher degree from an accredited institution of higher education with an endorsement for special service area;

Have completed six semester hours of credit appropriate to the certificate within the five-year period prior to the date of the application.

A three year, non-renewable, Provisional Certificate I may be issued to teachers who:

Hold a bachelor's degree from an accredited institution of higher education.

Has completed teacher preparation program including student teaching but lacks preparation related to teaching the exceptional child in the normal classroom.

Has received the institutional recommendation verifying completion of an approved program.

A one year, non-renewable, Provisional Certificate II, may be issued to teachers who:

Have completed approved teacher preparation programs and hold bachelor's degrees from accredited institutions of higher education;

Hold valid Colorado Teacher Certificates that have not been renewed due to an abrupt change of circumstances or an extreme financial hardship;

Have submitted an official statement from the registrar or equivalent verifying enrollment in at least six semester hours of credit appropriate to the teaching field of the teacher.

2260-R-3.0

Letters of authorization, Type I, II, and III, shall be valid only for the position(s), grade level(s), and endorsement area(s) for which they are issued and only within the school district which requested the issuance of such letters of authorization.

Type I, Recognized Expert authorizations are to be issued upon request of a school district board when a person with special expertise, not available through a fully accredited teacher, is available with verifiable proof that he/she possesses this expertise and is best suited for the position.

Renewal of a Type I authorization may be obtained upon request of a school district board. Subsequent renewal request must be supported by the district's evaluation of the teacher's performance and an attestation to the continuing need to employ the noncertified teacher.

RENEWAL

Type II, Intern, authorizations are to be issued upon request of a school district and the approved institution through which the internship is being completed and when the intern is to receive pay from the school district while serving as an intern.

Type III, Emergency Teacher, authorization may be issued when:

EMERGENCY

The school district board of education has made a bona fide effort to hire a fully-certified teacher but none were available.

The non-certified applicant is best suited for the position.

In addition, a school district board who has made a Type III, authorization request, must attest, to the Colorado Department of Education, that a fully-certified teacher could not be found and that the non-certified applicant is suitable for the position.

The applicant shall include with the application an explanation of how he/she will complete certification requirements.

Type III letters of authorization may be renewed upon request of the Colorado school district. Subsequent requests shall include information explaining efforts made to secure a fully certified teacher, the continuation of the emergency situation, and an evaluation of the teacher's performance during the preceding year.

The applicant shall submit evidence of progress toward full certification and official transcripts indicating progress made toward the degree and/or certification program.

2260-R-5.0

"Endorsement of Certificates or Letters of Authorization. Certificates and Letters of Authorization shall be endorsed to indicate the grade level(s), subject matter area(s), or other areas of specialization which may be appropriate to the applicant's preparation, training and experience.

Endorsements shall be based upon one of the following: Recommendation of the accepted institutions of higher education. Evaluation by the Teacher Education and Certification Unit of the Colorado Department of Education.

ENDORSEMENTS

The major part of the services performed in a public school by the holder of a certificate shall be related to such endorsement.

Teachers assigned for more than fifty percent of their time as a curriculum area supervisor, coordinator, or supervisor of counseling, or in the assignment of students shall be endorsed in the area so supervised or coordinated."

2260-R-6.0

"Teaching Endorsements. The following shall serve as standards for teaching endorsements on Types A and B Certificates.

Early Childhood Education: To be endorsed in Early Childhood Education, (ages 3-8), an applicant shall have completed the following requirements: . . . The Approved Program of Professional Education as prescribed in Section 2260-R-4.0; . . . Studies to develop knowledge and skills in the following areas: . . . The evolution of early childhood education; . . . The process of child development from conception to adolescence; . . . The interrelationships of child development and curriculum planning; The influence of the family, the school, the community; . . . The recognition of the parents' role as the primary influence on the young child's development; [and]

The attitudes appropriate to an early childhood curriculum. . . .

Elementary Education: To be endorsed Elementary Education, an applicant shall have completed the following requirements: The Approved Program of Professional Education as prescribed in Section 2260-R-4.0. Studies to develop knowledge and skills in the following areas: Liberal arts preparation in language arts, science, mathematics, humanities and fine arts, social sciences, and health and physical education. Methods, techniques, resources, and related practices in the teaching of reading, mathematics, science, expressive arts, social science, health, physical education, and the language arts.

Agriculture: To be endorsed in Agriculture, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved program in agriculture designed to develop knowledge and skills in the following areas:

Practical farm . . . experience. Biological, physical and applied science . . . . Specialized preparation for one or more of the following occupational areas: agricultural production, supplies, products, and resources; ornamental horticulture; natural resource management; enviromental development; and forestry. . . .

Art: To be endorsed in Art, an applicant shall have completed the Approved Program of Professional Education prescribed in Section 2260-R-4.0 and an approved program in art designed to develop knowledge and skills in the following: . . . . Concentration of preparation in one of the following areas: art history; drawing; painting; sculpture; photography; printmaking; fibers; ceramics; jewelry; crafts; and communication arts. . . .

Business Education: To be endorsed in Business Education, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved program in business education designed to develop knowledge and skills in the following: Studies in a minimum of eight of the following areas: accounting, business communications, business

law, consumerism, data processing, economics, finance, management, and marketing. Studies to develop specialization of preparation in one or more of the following: . . . . Accounting; . . . . Data processing; . . . . Secretarial office occupations; . . . . Clerical office occupations. . . .

Distributive Education: To be endorsed in Distributive Education, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved program in distributive education designed to develop knowledge and skills in the following; Marketing, retailing, advertising and visual merchandising, salesmanship, management, finance and banking, accounting and data processing, economics, and business law. . . . Experiences and involvement in distributive education youth organizations. Philosophy and objectives of vocational education and the coordination of cooperative programs.

Drama: To be endorsed in Drama, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved program in drama designed to develop knowledge and skills in the following areas: Theatre history; . . . Dramatic literature; . . . . Acting; . . . . Technical theatre; . . . . Directing; . . . Methods of teaching theatre . . . .

Driver Education: To be endorsed in Driver Education, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved program in driver education designed to develop knowledge and skills in the following areas:

The general principles of accident causation and prevention, including first aid. The nature of the driving task and knowledge and skills to operate a motor vehicle in basic and advanced driving maneuvers with emphasis on perceptual and decision-making skills. . . . The physiological and psychological influences of alcohol and drugs as they relate to the highway transportation system. . . . Preparation and/or experience in classroom and on-the-street teaching including student assessment, writing of objectives, designing of learning experiences, and evaluations.

Preparation and/or experience in multiple-vehicle driving range and driving simulation. Organization and administration of a driver and traffic safety education program. . . .

English: To be endorsed in English, an applicant shall have completed the Approved Program in Professional Education as prescribed in Section 2260-R-4.0 and an approved program in English designed to develop knowledge and skills in the following areas: An understanding of how language is acquired and used from early childhood through adulthood. The relationship between the student's language and his[her] environment, including dialect study and standard and non-standard English. The structure of the language as seen through linguistics, grammar, and semantics, and how these apply to using the English language. . . . Familiarity with an extensive body of literature, including the contemporary and 'literary heritage' of our country and other countries, children's literature, adolescent literature, minority literature and dramatic literature. Composition, including both creative and expository writing. Oral communication to include interpersonal, public, and group.

Foreign Language: To be endorsed in Foreign Language, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section "2260-R-4.0 and shall have meet [sic] the following requirements: Completion of an approved program in foreign languages designed to develop knowledge and skills in the following areas: Phonology, conversation, linguistics, grammar, and composition. Culture of the language and the region, where applicable, including knowledge of art, music, literature, history, and geography. Customs and varying life styles of the people . . . .

Health: To be endorsed in Health, an applicant shall have completed the approved Program in Professional Education as prescribed in Section 2260-R-4.0 and an approved program in health designed to develop knowledge and skills in the following areas:

Understanding of man's ecology and interaction with society, with studies in such fields as the biological and behavioral sciences. Understanding of health issues and health problems of the individual in society, such as: emotional and social health, alcohol, tobacco and other drugs, nutrition, and communicable and noncommunicable diseases. Physical and psychological human growth and development and their relationship to the health instruction program including family life education and appraisal of health status of the individual. Evaluation of the validity and reliability of health information and resources.

Consumer health including intelligent selection of health products and health services, consumer protection agencies, health misconceptions and superstitions, health insurance plans and delivery systems.

The identification of emerging health problems and issues.

Understanding of public health principles and the individual's responsibility in motivating and maintaining public health agencies and organizations, health careers, urban health problems, and disease prevention and control.

An understanding of the dynamics of accidents and the conditions conducive to safe living.

Organization and administration of school health programs.

Home Economics: To be endorsed in Home Economics, an applicant shall have completed the Approved Program in Professional Education as prescribed in Section 2260-R-4.0 and an approved program in home economics designed to develop knowledge and skills in the following areas:

Home management, including economic management, personal decision making, task analysis, and consumer education, plus safety-first aid. Science of food, food preparation and nutrition. Housing, home furnishing, equipment, clothing, and textiles. Personal relationships, family relationships, parenting, and child development.

Industrial Arts: To be endorsed in Industrial Arts, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved program in industrial arts designed to develop knowledge and skills in the following: Study of philosophy, history, principles, methods, and safety of industrial arts and technology. Preparation in each of following with a concentration in at least one area: Construction and manufacturing: tools, materials, and processes used in manufacturing and constructing. These studies shall be concerned with the industry, technology and products derived from materials and processes. For example: ceramics, crafts, methals, plastics, textiles, and woods. Graphic communications: tools, materials, and processes used in graphic communication. For example: graphic arts, drafting, and photography. Power and energy: tools, materials, and processes involved in electricity, electronics, and power. For example: steam, automotive, solar, rocket, and small engine power.

Mathematics: To be endorsed in Mathematics, an applicant shall have completed the Approved Program in Professional Education as prescribed in Section 2260-R-4.0 and an approved program in mathematics designed to develop knowledge and skills in the following areas:

The sequential nature of mathematics to provide an understanding of the aspects of mathematics. The capacity and disposition for continued learning in mathematics to include studies and experiences in algebra, geometry, tirgonometry, analytic geometry, calculus, probability and statistics, and computer science as it relates to mathematical problem solving. Knowledge of curriculum improvement trends and issues in mathematics. History of mathematics, the intellectual and philosophical nature of mathematics, and knowledge of ways to apply the principles of mathematics to other disciplines, e.g., logic, science, psychology, economics, and mathematical model building.

Music: To be endorsed in Music, an applicant shall have completed the Approved Program of Professional

Education as prescribed in Section 2260-R-4.0 and an approved program in music designed to develop knowledge and skills in the following areas: Production of sound including playing, singing, and conducting. Organization of sound for personal expression and the understanding of the elements of music. Description of sound in terms of medium, meter, mode, and motion. Evolution of western and non-western musics. The use of contemporary methods, materials and literature in one or more of the following areas of specialization: . . . .

Physical Education: To be endorsed in Physical Education, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved program in physical education designed to develop knowledge and skills in the following areas: The sociocultural, philosophical, and psychological foundations of physical education, including the historical development of play, games, dance, and sports, and the study of child growth and development. Physical and biological science foundations including areas such as: human anatomy, exercise physiology, kinesiology, and health. Movement fundamentals, including study of movement patterns, movement exploration, gymnastics, tumbling, lead-up games, team sports, physical fitness, and perceptual motor activities.

To be endorsed in Elementary School Media, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved program in school media . . . . "[He/She shall:] hold an endorsement as an elementary teacher. Have satisfactorily completed at least 18 semester hours of upper division or graduate credit in school media designed to develop knowledge and skills in the following areas: administration of a media program, media cataloging and classification, production and design reference services, and media selection, evaluation, and utilization.

Science: To be endorsed in Science, an applicant shall have completed the Approved Program of Professional

Education as prescribed in Section 2260-R-4.0 and an approved program in science designed to develop knowledge and skills in the following areas: Biology, chemistry, earth science, physics, and mathematics. An applicant shall complete a concentration of preparation in one or more of the following areas: Biology; . . . . Chemistry; . . . . Physics; . . . . Earth-Space science; . . . . Geology; . . . . General science. . . .

Social Studies: To be endorsed in Social Studies, an applicant shall have completed the Approved Program in Professional Education as prescribed in Section 2260-R-4.0 and an approved program in social studies designed to develop knowledge and skills in the following areas: History (American and world histories), political science, economics, sociology, geography, psychology, and/or "social psychology, and anthropology. Group communication; . . . . Non-print media; . . . . Public communication; . . . . Persuasion; . . . . Intercultural communication; [and] Methods of teaching speech communication. . . ."

2260-R-7.0

"Special Education Endorsements. The following shall serve as standards for Special Education endorsements on Types A and B Certificates.

SPECIAL EDUCATION

Director of Special Education, K-12: To be endorsed Director of Special Education, an applicant shall have satisfied the following requirements: Hold a master's or higher degree in education or in a related field of

special services such as school psychology, school social work, or speech correction. Have a minimum of two years experience working with handicapped children. Have completed an approved program for the preparation of directors of special eduction in an accepted institution of higher education, designed to develop knowledge and skills in the following areas: Communications; objective and humanistic communication; and leadership training techniques; General school administration; Personnel administration; public school finance and law, litigation, and due process; Planning, implementing, and evaluating educational programs; Special education learning handicaps of the various disabilities; Procedures for identifying and programming for all handicapped children; Planning, organizing, and utilizing resources; Evaluation of delivery systems; Establishing evaluation plans, conducting program evaluations and organizaing evaluation data into a system for decision-making purposes.

Educable Mentally Handicapped, K-12: To be endorsed Educable Mentally Handicapped, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved program in educable mentally handicapped designed to develop knowledge and skills in the following areas: Development and educational practices related to all exceptionalities with special emphasis on mental retardation; Current concepts, practices, and trends in mentally retarded; Child growth and development; Sequence of normal development in physical, motor, affective, and cognitive areas; Identifiable deviations in the mentally handicapped child; Psychological and sociological problems related to mental retardation; Understanding the relationship of cultural diversities to mental retardation; Assessment; Observation techniques in the appraisal of exceptional children; Principles and practices of measurements of the handicapped; Program alternatives; Staffing processes -- the teacher's role in interdisciplinary staffing; Service alternatives -- regular and self-contained classrooms; resource rooms and integration; itinerant teacher; residential, work experience, and early

childhood programs; Methods; Psychology of learning and mentally handicapped children; Educational program planning "and methods for teaching educable mentally handicapped children; Special techniques in educational diagnosis and prescription applicable to elementary level educable mentally handicapped children; Special methodology applicable to secondary level educable mentally handicapped children in prevocational educational planning, child analysis and placement, and family living skills; Liaison functions; Consultation techniques to be used with parents, community, and other professionals; Use of community resources, including: supportative federal, state, and local agencies, community businesses for job training and service groups; Field experiences with normal children and supervised student teaching in a regularly established class for educable mentally handicapped children.

Educationally Handicapped, K-12: To be endorsed in Educationally Handicapped, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved master's degree program in educationally handicapped (Including emotional, social, behavioral, perceptual, and communicative learning disabilities) designed to develop knowledge and skills in the following:

Basic concepts in the historical development and educational practices of all exceptionalities with special emphasis on: "emotionally handicapped, socially handicapped, behaviorally handicapped, perceptual/neurologically handicapped, communicatively handicapped, and multiple-handicapped in above areas; Current concepts, practices, and trends in serving educationally handicapped; Child growth and development; Sequence of normal development in physical, motor, affective, and cognitive areas; Identifiable deviations in the educationally handicapped child; Psychological and sociological problems related to educationally handicapped; Understanding the relationship of cultural diversities to educational handicap; Assessment and observational techniques. Staffing processes and procedures -- the teacher's role and responsibilities in interdisciplinary staffing; Methods; Psychology

of learning and educationally handicapped children; Educational program planning and methods for teaching educationally handicapped children; Special techniques in educational diagnosis and prescription applicable to elementary level educationally handicapped children; Special methodology applicable to secondary level educationally handicapped children in prevocational-educational planning, child analysis and placement, and family living skills; Educational remediation, particularly in reading, other language arts, and mathematics.

Liaison functions; Consultation techniques to be used with parents, community, and other professionals; knowledge and use of community resources, including: supportive federal, state, and local agencies; community businesses for job training; and service groups; Supervised teaching in educationally handicapped, In addition to field experiences with "normal" children, the applicant shall have satisfactorily completed supervised student teaching in a regularly established class for educationally handicapped children.

Hearing Handicapped, K-12: To be endorsed Hearing Handicapped, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved program in hearing handicapped designed to develop knowledge and skills in the following areas:

Foundations; Historical and current developments in education of the hearing impaired; National and local issues; trends, agencies, programs, and professions concerned with the hearing impaired; Psychological, sociological, vocational, and educational implications of hearing impairment; parent and child counseling; Speech science and audiology. . . . . Language . . . . Communication . . . . Curriculum and instruction. Curriculum and instructional procedures common "to education of the hearing impaired and to regular education, with emphasis in reading, language arts, and mathematics.

Plan, implement, and evaluate learning experiences for individuals and groups; Select, design, produce, and

utilize media, materials, and resources appropriate to learner behavior and lesson objective; Field experience with "normal" children, and supervised teaching in the area of hearing handicapped.

Physically Handicapped, K-12: To be endorsed Physically Handicapped, an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved program in phsycially handicapped designed to develop knowledge and skills in the following: Methods of teaching physically handicapped children, to include: Evaluation techniques (academic education aspects); Teaching procedures; Curriculum planning with adaptations; Aids used in the education of physically handicapped children; Therapeutic problems; Developing satisfactory self-image; Care and pathology of physically handicapped children, to include: Medical and educational problems in areas of crippled and other health impaired; Medical terminology; Self-help skills; Counseling parents of physically handicapped children; Psychology of education, to include characteristics and educational needs of physically handicapped children; Tests and measurements, to include understanding of and ability to interpret results of psychological and educational tests; Child development, to include understanding of normal child development and relation to the physically handicapped child; Field experiences with 'normal' children and supervised teaching in the area of physically handicapped.

Visually Handicapped, K-12: To be endorsed Visually Handicapped an applicant shall have completed the Approved Program of Professional Education as prescribed in Section 2260-R-4.0 and an approved program in visually handicapped designed to develop knowledge and skills in the following areas: Research and foundations, to include: Educational and psychological studies; Technological developments; Legal and educational definitions of blindness; Vocational and avocational guidance; Diagnosis, assessment, and remediation, to include: Causes and effects of visual impairments; Structure and function of the visual system;

Child growth and development; Assessment techniques; Placement alternatives; Methods of teaching, to include: Adaptation of teaching approaches for visually impaired; Language arts -- visual, auditory, tactile; Communication skills in other subject areas; Techniques of daily living; Orientation and mobility; Materials, to include: Development of braille codes; Transcription, production, and duplication of materials to braille, print, and non-print media. Securing materials; Utilization of resources, to include: Legislation and agencies for the visually impaired; Staffing processes and procedures; Field experiences with 'normal' children and supervised student teaching in the area of visually handicapped."

2260-R-10.0

The standards of qualification, preparation, and experience required for issuance of certificates and which prescribe standards for endorsements appropriate for certificates shall be reviewed on or before January 1, 1978, and at least once every five years thereafter, by the State Board of Education.

Procedure: The State Department of Education shall appoint committees to review certification/endorsement standards in accordance with a review schedule it established.

2260-R-12.0

The Colorado Commission on Teacher Education and Certification is to assist the State Board of Education in discharging its responsbiilties under section 22-2-109 (a),(b),(e), CRS 1973.

The Commission members shall include: five teachers one elementary; one middle school or junior high school; one senior high school; one special area; one vocational; a building administrator; a system wide administrator; a district program director or supervisor; a chairman or dean of education; a college of education faculty member, and the Commissioner of Education, or designate, who will be ex-officio member and secretary of the Commission with voting rights.

Members shall be appointed by the State Board, serving three year, serially expiring terms.

The commission shall:

Review, recommend and improve teacher education programs; review reports submitted by Colorado teacher institutions; review endorsement standards and file recommendations with the State Board;

Visit and evaluate teacher education programs in institutions of higher education and make recommendations about approval of such programs.

EVALUATION

At its first meeting and annually thereafter the members shall elect a chairman and other essential officers.

2260-R-15.0

Renewal of a Certificate. A Colorado Type A, B, C, D, or E Certificate may be renewed for a period of five years. The holder of such certificate shall submit an application for renewal and supply evidence of the completion of an approved professional growth plan within the five year period preceding the date of application for such renewal.

RENEWAL

Renewal credit must be appropriate to the certificate's endorsement and/or teaching responsibilities of the holder and/or a career change in education. The first and subsequent renewals of a certificate shall be through the development and completion of a professional growth plan totaling six or more semester hours of renewal credit from the following:

Appropriate college or university credit.

(minimun of 2 semester hours of college credit is required of the 6 semester hours needed for renewal.)

The remaining hours may be obtained from any combination of the following:

Approved educational travel (maximum of 1 semester hour). Supervision of student teacher or intern (maximum of 1 semester hour). Foreign study (maximum of 2 semester hours). Professional development experience(s) (maximum of 1 semester hour).

The goals and objectives of the professional growth plan shall have the prior approval of the local district board of education. Said approval shall predate any professional growth experience which a teacher desires to be included.

The Commissioner of Education shall be responsible for the development of professional growth plan forms to be supplied to teachers.

College or university credit. A professional growth plan shall include a minimum of two semester hours of credit from an accepted institution of higher education judged to be appropriate to the certificate to be renewed; the assignment of the teacher; or a career change in education.

If college credit is awarded then no inservice credit may be received for the same experience.

Inservice education. Colorado Statute 22-60-103(6), CRS 1973, as amended, defines the inservice education program as a "Planned series of learning experiences provided for by a school district designed to improve the teaching and learning processes." A professional growth plan may include a maximum of four semester hours of credit earned through approved district inservice program. The rules adopted by the State Board of Education in Guidelines and Procedures for Planning and Submitting Inservice Education Programs for Recertification Credit Approval apply to all inservice for recertification credit programs submitted for recertification purposes and call for approval by the State Board of Education prior to any inservice program's implementation date.

Education Travel. A maximum of one semester hour of inservice education credit may be waived upon the satisfactory documentation of the completion of approved educational travel judged to have special significance for increasing the skills of the teacher.

TRAVEL

If college credit is claimed for educational travel, inservice credit shall not be received.

Teachers not employed by a school district who seek credit under this paragraph shall apply for approval to the Colorado Department of Education.

Supervision of student teacher or intern. A professional growth plan may include the supervision of a student teacher or intern in lieu of one semester hour of inservice education credit provided:

That approval is granted in advance by the Colorado district in which the teacher is employed.

That for each student teacher or intern supervised, the dean or the designated official of the sponsoring institution's education unit and the designated official of the cooperating school district shall verify that the supervision of the student teacher was completed successfully;

That a minimum of one academic quarter of full-time supervision is completed.

Professional Development Experiences. One semester hour of inservice education credit may be waived upon satisfactory documentation of an individual experience or activity judged to be directly related to maintaining or increasing the value of the teacher in his[her] current assignment.

PROFESSIONAL DEVELOPMENT

This credit shall be granted pursuant to the following rules:

Professional development experiences shall be organized in academic or professional areas.

The activities must be adequately described and justified in terms of objectives of the experience and contributions to the improvement of instruction.

The activity must be related to stated developmental needs of the individual teacher or district.

Prior approval of the professional development experience shall be obtained from the local school district professional growth committee.

Evidence shall subsequently be submitted to the local district professional growth committee showing completion of the experiences for which prior approval has been granted.

One semester hour of credit shall be based on a minimum of twenty-five contact hours.

Foreign study may be used in lieu of two semester hours of inservice education credit provided:

The study is taken in a college or university approved by the ministry of education or equivalent educational agency within the country.

Documentary evidence of such study must be validated by an official of the institution in which study is taken. This evidence must be stated in the English language.

Evidence shall subsequently be submitted to the local district professional growth committee showing completion of the study for which prior approval was granted.

Administration of Professional Growth Plans by Local School Districts.

The local school board of education shall adopt procedures for the administration of professional growth plans by which teacher's certificates are renewed.

The district procedures shall be developed, for review by the local board of education, by a committee composed of one representative of each type of certificate employed in the district (A, B, C, D, and E). The committee representatives for each type of certificate

This credit shall be granted pursuant to the following rules:

Professional development experiences shall be organized in academic or professional areas.

The activities must be adequately described and justified in terms of objectives of the experience and contributions to the improvement of instruction.

The activity must be related to stated developmental needs of the individual teacher or district.

Prior approval of the professional development experience shall be obtained from the local school district professional growth committee.

Evidence shall subsequently be submitted to the local district professional growth committee showing completion of the experiences for which prior approval has been granted.

One semester hour of credit shall be based on a minimum of twenty-five contact hours.

Foreign study may be used in lieu of two semester hours of inservice education credit provided:

The study is taken in a college or university approved by the ministry of education or equivalent educational agency within the country.

Documentary evidence of such study must be validated by an official of the institution in which study is taken. This evidence must be stated in the English language.

Evidence shall subsequently be submitted to the local district professional growth committee showing completion of the study for which prior approval was granted.

Administration of Professional Growth Plans by Local School Districts.

The local school board of education shall adopt procedures for the administration of professional growth plans by which teacher's certificates are renewed.

The district procedures shall be developed, for review by the local board of education, by a committee composed of one representative of each type of certificate employed in the district (A, B, C, D, and E). The committee representatives for each type of certificate

shall be selected by and from practicing holders of each type of certificate.

2260-R-72.0

Traffic safety education-driver education

Requirements for teachers instructing driver education and related courses are successful completion of 12 semester hours of college course work in the following areas:

Safety education, basic driver education, advanced driver education with recommended electives: organization, administration and supervision of safety education, philosophy of safety education, driving stimulators and multi-media concepts. . . . . Other specific requirements for driver education, traffic education, and safety education teachers: A valid Colorado Teacher Certificate; A valid Colorado Driver's License; Have three (3) years of satisfactory driving experience immediately preceding the time of teaching, as provided by evidence from the State Department of Revenue, Motor Vehicle Division."

STUDENTS

STATUTES

§22-32-109.5

"If a board of education imposes any special proficiency test for graduation from the twelfth grade beyond the regular requirements . . . the results of such tests shall be used . . . to design regular or special

classes to meet the needs of all children as indicated by overall test results." If a board imposes a "proficiency test," it "shall be given at least twice during each school year, and initial testing shall take place in the ninth grade."

Any child who does not pass the proficiency test "shall be provided with remedial or tutorial services during the school day in the subject area in which the test indicates deficiencies for graduation purposes." Such services shall be provided until the test results are "satisfactory."

PROFICIENCY TEST

"Parents of children not satisfactorily fulfilling the requirements of a special proficiency test shall be provided with all special proficiency test scores for their child a minimum of once each semester."

REGULATIONS

2202-R-9.08

Minimum graduation requirements in accredited districts.

(a) four-year schools, 18 units, or 180 semester hours, equivalent;

GRADUATION REQUIREMENTS

(b) high school grades 10-12: 14 units, or 140 semester-hours, equivalent;

If the local board permits, early graduation shall be allowed upon completion of course requirements.

2202-R-12.03

A sequence of tests designed to measure pupil achievement aptitude and interest shall be administered in the elementary and secondary schools. A district's testing and evaluation should be coordinated with its accountability efforts.

2202-R-130.0

The Colorado GED testing program is restricted to the following:

Individuals who show need and who have never been awarded a high school diploma.

Exception may be permitted if such records are lost or inaccessible.

Individuals eighteen (18) years or older.

Special exception may be granted those, under eighteen, who show a need to take the GED.

All applicants must have a Colorado mailing address.

Those Colorado residents outside the state serving in the Armed Forces or incarcerated in penal institutions, shall be exempt, provided they were Colorado residents prior to entering the Armed Forces or being incarcerated.

Non-residents may request testing in accordance with policies of the state where they reside. No equivalency certificate will be issued in such cases.

Colorado residents who successfully complete the GED program, while in the Armed Forces or residing in another state, shall receive the Colorado High School Equivalency Certificate, provided they meet age and residency requirements.

2202-R-131.0

GED TESTS

GED tests shall be made available to applicants in English and in Braille.

2202-R-132.0

Minimum score requirements for awarding a Colorado High School Equivalency Certificate are as follows: the applicant must score no lower than 35 on each of the five examinations, compiling an average score of 45.

2202-R-135.0

A high school equivalency certificate shall be issued to those qualified GED test candidates.

TEACHERS

STATUTES

§22-60-110

A teaching certificate or letter of authorization

may be annulled by the department of education for misrepresentation or fraud. A certificate or letter of authorization may be suspended or revoked when the holder has been determined to be mentally incompetent to such a degree that the holder is incapable of continuing to teach or when the holder is found guilty of a violation of any law involving sexual behavior, illegal sale of narcotics, has committed a felony or "has become professionally incompetent or guilty of unethical behavior."

SUSPENSION

REVOCATION

§22-60-112

"The state board of education is authorized to appoint a hearing commissioner, who may preside at hearings on the denial, annulment, suspension, or revocation of a certificate or letter of authorization."

§22-63-116 — 117

DISMISSAL

"The grounds for dismissal of a tenured teacher shall be physical or mental disability, incompetency, neglect of duty, immorality, conviction of a felony, insubordination, or other good and just cause." The teacher must receive written notice of the dismissal and charges, and shall be entitled to a hearing before a panel selected by the teacher and the board of education. The board of education will review the panel's findings and either retain, dismiss or place the teacher on probation. The teacher may appeal the board's decision to the district court.

NOTICE

HEARING

§22-65-104 — 105

A "professional practices commission" is established, consisting of twelve members appointed by the governor. The commission shall "adopt a code of ethics and professional standards for teachers."

Educational Accountability Program

Regulations

2207-R-2.0

Local Boards

Local boards shall adopt an educational accountability program based on that district's student and educational needs. District plans are to be reviewed prior to July 15 of each year.

Local boards shall develop an accounting of budgetary expenditures and resource commitments. In furtherance of budgetary accountability, evaluation shall be conducted, and directed toward improving educational programming through appropriate budgetary expenditures.

A yearly educational accountability program report shall be submitted to the State Board, prior to June 15, and shall be required of all local boards participating in the program. A recital of how the district has achieved its goals and objectives and an analysis of those educational decisions which affected school programs, services and processes shall be included.

§2207-R-3.0

Local accountability advisory committee

"The local board, upon the advice of the superintendent, shall appoint members to the local advisory accountability committee." Membership of the committee shall appear in the annual accountability report submitted to the State Board. The committee shall advise the local board.

"Committee makeup shall be: one parent, one property taxpaying resident who does not have children in the district's schools, one teacher, and one administrator."

The local board shall establish for the committee a charge consistent with the accountability law, a statement of which is to be sent to the committee.

ACCOUNTABILITY PROGRAM

The local committee should establish objectives and a plan, that are to be reported on to the local board twice a year, that will accomplish the board's charge.

A plan for the continuing development of the accountability program in the district shall be recommended to the local board, prior to July 15 of each year, by the local committee.

2207-R-4.0

Local accountability programs

The board of education of each school district shall adopt and maintain an educational accountability program. By June 15 of each year said plan shall be reviewed and revised by the district's local board.

These steps shall be followed when accountability programs are developed:

Develop, analyze, redefine, and improve a statement of district goals;

Identify student and staff, outcome objectives for the district, and develop the most efficient programs for these objectives.

Determine strengths, accomplishments, costs of programs in terms of student and staff goals and redefine or modify, where needed, those characteristics of [non productive] programs.

The local board shall establish a timetable for the development and operation of its educational accountability program. . . .

In designing and implementing an accountability program, the board, its superintendent and local committee shall work through the district's professional staff of administrators and teachers . . . and the community.

The administrative professional staff shall assist in making decisions to facilitate the educational programs; they shall provide assistance to the teaching professionals; shall provide information necessary for local board use in planning, budgeting, and decision making pertaining to the educational programs.

The teaching professionals shall assist administrative staff in eductional program implementation; work closely with administrative staff in formulating objectives that the educational programs shall address; serve as facilitors and make recommendations about programs strengths and weaknesses, such information being relayed to local boards for use in planning, budgeting, and program improvement.

Local committees, board and citizen action groups should communicate when dealing with similar areas of educational concern.

The district community shall be encouraged to voice concerns, relating to educational programs by communicating with local boards . . . or committees.

2207-R-5.0

Colorado Board of Education

The State Board shall recommend procedures for development of the accountability program which shall:

Establish a procedure for continuous examination of and improvement of state educational goals;

Establish procedures to identify factors which increase quality education within the State.

Suggest accountability evaluative procedures which will assist in determining the extent that student and staff outcome objectives have been accomplished.

2207-R-6.0

Colorado Department of Education

The Department of Education shall provide local districts with any needed assistance with their accountability programs.

Publications, procedures and other resources needed by local districts in accountability development shall be placed with the Department of Education. The information shall be identified and made available to those requesting.

Annual accountability report information reported to State Board by local districts, shall serve as a guide for giving support to local district accountability efforts.

The Colorado Department of Education shall assemble requests which may be used in the accountability process, possibly including an educational package from the State Board. These processes are to be referred to the State Accountability Advisory Committee for review and comment.

EDUCATIONAL PROGAMS

STATUTES

§22-6-102 - 22-6-111

In order to provide "support for the development of school improvement plans," the "Comprehensive Educational Planning Act" is established. Comprehensive educational planning includes "evaluation of the present educational program" and "development of a plan" to meet each district's goals. School districts which participate in comprehensive educational planning shall prepare a plan for the district, providing for participation by "community representatives, professional personnel, and students." The state board of education shall administer the program.

DISTRICT GOALS

§22-7-104

Local boards of education shall adopt plans for "a local accountability program designed to measure the adequacy and efficiency of educational programs" in each district. An "advisory accountability committee" shall be appointed to "make recommendations" on the accountability program.

"The advisory accountability committee shall consist of at least one parent, one teacher, one school administrator, and a taxpayer from the district." The local board shall annually report to district residents on the "extent to which the district has achieved its stated goals and objectives."

REGULATIONS

2206-R-2.0

Regulations concerning grant application

Grants of up to five thousand dollars per year shall be made available to districts that express an intent to develop a comprehensive educational plan and provide funds for planning programs equal to - or greater than - the amount requested from the state.

Districts, assisted by the State Department of Education, shall submit a preplan for involving community representatives, professional personnel and students in all phases of its comprehensive plan; for evaluating district educational strengths and weaknesses; for delineating knowledge, skills, and attitudes which will be the goals of the districts's educational program; and for developing an educational program which will enable district pupils to meet these goals.

Districts are to be notified thirty days in advance of the final date for grant application.

In the event that district grant requests outnumber available funds, priority shall be given to those districts whose preplans or progress reports show the strongest promise for student educational improvement and serve as a model for other districts.

III.D.Educational Programs; Regulations 2202-R-10.03 -- 2202-R-10.04

EDUCATIONAL QUALITY

STATUTES

§22-7-102

In order to "institute an accountability program to define and measure quality in education" and to "help the public schools of Colorado to achieve such quality," an "educational accountability

program" is established. In order to develop this "evaluation mechanism," the approaches which should be used include: "(a) means for determining whether decisions affecting the educational process are advancing or impeding student achievement; (b) appropriate testing procedures to provide relevant comparative data at least in the fields of reading, language skills, and mathematical skills; (c) the role of the department of education in assisting school districts to strengthen their educational programs."

§22-7-103

The state board of education shall develop a state accountability program which implements "a procedure for the continuous examination and improvement of the goals for education in this state;" identifies "performance objectives;" and determines the "extent to which local school districts accomplish their performance objectives." A seventeen-member advisory committee shall be created to assist the state board in carrying out this program.

EDUCATIONAL SERVICES

STATUTES

§§22-5-102 - 22-5-104

In order to improve and expand "educational services" in public schools, the general assembly has approved the "creation of boards of cooperative services" to enable

two or more school districts to combine to furnish educational services. A five member board may be formed, by the school districts, to provide the cooperative services. The mechanics of setting up such a board are set forth in the statute.

PUBLIC EDUCATION

STATUTES

§22-2-202

It is the intent of the general assembly to "improve the quality of education . . . through special provisions and the application of programs of education to areas of scholastic endeavor, including the acceptance and implementation by the state of special educational incentives . . . ." available from the federal government.

II.A.10.Other - Innovative Programs; Statutes §22-21-101 -- 102; 22-21-104 -- 105

READING SKILLS

STATUTES

§22-22-101 - 105

It is the purpose of the Educational Achievement Act to assist local school districts in carrying out programs for students who fall below their "grade level" in reading.

"Local school districts shall be eligible to apply for grants from the state board of education for planning and implementing programs for improved educational achievement in areas where there are high concentrations of children who are not achieving up to their grade levels through:

(a) Improved utilization of educational personnel . . .;

(b) Training and development programs . . .[for] . . . teachers and other educational personnel;

(c) Comprehensive educational programs . . . including

the development and implementation of new curricula and instructional methods, materials, and equipment."

The board shall approve grants only if the board determines that:

"(a) The local school district has a workable plan. . .; and

(b) Schools servicing areas where there are high concentrations of children who are not achieving up to their grade levels will not receive less in expenditures per pupil from other state and local sources than other schools administered by the local school district."

"(c) Each program . . . will be of such size, scope, quality, and design as to assure substantial progress. . . ."

"Guidelines for programs shall be established by the "educational achievement committee" which shall work in conjunction with the board, such committee to be appointed by the governor, and to be comprised of nine persons."

III. Quality of the Educational Process

A. Qualification Standards for Schools and School Districts

1. Accreditation

CROSS REFERENCE

IV.G.; Statute §10-186; -- 10-187

2. Other Qualification Standards

STATUTES

§10-15

"Public schools including kindergartens shall be maintained in each town for at least one hundred eighty days of actual school sessions during each year. When public school sessions are cancelled, . . . the re-scheduled sessions shall not be held on Saturday or Sunday. The state board . . . may authorize the shortening of any school year . . . and may authorize implementation of scheduling of school sessions to permit full-year use of facilities which may not offer each child one hundred eighty days of school sessions within a given school year" but assures the opportunity that each child will receive an average of 180 sessions per year during their ten years of schooling.

"The public schools shall be open to all children over five years of age without discrimination" of any kind; "provided town boards of education may . . . admit to any school children under five years of age or may exclude children who will not attain the age of five years until after the first day of January of any school year. . . .

EQUAL OPPORTUNITY

"Any child attending a public school shall have an equal opportunity to participate in the activities, programs and courses of study offered in such public school.

In said schools [legally qualified teachers shall teach]... reading, spelling, writing, English grammar, geography, arithmetic, United States... history, the duties of citizenship, which shall include a study of the town, state, and federal governments, hygiene, the effects of alcohol, nicotine or tobacco and of controlled drugs, physical and health education, including methods, as presented by the state board, to be employed in preventing and correcting bodily deficiency, instruction in the humane treatment and protection of animals and birds and their economic importance, such instruction, when practicable, to be corrected with work in reading, language and nature study; and such other subjects as may be prescribed by the board."

§10-16

CLASS DAY

"The school day shall consist of not less than four hours of actual school work, except that in nursery schools and kindergartens a continuous session of two and one-half hours may be considered as a school day; provided any school session of at least two hours but less than four hours of actual school work may be counted as half a school day and, in the event of dismissal of school because of weather conditions, completion of the regular morning session may be considered as a school day. Evening school sessions shall be considered as half a school day."

§10-259

"The fiscal and school year shall commence July first and end June thirtieth."

CERTIFIED PERSONNEL

CROSS REFERENCE

III.C.Certified Personnel; Regulation §10-146-9

INTERMEDIATE ADMINISTRATOR OR SUPERVISOR

REGULATIONS

§ 10-146-99 -- 10-146-101

"This certificate, or the certificate as superintendent shall be required for all administrative and supervisory positions in Connecticut public shcools...including principal, supervisor of instruction, curriculum coordinator, assistant superintendent of schools, supervisor or consultant in special subjects or fields, supervisor of academic subjects, system director of adult education or similar positions."

For a provisional certificate as an intermediate administrator or supervisor, an applicant shall establish...that he or she meets the following requirements:

"(a) Holds a...standard Connecticut teaching certificate; or holds and is eligible for a provisional...teaching certificate; and meets all course requirements for a standard...certificate; and holds a master's degree"

(b) Has taught for at least five years, "at least three of which shall have been in public schools...in... positions requiring certification in the state in which... employed, or in...positions which would have required certification had the service been in Connecticut public schools." Five years of teaching in a state board of education-approved private school may be accepted in fulfillment of this requirement;

(c) "Presents the recommendation of an accredited college or university approved in Connecticut for the preparation of administrative and supervisory personnel

...[which] shall include a statement of the particular administrative or supervisory position which has been emphasized in the preparation." The recommendation shall be based on a program of at least 15 hours of graduate study beyond the master's degree, "taken at the recommending institution," and this study must have been completed at least in part within 8 years prior to the date of application. "Special consideration for waiver of the recommendation may be given to...applicants" who have had three years "experience in public school administration or supervision in another state" or experience in a state board of education-approved private school;

(d) "Has completed, in his or her total post-baccalaureate program, study in the" specified areas of professional education, administration and supervision.

"To receive a standard certificate as intermediate administrator or supervisor, an applicant shall, in addition to holding a provisional certificate as intermediate administrator or supervisor, meet the following requirements:" three years experience in an approved school of the state in an administrative or supervisory position and 30 hours of study beyond the master's degree. "The total undergraduate and graduate program shall have included, in addition to appropriate professional preparation," at least 100 hours in general education.

PROFESSIONAL PERSONNEL

STATUTES

§10-27

Any state agency may exchange a limited number of professional personnel and students with institutions of other states and other countries and may pay the salaries of such personnel and may assign scholarships and grants-in-aid to the exchangees.

READING CONSULTANT

REGULATIONS

§ 10-146-93 -- 10-146-95

This certificate is "required for anyone serving as supervisor, consultant, coordinator, director or special teacher in...reading instruction, including anyone who works with teachers and staff on curriculum planning "as it relates to the total reading program;" assist teachers and staff in improving reading instruction, or provides "special remedial reading instruction for elementary and/or secondary students.... The certificate may be issued for elementary level, kindergarten and grades 1-8; for secondary level, grades 7-12; or for all levels."

Requirements for the provisional certificate are:

(a) completion of requirements for a standard teaching certificate and a master's degree;

(b) three years classroom teaching experience;

(c) completion at the graduate or undergraduate level, of study in the areas specified "appropriate to the level at which reading certification is sought."

The requirements for a standard certificate is three years experience under the provisional certificate.

SCHOOL PSYCHOLOGIST

REGULATIONS

§ 10-146-82a -- 10-146-82c

"This certificate is required for anyone serving as a school psychologist in a public school system."
The requirements for a provisional certificate are:

(a) a master's degree;

(b) completion "as part of or in addition to the master's degree, at least...one and half years of

full-time graduate study or forty-five...hours in a planned program in school psychological services...;

"(c) ...recommendation of the preparing institution...; and"

(d) completion,"in addition to the supervised practice or field work experience, an internship... of one full school year...of supervised experience in a school setting under...a certified school psychologist, the local school system and the preparing institution.

"(e) if all other requirements except the internship are met in an approved program for the preparation of the school psychologist, a provisional certificate may be issued" for up to 2 years under these conditions:

(1) the internship must "be supervised jointly by a certified school psychologist and the preparing institution...;"

(2) the certificate is not "applicable toward the time period required for the standard certificate; and,

(3)...the intern [must] be concurrently registered in an approved program for preparation as a school psychologist during the school year that the provisional certificate is in force.

"At the expiration of the two-year period, the provisional certificate may be renewed only upon recommendation of the preparing institution."

Requirements for the standard certificate are three years of experience under the provisional certificate and completion of 15 hours of graduate credit beyond the requirements of the provisonal certificate in the areas specified.

School Social Worker

Regulations

"This certificate is required for anyone serving as a school social worker or as a visiting teacher in any public school system."

The requirements for a provisional certificate are either a master's in social work with a major in social case work, or the following combination: a bachelor's degree; 30 hours at a school of social work; and 2 years experience "in social case work...in an approved family or children's agency," or two years of teaching.

Requirements for a standard certificate are 3 years experience under the provisional certificate and a master's in social work.

School Staff

Statutes

§10-145

"No teacher, principal, supervisor, supervising agent or school superintendent shall be employed . . . unless he/she possesses an appropriate state certificate." The hiring board of education may prescribe qualifications in addition to those imposed by the state board of education.

Special Positions

Regulations

§ 10-146-92

The need may arise for positions which are not otherwise covered in these regulations but "are clearly professional in nature and require issuance of an appropriate certificate. In such cases, the state board of education may empower the bureau of teacher certification to issue provisional and standard certificates with endorsements

other than those listed. Issuance of each certificate "shall be based on completion by the applicant of general, specialized and professional education clearly appropriate to the...position and similar in quality, quantity and degrees to that required for other" comparable positions in the public schools.

SUPERINTENDENT OF SCHOOLS

REGULATIONS

§ 10-146-96 -- 10-146-98

"This certificate is required for the position of superintendent of schools, and is valid for...all administrative and supervisory positions in the public schools but not in state vocational-technical schools..."

To receive a provisional certificate as a superintendent of schools, an applicant shall establish...that he or she meets the following requirements:

"(a) Holds a...standard Connecticut teaching certificate; or holds and is eligible for a provisional...teaching certificate; and meets all course requirements for a standard...certificate; and holds a master's degree...;"

(b) Has completed 8 years of teaching or administrative experience, at least 5 years of which "have been in public schools in the United States in...positions requiring certification in the state in which...employed.... Eight years of...teaching or administrative experience in a private...school" approved by the state board, education may be accepted for this requirement;

(c) Has completed at least 3 years "full-time administrative or supervisory experience in public schools... in...positions which, if in Connecticut public schools, would require possession of the certificate as intermediate administrator or supervisor." Three years experience in a state-board approved private school may be accepted;

(d) "Presents the recommendation of an accredited college or university approved by the state department of education for the preparation of superintendents of

schools." The recommendation shall be based on a program which includes at least 30 hours of graduate study beyond the master's degree, at least 15 of which are "completed at the recommending institution." For the recommendation to be valid, the program must be completed at the institution within 8 years prior to the date of application. "Special consideration for waiver of the recommendation may be given to "applicants with five years experience as [a] superintendent[s] of schools in another state;"

(e) "Has completed, in his or her total post-baccalaureate program" study in the specified areas; and

(f) "Has completed, in his or her total undergraduate and graduate program, in addition to appropriate professional preparation for teaching, administration and supervision," at least 100 hours of general education.

"To receive a standard certificate as superintendent of schools, an applicant shall" have a provisional certificate and at least three years service as a superintendent of schools.

TEACHER

STATUTES

§10-145b

A graduate of a four-year baccalaureate program of teacher education or a four-year baccalaureate program approved by the state board of education shall be granted a provisional teaching certificate, valid for ten years.

The holder of a provisional certificate shall be under the direct supervision of the superintendent of schools or a designated principal or supervisor who shall evaluate the performance of the holder of a provisional certificate.

A person holding a provisional certificate shall have completed thirty credit hours of course work beyond the baccalaureate degree in order to qualify for a standard certificate. The course work shall consist of either a planned program at a university or an individual program under the supervision of the local board of education.

If the provisional certificate holder completes the necessary course work and has competently performed her/his duties, the state board of education shall issue a standard teaching certificate. The teacher's comptency shall be judged on the completion of three years of satisfactory teaching. A standard teaching certificate may be revoked for any of the following reasons: obtaining the certificate through fraud or misrepresentation; persistent neglect of duties; professional unfitness; conviction of a crime involving moral turpitude; or other sufficient cause.

REVOCATION

Any provisional certificate holder who is not granted a standard certificate may appeal to the state board of education for reconsideration. The board shall hold a hearing within sixty days if requested in writing and shall render a decision within thirty days. A teacher may appeal the board's decision to the court of common pleas within thirty days of receipt of the decision.

APPEAL

§10-146a

The state board of education shall seek and consider the advice and recommendations of the advisory board on state certification of teachers prior to the establishment of any new or revised regulations or standards. The advisory board shall be comprised of fifteen persons chosen from various sectors of the educational profession.

The advisory board shall counsel the state board of education on the establishment of professional standards and policies and the procedures for the issuance and

revocation of professional certificates.

Members of the advisory board shall serve without compensation but shall be reimbursed for all reasonable expenses.

§10-146b

Any person who is unable to complete the requirements for a standard certificate within the period required by law may appeal to the board for an extension and the board may extend the period in a hardship or an emergency situation. Only one extension shall be granted.

§10-146c - 10-146f

The interstate agreement on qualifications of educational personnel is enacted into law in Connecticut. The secretary of the state board of education is the designated state official for Connecticut.

The requirement of certification may be waived for a teacher of bilingual education who is qualified to teach and will only teach in that program. The requirements for provisional certificate will be waived but not those for standard certification.

WAIVER

§10-149

The state board of education shall adopt regulations for the qualifications of physical education teachers, and shall require all students who are preparing to teach to receive instruction in these courses.

REGULATIONS

§ 10-146-1 -- 10-146-8

"Applications for state certificates shall be... filed with the bureau of teacher certification, state department of education.... "

"To receive a certificate an applicant in addition to meeting the specific requirements.... shall submit"

an application, transcripts of all credits, "a statement made by the preparing institution that the applicant has the necessary qualities of personal fitness for teaching and...is competent to fill the position for which the certificate is sought;" evidence that the applicant is at least 18 years old and a U.S. citizen (the citizenship requirement may be waived in certain instances). If work experience is needed for certification, the applicant must obtain a statement from his or her superintendent or employer.

The State Board of Education issues provisional and standard certificates.

The provisional certificate is issued to an individual who fulfills all these requirements. It is "valued for five years and may be renewed or exchanged for a standard certificate." The provisional certificate may be renewed for 5 years if the holder fails to complete the requirements for a standard certificate; however, "inability to qualify for a standard certificate at the end of ten years shall result in the termination of...employement covered by the certificate, subject to appeal for cause to the state board of education..."

"A standard certificate shall be issued when an applicant submits evidence of the following: (1) three or more years of satisfactory experience under the provisional certificate." In certain instances "equivalent experience in an approved private school or other program approved by the board may be accepted; (2) "completion of additional general and professional preparation...specified for the particular certificate...."

"Temporary emergency permits may be issued "if the superintendent of schools cannot hire a certificated

teacher. "All properly certified personnel employed in the public schools of Connecticut on August 23, 1955, and continuously thereafter in the same...position... may continue" under the same certificates.

The superintendent of schools is responsible for seeing that a teacher holds a valid certificate before issuing a contract, notifying the bureau of teacher certification when new employees are hired. The superintendent shall also submit a signed statement to the bureau for each person who applies for certification beyond the initial certificate.

To be certified, an applicant must "be recommended by the teacher preparation institution." For the recommendation to be acceptable, institutions in the state must "be approved by the state board of education for preparation of teachers, supervisors or administrators," and out-of-state institutions must meet these requirements: accreditation "by the appropriate regional accrediting association; approval by the state board under whose jurisdiction it covers "for the particular area...in which certification is sought; and" accreditation by the National Council on Accreditation of Teacher Education.

Applicants who do not meet the requirements of these regulations (§ 10-146-1 to 10-146-95) will be denied certification, unless the secretary of the state board of education determines that an individual's educational experience are equivalent to the educational experiences required.

§ 10-146-10 -- 10-146-15

"Elementary certificates shall be endorsed for particular levels of teaching according to... preparation and the recommendation of the preparing institution. Endorsements may be made for: nursery and/or kindergarten through grade 3 or grade 6; grade 4-8, "valid also

in grades 7th and 8th in junior high school or in a junior-senior high school."

The reqirements for a provisional elementary certificate are:

(a) a bachelor's degree;

(b) at least 75 hours of general education, including study in English, science, mathematics, social science, and fine arts. If an applicant has completed all other requirements but lacks no more than 6 hours in education courses, he or she may be issued a one-year provisional certificate, renewable for four years if the deficiency is removed;

(c) 30 hours in professional (early childhood or elementary) education in the following areas: foundations of education, educational psychology, curriculum and teaching methods, student teaching, guidance, and health and safety education.

After a year of teaching, "an elementary certificate endorsed for a particular grade or level...may, upon recommendation of the superintendent of schools," be endorsed for another grade or level. "Teaching endorsements may be extended" as follows:

(a) "Extension of elementary or special education endorsement to secondary" requires 3 years teaching and completion of the course requirements for teaching the subject at the secondary level (§10-146-17d).

(b) "Extension of secondary, special subject or special education endorsement to elementary" requires 3 years teaching and completion of the general education requirement for the elementary provisional certificate, and 15 hours "of professional courses...related to elementary teaching."

(c) Extension of special subject endorsement to secondary" requires either 3 years teaching or a course in each of the areas of foundations of education, education psychology, and curriculum and teaching methods (related to secondary teaching); and completion of the course requirements for teaching the subject at the

extension of a special subject or field endorsement to another special subject or field "requires completion at an institution approved for the preparation of teachers of the special subject or field for which endorsement is sought," of preparation, including all the requirements for a provisional certificate in a special subject or field that are applicable to the subject.

(e) "Extension of elementary or secondary endorsement to a special subject or field at the same level only" requires 3 years teaching and completion of 35 hours in the subject as specifed in the requirements for a provisional certificate in a special subject (see § 10-146-22(d)).

(f) "Extension of elementary, secondary, special subject or special education endorsement to include library endorsement" requires completion of eighteen semester hours' credit in library science as part of a planned program leading to a major in library science.

(g) "Extension of elementary, secondary or special subject endorsement to include special education" requires completion of appropriate course requirements as specified for a provisional certificate and special education.(§ 10-146-25(d)(5)).

In order to receive a standard elementary certificate a teacher must have a provisional elementary certificate, three years teaching experience and complete either a master's degree or thirty hours credit beyond the bachelor's degree at either the graduate or undergraduate level and including 15 hours in general education.

§ 10-146-16 -- 10-146-20

"Secondary certificates are valid for all endorsed subjects...in grades seven through twelve. A secondary certificate may be endorsed for one or more elementary levels and...for the teaching of a special subject." The requirements for a provisional secondary certificate are:

(a) a bachelor's degree;

(b) at least 45 hours "in general education including at least three of the following areas in addition to the area of major specialization: English, science, mathematics, social science, including U.S. history, fine arts, foreign languages. If an applicant fulfills all other requirements but lacks no more than 6 hours in general and professional education requirements, a one-year provisional certificate may be issued and its renewal for four additional years contingent upon removal of the deficiency;

(c) at least 18 hours of professional education, including the following areas: foundations, educational psychology, curriculum and teaching methods, student teaching, guidance, health and safety education;

(d) at least 30 hours "in one or two fields of concentration appropriate for the particular subject endorsement sought in accordance with" the requirement established for each field. The requirements for driver education is a "teaching certificate valid for grade seven or above" and 3 hours in driver education. The teaching of core subjects requires regular certification in one subject and completion of at least half" the requirements for each other subject included in the core program." Also required are at least 6 hours "in courses specifically designed for...teachers of the core curriculum."

A teacher may receive "temporary authorization to teach a subject other than his [her] major assignment as a minor assignment "if the superintendent of schools so requests and the teacher has at least 6 hours in the subject." The permit may be issued for one year in one subject, of not more than two instructional periods per diem."

The requirements "for extension of a secondary or special subjects certificate to elementary levels" are three years teaching; completion of the general educational requirements for a provisional elementary

certificate, and at least 12 hours "specifically related to elementary teaching."

To obtain a standard secondary certificate, a teacher must have a provisional secondary certificate, have 3 years teaching experience, and complete either a master's degree or a program of 30 hours beyond the bachelor's degree, at either the graduate or undergraduate level, including 15 hours of general education.

§ 10-146-21 -- 10-146-23

"The certificate for special subjects or fields is required for the following special subjects taught at either or both the elementary and secondary levels: Agriculture (non-vocational), art, health, homemaking, industrial arts, library, music, and physical education. Special subjects certificate may be endorsed for grades one through twelve, one through eight, and seven through twelve;...[and] for one or more elementary levels or for one or more secondary subjects."

The requirements for a provisional certificate in a special subject are:

(a) a bachelor's degree;

(b) at least 40 hours of general education, including "at least three of the following...in addition to the area of major specialization:" English, science, math, social sciences, fine arts, and foreign languages. If an applicant has completed all requirements but lacks no more than 6 hours of general or professional education in the teaching field, a provisional certificate valid for one year may be issued and may be renewed for 4 more years if the deficiency is removed;

(c) at least 18 hours in "professional education... appropriate to teaching at both the elementary and secondary level and to the special subject" to be taught, including the following areas: foundations of education; educational psychology; curriculum and teaching methods; student teaching, guidance; and health and safety education;

(d) at least 35 hours "in appropriate technical courses...in the special field to be taught and including the particular areas as noted for each subject" in the regulation.

"To receive a standard certificate for a special subject in a given field a teacher shall hold a provisional special subject or field certificate," complete 3 years of teaching, and complete a master's degree or a program of at least 30 hours beyond the bachelor's degree of either undergraduate or graduate credit, 15 hours of which must be in general education.

§ 10-146-24 -- 10-146-26b

"Special certification is required for anyone employed as a teacher of handicapped children. This classification includes teachers of the following: Blind, partially sighted; deaf; speech correction; and hearing conservation...; and mentally handicapped...; physically handicapped; socially and emotionally maladjusted; neurologically impaired, and those suffering learning disability..." Certification covers teaching on the elementary or secondary level, according to preparation."

1) Certification of teachers of the blind, partially sighted, and deaf: Provisonal certification.

The requirements for a provisional certificate for special education in these areas are:

(a) a bachelor's degree

(b) At the elementary level or for grades 1-12; at least 75 hours in general education, including English, science, math, social sciences and fine arts.

(c) At the secondary level: at least 45 hours in general education, including study in at least three of the following: English, science, math, social science, fine arts, and foreign languages, and at least 30 hours "in one or two fields of concentration appropriate for the subject endorsement sought in accordance with" the secondary teaching certificate requirements.

If an applicant fulfills all requirements but lacks no more than 6 hours in general and professional education, a one-year provisional certificate may be issued and may be renewed for 4 additional years if the deficiency is corrected.

(d) at least 30 hours in professional education including: Foundation of education, educational psychology, curriculum and teaching methods, student teaching and 12 hours in the areas listed for blind and partially sighted; for teaching of the deaf, all of the 30 hours in professional education "shall be devoted to the education of the deaf."

Standard Certificate: To obtain the standard certificate a teacher must have a provisional certificate, 3 years teaching experience, and complete a master's degree in a program, 30 hours beyond the bachelor's degree of either graduate or undergraduate credit, 15 hours of which must be in general education.

2) Certification for teachers of the mentally and physically handicapped, emotionally disturbed learning disabilities, etc.

Provisional Certificate: The requirements for a provisional special education certificate in these areas are:

(a) a bachelor's degree; and

(b) completion of a "planned program of professional education related to the preparation of teachers of children with handicapping conditions and presentation of an approved institution's recommendations that the applicant has completed the program satisfactorily.

Standard certification: A teacher may receive a standard special education certificate for these areas if he or she holds a provisional certificate, has three years of special education teaching experience, and completes a master's degree in special education or a program of at least 30 hours beyond the bachelor's degree of either graduate or undergraduate credit, 15 hours of which must be in special education.

3) Certification for Speech and Hearing Specialists:

Provisional Certificate: The requirements for a provisional certificate as a Speech and Hearing Specialist are:

(a) "a valid license from the Connecticut State Department of Health to practice Speech Pathology;"

(b) at least 12 hours in professional education, including work in foundations of education and educational psychology; special education; "curriculum and method of providing clinical services to the communicatively handicapped in the public schools," and student teaching.

Standard Certficate: "The holder of a provisional certificate...as a Speech and Hearing specialist may receive a standard certificate upon completion of three years of successsful teaching under the provisional certificate."

§ 10-146-27 -- 10-146-52c

A. Skilled Trades

The certificate in skilled trades is required for teaching in a vocational and technical school, day school, and evening school and particular skilled trade subject endorsed on the certificate." The requirements for a provisional certificate to teach skilled trades are:

(a) graduation from high school;

(b) at least 2 courses in teaching vocational and industrial education;

(c) "eight years of approved experience in the field for which the certificate is endorsed" which may include up to 5 years of "apprenticeship or specialized schooling."

Requirements for a standard certificate are:

(a) Three years "service in a position covered by the provisional certificate;

(b) 18 hours in "trade and industrial teacher education,"

(c) 12 hours in professional education.

B. Evening Vocational Schools

"This certificate is required for teaching the particular skilled trade subject endorsed on the certificate in the evening vocational school program." The requirements for "a provisional certificate as a teacher of skilled trades in evening school" are:

(a) high school graduation;

(b) at least one course in "teaching in vocational and industrial education;"

(c) eight years experience in the appropriate field to be taught.

The requirements for a standard certificate are three years experience under the provisional certificate and at least two courses in teaching and vocational and industrial education.

C. Trade-Related Subjects

"This certificate is required for teaching trade-related subjects, day school or evening school, in a vocational-technical school and/or in the vocational part-time trade extension classes." The requirements for a "provisional certificate to teach trade related subjects" are:

(a) a combination of high school graduation; 2 years post-secondary education with at least 30 hours in technical subjects such as math, science, drafting and design; and three years of appropriate industrial experience; or

(b) "the requirements for a provisional secondary certificate" in mathematics and/or science.

The requirements for a standard certificate are:

(a) 3 years experience under the provisional certificate;

(b) "either a standard certificate endorsed for teaching mathematics and/or science in a secondary school, and the following combination: "18 hours in trade and industrial teaching education and 12 hours in professional education.

D. Trade-Related Subject in Evening School Only

The requirements for a provisional certificate "to teach trade related subjects in the vocational-technical school evening program" are:

(a) high school graduation;

(b) 2 years post-secondary education with at least 30 hours in technical subjects;

(c) three years of approved industrial education,

(d) at least one course in teaching in vocational education.

Requirements for the standard certificate are three years service under the provisional certificate and at least 2 course of teaching in vocational and industrial education.

E. Vocational-Technical Fields

"This certificate is required of technical institute instructors and vocational instructors in such fields as radio, television, etc." The emphasis is on technical knowledge rather than trade skills.

The requirements for a "provisional certificate to teach vocational-technical fields" are:

(a) "A bachelor's degree with a major in the technical field to be taught."

(b) "Three years of satisfactory industrial experience."

(c) At least two courses in vocational education teaching.

Requirements for the standard certificate are:

(a) Three years service under the provisional certificate.

(b) 18 hours in trade and industrial teacher education;

(c) 12 hours in professional education.

"Teachers of academic and special subjects in the vocational-technical schools which are ordinarily part of the public secondary school curriculum" must hold the same certificates as would be required in the public secondary schools.

F. Vocational Agriculture

The requirements for a "provisional certificate to teach vocational agriculture in grades 9 to 12, also valid for teaching non-vocational agriculture and young farmer and adult classes" are:

(a) a bachelor's degree from an agriculture college or school of education "and completion of the curriculum requirements for teaching vocational agriculture,"

(b) three years farm experience since age 14.

The requirements for a standard certificate are three years service under the provisional certificate and a master's degree or 30 hours of graduate credit, at least 15 in professional education.

The requirements for a "provisional certificate valid for teaching adult vocational agriculture only" are:

(a) 6 years "recent experience in farming or in related agricultural activities;

(b) ...recommendation of the local advisory committee and the employing agency."

The provisional certificate may be renewed after three years of experience. There is no standard certificate.

G. Vocational Homemaking

"To teach vocational homemaking...in the state vocational technical schools, a teacher shall hold a vocational homemaking certificate, requirements for which are the same as those for the homemaking certificate" under certificates for special subjects. (§§ 10-146-22 and 10-146-23).

H. Adult Vocational Homemaking

"This certificate is required for teaching adult vocational homemaking in part-time or full-time...(and) state-aided programs and in vocational-technical schools. A person certified to teach vocational homemaking is eligible to teach adults in vocational homemaking courses." The requirements for "the provisional certificate for adult vocational homemaking" are: high school graduation; 8 years "wage earning experience in the field" to be taught; and 2 hours credit in teaching adult vocational homemaking.

The requirements for the standard certificate are: 3 years service under the provisional certificate and at least four hours in teaching adult vocational homemaking.

I. Teacher - Coordinator, Distributive Education

"To receive a provisional certificate...as teacher-coordinator of cooperative part-time classes, which is required for teaching and/or coordinating cooperative part-time classes in distributive education" the requirements are:

(a) a bachelor's degree

(b) 15 hours in the distributive fields;

(c) 9 hours of "professional education in such courses as vocational education, organization...of distributive education, school organization, teaching methods, and

(d) one year as a successful paid worker in distributive occupations."

The requirements for a standard certificate are 3 years of service under the provisional certificate and a master's degree or 30 hours graduate courses.

J. Adult In-service Distributive Education

"This certificate is required for teaching distributive education courses to adults employed in distributive occupations. The certified teacher-coordinator of cooperative part-time classes is eligible to teach the adult in-service distributive education classes. "Otherwise, the requirements are:

(a) high school graduation;

(b) 12 hours "of preparation for teaching in distributive education;"

(c) five years work experience "in a distributive occupation" or a bachelor's degree.

The requirements for a standard certificate are 96 clock hours of service under a provisional certificate and 24 hours in teaching distributive education.

I. Teaching Distributive Education

K. Occupational Subjects

Certification for "teachers, in those occupational

programs which call for special knowledge ...and experience in a field not provided for with present teacher preparation institutions. This classification includes teachers of semi-skilled occupational subjects in approved vocational education programs in day and evening school in the particular semi-skilled area endorsed in the certificate." The requirements for a "provisional certificate to teach occupational subjects" are:

(a) a high school diploma;

(b) at least three years "work experience in the field to be taught;"

(c) at least 2 courses in vocational and industrial education teaching.

"Alternatives for formal course work may be presented to show proficiency in the following competencies:

"(1) Have the ability to employ recognized methods of teaching...

"(2) Have demonstrable knowledge of classroom organization...

"(3) Have the ability to use...teaching materials... in the classroom.

"(4) Have demonstrable knowledge of the objective... of vocational education.

The requirements for a standard certificate are:

(a) Three years of service under the provisional certificate;

(b) Completion of a vocational education program which consists of 18 hours in vocational education teaching. ... "Alternatives for formal course work may be presented to show proficiency" ...

(c) Completion of a professional education program which consists of at least 12 hours taken in at least four of the following areas: developmental reading in secondary schools; psychology of learning; developmental psychology; audiovisual education; principles of secondary education; psychology of the

disadvantaged; and other related areas.

§ 10-146-53

The following are the requirements for "provisional and standard certificates to teach in programs of adult education."

(a) Academic or commercial subjects. "This certificate is required for teaching an academic or commercial subject in a public school adult education program." For a provisional certificate an applicant must fulfill "the requirements for a provisional or standard secondary teaching certificate endorsed for the subject taught." The requirements for a standard certificate is three years of teaching under the provisional certificate.

(b) English to non-English speaking adults. For a provisional certificate, the applicant must have a bachelor's degree and 4 hours "in methods of teaching foreign-born adults." The requirement for a standard certificate is three years teaching under a provisional certificate.

(c) One-year adult certificate. "This certificate may be issued for teaching adult classes in subjects other than those usually taught in the secondary schools, and not covered by other provisions of these requirements to an applicant who has filed with the bureau of teacher certification:

"(1) a general application listing details of education and background and

"(2) a statement from the employing superintendent of schools...that he[she] is familiar with "the applicant's background and that he or she is suited thereby for the teaching of adult classes in the subjects for which certification is sought" and is a U.S. citizen. This "certificate may be renewed annually...but cannot be converted to a standard certificate."

"Temporary emergency permits may be issued by the bureau of teacher certification...if...necessary to keep the schools in operation."

For a temporary permit to be issued for teaching positions, these conditions must be met:

1) a shortage must exist;

2) the superintendent of schools must request in writing a "permit to cover a specific position," state that there is no regularly certified teacher to fill the position, and attest "that special attention will be given, in the form of supervision...and...other assistance..., to the teacher for whom the permit is requested.

3) "the candidate for the position...holds a bachelor's degree...[and] is enrolled" in a teacher education program. For a secondary teaching position, the candidate may lack more than 18 hours in education and/or content courses, and no more than 9 in any subject to be taught; for an elementary position, the deficiency may be no more than 24 hours.

"A temporary emergency permit for administrative supervising a special service position will be issued only when the following conditions are met:"

(1) a shortage exists;

(2) the superintendent of schools requests in writing a "permit to cover the specific position...,...attest... that a fully certified candidate...is not available, ...[and] establishes the fact that immediate appointment to the position is essential for the welfare of the school children involved."

Temporary emergency permits may be renewed as follows:

(1) the superintendent must make written request;

(2) the individual holding the permit must have "fulfilled the annual in-service course requirements of at least" 6 hours;

(3) secondary permits may be renewed no more than twice and elementary permits no more than three times.

"An applicant may be eligible for a temporary emergency permit to teach industrial arts under the following conditions...:

"(1) A continued acute shortage of industrial arts teachers has been established;"

(2) the superintendent of schools requests a temporary permit in writing, states that a regular certified "candidate for the industrial arts position" is not available, and "attests...that the teacher ...will be provided with a cooperating teacher or supervisor of industrial arts who will be responsible for...guidance...during the entire first year of teaching;

(3) the applicant meets the following requirements: high school graduation; at least 5 years experience in a field(s) "closely related to the industrial arts teaching assignment;" at least 2 courses in industrial education teaching; "enrollment in...[a] teacher-preparatory program...which will lead to a bachelor's degree and...a provisional certificate as a teacher of industrial arts.

The temporary emergency permit for industrial arts teaching "may be renewed from year to year or... evidence of...: (1) satisfactory teaching...; (2) continued good standing in the teacher-preparatory program;" (3) completion of at least 12 hours in the program each year.

§ 10-146-56 -- 10-146-57

A substitute teacher must hold either a current teaching certificate or a substitutes' permit. "A substitutes' permit valid for" up to 40 days "in any one tour may be issued at the request of the superintendent of schools" as follows:

The superintendent of schools must request that a substitutes' permit be issued by the bureau of teacher

certification and state that the individual has a bachelor's degree or has graduated from an accredited 2 or 3 year normal school, is in good health and a U.S. citizen. The superintendent must annually provide the "bureau of teacher certification with a list of all substitutes he[she] proposes to employ during the coming school year." The bureau authorizes permits by validating the list.

"Additions to the original list of substitutes may subsequently be made at any time during the school year.... A substitutes' permit may be extended beyond the...forty-day period but not beyond the end of any school year."

§ 10-146-75 -- 10-146-77

"This certificate is required for anyone serving as a school counselor in grades kindergarten through twelve or coordinating school counseling services within a single school."

An applicant for a provisional certificate must meet the following requirements:

(a) "Hold a standard teaching certificate, or hold a provisional teaching certificate and have had three years of...teaching experience, or have completed a one-year's full-time supervised school internship....

"(b) Have completed one year of...work experience in one or more fields other than teaching...;

"(c) Hold a master's degree;

"(d) Have completed, as part of or in addition to the master's degree" at least 30 hours of graduate study in school counseling services;

(e) "Present the recommendation of the preparing institution...; and

"(f) Present evidence from the preparing institution of a progression of supervised experiences in counseling and guidance through laboratory and practicum."

Requirements for the standard certificate are three year experience under the provisional certificate and 45 "graduate semester hours in the area of school counseling services."

CROSS REFERENCE

II.A.1.; Statute §10-24d-2 -- 10-24d-10

VOCATIONAL SCHOOL ADMINISTRATION OR SUPERVISOR

REGULATIONS

§ 10-146-70 -- 10-146-72

"This certificate is required for anyone serving as administrative and supervisory director of a vocational school, and as assistant director of a vocational school, or as supervisor of a vocational evening school program."

The requirements for a provisional certificate are:

"(a) a standard certificate...for teaching in the vocational-technical schools, (b) five years of... experience as a teacher or supervisor in a public or nonpublic vocational school, (c) three years...industrial experience, (d) a bachelor's degree...and (e) a minimum of thirty semester hours of...professional preparation, undergraduate or graduate, including six...hours... in administration and supervision of vocational education."

Requirements for a standard certificate are three years of service under the provisional certificate and 10 hours "in approved graduate professional study beyond the requirements for the provisional certificate."

REGULATIONS

§ 10-146-9

The state board of education may revoke any certificate if it "finds that one or more of the following just causes exist: (1) the certificate was fraudulently obtained; (2) negligence of a professional unfitness for duties; (3) conviction of "seditions or subversive activity...[or] of a crime involving moral turpitude or of any other crime of such nature that...continued certification would impair the standing or certificates issued by the board."

REVOCATION

The local board of education or any interested person ("the regulating party") may request that a certificate be revoked. The state board must conduct a "preliminary inquiry to determine whether probable cause exists for instituting" revocation procedures.

"If the board...finds that probable cause does exist," the certificate holder shall be notified that revocation procedures are being initiated and shall be informed of grounds upon which the action is being taken. The notice shall also inform the holder that within 15 days he or she may either surrender the certificate or request a hearing before the board. If the holder does not request a hearing, the board may hold one at its own initiative. "If no hearing is held, the secretary of the board shall make...an investigation of the matters set forth in the notice" and report to the board.

NOTICE

HEARING

"The hearing shall be conducted by the board with at least two-thirds of the members...present and shall be public if the holder" so requests. The holder and the requesting party may "be present throughout the hearing and...be represented by Counsel."

RIGHT TO COUNSEL

In order for a certificate to be revoked, 2/3 of the board's full membership must so vote. The

board shall prepare a written opinion on the reasons for its action. Notice of the board's determination and its written opinion "shall be promptly furnished... to all parties to the proceeding."

Compliance with Education Laws

CROSS REFERENCE

I.State Board of Education; Statute §10-2

Educational System

Statutes

§10-239g

The demonstration board shall provide a valid test for judging the quality of education resulting from the demonstration program as compared to the present system of public and private schools. The evaluations shall be reported to the state board of education and the joint standing committee on education.

High School Diploma Recipients

Statutes

§10-5

Any person who has satisfactory evidence that she/he has an education equivalent to that required for graduation from high school may be issued a state high school diploma. Each person shall make application in the manner and form prescribed by the state board and shall, at the time of

DIPLOMA

filing, pay to the board the sum of two dollars. If the credentials and evidence are not sufficient, the person shall pay a fee to the board for any testing services needed. No veteran or member of the armed forces shall be required to pay the fees required by this section.

REGULATIONS

§10-5-1 -- 10-5-5, §10-5-7

DIPLOMA

The State Board issues a state high school diploma. "Any person requesting a state high school diploma shall furnish evidence of academic attainment equal to that usually required for graduation from a public high school in Connecticut." Application should be made on state board forms and all accompanying transcripts, letters and other documents should be original copies.

To be eligible for the state high school diploma and equivalency examination an applicant must be at least 19 years old and a state resident, "submit evidence of previous academic attainment...and...pass appropriate examinations in English, mathematics, natural sciences and social studies." In evaluating "a candidate's application for the state high school diploma,...work previously taken in an approved educational institution" or completed in the armed forces shall be taken into consideration.

LOCAL BOARD OF EDUCATION

STATUTES

§10-152

EQUAL OPPORTUNITY

A board of education shall not discriminate on the basis of sex in determining teachers' salaries.

§10-153

A board of education shall not discriminate on the basis of marital status in the employment of teachers.

§10-254

"Any member of a board of education who fraudulently makes or joins in making any false certificate, by reason of which money is drawn from the state treasury, shall be fined not more than sixty dollars."

Statutes

§10-224

The secretary of the board of education shall keep records of the board's proceedings and submit an annual report to the town.

Racial Composition of Schools

Statutes

§10-226a

The board of education of each town shall annually submit data to the state board of education reflecting

the number of pupils of racial minorities in the schools. Racial minorities means students of Negro, Mongolian, Malay, Puerto Rican, Mexican American or American Indian ancestry.

Racial Imbalance

Statutes

§10-226b

Whenever the state board of education finds that racial imbalance exists in a public school, it shall notify in writing the local board of education. A racial imbalance exists whenever the proportion of students of racial minorities exceeds or falls short of the proportion of public school pupils in all grades in the district.

Regional Board Services

Statutes

§10-66h

The board of a regional educational service center shall annually furnish to all participating boards an evaluation of the programs and services provided by the regional board.

Scholarship System

Statutes

§10-239a

A "demonstration scholarship program" has been adopted by the legislature to enable six towns to participate in a program to develop and test the use of education scholarships. The purpose of the program is to test the usefulness of education scholarships in improving educational quality, providing greater parental choice, and to determine the extent to which educational quality is affected by economic incentives.

School District

Statutes

§10-4b

Whenever the state board finds that any school district has failed to make reasonable efforts to implement the educational interests of the state, the board shall conduct an inquiry to find out why the school district has failed and shall determine what recommendations should be made as to the necessary remedies. The local board shall be given opportunity to be heard by the state board.

III. Quality of the Educational Process

A. Qualification Standards for Schools and School Districts

2. Other Qualification Standards

Statutes

§2802

The Board of any district may initiate the expansion of a regular school year from 180 day program to 230 day program.

§2803

The qualified voters in any school district must, by referendum, approve the proposal of a local school board for expansion of the school year from 180 day program to 230 day program. Such referendum must be approved at least six months before the implementation of such programs.

§2804

The Board must, by resolution, approve the expanded program at least three months before the plan is submitted for referendum. Approval must be based, in part, on an analysis of a ten-year student population projection for the local district.

§4107

Every day in which a general election is held in the State shall be a legal holiday for all schools.

Any person causing said schools to be open on these days shall be fined.

B. Qualification Standards for Personnel

Certificated Personnel

§1092

"Every employee of a reorganized school district must meet qualification standards adopted by the Board and be certified or otherwise licensed . . . ."

A teacher shall not forfeit his/her Professional Status Certificate and his/her rights appertaining if he /she be transferred against his/her will to an educational position for which he/she is not certified.

§4101; 4102

On the first day of school at the beginning of the school year, during first period, the First Amendment of the Constitution of the United States of America shall be read by the teacher in charge to students in all public schools.

A three minute portion of time during the day shall also be allotted to each student to pursue his/her individual, moral, philosophical, patriotic or religious activity.

Any school official who refuses to comply with these provisions shall be subject to a monetary fine.

§4105; 4106

Each morning in public schools teachers are to lead students in a salute and pledge of allegiance to the American flag. Any school official who fails to require the salute and pledge shall be fined.

D. Evaluation and Reporting

Public Schools

Statutes

§124

The Board is to submit, yearly or on or before the first day of January, an annual report covering all operations of the Board. The annual report of the Board for the school year next preceding the meeting of the General Assembly shall include recommendations for additional legislation and for changes in existing legislation.

§1050

The school board of each reorganized district shall publish an annual report, addressed to the people of the district, covering the current conditions, accomplishments, and need for improvement and advancement of the schools, as well as a statement of the business and financial transactions of the school board. This report is to be approved by the school board not later than December 31, following the close of the fiscal year.

Class 2 - Reading Specialists

(1) A Master's degree from an accredited institution;

(2) Satisfactory completion of a sequence of courses in preparation for being a reading specialist which may be part of or in addition to the degree requirements.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED:

(a) Educational psychology (b) Child or adolescent psychology (c) Introduction to teaching in urban elementary schools or urban secondary schools (d) Materials and methods of teaching (e) Personality, cognition and learning behavior (f) Children's literature (g) Education of exceptional children (h) Sociology of urban youth (i) Corrective and remedial techniques of reading (j) Diagnosis and correction of reading disabilities (k) Clinical or laboratory practicum (l) Foundations or surveys of reading (m) Observation and student teaching on the elementary or secondary level

(3) A minimum of three...years of satisfactory teaching experience on the elementary and/or secondary level, or equivalent experience in a reading laboratory or clinic.

Class 3 - Regional Reading Coordinators

(1) ALL requirements of License XV, Class 2, must be met.

(2) Satisfactory completion of a sequence of graduate courses in education which may be part of or in addition to the degree requirements. A minimum of twelve ...graduate-level semester credits is required.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED: (a) Human relations (b) School administration(c) Educational technology. Additional semester credits must be not less than one...graduate level course from each of the following areas: (a) Remediation and diagnosis of reading and learning problems (b) Curriculum development and supervision

(3) Field experience under supervision of a qualified reading consultant.

Class 4 - Reading Consultants

(1) A Master's degree from an accredited institution;

(2) Satisfactory completion of a sequence of courses in preparation for being a reading consultant which may be part of or in addition to the degree requirements. A minimum of thirty...semester credits in graduate courses beyond the master's level is required.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED: (a) Educational psychology (b) Child or adolescent psychology (c) Introduction to teaching in urban elementary schools or urban secondary schools (d) Materials and methods of teaching reading (e) Personality, cognition, and learning behavior (f) Literature for children or adolescents (g) Education of exceptional children (h)Sociology of urban youth (i) Corrective and remedial techniques of reading (j) Foundations or surveys of reading (k) Diagnosis and correction of reading disabilities (l) clinical or laboratory

practicum (m) Remediation and diagnosis of reading and learning problems (n) Curriculum development and supervision (o) Observation and student teaching

Additional semester must be graduate-level courses in the following areas: (a) Human relations (b) School administration (c) Educational technology (d) Guidance

(3) A minimum of three ...years of satisfactory teaching experience on the elementary or the secondary level, or both, OR the equivalent amount of experience in the reading laboratory or reading clinic.

(4) Field experience under the supervision of a qualified reading consultant."

REGIONAL SUPERINTENDENT

REGULATIONS

Ch. II, §210

"Each applicant for the position of Regional Superintendent must meet all of the following qualifications:

(a) A Master's degree.

(b) Successful completion of at least twelve . . . semester hours of administration and supervision in education at an accredited institution. For the purpose of this Section, 'satisfactory completion' is defined as the attainment of a grade of 'B' or higher in such course-work.

(c) At least ten . . . years of experience in the field of education (a portion of which shall have been at the level of Principal) or comparable experience in business, industry, or government. Five . . . years of such experience must have been obtained in an urban school system.

Qualified applicants who are employees of the D.C. Public School System shall be given priority when applicants possess equal qualifications and display comparable capacity and fitness for the position."

Ch. II, § 211

The superintendent shall establish a screening panel for each regional superintendent vacancy. The panel

shall consist of one student, a representative, chosen by the Board of Education, experienced in educational administration, two representatives of the community and one member of the administration appointed by the superintendent. It shall review all candidates to see if they meet the minimum qualifications.

Ch II, § 212

The superintendent shall establish a regional selection panel to interview and rank the candidates for position of regional superintendent. The selection panel shall consist of the superintendent, one administrative officer GS-15 or greater, two representatives of the community, and a member of the Board of Education. The Director of the Division of Personnel shall be a nonvoting member of the committee.

The person who receives the highest rating from the panel shall be recommended to the board.

Ch II, § 213

The Board of Education shall appoint all regional superintendents upon recommendation from the selection panel. The Board may accept or reject the recommendation, but may not substitute its own recommendations.

SCHOOL EMPLOYEES

STATUTES

§31-1511 --1513

Upon written recommendation of the superintendent, the Board "is authorized to establish the eligibility requirements and prescribe methods of appointment and promotion "for its employees, as well as "to classify and assign "such employees to salary classes.

Generally, the first two years of service are probationary except that any person having more

than three years' satisfactory experience outside the District may be assigned permanent status after a one-year probationary period.

Teaching certificates shall be valid for five years and may be renewed upon application and upon the completion of six hours credit during the preceding five-year period.

I.School Janitors; Statute §31-1105

School Officers

Regulations

CH. IX, §11.1

"(a) School officer positions . . . shall be filled on the basis of qualifications and fitness for the particular position and shall be filled according to the competitive procedures....(b) In the event that candidates being considered for a school officer position possess comparable qualifications and display comparable fitness and capacity for the position being filled, priority shall be placed upon promotion from (1) within the D.C. Public Schools, (2) residents of the District of Columbia, and (3) persons who have successfully completed the Administrative Internship Program, respectively. (c) Members of the community shall be encouraged to identify and recommend persons whom they consider qualified for school officer positions and to participate in the selection process...."

Ch. IX, §11.6

Appointments to school officer vacancies shall be made through a selection panel in which organized school

communities shall be entitled to participate.

Each panel shall consist of one member of the board of education, one school officer serving in the same type of position, the regional superintendent or designee, the director of personnel or designee and two community representatives.

Each selection panel shall conduct an oral interview of each candidate. The candidate with the highest rating shall be recommended to the board of education for appointment.

CH. IX, §11.7

APPOINTMENT

"(a) The appointment of all school officers shall be made by the Board of Education upon the written recommendation of the Superintendent of Schools. (b) The Board of Education may accept or reject the recommendation of the Superintendent but may not substitute its own recommendation for that of the Superintendent. (c) The Superintendent of Schools shall receive the report of the selection panel from the Director of Personnel. The Superintendent may accept or reject the candidate selected by the panel. (d) In the event that the candidate selected by the panel is rejected by the Superintendent, the Superintendent shall direct the Director of Personnel either to re-open the position for application and establish a new selection panel <u>or</u> submit the name of the next-ranked candidate for consideration. If none of the top three candidates, as ranked by the selection panel, is accepted for recommendation to the Board by the Superintendent the position shall be re-opened and a new selection panel established. (e) The final report of the selection panel shall be forwarded to the Board of Education with the recommendation of the Superintendent for the information of the Board. (f) The appointment of school officers by the Board of Education upon the Superintendent's recommendation shall be by a majority vote."

"Minimum qualifications and eligibility requirements for school officer positions shall be established by the Board of Education. . . . (a) In order to qualify for appointment to a school officer position, a candidate must possess the following qualifications: (1) A Master's Degree from an accredited institution. (2) A minimum of five . . . years experience in the field of education or a field closely related to the activities of the position for which the candidate is being considered, or a combination thereof. (b) In addition to the eligibility requirements set forth in paragraph (a) above, candidates for specific school officer positions shall be required to possess such additional qualifications as the Board of Education shall determine and set forth in this Section.

(a) Where an examination by the Board of Examiners is required by law as a pre-requisite for eligibility for a school officer position, such examination shall consist of the following: (1) An examination of the academic credentials presented by the candidate to assure that the candidate meets the minimum requirements set forth in this Section. (2) An examination on other professional licenses or certifications as may be prescribed by the Board of Education or the laws of the District of Columbia. (b) The determination of all other qualifications as set forth in this Section shall be made by the Director of Personnel.

(a) Candidates for the position of principal must meet the requirements for eligibility for school officer positions. . . .

(b) A candidate for the position of Principal must have successfully completed four . . . years of work in a supervisory capacity in the field of education or a related field <u>or</u> two . . . years as an Assistant Principal or Acting Principal.

(c) A candidate for the position of Principal shall have successfully completed a minimum of six . . . semester hours in educational supervision or administration at an accredited institution. For the purposes of this Section 'successful completion' shall be evidenced by the receipt of a

grade of "C" or better for undergraduate coursework completed or "B" or better for graduate coursework taken for the hours required by this subsection.

(a) Candidates for the position of Assistant Principal must meet the requirements for eligibility for school officer. . . .

(b) Candidates for Assistant Principal must have successfully completed . . . a minimum of six . . . semester hours in educational supervision or administration at an accredited institution."

School Personnel

Statutes

§31-114

APPOINTMENT

No teacher, principal, or director "shall be appointed until he[she] shall have passed an examination prescribed by the board of examiners." No person shall teach in the high schools without a degree from an accredited college "or a graduation certificate from an accredited normal school, such normal school graduate to have had at least five years of experience as a teacher in a high school . . . . This provision for examination shall not apply to teachers coming from the teachers' college, or teachers being advanced from the different classes in the grade schools."

Social Worker

Regulations

CH. XVII, §9

LICENSE XI - PUPIL PERSONNEL SERVICES TSA-15

"School social workers, attendance officers, and psychometrists: Class 1 - School social workers

(1) A Master's degree in social work from an accredited graduate school of social work

(2) Field work placement experience in a setting dealing with the problems of school-age children and their families

OR

A minimum of one...year of paid professional experience in a setting dealing with the problems of school-age children and their families.

Class 2 - Attendance officers

(1) A Bachelor's degree from an accredited institution with a major in education, social work, or the social or behavioral sciences.

(2) Satisfactory completion of a sequence of courses in preparation for work as an attendance officer which may be taken in addition to or part of the degree requirements.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED:

A minimum of fifteen...semester credits representing preparation in each of the following areas: (a) Psychology-psychology of adolescence, child psychology, developmental or social psychology, mental hygiene, or dynamics of human behavior (b) Education - educational psychology, urban education, school law, or curriculum studies (c) Sociology and Social Problems - social problems, delinquency, poverty, interracial and intercultural problems, problems of minorities, Black studies, cultural anthropology, or family or urban sociology (d) Child Welfare - exceptional children, legislation in care and protection of dependent children, problems of neglect, child abuse, handicapped children or delinquent children and parents.

The remaining nine...semester credits are to be taken in the following areas: (e) Social work - principles and practices of social case work, methods of interviewing, group work, or community organization (f) Guidance and counseling - measurements and evaluation, pupil assessment, techniques of interviewing, case study techniques, principles of guidance, or techniques of counseling

(3) Student teaching, internship, practicum, or field experience taken as part of the professional training program;

OR

A minimum of one...year or satisfactory professional experience in the major;

OR

A minimum of two...years of satisfactory para-professional experience as an attendance aide.

Class 3 - Psychometrists

(1) A Bachelor's degree with a major in psychology, sociology, or education from an accredited institution.

(2) Satisfactory completion of a sequence of courses in education and psychology which may be taken as a part of or in addition to the degree requirements.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED:

A minimum of twelve...semester credits from at least four...of the following: (a) Tests and measurements OR the testing and assessment of pupil learning characteristics (b) Psychological or individual testing (c) Educational psychology (d) Educational or psychological statistics (e) Educational sociology

(3) A minimum of six...graduate semester credits in individual or group assessment

(4) A minimum of three...graduate semester credits in any of the following: Advanced educational or psychological statistics - Introduction to research [not including thesis writing] - Urban sociology

(5) A required course in Introduction to Urban Education on the elementary or secondary level or both

(6) A minimum of one...year of satisfactory teaching experience (K-12),

OR

A minimum of one...year of satisfactory professional experience in an area that incorporates pupil assessment or research.

* * *

(7) A Master's degree in psychology from an accredited graduate school may be substituted for the requirements of sections (1) - (4), above."

SPEECH CORRECTIONISTS

REGULATIONS

CH. XVII, §9

LICENSE XIII - PUPIL PERSONNEL SERVICES TSA-15

"Speech Correctionists

(1) A Bachelor's degree from an accredited institution;

(2) Satisfactory completion of a sequence of courses in preparation for being a speech correctionist which may be part of or in addition to the degree requirements. A minimum of twenty-four...semester credits in speech correction is required.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED:

(a) Educational psychology (b) Sociology of urban youth (c) Introduction to teaching in urban elementary schools or urban secondary schools (d) Methods of speech correction

(3) Satisfactory completion of a minimum of two hundred (200) clock-hours of supervised speech practice.

OR

A minimum of one...year satisfactory experience as a speech correctionist."

TEACHERS

REGULATIONS

CH. XVII, §5

"An applicant who has been denied renewal of his[her] teaching certificate may request a review of the decision by the Board of Examiners.

RENEWAL

A request for review of denial of renewal of a teaching certificate shall be in writing to the Chief Examiner and must be filed not later than thirty...days from the date of receipt of notice of denial of renewal.

Review before the Board of Examiners shall include an opportunity for the employee or the employee's representative to present arguments to the Board orally or in writing.

A review of denial of renewal shall not extend the date of expiration of the certificate . . . . However, an employee who is found to have been wrongly denied renewal by the Board of Examiners shall be retroactively restored to employment.

The decision of the Board of Examiners shall be made within thirty...days of the filing of the request for review, and shall be the final administrative action on the matter, except where provided otherwise by law or collective bargaining agreement."

CH. XVII, §9

LICENSE I - EARLY CHILDHOOD (Pre-K & K) TSA-15

"Teachers of pre-kindergarten and kindergarten:

(1) A Bachelor's degree from an accredited institution;

(2) Satisfactory completion of a sequence of courses in preparation for teaching on the early childhood level which may be part of or in addition to the degree requirements. A minimum of eighteen . . . semester credits in early childhood education is required.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED:

(a) Child development or child psychology (b) Curriculum for early childhood education OR nursery school curriculum procedures (including literature, story telling, music, art, mathematics, and science) (c) Methods and materials for early childhood education OR methods of teaching in nursery school.

Additional semester credits may include courses from any or all of the following areas: (a) Play activities and materials for nursery and kindergarten children; (b) Teacher, child, family, and community interaction (c) Philosophy of education of the young child (d) The role of the early childhood teacher.

(3) Observation and student teaching on the early childhood level.

OR

A minimum of one . . . year of satisfactory teaching experience under adequate supervision at the early childhood level."

LICENSE II - ELEMENTARY SCHOOL TEACHERS (Grades 1-6) TSA-15

"Class 1 - Regular classroom teachers

(1) A Bachelor's degree from an accredited institution;

(s) Satisfactory completion of a sequence of courses in preparation for teaching on the elementary level which may be part of or in addition to the degree requirements.

The following academic semester credits are REQUIRED: English (composition & literature) 12; Geography 3; History 6; Mathematics 9; Science (biological & physical) 6; Music 2; Art 2; Health & Nutrition 3; Physical Education 3.

(3) Observation and student teaching on the elementary level

OR

A minimum of one...year satisfactory teaching experience on the elementary level.

Class 2 - Teachers of art, music, physical education and foreign languages

(1) A Bachelor's degree from an accredited institution with not less than thirty...semester credits in the subject area to be taught; (2) Satisfactory completion of a sequence of courses in preparation for teaching the subject area on the elementary level, as part of or in addition to the degree requirements. The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED: (a) Educational psychology (b) Introduction to teaching in urban elementary

education (c) Materials and methods of teaching the subject area in elementary school (d) Sociology of urban youth (e) Teaching of reading

(3) Observation and student teaching on the elementary level

OR

A minimum of one year of satisfactory experience in teaching the subject area on the elementary level.

Class 3 - Science Resource teachers (K-6)

(1) A Bachelor's degree from an accredited institution with not less than eighteen (18) semester credits in science;

(2) A minimum of two . . . years of satisfactory teaching experience on the elementary school level.

(3) Satisfactory completion of a sequence of courses in preparation for teaching science on the elementary level, as part of or in addition to the degree requirements.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED: (a) Educational psychology (b) Introduction to teaching in urban elementary education (c) Sociology of urban youth (d) Teaching of reading (e) Materials and methods of teaching science in the elementary school.

Class 4 - Mathematics Resource teachers

(1) A Bachelor's degree from an accredited institution with not less than eighteen . . . semester credits in mathematics as part of or in addition to the degree requirements;

(2) Satisfactory completion of six . . . semester credits as part of or in addition to the required eighteen... semester credits in mathematics, for experience in one or more mathematics institutes or workshops for teachers of four... or more weeks in duration.

(3) A minimum of three years of satisfactory teaching experience, at least two of which are at the elementary level.

(4) Satisfactory completion of a sequence of courses in preparation for teaching on the elementary level which may be taken as a part of or in addition to the degree requirements.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED: (a) Educational psychology (b) Introduction to teaching in urban elementary education (c) Teaching of reading (d) Sociology of urban youth (e) Materials and methods of teaching mathematics in the elementary school

(5) Observation and student teaching on the elementary level

OR

A minimum of one (1) year of satisfactory experience in teaching mathematics on the elementary level."

CH. XVII §9

LICENSE III - SECONDARY SCHOOL TEACHERS (Grades 7-12)

"Teachers of academic, business and scientific subjects, art, music, industrial arts, home economics, physical education, and foreign languages:

(1) A Bachelor's degree from an accredited institution;

(2) Satisfactory completion of a sequence of courses in preparation for teaching at the secondary level which may be part of or in addition to the degree requirements.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED: (a) Educational psychology (b) Introduction to urban secondary education (c) Materials and methods of teaching (the major) in the secondary school (d) Teaching of reading (e) Sociology of urban youth (f) Observation and student teaching at the secondary level, OR one...year of satisfactory teaching experience at the secondary level.

(3) Thirty ...semester credits in the subject area to be taught, representing broad and adequate preparation, which may be taken as part of or in addition to the degree requirements.

The following courses, or similar courses satisfactory to the Chief Examiner, shall be REQUIRED in each of the specific subject areas:

Class 1 - Teachers of art

Drawing and painting, Painting II: water colors; oil and acrylics; Design I, II, and III; Workshop methods and techniques; Graphic Arts I, II, and III; Sculpture I and II; Ceramics I and II; Mural painting; Creative crafts; weaving, textile design, batik, tie-dyeing, stichery and jewelry design; Art history: Ancient to modern; Lettering, display, and poster design; African/Afro-American art history; Film-making.

Class 2A - Teachers of Business Education (Grades 7-9)

Accounting, records management or business finance; Business laws; Business mathematics; Introduction to business or business organization and management; Economics; Typewriting. . . .

Class 2B - Teachers of Business Education(Grades 10-12) Accounting and Data Processing

Intermediate Accounting; Business law; Business organization and management OR introduction to business; Automated data processing, computer science, or computer programming; Economics. . . .

Class 2C - Teachers of Business Education (Grades 10-12) Distributive Education: Merchandising, Marketing and Management

Not less than twelve...semester credits from any of the following courses: Marketing; Merchandising; Management; Retailing; Salesmanship; Advertising.

Not less than eighteen...semester credits from any of the following: Accounting; Business English; Business law; Business research; Business mathematics; Business statistics; Economic geography; Economics; Insurance; Money and banking; Real estate Records management; Typewriting.

In addition to the above requirements, one...of the following courses is REQUIRED: Organization and coordination of distributive education programs, OR

Cooperative and project methods of teaching distributive education

Class 2D - Teachers of Business Education (Grades 10-12) Secretarial Studies

Advanced Typewriting; Advanced Gregg shorthand; Office practice, office procedures, and office machines; Busi-

ness communications and business correspondence; Business English; Business organization and management OR Introduction to business....

Class 2E - Teachers of Business Education(Grades 10-12)

Typewriting, Office Machines, & Office Practices

Advanced typewriting; Office practice, office procedures or office machines; Business communications and business correspondence; Business organization and management OR Introduction to business; Business law; Economics. . . .

Class 3 - Teachers of English

Not less than fifteen...semester credits in literature taken from each of the following areas: Survey courses in American, English, Black, or Contemporary literature; Courses in specific genres of literature; Courses in specific periods of literature OR course about specific authors.

Not less than twelve (12) semester credits in the use of language taken from any TWO or more of the following courses: Composition; Creative writing; Speech and drama; Journalism, media or research; Nature and structure of language.

Class 4A - Teachers of Foreign Language: French

Advanced conversation; Advanced grammar and composition. A course in French literature (17th, 18th, 19th, or 20th century). . . .

Aural-oral competency in French as determined by an interview conducted in the language by the Foreign Languages Department.

Class 4B - Teachers of Foreign Language: German

Advanced conversation; Advanced grammar and composition; German classicism OR German romanticism; German civilization OR modern German civilization; Not less than ONE of the following courses: German poetry; German drama; German novel.

Aural-oral competency in German as determined by an interview conducted in the language by the Foreign Languages Department.

Class 4C - Teachers of Foreign Language: Latin

Advanced grammar and syntax; Latin prose and composition; Roman comedy OR Roman satire. Not less than ONE of the following courses: Tacitus; Livy; Horace. Not less than ONE of the

following courses: Cicero; Virgil; Latin poetry.

Class 4D - Teachers of Foreign Language: Spanish

Advanced grammar and composition; Advanced conversation Literature of the Golden Age; Not less than TWO of the following courses: Latin American literature; 19th Century Spanish literature; Modern Spanish literature; Black Themes in Spanish literature; Aural-oral competency in Spanish as determined by an interview conducted in the language by the Foreign Languages Department.

Class 5 - Teachers of Health & Physical Education

Foundations of health & physical education: Introduction, history, principles and philosophy of Health and physical education.

Physiology and anatomy; Nutrition; Physical education skills: theory and practice of team and individual activities; Aquatics: swimming and water safety; First Aid; Safety education; Evaluation: techniques and/or tests and measurements; Foundations of dance and/or rhythmic movement education; Health education; drug education and sex education; Physical therapy and care of injuries; Theory of coaching and officiating; Organization and administration of physical education.

Class 6 - Teachers of Home Economics: Experimental Foods; Advanced food preparation techniques; Advanced nutrition; Human development, Home management; Equipment; Consumer economics; Housing and interior design; Advanced textiles; Advanced clothing instruction.

Class 7 - Teachers of Industrial Arts

History of technology, Course construction, Shop organization; Principles and practices of industry; Materials and processes for manufacturing, construction, woods, metals, plastics; Power electricity/electronics; Graphic arts: drafting and graphics.

Class 8 - Teacher of Mathematics

Three credits in each: differential equations; Advanced calculus; Three credits in any: Modern algebra; Abstract algebra; Polynomial algebra; Boolean algebra; Linear algebra; Theory of numbers. Three credits in any one: Modern gemoetry Non-Euclidean geometry; Projective geometry; Algebraic geometry Topology; Foundations of geometry. Three credits in one: Statistics

Probability and Statistics

Class 9A - Teachers of Music (Grades 7-9) General or Choral Music; thirty semester credits in general or choral music.

Class 9B - Teachers of Music (Grades 10-12). General or Choral Music. Theory or comprehensive musicianship; keyboard harmony, counterpoint, form and analysis, composition which includes scoring or arranging for instrumental and choral music, advanced ear training, and sight-singing; history of music, including ethnic studies; Advanced conducting: choral literature and choral techniques for secondary schools, score reading or choral compositions with orchestral accompaniment; Direction for singers: Italian, German or French Instrumental music pedagogy or Instrumental music survey.

Class 9C-Teachers of Music (Grades 7-9) Instrumental music

Thirty semester credits in instrumental music

Class 9D-Teachers of Music (Grades 10-12) Instrumental Music

Theory of comprehensive musicianship: keyboard harmony, conterpoint, form and analysis, composition which includes scoring or arranging for instrumental music on the secondary level, advanced ear training. History of music, including ethnic studies

Instrumental conducting for secondary schools, including longer works such as symphonies, oratorios, operas, or other major works; Composition and arranging.

Class 10A Teachers of Science (Grades 7-9) General Science Thirty (30) semester credits in Science, including courses in biology, chemistry and physics.

Class 10B - Teachers of Science (Grades 10-12) Biology

Basic biological techniques; Cell physiology; Cell chemistry or biochemistry; Comparative anatomy; Ecology; Genetics, Microbiology; Vertebrate physiology;

Class 10C- Teachers of Science (Grades 10-12) Chemistry; Advanced inorganic chemistry; Advanced organic chemistry; Biochemistry; Physical Chemistry; Quantitative

analysis; Qualitative analysis;

Class 10D - Teachers of Science

Atomic physics; Celestial mechanics; Electromagnetic theory; Electronics; Optics; Quantum mechanics (elementary) Relativity; Thermodynamics;

Class 11 - Teachers of Social Studies

Eighteen . . . semester credits in history including Six...semester credits in American History Three...semester credits in American History Three...semester credits in American Government Six...semester credits in geography; Three... semester credits in any ONE of the following courses: economics, sociology, law, international relations, philosophy, or other social sciences."

CH. XVII, §9

LICENSE IV - SPECIAL EDUCATION/CATEGORICAL (Grades K-12) TSA-15

"Teachers of categorical special education:

(1) A Bachelor's degree in education with a minor in special education from an accredited institution;

OR

A Bachelor's degree in special education from an accredited institution.

(2) Satisfactory completion of a sequence of courses taken in preparation for teaching in the area of specialization. The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED: (a) Introduction to urban education (elementary/secondary) (b) Introduction to special education OR survey of exceptional children (c) Sociology of urban youth; (d) Methods and materials of teaching exceptional children (e) Career education for the handicapped (f) Educational diagnosis and evaluation; (g) Behavior management in the classroom; (h) Corrective and remedial techniques for teaching reading; (i) Observation and student teaching in the area of specialization OR experience (see #4 below)

(3) A minimum of eighteen...semester credits in the area of specialization. The following are areas of specialization in which coursework may be taken: Deaf/Blind; Mentally retarded; Orthopedically impaired/Other health impaired; Multiply handicapped; Blind/visually impaired; Deaf/hearing impaired;

"Learning disabled; Early childhood special education; Emotionally disturbed.

(4) A minimum of one...year of satisfactory teaching experience in the area of specialization may be substituted for the observation and student teaching requirement."

CH XVII, §9

LICENSE V - SPECIAL EDUCATION/NON-CATEGORICAL (Grades K-12) TSA-15

"Teachers of non-categorical special education:

(1) A Bachelor's degree in education from an accredited institution.

(2) Satisfactory completion of a sequence of courses in preparation for the teaching of non-categorical special education which may be a part of or in addition to the degree requirements.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED: (a) Introduction to special education OR survey of exceptional children (b) Introduction to urban education (elementary/secondary) (c) Sociology of urban youth; (d) Diagnostic and prescriptive teaching; (e) Educational diagnosis and evaluation; (f) Techniques of teaching the learning disabled; (g) Methods and materials of teaching exceptional children; (h) Techniques and materials for teaching the behaviorally problem student; (i) Career education for the handicapped; (j) Individualized instruction; (k) Corrective and remedial techniques for teaching reading; (l) Corrective and remedial techniques for teaching mathematics; (m) Psychology of exceptional children.

(3) A course in observation and student teaching

OR

A minimum of one...year of satisfactory teaching experience (K-12) may be substituted for the observation and student teaching requirement."

CH. XVII, §9

LICENSE VI - SECONDARY SCHOOL TEACHERS (Grades 7-12) TSA-15

"Teachers of Driver Education and safety; Teachers of Military Science and Tactics:

Class 1 - Teachers of Driver Education § Safety

(1) A Bachelor's degree from an accredited institution.

(2) Satisfactory completion of a sequence of courses in preparation for teaching driver education and safety which may be taken as a part of or in addition to the degree requirements.

The following courses, or similar courses satisfactory to the Chief Examiner are REQUIRED:

(a) Educational psychology (b) Introduction to urban secondary education (c) Sociology of urban youth (d) Teaching of reading (e) Materials and methods of teaching driver education, including use of simulation and automated response systems in driver education (f) A minimum of eighteen . . . semester credits in driver education to include coursework in each of the following: Basic driver education; Advanced driver education; First Aid for instructors; Principles of safety education; Other courses in driver education: and safety acceptable to the Chief Examiner

OR

In lieu of the requirements in sections (1) and a minimum of ninety...semester credits from an accredited institution which shall include all of the coursework required by section 2(a)-(f), above, and a minimum of two-thousand ...clock hours of satisfactory teaching experience in a licensed driver training school.

(3) Student teaching in a senior or vocational high school

OR

A minimum of one...year of satisfactory full-time teaching experience at the secondary level

OR

A minimum of ninety hours of satisfactory experience in the teaching of theory in driver education in an accredited school or in a state-approved school of driver training.

(4) A current, valid motor vehicle operator's license issued by the District of Columbia Department of Motor Vehicles.

(5) A current, valid motor vehicle instructor's license issued by the District of Columbia Department of Motor Vehicles.

Class 2A - Teachers of Military Science and Tactics; National Defense Cadet Corps; Junior Reserve Officers' Training Corps; Senior Army Instructors; Navy Science Instructors; Navy Science Instructors; Senior Marine Instructors; Aerospace Education Instructors;

(1) A Bachelor's degree from an accredited institution;

(2) A minimum of twenty...years of active military service;

(3) Retirement as a commissioned or non-commissioned officer OR member of the Fleet Reserve or Fleet Marine Corps Reserve, provided that retirement was effective not more than five...years prior to the date of application or not more than four...years in the case of Air Force applicants.

(4) All candidates must satisfactorily meet all of the eligibility standards established by the appropriate branch of service.

(5) All candidates must receive the approval of the Secretary of the branch of service in which they have applied to teach.

Class 2B - Army Instructors, Assistant Naval Science Instructors, Marine Instructors, and Assistant Aerospace Education Instructors

(1) A high school diploma or certificate;

(2) A minimum of twenty . . . years of active military service.

(3) Retirement as a commissioned or non-commissioned officer OR member of the Fleet Reserve or Fleet Marine Corps Reserve, provided that retirement was effective not more than five years prior to the date of application or not more than four years in the case of Air Force applicants.

(4) Attainment of at least Grade E-6 upon retirement or Grade E-7 in the case of Navy and Marine Corps applicants.

(5) All candidates must satisfactorily meet all of the eligibility standards established by the appropriate branch of service.

(6) All candidates must receive the approval of the Secretary of the branch of service in which they have applied to teach.

LICENSE XVI - TEACHERS OF ENGLISH AS A SECOND LANGUAGE (K-Adult) TSA-15

"Teachers of English as a second language:

(1) Competency in the English language as determined by an interview with the Department of English or the Division of Bilingual Education

(2) A minimum of six...semester credits of language study in a foreign language OR demonstrated competency in the language at that level

AND

A proficiency examination by the Division of Bilingual Education or the appropriate Department of Foreign Language in the language of specialty

(3) A Bachelor's degree from an accredited institution

In addition to the above requirements, the following additional requirements must be met for each of the particular classes of license:

Class 1 - English as a second language (K-6)

(a) Satisfactory completion of a sequence of courses in preparation for teaching English as a second language at the K-6 level.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED:

A minimum of fifteen...semester credits in applied linguistics, including each of the following: - Introduction to language/linguistics; English phonetics and phonemics; English morphology and syntax; Methods of teaching English as a second language

AND

(a) The same required courses in the areas of applied linguistics and civilization and culture are also required for Class 3. The requirement for a minimum of fifteen... semester credits in education for the Class 3 license shall include adult education courses, including each of the following

Educational psychology - At least six...hours of adult education, including the adult learner; Teaching of reading to adults?

(b) The same requirements for student teaching or experience are required for the Class 3 license as the Class 1 and Class 2 licenses, except that such student teaching or experience must be at the high school or adult level."

CH. XVII, §9

LICENSE XVII - BILINGUAL EDUCATION(K-Adult) TSA-15

"Teachers of Bilingual Education:

(1) Competency in the English language as determined by an interview with the Department of English or the Division of Bilingual Education

(2) Competency in a foreign language as determined by an interview with the appropriate Department of Foreign Language or the Division of Bilingual Education AND a proficiency examination in the foreign language

(3) A Bachelor's degree from an accredited institution

In addition to the above requirements, the following additional requirements must be met for each of the particular classes of license:

Class 1 -Teachers of Bilingual Education (K-6)

(a) Satisfactory completion of a sequence of courses in preparation for teaching Bilingual Education

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED: - Educational psychology -Introduction to urban elementary education -Sociology of urban youth - Corrective and remedial techniques of reading - Introduction to languages and linguistics - Materials and methods of teaching the following subjects in the elementary school: Reading, language arts, mathematics, social studies, foreign language, science, and related subjects (at least two of the following: art, music, physical education or childrens' literature)

-One of the following: Introduction to cross-cultural communication; language in culture; nature of culture shock; multiculturalism or pluralism or introduction to cultural anthropology.

-Principles of bilingual education OR introduction to bilingual education

(b) Observation and student teaching at the elementary level

OR

A minimum of one...year of teaching experience at the elementary level.

Class 2 - Teachers of Bilingual Education (Secondary Level)

(a) A minimum of thirty...semester hours in the major representing broad, adequate background in the subject to be taught AND preparation in education including the following courses, or similar courses satisfactory to the Chief Examiner, which are REQUIRED:

-Educational psychology - Introduction to urban secondary education - Sociology of urban youth - Methods of teaching the major in secondary school - Teaching of reading - Principles of bilingual education OR introduction to bilingual education - One of the following courses: Introduction to cross-cultural communication; language in culture; nature of culture shock; multiculturalism or pluralism; or introduction to cultural anthropology.

(b) Observation and student teaching in a regular or bilingual secondary classroom

OR

A minimum of one...year of teaching experience in a regular or bilingual secondary classroom.

Class 3 - Counselors in Bilingual Education(K-12)

(a) A Master's degree in guidance from an accredited graduate school AND one...year of satisfactory experience in teaching, counseling, pupil personnel work, or appropriate business or industrial experience or a practicum in child guidance;

OR

A Master's degree from an accredited graduate school supported by a minimum of thirty...semester credits in preparation for counseling which may be a part of or in addition to the degree requirements. The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED:

-Principles of guidance - Techniques of guidance - Vocational information - Group counseling - Mental Health - Human Relations - Pupil Assessment - Organization and administration of guidance services - Rehabilitation counseling (only required for counselors in rehabilitation centers)

ADDITIONAL REQUIRED COURSEWORK:

Not less than three...semester credits in any of the following: -Principles and problems of elementary school guidance - Case study techniques - Counseling the disadvantaged - Sociology of urban youth - Current issues and trends in guidance

Not less than three...semester credits in any of the

following: - Child psychology - Adolescent psychology - Developmental psychology - Special psychology - Abnormal psychology -Urban youth - Group dynamics - School and community - Sociology

(b) A minimum of one...year of satisfactory experience in teaching, counseling, pupil personnel work, OR appropriate business or industrial experience OR a practicum in a child guidance setting."

CH. XVII, §9

LICENSE XVIII - ADULT EDUCATION TSA-15

"Regular classroom teachers in adult education:

Class 1 - Teachers of adult basic education

(1) A Bachelor's degree from an accredited institution

(2) Satisfactory completion of a sequence of courses in preparation for teaching adult basic education.

The following courses, or similar courses satisfactory to the Chief Examiner, are required: (a) Psychology of the adult learner (b) Foundations of adult education (c) Methods and materials of adult education (d) Corrective and prescriptive techniques of teaching (e) Teaching related to adults (f) Methods of teaching mathematics or remedial mathematics (g) Speech and language development for teachers (h) Development of oral communication skills

Academic preparation must include the following:

(i) At least 12 semester credits in both English and mathematics (j) At least 6 semester credits in both U.S. History and Science (both biological and physical) (k) At least 3 semester credits in both geography and U.S. government (l) At least 2 semester credits in both art and music.

(3) Observation and student teaching on the adult or secondary level

OR

A minimum of one...year of satisfactory teaching experience at the adult level

Class 2 - Teachers of academic subjects in adult general education programs

(1) A Bachelor's degree from an accredited institution

(2) Satisfactory completion of at least thirty...semester

credits in the major to be taught which may be taken as part of or in addition to the degree requirements

(3) Satisfactory completion of a sequence of courses in preparation for teaching which shall include the following courses, or similar courses satisfactory to the Chief Examiner, as REQUIRED: (a) Psychology of the adult learner (b) Foundations of adult education (c) Methods and materials of teaching the major (d) Corrective and prescriptive techniques of teaching (e) Teaching of reading to adults or in the subject area

(4) The semester credits in the major or additional credits shall satisfy the requirements for the existing academic secondary license in the subject to be taught

(5) Observation and student teaching at the adult or secondary level (high school)

OR

A minimum of one...year of satisfactory experience teaching at the adult level

Class 3 - Teachers of technical and industrial subjects in adult education programs.

(1) A Bachelor's degree from an accredited institution

OR

Successful wage-earning experience in the grade to be taught which may be substituted for post-secondary work on a year-for-year basis up to four...years

(2) Satisfactory completion of a sequence of courses in preparation for teaching the trade to adults.

The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED: (a) Principles of vocational education (b) Shop organization and management (c) Psychology of the adult learner (d) Foundations of adult education (e) Methods and materials in adult education (f) Corrective and prescriptive techniques of teaching (g) Teaching reading to adults (h) Teaching mathematics to adults or remedial mathematics

(3) A minimum of three...years of satisfactory wage-earning experience in the trade. Each full year must include twelve...months of such work experience.

(4) Observation and student teaching on the adult or secondary (high school) level

OR

A minimum of one ... year of satisfactory teaching experience on the adult level.

Class 4 - Teachers of related adult education subjects.

(1) A Bachelor's degree from an accredited institution

OR

Up to two...years of post-secondary work may be replaced by satisfactory wage-earning experience in the trade(s) with the remainder of the professional training acquired in post-secondary education

(2) Satisfactory completion of a sequence of courses in preparation for teaching adults. The following courses, or similar courses satisfactory to the Chief Examiner, are REQUIRED: (a) Principles of vocational education (b) Shop organization and management (c) Psychology of the adult learner (d) Foundations of adult education (e) Methods and materials in adult education (f) Corrective and prescriptive techniques of teaching (g) Teaching reading to adults or remedial reading (h) Teaching mathematics to adults or remedial mathematics

(3) A minimum of three...years of satisfactory wage-earning experience in the area of certification; however, one... year of technical training beyond high school may be substituted for one...year of experience.

(4) Observation and student teaching of adults or high school

OR

A minimum of one...year of satisfactory teaching experience at the adult level."

Ch XVII, §1.2

Teacher certificates shall remain valid for a period of five years. Failure to maintain a valid certificate by renewal shall result in automatic termination.

CH.XVII, § 4

"Renewal of a teaching certificate shall be granted upon the application of the employee to the Board of Examiners; such application to include evidence of the satisfactory completion [grade of 'C' or better] of at least six

... semester hours of appropriate credit during the preceeding five-year period.

The six...semester hours of credit required for renewal of the teaching certificate pursuant to this section shall be in addition to any other coursework or credits required of the employee in order to obtain certification pursuant to the requirements of a teaching license, to achieve tenure, to satisfy the requirements of a provisional certification, or to meet the requirements of any other law or Rule of the Board of Education."

CH. XVII, §9

License VII Career Development (Senior High and Skill Centers TSA-15)

"Teachers of technical and industrial occupations and related subjects:

Class 1 - Teachers of technical and industrial occupations.

(1) A Bachelor's degree in Industrial Arts or Industrial Education from an accredited institution AND a minimum of three . . . years of occupational experience at the journeyman level in the trade to be taught;

OR

An Associate of Arts degree (two-year degree) from an accredited institution in the teaching area AND a minimum of five ...years of occupational experience at the journeyman level in the trade to be taught;

OR

A high school diploma or GED certificate AND a minimum of seven...years of occupational experience in the trade to be taught. A minimum of three...years of such experience must be at the journeyman level, and a maximum of four... years may be at the apprentice level. (a) Experience in the United States Armed Forces above the rank of Grade E-1 in the trade to be taught may be credited for the occupational experience required in this section on a year for year basis. The type and length of such experience is subject to verification by the Chief Examiner. (b) In those trades or occupations where formal apprenticeship and journeyman procedures do not apply,

job descriptions will be required to establish an equivalent level of experience.

(2) In the industrial and trade occupations where District of Columbia licensing examinations are given, the candidate must have a current, valid license. In those occupations where such licensing exams do not exist, a trade competency examination is required. Private Special Education Facilities

CROSS REFERENCE

II.A.2.: Regulation; Chap. IV, §457

Public Schools

Regulations

Ch IV, §401

"Attendance zones shall be established by the Board of Education and all modifications. . .shall be approved by the Board of Education . . . .

"The establishment and maintenance of optional attendance zones for the purpose of encouraging or maintaining racial segregation. . .is forbidden."

CH. VII, §700

"The Public Schools of the District of Columbia shall provide a viable and comprehensive system of free publicly-supported education for students from pre-kindergarten through high school.

The educational programs of the Public Schools shall be designed and implemented to provide an equal educational opportunity for all students to attain the knowledge, competencies, and skills which will enable each student to function as a useful citizen.

In order to provide an equal educational opportunity to all students, the Board of Education adopts the following specific goals and objectives:

(a) The promotion of a standard of excellence in achievement and endeavor through the establishment of an educational program designed to promote the attainment of knowledge, competencies, and skills; (b) The promotion of a standard of excellence in achievement and endeavor through an instructional staff which meets high standards of preparation and performance; (c) The establishment and implementation of a system for the continuous assessment and evaluation of the needs and achievements of students, teachers administrators, individual schools and programs, and the educational support and management systems and personnel of the Public Schools; (d) The equitable distribution of available resources and services to all students; (e) The attainment of full public support for the school system and its educational programs, including the provision of sufficient resources for the attainment of program goals and objectives; (f) The promotion of greater public awareness of the goals, objectives, programs, services, policies, and operations of the Public Schools, including awareness of the results of continuous assessment and evaluation of the school system;

(g) The promotion of greater public involvement in the attainment of the goals and objectives of the Public Schools.

The Board of Education is directly accountable to the citizens of the District of Columbia for the provision of public elementary and secondary education and the operation of the Public Schools.

It is the responsibility of the citizens of the District of Columbia to provide the resources necessary for the attainment of the goals and objectives of the Public Schools. It is the responsibility of the Board of Education to utilize those resources efficiently in a manner which allows for the best possible system of public education for the best possible system of public education for all students."

CH. VII, §701

"The Superintendent of Schools shall establish and implement a system for the allocation of resources throughout the school system which ensures the equitable distribution of available resources and services among all students.

The system for allocation of resources shall include provision for the following: (a) A curriculum designed to promote the attainment of basic and essential knowledge, competencies, and skills which will enable each student to function as a useful citizen. (b) Equal access of all students to the basic curricular offerings which constitute the requirements for program advancement and graduation. (c) Equitable allocation of resources for supplemental curricular offerings and alternative educational programs beyond the basic and essential curriculum. Local school decisions on supplemental or alternative programs and services shall be based upon the informed input of students, parents, and educators. (d) Equal access of all students who meet individual program eligibility requirements to specialized and alternative educational programs, regardless of the availability of such programs at any particular school; (e) A program for the assignment of instructional staff which is designed to balance experience, training, and supplemental academic preparation. (f) Equalization of personnel resources throughout the school system in each major division

of the educational program on the basis of students enrolled per instructional staff member. (g) Equalization of non-personnel resources throughout the school system in each major division of the educational program on the basis of annual expenditure per student for textbooks, library resources, and other instructional materials and supplies. (h) A system for monitoring and evaluating compliance with the provisions of this section, and the publication of compliance data and information as part of a program of public accountability. . . .

Notwithstanding the specific requirements of this section, when the Superintendent of Schools determines that conditions exist in a particular school which require the temporary assignment of particular personnel, such temporary assignment may be made by the Superintendent without regard to the limitations imposed by this section, provided that all of the following requirements are met: (a) The Superintendent of Schools shall inform the Board of Education in writing of the proposed assignment(s), the particular conditions justifying such assignment(s), the manner in which the assignment(s) will be utilized to correct the conditions at the particular school, and the termination date of such assignment(s). (b) Such assignment(s) by the Superintendent shall not be effective for more than one(1) school year at a time, but may be extended by informing the Board of Education."

CH. VII, §702

"The Superintendent of Schools shall be responsible for the development and implementation of a curriculum for the Public Schools which is designed to promote the attainment of the knowledge, competencies, and skills which will enable each student to function as a useful citizen.

In developing and implementing a competency based curriculum, the Superintendent of Schools shall be responsible for the establishment of instructional program priorities through a continuous process of assessment and evaluation of the educational needs of the students of the Public Schools.

The competency based program shall include the following critical elements: (a) The use of clear, demonstrable, and observable goals as the basis for organizing the instructional

program; (b) The use of these goals as the basis for the establishment of criteria for program advancement and graduation; (c) The use of these goals and criteria as the basis for the development and implementation of valid and reliable performance indicators; (d) The allowance of multiple opportunities for students to demonstrate their progress in meeting specific instructional goals, including constructive feedback and support to assist the student to meet the required goals; (e) The provision of a system for recording and reporting student progress which is based on the goals, criteria and indicators, as set forth in this section; (f) The provision of a system of instruction consistent with the styles, rates, needs, and stages of individual student learning and performance.

The process of needs assessment and evaluation shall be a continuing process and shall be included in the ongoing program of monitoring and evaluation of the competency based program.

The design for the competency based curriculum, and the instructional program implemented on the basis of that design, shall include the following components: (a) Instruction which is responsive to student progress and evaluation; (b) A reporting system based on progress in terms of goal mastery; (c) Progress stages; (d) Instructional materials, supplies, and equipment selection criteria; (e) Models for implementation on a system-wide, regional, and local school basis; (f) A plan for community involvement; (g) Systems for budget and management planning, control, audit, monitoring, and evaluation; (h) A system of public accountability through the reporting of the goals, objectives, plans, procedures, and priorities of the instructional program, and the reporting of the results of ongoing assessment and evaluation of the instructional program."

REGIONAL SUPERINTENDENT

CROSS REFERENCE

I.Regional Superintendent; Regulation; Chap. II, §214

School Employees

Statutes

§31-210

"Any parent, guardian, custodian, principal, or teacher of a child between the ages of three and eighteen who willfully neglects or refuses to provide the information required . . ., or who knowingly makes any false . . . statement shall be guilty of a misdemeanor" and subject to fine of $10 or a jail sentence of five days, or both.

§31-1117

No employee of the Board shall solicit donations from pupils for any purpose, except with the express authorization of the Board, upon the written recommendation of the superintendent.

§31-1531

Each employee shall be assigned a numerical step in her/his appropriate salary class. Each year each permanent employee who has not reached the highest service step for such service class shall advance one service step. However, the Board, upon the Superintendent's written recommendation, may deny a service step salary increase to any employee who fails to receive a satisfactory performance rating during the immediately preceding school year.

§31-1533

Each probationary employee shall receive his or her first increase in salary on the first day of the second year's employment, but the Board, on the recommendation of the superintendent, may deny such increase in the event that such employee receives less than a "satisfactory" rating from his or her superior.

The Board may, upon the superintendent's recommendation, fire an employee at any time during the two-year probationary period. However, if such employee "has permanent status within the school

system, he[she] shall be returned to the salary class he[she] last occupied and" be placed on the appropriate salary step.

REGULATIONS

CH. IV, §620

"The following adverse actions shall be subject to the rules and procedures set forth in sections 620 through 629 of this Chapter:

(a) Dismissal — DISMISSAL

(b) Suspension — SUSPENSION

(c) Demotion for Cause . . . — DEMOTION

The provisions of sections 622 through 629 of this Chapter shall apply to all employees of the Public Schools except those employees within recognized bargaining units with which an agreement on adverse action grievance procedures has been ratified and is in effect at the time the adverse action is taken."

CH. VI, §621

"Adverse action shall be taken for such cause as will promote the efficiency and discipline of the service and shall not be arbitrary or capricious.

Just cause for adverse action may include, but is not necessarily limited to, one or more of the following grounds:

(a) Gross inefficiency;

(b) Grave misconduct in office;

(c) Incompetence, including either inability or failure to perform satisfactorily the duties of the position of employment;

(d) Willful nonperformance or neglect of duty;

(e) Insubordination;

(f) Violation of the Rules, regulations, or lawful orders of the Board of Education or any directive of the Superintendent issued pursuant to the Rules of the Board of Education;

(g) Refusal to submit a [required] mental or physical examination . . .;

(h) Conviction of a felony.

The affected employee shall be given notice of the ground(s) for the adverse action being taken. Such notice shall contain the reasons and basis for such ground(s) in sufficient detail to reasonably inform the employee of the specific grounds and reasons for the adverse action."

CH. VI, § 622

"The Superintendent of Schools may effect the dismissal, suspension, or demotion for cause of any employee under his authority upon the written recommendation of the employee's supervisor or other official with adminstrative authority with respect to the employee.

A copy of the notice of adverse action served on the employee . . . together with a copy of the written recommendation adopted by the Superintendent of Schools, shall be filed with the Executive Secretary to the Board upon the receipt of notice by the employee.

Appeal from the decision of the Superintendent of Schools to effect a dismissal, demotion for cause, or suspension for more than thirty (30) days shall be to the Board of Education.

APPEAL

Appeal from the decision of the Superintendent of Schools to effect a suspension of thirty (30) days or less shall be in the form of a written request for reconsideration. The request for reconsideration must be submitted to the Superintendent within five (5) days of the effective date of the suspension. Requests for reconsideration shall be considered by the Superintendent, pursuant to procedures established by the Superintendent, within five (5) working days of the receipt of the request for reconsideration. The Superintendent may uphold, reverse, or reduce the length of the suspension pursuant to a request for reconsideration.

If no appeal to the Board is filed within the time limit set forth in section 626 of this Chapter, the adverse action effected by the Superintendent shall be deemed to have been approved by the Board of Education.

If a timely appeal is filed with the Board . . . , final action by the Board shall be taken in accordance with

the provision of section 629 of this Chapter; provided, that the effective date of the adverse action shall not be affected by the filing of a timely appeal to the Board."

CH. VI, §623

NOTICE

"An employee who is the subject of an adverse action shall have the right to receive written notice of such action prior to the effective date of such action. . . .

Notice of dismissal, demotion for cause, or suspension for more than thirty (30) days shall be received by the employee not less than than ten (10) days prior to the effective date of the adverse action.

Notice of suspension for thirty (30) days or less must be received by the employee within a reasonable time prior to the effective date of such action in order to allow the employee to reply to the action. In no case shall such notice be less than twenty-four (24) hours.

Notice of adverse action shall contain at least the following:

(a) The type of adverse action;

(b) The effective date of such action;

(c) The specific grounds and reasons for the action;

(d) Notice of all procedures, rights of appeal, time limits, procedures, and other matters pertaining to such action applicable to the affected employee;

(e) A copy of sections 620 through 629 of this Chapter;

(f) The location and times when employee or his representative may review the material in the adverse action file upon which the action is based."

CH. VI, §624

"The employee or his representative shall be given access to the documents, reports, and other materials in the adverse action file, including all materials which support the adverse action being taken.

Adverse action file materials shall be available for inspection by the employee or his representative not later than twenty-four (24) hours after the receipt of notice of adverse

action by the employee. Such materials shall be available at the times and place specified in the notice.

The right of access to adverse action file materials set forth in this section shall extend beyond the notice period in cases where a timely appeal to the board or request for reconsideration by the Superintendent has been filed.

An employee who is the subject of an adverse action shall be retained in active duty status during the notice period, except in the following instances:

(a) When it is determined by the Superintendent of Schools that retention of the employee in active duty status may result in damage to school property; may result in injury or harm to students, other employees, or members of the public; or may be detrimental to the efficiency and discipline of the school system; the employee may be temporarily assigned to other duties where such conditions are not likely to occur OR the employee may be placed on administrative leave with pay.

(b) When the Superintendent of Schools effects a separate adverse action of suspension during the notice period, pursuant to the provisions of this Chapter with regard to suspension for thirty (30) days or less."

CH. VI, §625

"An employee shall be entitled to answer the notice of adverse action in writing [or] through the appeal process. . . .

The following time limits shall apply to the submission of a written answer by the employee or the employee's representative:

(a) For dismissal, demotion for cause, or suspension for more than thirty (30) days, the written answer must be submitted within fourteen (14) days of the receipt of the notice of adverse action.

(b) For suspension of thirty (30) days or less, the written answer must be submitted within the time stated in the notice period, but in no case in less than twenty-four (24) hours from the receipt of the notice of adverse action.

A written answer submitted pursuant to this section shall be submitted to the Superintendent of Schools, who shall forward a copy of the answer to the Executive Secretary to the Board of Education.

The Superintendent of Schools may extend the time to file a written answer upon written request of the employee or the employee's representative.

The employee's writtten answer, if any, shall be made a part of the adverse action file."

CH. VI, §626

APPEAL

"An employee shall have the *right to appeal a dismissal*, demotion for cause, or suspension for more than thirty (30) days to the Board of Education . . . except in the following instances:

(a) An employee with temporary status shall be limited to filing a request for reconsideration of the adverse action to the Superintendent of Schools, pursuant to procedures established by the Superintendent of Schools.

(b) An employee who alleges that the adverse action is being taken for reasons of discrimination in violation of the human rights laws of the District of Columbia shall take an appeal to the District of Columbia Office of Human Rights, pursuant to its rules and procedures.

(c) An employee who has appeal rights to another agency of the government of the District of Columbia or to an agency of the Federal government, and who elects to exercise those appeal rights, shall be deemed to have waived all appeal rights under this Chapter.

HEARING

An appeal to the Board of Education shall be granted upon the timely filing of a written request for hearing.

A request for hearing must be filed with the Board not later than ten (10) days after the receipt of the notice of adverse action by the employee. Failure to file a timely request for hearing shall constitute a waiver of the right to appeal to the Board.

The time limit for filing a request for hearing . . . may be extended by the Executive Secretary upon showing by the employee that the employee was not properly notified of the time limit for filing the request and was not otherwise aware of it, OR upon showing by the employee that circumstances beyond his control will prevent or have prevented him from filing a timely request. In no case shall the time limit be extended more than five (5) days beyond the date of the granting of the request for extension, if such request is granted."

CH. VI, §627

"Upon receipt of a timely request for hearing, the Executive Secretary shall schedule a hearing before a hearing officer at a time convenient to the parties, subject to the availability of the hearing officer.

All hearings shall be conducted by an impartial hearing officer selected by the Executive Secretary from a list of hearing officers approved by the Board committee with jurisdiction over adverse action appeals.

An employee shall be afforded the following safeguards in connection with the hearing held pursuant to this section:

RIGHT TO COUNSEL

(a) The right to be represented by counsel or other representative of the employee's choice, at the expense of the employee;

(b) The right to cross-examine any witness testifying for the school system;

(c) The right to call witnesses in his behalf and to present other evidence in support of the appeal, including the right to call employees of the school system to appear as witnesses in his behalf.

(d) The right to access to materials in the adverse action file, pursuant . . . section of this Chapter;

(e) The right to a free copy of the electronic recording made of the hearing. Transcripts of the hearing record, or any portion thereof, may be requested by the employee at a cost of twenty-five cents (25¢) per page. Requests for such transcripts must be made within ten (10) days of the receipt of the notice of final determination of the appeal by the Board subsequent to the hearing. An employee may arrange to have a record of the hearing taken and transcribed by a qualified reporter hired by the employee at the expense of the employee; provided, that the Board shall be notified of such arrangements not less than three (3) days prior to the scheduled date of the hearing."

CH. VI, §628

"All hearings . . . shall be closed to the public unless the employee requesting the hearing specifically requests that the hearing be open. An open hearing may be closed at any time upon the request of the employee.

The rules of evidence shall not be strictly applied by the hearing officer. However, the hearing officer shall have the authority to use the rules of evidence currently in effect in the Superior Court of the District of Columbia as guidelines for the orderly conduct of the hearing. The hearing officer shall exclude any evidence or testimony which is irrelevant or repetitive.

An electronic recording of the hearing shall be made.

All testimony shall be given under oath or affirmation administered by the hearing officer.

Any person may be excluded from the hearing by the hearing officer for conduct which interferes with the hearing process.

The hearing officer may require the parties or their representatives to submit written proposed findings or post-hearing briefs on any relevant matter(s).

The official record of the hearing shall consist of the notice of adverse action; the request for hearing; the written answer of the employee, if any; the recommendation to the Superintendent which resulted in the adverse action; the electronic recording of the hearing; any post-hearing briefs or proposed findings submitted by the parties, the written report of the hearing officer; and any exceptions to the hearing officer's report filed by the parties.

The hearing officer shall make a written report of findings and recommendations within ten (10) days of the conclusion of the hearing. The findings and recommendations shall be filed with the Executive Secretary to the Board who shall submit copies to the parties or their representatives.

Within seven (7) days of the receipt of the copy of the hearing officer's report, any party may submit written exceptions to the findings and recommendations to the Executive Secretary."

CH. VI, §629

"The final determination of the appeal shall be made by the Board committee with jurisdiction over adverse action.

Final determination shall be made by the committee upon receipt and consideration of the official record of the hearing.

The official records of the hearing shall be submitted to the committee by the Executive Secretary upon receipt of exceptions to the hearing officer's report or upon the expiration of the time limit for filing exceptions. . . .

The Board committee shall render a final determination of the appeal within twenty (20) days of the receipt of the official record or at the meeting of the committee next following the receipt of the official record, whichever is sooner; provided, however, that the committee shall have a minimum of five (5) days to consider the official record prior to making a determination.

The determination of the Board committee on the appeal shall be in writing, shall specifically state which grounds for adverse action have been sustained and which have not been sustained, and shall contain one of the following:

(a) If the adverse action has been sustained, a statement that the determination of the Board committee is the final action of the school system on the appeal; or

(b) If the adverse action has been reversed, a notice of reinstatement pursuant to the provisions of this section.

If the Board committee reverses the adverse action, the employee shall be immediately reinstated and shall be made whole for such action.

The determination of the Board committee shall be reported to the Board of Education in the report of the committee at the next regular meeting of the Board and shall be made a part of the record of the Board of Education."

CH. IX. §13

"Except as provided otherwise by law or the Rules of the Board of Education, employees of the D.C. Public Schools shall be appointed with probationary status to all positions and shall obtain permanent status based solely upon qualifications and the provisions of existing laws and the Rules of the Board of Education. APPOINTMENT

The employment status of an employee, whether probationary or permanent, shall not guarantee employment or retention in the D.C. Public School system. Employment and retention shall be based upon the availability of resources and the provisions of existing laws and the Rules of the Board of Education. . . " RETENTION

CH. IX, §14

"A person who lacks the prerequisite qualifications for appointment to a position with probationary status, . . . may be appointed to the position with temporary status; provided, that no person who is qualified to be appointed with probationary status has applied for the position. APPOINTMENT

A person who is appointed to fill a position which has been temporarily vacated but which remains encumbered by

an employee with probationary or permanent status shall be appointed to such position with temporary status.

A person who is appointed to a position which is funded for a period of one (1) year or less shall be appointed with temporary status; provided, that should such person be reappointed without a break in service, such employee shall then obtain probationary status."

CH. IX. PROCEDURES FOR PROCESSING RECOMMENDATIONS FOR PERMANENT TENURE

A. TIMELY SUBMISSION

The written recommendation of the Superintendent shall be submitted to the Board within ninety (90) days prior to the expiration of an employee's probationary period.

B. WRITTEN RECOMMENDATION

The written recommendation shall be prepared in narrative form and shall include sufficient information concerning the performance of the individual during his probationary period so that anyone reading that alone, and knowing nothing else about the person, could make an informed judgement that the person's performance was in fact satisfactory. It seems reasonable to include with such recommendation:

1. A brief employment history of the individual.
2. Performance appraisals made by officers who have directly supervised the individual during the probationary period . . . .
3. Documentation that the periods of observation or other appropriate measurements have been effected.
4. Written report or any other documentation used as a basis for the recommendation.

C. BOARD ACTION

In those cases where the Board desires additional information . . . it will request, in writing, the Superintendent and the appraising officer to submit such additional information as they consider necessary to support the recommendation.

Employees whose permanent tenure is being delayed pending further consideration by the Board shall be so notified in writing by the Board.

In those cases where the Board considers not approving a recommendation:

1. The Board shall notify the employee in writing and of his right to reply in writing and,

2. The employee shall be provided access to the appropriate section of the Minutes of the Committee-of-the-Whole on Personnel and shall be provided with copies of any written material submitted concerning his recommendation.

D. BOARD DECISION

The decision of the Board is final."

There shall be no discrimination on the basis of sex among teachers performing similar functions. DISCRIMINATION

STUDENTS

REGULATIONS

CH. IV, §413

"All promotions shall be based upon the satisfactory completion of required coursework and satisfactory achievement of competency at the required skill level. PROMOTION

Promotions shall be made by the principal or other person in charge of the school or program upon certification that the student meets all requirements for promotion.

Promotions shall generally be made at the end of each school year. Special promotions may be made at any time with the written approval of the Regional Superintendent.

Students who fail to meet the requirements for promotion shall be retained at their present level. Where such steps have not already been taken, students whose progress at the end of the first semester or term indicates that they may not be promoted at the end of one year of retention at a particular level shall be referred for assessment and evaluation pursuant to the provisions of section 450ff of this Chapter."

Ch. IV §414

DIPLOMA

"Each student who meets the following requirements shall be eligible to receive a high school diploma:

(a) Satisfactory completion of the coursework required for the diploma, as set forth in this section; and (b) Satisfactory achievement of the required skill level for graduation; and (c) Enrollment and regular attendance in the Public Schools of the District of Columbia for a minimum of eight . . . consecutive months prior to graduation.

Each student who meets the requirements set forth in this section shall be certified as eligible to receive the high school diploma by the principal or other person in charge of the school or program in which the student is enrolled.

Upon certification, the high school diploma shall be conferred upon the student by the Superintendent of Schools or his[her] designee in the name of the D.C. Board of Education. Each diploma shall bear the signature of the Superintendent of Schools and the seal of the Board of Education.

No student shall receive a high school diploma unless the student has first completed all requirements for the diploma.

In the event a student does not meet the requirement set forth in subsection 414.1(c), the following procedures shall apply:

(a) If the prior academic record of the student and the coursework and skill level achievement of the student during enrollment in the D.C. Public Schools are satisfactory, the student may be granted an exemption from the requirement of subsection 414.1(c) by the Regional Superintendent upon the recommendation of the principal or other person in charge of the school or program in which the student is enrolled.

(b) The coursework credit received by the student from the D.C. Public Schools may be transferred to the school system from which the student has transferred in order to meet the graduation requirements of that school system.

(c) If a D.C. Public School student is receiving a diploma from another school system but is unable to attend graduation exercises held by that school system, such student may be allowed to participate in the graduation exercises of the D.C. Public School being attended upon the approval of the Superintendent of Schools.

The following coursework is required in order to be certified as eligible to receive the high school diploma:

(a) A total of 17 1/2 Carnegie Units must have been satisfactorily completed. (b) The following Carnegie Units in the corresponding subjects are required: English; 4 units Social Studies, including U.S. History (1) and Government (1/2), 1 1/2 units; Mathematics 1 unit; Laboratory science 1 unit; Health & Phys. Ed. 1 1/2 units; Electives 8 1/2 units. (c) One and one half (1 1/2) Carnegie units in Health and "Physical Education are not required for the evening program high school diploma.

The Superintendent of Schools may establish special courses of study which lead to the high school diploma (such as academic, performing arts, science and mathematics, career or vocational education, or other areas of concentration). Electives taken to fulfill the requirements of subsection 414.6 shall be required to be taken in courses established by the Superintendent for each area of concentration in order to receive certification in the area of concentration. Each student who satisfactorily completes the requirements for a special course of study shall receive appropriate recognition on the student's diploma.

Each adult student, or the parent or guardian of a minor student, shall be informed in writing not later than ten . . . days after the close of the third advisory period of the student's graduation status, including a warning that the student may not be eligible for graduation in June, if applicable.

The Superintendent of Schools shall annually compile and present to the Board of Education at its June stated meeting, the names of all students who have been certified as eligible to

receive the high school diploma by the appropriate principal or other person in charge of the school or program in which the student is enrolled. Upon official receipt of the list of students receiving diplomas, the Board of Education shall act to enter the names in the official journal of the Board of Education.

The receipt of a high school diploma by an eligible student shall not be contingent upon the payment of any fee or other consideration, except the payment of non-resident tuition fees required by statute and the provisions of this Chapter. . . .

The assessment of a class fee to cover expenses in connection with graduation exercises shall be permitted subject to the following requirements:

(a) The maximum amount of the class fee shall be uniformly established by the Superintendent of Schools; (b) The Regional Superintendent shall be authorized to exempt a student from the payment of the class fee in instances of hardship; (c) The expense of caps and gowns, yearbook subscriptions, proms, class gifts, and other activities which may be associated with graduation shall not be included in the class fee. . . . (d) The decisions whether to wear cap and gown, utilize rental facilities for graduation exercises, or present a class gift shall involve school staff, students, and parents or guardians; (e) No student shall be required to wear cap and gown in order to participate in graduation exercises; (f) Class gifts to the school shall consist of or be paid for only by donations, including the creative work of students. Class gifts shall not be made to any individual(s)."

SCHOOL SYSTEM

REGULATIONS

CH. VII, §704

"In order to provide the Board of Education and the public with ongoing information, data, and performance assessment and evaluation, the Superintendent of Schools shall establish and implement a system of monitoring and reporting.

The Superintendent shall report the following on an annual basis for each school, region, and division or subdivision of the educational program: (a) Student membership and attendance; (b) The number of instructional staff assigned to each school . . .; (c) The pupil-teacher ratio and city-wide pupil-teacher ratio for all schools in the Elementary division of the educational program; (d) The student-instructional staff member ratio for each school and each division or subdivision of the Junior High and Senior High divisions of the educational program; (e) Demographic data on students by race and sex; (f) Demographic data on instructional staff members by race, sex, academic preparation, and experience; (g) Accident statistics and safety conditions; (h) The status of school buildings pursuant to the provisions of Chapter 5, section 512; (i) The results and analysis of the city-wide testing program pursuant to the provisions of section 703 of this Chapter;

The Superintendent shall establish and implement a system of monitoring, evaluating, and reporting employee performance and shall annually report on the evaluation of

employees of the Public Schools.

The Superintendent shall report annually on the progress of the Public Schools toward meeting the goals and objectives of the Board of Education as set forth in section 700 of this Chapter. This report shall include areas of achievement and deficiency and shall set forth the steps which will be taken to correct any deficiencies, including the recommendations for action by the Board of Education. The report shall also include, when appropriate, the Superintendent's recommendations for modifications in the stated goals and objectives of the Board of Education.

The Superintendent of Schools shall report on both a quarterly and annual basis the following: (a) The financial condition of the Public Schools, including the status of all accounts regardless of the source of funding. The reports shall include actual and projected obligations and expenditures, including the projected status of all accounts at the end of the annual accounting period; (b) The status of personnel and employment in the Public Schools, including current employment levels, cumulative and quarterly hiring, promotion, and adverse actions by category; current and projected vacancies; and projected hiring.

The contents of all reports required by this section shall, upon their submission to and acceptance by the Board of Education, become public information. Public reports shall be made available to the public as part of a comprehensive program of information and accountability. In addition to being available in the offices of the Superintendent of Schools or by mail, upon request, copies of such public reports shall be placed in each local school, sent to the press, media, and each public library, and sent to representative members of the executive and legislative branches of the government of the District of Columbia."

STUDENT

REGULATIONS

"As an element in the ongoing assessment and evaluation of the instructional program and student achievement, the Superintendent shall establish and implement a city-wide testing program, which shall be approved annually by the Board of Education.

The city-wide testing program shall include all tests which are administered on a city-wide basis and published annually in a city-wide testing schedule.

The following tests and testing programs shall not be included in the city-wide testing program: (a) Specific tests for evaluation of federally-funded programs and services; (b) Regional testing programs; (c) Research and evaluation studies, except those which are administered on a city-wide basis; (d) Evaluation tools used for specific goal areas in the competency based curriculum.

The city-wide testing program shall be used in conjunction with the competency based curriculum by providing one hundred per cent . . . testing with either norm-referenced or criterion-referenced tests at those age/grade levels where diagnosis and evaluation will measure and aid student achievement most appropriately and usefully, as determined by the Superintendent of Schools and approved by the Board of Education as part of the annual city-wide testing program.

All kindergarten students and all students enrolling in the Public Schools for the first time at the first grade level shall be assessed at the beginning of the school year. The Superintendent of Schools may establish guidelines for the assessment of students enrolling in the Public Schools for the first time at a level beyond first grade.

The city-wide testing program shall include staff development and training requirements for all instructional staff members in the understanding and use of all tests being administered, including individualized testing, instructional program planning based on appropriate test results, and the explanation of tests and test results to parents and guardians.

The results of tests administered by the Public Schools or under the auspices of the Board of Education shall not be considered determinative of the innate ability of individual

students. Tests results may be used as one factor in the ongoing process of determining the best placement of students in the educational program and assessing students' individual instructional needs, based upon current competencies and skills. Test results may also be used as one factor in the evaluation of student and program performance. The provisions of this subsection shall not preclude the use of diagnostic tests or other tests connected with the assessment and evaluation and placement of students in programs for the handicapped.

Individual student test results shall be available to the parent or guardian of the student, and to the adult student. A parent, guardian, or adult student may request a conference with the appropriate teacher or counselor to discuss test results.

The results of tests shall also be available to faculty and parent groups in summarized or averaged form. The principal or other school official may conduct meetings with faculty or parent groups, upon request, to inform these groups of the interpretation and application of tests results.

Summary reports of city-wide testing results shall be prepared by the Superintendent of Schools subsequent to each testing program. The Superintendent shall compile and provide these summary reports on an annual basis to the Board of Education as soon as possible after the end of the school year. The Superintendent's report shall include an analysis of the test results, including specific areas of achievement and deficiency, and shall indicate the steps which will be taken to correct any deficiencies.

No test results shall be tabulated or reported which indicate individual or group scores by race or sex, except that aptitude test results may be reported by sex in instances where test data clearly indicates that males and females differ in their performance and valid norms have been established indicating this difference.

No test results which identify any individual student shall be reported or made public.

The Superintendent's annual report to the Board of Education shall be made public upon acceptance by the Board.

Copies of the published report shall be distributed to local schools and representatives of the executive and legislative branches of the government of the District of Columbia."

CH. IV, §412

"The grading system of the D.C. Public Schools shall be designed to fairly and accurately report student progress and student achievement in relation to placement.

The role of the teacher in grading, the content of grade and progress reports, requirements for substantiation of grades, timing of reports and grades, and other requirements and procedures to be followed by teachers and school officials in the grading process shall be established and implemented by the Superintendent of Schools, in accordance with the Rules of the Board of Education."

E. Improvement Efforts

School Employees

STATUTES

§31-632-- 31-637

LEAVE OF ABSENCE

Upon the recommendation of the superintendent, the Board may authorize a one-year leave of absence "for purposes of educational improvement" for an employee whose salary is fixed by §31-1501 and who has served continuously in the public schools for at least six years prior to requesting leave. Not more than 2% of eligible employees may be on leave at any one time.

Part pay is authorized in the amount of 50% of salary, such amount to be reduced by certain regular deductions, and the time spent on leave shall be counted for retirement and salary increment purposes.

While on leave, the employee shall report to the superintendent as required by the Board. The Board may, upon the superintendent's recommendation, terminate such leave in the event that its requirements are not being followed. The Board may assign qualified temporary employees to fill vacancies created by sabbatical leaves.

STATUTES

§31-699 to 31-699b

The Board may "participate in the teacher foreign exchange program in cooperation with the U.S. Office of Education." Each year up to ten teachers may participate in such program for a period not exceeding one calendar year. The Board shall continue paying the salary of participants, who shall for the purpose of calculating benefits, be considered as teaching in the schools of the District during that year.

The Board shall determine where to place the exchange teacher taking the place of its employee. The exchange teacher shall serve without compensation by the Board and shall not be required to take any loyalty oath.

III. Quality of the Educational Process

A. Qualification Standards for Schools and School Districts

1. Accreditation

Statutes
§230.2405

Accreditation associations may not deny membership to district schools solely on the lack of educational qualifications of the elective district superintendent provided he/she possesses a bachelor's degree from an accredited institution of higher learning. Such a denial "shall constitute sufficient grounds for injunctive relief in state courts, upon a showing by the district school board that there exists no other grounds, reasons, or standards upon which the schools should be denied accreditation or membership."

DENIAL

2. Other Qualification Standards

Statutes
§228.051

Florida public schools shall provide thirteen consecutive years of education, beginning with kindergarten, and shall also provide instruction for exceptional children as required by law.

§235.15;235.16;235.18;235.19

"At least every five years" district school boards shall survey schools in a district and on the basis of said survey submit a long-term proposal for construction and/or improvement of facilities to the Department of Education within six months thereafter. The department shall then review each program and make its recommendations to the school boards. Funds for these programs shall be allocated from the annual school budget.

Prior to implementation of an improvement program, the district superintendent, with the help of "governmental agencies", shall "prepare a comprehensive plan . . . which shall indicate existing and anticipated school needs and the most economical and practicable

locations of school sites." This plan shall be coordinated with the local long-range plans. Both plans should consider adjacent property in their decisions. The State Board of Education shall set minimum standards for school size relative to pupil enrollment, and any other standards it deems necessary.

REGULATIONS

6A-1.952 229.053(1)

Where the board finds it necessary to have double sessions, the length of the classes may be shortened for all grades over the third grade provided that the actual time spent in classes, excluding intermissions and class changes, shall not be less than 270 minutes.

6A-1.953

SCHOOL TERM

Where a school board plans to operate a school program at any school center within the district for less than the minimum school day, the commissioner of education may reduce the minimum school day by not more than one hour. Reasons shall be set forth in an application. The commissioner of education should approve the application, for not more than one year, if he or she feels it would contribute to the improvement of the public schools of Florida.

6A-1.9511

If it is necessary to run the school for less than the minimum daily time allowed, the commissioner may reduce the minimum school day by not more than one hour for 120 days. The commissioner must okay such application under his or her discretion.

ADMINISTRATIVE CERTIFICATION

REGULATIONS

6A-4.08

"Administration or supervision. Administration or supervision may be shown only on a post graduate, special post graduate, or advanced post graduate certificate. Only graduate credit shall be used to satisfy the following requirements.

(1) Specialization requirements for certification in administration (grades K-6, 7-12, and K-12). Administration may be shown only on a post graduate, special post graduate, or advanced post graduate certificate.

(a) A Master's or higher degree with a graduate major in school administration and three . . . years of full-time teaching experience in a public or non-public elementary or secondary school, or

(b) A Master's or higher degree, three...years of full-time teaching experience in a public or non-public elementary or secondary school, and graduate credit in administration, supervision, and curriculum as specified below:

1. Nine . . . semester hours in school administration.

2. Three . . . semester hours in basic school supervision

3. Six . . . semester hours in curriculum.

a. Administration covering the elementary school level only (grades K-6). Six . . . semester hours must be earned in secondary school curriculum.

b. Administration covering grades K-12. Twelve. . . semester hours with six . . . semester hours each earned in elementary and secondary school curriculum.

(2) Specialization requirements for certification in supervision (grades K-6, 7-12, or K-12). Supervision

may be shown only on a post graduate, special post graduate, or advanced post graduate certificate.

(a) A Master's or higher degree with a graduate major in school supervision and three . . . years of full-time teaching expereince in a public or non-public elementary or secondary school, or

(b) A Master's or higher degree, three . . . years of full-time teaching experience in a public or non-public elementary or secondary school, and graduate credit in administration, supervision, and curriculum as specified below:

1. Three . . . semester hours in basic school administration.

2. Six . . . semester hours in basic school supervision.

3. Nine . . . semester hours in curriculum.

a. Supervision covering the elementary school level only (grades K-6). Six of the nine . . . semester hours must be earned in elementary school curriculum.

b. Supervision covering the secondary school level only (grades 7-12). Six . . . of the nine . . . semester hours must be earned in elementary school curriculum.

(3) Specialization requirements for certification in supervision in a specific subject or field. Supervision in a specific subject or field may be shown only on a post graduate, special post graduate, or advanced post graduate certificated.

(a) A Master's or higher degree with a graduate major in school supervision, full certification in the subject or field to be supervised, and three . . . years of full-time teaching expereince in a public or non-public elementary or secondary school, or

(b) A Master's or higher degree, full certification in the subject or field to be supervised, three . . . years of full-time teaching experience in a public or non-public elementary or secondary school, and graduate credit including the areas specified below:

1. Three . . . semester hours in basic school administration.

2. Six . . . semester hours in basic school supervision.

3. Nine . . . semester hours in curriculum as specified below:

a. Six . . . semester hours in curriculum covering the level for which the applicant is to be certified, elementary or secondary. When certification is to be at both the elementary and secondary level three . . . semester hours covering each level must be earned.

b. Three semester hours in curriculum in the subject or field to be supervised

4. Six . . . semester hours of graduate credit in the subject or field to be supervised.

(4) Specialization requirements for certification in administration and supervision (grades K-6, 7-12, K-12). Administration and supervision may be shown only on a post graduate certificate.

(a) A Master's or higher degree with a graduate major in school administration and supervision and three. . . years of full-time teaching experience in a public or non-public elementary or secondary school, or

(b) A Master's or higher degree, three . . . years of full-time teaching experience in a public or non-public elementary or secondary school, and graduate credit in administration, supervision and curriculum as specified below:

1. Nine . . . semester hours in school administration including at least one basic course in school administration.

2. Six . . . semester hours in supervision.

3. Nine . . . semester hours in curriculum.

a. Administration and supervision covering the elementary school level only (grades K-6). Six . . . of the nine . . . semester hours must be earned in elementary school curriculum.

b. Administration and supervision covering the secondary school level only (grades 7-12). Six . . . of the nine. . .semester hours must be earned in secondary school curriculum.

c. Administration and supervision covering grades K-12. Twelve . . . semester hours with six . . . semester hours each in elementary and secondary school curriculum.

(5) Specialization requirements for certification in administration of adult education may be shown only on a post graduate, special post graduate, or advanced post graduate certificate.

(a) A Master's or higher degree with a graduate major in administration of adult education and three . . .years of full-time teaching experience in a public or non-public elementary or secondary school, or

(b) A Master's or higher degree, three . . .years of full-time teaching experience in a public or non-public elementary of secondary school, and graduate credit in administration, supervision, and curriculum as specified below:

1. Nine . . . semester hours in school administration (at least three . . .semester hours in organization and administration of adult education).

2. Three . . . semester hours in supervision (special emphasis on supervision of adult education).

3. Six . . . semester hours of curriculum (at least three . . . semester hours in program planning at the adult level).

(6) Addition of administration of adult education. Administration of adult education may be added to a post graduate, special post graduate, or advanced post graduate certificate covering elementary or secondary administration by completing six . . . semester hours as specified below:

(a) Three . . . semester hours in organization and administration of adult education.

(b) Three semester hours from the following areas of adult education: principles, programming, supervision, methods and materials of instruction.

(7) Administration and supervision - superintendents. Administration and supervision for county superintendents may be shown on a post graduate, special post graduate, or an advanced post graduate certificate upon

completion of the program in administration and supervision approved by the national council for the accreditation of teacher education."

6A-4.44

"Administration and supervision of vocational education. . . .

(1) Local director or district supervisor of vocational education. This type of certification is for an individual directly responsible for two or more fields of federally reimbursable vocational education qualifying as local director of vocational education and may be given only on a post standard, post graduate, special post graduate, or advanced post graduate certificate.

(a) Course requirements in education for administration and supervision. Thirty . . . semester hours earned in the five . . . sub-areas listed below with at least three . . . semester hours presented from each of area one . . . through five . . . . Only graduate or upper level credit shall be used to satisfy these requirements.

1. Organization, administration and management of vocational programs.

2. Administration and supervision of secondary education.

3. Instructional programs and curriculum.

4. Supervision and development of the vocational education staff.

5. School-community employee-employer relationships, interpretation of school program and socio-economic foundations of school policies. At least twelve . . . of the thirty . . . semester hours required shall have been completed within the five year period immediately preceding date of application , or the applicant must have had three years of experience as an administrator or supervisor in a secondary or vocational school within five . . .years immediately preceding date of application.

(b) Other requirements for administration and supervision. The applicant:

1. Must have attained the age of twenty-three . . . years.

2. Must have had three . . . years of successful teaching experience as a teacher of vocational education classes. Successful teaching experience must be attested to by the responsible school official under whom the applicant taught.

3. Must have met the professional education and occupational experience requirements in at least one vocational service.

(2) Principal or director of technical or vocational school. The same qualifications outlined under section 6A-4.44(1) for local director of vocational education will apply.

(3) Coordinator of industrial education. This type of certificate is granted for coordinators of day trade, or evening trade extension programs or other specialized industrial education programs.

(a) Course requirements. The applicant must have fulfilled the requirements for the standard certificate, rank 3, or the graduate certificate, rank 3, as a teacher of day trade or day trade related subjects and must have earned an additional twelve . . . semester hours. . . .

(b) Other requirements the applicant:

1. Must have attained the age of twenty-three . . . years.

2. Must have had three . . . years of successful teaching experience as a teacher of industrial education classes. Successful teaching experience must be attested to by responsible school officials under whom the applicant taught.

3. Must have met professional education and occupational experience requirements for standard certification as described in these regulations.

(4) District supervisor of cooperative education. The applicant must have qualified for certification as a cooperative business education or distributive education teacher-coordinator and have fulfilled the requirements for the post graduate certificate, rank 2.

(a) Course requirements. Thirty . . . semester hours earned in the sub-areas listed below are required.

1. Three . . . semester hours in administration of vocational education.

2. Supervision

a. Three . . . semester hours in vocational, business or distributive education.

b. Three . . . semester hours in secondary education.

3. Six . . . semester hours in curriculum (business or distributive at the secondary level.)

4. Three . . . semester hours in school-community relationships.

5. Nine . . . semester hours in electives with at least six . . . semester hours in business or distributive.

(b) Other requirements. Must have had five . . . years of successful teaching experience, three . . . years of which must have been as a cooperative education coordinator.

(5) District coordinator of adult distributive education. The applicant must have qualified for certification as a distributive education coordinator, or a full-time teacher of distributive education, graduate certificate, rank 3, or standard certificate, rank 3.

(a) Course requirements. Must have earned an additional twelve . . . semester hours including:

1. Administration of vocational education.

2. Supervision of vocational or distributive education.

3. Curriculum in distributive education.

4. School-community relationships.

(b) Other requirements. Must have had three . . . years of successful teaching experience in distributive education classes.

(6) District coordinator of vocational business education. The applicant must have qualified for certification in the broad field of business education and for certification

as a cooperative business education coordinator or a full-time teacher of vocational business education.

(a) Course requirements. Must have earned an additional twelve . . . semester hours of graduate credit including:

1. Administration of vocational education.
2. Supervision in vocational or business education.
3. Curriculum in business education.
4. School-community relationships.

(b) Other requirements. Must have had three years of successful teaching experience in business education classes."

6A-6.15

Any persons who are directors, coordinators or principals of the adult education program shall be certified in administration or supervision of secondary education at the time of appointment and soon thereafter shall become certificated in administration or supervision of adult general education. Part-time principals or administrative assistants shall at least hold graduate certificates and after five years work shall be certificated in administration or supervision of secondary education or adult education.

CERTIFICATED STAFF

STATUTES

§231.15

The state board of education is authorized to classify school services and prescribe regulations under which certificates shall be issued by the state department of education to school employees meeting the standards prescribed by the regulations applicable to their class of service. School supervisors, helping teachers, principals, teachers, school librarians and persons serving in an instructional capacity in any

RULEMAKING

public school shall hold the certificate required by law and state board regulations. "The state board shall adopt regulations authorizing school boards to employ noncertified personnel to provide instructional services in the individual's field of specialty or to assist instructional staff members as teacher aides."

§231.16

The state board of education shall prescribe the types, classes and ranks of certificates to be issued. Regulations shall specify the amount of college credits in prescribed professional courses and may require a definite period of time during which the applicant shall have served under supervision in public schools.

REGULATIONS

6A-1.501

The instructional staff of a school district shall consist of : those certified staff members who are assigned duties which require a valid Florida teaching certificate and which involve the provision of direct instructional services to students; those certificated staff members who are assigned duties which require a valid Florida teaching certificate and which consist of instructional support activities to students and teachers; and those non-certificated personnel who are employed to render instructional services in their area of specialty.

COUNSELOR

REGULATIONS

6A-4.18

"Specialization requirements for certification in guidance (grades K-12). Guidance may not be given on a rank 3 certificate after July 1, 1964.

(1) A Master's or higher degree with a graduate major in guidance including at least three . . . semester hours in supervised counseling practice, or

(2) A Master's or higher degree with twenty-one . . . semester hours of graduate credit as specified below:

a. Three . . . semester hours in one of the following: principles, philosophy, organization or administration of guidance.

b. Six . . . semester hours in principles and procedures of testing including credit in psychological testing.

c. Three . . . semester hours in occupational and educational information.

d. Three . . . semester hours in learning and personality theory.

e. Six . . . semester hours in counseling including three . . . semester hours in supervised counseling practice."

CROSS REFERENCE

IV.B.; Statute §233.066

DISTRICT SUPERINTENDENT

STATUTES

§230.28; .30

The district school superintendent shall devote full-time to his/her office and shall be a resident of the district in which he/she serves.

CROSS REFERENCE

III.A.1.; Statute §230.2405

EDUCATIONAL MEDIA SPECIALIST

REGULATIONS

6A-4.25

"Specialization requirements for certification in educational media specialist (grades K-12)

(1) A Bachelor's or higher degree with an undergraduate or graduate major in educational media, or

(2) A Bachelor's or higher degree with twenty-four . . . semester hours in educational media including the areas specified below:

(a) Nine . . . semester hours in the selection and utilization of media. Courses in this area include: the analysis, evaluation, selection and design of printed and audiovisual media; procedures for the utilization of media by students and teachers; criteria for the selection of media; knowledge of media and their sources.

(b) Three . . . semester hours in functional operation of the school media center. Courses in this area include: principles, goals and programs of the school media center; the role and relationship of the school media center to the total school program; techniques of school media center operation; staff relationships in both the media center and in the relationships in both the media center and in the school; the professional role of the media specialist.

(c) Three . . . semester hours in bibliographic control. Courses in this area include: skills and understandings of bibliographic principles and practices; aims of and practice in cataloging, classification, storage of all types of media; techniques of analyzing, sharing and retrieving information in all formats.

(d) Three . . . semester hours in design and production of various types of educational media. Courses in this area include: educational graphics, cinematography, photography, and educational television and radio programs."

EDUCATIONAL PERSONNEL

STATUTES

§231.10

There shall be a Florida Council of Teachers Education consisting of 23 members appointed by the state board of education.

Members shall serve three-year terms.

The council shall report its recommendations to the commissioner of education each year.

Its duties shall include: recommending

standards for the "development, certification, improvement, and maintenance of competent education personnel;" assisting in planning and conducting an annual review of manpower studies regarding teaching personnel, reporting findings to the commissioner of education; and recommending "alternative ways to demonstrate qualifications for certification which insure fairness and flexibility while protecting against incompetence."

Non-Certified Personnel

Regulations

6A-1.502

"In each district there are persons with teaching skills who are not certified. Each school board shall adopt such policies as are necessary to insure that the principals and teachers of that district may utilize in an appropriate instructional capacity the services of such expert persons in the community." These persons can either serve as volunteers or receive a fee for their services. The board policies for non-certified instructional personnel shall include, among other things, health and age, employment procedures, personnel records, salary, assignment, suspension and dismissal, assessment of performance, pupil welfare, instructional practices and policies.

Occupational Specialists

Regulations

6A-4.421

"Occupational specialist. A position provided as an alternate means of providing adequate guidance services.

(1) Requirements. Each applicant shall meet all non-educational requirements common to all certificates and in addition shall meet the following requirements:

(a) Be at least twenty . . . years of age.

(b) Have been gainfully employed other than in

teaching, for not less than twenty-four . . . months as a full-time employee, or its equivalent in part-time employment. Such work experience shall be verified by the district superintendent to the certification section of the department of education at the time of application.

(c) Provide to the district superintendent written evidence of ability to relate to young people. The district superintendent will then verify to the certification section that the individual has met this requirement.

(2) Types of Certificates:

(a) Temporary Certificates. The temporary certificate in the appropriate rank, Rank 3 or higher, shall be issued to each individual who files the proper application form and is recommended by the district superintendent for such certificate, provided that the district superintendent verifies that the three . . . requirements listed above have been met. . . .

(b) Regular Certificate. A regular certificate in the appropriate type, Rank 3 or higher, shall be issued covering Occupational Specialist upon the recommendation of the district superintendent, including a statement to the effect that the individual completed three . . . years of successful service as an occupational specialist and completed an approved training program for occupational specialists.

(c) Addition to Regular Certificate. An individual who already holds a regular certificate may have Occupational Specialist added to his[her] certificate upon verification from the district superintendent that the individual completed three years of successful service as an occupational specialist in the district and that the individual completed an approved training program for occupational specialists. . . ."

CROSS REFERENCE

IV.B.; Statute §233.0681

Private Tutor

Regulations

6A-1.951 Private Tutors Auth. 229.053(1)

Any person who tutors a child of compulsory attendance age shall meet the following requirements: valid certificate to teach the subjects or grades in which the instruction is given; keep and make records and reports concerning attendance of pupils; require a minimum attendance of pupils.

School Officials

Statutes

§231.02

"To be eligible for appointment in any district school system position, persons shall be of good moral character and shall, when required by law, hold a certificate or license issued under the state board of education or department of health and rehabilitative services regulations."

School Psychologist

Regulations

6A-4.31

"Specialization requirements for certification as specialist in school psychology (grades K-12). Specialist in school psychology will be shown on a certificate only when all specialization requirements have been met.

(1) A master's or higher degree with a graduate major in school psychology including at least six semester hours of graduate credit in supervised experience in school psychology in an elementary or secondary school

setting. Three years of experience as a specialist in school psychology in an elementary or secondary school will satisfy the supervised experience requirement.

Or

(2) A master's or higher degree and:

(a) 36 semester hours of graduate credit appropriate to areas 1, 2, and 3 specified below with a minimum of 9 semester hours in each of the 3 areas:

1. Psychology covering human development such as child psychology, adolescent psychology, educational psychology; personality; learning psychology; and psychology of exceptional students.

2. Psycho-educational assessment including 3 semester hours in individual intellectual assessment.

3. Specialized techniques such as behavioral analysis, counseling, consultation, prescriptive intervention, and

(b) At least six semester hours of graduate credit in supervised experience in school psychology in an elementary or secondary school setting. Three years of experience as a specialist in school psychology in an elementary or secondary school will satisfy the supervised experience requirement."

TEACHER AIDES

STATUTES

§231.141

District school boards are encouraged to appoint teacher aides to the instructional staff in the kindergarten and the primary grades. The school board may appoint teacher aides in other grades. Teacher aides shall not be required to hold a certificate, but shall be required to attend training programs developed pursuant to subsection 230.2311(6).

REGULATIONS

6A-1.70 Teacher Aides [Auth 231.141]

Procedures

Each aide shall meet the health requirements established for certificated personnel; shall meet the same age requirements as those for certificated personnel; must possess a clear understanding of state and district rules, policies and regulations relevant to teacher aide responsibilities. Each aide must possess a clear understanding of all state and district instructional practices and policies relevant to teacher aide responsibility. Anytime an aide is assigned to a new teacher or assignment, he/she shall complete a period of supervised practice. The length of the supervision depends on the "capabilities" and prior experience of the teacher. Each instructional staff member assigned an aide must ascertain that the teacher aide can state clearly the type of performance or behavior which the pupils are expected to demonstrate during the time when the teacher aide is working with pupils. The aides cannot do the following: establish instructional objectives, determine the relevancy of different activities, make decisions concerning the appropriateness of school materials.

TEACHERS

STATUTES

§231.03; 031

No person under twenty years of age may be employed in any instructional capacity in the public schools unless he/she has received a four year degree from an accredited institution of higher learning. No person shall be employed as a principal or supervisor unless he/she is 23 and has had at least two years of experience. A full time teacher must retire at the end of the school year following his/her 70th birthday.

§231.14

No person shall teach in a public school who does not hold a valid teaching certificate, except for employment pursuant to §231.15 and under emergency conditions as provided in §236.0711. A previous Florida residence shall not be a prerequisite for any person holding a valid Florida certificate to teach in Florida public schools.

§231.17

The department of education shall issue an appropriate certificate to persons with the appropriate qualifications who pay the required fee.

To be eligible for certification an applicant shall meet the requirements mentioned and must be a United States citizen, sign a written oath that he/she will uphold the constitution of the U.S., be competent, and of "good moral character," free from malignant, communicable, or mental diseases. This also applies to individuals teaching on an exchange basis. No certification shall be issued to citizens of an anti-democratic government, except to refugees or Cuban resident aliens, who are legally admitted to the U.S. through the Immigration and Naturalization Service. The department of education may deny a certificate to an applicant if it has "evidence satisfactory to [the department] that the applicant has committed an act . . . or a situation exists for which the department would be authorized to revoke a teaching certificate." DENIAL

The department of education's decision is subject to review by the state board of education if the applicant files a written request.

§231.20

Upon fulfilling the requirements for certification, a graduate certificate, valid for five years from the date of issue, shall be issued to any "regular graduate of a standard institution of higher learning".

§231.361

Vocational and other teachers qualifying for certificates on the basis of non-academic preparation shall be entitled to all the contractual rights and privileges now granted to other instructional personnel holding certificates of corresponding rank, but shall not be assigned to teach in a regular academic field of kindergarten through grade twelve.

§231.47

The school board may hire certified part-time teachers for special subjects.

§233.057

Reading and language arts specialists with at least three years teaching experience shall be certified resource specialists. They shall: assist principals and teachers to integrate reading into the curriculum, "assist in preparing a school's developmental reading and language arts program" and "provide for in-service staff development."

Local districts may apply to the Commissioner of Education for funding of a training program for said specialists. The commissioner shall appraise and make recommendations to the legislature on the proposal.

REGULATIONS

6A 1.54 Auth. 229.053(1)

The superintendant is authorized to appoint substitute teachers: when a regular teacher is not available, a certified or non-certified individual may be employed during an emergency. School boards are further authorized to contract with properly certified personnel in order to provide teachers in an emergency when the regular teacher is unable to perform assigned duties.

6A-4.01

All those interested in applying for jobs as teachers shall fill out the proper form, file a health statement from a licensed physician, have copies of college transcripts.

6A-4.02

"Regulations in this section apply to all certificates for teachers of grades K-12 in Florida public schools.

(1) Effective date of certificates. Certificates shall bear an effective date of July 1 of the school fiscal year for which it is issued.

(2) Period of validity. The period of time for which a certificate is valid shall be designated on the face of the certificate . . . .

(7)...The alteration of any certificate with intent to mislead or defraud by any certificate holder or by any other person or agency shall be sufficient grounds for revocation of the certificate . . . .

REVOCATION

(8)...A certification subject or field may be added to a certificate any time provided requirements in effect at the time the addition is requested have been met and an average grade of "C" is maintained in all college courses to be used for adding the subject or field. When any of the following subjects or fields are to be added to a regular certificate, the special methods in the teaching of the subject or field as required in . . . state board of education regulations shall be met: English, mathematics, science, social studies, foreign language, art, music, physical education or elementary education. An official college transcript shall be filed to substantiate credits earned to add a subject or field to a certificate. . . .

(10)...Certificates from other states shall not be valid for teaching in Florida.

(11)...Teaching experience in lieu of credit.

(a) Requirements which may be excused by teaching experience -- An application may use full-time teaching experience in public or nonpublic elementary or secondary

EXPERIENCE

schools toward satisfying certification requirements specified below:

1. General Preparation

2. Professional preparation as follows:

a. foundations of education

b. curriculum at the elementary or secondary level

c. special methods, as provided below:

[1] for elementary education the experience must be verified as including effective performance in teaching of reading, diagnosing reading problems and increasing reading performance.

[2] for subjects grades 1-12, such as art, music, and physical education, the year of experience requirement may be satisfied by:

[a] a year of teaching experience at each level or

[b] a year of teaching experience, including both levels.

[3] for the secondary level, the experience must cover teaching the subject or field to which it is to apply.

d. toward the total credit required in professional preparation.

3. Specialization requirements for a certification subject or field to meet specific course requirements or toward the total number of semester hours required provided that the experience must be in the subject or field to which it is applied.

(b) Requirements which may not be excused by teaching experience. -- Teaching experience may not be used to satisfy the following certification requirements:

1. to extend a certificate.

2. to secure another temporary, graduate, standard post graduate, post standard special post graduate, or advanced post graduate certificate after a previous certificate of the same type has expired.

3. to satisfy a graduate credit requirement.

4. to satisfy an entire certification subject or field.

5. to raise the rank of a certificate.

(c) Limitation on use of teaching experience.--Each year of full-time teaching completed, except for the first year of teaching, may be accepted in lieu of three (3) semester hours of college credit, provided that a maximum of nine (9) semester hours may be allowed for teaching experience with not more than six (6) semester hours allowed toward satisfying requirements for any one of the following:

1. General preparation
2. Professional preparation
3. Specialization requirements for any one (1) certification subject or field. . . .

(13)...Under extenuating circumstances not covered in these regulations the commissioner of education is authorized at his[her] discretion to issue a certificate, upon the request of a superintendent, to an individual to be employed as a teacher in the public schools of the district.

(14)...(a)...A citizen of a nation controlled by forces which are not antagonistic to democratic forms of government may be issued a temporary or provisional certificate on the basis as a citizen of the United States provided:

PROVISIONAL CERTIFICATION

1. The applicant presents evidence that he[she] holds a Bachelor's or higher degree equivalent to the degree granted by a standard institution of higher learning as defined by state board of education regulations, or meets requirements for a rank III or higher rank certificate covering a vocational subject or field. . . .

2. The certificate is requested by the superintendent of the district in which the non-citizen or exchange teacher is to be employed as a teacher and the applicant other than exchange teachers files with his[her] application a copy of his[her] Declaration of Intention. . . .

(b) . . . A resident alien from Cuba may be issued a temporary or provisional certificate on the same basis as a citizen of the United States provided:

1. The applicant presents evidence that he[she] holds

a Bachelor's or higher degree equivalent to the degree granted by a standard institution of higher learning as defined by state board of education regulations, or meets requirements for a rank III or higher rank certificate covering a vocational subject. . . .

2. The certificate is requested by the superintendent of the district in which the resident alien is to be employed as a teacher and the applicant files with his[her] application a copy of his[her] Declaration of Intention. . . .

(c)...A temporary or provisional certificate may be issued to a Cuban citizen refugee or an individual who has been admitted to the United States through the Immigration and Naturalization Service as a refugee upon satisfaction of the following requirements:

1. The applicant presents evidence that he[she] holds a Bachelor's or higher degree equivalent to the degree granted by a standard institution of higher learning as defined by state board of education regulations, or meets requirements for a rank III or higher rank certificate covering a vocational subject. . . .

2. Sign an oath that he[she] is a refugee of the prevailing government of his[her] native country and that he[she] will uphold the principles of the Constitution of the United States.

3. The superintendent who wishes to employ the applicant requests that a certificate be issued.

4. Present a statement from the United States immigration and naturalization service advising that the applicant's file in that office does not contain information derogatory to the applicant.

5. To be eligible for a temporary certificate after the first, the applicant must present a transcript showing six (6) semester hours of college credit acceptable for certification purposes earned by extension or in residence at a standard institution . . . .

(d) . . . A regular certificate may be issued to a citizen of a nation controlled by forces which are not antagonistic to democratic forms of government,

refugees legally admitted to the United States through immigration and naturalization service or resident aliens from Cuba provided:

1. The applicant's credentials satisfy in full all requirements for a regular certificate with the exception of United States citizenship.

2. The superintendent of the district in which the applicant is employed files a statement as part of the application for a regular certificate certifying the facts which show that the individual has satisfied all requirements for a continuing contract in that district except for the requirement of holding a regular certificate and, also certifying that if issued a regular certificate the applicant will be recommended to the school board for employment on a continuing contract for the next regular school year.

(15). . . Teaching experience as used in state board of education regulations for teacher certification purposes shall be defined as: full-time teaching, administrative or supervisory service in a public or non-public elementary or secondary school.

(16). . . A teacher's certificate shall authorize an individual to teach or render service in any subject or field specifically named thereon. If certification in a subject or field is not provided for by specific name in current rules, the commissioner of education is authorized to designate a related specifically named certification subject or field which shall authorize an individual to teach or render service in each subject or field not provided for in current rules. The commissioner of education shall publish the certification subjects or fields which authorize an individual to teach or render service in specific subjects or fields as required by law and state board of education rules in a publication titled "Course Code Directory" which is hereby incorporated by this rule and made a part of the rules of the state board of education . . . .

(20)... It shall be the responsibility of each teacher or

prospective teacher to complete all requirements for the specific type and rank certificate needed and to file with the department of education evidence of such completion. It shall also be his[her] responsibility to maintain proper certification if he[she] wishes to teach in the public schools of Florida."

6A-4.04

"Ranks and types of Florida teaching certificates.

(1) The following 'ranks' and 'types' of Florida teaching certificates may be issued to eligible individuals on the basis of degrees or credits earned at an acceptable institution of higher learning. . . .

(a) Rank 1 - an earned academic doctor's degree granted by a standard institution; other earned academic and earned professional doctor's degree which required seven years of higher education or an earned LLB or higher law degree granted by an institution of higher learning in the United States. The highest earned degree shall be designated on the face of the rank I certificate.

(b) Rank 1A

1. Holds a sixth year post-master's level degree in education from a standard institution of higher learning (e.g., Specialist in Education Degree) or

2. Has completed at least thirty . . . semester hours of graduate credit in a planned doctoral degree program from a standard institution of higher learning to include admission to candidacy for the doctor's degree. . . .

(c) Rank 2 - an earned master's degree (an earned advanced bachelor's degree of a professional nature [i.e., library science] in combination with an earned four year bachelor's degree such as a bachelor of arts, bachelor of science, or bachelor of education degree shall be considered equivalent to the master's degree for the rank 2 certificate.)

(d) Rank 3 -- an earned bachelor's degree such as the BS, BA, or BEd which normally requires four years of higher education . . . .

(e) Rank 4 - At least ninety . . . semester hours

of college credit

(f) Rank 5 - At least sixty . . . semester hours of college credit

(g) Rank 6 - less than sixty . . . semester hours of college credit

(2) Types of certificates

(a) Graduate certificate. The graduate certificate shall be in rank 3, shall be valid for five . . . years and shall show certification in at least one certification subject or field.

1. The graduate certificate showing certification in the major listed on the college transcript may be issued to an applicant who has met all of the following requiremants:

a. Files a completed application

b. Holds a degree acceptable for rank 3 certification . . . .

c. Has a major in a single certification subject . . . .

d. Has completed one of the following:

[1] The undergraduate teacher education program at an institution approved for teacher education by the Florida state board of education or the national council for the accreditation of teacher education, or

[2] Professional preparation . . .

e. Has met the "recency of credit" requirement. . .

f. Has satisfied the general preparation . . .

2. A graduate certificate covering a certification subject or field other than the major shown on the college transcript may be issued to an individual who has met the following requirements:

a. Files a completed application . . .

b. Holds a degree acceptable for Rank 3 certification. . .

c. Has completed professional preparation . . .

d. Meets the specialization requirement for that subject or field . . .

e. Has met the 'recency of credit' requirement . . .

f. Has satisfied the general preparation . . .

(b) Provisional graduate certificate. The provisional graduate certificate shall be in rank 3, shall be valid for three . . . years, and shall show certification in at least one certification subject or field. Only one provisional graduate certificate may be issued to an individual and it may not be reissued, renewed or extended.

1. An applicant who has not met full requirements for the graduate certificate may be issued a provisional graduate certificate provided he[she] has met all the following requirements:

a. Files a completed application . . . .

b. Holds a degree acceptable for rank 3 certification. . . .

c. Has a major single certification subject or field . . . provided, however, that a certification subject or field other than the major may be shown on the provisional graduate certificate when not more than six . . . semester hours of credit are needed to meet full specialization requirements in that subject or field.

d. Has met the 'recency-of-credit' requirement. . .

e. Has satisfied the 'practical experience in teaching' requirement. . . .

(c) . . . The post graduate certificate shall be in rank 2, shall be valid for ten . . . years, and shall show certification in at least one certification subject or field.

1. The advanced post graduate certificate showing certification in the doctoral major may be issued to an applicant who has met all of the following requirements:

a. Files a completed application . . . .

b. Holds a degree acceptable for rank 1 certification. . .

c. Has a doctoral major in a single certification subject or field . . . .

d. Has met professional preparation requirements. . . .

e. Has met the 'recency-of-credit' requirement. . . .

f. Has satisfied the general preparation . . . .

(i) Temporary certificate. The temporary certificate may be issued in rank 1, 1A, 2, 3, 4, 5 of 6 and shall be valid for one . . . year. A temporary certificate in the

academic rank determined by the highest academic degree held may be issued to a qualified applicant who is not eligible for another type certificate of that rank. . . .

Only one certification subject or field may be shown on a temporary certificate unless full specialization requirements have been met . . . .

The commissioner of education is authorized to issue, at the request of the superintendent, any number of temporary certificates to a qualified applicant. . . .

A reissued temporary certificate is one which is issued to an applicant who held a valid temporary certificate of the same rank for the school year immediately preceding the year for which the certificate is requested. . . ."

6A-4.05

EXTENSION

"Extension of certificates. The graduate, post graduate, special post graduate, advanced post graduate, standard, post standard, professional, undergraduate, and certain special certificates, which are valid at the time application is made for extension may be extended in accordance with the following provisions:

(1) General provisions.

(a) All course credit and other requirements necessary for the extension of a certificate shall be completed and proper application filed in the department of education prior to the expiration date of the certificate . . . .

(b) Only one extension may be granted during each five . . . and ten . . .year validity period of a certificate. . . .

(2) Requirements for extension, Certificates may be extended by one of the seven. . .plans listed below:

(a) College credit. Earning six . . . semester hours at a standard institution of higher learning. Correspondence credit shall not be accepted.

(b) Supervision of student teachers may be accepted in lieu of a maximum of three . . . of the six . . . semester hours of credit required for extending a certificate . . . .

(c) Educational travel plus college credit. . . .

(d) Military service . . . .

(e) In-service education participation.....

(f) Teaching performance . . . .

(g) Foreign study. . . ."

6A-4.06

"General and professional preparation. Credit in general and professional preparation as listed below shall be required for the graduate, post graduate, special post graduate, or advanced post graduate certificate unless exemption for a specific certification subject or field is provided for in state board of education rules.

(1) General preparation. A minimum of forty-five . . . semester hours shall be required in general preparation with not less than six . . . semester hours earned and not more than twelve . . . semester hours counted in each of the five areas listed below. A graduate with a bachelor's degree from a standard institution shall be considered to have met the general preparation requirements.

(a) Arts of communication.

1. A minimum of six . . . semester hours shall be required in English composition, rhetoric, or grammar.

2. Up to six . . . semester hours in speech, journalism, or elementary foreign languages may be used to meet the total of twelve . . . semester hours permitted in this area.

(b) Human adjustment. A minimum of six . . . semester hours shall be required in areas such as: health, physical education, psychology, religion, philosophy, logic, ethics, nutrition, problems of living in home and family, or community living.

(c) Biological science, physical sciences and mathematics. A minimum of six . . . semester hours shall be required. Credit may be earned in comprehensive courses or separate subjects. The entire six . . . semester hours shall not be in mathematics.

(d) Social science. A minimum of six . . . semester hours shall be required. Credit may be earned in com-

prehensive courses or in separate subjects; provided credit is earned in at least two . . . of the following: literature (English, American, world), literature written in a foreign language, music, technological skills, construction design and fine arts, or art as applied to personal and family living.

(2) Professional preparation. 'Course requirements in education' and requirements regarding 'practical experience in teaching,' totaling at least twenty . . . semester hours as specified below, shall be required in professional preparation. An applicant who has completed the undergraduate teacher education program including the approved directed teaching experience at an institution of higher learning approved at the time of his[her] graduation, by the National Council for the Accreditation of Teacher Education or the Florida state board of education shall be considered to have met the professional preparation requirements.

(a) Course requirements in education. Course requirements as specified below must be met by each applicant for a graduate, post graduate, special post graduate, or advanced post graduate certificate except that acceptable substitutions are provided for certification in physical therapy, occupational therapy and school lunch.

1. Foundations of education. Six . . . semester hours. Credit must be presented in both the sociological and psychological areas of the instructional program.

a. Sociological foundations. Credit from courses such as those dealing with school and society; introduction to education; history, and principles and philosophy of education.

b. Psychological foundations. Credit from courses such as educational psychology, child psychology, adolescent psychology, psychology of learning, and growth and development of the individual.

2. General methods of teaching, administration and curriculum in the elementary school or secondary school. Six . . . semester hours. Courses should provide an overview of the entire school program and give specific help with respect to the principles of teaching, general curri-

culum, evaluation of the school program, general methods, school organization and administration needed by teachers in the public schools. . . .

3. Special methods.

a. Elementary level.

[1] Competency in the following basic skills in reading instruction:

[a] Identifying reading skills and means of evaluating such skills.

[b] Recognizing and diagnosing reading problems, and

[c] Prescribing and using a variety of appropriate methods and materials to increase reading performance.

[2] These requirements shall be met by college credit in such areas or by two . . . years of successful full-time experience as an elementary classroom teacher combined with effective participation in a district school board inservice reading skills program which has been approved by the commissioner.

b. Grades 1-12. (art, music, physical education). Four . . . semester hours of teaching the subject including credit covering the elementary and secondary level.

c. Secondary level (7-9, 7-12)

[1] Two . . . semester hours in methods of teaching the subject or field are required for the original subject or field shown on a certificate.

[2] Two . . . semester hours in methods of teaching the subject are required for certification in each of the following: (1) English, (2) foreign languages, (3) mathematics; (4) sciences and (5) social studies. When separate subjects are combined to form a broad field, credit may be presented in methods of teaching the broad field or in one of the subjects included in the broad field.

[3] Subjects or fields other than those indicated in [1] and [2] above may be shown on a certificate without methods of teaching the subject or field.

d. Special instructional service, non-teaching fields. Credit in special methods of teaching in the field is not required for special instructional service non-teaching

fields, such as administration, supervision, guidance, library audio-visual service, specialist in school psychology, and visiting teacher.

(b) Practical experience in teaching. Applicants for the provisional graduate, graduate, provisional post graduate, post graduate, special post graduate, and advanced post graduate certificate must complete 'practical experience in teaching' by one of the three . . . plans listed below except that acceptable substitutions may be presented for guidance, specialist in school psychology, speech therapy, and visiting teacher. Directed teaching shall not be required for applicants seeking certification in physical or occupational therapy.

1. Practical experience requirement in teaching may be satisfied by one . . . of the three . . . plans listed below:

a. Six . . . semester hours earned in a college student teaching program or in observation and participation in an elementary or secondary school, or

b. Two . . . years of full-time teaching in a public or non-public elementary or secondary school, and three . . . semester hours in student teaching in an elementary or secondary school, or

c. Three . . . years of full-time teaching in a public or non-public elementary or secondary school. . . ."

6A-4.10

"Specialization requirements for certification in art (grades K-12).

(1) A Bachelor's or higher degree with an undergraduate or graduate major in art, or

(2) A Bachelor's or higher degree with thirty semester hours in art including the areas specified below:

(a) Nine . . . semester hours from: drawing, painting, graphic art and sculpture.

(b) Nine . . . semester hours in crafts: ceramics, metal work, textiles, wood work, plastics, leatherwork, puppetry, etc.

(c) Two . . . semester hours in lettering or commercial

art.

(d) Three . . . semesters history of art or art appreciation. . . ."

6A-4.12

"Business education. Certification may be given in the broad field of business education or separate subjects of bookkeeping and stenography as specified below:

(1) Specialization requirements for certification in business education:

(a) A Bachelor's or higher degree with an undergraduate or graduate major in business education (bookkeeping and stenography), or

(b) A Bachelor's or higher degree with thirty . . . semester hours in business education including at least four of the areas specified below.

1. Six . . . semester hours in accounting.
2. Six . . . semester hours in economics.
3. Six . . . semester hours in shorthand
4. Four . . . semester hours in typing.
5. Two . . . semester hours in business English.
6. Two . . . semester hours in business law.

(2) Specialization requirements for certification in bookkeeping:

(a) A Bachelor's or higher degree with an undergraduate or graduate major in bookkeeping, or

(b) A Bachelor's or higher degree with eighteen . . . semester hours in business education including the area specified below:

1. Six . . . semester hours in accounting.
2. Six . . . semester hours in economics.
3. Two . . . semester hours in business law.

(3) Specialization requirements for certification in stenography:

(a) A bachelor's or higher degree with eighteen. . . semester hours in business education including the areas specified below:

1. Six . . . semester hours in shorthand.

2. Four . . . semester hours in typewriting.

3. Two . . . semester hours in business English. . . ."

6A-4.13

"Specialization requirements for certification in driver education. A Bachelor's or higher degree with a course in each of the areas specified below:

(1) Basic driver education

(2) Advanced driver education

(3) General safety education. . . ."

6A-4.14

"Specialization requirements for certification in early childhood education (nursery and kindergarten).

(1) A Bachelor's or higher degree with an undergraduate or graduate major in early childhood education (nursery and kindergarten), or

(2) A Bachelor's or higher degree with certification in elementary education and six . . . semester hours in special methods and observation in nursery and kindergarten education. . . ."

6A-4.15

"Elementary education. Certification may be given in elementary school or in separate subjects of elementary school English, elementary school math, elementary school science, or elementary school social studies as specified below:

(1) Specialization requirements for certification in elementary education:

(a) A Bachelor's or higher degree with an undergraduate or graduate major in elementary education, or

(b) A Bachelor's or higher degree with twenty-one . . . semester hours in elementary education including credit in each of the areas specified below:

1. Materials for use with children - such as children's literature, audio-visual materials and library materials.

2. Nature study or science for the elementary school.

3. Social studies for the elementary school which may include introductory geography and conservation.

4. Health education and/or physical education for the elementary school.

5. Art for the elementary school.

6. Music for the elementary school.

7. Arithmetic for the elementary school.

(2) Specialization requirements for certification in elementary school English:

(a) A Bachelor's or higher degree with an undergraduate or graduate major in elementary school English, or

(b) A Bachelor's or higher degree with specialization requirements met in junior high school, junior high school English, or secondary school English, verification by a Florida district superintendent of at least one . . . year of successful teaching experience of English in a Florida departmentalized elementary school and either successful performance in components of an approved in-service master plan appropriate for elementary school teachers or a course in methods of teaching mathematics in an elementary school.

(3) Specialization requirements for certification in elementary school mathematics:

(a) A Bachelor's or higher degree with an undergraduate or graduate major in elementary school mathematics, or

(b) A Bachelor's or higher degree with specialization requirements met in junior high school, junior high school mathematics, or secondary school mathematics, verification by a Florida district superintendent of at least one . . . year of successful teaching experience of mathematics in a Florida departmentalized elementary school and either successful performance in components of an approved in-service master plan appropriate for elementary school teachers or a course in methods of teaching mathematics in an elementary school.

(4) Specialization requirements for certification in elementary school science:

(a) A Bachelor's or higher degree with an undergraduate or graduate major in elementary school science, or

(b) A Bachelor's or higher degree with specialization requirements met in junior high school, junior high school science, secondary school physics, chemistry, biology or earth science, verification by a Florida district superintendent of at least one . . . year of successful teaching experience of science in a Florida departmentalized elementary school and either successful performance in components of an approved in-service master plan appropriate for elementary school teachers or a course in methods of teaching science in the elementary school.

(5) Specialization requirements for certification in elementary school social studies:

(a) A Bachelor's or higher degree with an undergraduate or graduate major in elementary school social studies, or

(b) A Bachelor's or higher degree with specialization requirements met in junior high school, junior high school social studies, or secondary school social studies, verification by a Florida district superintendent of at least one . . . year of successful teaching experience of social studies in a Florida departmentalized elementary school and either successful performance in components of an approved in-service master plan appropriate for elementary school teachers or a course in methods of teaching social studies in the elementary school. . . ."

"Specialization requirements for certification in English (grades 7-12).

(1) A Bachelor's or higher degree with an undergraduate major in English, or

(2) A Bachelor's or higher degree with thirty (30) semester hours in English as specified below: (Courses in journalism or foreign language not to exceed six . . . semester hours may be used toward the total of thirty . . . semester hours.

(a) Six . . . semester hours in freshman English.

(b) Three . . . semester hours in fundamentals of speech.

(c) Three . . . semester hours in advanced composition.

(d) Three . . . semester hours in English grammar beyond freshman English.

(e) Twelve . . . semester hours in literature (including American, English and contemporary). . . ."

"Exceptional child education (grades K-12). Certification in exceptional child education shall be shown in specific areas of disabilities as specified below:

(1) Specialization requirements for certification in mental retardation (grades K-12).

(a) A Bachelor's or higher degree with a major in exceptional child education with specialization in mental retardation, or

(b) A Bachelor's or higher degree with thirty-two . . . semester hours including the areas specified below:

1. Nine . . . semester hours including credit in each of the following:

a. survey course in the education of exceptional children.

b. introduction to language development and speech disabilities.

c. principles of human development or child and adolescent psychology.

2. Nine . . . semester hours including credit in each of the following:

a. teaching of sequential developmental skills and concepts of reading at the elementary level

b. teaching of sequential developmental skills and concepts of arithmetic at the elementary level
